§ 7.302 *Points of communication.* (a) Public coast stations using telephony are authorized to communicate normally with the classes of stations designated herewith, subject to the conditions and limitations imposed by the terms of the particular coast station license or by the applicable provisions of this part with respect to the use of particular radio-channels:

(1) On the radio-channels of which 2182 kc and 156.8 Mc are the authorized carrier frequencies; with any ship station (and on 2182 kc with any aircraft station) using telephony other than for the transmission of public correspondence;

(2) With public ship stations licensed by the Commission and using telephony on a frequency assignment designated in Part 8 of the Commission's rules for ship-shore public correspondence;

(3) With ship stations of the United States Government (other than limited ship stations subject to section 301 of the Communications Act) using telephony on a Government frequency assignment or on a frequency assignment designated in Part 8 of the Commission's rules for ship-shore public correspondence;

(4) With ship stations of any foreign country using telephony on an appropriate frequency assignment designated in Part 8 of the Commission's rules for ship-shore public correspondence or available in accordance with the International Radio Regulations for ship to shore transmission of public correspondence by telephony;

(5) With aeronautical public service stations and United States Government stations on board aircraft in flight using telephony on a frequency assignment (below 30 Mc) available for ship-shore public correspondence as expressed in subparagraphs (2), (3), and (4) of this paragraph (provided neither harmful interference nor intolerable delay is caused to communication with ship stations);

(6) With marine fixed stations when the coast station uses for this purpose a frequency assignment below 4000 kc (this authority applies solely to public coast stations providing direct connection with a public land-line telephone system and upon the express condition that neither harmful interference nor intolerable delay is caused to communication with ship stations).

(b) Additionally, when necessary to expedite communication with a ship station using telephony on a frequency assignment above 100 Mc, public coast stations may communicate on the assigned frequency 156.8 Mc with other coast stations (public, limited, or Government) for the exchange of operating signals, brief service messages, and emergency messages; on condition that such communication shall not interfere with calls from or to mobile stations.

(c) Upon application, a public coast station using telephony may be specifically authorized by the terms of its station authorization to communicate with a designated station (Government or non-Government) at a remote fixed location isolated from the mainland where other communication facilities are not available: *Provided*,

(1) The station with which communication is carried on is duly authorized to communicate with the particular coast station involved; and

(2) The station with which communication is carried on shall transmit by telephony to the coast station on a frequency assignment available for ship-shore public correspondence in accordance with the provisions of Part 8 of the Commission's Rules for public ship stations using telephony; and

(3) Any communication carried on shall be confined exclusively to that absolutely necessary for public safety or the protection of life or property; and

(4) Neither harmful interference nor intolerable delay is caused to safety communication with ship stations.

(d) Upon application, a public coast station using telephony may be author-

UNIVERSITY OF MICHIGAN LIBRARIES

ized to transmit meteorological and marine navigational information, of benefit to mariners, additionally to designated fixed locations, whenever the same information is transmitted by such coast station simultaneously and primarily to ship stations; *Provided*, A sufficient need for such authorization is shown to exist.

§ 7.303 *Duplication of facilities.* A public coast station shall not be authorized in behalf of any person or government agency who applies for construction permit or station license to provide a maritime mobile service by the use of any frequency assignment above 100 Mc to any geographic area which is being, or is to be, adequately served by the use of any frequency assignment above 100 Mc by a public coast station or stations already authorized by the Commission in behalf of a different person or government agency, unless the Commission shall, in individual cases under exceptional circumstances, determine that the public interest, convenience, or necessity would be served by the grant of such construction permit or license.

§ 7.304 *Assignable frequencies.* (a) Each of the specific frequencies in kilocycles hereinafter designated in this subsection may be licensed as an authorized carrier frequency [1] for use by public coast stations employing telephony by means of amplitude modulation subject to and in accordance with paragraph (d) of this section, other applicable sections of this subpart, and Subpart E of this part:

2,182	2,590	6,455	12,810
2,506	2,598	6,460	12,840
2,514	2,782	6,470	17,080
2,522	4,162.5	6,480	17,090
2,530	4,177.5	8,540	17,100
2,538	4,272.5	8,550	17,120
2,550	4,280	8,585	21,890
2,558	4,282.5	8,630	22,675
2,566	4,287.5	8,660	22,700
2,572	4,752.5	8,840	
2,582	6,240	11,090	

(b) Each of the specific frequencies in megacycles hereinafter designated in this subsection may be licensed as an authorized carrier frequency for use by public coast stations employing telephony by means of frequency modulation subject to and in accordance with the provisions of other applicable sections of this subpart and Subpart E of this part:

156.8	156.4	161.9	162.0

(c) (1) The following specific frequencies may be licensed as authorized carrier frequencies for use by those public coast stations using telephony which, prior to September 1, 1950, were authorized to use the respective frequency set forth below:

Carrier frequency:	*Authorized for public coast station(s) in vicinity of—*
35.14 Mc	Philadelphia, Pa.
35.18 Mc	Great Lakes region.

(2) The stations authorized to transmit on the radio-channel of which either 35.14 Mc or 35.18 Mc is the authorized carrier frequency, may employ either frequency modulation or amplitude modulation. Each of these carrier frequencies is available for use on a shared basis with limited coast stations, ship stations, marine-utility stations, and aircraft stations operating in the maritime mobile service at any location on the same radio-channel; they are not available exclusively for public correspondence. Licensees having authority to transmit on these frequencies shall cooperate in the use thereof in order to minimize interference.

(3) Applicants for public coast station authorization, or modification or renewal of station authorization, whose applications request authority to transmit on 35.14 or 35.18 Mc may be required, in the discretion of the Commission, to show a need for the use of such frequencies for public correspondence in lieu of the specific frequencies above 156 Mc authorized in this Subpart for public correspondence exclusively.

(d) Assignment of the specific carrier frequencies designated in paragraphs (a) and (b) of this section and use of frequency assignments of which those frequencies are the authorized carrier frequencies shall be subject to the express limitations and conditions hereinafter set forth in this paragraph.

(1) The frequency 2182 kc is the radiotelephone calling and distress frequency for the maritime mobile service of the United States. This frequency is authorized for use primarily by ship stations and secondarily by coast stations employing telephony, on a shared basis with stations of other countries; *Provided, however*, That its use for purposes other than distress shall not cause interference to stations of the maritime mobile service within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 600 nautical miles of Vancouver, British Columbia, which, for a temporary period, continue in accordance with their respective station authorizations to use this frequency, or other frequencies within the band 2170 kc to 2194 kc, for working.

(2) The frequencies 2530, 2538, 2558, and 2598 kc are authorized for use upon the express condition that interference shall not be caused to the service of any station of Canada.

(3) The frequencies 2514, 2522, 2550,[2] 2572, and 2582 kc are authorized for use upon a shared basis with stations of Canada, provided that stations of the United States shall not cause interference to stations of Canada in the Great Lakes area which operate on the frequency 2562 kc.[3]

(4) The frequency 2782 kc is authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes); such use of this frequency is subject to coordination with stations operating in the fixed service at other locations in the United States, in order that interference shall be avoided or reduced to a minimum.

(5) The frequency 4162.5 kc is authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes); such use of this frequency is authorized upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

(6) The frequency 4272.5 kc is authorized for use upon the express condition that interference shall not be caused to the service of any station of Canada.

(7) In the Great Lakes region, the frequencies 4282.5, 6470, and 8585 kc are authorized for use upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

(8) The frequencies 6,240, 6,455, and 11,090 kc are authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes), upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused. In order to avoid such interference, transmission on these frequencies during the period from two hours after local sunset until two hours before local sunrise is prohibited.

(9) Use of the frequency 8840 kc by coast stations serving vessels on the Mississippi River and connecting inland waters (except the Great Lakes) is authorized upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused. In order to avoid such interference, transmission on this frequency for this purpose during the period from two hours after local sunset until two hours before local sunrise is prohibited.

(10) Use of the frequencies 8540 kc and 8550 kc is authorized upon the express condition that interference shall not be caused to the intercontinental aeronautical services.

(11) Use of the frequency 156.4 Mc for public correspondence is authorized for public coast stations located within 75 statute miles of Chicago, Illinois, only.

§ 7.305 *Frequencies for calling and distress.* (a) The general radiotelephone calling and distress frequency for the maritime mobile service of the United States [4] is 2182 kc; it may be used as a carrier frequency for these purposes by public coast stations subject to the following conditions and limitations:

(1) Aside from transmissions relative to distress as provided in Subpart G of this part, this frequency may be used for urgency and safety signals and for urgency messages (other than public correspondence);

(2) This frequency is authorized for call and reply only when the use of a different carrier frequency for this function appears to be impracticable by reason of the operating or equipment limitations of a mobile station.

(3) In addition, this frequency may be used to announce transmissions, to be made soon thereafter on other frequencies by the same coast station, when the transmissions which are to follow on other frequencies are of general interest to ships, including ordinary weather and hydrographic information; or lists of ship stations with whom the coast station desires to communicate.

(4) The use of this frequency for purposes other than distress within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 600 nautical miles of Vancouver, British Columbia, shall not cause interference to stations of the maritime mobile service which, for a temporary period, continue in accordance with their respective station authorizations to use this frequency, or other frequencies within the band 2170 kc to 2194 kc inclusive, for working.

(b) The radiotelephone frequency for call and reply for the maritime mobile service of the United States using frequencies within the band 156.25 Mc to 162.05 Mc is 156.8 Mc. It may be used by public coast stations as prescribed in § 7.309.

(c) In addition to the radio-channels of which the carrier frequencies are specifically authorized herein for "calling", the radio-channels authorized in this Subpart for "working" may be used for call and reply, provided interference is not caused to any communication in progress on the particular working channel.

§ 7.306 *Availability of frequencies below 30 Mc.* (a) The carrier frequencies designated herewith are assignable to Class I public coast stations using telephony when the coast station and the mobile station transmit alternately on different radio channels: *Provided*, That the designated carrier frequencies below 5000 kc are assignable only to coast stations located in the vicinity of the specific harbors, ports, or places designated hereinafter opposite the respective coast station transmitting frequency: *Provided further*, That the coast station shall receive transmission from mobile stations on the associated receiving frequency below 5000 kc also designated herewith:

(1) Working frequencies below 5000 kc:

Coast station transmitting carrier frequency [1]	Coast station located in vicinity of—	Coast station receiving carrier frequency
2506 kc	San Francisco, Calif.	2110 kc.
2530 kc	Hawaiian Islands	2134 kc.
2590 kc	New York, N. Y.	2198 kc.
4177.5 kc	do	4412.5 kc.
4280 kc	Hawaiian Islands	4402.5 kc.
4752.5 kc	San Francisco, Calif.	4422.5 kc.
	New York, N. Y.	4457.5 kc.

[1] These frequencies are those which may be specified applications for coast station authorizations.

(2) Working frequencies between 5000 kc and 30 Mc:

6,460	8,550	12,840	17,120
6,470	8,630	17,080	21,890
6,480	8,660	17,090	22,675
8,540	12,810	17,100	22,700

(b) The carrier frequencies designated herewith are assignable for working purposes to Class II public coast stations using telephony when the coast station and the mobile station transmit alternately on different radio channels: *Provided*, That these frequencies are assignable only to coast stations located in the vicinity of the specific harbors, ports, or places designated hereinafter opposite the respective coast station transmitting frequency: *Provided further*, That the coast station shall receive transmission from mobile stations on the associated receiving frequency also designated herewith:

Coast station transmitting carrier frequency [1]	Coast station located in vicinity of—	Coast station receiving carrier frequency
2506 kc	Boston, Mass.	2110 kc.
	San Francisco, Calif.	
	Eureka, Calif.	
2514 kc	Miami, Fla.	2118 kc.
	Great Lakes area	
2522 kc	Seattle, Wash.	2126 kc.
	New York, N. Y.	
	Galveston, Tex.	
2530 kc	Hawaiian Islands	2134 kc.
	San Juan, P. R.	
2538 kc	Norfolk, Va.	2142 kc.
	Quantico, Va.	
2550 kc	Tampa, Fla.	2158 kc.
	Great Lakes area	
2558 kc	Wilmington, Del.	2166 kc.
	New York, N. Y.	
	Charleston, S. C.	
2566 kc	Jacksonville, Fla.	2174 kc.
	Los Angeles, Calif.	
	Great Lakes area	2206 kc.[2]
2582 kc	Hawaiian Islands	2198 kc.
2590 kc	New York, N. Y.	2198 kc.
2598 kc	New Orleans, La.	2206 kc.
	Portland, Oreg.	
	Astoria, Oreg.	
	Boston, Mass.	4412.5 kc.
4177.5 kc	New York, N. Y.	4412.5 kc.
	Hawaiian Islands	4402.5 kc.
	San Francisco, Calif.	4422.5 kc.
4280 kc	Los Angeles, Calif.	
4282.5 kc	Great Lakes area	4422.5 kc.
4287.5 kc	Miami, Fla.	4402.5 kc.
4752.5 kc	New York, N. Y.	4457.5 kc.
6470 kc	Great Lakes area	6660 kc.
8585 kc	do	8820 kc.

[1] These frequencies are those which may be specified in applications for coast station authorizations.
[2] For reception from ship stations of Canada only.

The carrier frequency 2582 kc is assignable to public coast stations in the Great Lakes area for transmission to ship stations of Canada only.

In addition to the foregoing frequencies below 30 Mc., the frequencies 2572 kc and 4272.5 kc are assignable as carrier frequencies for telephony to Class II public coast stations at locations where their use will not cause interference to the service of any station which in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused. Further, use of the carrier frequency 4272.5 kc shall not cause interference to the service of any station of Canada.

(c) The carrier frequencies designated herewith are assignable for working purposes to Class II public coast stations using telephony and serving vessels on the Mississippi River and connecting inland waters (other than the Great Lakes); when the coast station and the mobile station transmit alternately on the same radio-channel:

2,782 kc	6,240 kc	8,840 kc
4,162.5 kc	6,455 kc	11,090 kc

(d) The use of the working frequencies authorized in paragraphs (a), (b), and (c) of this section is subject to the applicable conditions and limitations set forth in paragraph (d) of § 7.304. Further, and in so far as is practicable, Class II coast stations shall use frequency assignments within the band 4000 kc to 30 Mc. only when the use of frequency assignments outside this band will not provide effective communication.

§ 7.307 *Availability of frequencies above 100 Mc.* (a) Carrier frequencies which are assignable for use by public coast stations employing frequency modulation for telephony are designated herewith (these frequency assignments are not authorized for use in communicating with aeronautical public service stations on board aircraft):

(1) For transmission and reception on the same radio-channel:

156.8 Mc for calling and safety purposes;
157.1 Mc for working at locations where use of the normally assignable carrier frequency 162 Mc would cause harmful interference to United States government stations using frequencies in the government frequency-band 162–174 Mc; or for working at locations where interference is not caused to the use of this frequency for reception from ship stations as contemplated under subparagraph (2) of this paragraph;
157.4 Mc for working at locations where interference is not caused to the use of this frequency for reception from ship stations as contemplated under subparagraph (2) of this paragraph.

(2) For transmission on one radio-channel and associated reception on a different radio-channel:

For transmission:	*For reception (Mc)*
161.9 Mc (except within 75 statute miles of Chicago, Ill.)	157.4
156.4 Mc (within 75 statute miles of Chicago, Ill., only)	157.4
162 Mc (subject to paragraph (d) of this section)	157.1

Each of these assignable frequencies is available on a shared basis only and shall not be construed as available for the exclusive use of any one station licensee.

[1] The definition of "authorized carrier frequency" is set forth in paragraph (l) of § 7.8.

[2] In practice, stations of Canada in the Great Lakes area do not operate on the frequency 2550 kc.

[3] In practice in the Great Lakes region, coast stations of Canada equipped to do so transmit on 2550 kc to ships of the United States only; coast stations of the United States transmit on 2582 kc to ship stations of Canada only.

[4] The frequency 2182 kc will be formally recognized as the international radio-telephone distress and calling frequency in Region 2 not later than the date on which Article 3 of the Inter-American Radio Agreement, Washington, 1949, becomes effective, and in Regions 1, 2, and 3 (world-wide) not later than the date on which the new International Frequency List becomes effective as provided by Article 47 of the International Radio Regulations, Atlantic City, 1947.

UNIVERSITY OF MICHIGAN LIBRARIES

(b) Subject to the provisions of § 7.308, the carrier frequency 161.9 Mc may be authorized for use by public coast stations using telephony at any location except Chicago, Illinois, and locations within 75 statute miles thereof.

(c) Subject to the provisions of § 7.308, the carrier frequency 156.4 Mc may be authorized for use by public coast stations employing telephony, in lieu of the carrier frequency 161.9 Mc, at Chicago, Illinois, and locations within 75 statute miles thereof, only.

(d) Subject to the provisions of § 7.308, the carrier frequency 162 Mc may be authorized for use by public coast stations at any location where, as a result of such use, harmful interference will not be caused to United States government stations using frequencies in the government frequency-band 162–174 Mc.

§ 7.308 *Conditions imposed upon assignments in 156–162 Mc band.* (a) The carrier frequency 161.9 Mc (or alternatively 157.4 Mc subject to the provisions of paragraph (a) (1) of § 7.307) is assignable primarily to public coast statons employing frequency modulation for telephony which provide service to one or more of the harbors or ports designated herewith:

Portland, Maine	Coos Bay, Oreg.
Albany, N. Y.	Portland, Oreg.
Boston, Mass.	Takoma, Wash.
Providence, R. I	Seattle, Wash.
New Haven, Conn.	Everett, Wash.
New York, N. Y.	Duluth, Minn.
Philadelphia, Pa.	Superior, Wis.
Baltimore, Md.	Two Harbors, Minn.
Norfolk, Va.	Ashland, Wis.
Newport News, Va.	Presque Isle (Marquette County), Mich.
Hampton Roads, Va.	
Charleston, S. C.	
Savannah, Ga.	Marquette, Mich.
Jacksonville, Fla.	Port Inland, Mich.
Miami, Fla.	Escanaba, Mich.
Tampa, Fla.	Green Bay, Wis.
Mobile, Ala.	Milwaukee, Wis.
New Orleans, La.	Ludington, Mich.
Baton Rouge, La.	Calcite (Rogers City), Mich.
Lake Charles, La.	
Port Arthur, Tex.	Detroit, Mich.
Beaumont, Tex.	Toledo, Ohio.
Texas City, Tex.	Sandusky, Ohio.
Galveston, Tex.	Lorain, Ohio.
Houston, Tex.	Cleveland, Ohio.
Corpus Christi, Tex.	Ashtabula, Ohio.
Port Aransas, Tex.	Conneaut, Ohio.
San Diego, Calif.	Erie, Pa.
Long Beach, Calif.	Buffalo, N. Y.
Wilmington, Calif.	Pittsburgh, Pa.
Port San Luis, Calif.	Louisville, Ky.
Estero Bay, Calif.	St. Louis, Mo.
San Francisco, Calif.	Memphis, Tenn.

Public coast stations (except stations located at Chicago, Ill., or within 75 statute miles thereof) which provide service to any harbor or port not specifically designated in this subsection may be assigned the carrier frequency 161.9 Mc (or alternatively 157.4 Mc subject to the provisions of paragraph (a) (1) of § 7.307) upon the express condition that (1) such assignment shall be on a secondary basis with respect to use of this assigned frequency by a station or stations providing service (existing or in the future) to any harbor or port specifically designated in this paragraph and (2) interference shall not be caused to the service rendered any harbor or port specifically designated in this paragraph.

(b) The carrier frequency 162 Mc (or alternatively 157.1 Mc. subject to the provisions of paragraph (a) (1) of § 7.307) is assignable to public coast stations employing frequency modulation for telephony which are located at Chicago, Ill., or within 75 statute miles thereof and provide service to one or more of the harbors or ports designated herewith:

Chicago, Ill.	Indiana Harbor, Ind.
Gary, Ind.	

In addition, the carrier frequency 156.4 Mc or alternatively 157.4 Mc subject to the provisions of paragraph (a) (1) of § 7.307) is assignable to public coast stations which are located at Chicago, Ill., or within 75 statute miles thereof and provide service to one or more of the harbors or ports specifically designated in this paragraph.

Public coast stations which provide service to any other harbor or port within 75 statute miles of Chicago, Ill., may be assigned the carrier frequency 162 Mc. (or alternatively 157.1 Mc. subject to the provisions of paragraph (a) (1) of § 7.307) or the carrier frequency 156.4 Mc. (or alternatively 157.4 Mc. subject to the provisions of paragraph (a) (1) of § 7.307) upon the express condition that (1) such assignment shall be on a secondary basis with respect to use of either of these assigned frequencies by a station or stations providing service (existing or in the future) to one or more of the harbors or ports specifically designated in this paragraph and (2) interference shall not be caused to the service rendered any harbor or port specifically designated in this paragraph.

(c) In addition to the provisions of paragraph (b) of this section, the carrier frequency 162 Mc. (or alternatively 157.1 Mc. subject to the provisions of paragraph (a) (1) of § 7.455) is assignable to any public coast station employing frequency modulation for telephony and located more than 75 miles from Chicago, Illinois: *Provided,*

(1) The carrier frequency 162 Mc. (or alternatively 157.1 Mc.) normally shall be assigned only to a station licensee who already is licensed to use the carrier frequency 161.9 Mc. (or alternatively 157.4 Mc.) to provide service to the particular harbor(s) or port(s) involved and who is utilizing the latter assigned frequency at maximum capacity to provide such service under the prevailing conditions of operation; or the applicant for authority to use 162 Mc. (or alternatively 157.1 Mc.) is not in a position to use the carrier frequency 161.9 Mc. (or alternatively 157.4 Mc.) because the use thereof in the geographic area involved would create interference to stations already authorized to use this carrier frequency; and

(2) The licensee of any coast station to which the carrier frequency 161.9 Mc. is already assigned who applies for additional authority to use the carrier frequency 162 Mc. (or alternatively 157.1 Mc.) shall fully justify a need for such additional frequency assignment; and

(3) Any other applicant for authority to use the carrier frequency 162 Mc. (or alternatively 157.1 Mc.) shall show a need for such frequency assignment in lieu of the carrier frequency 161.9 Mc. (or alternatively 157.4 Mc.).

§7.309 *Use of assigned frequency 156.8 Mc.* (a) The radio-channel of which 156.8 Mc. is the authorized carrier frequency is designated primarily for calling and safety purposes. It may be used for safety communication [4] as an alternative to the radiotelephone calling and distress frequency 2182 kc, when appropriate, by public coast stations employing telephony for short-distance communication.

(b) In addition to the provisions of paragraph (a) of this section, this radio-channel may be used when necessary by public coast stations for:

(1) Call, reply, and the exchange of brief operating signals;

(2) Brief operating signals preparatory to working an another radio-channel;

(3) Announcing transmission to be made soon thereafter, on another radio-channel, which transmission is of general interest to ship stations, including ordinary weather and hydrographic information; and

(4) In accordance with the provisions of paragraph (b) of § 7.302, the exchange with other coast stations of operating signals, brief service messages, and emergency messages; on condition that such communication shall not interfere with calls from or to mobile stations.

(c) The use of this radio-channel by public coast stations for transmission of any other category is not authorized.

(d) Although use of the assigned frequency 156.8 Mc. by public coast stations for call and reply is authorized, calling and replying by these stations shall, in general, be conducted on a radio-channel authorized primarily for working.

§ 7.310 *Identification of station.* (a) All radiotelephone emissions of a public coast station shall be clearly identified by voice transmission therefrom in the English language of either the official call sign assigned to that station by the Commission or the approximate geographic location of the station as approved [5] in each case by the Commission upon request made by the station licensee or permittee: *Provided,* That, in addition to identification of the station by voice, the official call sign may be clearly transmitted by tone-modulated telegraphy in the International Morse Code either by a duly licensed radiotelegraph operator or by means of an automatic device approved [6] for this purpose by the Commission. Identification as herein prescribed shall be made—

(1) At the beginning and upon completion of each communication with any other station; and

[4] See paragraph (a) of § 7.7 for the definition of safety communication.

[5] Such voice identification as "Washington marine operator" to indicate that the station is located at or near Washington, D. C., may be approved if there will be no conflict with identification of any other station.

[6] The conditions to be met by such a device in order to obtain the approval of the Commission will be determined and will be incorporated in proposed rule-making.

(2) At the beginning and upon conclusion of each transmission made for any other purpose.

§ 7.311 *Procedure in testing.* (a) Public coast stations are authorized to carry on such routine tests as may be required for the proper maintenance of the station provided each such station shall use every precaution to insure that, when conducting operational transmitter tests, the emissions of the station will not cause harmful interference. Radiation must be reduced to the lowest practicable value and if feasible shall be entirely suppressed. When radiation is necessary or unavoidable, the radiotelephone testing procedure described below shall be followed:

(1) The licensed radio operator responsible for operation of the transmitting apparatus shall ascertain by careful listening that the test emissions will not be likely to interfere with transmissions in progress;

(2) The official call sign and the geographic location of the testing station, followed by the word "test," shall be announced by voice on the radio-channel being used for the test, as a warning that test emissions are about to be made on, that frequency;

(3) If, as a result of the announcement prescribed in subparagraph (2), any station transmits by voice the word "wait," testing shall be suspended. When, after an appropriate interval of time, such announcement is repeated and no response is observed, and careful listening indicates that harmful interference should not be caused, the operator shall proceed as set forth in subparagraph (4);

(4) The operator shall repeat the word "test" followed by the count "1, 2, 3, 4, • • • etc.," which in turn shall be followed by voice announcement of the official call sign of the testing station and its approximate geographic location.

(b) When radiotelephone testing is conducted on the assigned frequency 2182 kc or 156.8 Mc, the test transmissions shall not continue for more than 10 seconds.

§ 7.312 *General radiotelephone operating procedure*—(a) *Limitations on calling.* (1) Except when transmitting a general call to all stations within range for announcing or preceding the transmission of distress, urgency, or safety messages, a public coast station shall call the particular station with which it intends to communicate.

(2) Public coast stations may use authorized [7] classes of emission for selective-calling on each radio-channel authorized for working. The use of selective-calling on the radio-channel of which either 2182 kc or 156.8 Mc is the authorized carrier frequency is prohibited.

(3) Calling a particular station, either by voice or by other means, shall not continue for a period of more than thirty seconds in each instance. If the called station is not heard to reply, that station shall not again be called until after an interval of five minutes.

(4) Each public coast station, when using selective-calling to secure the attention of a ship station with which it intends to communicate, shall transmit the type of signal and the particular signal code necessary to actuate the automatic attention device (selective ringer) known to be installed in the particular ship station and normally used for monitoring the coast station radio-channel which is used for transmitting such calls.

(5) Except in the event of an emergency involving safety, a public coast station, with respect to operation on any radio-channel which is used also by other coast stations within the same communication area, shall not answer, or attempt to answer, a ship station until the latter has transmitted the call sign or name of the particular coast station with which it desires to communicate.

(6) A public coast station shall not attempt to communicate with a ship station that has specifically called another coast station until it becomes evident that the called station does not answer, or that communication between the ship station and the called station cannot be carried on because of unsatisfactory operating conditions.

(b) *Time limitation on calling frequency.* Transmission by coast stations on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency (including calls, answers, operating signals, and conversation pertaining to safety) shall be kept to a minimum and in general any one exchange of communications shall not exceed 3 minutes in duration. In the event of distress or other emergency, this time limitation shall not apply.

(c) *Change to working frequency.* After establishing communication with another station by call and reply on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency, coast stations shall change to an authorized working channel for the transmisison of messages which, under the provisions of this Subpart, cannot be transmitted on the respective calling channel.

(d) *Time limitation on public correspondence.* Any one exchange of public correspondence between a public coast station and a public ship station shall not exceed 10 minutes in duration. The period of time required to establish connection between a public land-line telephone and the ship station, prior to actual exchange of public correspondence, is not included within this time limitation. Subsequent to any one exchange of public correspondence of ten minutes or less, the same working channel shall not again be used by the coast station for communication with the same ship station until five minutes have elapsed; provided that this limitation shall not apply in event of an emergency involving safety.

(e) *Use of busy signal.* A public coast station, when communicating with a ship station which transmits to the coast station on a radio-channel which is a different channel from that used by the coast station for transmission, may transmit a "busy" signal whenever transmission from the ship stations is being received and during such other periods of time, pending completion of any one exchange of communications, as may be considered necessary by the coast station to avoid or minimize interference from other stations.

(f) *Limitation on 6470 kc and 8585 kc on Great Lakes.* Public coast stations in the Great Lakes area, authorized to use the carrier frequency 6470 kc or 8585 kc pursuant to § 7.304 (d) (7), shall, during the periods from local sunset to local sunrise, not transmit on these frequencies whenever the necessary communication can be effected on authorized frequencies below 5000 kc or above 30 Mc.

§ 7.313 *Station documents.* Public coast stations using telephony shall be provided with and have readily available during their hours of service the documents hereinafter specified:

Document	*Class of public coast station which must be provided with the document listed in the column at the left*
Parts 7 and 8 of the Commission's rules	Classes I, II, and III.
Valid station license	Classes I, II, and III.
Necessary operator license or licenses	Classes I, II, and III.
Station log required by this part	Classes I, II, and III.
Alphabetical List of Call Signs prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).	Class I; and Class II stations that provide communication with ocean-going vessels.
List of Coast Stations and Ship Stations prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).	Class I; and Class II stations that provide communication with ocean-going vessels.

§ 7.314 *Station records.* (a) Public coast stations using telephony shall maintain an accurate radiotelephone log during their hours of service, as hereinafter specified:

(1) Each sheet of the log shall be numbered in sequence and dated and shall include the official call sign of the coast station and also the signature(s) of the licensed operator(s) performing operating duties.

(2) The entry "on duty" shall be made by the operator beginning a duty period, followed by his signature. The entry "off duty" shall be made by the operator being relieved of or terminating a duty period, followed by his signature. All log entries shall be currently completed and all entries shall, unless otherwise stated, be made by a licensed operator on duty. The use of initials or signs is not authorized in lieu of any operator's signature required by this section.

(3) The time of making an entry shall be shown opposite the entry and shall be expressed in Greenwich mean time (GMT), except that, in the Great Lakes region, the time shall be expressed in eastern standard time (e. s. t.) (counted from 00:00 to 24:00 o'clock, beginning at

[7] See those provisions of Subpart E relative to authorized classes of emission.

midnight) and for public coast stations which communicate exclusively with vessels on inland waters of the United States (other than the Great Lakes) the time shall be expressed in local standard time (e. s. t., c. s. t., etc., counted from 00:00 to 24:00 o'clock, beginning at midnight). The first entry in each hour shall consist of 4 figures; additional entries in the same hour may be expressed in 2 figures by omitting the hour designation. The abbreviation "GMT" (e. s. t. in the Great Lakes area) (e. s. t., c. s. t., etc., for stations serving inland waters exclusively) shall be marked at the head of the column in which the time is entered.

(4) With respect to public coast stations, which by reason of the provisions of Subpart G of this part, are required to maintain a watch on the radio-channel designated for radiotelephone calling and distress (assigned frequency 2182 kc), or on the radiotelephone calling channel above 100 Mc (assigned frequency 156.8 Mc), entries shall be made showing each time this watch is begun, suspended, or concluded; without any requirement, however, of making such entries during interruption of this watch as may be necessary during hours of service for calling, answering and exchanging operating signals and safety communications on this radio-channel. These entries shall be made by the licensed operator(s) on duty who is (are) designated and authorized by the station licensee to do so; the name and signature of the operator(s) making these entries and the operator(s) who actually maintains such watch shall appear in the log and shall be properly related to each particular entry for this purpose.

(5) All radiotelephone distress, urgency or safety signals and communications made or intercepted; the complete text, if possible, of such communications; and any information which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation or occurrence, identification of the radio channel(s) on which such signals or messages were transmitted or received, and the position of any ship, or other mobile unit in need of assistance, if this can be determined. These entries shall be made by the licensed operator(s) on duty who is (are) designated and authorized by the station licensee to do so; the name and signature of the operator(s) making these entries shall appear in the log and shall be properly related to each particular entry of this category.

(6) All calls transmitted from or received by a coast station shall be entered, showing the call signs or names of vessels; the time, and the assigned frequencies involved: *Provided, however,* That when the manual operations of switching and handling of telephone calls directly between a ship telephone station and landline telephone facilities are not normally performed by a licensed radio operator, the entries prescribed by this subsection may be omitted from the station log upon the express condition that equivalent records shall be currently maintained by the station licensee. Such records shall be made available upon request of an authorized Commission representative. The equivalent records shall include the time and such other notations as are necessary to identify the frequency(s) employed and the station(s) communicated with or heard. In addition, for each communication handled, a notation shall be made of the points of origin and destination of the communication. Local standard time may be used to record the occurrence in the equivalent record in lieu of Greenwich mean time or Eastern Standard Time prescribed by subparagraph (3): *Provided,* That the licensee may be required, upon request of an authorized Commission representative, to convert the standard time recorded to that specified in subparagraph (3).

(7) Whenever harmful interference is experienced by or reported to the responsible operator, an entry shall be made by such operator to that effect, stating the source of the interference, if known.

(8) All test transmissions shall be entered, together with the time of such transmissions, without regard to whether two-way communication with any other station is established.

(9) A daily entry shall be made regarding comparison of the time indicated by the required clock(s) with standard time, including a statement of any deviations observed and corrections made.

(10) Failure of apparatus to operate as required, failure of power supply, and incidents tending to unduly delay communication shall be entered.

(11) All measurements of the transmitter frequency(s) shall be entered, including such deviations from the assigned frequency(s) as may be observed, and a statement of any corrective action taken.

(12) An entry shall be made giving pertinent details of all installation, service, or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed, and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full-time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

(13) Entries shall be made also in reference to operation of the antenna tower lights when such entries are required by reason of applicable provisions of Subpart G of this part.

SUBPART J—LIMITED COAST STATIONS AND MARINE-UTILITY STATIONS: USE OF TELEPHONY

§ 7.351 *Supplemental eligibility requirements.* (a) Subject to the statutory eligibility requirements set forth in § 7.23, an authorization for a limited coast station or a marine-utility station may be granted to any person, or state or local government subdivision, or any agency of the Federal Government which is subject to the provisions of section 301 of the Communications Act provided the applicant is—

(1) Regularly engaged in the operation of one or more commercial transport vessels,[1] or

(2) An organization of which all persons who are members or shareholders are regularly engaged in the operation of one or more commercial transport vessels,[1] or

(3) A non-profit corporation or association, organized for the purpose of furnishing a maritime mobile service solely to persons who are regularly engaged in the operation of one or more commercial transport vessels,[1] or

(4) Legally responsible for the operation, control, or development of a harbor, port, or waterway used by commercial transport vessels.[1]

(b) Each application for station authorization for a limited coast station or a marine-utility station shall be accompanied by a written statement in detail sufficient to indicate clearly the applicant's eligibility under paragraph (a) of this section.

§ 7.352 *Cooperative use of facilities.* (a) A person, state or local government subdivision, or any agency of the Federal Government subject to the provisions of section 301 of the Communications Act, engaged in the operation of one or more Commercial transport vessels may receive maritime mobile service from a limited coast station or a marine-utility station used on shore even though not the licensee of the limited coast station or the marine-utility station. The rendition of such service, however, will not be required of the licensee of the limited coast station or the marine-utility station without his consent, except as may be necessary in the enforcement of paragraph (c) of this section. The necessary cooperative arrangements for this purpose will be governed by the following provisions:

(1) Such persons, state or local government subdivisions or Federal agencies may, and in the case of foreign persons shall themselves, be the licensees of the radio stations installed on board their respective commercial transport vessels: *Provided,* That prior to receiving an authorization to render service to the involved ship station(s), the licensee of the coast station or the marine-utility station from whom the service is to be received files a request for authority to render such maritime mobile service to the person or government agency who is to receive the service. The request must be notarized but may be in letter form, submitted in duplicate. Upon approval of the request, the Commission will designate on the coast station or marine-utility station authorization the persons or government agencies to whom service may be rendered.

(2) The licensee of a limited coast station or marine-utility station used on shore may install licensed ship radio stations on board United States commercial transport vessels of other persons or appropriate government agencies of the United States: *Provided,* That in each case such persons or government agencies shall enter into a written agreement verifying that the ship station licensee has the sole right of control of the involved ship stations, that the vessel operators shall use the ship stations subject to the orders and instructions of the licensee of the coast station or marine-utility station on shore, and that the said licensee shall have, at all times, such access to and control of the ship station equipment as will enable him to carry out his responsibilities under the ship station license. A copy of the agreement with vessel owners required hereby shall be kept with the coast station or marine-utility station records and held available for inspection by Commission representatives.

(3) All provisions of this section applicable to ship stations are applicable also to marine-utility stations while the latter are used on board commercial transport vessels, and to stations on board commercial transport vessels of any foreign country.

(b) All cooperative arrangements entered into under the provisions of this section shall be governed by the following requirements as to costs and charges:

(1) The arrangement must be established on a non-profit, cost-sharing basis by written contract between the parties and a copy of the contract must be kept with the records of the coast station or the marine-utility station and held available for inspection by Commission representatives.

(2) Contributions to capital and operating expenses may be accepted only on a cost-sharing, non-profit basis, said costs to be prorated on an equitable basis among all persons or government agencies who are parties to the cooperative arrangement. Records which reflect the cost of the service and its non-profit, cost-sharing nature shall be maintained by the licensee of the coast station or the marine-utility station and held available for inspection by Commission representatives. An audited financial statement reflecting the non-profit, cost-sharing nature of the arrangement shall be submitted by the licensee of the coast station or the marine-utility station annually to the Commission's Washington office no later than three months after the close of the licensee's fiscal year.

(c) If, in a particular geographic area, the use and operation of limited coast stations and (or) marine-utility stations by a plurality of station licensees using the same frequency assignment(s) causes intolerable interference, even though all provisions of this subpart relative to the reduction of interference have been fully complied with, the Commission may, in accordance with the provisions of the Communications Act, require the involved station licensees to join in a single cooperative organization for rendition of the necessary maritime mobile service within the affected area by a single station licensee.

§ 7.353 [Deleted.]

§ 7.354 *Points of communication.* (a) Limited coast stations and marine-utility stations using telephony are authorized to communicate normally with the classes of ship stations designated herewith, subject to the conditions and limitations imposed by the terms of their particular station licenses or by the applicable provisions of this part with respect to the use of particular radio-channels:

(1) Any ship station or any marine-utility station on board ship, using telephony on the assigned frequency 156.8 Mc (or 2182 kc when this frequency is assigned)

(2) Specified limited ship stations and specified marine-utility stations on board commercial transport vessels licensed by the Commission and using telephony on a frequency assignment designated for this purpose;

(3) Specified public ship stations on board commercial transport vessels, licensed by the Commission and using telephony on a frequency assignment designated for this purpose;

(4) Specified ship stations of any foreign country on board commercial transport vessels and using telephony on the radiochannel of which 156.6 Mc is the authorized carrier frequency.

(5) Additionally, when necessary to expedite communication by telephony between a ship station and a public coast station on a frequency assignment above 100 Mc, limited coast stations may communicate on the assigned frequency 156.8 Mc with other coast stations (public, limited, or government) for the exchange of operating signals, brief service messages, and emergency messages on condition that such communication shall not interfere with calls from or to mobile stations.

(b) With respect to the terms of paragraphs (a) (2), (3), and (4) of this section, the specific ship stations or marine-utility stations on board ship with which a limited coast station or a marine-utility station on shore is authorized to communicate shall be designated appropriately in the license of such coast station or marine-utility station.

(c) Upon application and satisfactory showing of a need therefor, two or more limited coast stations of the same station licensee may be specifically authorized by the terms of their respective station licenses to communicate on a secondary basis between themselves, *Provided,*

(1) Any communication carried on shall be confined exclusively to that absolutely necessary for the business or operational needs of the ship(s) with which at least one of the involved coast stations is authorized to communicate; and

(2) Other point-to-point communication facilities between the particular coast station locations are inadequate, inoperative, economically impracticable, or unavailable; and

(3) Any two coast stations of this category which communicate with each other are separated by not more than 100 miles; and

(4) Neither harmful interference nor intolerable delay is caused to communication with or between mobile stations; and

(5) Such communication shall occur only on a frequency assignment above 30 Mc except on the radio-channel of which 156.6 Mc or 156.8 Mc is the authorized carrier frequency.

§ 7.355 *Nature of service.* (a) Limited coast stations and marine-utility stations using telephony shall—

(1) Not be open to public correspondence;

(2) Not be used to render a communications common carrier service;

(3) Not be used to transmit program material of any kind for use in connection with radio broadcasting;

(4) Not be used for the transmission of press material or news items which are not required to serve the business or operational needs of ships;

(5) Be used exclusively to serve the operational and business needs of ships, including the transmission of safety communication.[2]

(b) In areas where adequate and appropriate weather and hydrographic information is transmitted by means of telephony through the medium of one or more public coast stations or United States government stations, limited coast stations and marine-utility stations on shore shall not duplicate that service. In all other respects, limited coast stations and marine-utility stations on shore may transmit by means of telephony such weather and hydrographic information as is required for the business and operational needs of the ships with which they normally communicate.

(c) Each marine-utility station on shore shall be used and operated exclusively within the limits of the geographic area specified in the particular station license. Except as specifically provided otherwise in this part, each marine-utility station on shore shall be used and operated as a limited coast station and in accordance with all rules and regulations applicable to such coast stations.

§ 7.356 *Assignable frequencies above 30 Mc.* (a) Carrier frequencies above 100 Mc which may be authorized for use by limited coast stations and marine-utility stations on shore, employing frequency-modulation for telephony, and for transmission and reception on the same radio-channel, are designated herewith:

(1) For all geographic areas:

156.4 Mc for working (except at Chicago, Illinois, and locations within 225 miles thereof);
156.5 Mc for working;
156.6 Mc for working; primarily for harbor or port operational traffic;
156.8 Mc for calling and safety purposes.

(2) For stations at locations (except on the Great Lakes, on the Mississippi River and tributary waters, and on the Gulf of Mexico intracoastal waterway) where the use of an additional working frequency assignment is required:

157.0 Mc for working.

Each of these assignable frequencies is available on a shared basis only and shall not be construed as available for the exclusive use of any one station licensee.

(b) Carrier frequencies which are assignable to limited coast stations and marine-utility stations on shore primarily for working with specified classes of commercial transport vessels are designated herewith; these frequency assignments shall be used for the specific purposes herein prescribed in prefer-

[1] See paragraph (p) of § 7.2 which defines "commercial transport vessel."

[2] See paragraph (a) of § 7.7 which defines "safety communications."

ence to other frequency assignments available for these classes of stations whenever practicable:

(1) For stations which provide service to vessels in the vicinity of one or more of the harbors or ports designated herewith: *Provided*, That stations which serve any seaboard harbor or port of the continental United States not specifically designated in this subparagraph may be assigned one or more of these carrier frequencies upon the express condition that (i) such assignment shall be on a secondary basis with respect to use of such assigned frequency or frequencies by a station or stations providing service (existing or in the future) to any harbor or port specifically designated in this subparagraph and (ii) interference shall not be caused to the service rendered any harbor or port specifically designated in this subparagraph:

Portland, Maine.	New Orleans, La.
Albany, N. Y.	Port Arthur, Tex.
Boston, Mass.	Beaumont, Tex.
New Haven, Conn.	Texas City, Tex.
New York, N. Y.	Galveston, Tex.
Providence, R. I.	Houston, Tex.
Philadelphia, Pa.	Corpus Christi, Tex.
Baltimore, Md.	Port Aransas, Tex.
Norfolk, Va.	San Diego, Calif.
Newport News, Va.	Long Beach, Calif.
Hampton Roads, Va.	Wilmington, Calif.
Charleston, S. C.	Port San Luis, Calif.
Savannah, Ga.	Estero Bay, Calif.
Jacksonville, Fla.	San Francisco, Calif.
Miami, Fla.	Coos Bay, Oreg.
Tampa, Fla.	Portland, Oreg.
Mobile, Ala.	Tacoma, Wash.
Baton Rouge, La.	Seattle, Wash.
Lake Charles, La.	Everett, Wash.

156.4 Mc for communication with vessels which are navigated primarily within harbor or port areas, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States;

156.5 Mc for communication with commercial transport vessels of any class which are navigated primarily between separate harbors or ports; and with commercial fishing vessels;

156.6 Mc for communication with vessels within harbor or port areas or within the vicinity thereof, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States;

157.0 Mc for communication with commercial transport vessels of the class or classes specified by the Commission, as required from time to time by prevailing needs, in respect to particular harbor or port areas, or in respect to particular stations: *Provided* That in order to avoid interference to intership communication, this carrier frequency is not assignable to any coast station or marine-utility station on shore which is located within 100 miles of the Mississippi River or any tributary thereof, nor within 100 miles of any portion of the Gulf of Mexico intercoastal waterway.

(2) For stations serving vessels on the Great Lakes which provide such service to one or more of the harbors or ports designated herewith: *Provided*, That stations which serve any Great Lakes harbor or port not specifically designated in this subparagraph may be assigned one or more of these carrier frequencies upon the express condition that (i) such assignment shall be on a secondary basis with respect to use of such assigned frequency or frequencies by a station or stations providing service (existing or in the future) to any harbor or port specifically designated in this subparagraph and (ii) interference shall not be caused to the service rendered any harbor or port specifically designated in this subparagraph:

Duluth, Minn.	Detroit, Mich.
Superior, Wis.	Toledo, Ohio.
Two Harbors, Minn.	Sandusky, Ohio.
Ashland, Wis.	Lorain, Ohio.
Presque Isle (Marquette County), Mich.	Cleveland, Ohio.
	Ashtabula, Ohio.
	Conneaut, Ohio.
Marquette, Mich.	Erie, Pa.
Port Inland, Mich.	Buffalo, N. Y.
Escanaba, Mich.	Chicago, Ill.
Green Bay, Wis.	Indiana Harbor, Ind.
Milwaukee, Wis.	Gary, Ind.
Ludington, Mich.	
Calcite (Rogers City), Mich.	

156.4 Mc for communication with ferries which are navigated primarily between separate harbors or ports, and commercial fishing vessels (except at Chicago, Illinois, and locations within 225 miles thereof, at which the carrier frequency 156.5 Mc shall be assignable for this purpose in lieu of 156.4 Mc);

156.5 Mc for communication with commercial transport vessels of any class (except ferries) which are navigated primarily between separate harbors or ports; and additionally for stations at Chicago, Illinois, and locations within 225 miles thereof, for communication with ferries which are navigated primarily between separate harbors or ports and with commercial fishing vessels;

156.6 Mc for communication with vessels within harbor or port areas or within the vicinity thereof including tugs, towboats, barges, wreckers, dredges, local ferries, repair ships, pilot boats, and harbor craft of municipalities or States.

(3) For stations serving vessels on the Mississippi River and tributaries and the Gulf of Mexico intracoastal waterway which provide such service to one or more of the harbors or ports designated herewith: *Provided*, That stations which serve any harbor or port on the Mississippi River or any tributary thereof or on the Gulf of Mexico intracoastal waterway not specifically designated in this subparagraph nor in subparagraph (1) of this paragraph may be assigned one or more of these carrier frequencies upon the express condition that (i) such assignment shall be on a secondary basis with respect to use of such assigned frequency or frequencies by a station or stations providing service (existing or in the future) to any harbor or port specifically designated in this subparagraph or in subparagraph (1), and (ii) interference shall not be caused to the service rendered any harbor or port specifically designated in this subparagraph or in subparagraph (1):

Pittsburgh, Pa.	Chicago, Ill.
Louisville, Ky.	Memphis, Tenn.
St. Louis, Mo.	

156.4 Mc for communication with commercial transport vessels of the class or classes specified by the Commission, as required from time to time by prevailing needs, in respect to particular harbor or port areas, or in respect to particular stations (not assignable to stations at Chicago, Illinois, nor at locations within 225 miles thereof);

156.5 Mc for communication with commercial transport vessels of any class which are navigated primarily between separate harbors or ports; and with commercial fishing vessels;

156.6 Mc for communication with vessels within harbor or port areas or within the vicinity thereof, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States.

(4) For stations serving vessels in any area not specified in subparagraphs (1), (2), and (3) of this paragraph.

156.4 Mc for communication with vessels which are navigated primarily within harbor or port areas, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States;

156.5 Mc for communication with commercial transport vessels of any class which are navigated primarily between separate harbors or ports, and with commercial fishing vessels;

156.6 Mc for communication with vessels within harbor or port areas or within the vicinity thereof, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States;

157.0 Mc for communication with commercial transport vessels of the class or classes specified by the Commission, as required from time to time by prevailing needs, in respect to particular harbor or port areas, or in respect to particular stations, *Provided*, That in order to avoid interference to intership communication, this carrier frequency is not assignable to any coast station or marine-utility station on shore which is located within 100 miles of the Mississippi River or any tributary thereof nor within 100 miles of any portion of the Gulf of Mexico Intracoastal Waterway.

(c) Carrier frequencies within the band 30 Mc to 50 Mc which may be authorized for use by limited coast stations and marine-utility stations on shore employing either frequency modulation or amplitude modulation for telephony, for transmission and reception on the same radio-channel, are designated herewith:

Carrier frequency:	*Normal geographic area of use*
35.06 Mc	Gulf coast area, Puerto Rico, and Virgin Islands.
35.10 Mc	Pacific coast area and islands of the Pacific Ocean.
35.14 Mc	Atlantic coast area.
35.18 Mc	Mid-continent area, including Great Lakes.

Each of these assignable frequencies is available on a shared basis only and shall not be construed as available for the exclusive use of any one station licensee.

(d) Any coast station not open to public correspondence and licensed prior to March 1, 1949, for the use of telephony on the radio-channel of which 43.02 Mc is the authorized carrier frequency, may continue to be licensed as a limited coast station for use of this radiochannel with class of emission, authorized frequency-band, type of modulation, and maximum power as licensed prior to March 1, 1949, upon the condition that the carrier frequency shall be maintained within 0.01 percent of the authorized carrier frequency 43.02 Mc and that interference shall not be caused to any station in any other service.

§ 7.357 *Conditions imposed upon assignments in 35–36 Mc band.* (a) Each application which requests assignment of a carrier frequency designated in paragraph (c) of § 7.356 shall designate normally the carrier frequency specified in that subsection for use in the geographic area in which the coast station or the marine-utility station on shore is located. Normally, only that carrier frequency is assignable for use in that area. When any other of these carrier frequencies is requested for assignment in a specified area, the application therefor shall include a satisfactory showing that the carrier frequency designated in paragraph (c) of § 7.356 for use in the particular area will not meet the need of the proposed or existing service. When, in the opinion of the applicant, the location of the involved station is not clearly within one of the geographic areas designated in paragraph (c) of § 7.506, the applicant may obtain the necessary information in this respect by corresponding directly with the Commission at Washington, D. C.

§ 7.358 *Conditions imposed upon assignments in 156–162 Mc band.* Normally, a limited coast station or a marine-utility station on shore shall be authorized to use, for working, one radio-channel only, within the frequency band 156.35 Mc to 157.05 Mc in accordance with the terms of paragraph (b) of § 7.356. Application for authority to use more than one radio-channel for working shall include a satisfactory showing of need for such additional facility.

§ 7.359 *Use of assigned frequency 156.8 Mc.* (a) The radio-channel of which 156.8 Mc is the authorized carrier frequency is designated primarily for calling and safety purposes. It may be used when appropriate by limited coast stations and marine-utility stations employing telephony for short-distance communication as an alternative to the radiotelephone distress frequency 2182 kc, for distress calls and distress traffic, and for safety communication.[1]

(b) In addition to the provisions of paragraph (a) of this section, this radio-channel may be used by limited coast stations and marine-utility stations for:

(1) Call, reply, and the exchange of brief operating signals; and

(2) Operating signals preparatory to message traffic on another radio-channel within the frequency-band 156.35 Mc to 157.05 Mc; and

(3) In accordance with the provisions of paragraph (a) (5) of § 7.354 the exchange with other coast stations of operating signals, brief service messages, and emergency messages.

(c) The use of this radio-channel by limited coast stations or marine-utility stations for transmission of any other category is not authorized.

§ 7.360 *Call and reply on working channels.* Although use of the assigned frequency 156.8 Mc by limited coast stations and marine-utility stations on shore for call and reply is authorized, calling and replying by these stations shall, in general, be conducted on a radio-channel authorized primarily for working.

§ 7.361 *Use of assigned frequency 156.6 Mc.* The radio-channel of which 156.6 Mc is the authorized carrier frequency is designated primarily for communication concerning port operations. It may be used by limited coast stations and marine-utility stations, with discretion, to serve other business and operational needs of ships on condition that such use shall not interfere with nor delay the exchange of port operational message traffic.

§ 7.362 *Limitations on use of marine-utility stations.* (a) Marine-utility stations on shore shall be used and operated solely within the local geographic area specified in the particular station license.

(b) Neither the antenna nor the antenna supporting structure of a marine-utility station on shore shall—

(1) Exceed 150 feet in height above ground level;

(2) Exceed, in over-all height above ground level, 5 feet for each 500 feet of distance, or fraction thereof, from the nearest boundary of a landing area.

(c) Marine-utility stations on shore shall not be used or operated in the immediate vicinity of any radio transmitting or receiving installation of a coast station, a base station in any land mobile service, or a U. S. government station, which transmits or receives on any radio-channel(s) above 30 Mc unless the fact has been established, by actual tests in cooperation with the involved station(s), that interference is not caused by such operation to the service of the coast, base, or government station(s) concerned.

§ 7.363 *Use of working frequencies for calling.* In addition to any radio-channel of which the carrier frequency is specifically authorized herein for "calling", the radio-channels authorized in this subpart for "working" may be used for call and reply also, provided interference is not caused to any communication in progress on the particular working channel.

§ 7.364 *Time limitation on communication.* All communication engaged in by limited coast stations and marine-utility stations shall be limited to the minimum practicable transmission time, and each station licensee shall employ standardized operating practices and procedures to this effect.

§ 7.365 *Frequencies below 3000 kc for business and operational purposes.* (a) In addition to availability of the carrier frequency 2738 kc primarily for intership communication as prescribed in § 8.358 of the rules of the Commission, this frequency may, in response to proper application therefor, be specifically authorized in limited coast station licenses for use (except in the Great Lakes area) to a limited extent in communicating by telephony (amplitude modulation) with such ship stations as are designated in the respective coast station license, *Provided*,

(1) The applicant makes a showing satisfactory to the Commission that exceptional and limited use of this carrier frequency for ship-shore communication, in lieu of a different comparable frequency, or a frequency above 30 Mc, normally authorized for ship-shore communication (public correspondence or otherwise) is necessary to serve an important business or operational need of one or more commercial transport vessels (other than public correspondence) and that the desired communication will be effective even though ship-to-ship communication for safety and other purposes has priority in the use of this frequency; and

(2) Harmful interference will not be caused to the service of ship-to-ship communication on the radio-channel of which 2738 kc is the authorized carrier frequency; and

(3) The plate-input power to be used will be the minimum amount necessary to provide effective ship-shore communication on this radio-channel and will not at any time exceed the average plate-input power generally used by ship stations for inter-ship communication on this radio-channel; and

(4) The ship-shore communication on this radio-channel shall be limited exclusively to that which is necessary to serve an important business or operational need of commercial transport vessels (excluding public correspondence);

(5) The use of this carrier frequency in accordance with any station authorization granted pursuant to this section shall be on a shared basis with any other coast station using this same frequency in accordance with a similar station authorization.

(b) The carrier frequency 2214 kc may, in response to proper application therefor, be specifically authorized in the license of a limited coast station for use exclusively at locations at which interference is not caused to the service of any United States Government Station, in communicating by telephony (amplitude modulation) with such ship station(s) on board commercial transport vessel(s) (when they use this same carrier frequency for transmission) as are designated in the particular coast station license, *Provided*,

(1) The applicant makes a showing satisfactory to the Commission that use of this carrier frequency, in lieu of a frequency above 30 Mc normally authorized for use by ship stations, is necessary to serve an important business or operational need of commercial transport vessel(s) (other than public correspondence); and

(2) The communication carried on by the limited coast station on the radio-channel of which 2214 kc is the authorized carrier frequency shall be limited exclusively to that which is necessary to serve an important business or operational need of commercial transport vessel(s) (excluding public correspondence); and

(3) The use of this carrier frequency in accordance with any station authorization granted pursuant to this section shall be on a shared basis with any other coast station using this same frequency in accordance with a similar station authorization.

§ 7.366 *Availability of 2182 kc for limited coast stations.*—(a) *Frequencies for calling.*—The general radiotelephone

[1] See paragraph (a) of § 7.7 for the definition of safety communication.

calling[4] frequency for the maritime mobile service of the United States is 2182 kc; it may be used as a carrier frequency for this purpose by limited coast stations operating in the maritime mobile service subject to the following conditions and limitations:

(1) Aside from distress calls and distress traffic, this frequency may be used for urgency and safety signals and for urgency and safety messages (other than ordinary business or operational messages).

(2) In addition, this frequency is authorized only for call and reply, and for signals preparatory to working on other frequencies;

(3) When using this frequency for other than distress calls and distress traffic, and urgency and safety signals and messages, the mean[5] antenna power of the unmodulated carrier wave shall not exceed 100 watts.

§ 7.367 *Procedure in testing.* (a) Limited coast stations and marine-utility stations are authorized to carry on such routine tests as may be required for the proper maintenance of the station provided each such station shall use every precaution to insure that, when conducting operational transmitter tests, the emissions of the station will not cause harmful interference. Radiation must be reduced to the lowest practicable value and if feasible shall be entirely suppressed. When radiation is necessary or unavoidable, the radiotelephone testing procedure described below shall be followed:

(1) The licensed radio operator responsible for operation of the transmitting apparatus shall ascertain by careful listening that the test emissions will not be likely to interfere with transmissions in progress;

(2) The official call sign and the geographic location of the testing station, followed by the word "test", shall be announced by voice on the radio-channel being used for the test, as a warning that test emissions are about to be made on that frequency;

(3) If, as a result of the announcement prescribed in sub-subsection (2), any station transmits by voice the word "wait", testing shall be suspended. When, after an appropriate interval of time, such announcement is repeated and no response is observed, and careful listening indicates that harmful interference should not be caused, the operator shall proceed as set forth in subsection (4);

(4) The operator shall repeat the word "test" followed by the count "1, 2, 3, 4, • • • etc.", which in turn shall be followed by voice announcement of the official call sign of the testing station and its approximate geographical location.

(b) When radiotelephone testing is conducted on the assigned frequency 2182 kc or 156.8 Mc, the test transmissions shall not continue for more than 10 seconds.

§ 7.368 *General radiotelephone operating procedure*—(a) *Limitations on calling.* (1) Except when transmitting a general call to several stations within range for announcing or preceding the transmission of distress, urgency, or safety messages, a limited coast station or a marine-utility station shall call the particular station with which it intends to communicate.

(2) Limited coast stations may use authorized[4] classes of emission for selective-calling on each radio-channel authorized for working. The use of selective-calling on the radio-channel of which either 2182 kc or 156.8 Mc is the authorized carrier frequency is prohibited.

(3) Calling a particular station, either by voice or by other means, shall not continue for a period of more than thirty seconds in each instance. If the called station is not heard to reply, that station shall not again be called until after an interval of five minutes.

(4) Each limited coast station, when using selective-calling to secure the attention of a ship station with which it intends to communicate, shall transmit the type of signal and the particular signal code necessary to actuate the automatic attention device (selective ringer) known to be installed in the particular ship station and normally used for monitoring the coast station radio-channel which is used for transmitting such calls.

(5) Except in the event of an emergency involving safety, a limited coast station or a marine-utility station with respect to operation on any radio-channel which is used also by other stations within the same communication area, shall not answer, or attempt to answer, a station on board ship until the latter has transmitted the call sign or name of the particular shore station with which it desires to communicate.

(6) A limited coast station or a marine-utility station shall not attempt to communicate with a ship station that has specifically called another station until it becomes evident that the called station does not answer, or that communication between the ship station and the called station cannot be carried on because of unsatisfactory operating conditions.

(b) *Time limitation on calling frequency.* Transmission on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency (including calls, answers, operating signals, and conversation pertaining to safety) shall be kept to a minimum and in general any one exchange of communications shall not exceed 3 minutes in duration. In the event of distress or other emergency, this time limitation shall not apply.

(c) *Change to working frequency.* After establishing communication with another station by call and reply on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency, land stations shall change to an authorized working channel for the transmission of messages which, under the provisions of this subpart, cannot be transmitted on the respective calling channel.

§ 7.369 *Station documents.* (a) Limited coast stations using telephony shall be provided with and have readily available during their hours of service, the following documents:

(1) A valid station license.

(2) The necessary operator license or licenses.

(3) The station log required by this part for stations of this category.

(4) Parts 7 and 8 of the Commisison's rules.

§ 7.370 *Station records.* (a) Limited coast stations using telephony shall maintain an accurate radiotelephone log during their hours of service, as hereinafter specified:

(1) Each sheet of the log shall be numbered in sequence and dated and shall include the official call sign of the coast station and also the signature(s) of the licensed operator(s) performing operating duties.

(2) The entry "on duty" shall be made by the operator beginning a duty period, followed by his signature. The entry "off duty" shall be made by the operator being relieved of or terminating a duty period, followed by his signature. All log entries shall be currently completed and all entries shall, unless otherwise stated, be made by a licensed operator on duty. The use of initials or signs is not authorized in lieu of any operator's signature required by this section.

(3) The time of making an entry shall be shown opposite the entry and shall be expressed in local standard time (e. s. t., c. s. t., etc., counted from 00:00 to 24:00 o'clock, beginning at midnight. The first entry in each hour shall consist of 4 figures; additional entries in the same hour may be expressed in 2 figures by omitting the hour designation. The abbreviation "e. s. t.," "c. s. t.," etc., shall be marked at the head of the column in which the time is entered.

(4) With respect to limited coast stations, which, by reason of the provisions of subpart G of this part, are required to maintain a watch on the radio-channel above 100 Mc designated for calling (assigned frequency 156.8 Mc), entries shall be made showing each time this watch is begun, suspended, or concluded; without any requirement, however, of making such entries during interruption of this watch as may be necessary during hours of service for calling, answering, and exchanging operating signals and safety communications on this radio-channel. These entries shall be made by the licensed operator(s) on duty who is (are) designated and authorized by the station licensee to do so; the name and signature of the operator(s) making these entries and the operator(s) who actually maintains such watch shall appear in the log and shall be properly related to each particular entry for this purpose.

(5) All radiotelephone distress, urgency or safety signals and communications made or intercepted; the complete text, if possible, of such communications; and any information which may appear to be of importance to safety or life or property shall be entered, together with the time of such observation or occurrence, identification of the radio channel(s) on which such signals or messages were transmitted or received, and the position of any ship, or other mobile unit in need of assistance, if this can be determined. These entries shall be made by the licensed operator(s) on duty who is (are) designated and authorized by the station licensee to do so; the name and signature of the operator(s) making these entries shall appear in the log and shall be properly related to each particular entry of this category.

(6) Whenever harmful interference is experienced by or reported to the responsible operator, an entry shall be made by such operator to that effect, stating the source of the interference, if known.

(7) All test transmissions shall be entered, together with the time of such transmissions, without regard to whether two-way communication with any other station is established.

(8) All measurements of the transmitter frequency(s) shall be entered, including such deviations from the assigned frequency(s) as may be observed, and a statement of any corrective action taken.

(9) An entry shall be made giving pertinent details of all installation, service, or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full-time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

(10) Entries shall be made also in reference to operation of the antenna tower lights when such entries are required by reason of applicable provisions of Subpart G of this part.

(b) Marine utility stations on shore shall maintain an accurate radiotelephone log during their hours of service as follows:

(1) Each sheet of the log shall be numbered in sequence and shall include notation of the geographic area(s) in which the station is operated; the date and time of operation of the station; official call sign of the marine utility station, the name and signature of the licensed operator (or other person in accordance with Subpart F) who is responsible for operation of the marine utility station. (The use of initials or signs in lieu of signatures is not authorized.)

(2) An entry shall be made giving pertinent details of all installation, service or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

SUBPART K—STATIONS ON LAND IN THE MARITIME RADIOLOCATION SERVICE[1]

§ 7.401 *Limitation on station authorizations.* Pending further development of the use and operation of stations on land in the maritime radiolocation service, and until the requirements of this service have been more completely determined, only developmental station authorizations will be granted, subject to the applicable provisions of Subpart M of this part (including Supplemental eligibility requirements) and in accordance with the following sections of this subpart.

§ 7.402 *Assignable frequencies.* (a) The following frequency-bands are authorized for use by shore radionavigation stations (including shore radar stations) in the maritime radionavigation service; the maximum power shall be designated in each instrument of authorization; provided that for stations other than shore radar stations, the classes of emission, the frequency tolerance, and the bandwidth occupied by the emission may be designated in each station authorization.

3000 Mc to 3246 Mc.
5460 Mc to 5650 Mc.
9320 Mc to 9500 Mc.

(b) The following frequency-bands are authorized for use by shore radiolocation stations in the maritime radiolocation service; the class of emission, the frequency tolerance, the bandwidth occupied by the emission, and the maximum power may be designated in each station authorization:

(1) 2450 to 2500 Mc for purposes other than radionavigation or safety, on the condition that harmful interference shall not be caused to the fixed and mobile services, and on the condition that no protection shall be given from interference caused by emissions from industrial, scientific, or medical equipment.

(2) 3000 Mc to 3246 Mc, 5460 Mc to 5650 Mc, 9320 Mc to 9500 Mc. The use of frequencies within these bands for radiolocation, other than radionavigation, shall not cause harmful interference to the radionavigation service.

§ 7.403 *Special conditions imposed.* (a) An authorization granted for the construction and/or operation of a shore radio navigation station shall be subject to the express condition that in so far as the station may be operated to provide information to be used for the purpose of aiding in the movement of any ship, the station shall be treated as a private aid to navigation for which permission must be obtained by the station permittee or licensee from the Commandant, United States Coast Guard, as provided in section 759, Title 33, U. S. Code.

(b) Upon the grant of an authorization for the construction and/or operation of a shore radio navigation station, the Commission will forward to the Commandant, U. S. Coast Guard, Washington, D. C., notification thereof together with a copy of the authorization.

SUBPART L—FIXED STATIONS ASSOCIATED WITH THE MARITIME MOBILE SERVICE

MARINE FIXED STATIONS[1]

§ 7.451 *Supplemental eligibility requirements.* (a) Subject to the basic eligibility requirements set forth in § 7.23, authorizations for marine fixed stations may be granted to any person who is engaged in—

(1) Prospecting for, producing, collecting, refining, or transporting petroleum or petroleum products in the immediate vicinity of the marine fixed station requested; or

(2) An activity in the immediate vicinity of the marine fixed station requested which is necessary to a construction project of a public character.

(b) Additionally, and subject to the basic eligibility requirements set forth in § 7.23, authorizations for marine fixed stations may be granted to any nonprofit corporation or association, organized for the purpose of furnishing a radiocommunication service solely to persons who are actually engaged, in the immediate vicinity of the marine fixed station, in one or more of the activities designated in paragraph (a) of this section. Such a corporation or association shall render service only on a non-profit cost-sharing basis, said costs to be prorated on an equitable basis among all persons to whom service is rendered. Records which reflect the cost-sharing non-profit basis shall be maintained and held available for inspection by Commission representative.

§ 7.452 *Points of communication.* Marine fixed stations are authorized to communicate by means of telephony solely with Class II public coast stations in the United States when these stations render a communication service of telephony in direct connection with the general public service land-line telephone system, provided the marine fixed station, in each instance, is located not more than 300 statute miles from each coast station of this class with which it communicates.

§ 7.453 *Showing of need.* Applicants for authority to establish and operate marine fixed stations must satisfy the Commission, through information contained in the application or as otherwise determined by the Commission, that a need for the desired communication

[4] The frequency 2182 kc will be formally recognized as the international radiotelephone distress and calling frequency in Region 2 not later than the date on which Article 3 of the Inter-American Radio Agreement, Washington, 1949, becomes effective, and in Regions 1, 2, and 3 (world-wide) not later than the date on which the new International Frequency List becomes effective as provided by Article 47 of the International Radio Regulations, Atlantic City, 1947.

[5] As prescribed by paragraph 2, Article 3, of the Inter-American Radio Agreement, Washington, 1949. Article 1, paragraph 63 of the International Radio Regulations, Atlantic City, 1947, states as follows: "Mean power of a radio transmitter: The power supplied to the antenna during normal operation, averaged over a time sufficiently long compared to the period corresponding to the lowest frequency encountered in actual modulation". (In general, a time of one-tenth second, during which the mean power is a maximum, will be selected.)

[4] See those provisions of Subpart E relative to authorized classes of emission.

[1] The classes of stations established in this service are defined in § 7.4.

[1] This class of station is defined by paragraph (d) of § 7.5.

exists primarily in respect to the safety of life or property, and that the use of any communication facility to satisfy such need, other than a marine fixed station, is impossible or impracticable for the purpose involved.

§ 7.454 *Assignable frequencies.* (a) Carrier frequencies within the band 2100 kc to 2210 kc, which are authorized by Part 8 of the Commission's rules for use by public ship stations employing telephony for the transmission of public correspondence to public coast stations (normally providing direct connection with public service land-line telephone systems), are assignable to marine fixed stations for the same purpose; upon the condition that neither harmful interference nor intolerable delay is caused to communication between coast stations and mobile stations.

(b) In addition to the assignable frequencies designated in paragraph (a) of this section, the carrier frequency 2182 kc is assignable to marine fixed stations solely for use in transmitting, by means of telephony with an antenna power not exceeding 100 watts (when no modulation is present) distress calls and distress traffic, and urgency and safety signals and messages. The use of this radiochannel by marine fixed stations for ordinary calls and replies is prohibited.

§ 7.455 *Technical requirements.* The authorized frequency tolerance, authorized class of emission, authorized emission-bandwidth, and authorized transmitter power for marine fixed stations is set forth in Subpart E of this part.

§ 7.456 *Scope of communication.* Marine fixed stations shall be used primarily for safety communication, as defined in paragraph (a) of § 7.7: *Provided, however,* That other than safety communication may be carried on, by these stations, with discretion and to the extent required in behalf of the specific activities set forth in § 7.451: *Provided,* That, in this respect, priority at all times shall be given to use of the assigned radio-channel(s) for ship to shore transmission.

§ 7.457 *Station documents.* (a) Each marine fixed station shall be provided with the following documents:

(1) A valid station license.

(2) The necessary operator license or licenses.

(3) The station log required by § 7.458.

(4) Parts 7 and 8 of the rules of the Commission.

§ 7.458 *Station records.* (a) Marine fixed stations shall maintain an accurate radiotelephone log during their hours of service as follows; all entries shall be made by the licensed operator on duty at the station, except as otherwise provided in subparagraph (2) of this paragraph:

(1) Each sheet of the log shall be numbered in sequence and shall include the date(s) and time(s) of operation of the station; official call sign of the station, the name and signature of the licensed operator who is responsible for operation of the station. (The use of initials or signs in lieu of signatures is not authorized.)

(2) An entry shall be made giving pertinent details of all installation, service or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

(3) All radiotelephone distress, urgency or safety signals and communications made or intercepted; the complete text, if possible, of such communications; and any information which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation or occurrence, identification of the radiochannel(s) on which such signals or messages were transmitted or received, and the position of any ship, or other mobile unit in need of assistance, if this can be determined.

(4) Whenever harmful interference is experienced by or reported to the responsible operator, an entry shall be made by such operator to that effect, stating the source of the interference, if known.

(5) All test transmissions shall be entered, including the date, time, and purpose thereof.

(6) The date and time of making each entry shall be shown opposite the entry and the time shall be expressed in local standard time as follows. The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation E. S. T., C. S. T., etc., shall be marked at the head of the column in which time is entered.

§ 7.459 *Station identification.* For the purpose of station identification, the provisions of paragraph (a) of § 8.364 (Part 8 of the Commission's rules) shall apply to marine fixed stations.

§ 7.460 *Procedure in testing.* For the purpose of conducting operational or maintenance tests, the provisions of paragraph (a) of § 8.365 (Part 8 of the Commission's rules) shall apply to marine fixed stations.

§ 7.461 *Operating procedure.* In the use and operation of marine fixed stations, these stations shall be governed by the provisions of paragraph (a) and (h) of § 8.366 (Part 8 of the Commission's rules).

MARINE RECEIVER-TEST STATIONS [2]

§ 7.471 *Eligibility requirements.* An authorization for a marine receiver-test station may be granted to the licensee of a public coast station using telephony and having a frequency assignment for this purpose within the frequency band 2000 kc to 3500 kc or 156.35 Mc to 162.05 Mc.

§ 7.472 *Scope of service.* A marine receiver-test station shall be used solely for brief transmissions intended for interception by the regularly used radiotelephone receiving apparatus of an associated public coast station of the same station licensee; the purpose of such transmissions shall be limited to necessary determinations of the technical performance of such receiving apparatus. No other signals or communications shall be transmitted by marine receiver-test stations.

§ 7.473 *Assignable frequencies.* The carrier frequency or frequencies assignable to a marine receiver-test station is (are) the specific carrier frequency or frequencies within the band 2000 kc to 3500 kc or 156.35 Mc to 162.05 Mc used by public ship stations in transmitting by means of telephony to the particular public coast station with which the marine receiver-test station is associated; these frequencies with respect to ship stations of the United States, are designated in §§ 8.354 and 8.356 of the Commission's rules.

§ 7.474 *Technical requirements.* The authorized frequency tolerance, authorized class of emission, authorized emission-bandwidth, and authorized transmitter power for marine receiver-test stations is set forth in Subpart E of this part.

§ 7.475 *Station identification.* The official call sign and the general geographic location of the marine receiver-test station shall be announced at the conclusion of each completed test transmission.

§ 7.476 *Operating limitations.* The station licensee shall exercise such control over the transmissions of a marine receiver-test station as is necessary to avoid interference to cails from ship stations and to the exchange of public correspondence between ship and shore. The maximum amount of transmission time permitted on any one radio-channel authorized for use by a particular marine receiver-test station shall not exceed 12 minutes in each 24-hour period.

§ 7.477 *Station records.* (a) An accurate log shall be maintained with respect to the operation of each marine receiver-test station. The station licensee shall be responsible for compliance with this requirement. This log may be maintained and located at an authorized control point associated with the station.

(b) All log entries shall be made by the licensed operator responsible for operation of the station or by a person authorized and directed by the station licensee to make such entries.

(c) The log shall be maintained and entries made therein as follows:

(1) Each sheet of the log shall be numbered in sequence and shall include the date(s) and time(s) of operation of the station; official call sign of the station, the name and signature of the licensed operator who is responsible for operation of the station. (The use of initials or signs in lieu of signatures is not authorized.)

(2) An entry shall be made giving pertinent details of all installation, service or maintenance work performed which may effect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

(3) All radiotelephone distress urgency or safety signals and comunications made or intercepted; the complete text, if possible, of such comunications; and any information which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation or occurrence, identification of the radio-channel(s) on which such signals or messages were transmitted or received, and the position of any ship, or other mobile unit in need of assistance, if this can be determined.

(4) Whenever interference to other stations is reported to the station licensee or to the responsible operator, an entry shall be made by the latter to that effect, stating the source of the interference report and the station(s) to which interference has been caused, if known.

(5) All test transmissions shall be entered, including the date, time, duration of the transmission, the class of emission and particular radio-channel used.

(6) The date and time of making each entry shall be shown opposite the entry and the time shall be expressed in local standard time as follows. The first entry in each hour shall consist of four figures (from 00:00 to 24:00 beginning at midnight local standard time); additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation e. s. t., c. s. t., etc., shall be marked at the head of the column in which time is entered.

MARINE CONTROL STATIONS, MARINE REPEATER STATIONS, AND MARINE RELAY STATIONS [3]

§ 7.481 *Eligibility requirements.* Authorizations for marine control stations, marine repeater stations, and marine relay stations will be issued only to licensees of coast stations who have made a satisfactory showing of need therefor in relation to the particular coast station or stations of which they are the station licensee.

§7.482 *Showing of need.* Applicants for such authorization must show that (a) a need exists for a point-to-point radio circuit for control, repeater, or marine-relay purposes, (b) that telecommunication facilities other than a marine control, marine repeater, or marine-relay station are not available, or if available would not provide effective results, and (c) that the service to be rendered through use of the marine control station, marine repeater, or marine-relay station is necessary for, or will prove beneficial to, the service rendered by the associated coast station(s).

§ 7.483 *Points of communication.* (a) Marine control stations are authorized to transmit exclusively to the particular coast station whose operation or emission is being controlled by such transmissions.

(b) Marine repeater stations are authorized to transmit exclusively to other authorized marine repeater stations, or to designated radio receiving locations to which the respective transmitted communication is addressed, or to an authorized message center at a designated fixed location.

(c) Marine relay stations are authorized to transmit to and receive from other authorized marine relay stations as specified in the station authorization.

§ 7.484 *Frequencies assignable.* In any area in the continental United States, a maximum of four carrier frequencies assignable in accordance with Part 2 of the Commission's rules within either or both of the bands 72.02 Mc to 74.58 Mc and 75.42 Mc to 75.98 Mc are available in the aggregate for use by marine control stations, marine repeater stations and marine relay stations on condition that harmful interference shall not be caused to:

(a) Reception by the general public of emissions from television stations on television channels 4 and 5.

(b) The service of existing and previously authorized marine control stations, marine repeater stations, or marine relay stations.

(c) The service of existing and previously authorized stations operating in any aviation service.

Pursuant to Part 2 of the Commission's rules, assignable frequencies for this purpose are spaced 40 kc apart, beginning with the frequencies 72.02 Mc and 75.42 Mc and ending with the frequencies 74.58 Mc and 75.98 Mc, respectively. Should the Commission find that public interest, convenience, or necessity would be served thereby, licensees of marine control stations, marine repeater stations, and marine relay stations authorized to operate on one or more frequencies within these bands, shall be required to share, on a coordinated non-interference basis, the use of their respective frequency assignments with other licensees using the same frequencies.

§ 7.485 *Technical requirements.* The authorized frequency tolerance, authorized class of emission, authorized emission-bandwidth, and authorized transmitter power for marine fixed stations is set forth in Subpart E of this part.

§ 7.486 *Limitation on stations authorizations.* Pending additional development of the use and operation of marine control, marine repeater, and marine relay stations, and until the necessary scope of service required to be rendered by these classes of stations has been more completely determined, such stations will be authorized exclusively on a developmental basis in accordance with the provisions of Subpart M of this part. In addition to the provisions of this subpart, the relevant conditions and limitations set forth in Subpart M shall apply to these classes of stations.

SUBPART M—DEVELOPMENTAL STATIONS

§ 7.501 *Supplemental eligibility.* An authorization for developmental operation of a station in any of the services under this part will be issued only to those persons who are eligible to operate such stations on a regular basis.

§ 7.502 *Showing and statement required.* (a) Except as provided in paragraph (c) of this section, each application for authorization for a developmental station shall be accompanied by a showing that:

(1) The applicant has an organized plan of development leading to a specific objective,

(2) A point has been reached in the program where actual transmission by radio is essential to the further progress thereof,

(3) The program has reasonable promise of substantial contribution to the expansion or extension of the use of radio for a maritime purpose, or is in a field of maritime operation not already investigated,

(4) The program will be conducted by qualified personnel,

(5) The applicant is legally and financially qualified, and possesses adequate technical facilities for conduct of the program as proposed,

(6) The public interest, convenience, or necessity will be served by the proposed operation.

(b) Every application for authority to engage in developmental operation shall be accompanied by a statement signed by the applicant in which it is agreed that any authorization issued pursuant thereto will be accepted with the express understanding of the applicant that it is subject to change in any of its terms or to cancellation in its entirety at any time, upon reasonable notice but without a hearing, if, in the opinion of the Commission, circumstances should so require.

(c) The provisions of paragraph (a) of this section do not apply when an application is made for a developmental station solely for the reason that the frequency requested is restricted to such developmental use.

§ 7.503 *Assignable frequencies.* (a) Stations engaged in developmental operation may be authorized to use a frequency or frequencies, available for the service and class of station which they propose to operate. The number of frequencies assignable to a particular station shall depend upon the specific requirements of the developmental program and the number of frequencies available for such use in the particular area where the station is to be operated.

(b) In addition to the specific frequencies and frequency bands designated in this part as available for a particular service and class of station, each of the following frequencies and frequency bands may be licensed as an assigned frequency or as an authorized frequency band, respectively, for use by developmental stations subject to the applicable provisions of this part as follows:

Available for coast stations and marine-utility stations

156.7 Mc 156.9 Mc

Available for coast stations

3,500–3,700 Mc 11,700–12,200 Mc
6,425–6,575 Mc

[2] This class of station is defined by paragraph (h) of § 7.5.

[3] These classes of stations are defined in paragraphs (e), (f) and (g) of § 7.5.

Available for coast stations and fixed stations

26,000–30,000 Mc

and

2,450–2,500 Mc
16,000–18,000 Mc

on condition that no protection shall be given from interference caused by emissions from industrial, scientific or medical equipment.

Available for operational fixed stations

952– 960 Mc	2,500– 2,700 Mc
1,850–1,990 Mc	6,575– 6,875 Mc
2,110–2,200 Mc	12,200–12,700 Mc

The class of emission, the frequency tolerence, the emission bandwidth, and the maximum transmitter power for use on the foregoing frequencies which are above 2400 Mc shall be designated in each station authorization.

§ 7.504 *Use of developmental stations.* (a) Developmental stations shall be constructed and used in such manner as to conform with all applicable technical and operating requirements[1] contained in this part, unless deviation therefrom is specifically provided in the station authorization.

(b) Communication with any station of a country other than the United States is prohibited unless specifically authorized by the terms of the station authorization.

(c) The operation of a developmental station is subject to the condition that harmful interference is not caused to the operation of stations licensed in an established service under any part of the Commission's rules.

§ 7.505 *Developmental program.* (a) The developmental program as described by the applicant in the application for authorization shall be substantially followed unless the Commission shall otherwise direct.

(b) Where some phases of the developmental program are not covered by the general rules of the Commission and the rules in this part, the Commission may specify supplemental or additional requirements or conditions in each case as deemed necessary in the public interest, convenience or necessity.

(c) The Commission may, from time to time, require a station engaged in developmental work to conduct special tests which are reasonable and desirable to the authorized developmental program.

§ 7.506 *Report of operation required.* A report on the results of the developmental program shall be filed with and made a part of each application for renewal of authorization, or in cases where no renewal of authorization is requested, such report shall be filed within 60 days of the expiration of such authorization. Matters which the applicant does not wish to disclose publicly may be so labeled; they will be used solely for the Commission's information and will not be publicly disclosed without permission of the applicant. The report shall include comprehensive and detailed information on the following:

(a) The final objective of the developmental operation.

(b) Pertinent results of operation to date.

(c) Analysis of the results obtained.

(d) Copies of any published reports.

(e) Need for continuation of the program if such need exists.

(f) Number of hours of operation on each authorized frequency during the term of the license to the date of the report.

§ 7.507 *Identification of station.* (a) The radiotelegraph and radiotelephone emissions of a developmental station shall be clearly identified in the manner provided for the corresponding established class of station.

(b) The facsimile emissions of a developmental station shall be identified either by telegraphy or by telephony as provided in paragraph (a) of this section.

(c) All other classes of emission of a developmental station shall be identified as prescribed in the respective station authorization.

SUBPART N—VIOLATIONS

§7.551 *Answers to notice of violation.* (a) Any person receiving official notice of a violation of the terms of the Communications Act, any legislative act, Executive order, treaty to which the United States is a party, terms of a station or operator license, or the rules and regulations of the Federal Communications Commission, shall, within 3 days from such receipt, send a written answer to the office of the Commission originating the official notice. If an answer cannot be sent, or an acknowledgment made within such 3-day period, acknowledgment and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices. The answer shall contain a full explanation of the incident involved and shall set forth the action taken to prevent a continuation or recurrence thereof. If the notice relates to lack of attention to, or improper operation of the station, or to log or watch discrepancies, the answer shall give the name and license number of the licensed operator on duty.

§ 7.552 *Reports of infringements of the International Radio Regulations.* In the event that infringement of the International Radio Regulations by a foreign station is detected, report thereof may be made by the submission to the Commission of a form similar to that set forth in Appendix 2 of the International Radio Regulations.

[1] Such requirements are those applicable to the corresponding established class of station including provisions relating to operator requirements, station logs, station documents, assignment of call signs.

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Sec.
8.1 Basis and purpose.

SUBPART A—DEFINITION OF TERMS

8.2 General.
8.3 Maritime mobile service.
8.4 Maritime radiolocation service.
8.5 Developmental maritime stations on board ship.
8.6 Operational.
8.7 Technical.
8.8 Installation for safety communication.

SUBPART B—APPLICATIONS

8.21 Authorization required for operation of a radio station.
8.22 Administrative classification of stations.
8.23 Statutory eligibility for station license.
8.24 Application precedent to authorization.
8.25 Signature on applications.
8.26 Informal applications.
8.27 Defective applications.
8.28 Amendment or dismissal of application.
8.29 Partial grant of application.
8.30 Request for amendment or waiver of rules.
8.31 Applications concerning marine-utility stations.
8.32 Application for station license.
8.33 Changes during license term.
8.34 Renewal of license.
8.35 Reinstatement of license.
8.36 Application forms for station authorizations.
8.37 Application for consent to voluntary assignment or transfer of control of station license.
8.38 Applications filed concurrently.
8.39 One application for plurality of stations.
8.40 Application for station of portable nature (other than marine-utility station).
8.41 Application for exceptional authority to communicate with amateur stations.
8.42 Application for special temporary authority.
8.43 Application precedent to hearing.
8.44 Failure to prosecute applications.
8.45 Inconsistent or conflicting applications.
8.46 Application for inspection.
8.47 Application for certificate of compliance with safety convention.
8.48 Extra compensation for overtime services by inspectors.
8.49 Application for exemption.

SUBPART C—STATION AUTHORIZATIONS

8.61 Authority for distress communication.
8.62 Changes in equipment of licensed station.
8.63 Normal license period.
8.64 License period for developmental station.
8.65 Issuance of modified and renewed license simultaneously.
8.66 One license for plurality of stations.
8.67 Transfer or assignment of station authorization (see also § 8.37).
8.68 Authority for lifeboat radio station.
8.69 Authority for transmission from cable buoy.
8.70 Authority to communicate with amateur stations.
8.71 Limitations concerning stations of portable nature other than marine utility stations.
8.72 Authority for ship radar station.
8.73 Discontinuance of station operation.
8.74 Assignment of call signs.
8.75 Operation during emergency.

SUBPART D—GENERAL STATION REQUIREMENTS

8.101 Inspection of station.
8.102 Posting of station license.
8.103 Location of station.
8.104 Operating controls.
8.105 Required radio channels for telegraphy.
8.106 Required radio channels for telephony.
8.107 Antenna requirements.
8.108 Adjustment of equipment.
8.109 Measurement of emission frequencies.
8.110 Measurement of transmitter power.

Sec.
8.111 Modulation adjustments for telephony.
8.112 General requirements for receiving apparatus.
8.113 Installation of power source.
8.114 Clock required.
8.115 Retention of radio station logs.

SUBPART E—STANDARD TECHNICAL REQUIREMENTS

8.131 Authorized frequency tolerance.
8.132 Authorized classes of emission.
8.133 Authorized emission bandwidths.
8.134 Authorized transmitter power.
8.135 Suppression of receiver radiation.
8.136 Type approval of transmitters for licensing.
8.137 Special requirements for radiotelephone transmitters.
8.138 Special requirements for ship radar transmitters.

SUBPART F—OPERATOR REQUIREMENTS

8.151 Authorized operator required.
8.152 Operator required by statute for safety.
8.153 Operator required by safety convention.
8.154 Location of authorized operator.
8.155 Waivers of operator license.
8.156 Posting of operator license.

SUBPART G—GENERAL OPERATING REQUIREMENTS

8.171 International regulations applicable.
8.172 Authority in event of distress.
8.173 Authority of the master.
8.174 Secrecy of communication.
8.175 Intercommunication in mobile service.
8.176 Priority of communications to be observed.
8.177 Order of priority of communications.
8.178 Unauthorized transmissions.
8.179 Control by coast or Government stations.
8.180 Cooperative use of frequency assignments.
8.181 Prevention of interference.
8.182 Suspension of transmission.
8.183 Hours of service.
8.184 Maintenance of station log.

SUBPART H—WATCHES AND AUTO-ALARMS FOR SAFETY PURPOSES

8.201 Watch required by International Radio Regulations.
8.202 Watch required by Communications Act.
8.203 Watch required by Safety Convention.
8.204 Provisions governing safety watch.
8.205 Compulsory use of auto-alarm.
8.206 Procedure in use of auto-alarm.

SUBPART I—GENERAL PURPOSE WATCHES

8.221 Watch on 500 kc.
8.222 Watch on 143 kc.
8.223 Watch on 2182 kc.

SUBPART J—PROCEDURE IN EVENT OF DISTRESS

8.231 Applicable regulations.
8.232 Radio-channels for distress.
8.233 Form of distress call.
8.234 Radiotelegraph alarm signal.
8.235 Distress message.
8.236 Transmission for radiolocation.
8.237 Acknowledgment of distress message.
8.238 Form of acknowledgment by telegraphy.
8.239 Information from acknowledging stations.
8.240 Control of distress traffic.
8.241 Supplementary transmissions.

SUBPART K—FOREIGN SHIP STATIONS IN UNITED STATES WATERS

8.261 Inspection of station.
8.262 Installation for safety purposes.
8.263 Limitations on transmission.

SUBPART L—MESSAGE CHARGES

8.271 Distress messages.
8.272 Danger messages.
8.273 Tariff filing required.
8.274 Responsibility for payment.
8.275 Ship position reports.
8.276 Free safety service.
8.277 Free service for national defense.

SUBPART M—NATURE OF SERVICE PROVIDED BY SHIP STATIONS AND SHIPBOARD MARINE-UTILITY STATIONS

8.301 Supplemental eligibility requirements.
8.302 Points of communication.
8.303 Service requirements for all ship stations.
8.304 Service requirements for public ship stations.
8.305 Service of limited ship stations and marine utility stations.

SUBPART N—USE OF RADIOTELEGRAPHY

8.321 Assignable frequencies.
8.322 Frequencies for use in distress.
8.323 Frequencies for calling.
8.324 Frequencies for working.
8.325 Use of Morse code required.
8.326 Identification of stations.
8.327 Procedure in testing.
8.328 Radiotelegraph operating procedure.
8.329 Station documents.
8.330 Station records.

SUBPART O—USE OF RADIOTELEPHONY

8.351 Assignable frequencies.
8.352 Frequencies for use in distress.
8.353 Frequencies for calling.
8.354 Frequencies below 5000 kc for public correspondence.
8.355 Frequencies from 5000 kc to 30 Mc. for public correspondence.
8.356 Frequencies above 30 Mc. for public correspondence.
8.357 Additional frequencies for public correspondence.
8.358 Frequencies below 8000 kc for safety purposes.
8.359 Frequencies above 156 Mc. for safety purposes.
8.360 Frequencies above 156 Mc. for business and operational purposes.
8.361 Frequencies within the band 30 to 50 Mc. for general communication.
8.362 Frequencies below 3000 kc for business and operational purposes.
8.363 Use of U. S. Government frequencies for telephony.
8.364 Identification of station.
8.365 Procedure in testing.

GENERAL RADIOTELEPHONE OPERATING PROCEDURE

8.366 Limitations on calling.
8.367 Station documents.
8.368 Station records.

SUBPART P—USE OF RADIOLOCATION

8.401 Assignable frequencies for direction-finding.
8.402 Use of direction-finding frequency.
8.403 Radiolocation by cable-repair ship.
8.404 Assignable frequencies above 2400 Mc.
8.405 Special provisions applicable to ship radar stations.

SUBPART Q—DEVELOPMENTAL STATIONS

8.431 Supplemental eligibility.
8.432 Showing and statement required.
8.433 Assignable frequencies.
8.434 Use of developmental stations.
8.435 Developmental program.
8.436 Report of operation required.
8.437 Identification of station.

SUBPART R—COMPULSORY SHIPBOARD RADIO INSTALLATIONS

8.501 Inspection of installation.
8.502 Main and emergency installations.
8.503 Requirements of main installation.
8.504 Requirements of emergency or reserve installation.
8.505 Tests of emergency installation.
8.506 Use of emergency installation.
8.507 Routing of electrical wiring.
8.508 Automatic-alarm-signal keying device.
8.509 Installation of automatic-alarm-signal keying device.
8.510 Auto-alarm.
8.511 Installation of auto-alarm.
8.512 Auto-alarm instructions.
8.513 Interior communication system.
8.514 Requirements for interior communication systems.
8.515 Radio station clock.
8.516 Direction-finder.
8.517 Requirements for direction-finder.
8.518 Auxiliary antenna.
8.519 Lifeboat radio facilities.
8.520 Lifeboat radio installation.
8.521 Auxiliary equipment and components.
8.522 General spare parts.
8.523 General auxiliary equipment.
8.524 Spare parts for specific apparatus.
8.525 Location of spare parts.

SUBPART S—TYPE APPROVAL OF COMPULSORY SHIPBOARD EQUIPMENT

8.551 Scope of type approval.
8.552 Requirements for main transmitter.
8.553 Requirements for emergency transmitter.
8.554 Requirements for auto-alarm.
8.555 Requirements for automatic-alarm-signal keying device.
8.556 Requirements for lifeboat radio equipment.
8.557 Requirements for non-portable lifeboat radio equipment.
8.558 Requirements for portable lifeboat radio equipment.
8.559 Requirements for lifeboat antenna kites.
8.560 Requirements for lifeboat antenna balloons.

SUBPART T—VIOLATIONS

8.601 Answers to notice of violation.
8.602 Reports of infringements of the International Radio Regulations.

§ 8.1 *Basis and purpose.* (a) The basis for the rules following in this part is The Communications Act of 1934, as amended, and applicable treaties and agreements to which the United States is a party.

(b) The purpose of the rules and regulations in this part is to prescribe the manner in which parts of the radio spectrum may be made available for radiocommunication and radiolocation for maritime operations which require radio transmitting facilities on board ship and, for certain maritime communications, on board aircraft; and to prescribe, in so far as is necessary to carry out the provisions of statute and applicable treaties and agreements relative to radio operators and radio installations on board ships for safety purposes, the details as to location, manner of installation, use and availability, of the required equipment, apparatus, spare parts, and such supplementary equipment as may be necessary for the proper functioning of the required shipboard radio installations for the proper conduct of radio communication in time of emergency or distress. For the purposes of this part, the following definitions shall be applicable.[1]

[1] For other definitions, refer to Part 2, rules governing frequency allocations and treaty matters; general rules and regulations; Part 7, rules governing stations on land in the maritime services; and Part 14, rules governing stations in Alaska in the Maritime services.

SUBPART A—DEFINITION OF TERMS

§ 8.2 *General*—(a) *Commission.* The term "Commission" means the Federal Communications Commission.[1]

(b) *Statutes and international agreements*—(1) *Communications Act.* The Communications Act of 1934, as amended.

(2) *Ship Act.* The act approved June 24, 1910, as amended, requiring apparatus and operators for radio communication on certain Great Lakes steamers.

(3) *Safety Convention.* The International Convention for the Safety of Life at Sea, in force, including the Regulations annexed thereto.[2]

(4) *International Radio Regulations.* The Radio Regulations in effect, annexed to the International Telecommunication Convention (Atlantic City, 1947); and the General Radio Regulations (revision of Cairo, 1938) in effect, annexed to the International Telecommunication Convention (Madrid, 1932). For the purpose of this part, the term "International Radio Regulations" shall be synonymous with the term "International General Radio Regulations."

(5) *Region 1, Region 2, and Region 3.* These geographic areas defined as "Region 1", "Region 2", and "Region 3" in Article 5, paragraph 3, of the Radio Regulations of Atlantic City, 1947.

(c) *Telecommunications.* Any transmission, emission or reception of signs, signals, writing, images, and sounds or intelligence of any nature by wire, radio, visual or other electromagnetic systems.

(d) *Radiocommunication.* Any telecommunication by means of Hertzian waves.

(e) *Public correspondence.* Any telecommunication which the offices and stations, by reason of their being at the disposal of the public, must accept for transmission.

(f) *Station.* A separate radio transmitter, or a combination of radio transmitter(s) and radio receiver(s), including the accessory equipment required for carrying on a definite radiocommunication service.

(g) *Station authorization.* Any valid station license or special temporary authority for use of a station, issued by the Commission.

(h) *Person.* An individual, partnership, association, joint stock company, trust, or corporation.

(i) *Station licensee.* The holder of a valid station license.

(j) *Operator licensee.* The holder of a valid license or valid permit for the actual operation of a licensed station.

(k) *Hours of service.* The period of time during each calendar day when a station is available, in conformity with the terms of the station authorization, for the rendition of its normal service.

(1) *Day.* (1) Where the word "day" is applied to the use of a specific frequency-assignment or to a specific authorized transmitter power, such use of the word "day" shall be construed to mean transmission on such frequency-assignment or with such authorized transmitter power during that period of time included between one hour after local sunrise and one hour before local sunset.

(2) Where the word "day" occurs in reference to the provisions of section 353, subsection (c), of the Communications Act or the radio provisions of the Safety Convention, such use of the word "day" shall be construed to mean the calendar day, from midnight to midnight, local time.

(m) *Radio district.* A prescribed geographic area within the United States which, for the purpose of official inspection of radio stations in behalf of the Commission, is under the jurisdiction of a Commission engineer-in-charge whose official address and the specific area of inspection associated therewith are designated by Appendix I of this Part.[4]

(n) *Ship or vessel.* "Ship" or "Vessel" includes every description of watercraft or other artificial contrivance, except aircraft, used or capable of being used as a means of transportation on water, whether or not it is actually afloat.

(o) *Categories of ships.* (1) Where use of the term "passenger ship" or "cargo ship" occurs in reference to the provisions of Part II of Title III of the Communications Act, such use of the term shall be construed as follows: A ship is a passenger ship if it carries or is licensed or certificated to carry more than twelve passengers. A cargo ship is any ship not a passenger ship.

(2) Where use of the term "passenger ship" or "cargo ship" occurs in reference to the radio provisions of the Safety Convention, such use of the term shall be construed as follows: A ship is a passenger ship if it carries more than twelve passengers. A cargo ship is any ship not a passenger ship.

(3) A commercial transport vessel is any ship or vessel which (i) is used in commerce for transporting passengers or goods to or from any harbor(s) or port(s), or between terminals within a particular harbor or port area, or (ii) is used primarily in connection with the construction, modification of construction, maintenance, repair, loading, unloading, movement, or piloting of one or more vessels of subdivision (i) of this subparagraph.

(p) *Safety Convention certificates*—(1) *Exemption certificate.* A certificate issued to a ship which is granted exemption from applicable provisions of the Safety Convention.

(2) *Safety certificate.* A certificate issued upon application, after inspection and survey by proper authorities, to a passenger ship which complies in an efficient manner with the requirements of the Safety Convention.

(3) *Safety radiotelegraphy certificate.* A certificate issued upon application, after inspection by proper authorities, to a cargo ship which complies in an efficient manner with the requirements of the Safety Convention.

§ 8.3 *Maritime mobile service*—(a) *Mobile service.* A service of radiocommunication between mobile and land stations, or between mobile stations.

(b) *Maritime mobile service.* A mobile service between ship stations and coast stations, or between ship stations.[5]

(c) *Mobile station.* A station in a mobile service intended to be used while in motion, or during halts at unspecified points.

(d) *Ship station.* A mobile station in the maritime mobile service located on board a vessel which is not permanently moored.

(e) *Public ship station.* (1) A ship station open to public correspondence.

(2) Public ship stations authorized to employ telegraphy for public correspondence are further classified according to their hours of service as designated herewith:

First class. These stations carry on a continuous service of public correspondence.

Second class. These stations carry on a designated service of public correspondence of prescribed but limited duration; at least during the period designated for ship stations of the second category by the International Radio Regulations or, in the case of voyages of short duration, as otherwise designated by the Commission in accordance with those regulations.

Third class. These stations carry on a service of public correspondence, the duration of which is prescribed but is less than that of stations of the Second Class, or is not prescribed but is determined by the master of the vessel pursuant to his authority under section 358 of the Communications Act.

(f) *Limited ship station.* A ship station not open to public correspondence.

(g) *Marine-utility station.* A station in the maritime mobile service, readily portable for use as a limited coast station at unspecified points ashore within a designated local area, or for use as a limited ship station on mobile vessels within a designated local area.

§ 8.4 *Maritime radiolocation service*—(a) *Radiolocation.* Determination of a position or of a direction by means of the constant velocity or rectilinear propagation properties of Hertzian waves.

(b) *Radiolocation service.* A service involving the use of radiolocation.

(c) *Maritime radiolocation service.* A radiolocation service intended for the benefit of ships.

(d) *Radiolocation station.* A station in the radiolocation service.

(e) *Radiolocation mobile station.* A station in the radiolocation service intended to be used while in motion or during halts at unspecified points.

(f) *Ship-radiolocation station.* A radiolocation mobile station located on board a ship and used solely for maritime radiolocation service.

(g) *Radionavigation.* Radiolocation intended solely for the determination of position or direction or for obstruction warning in navigation.

(h) *Radionavigation service.* A radiolocation service involving the use of radionavigation.

(i) *Maritime radionavigation service.* A radionavigation service intended for the benefit of ships.

(j) *Radionavigation station.* A station in the radionavigation service.

(k) *Radionavigation mobile station.* A station in the radionavigation service intended to be used while in motion or during halts at unspecified points.

(l) *Ship-radionavigation station.* A radionavigation mobile station located on board a ship and used solely for maritime radionavigation service.

(m) *Radar.* A radiolocation system where transmission and reception are carried out at the same location, and which utilizes the reflecting or retransmitting properties of objects in order to determine their positions.

(n) *Primary radar.* Radar using reflection only.

(o) *Secondary radar.* Radar using automatic retransmission on the same or on a different radio frequency.

(p) *Ship-radar station.* A ship-radionavigation station[6] utilizing radar for the purpose of detecting above-water objects, with a determination of their direction and distance from the ship.

(q) *Radio direction-finding.* Radiolocation in which only the direction of a station is determined by means of its emissions.

(r) *Radio direction-finding station.* A radiolocation station intended to determine only the direction of other stations by means of transmissions from the latter.

(s) *Direction finder (radio compass).* Apparatus capable of receiving clearly perceptible radio signals and capable of taking bearings on these signals from which the true bearing and direction of the point of origin of such signals with respect to the point of reception may be determined.

(t) *Direction finder receiver.* A radio receiver which is a component of a radio direction finder.

(u) *Marine radiobeacon station.* A radionavigation land station, the emissions of which are intended to enable a ship station to determine its bearing or its direction in relation to the marine radiobeacon station.

§ 8.5 *Developmental maritime stations on board ship*—(a) *Developmental mobile station.* A mobile station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the nongovernment mobile service which has been specifically allocated the authorized frequency (or frequencies) of the developmental mobile station.

(b) *Developmental radiolocation station.* A radiolocation station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the nongovernment radiolocation service (including the nongovernment radionavigation service) which has been specifically allocated the authorized frequency (or frequencies) of the developmental radiolocation station.

(c) *Classification.* The classes of developmental stations on board ships in the maritime mobile service and in the maritime radiolocation service are the same as the classes defined in preceding sections; however, for purposes of identification, the particular class of station is followed by the parenthetical indicator "(developmental)"; for example, "limited ship station (developmental)".

§ 8.6 *Operational*—(a) *Safety communication.* The transmission or reception of distress, alarm, urgent, or safety signals, or any form of radiocommunication which, if delayed in transmission or reception, may adversely affect the safety of life or property; and occasional transmission or reception as necessary for determining whether or not the radio equipment is in good working condition for purposes of safety.

(b) *Superfluous radiocommunication.* Any transmission that is not necessary in properly carrying on the service for which the station is licensed.

(c) *Harmful interference.* Any radiation or any induction which endangers the functioning of a radionavigation service or of a safety service, or obstructs or repeatedly interrupts a radio service operating in accordance with law.

(d) *Distress signal.* (1) The distress signal is the radiotelegraph or radiotelephone signal which indicates that a ship, aircraft, or other vehicle is threatened by grave and imminent danger and requests immediate assistance.

(2) In radiotelegraphy, the international distress signal consists of the group "three dots, three dashes, three dots", transmitted as a single signal in which the dashes are emphasized so as to be distinguished clearly from the dots.

(3) In radiotelephony, the international distress signal consists of the word "MAYDAY" pronounced as the French expression "m'aider".

(e) *Alarm signal.* The international radiotelegraph signal, consisting of a series of twelve dashes sent in one minute, the duration of each dash being four seconds and the duration of the interval between two consecutive dashes being one second, having for its sole purpose the actuation of automatic devices giving warning by means of an alarm that a distress call or message is about to follow, or that an urgent cyclone warning is about to be sent by a coast station authorized to do so.

(f) *Urgency signal.* (1) The urgency signal is the radiotelegraph or radiotelephone signal which indicates that the calling station has a very urgent message to transmit concerning the safety of a ship, aircraft, or other vehicle, or of some person on board or within sight.

(2) In radiotelegraphy, the international urgency signal consists of three repetitions of the group "XXX", sent before the call, with the letters of each group and the successive groups clearly separated from each other.

(3) In radiotelephony, the international urgency signal consists of three repetitions of the word "PAN" pronounced as the French word "panne" and sent before the call.

(g) *Safety signal.* (1) The safety signal is the radiotelegraph or radiotelephone signal which indicates that the station sending this signal is ready to transmit a message concerning the safety of navigation or giving important meteorological warnings.

(2) In radiotelegraphy, the international safety signal consists of three repetitions of the group "TTT," sent before the call, with the letters of each group and the successive groups clearly separated from each other.

(3) In radiotelephony, the international safety signal consists of three repetitions of the French word "securite," sent before the call.

(h) *Distress traffic.* All messages relative to the immediate assistance required by the ship, aircraft, or other vehicle in distress.

(i) *500 kilocycles silent period.* The three-minute period twice an hour beginning at x h 15 and x h 45, Greenwich mean time (GMT), during which the International Radio Regulations require that all transmissions (except for certain emissions designated in those regulations) must cease on all frequencies within a designated frequency-band centered on 500 kc.

(j) *Watch.* The act of listening for or to sound produced by a telephone receiver when the electric wave energy at audio frequency supplied to the telephone receiver:

(1) Results from simultaneous interception and detection of Hertzian waves of a designated radio frequency or frequencies, and

(2) Is substantially equivalent in frequency to the audio frequency or frequencies generated by detection of the intercepted Hertzian waves.

(k) *Calling.* Transmission from a station solely to secure the attention of another station, or other stations, for a particular purpose.

(l) *Working.* Radiocommunication carried on, for a purpose other than calling, by any station or stations using telegraphy, telephony, or facsimile.

§ 8.7 *Technical*—(a) *Radio frequency.* Any frequency between 10 kilocycles per second and 3,000,000 megacycles per second.

(b) *Audio frequency.* A frequency corresponding to the frequency of a normally audible sound wave, usually between 20 and 15,000 cycles per second.

(c) *Hertzian waves.* Electromagnetic waves of frequencies between 10 kc and 3,000,000 Mc.

(d) *Emission.* Any radiation of energy by means of Hertzian waves.

(e) *Spurious emission.* Any emission from a station at a frequency or frequencies outside an authorized frequency-band.

(f) *Telegraphy.* A system of telecommunication for the transmission of

[1] The address of the Commission's principal office is "Federal Communications Commission, Washington 25, D. C."

[2] The International Convention for the Safety of Life at Sea, London, 1929, became effective for the United States on November 7, 1936. It is expected that this Convention will be superseded by the International Convention for the Safety of Life at Sea, London, 1948; pertinent information may be obtained by inquiry to the Commission.

[4] This will be identical with appendix attached to Part 12 (47 CFR Part 12).

[5] Aircraft stations, when transmitting on designated frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations.

[6] Where reference is made, in official documents issued by the Commission prior to the effective date of this section, to ship-radar stations in the "ship service", the term "ship service" shall be construed, with respect to such stations, to mean "maritime radionavigation service".

written matter by the use of a signal code.

(g) *Telephony.* A system of telecommunication set up for the transmission of speech, or in some cases, other sounds.

(h) *Facsimile.* A system of telecommunication for the transmission of fixed images with a view to their reception in a permanent form.

(i) *Carrier frequency.* The frequency of the carrier.[7]

(j) *Authorized carrier frequency.* A specific carrier frequency authorized for use by a station, from which the actual carrier frequency is permitted to deviate, solely because of frequency instability, by an amount not to exceed the frequency tolerance.

(k) *Frequency tolerance.* The extent to which a carrier frequency (or when a carrier is not present, a frequency coinciding with the center of an emission-bandwidth) is permitted by applicable regulations, or by the terms of a station authorization, to depart, solely because of frequency instability, from the authorized carrier frequency (or, when a carrier is not present, from the assigned frequency).

(l) *Frequency-band.* A continuous range of frequencies extending between two designated limiting frequencies.

(m) *Bandwidth.* The number of cycles or kilocycles per second expressing the difference between the limiting frequencies of a frequency-band.

(n) *Radio-channel.* A frequency-band, sufficient in width to permit its use for radiocommunication, comprised of the emission-bandwidth, the interference guard bands, and the frequency tolerance.

(o) *Emission-bandwidth.* The bandwidth effectively occupied by the emission of a radio-channel (the band of frequencies comprising 99 per cent of the total radiated power extended to include any discrete frequency on which the power is at least 0.25 per cent of the total radiated power).[8]

(p) *Interference guard bands.* The two frequency-bands additional to, and on either side of, the authorized frequency-band, which may be provided to minimize the possibility of interference between different radio-channels.

(q) *Authorized emission-bandwidth.* A specific emission-bandwidth authorized for use by a station.

(r) *Authorized frequency-band.* A frequency-band authorized for use by a station.

(s) *Assigned frequency.* The frequency coinciding with the center of the frequency-band in which the station is authorized to work; this frequency does not necessarily correspond to any frequency in an emission.[9]

(t) *Frequency assignment.* The specific frequency or frequencies authorized for the emission(s) of a particular station; expressed for each radio-channel by

(1) The authorized carrier frequency, the frequency tolerance, and the authorized emission-bandwidth in relation to the authorized carrier frequency, or

(2) The authorized emission-bandwidth in reference to a specific assigned frequency (when a carrier does not exist), or

(3) The authorized frequency-band (when a carrier does not exist).

(u) *Modulation.* The process of producing a wave some characteristic of which varies as a function of the instantaneous value of another wave, called the modulating wave.

(v) *Modulation factor.* (1) In an amplitude-modulated wave, the ratio of half the difference between the maximum and minimum amplitudes to the average amplitude.

(2) In a frequency-modulated wave, the ratio of the actual frequency swing to the frequency swing defined as 100 percent modulation.

(w) *Percentage modulation.* The modulation factor expressed in percent.

(x) *Amplitude modulation (AM).* Modulation in which the amplitude of a wave is the characteristic subject to variation.

(y) *Frequency modulation (FM).* Modulation in which the instantaneous frequency of a sine-wave carrier[10] is caused to depart from the carrier frequency by an amount proportional to the instantaneous value of the modulating wave.

(z) *Frequency deviation.* In frequency modulation, the peak difference between the instantaneous frequency of the modulated wave and the carrier frequency.

(aa) *Frequency swing.* In frequency modulation, the peak difference between the maximum and the minimum values of the instantaneous frequency.

(bb) *Deviation ratio.* In frequency modulation, for a sinusoidal modulating wave, the ratio of the frequency deviation to the frequency of the modulating wave.

(cc) *Antenna (aerial).* A means for radiating or intercepting Hertzian waves.

(dd) *Artificial antenna (dummy antenna).* A device which has the equivalent impedance characteristics of an antenna and the necessary power-handling capabilities, but which does not radiate or intercept Hertzian waves.

(ee) *Last radio stage.* In an electron-tube radio transmitter, the radio-frequency oscillator or power amplifier stage which supplies all radio-frequency power to the antenna, either directly or through the medium of a transmission line.

(ff) *Plate (anode) input power.* The electrical power delivered to the plate (anode) of an electron tube by the source of supply; this power being the product of the effective anode voltage and the effective anode current.

(gg) *Antenna power.* The power supplied by a particular radio transmitter to the antenna used in connection with that transmitter, at a radio frequency or frequencies within an authorized frequency-band.

(hh) *Radiated power.* Energy, in the form of Hertzian waves, radiated from an antenna.

(ii) *Authorized transmitter - power.* The power of a particular transmitter as designated in the respective station license or construction permit or in lieu thereof, the power designated in the applicable rule(s) or regulation(s). Unless specifically expressed otherwise, this power is the total plate input power to all electron tubes of the last radio stage of the transmitter which are used to supply radio-frequency power to the antenna, measured as prescribed in § 8.134.

(jj) *Crystal oscillator.* A generator of alternating-current energy, the frequency of which is determined by the mechanical properties of a piezoelectric crystal.

(kk) *Telephone receivers.* Whenever use of the following terms occurs in reference to "watch" as defined in paragraph (j) of § 8.6, such use of these terms shall be construed as follows:

(1) *Telephone receiver.* Any instrument used to convert energy consisting of electric waves at audio frequency into energy consisting of substantially equivalent sound waves.

(2) *Hand receiver.* A telephone receiver capable of being held to the ear by the hand and normally used in that manner.

(3) *Head receiver.* A telephone receiver capable of being held to the ear by an attached headband and normally used in that manner.

(4) *Loudspeaker.* A telephone receiver capable of effectively radiating acoustic power for reception by ear at a distance and normally used for that purpose.

(ll) *Energize.* The term "energize", as applied in this part to transmitters, receivers, and other component equipment of ship radio installations required for safety purposes, means to supply with power as necessary to provide normal and effective operation of such equipment.

§ 8.8 *Installation for safety communication*—(a) *Main antenna.* An antenna installed in a fixed position on board a ship, and regularly available for use in connection with a main installation on the same ship.

(b) *Main radio transmitter.* A radio transmitter regularly available in a ship station for safety communication which is energized ordinarily by a source of power other than the emergency power supply.

(c) *Main radio receiver.* A radio receiver regularly available in a ship station for safety communication which is energized ordinarily by a source of power other than the emergency power supply.

(d) *Main power supply.* A normally available source of power on board a ship capable of simultaneously energizing all other components of the main installation.

(e) *Main installation.* A radio installation on board a vessel; including a main antenna, a main transmitter, a main receiver, and a main power supply; independent of any emergency or reserve installation and capable of being used for safety communication with other stations in the maritime mobile service.

(f) *Emergency antenna.* An antenna installed in a fixed position on board a ship, separate from and independent of any other antenna(s) on the same ship, and immediately available for use in connection with an emergency or reserve installation on the same ship.

(g) *Emergency radio transmitter.* A radio transmitter immediately available in a ship station for safety communication and capable of being energized solely by the emergency power supply.

(h) *Emergency radio receiver.* A radio receiver immediately available in a ship station for safety communication and capable of being energized solely by the emergency power supply.

(i) *Emergency power supply.* An immediately available source or sources of power on board a ship, independent of the propelling power of the ship and any other electrical system, capable of simultaneously energizing all other components of the emergency or reserve installation.

(j) *Emergency or reserve installation.* A radio installation on board a vessel; including an emergency antenna, an emergency radio transmitter, an emergency radio receiver, emergency electric lights, and an emergency power supply; capable of being used, when energized solely by its emergency power supply, for safety communication with other stations in the maritime mobile service.

(k) *Automatic alarm receiver.* A complete receiving, selecting, and warning device capable of being actuated automatically by intercepted radio-frequency waves forming the international automatic alarm signal, as this signal is specified by the International Radio Regulations.

(l) *Auto-alarm.* An automatic alarm receiver approved as specified by the provisions of section 3 (x) of the Communications Act.

(m) *Automatic-alarm-signal keying device.* A device capable of automatically keying a radiotelegraph transmitter so as to transmit the international automatic-alarm signal, as this signal is specified by the International Radio Regulations.

Subpart B—Applications

§ 8.21 *Authorization required for operation of a radio station.* Radio stations required by the Communications Act to be licensed shall not be operated in the maritime mobile service or in the maritime radiolocation service (including the maritime radionavigation service) except under and in accordance with a valid station authorization therefor granted by the Commission.[1] Further, the operation of such apparatus shall be in conformity with the provisions of statute, international treaty or agreement, and the rules of the Commission relative to the licensing of operators.

§ 8.22 *Administrative classification of stations.* (a) Stations in the maritime mobile service subject to this part are licensed according to the class of station normally as designated below:

(1) Public ship stations authorized to employ telegraphy for public correspondence:

(i) First class;

(ii) Second class;

(iii) Third class;

(2) Public ship stations not authorized to employ telegraphy;

(3) Limited ship stations;

(4) Maritime utility stations.

(b) Public ship stations not authorized to employ telegraphy for public correspondence are licensed as public ship stations (one class) without distinction relative to hours of service for public correspondence.

(c) Limited ship stations are licensed (one class) without distinction relative to hours of service.

(d) One ship station license is issued in behalf of one station licensee to authorize the operation of a ship station which is within more than one class as enumerated in paragraph (a) of this section. In all such cases, if the station, by reason of any portion of its use or operation, comes within the definition of a public ship station (as defined by paragraph (e) of § 8.3), it is licensed as a public ship station; if the station is authorized to employ telegraphy for public correspondence, it is further classified in accordance with paragraph (a) (1) of this section.

(e) Stations in the maritime radiolocation service subject to this part (other than those exclusively in the maritime radionavigation service) are licensed according to the class of station, normally as designated below:

(1) Ship radiolocation stations.

(f) Stations in the maritime radionavigation service subject to this part are licensed according to the class of station, normally as designated below:

(1) Ship radionavigation stations;

(2) Ship radar stations.

§ 8.23 *Statutory eligibility for station license.* Section 310 of the Communications Act places the following express limitations on the granting and holding of station licenses:

(a) A station license shall not be granted to or held by:

(1) Any alien or the representative of any alien;

(2) Any foreign government or the representative therof;

(3) Any corporation organized under the laws of any foreign government;

(4) Any corporation of which any officer or director is an alien;

(5) Any corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government, or representative thereof, or by any corporation organized under the laws of a foreign country;

(6) Any corporation directly or indirectly controlled by any other corporation of which any officer or more than one-fourth of the directors are aliens, if the Commisison finds that the public interest will be served by the refusal or revocation of such license; or

(7) Any corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representatives thereof, or by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.

(8) Nothing in the foregoing paragraph shall prevent the licensing of radio apparatus on board any vessel, aircraft, or other mobile station of the United States when the installation and use of such apparatus is required by Act of Congress or any treaty to which the United States is a party.

§ 8.24 *Application precedent to authorization.* Except as otherwise provided in §§ 8.26 and 8.42, no authorization will be granted for use or operation of any radio station on board ship in any service governed by this Part unless formal written application therefor in proper form[2] first is filed with the Commission at its offices in Washington 25, D. C. Except as provided in paragraphs (c) and (f) of § 8.42, an application in writing should be filed at least sixty days prior to the earliest date on which it is desired that the requested authorization be granted by the Commission, in order that action therein may be taken by that date. Each application shall be specific and complete with regard to the information requested in the application form, or otherwise specifically requested by the Commission. Unless otherwise specified in a particular case or for a particular form, each application shall be filed in original only.

§ 8.25 *Signature on application.* One copy of each application for an authorization shall be signed under oath or affirmation by the applicant if the applicant be an individual, or any one of the partners if an applicant be a partnership, by an officer if the applicant be a corporation, or by a member who is an officer if the applicant be an unincorporated association: *Provided, however,* That applications may be signed by the attorney for an applicant (a) in case of physical disability of the applicant, or (b) his absence from the continental United States. If it be made by a person other than the applicant, he must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why it is not made by the applicant. Applications filed on behalf of eligible governmental entities such as states and territories of the United States and political subdivisions thereof, the District of

---

[7] For the definition of "carrier", see paragraph (a) of § 2.3 of this chapter.

[8] This definition coincides with the definition of "Bandwidth Occupied by an Emission", which appears as paragraph 58 of the International Radio Regulations of Atlantic City, 1947. The emission-bandwidth is dependent upon the class of emission and the speed of signalling.

[9] This definition coincides with the definition of "Frequency Assigned to a Station" which appears as paragraph 57 of the International Radio Regulations of Atlantic City, 1947.

[10] For the definition of "carrier," see paragraph (a) of § 2.3 of this chapter.

[1] The Commission has exempted certain low power radio devices from its general licensing requirements as set forth in Part 15, rules governing restricted radiation devices. Licensing procedures and exemptions applicable to radio apparatus used for medical purposes, industrial heating, and other miscellaneous purposes not involving radiocommunication are set forth in Part 18, rules and regulations relating to industrial, scientific and medical service.

[2] Standard forms are prescribed herein for use in connection with the majority of applications submitted for Commission consideration. These forms may be obtained without cost from the Commission at Washington, D. C., or from any of its field offices.

Columbia, and units of local government including incorporated municipalities, shall be signed by such duly elected or appointed officials as may be competent to do so under the law of the jurisdiction. Where more than one copy of an application is required to be filed with the Commission, only the original need to be signed and verified; copies may be conformed.

§ 8.26 *Informal applications.* An application not submitted on a standard form prescribed by the Commission[2] is an informal application. Each informal application shall be submitted in duplicate, normally in letter form, and with the original signed under oath or affirmation. Each application shall be clear and complete within itself as to the facts presented and the action desired.

§ 8.27 *Defective applications.* (a) An application which is not made in accordance with the Commission's rules or other requirements will be considered defective unless accompanied by a request to waive or petition to amend the rule or other requirement with which the application is in conflict. The reasons which are believed to support such a request or petition shall be set forth in detail.

(b) If an applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

(c) When an application (other than an application made in an emergency and not in written form) is considered to be incomplete or defective, the Secretary of the Commission will return it to the applicant, unless the Commission may otherwise direct. The reason for return of the application will be indicated, and, if appropriate, necessary additions or corrections will be suggested.

§ 8.28 *Amendment or dismissal of application.* Any application may be amended or dismissed without prejudice upon request of the applicant prior to the time the application is granted or designated for hearing. Each amendment of, or request for dismissal of an application shall be signed, authenticated, and submitted in the same manner and with the same number of copies as required for the original application. All related correspondence or other material which is to be considered as a part of an application already filed shall be submitted in the form of an amendment to the application concerned.

§ 8.29 *Partial grant of application.* Whenever the Commission, without a hearing, grants an application in part, or with any privileges, terms, or conditions other than those requested, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written protest, rejecting the grant as made. Upon receipt of such protest, the Commission will vacate its original action upon the application, if necessary, and set the application for hearing in the same manner as other applications are set for hearing.

§ 8.30 *Request for amendment or waiver of rules.* (a) Any provisions of the rules in this part (except those provisions which set forth specific requirements, not subject to waiver or change, of any applicable statute, or any applicable international agreement to which the United States is a signatory party) may be repealed, amended or supplemented, subject to the provisions of the Administrative Procedures Act. Any interested person may petition for issuance, amendment, or repeal of any rule or regulation governing stations in the maritime mobile or maritime radio location service. Such petition may be filed in relation to specific applications for station authorization, or independently thereof, and shall show the text of the proposed rule(s), and shall set forth the reason(s) in support of the petition.

(b) Any provision of the rules in this part (except these provisions which set forth specific requirements, not subject to waiver or change, of any applicable statute, or any applicable international agreement to which the United States is a signatory party) may be waived by the Commission, if the Commission finds that important or exceptional circumstances require such waiver and that the public interest will be served thereby. A request for such waiver may be filed in relation to specific applications for station authorization, or independently thereof, and shall set forth in detail the reason(s) said waiver is considered to be necessary, and how the public interest would be served thereby.

§ 8.31 *Applications concerning marine-utility stations.* Whenever a marine-utility station is to be used and operated at any location on land (whether or not it is to be used and operated additionally on board mobile vessels), such station is subject to the applicable provisions of Part 7 of the Commission's rules and an application for construction permit to establish such station shall be filed with the Commission, pursuant to the requirements therefor contained in that part.

§ 8.32 *Application for station license.* (a) In accordance with § 8.24, application for station license to authorize the use and operaton of radio transmitting apparatus on board ship shall be submitted on the appropriate Federal Communications Commission Form as prescribed in § 8.36.

(b) Each application for a public ship station license which requests authority to employ telegraphy for public correspondence shall designate the class of station desired to be authorized, in accordance with the terms of paragraph (e) of § 8.3.

§ 8.33 *Changes during license term.* When, during the term of a station license, any change is to be made in respect to the station, or with respect to its use and operation, which would result in a deviation from the terms of the license and/or any supplemental instrument of authorization, application for modification of license on the appropriate FCC Form as prescribed in § 8.36 shall be submitted in accordance with § 8.24 not less than 60 days prior to the date contemplated for such modification of license in order that action therein may be taken by that date.

§ 8.34 *Renewal of license.* Application for renewal of station license shall be submitted on the appropriate FCC Form as prescribed in § 8.36. Unless otherwise directed by the Commission, such application should be filed at least 60 days prior to the expiration date of the license sought to be renewed in order that action therein may be taken by that date.

§ 8.35 *Reinstatement of license.* When the use and operation of a station has been discontinued due to the station license having expired by its own terms, and application for renewal of station license has not been submitted within a period of time acceptable to the Commission for the purpose of renewal, application for station license on the appropriate FCC Form as prescribed in § 8.36 shall, if authority is desired for resumption of operation, be submitted in accordance with § 8.24.

§ 8.36 *Application forms for station authorizations.* (a) The forms hereinafter designated in this Section shall be used for filing formal applications for station authorizations:

(1) For ship stations employing telegraph transmission only, or employing both telegraph and telephone transmission:

For ship station license: FCC Form 501 together with supplementary FCC Form 500.
For modification of ship station license: FCC Form 503 together with supplementary FCC Form 500.
For renewal of ship station license: FCC Form 502.

(2) For ship stations employing radiotelephone transmission (for this purpose, the use of incidental telegraphic emission for calling or operating signals is included in the term "radiotelephone transmission") and for marine-utility stations to be operated on board mobile vessels exclusively:

For ship station license, or renewal or modification thereof: FCC Form 501–A.

(3) For ship stations employing facsimile transmission, composite transmission, or transmission not designated in any of the foregoing categories; and for ship radiolocation or radionavigation stations (other than ship radar stations):

For station license: FCC Form 501.
For modification of station license: FCC Form 503.
For renewal of station license: FCC Form 502.

(4) For ship radar stations:

For license, or renewal or modification thereof: FCC Form 501–B.

(5) For stations on board ship which employ two or more of the foregoing types of transmissions (other than as indicated in subparagraph (1) of this paragraph) and for developmental stations on board ship:

For license, or renewal or modification thereof: each of the form or forms herein specified for the corresponding type or types of transmission.

§ 8.37 *Application for consent to voluntary assignment or transfer of control of station license.* (a) Application for consent to voluntary assignment of a license covering any class of station governed by this part, or for consent to voluntary transfer of control of a corporation holding such license, shall be filed with the Commission on FCC Form 702, "Application for Consent to Assignment of Radio Station Construction Permit or License", or FCC Form 703, "Application for Consent to Transfer of Control of Corporation Holding Construction Permit or Station License", as the case may be, at least 60 days prior to the contemplated effective date of assignment or transfer of control in order that action therein may be taken by that date.

(b) In the case of stations on board ship licensed to operate in any service governed by this part, involuntary assignment of licenses will not be made. Upon the death or legal disability of the licensee, such licenses shall be surrendered for cancellation.

§ 8.38 *Applications filed concurrently.* Applications of different category but in respect to the same station and radio service may be filed concurrently by the same applicant as prescribed herewith:

(a) Applications for modification of station license and for renewal of station license;

(b) Applications for modification of station license and for consent to voluntary assignment or transfer of control of station license;

(c) Applications for renewal of station license and for consent to voluntary assignment or transfer of control of station license.

§ 8.39 *One application for plurality of stations.* (a) One application may be filed for several station authorizations to cover similar stations on board different ships provided the following elements are the same for all stations covered by such application:

(1) Nature of application (license, modification of license, renewal of license, or special temporary authority);
(2) Applicant;
(3) Licensee (when request is for modification or renewal);
(4) Nature of service and class of station as set forth in § 8.22.

(b) Paragraph (a) of this section shall apply only when the individual stations covered by such application are clearly identified therein and properly related to the information supplied which is applicable to the respective authorization requested for each station.

§ 8.40 *Application for station of portable nature (other than marine-utility station).* (a) Upon application as appropriate under §§ 8.26, 8.36 or 8.42 including a supplemental statement as prescribed in subparagraphs (1) and (2) of this paragraph, the Commission may grant a license, modification of license, renewal of license, or special temporary authorization, permitting operation of a station of an established class in the maritime mobile or maritime radiolocation service which is readily portable for use as the occasion requires on board a ship or ships of the United States, provided the applicant makes a satisfactory showing that:

(1) The station will be operated as an established class of station on board ship in conformity with all applicable rules of the Commission, and

(2) Unusual circumstances exist whereby a station license to cover such operation is necessary to eliminate the necessity of frequently filing applications for special temporary authority, licenses, or modifications of license in order to permit on short notice the temporary operation of specified apparatus on board a designated ship or ships of the United States.

§ 8.41 *Application for exceptional authority to communicate with amateur stations.* Upon proper application, including a supplemental statement as herein prescribed, the Commission may grant a license, modification of license, renewal of license, or special temporary authorization, permitting a ship telegraph station on board a vessel not engaged in commerce or a vessel used, or intended to be used, for scientific research or expedition, to transmit by means of Class A1 or A2 emission on authorized ship telegraph frequencies within the band 4000 kc to 25000 kc, for the purpose of exchanging radiotelegraph communications directly with licensed amateur station[4] on land in accordance with the provisions of § 8.70, provided the applicant includes a supplemental statement satisfactorily showing that:

(a) Unusual circumstances during the contemplated voyage(s) are anticipated which will make direct communication with amateur stations extremely beneficial to persons on board the vessel or to the person(s) responsible for the scientific research or expedition for which the vessel is used or is intended to be used;

(b) The messages to be exchanged with amateur stations will contain no material relating directly or indirectly to a commercial transaction; and

(c) Transmission for this purpose will be conducted on a secondary basis so as to avoid interference to commercial message traffic and other authorized emissions of stations operating in the maritime mobile or maritime radiolocation service.

§ 8.42 *Application for special temporary authority.* (a) Upon receipt of application (in written form except as provided in paragraph (f) of this section) therefor, the Commission may issue special temporary authorization for a period not to exceed three months for the use and operation of transmitting apparatus on board ship in the maritime mobile service or the maritime radiolocation service, (provided the proposed operation is not in conflict with the rules and regulations of the Commission) under the following conditions:

(1) In cases which obviously require the immediate use of existing and available radio transmitting apparatus not already authorized for the desired operation;

(2) In cases where an urgent need is shown for operation of an authorized station for a limited time only, in a manner or for a period of time other than that specified in the existing authorization;

(3) For the purpose of conducting a field survey to obtain necessary data in connection with the filing of one or more formal applications. In this case, the authority, if granted, will be for developmental operation only, and these sections of this part applicable to developmental stations on board ship shall apply to all operation under such grant.

(b) Whenever practicable, an application for special temporary authority shall be filed as a formal application on a form or forms prescribed in § 8.36. When necessary, however, such application may be filed as an informal application as prescribed in § 8.26 and paragraph (f) of this section.

(c) An application in written form for special temporary authority shall be filed not less than ten days prior to the earliest date of proposed operation thereunder unless acceptable explanation of reason for failure to meet this time limitation is included with the application.

(d) Each application in written form for special temporary authority submitted by an applicant who holds a valid outstanding authorization or has already filed a formal application, shall contain, as a minimum requirement, the following information, except as to such information already on file with the Commission:

(1) Name and address of applicant.
(2) Official call letters of any valid station authorization or construction permit already held by applicant, and the station location.
(3) Name and official registry number of ship.
(4) Relation of applicant to owner of vessel.
(5) Explanation of need for special temporary authority in lieu of normal type of authorization.
(6) Class of station and nature of service desired.
(7) Complete particulars concerning purpose and nature of proposed operation.
(8) Station(s) with which communication is intended.
(9) Frequency or frequencies, maximum plate input power, and class of emission to be employed.
(10) Equipment to be used, specifying the manufacturer, the date installed, model number, rated power, and frequency stability to be maintained.
(11) The date(s) and time(s) of the proposed operation.

(e) Each application in written form for special temporary authority submitted by an applicant who does not hold a valid station license or construc-

[2] Standard forms are prescribed herein for use in connection with the majority of applications and reports submitted for Commission consideration. These forms may be obtained from the Commission at Washington, D. C., or from any of its field offices.

[4] For information concerning amateur stations, see Part 12 of the Commission's rules.

tion permit issued by the Commission, or has not already filed formal application therefor, shall, in addition to the information required under paragraph (d) of this section, contain factual statements to the extent necessary for the Commission to determine whether or not the granting of the desired authorization will be in accordance with the citizenship eligibility requirements of section 310 of the Communications Act.[2]

(f) In any case in which the Commission finds an actual emergency to exist, the Commission will normally issue special temporary authority on receipt of an application submitted by wire or telephone for a station on board a ship provided that the application is accompanied by a statement by the applicant that he will, at the earliest practicable time thereafter, follow the application so submitted by filing with the Commission a formal or informal written application in accordance with §§ 8.26 or 8.36.

(1) The following specific types of factual situations are normally acceptable as constituting an emergency under this section:

(i) The ship involved is in a port of the continental United States and is unexpectedly required to sail therefrom within a period following the filing of application which does not exceed the applicable period of time set forth in subdivision (v) of this subparagraph.

(ii) The ship involved is arriving at a port of the continental United States on the date of application and is required to sail therefrom within a period after such date of arrival which does not exceed the applicable period of time set forth in subdivision (v) of this subparagraph.

(iii) The ship involved is arriving at a port in a United States territory or possession on the date of application and is required to sail therefrom within a period after such date of arrival which does not exceed the applicable period of time set forth in subdivision (v) of this subparagraph.

(iv) The ship involved is in a port of the continental United States or a port in a United States territory or possession and within a period of time which does not exceed the applicable period set forth in subdivision (v) of this subparagraph of expected departure therefrom, a deficiency in the radio installation is discovered which makes it necessary to secure authority to use and operate modified or replacement radio transmitting apparatus in order to place the station on board in good working condition before departure.

(v) The periods of time referred to in subdivisions (i) through (iv) of this subparagraph are as listed below. Saturdays, Sundays, and United States legal holidays are not to be included in calculating the period of time involved:

	Calendar days
Atlantic or Gulf coast	10
Pacific coast, Puerto Rico, Virgin Islands	15
Hawaii or Alaska	20
Territories or possessions in Pacific area west of Hawaii	30

[2] See § 8.23.

(2) Each application made in an emergency in accordance with this subparagraph shall, prior to action thereon by the Commission, provide, as a minimum requirement, the following information:

(i) Name and address of applicant;

(ii) Name and address of applicant's agent, if application is made by an agent;

(iii) Official call letters, if any, already assigned a station on board the vessel involved.

(iv) Name and, if available, official registry number of ship;

(v) Factual statements to the extent necessary for the Commission to determine whether or not the granting of the desired authorization will be in accordance with the satisfied eligibility requirements of section 310 of the Communications Act.[3]

(vi) Relation of applicant to owner of vessel;

(vii) Statement of facts considered to constitute an emergency necessitating action under this sub-section.

(viii) Purpose and nature of proposed operation;

(ix) The date(s) and time(s) of the proposed operation;

(x) Frequency or frequencies, maximum plate input power, and class or classes of emission to be employed, and station(s) with which communication is intended;

(3) In supplying the information designated in subdivisions (vii) or (x), of this subparagraph, reference need be made only to the applicable example in paragraph (1) of this section, or to the applicable rule(s) or regulations(s) of the Commission in lieu of detailed information when this alternative is appropriate for meeting this requirement.

§ 8.43 *Application precedent to hearing.* Whenever the Commission regards an application for renewal of license as essential to the proper conduct of a hearing or investigation and specifically directs that the licensee file such application by a certain date, the application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 8.44 *Failure to prosecute applications.* An applicant not desiring to prosecute his application may request that it be dismissed without prejudice. Where an applicant fails to respond within a reasonable time to official correspondence or request for additional material, the application will be dismissed without prejudice.

§ 8.45 *Inconsistent or conflicting applications.* When an applicant has an application pending or undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf of or for the benefit of said applicant, will be considered by the Commission.

NOTE: The following sections of this subpart relate only to ship radio installations required by law for safety purposes.

§ 8.46 *Application for inspection.* Pursuant to subsection 360 (b) of the Communications Act, a ship of the United States which, by reason of the provisions of Part II of Title III of the Communications Act or the radio provisions of the Safety Convention, is required to be fitted with a radio installation for safety purposes, shall, at least once in each 12-month period, be made available by the owner or operating agency of the ship for a detailed inspection of the ship's radio installation. A formal application, FCC Form 801, "Application for Ship Radio Inspection", for such inspection shall be filed with the Commission's Engineer in Charge at the radio district office nearest the desired port of inspection at least 3 days prior to the date on which such inspection is desired. A service representative (who holds the proper class of radio operator license) of the ship station licensee and (unless otherwise notified by the Commission's representative) sufficient personnel to lower and raise the antenna(s) and to launch any required radio-equipped lifeboat(s), shall be available at the ship at the time inspection is to be conducted. The application for such inspection shall be filed by the shipowner, the ship operating agency, the ship station licensee, or the shipmaster; preferably at a time to provide for such inspection coincident with the annual inspection of the vessel by the United States Coast Guard.

§ 8.47 *Application for certificate of compliance with Safety Convention.* Whenever a Safety Certificate or a Safety Radiotelegraphy Certificate or a modification or renewal thereof, is required by reason of the applicability to a ship of the radio provisions of the Safety Convention, an application, FCC Form 801, "Application for Ship Radio Inspection", for a required inspection of the radio installation on board and certification of the result of such inspection to the United States Coast Guard for the issuance of a Convention Certificate, shall be filed with the Commission's Engineer in Charge at the radio district office nearest the desired port of inspection at least 3 days prior to the date on which such inspection is desired. A service representative (who holds the proper class of radio operator license) of the ship station licensee and (unless otherwise notified by the Commission's representative) sufficient personnel to lower and raise the antenna(s) and to launch any required radio-equipped lifeboat(s), shall be available at the ship at the time inspection is to be conducted. Such application shall be filed by the shipowner, the ship operating agency, the ship station licensee, or the shipmaster; and when appropriate may be combined with the application for annual inspection prescribed by § 8.46.

§ 8.48 *Extra compensation for overtime services by inspectors.* Pursuant to section 4 (f) (2) of the Communications Act, inspectors in charge and radio inspectors of the Feld Service of the Engineering Department of the Commission, who may be required to remain on duty to perform services in connection with the inspection of ship radio equipment and apparatus for the purposes of Title III of Part II of the Act at night or on Sundays and holidays, shall receive extra compensation, to be paid by the master, owner, or agent of the vessel, under the following regulations:

(a) The rates of extra compensation are payable in cases where the services of such inspectors have been duly requested and they have reported for duty, even though no actual service may be performed.

(b) The extra compensation for overtime services is in addition to the regular compensation paid by the Government in the case of inspectors whose compensation is fixed on the ordinary per diem basis and those receiving compensation per month or per annum.

(c) Extra compensation for "waiting time" will not be allowed unless and until the inspector, actually reports for duty.

(d) For the purpose of computing extra compensation, the word "night" shall mean the time between the established closing hour of one day at the office involved and the established opening hour of the following business day at such office, but shall not include any such time within the 24 hours of a Sunday or holiday. Each Sunday and each holiday shall comprise the 24 hours between midnight and midnight. For the purposes of this section the time between the established closing hour of an office and midnight of the day immediately preceding a Sunday or holiday and the time from midnight until the established opening hour of the day immediately following the said Sunday or holiday will be considered as a single night. The term "holiday" shall include only national holidays, viz. January 1, February 22, May 30, July 4, the first Monday in September, November 11, Thanksgiving Day (when designated by the President), December 25, and such other days as may be designated national holidays by the President or by Congress.

(e) For authorized service in excess of 8 hours on any day excluding Sunday and holidays, extra compensation equivalent to one-half days' pay is payable for each 2 hours or fraction thereof of at least 1 hour that the overtime extends beyond the said 8 hours: *Provided*, That the overtime is not less than 1 hour. The maximum amount which may be paid for such authorized overtime services on any one day other than on a Sunday or holiday shall not exceed 2½ days' pay.

(f) In computing the amount earned for overtime at the rate of "one-half day's pay for each 2 hours or fraction thereof of at least 1 hour that the overtime extends beyond 5 p. m.", one-half day's pay shall be one-half of the gross daily rate of pay; each 2 hours is the time period for the purpose of computation; at least 1 hour means the minimum service in any such 2 hour overtime period for which extra pay may be granted, and each additional period in the amount of 2 hours or fraction thereof of at least 1 hour will entitle the Inspector to an additional one-half day's pay. Payment of extra compensation for services consisting of at least 1 hour is authorized from 5 p. m., even though such services may not actually begin until later: *Provided*, That the Inspector rendering the service remained on duty from 5 p. m., in which case the time between 5 p. m. and the time of beginning the actual service shall be computed as waiting time. Where the performance of actual services is preceded by such a waiting time there should be an affirmative statement that the Inspector was required to remain on duty between 5 p. m. and the time of beginning the actual services.

(g) In computing extra compensation where the services rendered are in broken periods, the time served should be combined with the waiting time and computed as continuous service.

(h) The same considerations shall apply when charging for waiting time as govern the charge for services actually rendered. No charge should be made unless after having reported for duty the waiting time amounts to at least 1 hour.

(i) For any authorized services performed on Sundays and holidays, totaling not more than 8 hours, extra compensation is payable equivalent to two days' pay in addition to any regular compensation for such days. For any authorized service in excess of 8 hours (starting either before or after 5 p. m. local time) extra compensation at the rate of one-half day's pay, based on the normal daily rate of pay, for each two hours of service or fraction thereof of not less than 1 hour, is payable in addition to the extra compensation payable for service up to and including 8 hours of service. The maximum extra compensation payable for work on Sundays and holidays is 4½ days' pay.

(j) When inspectors are in travel status overtime shall apply the same as at official station. However, compensation for such overtime shall not include travel time.

(k) Assessments and collection of fees against steamship companies for overtime services shall be made even though the payment to employees for such services may not be made until funds are appropriated for that purpose.

(l) An application on a form prescribed by the Commission shall be filed with the office being requested to furnish overtime services before such assignment can be made.

(m) Overtime services shall be billed to the steamship companies as soon as possible after the services have been performed and on collection voucher provided for that purpose. Remittance shall be by postal money order or certified check payable to the "Collector of Customs, Treasury Department" and forwarded that officer at the port indicated on the voucher, who shall in turn deposit such remittance on a properly designated receipt account.

(n) Protests against the exaction of extra compensation shall be forwarded to the Commission at Washington, D. C., and a copy thereof sent to the office which furnished the overtime services.

§ 8.49 *Application for exemption.* (a) Application for exemption from the radio equipment and operator requirements of Part II of Title III of the Communications Act and/or the Safety Convention, or application for modification or renewal of exemption previously granted, may be made by submitting FCC Form 820, "Application for Exemption", to the Commission at Washington, D. C. In cases of emergency found by the Commission, the Commission may, at its discretion, consider an informal application which should include the full information normally furnished on FCC Form 820.

(b) Whenever exemption from the radio equipment and operator requirements of the Safety Convention is granted in behalf of a ship, the Commission certifies the necessary particulars to the United States Coast Guard in order that an Exemption Certificate in behalf of that ship may be duly issued.

SUBPART C—STATION AUTHORIZATIONS

§ 8.61 *Authority for distress communication.* No provision of the International Radio Regulations shall prevent a mobile station in distress from using any means available to it for drawing attention, signalling its position, and obtaining help.

§ 8.62 *Changes in equipment of licensed station.* A licensed transmitter on board ship may be modified without making application to the Commission and without specific authorization from the Commission provided: (a) the change does not result in operation inconsistent with the rules of the Commission nor with the terms of the outstanding authorization for the station involved; (b) the change does not result in any impairment of the ability of the station licensee or the owner, operating agency, or ship master, to comply with any duty or obligation imposed by statute or international treaty or agreement for purposes of safety; and (c) a description of the change is incorporated in the next application for renewal or modification of license.

§ 8.63 *Normal license period.* (a) The period of time during which a license is valid for a station on board ship in the maritime mobile or maritime radiolocation service (other than licenses for developmental stations) normally shall begin at 3:00 a. m., e. s. t., and normally shall be:

(1) For an initial license, from one to five years from the date on which it becomes effective, the term varying as may be necessary to permit the orderly scheduling of renewal applications;

(2) For a renewal license, four years from the date on which the renewed license becomes effective.

§ 8.64 *License period for developmental station.* A license for a developmental station on board ship shall be issued specifically upon a temporary basis for a specified period of time not to exceed one year from the date on which the license becomes effective.

§ 8.65 *Issuance of modified and renewed license simultaneously.* When an application is granted by the Commission which necessitates the issuance of a modified station license to become effective less than 60 days prior to the expiration date of the license sought to be modified, and when an application for

renewal of said license is granted subsequent or prior thereto, but within 30 days of the date of expiration of the outstanding license, the modified license as well as the renewed license shall be issued as one document in accordance with the combined action of the Commission.

§ 8.66 *One license for plurality of stations.* (a) Unless otherwise determined by the Commission in exceptional circumstances, one station license may be granted to authorize the use and operation of a designated maximum number of stations in the maritime mobile service—normally in multiples of ten stations—cn board two or more ships of the United States whenever telephony is the sole type of transmission authorized and the following license elements are the same for each station and the requirements specified in paragraph (b) of this section are fulfilled:

(1) The station licensee;

(2) The conditions which establish and maintain control of the station by the station licensee;

(3) The class of station and nature of service;

(4) The type(s) of transmitting equipment to be authorized;

(5) The authorized transmitter power of identical types of transmitting equipment to be authorized;

(6) The frequency assignment and the authorized transmitter power, and class or classes of emission authorized on each radio-channel.

(b) The issuance of one station license as provided in paragraph (a) of this section shall be contingent upon compliance by the applicant and station licensee with the following requirements:

(1) The licensee shall, at the time the application(s) for license is (are) filed and during the entire period in which the station license is valid, keep the Commission at Washington, D. C., and the Commission's Engineer in Charge of each radio district in which the stations are operated, currently informed in writing of the names, registration numbers, and respective classes of ships which are provided with stations authorized in accordance with the terms of the station license;

(2) The transmitting equipment is not installed on board ship for the purpose of complying with the provisions of any statute or international agreement requiring the installation or use of such equipment for safety purposes;

(3) The transmitting equipment shall not be authorized in any other instrument of authorization issued by the Commission;

(4) No ship carrying a ship station licensed pursuant to this section shall, except in an emergency, proceed to any harbor or port of a foreign country.

§ 8.67 *Transfer or assignment of station authorization (see also § 8.37).* Section 310 (b) of the Communications Act expressly provides that a station license granted by the Commission, the frequencies authorized to be used by the licensee, and the rights therein granted shall not be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of any corporation holding such license, to any person, unless the Commission shall, after securing full information, decide that said transfer is in the public interest, and shall give its consent in writing.

§ 8.68 *Authority for lifeboat radio station.* Whenever, in an application for ship station license, additional radio transmitting equipment described therein is designated as intended for use solely in a lifeboat or other survival craft associated with the principal vessel to which the application applies, operation of such lifeboat radio equipment, for maintenance tests and safety communication only, will be specifically authorized by the ship station license issued in response to that application.

§ 8.69 *Authority for transmission from cable buoy.* Provided the transmitting equipment to be used on a cable marker buoy is adequately described and the necessary technical data is supplied in an application for station license for a ship station on board a cable-repair ship with which the buoy is associated, the use of such transmitting equipment for radiolocation in accordance with § 8.407 will be specifically authorized by the related ship station license.

§ 8.70 *Authority to communicate with amateur stations.* (a) A ship station shall not communicate with or transmit to any amateur station unless it is specifically authorized by the Commission to do so. When authorized to communicate with duly licensed amateur stations, a ship station shall conduct all operation for this purpose in conformity with the relevant terms of its station license, and, except as otherwise permitted by the station license, shall, for this purpose,

(1) Transmit by means of A–1 or A–2 emission only on a frequency between 2,000 kc and 25,000 kc authorized for such emission;

(2) Not cause harmful interference to stations in the maritime mobile service nor to stations in the radiolocation service;

(3) Not engage in any communications relating directly or indirectly to a commercial transaction.

(b) Communication with amateur stations of foreign countries shall be limited to communications with such amateur stations as are authorized to communicate with the ship station concerned; in addition, the nature of the communications exchanged with foreign amateur stations shall, in addition to the requirements of paragraph (a) of this section, be in accordance with the International Radio Regulations and in conformity with the regulations of the foreign administration(s) having jurisdiction over the amateur station(s) involved.

§ 8.71 *Limitations concerning stations of portable nature other than marine utility stations.* Advance notice in writing or by telegram shall be given to the Commission and to the Engineer in Charge of the radio district where the operation is to take place by the licensee of a station of a portable nature (other than a marine-utility station) authorized for use on board ship prior to any operation contemplated on board a particular ship. Such notice shall state the call sign of such station, name of licensee, approximate date(s) of intended operation on board the designated ship, and the geographic area in which the ship is to be navigated. A station of a portable nature (other than a marine-utility station) authorized to be operated on board a ship or ships, shall not be retained on board any one ship during any continuous period exceeding three months without giving further notice to the Commission and to the Engineer in Charge of the radio district where the operation is to take place; *Provided*, That the foregoing requirements shall not apply to operation of a station of a portable nature on board small boats (tenders, dories, lifeboats, etc.), which are regularly associated with a parent ship, when such station is specifically identified in the license of such parent ship.

§ 8.72 *Authority for ship radar station.* Any license issued for a ship radar station shall be subject to the condition that the station licensee, in relation to the proper operation of the station in accordance with the radio law and rules and regulations of the Commission, will be represented on board the radar equipped vessel by the person who at any given time occupies the position of master.

§ 8.73 *Discontinuance of station operation.* In case of permanent discontinuance of operation by the particular licensee of a station on board ship licensed under this part, the licensee shall forward the station license to the Washington, D. C., office of the Commission with a request for its cancellation. A copy of the request for cancellation of the license shall be forwarded to the Commission's Engineer in Charge of the district in which the station is located.

§ 8.74 *Assignment of call signs.* (a) Ship stations in the maritime mobile service other than those designated in paragraphs (b), (c), (d) and (e) of this section shall be assigned call signs consisting of four-letter combinations commencing with the letter "K" or the letter "W".

EXAMPLES: KBCD or WBDC.

(b) Ship stations authorized to use telephony (except those specified in paragraph (c) of this section), but not authorized to use telegraphy except secondarily for purposes incidental to the use of telephony, located on board ships whose survival craft being carried, if any, are not authorized to operate radio transmitting equipment, shall be assigned call signs consisting of two-letter, four-digit combinations (the digits 0 and 1 may not immediately follow a letter) beginning with WA2000 and progressing numerically through WA9999 and beginning again with WB2000 and progressing thus through the "W" series of prefixes. In cases of vessels having or eligible for signal letters assignable by the United States Treasury Department, the Commission may, if it deems such action necessary or desirable, make exceptions to the foregoing provisions and assign call signs of such character as is legally permissible and as it may deem appropriate in each particular case.

(c) Normally, an individual call sign shall be assigned to each ship (other than survival craft attached to a parent ship) carrying a station licensed in the maritime mobile service: *Provided*, That a single call sign shall be assigned to a plurality of stations authorized by one station license in accordance with § 8.66 whenever such stations are easily identified by means other than call signs and their signal of identification or characteristics of emission are published, when required by international agreement, in appropriate international documents.

(d) Stations of lifeboats, lifecrafts, and other survival craft carried aboard ships shall be assigned call signs consisting of the call sign that has been assigned, or that would be assigned, to the ship station located on board that particular parent ship, followed by two digits (the digits 0 and 1 may not immediately follow a letter).

EXAMPLE: If the call sign that has been assigned, or would be assigned, to a ship station on board a parent ship is KBCD, the survival craft station shall be KBCD followed by two digits, such as KBCD45.

(e) Ship radar stations shall be assigned call signs for administrative purposes only. Such stations located on board ships having a ship station licensed in the maritime mobile service shall be assigned the same call sign as that ship station. If in a particular case the ship has no ship station licensed in the maritime mobile service, the ship radar station shall be assigned a call sign consisting of a two-letter, four-digit combination (the digits 0 and 1 may not immediately follow a letter) beginning with the letter "W".

EXAMPLES: If a ship station licensed in the maritime mobile service with call sign WA2000, or KBCD, or WBCD, the ship radar station call sign shall be respectively, WA2000, or KBCD, or WBCD. If the ship has no station licensed in the maritime mobile service, the ship radar station call sign shall be of the type WA2000). In case of a ship having, or eligible for, signal letters assignable by the United States Treasury Department, the Commission may, if it deems such action necessary or desirable, make exceptions to the foregoing provisions and assign a call sign of such character as is legally permissible and as it may deem appropriate in each particular case.

§ 8.75 *Operation during emergency.* (a) The licensee of any ship station or developmental station in the maritime mobile service on board ship, may, during a period of emergency in which the normal communication facilities are disrupted as a result of hurricane, flood, earthquake, or similar disaster, utilize such station for emergency communication service in communicating in a manner other than that specified in the instrument of authorization or in the rules and regulations governing the maritime mobile service: *Provided* (1) That as soon as possible after the beginning of such emergency use, notice shall be sent to the Commission at Washington 25, D. C., and to the Commission's Engineer in Charge of the district in which the station is located, stating the nature of the emergency and the emergency use being made of the station; (2) that such emergency use of the station shall be discontinued as soon as substantially normal communication facilities are again available; and (3) the Commission and the Engineer in Charge be notified immediately when such special use of the station is terminated: *And provided further*, That in no event shall any ship station or developmental station on board ship engage in emergency transmission on frequencies other than, or with power in excess of, that specified in the instrument of authorization or as otherwise expressly provided for by the Commission, or by law: *And provided further*, That the Commission may, at any time, order the discontinuance of any such emergency communication undertaken under this section.

(b) The Commission may authorize the licensee of any radio station governed by this part during a period of national emergency to operate its facilities upon such frequencies, with such power and points of communication, and in such a manner beyond that specified in the station license as may be requested by the Army, Navy, or Air Force.

SUBPART D—GENERAL STATION REQUIREMENTS

§ 8.101 *Inspection of station.* (a) Pursuant to section 303 (n) of the Communications Act, the radio installation on board any ship of United States registry shall be available for inspection by duly authorized representatives of the Commission at any reasonable time and at such frequent intervals as within the discretion of the Commission will insure compliance with applicable regulations, laws, and treaties.

(b) The governments or appropriate administrations of countries, where a ship equipped with a radio station calls, may require the production of the station license for examination. The operator of the station, or the person responsible for the station, must facilitate this examination. The station license must be available so that it can be produced without delay. When the license cannot be produced or when manifest irregularities are observed, governments or administrations may inspect the radio installation in order to satisfy themselves that the installation conforms to the conditions imposed by the International Radio Regulations.

§ 8.102 *Posting of station license.* (a) Except for certain stations to which paragraph (b) of this section is applicable and except for stations authorized in accordance with § 8.66, the original license for each station on board ship subject to this part shall be posted in a conspicuous place at the principal location on board at which the station is operated; *Provided*, That the ship radar station license shall be posted in a conspicuous place at the principal radar operating position.

(b) With respect to stations not authorized in accordance with § 8.66, which are operated on board small boats where posting of the station license is impracticable, the requirement of paragraph (a) of this section shall not apply: *Provided*, That in lieu thereof the original station license or a photocopy thereof is retained on board such boat (other than survival craft carried on board a parent ship) during the entire time the station is located thereon.

(c) With respect to a plurality of stations authorized by one station license in accordance with the provisions of § 8.66, the station license shall be retained by the licensee at any location where it is accessible to governmental inspection. In lieu of posting the license on board ship, a Transmitter Identification Card (FCC Form No. 452–c Revised) properly executed shall be affixed to the authorized transmitting equipment on board each ship: *Provided*, That where the transmitting equipment is not visible from the operating position on the ship or is not readily accessible for governmental inspection, the Transmitter Identification Card shall be affixed to the control apparatus at the principal station operating position on board. The following information shall be entered on the Transmitter Identification Card by the station licensee:

(1) Name of station licensee;

(2) Station call sign assigned by the Commission;

(3) Exact location or locations of the actual station license and any station records required by the Commission;

(4) The assigned frequency or frequencies on which the transmitting equipment is authorized to be operated; and

(5) Signature of the licensee, or his duly authorized agent.

§ 8.103 *Location of station.* All components of a station on board ship subject to this part, including the antenna(s), antenna supporting structures, and source(s) of power used to energize the station equipment, shall be located on board the vessel identified in the station license, even though the vessel be temporarily moored. For purposes of communication, no component of a ship station shall be connected by wire line directly or indirectly to any equipment, apparatus, or facilities which are not located entirely on board the vessel identified in the station license: *Provided*, That the limitations of this section shall not apply when the station is being operated in an emergency under the provisions of § 8.75.

§ 8.104 *Operating controls.* (a) Effective on and after January 1, 1953, such operating controls as necessarily are used for commencing and discontinuing normal operation of each ship station, such operating controls as necessarily are used for normally changing from each operating radio-channel to any other associated operating radio-channel in the same characteristic portion of the spectrum, and such operating controls as necessarily are used for normally changing from transmission to reception and vice-versa, shall be available at the principal operating location of the station and shall be readily accessible to the authorized operator. This requirement, however, need not be met by equipment intended for use only in emergencies and not used for normal communications.

(b) Effective on and after January 1, 1952, every ship station using telegraphy

shall, when an authorized operator is present at the principal operating location, be capable of change-over from telegraph transmission to telegraph reception and vice-versa within a total period of two seconds under circumstances which do not require a change in operating radio-channel at the same time

(c) Effective on and after January 1, 1956, every ship station using telephony shall, when an authorized operator is present at the principal operating location, be capable of change-over from telephone transmission to telephone reception and vice-versa within a total period of two seconds under circumstances which do not require a change in operating radio-channel at the same time: *Provided*, That ship stations and marine-utility stations using telephony on any frequency assignment above 30 Mc shall, with respect to operation on such frequencies, comply with this requirement, effective on and after January 1, 1952.

(d) Effective on and after January 1, 1952, every ship station shall, during its hours of service and when the authorized operator is present at the principal operating location, be capable of—

(1) commencing operation within one minute after the need to do so occurs;

(2) discontinuing all emission within five seconds after emission is no longer required or after the necessity arises for emission to cease.

(e) Effective on and after January 1, 1956, every ship station using a multi-channel installation for telegraphy shall, when the authorized operator is present at the principal operating location, be capable of changing, after the need to do so occurs, from each operating radio-channel for telegraphy to any other operating radio-channel for telegraphy within:

(1) A period of five seconds if the particular radio-channels are within the same characteristic portion of the spectrum; or

(2) A period of fifteen seconds if the particular radio-channels are not within the same characteristic portion of the spectrum:

(3) *Provided, however*, That this requirement need not be met by equipment intended for use only in emergencies and not used for normal communication.

(f) Effective on and after the dates hereinafter designated in this subsection, every ship station and marine-utility station using a multi-channel installation for telephony shall, when the authorized operator is present at the principal operating location, be capable of changing, after the need to do so occurs, from one operating radio-channel for telephony to another operating radio-channel for telephony within:

(1) A period of five seconds, when changing from the calling channel to a working channel and vice-versa within the frequency band 1600 kc to 4000 kc; effective on and after January 1, 1958; or

(2) A period of three seconds, when changing from the calling channel to a working channel and vice-versa within the frequency band 156 Mc to 162 Mc; effective on and after January 1, 1952.

(g) Whenever the same radio-channel is used for radiotelephone transmission and reception, means shall be provided so that transmission of the carrier wave may be either automatically "voice-controlled" or controlled manually by the person whose speech is being transmitted.

(h) Effective on and after January 1, 1952, each ship station using telegraphy on frequencies within the band 365 kc to 515 kc (except stations which are not capable of providing a plate input power in excess of 150 watts) must be provided with a device or arrangement readily permitting the use of a plate input power for telegraphy which is not in excess of 100 watts.

§ 8.105 *Required radio-channels for telegraphy.* (a) Each ship station using telegraphy on frequencies within the band 365 kc to 515 kc (except stations on lifeboats or survival craft) shall be capable of transmitting and receiving classes A1 and A2 emission on the radio-channel of which 500 kc is the assigned frequency, and on at least one additional radio-channel within this band which is authorized for working. When a radiotelegraph installation is compulsorily fitted for safety purposes, a third radio-channel which is authorized for direction-finding within this band must be provided also.

(b) Each ship station using telegraphy on frequencies within the band 100 kc to 160 kc shall be capable of transmitting and receiving class A1 emission on the radio-channel of which 143 kc is the assigned frequency, and on at least two additional radio-channels within this band which are authorized for working.

§ 8.106 *Required radio-channels for telephony.* (a) Each ship station using telephony on frequencies within the band 1600 kc to 4000 kc shall be capable of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) on the radio-channel of which 2182 kc is the authorized carrier frequency; provided that with respect to such operation outside the Great Lakes area, this requirement shall be effective on and after January 1, 1954; further provided, that with respect to ship stations on board vessels navigated solely within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 600 nautical miles of Vancouver, British Columbia, this requirement shall become effective only when specifically ordered by the Commission.

(b) Each ship station using telephony on frequencies within the band 1600 kc to 4000 kc which is licensed to transmit on the radio-channel of which 2182 kc is the authorized carrier frequency, shall be capable also of receiving telephony on this channel, and shall be capable also of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) on at least one other radio-channel authorized for working in this band.

(c) Effective on and after January 1, 1952, each ship station, and each marine-utility station used on board ship, which is licensed to transmit by telephony on any radio-channel within the frequency band 156.25 Mc to 157.45 Mc, shall be capable of transmitting and receiving (and shall be licensed to transmit) class F3 emission on the radio-channels of which the authorized carrier frequencies are 156.3 Mc and 156.8 Mc and additionally on at least one radio-channel in this frequency band which is authorized for communication with a coast station or stations; provided, that ship stations licensed prior to January 1, 1951, to use single-channel equipment on frequencies within this band on an experimental or developmental basis, need not comply with this requirement under normal class of ship station license until on and after January 1, 1953. The requirements of this paragraph, however, shall not apply to marine-utility stations or stations of a portable nature which are not capable of a plate input power in excess of three watts and are not capable of being readily adjusted for operation on more than one radio-channel.

§ 8.107 *Antenna requirements.* (a) The antenna(s) of each public ship station and of each ship station compulsorily provided on board a vessel for safety purposes pursuant to statute or international agreement shall, in so far as is practicable in each case, have electrical characteristics that will, in conjunction with the particular transmitting apparatus employed, assure maximum attainable efficiency in the conversion of antenna power to radiated power.

(b) All emission of a ship station, or a marine-utility station on board ship, using telephony on any frequency assignment within the frequency band 30 Mc to 200 Mc normally shall be polarized vertically at the source when the vessel carrying the station is in a normal vertical plane: *Provided*, The Commission may authorize the use of any other form of polarization in addition to or in lieu of vertical polarization if the applicant or station licensee makes a satisfactory showing that such authorization is necessary for effective communication or reduction of interference and would be beneficial to reception of the emission by other stations in the maritime mobile service.

§ 8.108 *Adjustment of equipment.* The transmitting equipment of each station on board ship subject to this part shall be operated, tuned, and adjusted so that there will be no radiation of emissions outside the authorized frequency band that interferes with the service of any other station. Any spurious emissions, including radio frequency harmonics and audio frequency harmonics, shall be maintained at the lowest practicable level.

§ 8.109 *Measurement of emission frequencies.* (a) The licensee of each station on board ship subject to this part shall be responsible[3] for measurement of each carrier frequency in use by the station as stipulated in the following subsections of this section: *Provided*, That when a carrier does not exist (except for ship radar stations)[4] measurement shall be made of the frequency coinciding with the center frequency of the emission bandwidth, in lieu of measurement of the carrier frequency.

(b) Measurement of the carrier frequency shall occur during normal operating conditions, including with and without the application of amplitude modulation if such modulation is employed. In the case of a station using frequency modulation, measurement of the carrier frequency shall be made while modulation is not applied.

(c) Measurement of the carrier frequency shall be made by means independent of the carrier frequency determining elements of the transmitting apparatus, and the measuring equipment, shall be capable of revealing deviation in cycles per second from the authorized carrier frequency or the assigned frequency of the station with an accuracy of one-half the frequency tolerance authorized by the Commission.

(d) Measurement of the carrier frequency shall, as a minimum requirement, be made at the following times:

(1) When the involved transmitting apparatus is placed in service both initially and on each occasion after it has been removed (other than marine-utility stations and stations of portable nature) physically and temporarily from its place of installation.

(2) As soon as is practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the frequency of the carrier (including marine-utility stations and stations of portable nature).

(3) As soon as is practicable after the licensee receives an official notice from the Commission that the carrier frequency or the frequency coinciding with the center of the emission band-width has been observed by the Commission to be beyond the frequency tolerance.

(e) Each frequency measurement performed in order to comply with the provisions of this section shall be recorded in the official records of the station. In each instance of measurement the record shall show the location of the transmitter, the location of the measuring equipment, the identity of the transmitter involved, the time and date of measurement, the indicated deviation in cycles per second above or below the authorized carrier frequency or (when a carrier does not exist) above or below the assigned frequency (or other appropriate data in respect to measurement of the frequencies of emission of a ship radar station) and the signature of the person(s) who made the measurement, together with the name of any measurement service with whom such person(s) may be associated for this purpose. Each original record of measurement shall, wherever practicable, be continuously retained at the particular station until after the date of expiration or cancellation of the current station license, and shall be made available to the Commission upon request or during inspection of the station by an official representative of the Commission. When such retention of these records at the station is deemed by the licensee to be impracticable (such as may be the situation in respect to marine-utility stations and stations of portable nature) the original records shall be retained under jurisdiction of the station licensee at any location in the United States where they can be made readily available for inspection upon request by the Commission or an official representative thereof.

(f) Measurement of frequency required by the provisions of this section may, at the option of the station licensee, be made by any qualified engineering measurement service: *Provided*, That nothing contained in this paragraph shall be construed to change or diminish in any respect the responsibility of the station licensee for proper functioning and operation of the station in accordance with law.

§ 8.110 *Measurement of transmitter power.* (a) The actual power of each radio transmitter of a ship station or a marine-utility station shall be maintained within the following tolerance of the specific power authorized for that transmitter by the Commission;

(1) When the maximum operating power only is indicated, the actual power shall, in so far as is practicable, not be more than that necessary to carry on the service for which the station is licensed and in no event more than 5 percent above the maximum power authorized;

(2) When the exact authorized power is indicated, the actual power shall, at all times, be within the limits of 105 percent and 90 percent of the authorized power.

(b) For the purpose of assuring adherence to the requirement of paragraph (a) of this section, each radio transmitter rated by the manufacturer as being capable of a plate input power in excess of 200 watts or an antenna power in excess of 100 watts and initially placed in service after July 1, 1951, in a ship station, shall be fitted with the instrument(s) necessary to indicate the actual plate input power to the transmitter whenever the latter is in use: *Provided*, That on and after January 1, 1956, this requirement shall apply to all transmitters of ship stations (including stations of portable nature) rated by the manufacturer with respect to power as set forth in this subsection.

(c) When the power of a transmitter in a ship station, as rated by the manufacturer, is capable of being more than 105 percent of the authorized power, the station licensee, effective on and after July 1, 1951, shall employ an approved procedure to determine that the actual power does not exceed the authorized power. This determination shall be made and the result thereof entered in the licensee's records (which shall be made available to the Commission or an official representative thereof, upon request) as follows:

(1) When the involved transmitting apparatus is placed in service, both initially and on each occasion after it has been removed (other than marine-utility stations and other stations of portable nature) physically and temporarily from its place of installation;

(2) As soon as practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the actual power (including marine-utility stations and stations of portable nature);

(3) When required by an official representative of the Commission on the basis that the actual power appears, from an official inspection of the station, to exceed the authorized power.

§ 8.111 *Modulation adjustments for telephony.* (a) Ship stations and marine-utility stations using class A3 emission for telephony shall be capable of proper technical operation with peak modulation percentage between 75 and 100 percent. In so far as is practicable, the AM transmitting equipment of such stations shall be adjusted so that the transmission of speech normally produces peak modulation percentages within these limits.

(b) Ship stations and marine-utility stations using class F3 emission for telephony shall be capable of proper technical operation with peak modulation percentage as high as is practicable in reference to the frequency swing normally regarded as 100 per modulation. In general, the FM transmitting equipment of such stations shall be adjusted so that the transmission of speech normally produces, on this basis, peak modulation percentages between 75 and 100 percent.

(c) The adjustments required by paragraph (a) and (b) of this section shall be made and recorded in the licensee's records as follows:

(1) When the involved transmitting apparatus is placed in service, both initially and on each occasion after it has been removed (except for marine-utility stations and other stations of portable nature) physically and temporarily from its place of installation.

(2) As soon as is practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the percentage modulation (including marine-utility stations and other stations of portable nature),

[3] Par. 6 (3), Art. 9, of the General Radio Regulations (Revision of Cairo, 1938) provides that all ship stations transmitting on frequencies in the band 100 to 160 kilocycles and on frequencies above 4,000 kilocycles (construed to mean frequencies within the band 4,000 to 25,000 kilocycles) must be equipped with a wavemeter (frequency meter) having a precision at least equal to 0.005 (0.5 percent) when the transmitter itself is capable of being adjusted with this precision or better. For this purpose, the Commission will accept a master-oscillator of a ship station electron tube transmitter in lieu of the frequency meter prescribed by this international regulation, provided the calibration of the said transmitter and of the circuit as a whole is such as to permit the convenient adjustment of the transmitter to its licensed frequencies within the tolerance for ship stations prescribed by § 8.131.

[4] The license of a ship radar station shall take the necessary measures to insure that the transmitter operates within the emission limits specified in § 8.133.

(3) When required by the Commission on the basis that the percentage modulation observed during an official inspection of the station by an official representative of the Commission appears to not comply with the requirement of paragraphs (a) or (b) of this section.

§ 8.112 *General requirements for receiving apparatus.* (a) The radio equipment of each ship station, or marine-utility station, using telegraphy or telephony, must be capable of permitting the reception of the class or classes of emission on the frequency or frequencies, normally received for the service carried on. The technical arrangement of the station apparatus shall be such that the necessary reception of emissions, including in particular that necessary for compliance with the provisions of §§ 8.181 and 8.240, can be readily effected prior to the transmission of any signals or communications by the ship station on the associated transmitting frequency.

§ 8.113 *Installation of power source.* The exact location and physical arrangement on board a vessel of any storage battery, or engine-driven generator and fuel tank, used as a source of power for any component of a licensed radio station subject to this part and located on board such vessel, and the method of ventilating the battery or engine compartment, shall be in accordance with applicable rules or regulations promulgated by the United States Coast Guard. If the Commission finds that such rules or regulations are not complied with by a particular station of this category, an application for license or modification or renewal of license thereafter filed in behalf of that station may be designated by the Commission for hearing to determine whether or not the granting of such application would meet the public interest, convenience or necessity.

§ 8.114 *Clock required.* (a) Each ship station licensed to operate on frequencies below 515 kilocycles shall be provided with a reliable clock with a second hand, preferably a sweep second hand. This clock shall be securely mounted in such a position that the second dial can be easily and accurately read by the operator from his normal operating position, from the operating position at which he would ordinarily transmit the international auto-alarm signal by hand, and from the operating position in the radio room used in testing the auto-alarm (if installed) for response to signals from the testing device. Stations which are compulsorily installed on board ship for safety purposes shall, in addition, meet such supplementary requirements for clocks as are prescribed in Subpart R of this part.

(b) Each ship station licensed for operation on frequencies above 1500 kilocycles only, shall, as may be necessary during operation, have available to the operator a suitable timepiece (preferably equipped with a second hand) of sufficient accuracy and reliability to allow for operation of the station in conformity with the terms of its license, regulations of the Commission, and the International Radio Regulations.

§ 8.115 *Retention of radio station logs.* (a) All station logs which are required under those provisions of this part pertaining to the particular classes of stations subject to this part shall be retained by the licensee for a period of one year from date of entry and for such additional periods as required by the following subparagraphs:

(1) Station logs involving communications incident to a distress or disaster shall be retained by the station licensee for a period of 3 years from date of entry;

(2) Station logs which include entries of communications incident to or involved in an investigation by the Commission and concerning which the station licensee has been notified shall be retained by the station licensee until such licensee is specifically authorized in writing by the Commission to destroy them.

(3) Station logs incident to or involved in any claim or complaint of which the station licensee has notice shall be retained by such licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

(b) Station logs shall be made available to an authorized representative of the Commission (including any engineers of the Commission's Field Engineering and Monitoring Division) upon request.

(c) Ship station logs shall be fully completed at the end of each voyage and before the operator(s) (or other person(s) responsible under the applicable provisions of this part) leave the ship. The radio log currently in use shall be kept by the licensed operator(s) of the station or as otherwise authorized by the applicable provisions of this part, and during use shall be located in the principal radio operating room of the vessel. At the conclusion of each ocean voyage terminating at a port of the United States (includes Hawaii, Alaska, Puerto Rico, and Virgin Islands), the original radio log (or a duplicate thereof) [4] dating from the last departure of the vessel from a United States port shall be retained under proper custody on board the vessel for a sufficient period of time (not more than 24 hours) to be available for inspection by duly authorized representatives of the Commission. In the case of vessels which, during any period of thirty consecutive days or more, are not navigated on an ocean voyage, the original radio log (or a duplicate thereof) [4] dating from the beginning of such thirty day period shall be retained under proper custody on board the vessel until the end of that period and, at any reasonable time therein, shall be available for inspection by duly authorized representatives of the Commission. After retention on board the vessel as herein stipulated, the original log (and the duplicate log if provided) [4] may be filed at an established shore office of the station licensee, and shall be retained as stipulated by paragraph (a) of this section.

SUBPART E—STANDARD TECHNICAL REQUIREMENTS

§ 8.131 *Authorized frequency tolerance.* (a) Unless the particular instrument of authorization specifically provides otherwise, the frequency tolerances [1] authorized for stations on board ships subject to this part shall be as prescribed in the following paragraphs.

(b) Authorized frequency tolerances for ship stations operating on frequencies below 515 kc or within the frequency-band 4,000 kc to 25,000 kc:

Frequency ranges	Applicable until Jan. 1, 1953, to transmitters installed before Jan. 1, 1950	Applicable to transmitters installed after Jan. 1, 1950, and to all transmitters after Jan. 1, 1953
	Percent	*Percent*
(1) From 100 to 515 kc (except for 500 kc transmitters intended for use solely lifeboats or other survival craft)	0.3	0.1
(2) 500 kc transmitters intended for use solely in lifeboats or other survival craft	.5	.5
(3) Stations when using frequencies within the band 4000 kc to 30 Mc other than those specified in (4) below	.02	.01
(4) Stations (including lifeboat transmitters) when using frequencies within the following bands:		
From 4115 to 4165 kc inclusive	.05	.02
From 5500 to 5550 kc inclusive	.05	.02
From 6200 to 6250 kc inslusive	.05	.02
From 8230 to 8330 kc inclusive	.05	.02
From 11,000 to 11,100 kc inclusive	.05	.02
From 12,330 to 12,500 kc inclusive (except 12,440 and 12,460 kc)	.05	.02
12,440 and 12,460 kc	.02	.01
From 16,400 to 16,700 kc inclusive (except 16,530, 16,575, and 16,590 kc)	.05	.02
16,530 and 16,590 kc	.025	.02
16,575 kc	.02	.01
22,000 to 22,200 kc	.05	.02

(c) Authorized frequency tolerances for ship stations operating on frequencies within the band 1600 kc to 3500 kc:

	Applicable until Jan. 1, 1953, to transmitters installed before Jan. 1, 1950	Applicable after Jan. 1, 1953 to all transmitters except those installed after July 1, 1951	Applicable to all transmitters installed after July 1, 1951
	Percent	*Percent*	*Percent*
(1) From 1600 to 3500 kc inclusive (except for lifeboat transmitters under the condition specified below)	0.04	0.02	0.01
(2) For transmitters intended for use solely in lifeboats or other survival craft to be used on the international telephone distress frequency or the Region 2 ship telegraph calling frequency in this range	.05	.02	.01

(d) Authorized frequency tolerances for ship stations operating on frequencies above 30 Mc and for marine-utility stations:

	Percent
(1) From 30 to 100 Mc:	
For stations licensed to operate with a plate input power not in excess of 3 watts	0.02
For all other stations	.01
(2) From 100 to 200 Mc:	
For stations on survival craft intended for use in emergencies only	.01
For stations licensed to operate with a plate input power not in excess of 3 watts	.01
For all other stations	.005

(e) For stations in the maritime radio-location service (other than ship radar stations) the authorized frequency tolerance shall be specified in the instrument of authorization issued in behalf of each station.

(f) The frequency tolerance authorized for ship radar stations is prescribed as follows: The frequency at which maximum emission occurs shall be within the authorized frequency-band and shall not be closer than 1.5/T megacycles per second to the upper and lower limits of the authorized frequency-band, where "T" is the pulse duration in microseconds.

§ 8.132 *Authorized classes of emission.* (a) When the class of emission is specifically designated in the instrument of authorization, stations on board ship subject to this part shall use emission in conformity with the terms of that document. Otherwise, such stations are authorized to employ classes of emission as follows:

(1) Frequency-band: Classes of emission authorized; ship stations using telegraphy.

100 to 160 kc	A1, and for brief testing AO.
160 to 515 kc	A1, A2,[1] A2a,[1] A2b,[1] and for brief testing AO.
2,200 kc to 25,000 kc	A1, A2,[1] A2a,[1] A2b,[1] and for brief testing AO.

(2) Frequency-band: Classes of emission authorized; ship stations using telephony.

1600 kc to 30 Mc	A3, A3a, A3b; and for brief operating signals A1, A2, A2a, A2b; also for brief testing AO.
30 Mc to 50 Mc	A3, A3a, A3b, F3; and for brief operating signals A1, A2, A2a, A2b, F1, F2; also for brief testing AO, FO.
152 Mc to 162 Mc	In Regions 1, 2, and 3, F3; and for brief operating signals F1 and F2; also for brief testing FO; additionally in Regions 1 and 3 only, A3, A3a, A3b; and for brief operating signals A1, A2, A2a, A2b; also for brief testing AO.
For other frequencies or frequency-bands.	As designated in the station authorization.

(3) Frequency-band: Classes of emission authorized; ship radar stations.

Above 3000 Mc	PO.

[1] Permissible by keying the modulated emission. Keying the modulating audio frequency only, without interruption of the carrier wave, is not permissible. The use of any audio frequency pulse device such as a so-called "chopper" is prohibited. The use of these classes of emission on frequencies between 4,000 kc and 23,000 kc, except for stations of survival craft and for special purposes, will be prohibited when Article 33 of the International Radio Regulations of Atlantic City, 1947, becomes effective.

(4) Stations of any category not designated in subparagraphs (1), (2), and (3) of this paragraph shall use the class or classes of emission specified in the particular station authorization.

(b) Classes of emission not authorized in paragraph (a) of this section may be authorized by the Commission in special circumstances, subsequent to a satisfactory showing by the applicant of a need therefor and provided harmful interference will not result from the use thereof. Each application requesting such special authorization shall fully describe the emission desired to be used, shall indicate the emission-bandwidth required for effective operation, and shall state the purpose for which such emission is required.[2]

§ 8.133 *Authorized emission-bandwidths.*[3] (a) When the authorized emission-bandwidth is specifically designated in the instrument of authorization, a station on board ship subject to this part shall use emission-bandwidth(s) in conformity with the terms of that document. Otherwise, such stations shall use emission-bandwidths not exceeding those set forth in this section for the respective classes of emission authorized in § 8.132.

(b) The authorized emission-bandwidths hereinafter designated are established in relation to the operational factors set forth in the following subparagraphs:

(1) Class A0 emission means the incidental radiation of an unmodulated carrier wave from a station which is authorized to use normally an amplitude-modulated wave;

(2) Class A1 emission means a carrier wave (without the use of modulating audio frequency) keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters;

(3) Class A2 emission means a carrier wave amplitude-modulated at audio frequency not exceeding 1250 cycles per second, the modulated carrier wave being keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters. (The authorized emission-bandwidths for classes A2, A2a, and A2b emission are designated hereinafter on this basis);

(4) Class A3 emission means a carrier wave amplitude-modulated at audio frequencies corresponding to those necessary for intelligible speech transmitted at conversational speed. (The authorized emission-bandwidths for classes A3, A3a, and A3b emission are designated hereinafter on this basis);

(5) Class FO emission means the incidental radiation of an unmodulated carrier wave from a station which is authorized to use normally a frequency-modulated wave;

(6) Class F1 emission means a continuous (without the use of modulating audio frequency), the frequency of which is alternately shifted between the normal value and another specific value, by keying normally for telegraphy, so as to transmit intelligence in the International Morse code. The authorized bandwidth for class F1 emission is designated hereinafter on the basis of the bandwidth authorized for class F2 emission;

(7) Class F2 emission means a continuous wave frequency-modulated at such audio frequency and with such deviation ratio as to not exceed the authorized emission-bandwidth, the modulating frequency being keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters.

(8) Class F3 emission means a continuous wave frequency-modulated at audio frequencies corresponding to those necessary for intelligible speech transmitted at conversational speed, with a deviation ratio of any value necessary for effective communication, provided the resulting emission shall not exceed the authorized emission-bandwidth.

(9) The keying of a carrier wave or the amplitude modulation of a carrier wave by means of audio or sub-audible frequency or frequencies, so as to transmit in each instance a selective signalling code intended to actuate a selective-calling device, shall be construed as class A1 emission or class A2, A2a, or A2b emission, respectively, within the limits of the respective authorized emission-bandwidths hereinafter set forth; provided that for class A2, A2a, or A2b emission, the frequency of modulation does not exceed 1300 cycles per second on radio-channels authorized for telegraphy, nor 3000 cycles per second on radio-channels authorized for telephony.

(10) The frequency-shift keying of a carrier wave or the frequency-modulation of a carrier wave at audio or sub-audible frequency or frequencies, so as to transmit in each instance a selective signalling code intended to actuate a selective-calling device, shall be construed as class F1 emission or class F2 emission, respectively, within the limits of the respective authorized emission-bandwidths hereinafter set forth; provided the frequency deviation used, and in the case of class F2 emission the modulating frequency or frequencies used, is (are) such that the emission in fact does not exceed the respective authorized emission-bandwidth.

(11) Class PO emission means pulse transmission with the absence of any

[4] Duplicate logs are not required by the provisions of this subsection, unless the original log is removed prior to opportunity for official inspection.

[1] Frequency tolerance is defined by paragraph (k) of § 8.7.

[2] For information regarding the classification of emissions and the calculation of the bandwidth, reference should be made to Part 2 of the Commission's rules.

[3] For definition of the term "emission-bandwidth", see paragraph (o) of § 8.7.

modulation intended to carry information, as used by ship radar stations licensed by the Commission.

(c) (1) The authorized emission-bandwidths for classes of emission authorized in § 8.132 shall be as follows:

Class of emission	Emission designator	Emission-band width authorized for transmission of intelligence [1]
A0	None	None.
A1	0.15, A1	150 cycles per second.
A2	2.7, A2	2,700 cycles per second.
A2a	1.35, A2a	1,350 cycles per second.
A2b	2.7, A2b	2,700 cycles per second.
A3	8, A3	8,000 cycles per second.
A3a	4, A3a	4,000 cycles per second.
A3b	8, A3b	8,000 cycles per second.
FO	None	None.
F1:		
For 35 Mc to 35.2 Mc	36, F3	36,000 cycles per sec.
For 156 Mc to 158 Mc	42, F3	42,000 cycles per sec.
F2:		
For 35 Mc to 35.2 Mc	36, F3	36,000 cycles per sec.
For 156 Mc to 158 Mc	42, F3	42,000 cycles per sec.
F3:		
For 35 Mc to 35.2 Mc	36, F3	36,000 cycles per sec.
For 156 Mc to 158 Mc	42, F3	42,000 cycles per sec.
FO	Variable, according to the authorized frequency band.	The frequency at which maximum emission occurs shall be within the authorized frequency band and shall not be closer than 1.5/T megacycles per second to the upper and lower limits of the authorized frequency band, where "T" is the pulse duration in microseconds.

[1] This bandwidth does not take into consideration the effect of modulation caused by any alternating component(s) of electron-tube grid, anode, or cathode electric power supplies, which modulation is not intended to convey intelligence.

(2) With reference to the "emission designator" expressed in paragraph (b) (10) of this section when the authorized class of emission is specifically designated in the station authorization and is prefixed by a numeral, that numeral specifies the authorized emission-bandwidth in kilocycles per second to be occupied by that class of emission in accordance with all other terms and conditions of the station authorization,

(3) In the actual operation of a ship station, unless otherwise provided by the station authorization,

(i) When a carrier is present, the frequency coinciding with the center of the frequency-band occupied by the emission-bandwidth shall, when class A2, A2b, A3, F2, or F3 emission is being used, be the same as the carrier frequency;

(ii) When a carrier is not present, the frequency-band occupied by the emission-bandwidth shall be within the authorized frequency-band,

(d) Bandwidths in excess of those set forth in paragraph (c) of this section or emission-bandwidths for other classes of emission may be authorized and set forth in the instrument of authorization if approved by the Commission subsequent to a satisfactory showing by the applicant of need therefor. Each application requesting such special authorization shall fully describe the emission desired to be used, shall indicate the emission-bandwidth required for effective operation, and shall state the purpose for which such emission-bandwidth is required.

§ 8.134 *Authorized transmitter power.* (a) Stations on board ship subject to this part may use such antenna power as is necessary to carry on the service for which the station is licensed, on condition that the maximum authorized transmitter power shall not be exceeded. Unless the station authorization specifically provides otherwise, the maximum authorized transmitter power (as defined in paragraph (ii) of § 8.7) shall not exceed the particular power set forth in the following paragraphs which is applicable under the controlling factors designated therein in direct relation to that power.

(b) For ship stations on board passenger vessels of 5,000 gross tons and over, which are navigated on ocean voyages, the maximum authorized transmitter power is set forth as follows:

Frequency-band in which transmission occurs and maximum authorized transmitter power (with or without modulation)

For telegraphy below 25,000 kc: *Watts*

100 kc to 515 kc	8,000
4,000 kc to 25,000 kc	3,000

For telephony below 25,000 kc

Class of radio-frequency amplifier used in last radio stage of transmitter	Maximum authorized transmitter power (when no modulation is present) frequency band in which transmission occurs	
	2,000 kc to 4,000 kc	4,000 kc to 25,000 kc
	Watts	*Watts*
Class C—plate or plate and screen-grid modulated	700	2800
Class C—control, screen, or suppressor-grid modulated	1400	5600
Class C—cathode modulated	1120	4480
Class B—linear	1400	5600
Class BC—high efficiency	840	3360
Other classes	As specified in the station authorization	

(c) For ship stations on board any category of vessel, other than the class of passenger ship prescribed in paragraph (b) of this section, the maximum authorized transmitter power is set forth as follows:

Frequency-band in which transmission occurs and maximum authorized transmitter power (with or without modulation)

For telegraphy below 25,000 kc: *Watts*

100 kc to 515 kc	1,500
4,000 kc to 25,000 kc	700

For telephony below 25,000 kc

Class of radio-frequency amplifier used in last radio stage of transmitter	Maximum authorized transmitter power (when no modulation is present) frequency band in which transmission occurs		
	2,000 kc to 4,000 kc (all areas)	4,000 kc to 25,000 kc	
		U. S. inland waters [1]	Other areas
	Watts	*Watts*	*Watts*
Class C—plate or plate and screen-grid modulated	150	150	750
Class C—control, screen, or suppressor-grid modulated	200	200	1000
Class C—cathode modulated	240	240	1200
Class B—linear	300	300	1500
Class BC—high efficiency	180	180	900
Other classes	As specified in the station authorization		

[1] Means the Great Lakes area and the Mississippi River and connecting inland waters.

(d) For ship stations and marine-utility stations using telephony on any frequency assignment within the frequency-band 35 Mc to 44 Mc and employing amplitude modulation (AM):

Class of radio-frequency amplifier used in last radio stage of transmitter	Maximum authorized transmitter power (when no modulation is present)	
	Ship stations	Marine-utility stations
	Watts	*Watts*
Class C—plate or plate and screen-grid modulated	100	10
Class C—control, screen, or suppressor-grid modulated	200	20
Class C—cathode modulated	160	16
Class B—linear	200	20
Class BC—high efficiency	120	12
Other classes	As specified in the station authorization	

(e) For ship stations using telephony on any frequency assignment within the frequency-band 35 Mc to 44 Mc or 156.25 Mc to 157.45 Mc and employing frequency modulation (FM), the maximum authorized transmitter power (with or without modulation) is 100 watts. For marine-utility stations under the conditions prescribed in this paragraph for ship stations, the maximum authorized transmitter power is 10 watts.

(f) For ship stations and marine-utility stations using telephony in Region 1 or 3 by means of amplitude modulation (AM) on any frequency assignment within the frequency-band 156.25 Mc to 157.45 Mc, the maximum authorized transmitter power is the same as that designated in paragraph (d) of this section for operation within the band 35 Mc to 44 Mc.

(g) For stations on board ship which are authorized to transmit on frequencies above 157.45 Mc, the power authorized to be used shall be specified in the respective station authorization.

(h) (1) For the purpose of assuring adherence to the requirements of this section, the authorized transmitter power, with reference to paragraphs (ff) and (ii) of § 8.7, shall be computed for electron-tube transmitters by the method set forth in the following subsections.

(2) The authorized transmitter power shall be the sum of the product(s) obtained by multiplying the effective anode (plate) voltage, applied to each electron tube of the last radio stage supplying radio-frequency power to the antenna, by the effective anode (plate) current flowing through each such tube, or shall be the sum of the actual powers supplied to each such tube.

(3) Measurement of the effective anode (plate) voltage shall be accomplished by means of a direct-current type voltmeter (as applicable) or an alternating-current type voltmeter of proper frequency range (as applicable), each such instrument being of standard accuracy and reliability. Where the same voltage is applied to more than one electron tube, measurement of this voltage shall be regarded as measurement of the voltage applied to each individual electron tube of that particular group.

(4) Measurement of the effective anode (plate) current shall be accomplished by means of a direct-current (d'Arsonval galvanometer movement) type ammeter of standard accuracy and reliability. Where the anode (plate) current through more than one electron tube flows through a common point in the electrical circuit, measurement of the current at this point shall be regarded as measurement of the total effective anode (plate) current flowing through all electron tubes of that particular group.

(5) Measurement of the actual power in watts supplied to the anode (plate) circuit of one or more electron tubes shall be acceptable provided a wattmeter properly activated by the form of voltage and current supplied is employed, and is of standard accuracy and reliability.

(6) When any current, in addition to the actual anode (plate) current, flows through an ammeter or wattmeter being used for measurements in accordance with this subsection (such as screen-grid current), such current, unless separately measured, shall not be deducted from the current measured for the purpose of this subsection.

§ 8.135 *Suppression of receiver radiation.* (a) The use or operation of the following type of radio receiving equipment is prohibited on board any ship of the United States:

(1) Radio receiving equipment which, when used or operated either with or without connection to an actual antenna (including loop antennas) on shipboard, creates an electromagnetic field, at any radio frequency, of more than 0.1 microvolt per meter at a distance over seawater of more than one nautical mile from the receiver;

(2) Radio receiving equipment which, when in operation, is capable of delivering more than 400 micromicrowatts of power at any radio frequency to an artificial antenna having electrical characteristics designated [4] by the Commission as equivalent to those of the average receiving antenna(s) used on shipboard.

(3) Radio receiving equipment shall be deemed capable of meeting the requirement of subparagraph (1) of this paragraph if, when adjusted for radio reception at each frequency within its tuning range, it is not capable of delivering power of more than 400 micromicrowatts at any radio frequency to an artificial antenna having electrical characteristics designated [4] by the Commission as equivalent to those of the average receiving antenna(s) used on shipboard.

(b) The limitations imposed upon radio receiving equipment by paragraph (a) of this section shall not apply to such equipment when used or operated on board any ship of less than 1,600 gross tons or on board any ship navigated solely on the Great Lakes, or on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States, until on and after January 1, 1958.

§ 8.136 *Type approval of transmitters for licensing.* (a) Upon written request therefor made by the manufacturer or applicant for related station authorization, approval of a specific and readily identifiable type of radio transmitter as being capable of complying with all requirements of the Commission solely for the purpose of licensing such transmitter in accordance with the provisions of § 8.21 will be given formally by the Commission subsequent to a satisfactory showing of compliance made by the applicant. The necessary showing of compliance shall, as a minimum, be in the form of a written statement (together with such supplemental charts, graphs, illustrations, etc., as may be deemed appropriate by the applicant for type approval) over the signature of a competent radio engineer attesting to actual technical performance of the transmitter in accordance with all pertinent rules, regulations, and international agreements which must be met by the class of station for which the transmitter is intended to be licensed.

(b) Request for type approval and showing of compliance pursuant to the provisions of paragraph (a) of this section shall be submitted in duplicate to the Commission at Washington 25, D. C., and shall be designated for attention of the Marine Division. One copy of such showing of compliance shall be signed under oath or affirmation by the engineer who conducted or supervised the related technical performance of the particular type of transmitter for the purpose of securing type approval by the Commission.

(c) In the event the written showing of compliance prescribed by paragraphs (a) and (b) of this section is deemed by the Commission to not furnish all information or data which it requires for the purpose of giving type approval to a particular type of radio transmitter, the Commission may supplementally require the applicant for such type approval to demonstrate by actual operation of the involved equipment in the presence of one or more engineers of the Commission that the same will, in fact, comply with all pertinent rules, regulations, and international agreements. In the event the showing of compliance is finally adjudged by the Commission to be unsatisfactory for the purpose of type approval for licensing of the particular type of transmitter, such type approval will not be given and that type of transmitter will not be licensed for the involved class of station.

§ 8.137 *Special requirements for radiotelephone transmitters.* (a) Except as provided otherwise in paragraph (b) of this section, and except for transmitters authorized solely for developmental stations, each radiotelephone transmitter first licensed by the Commission after July 1, 1951, for use and operation in a ship station or a marine-utility station, and all radiotelephone transmitters licensed by the Commission after January 1, 1958, for use and operation in ship stations and marine-utility stations, shall be provided with a device that will automatically prevent modulation in excess of 100 percent. This requirement however, shall not apply to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature.

(b) Each radiotelephone transmitter of a ship station or a marine-utility station shall be type-approved by the Commission prior to its operation by any unlicensed person pursuant to the provisions of paragraph (a) of § 8.155. In addition to complying with all other applicable rules and regulations, such a transmitter shall meet the following requirements:

(1) Operation of the transmitter shall require only the use of simple external switching devices excluding all manual adjustment of radio frequency determining elements;

(2) The required radio frequency stability of the transmitter must be maintained (at all times during such operation by an unlicensed person) by the transmitter itself;

(3) None of the operations necessary to be performed during the course of normal rendition of service of the station shall be capable of causing any radiation of emission on an unauthorized frequency; and

(4) The transmitter shall be provided with a device that will automatically prevent modulation in excess of 100 per cent during negative modulation "peaks" (when the carrier wave is reduced to its minimum strength by the modulating frequencies). This requirement, however, shall not apply to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature.

(c) (1) Each radiotelephone transmitter authorized in a ship station license or a marine-utility station license granted, modified, or renewed by the Commission after July 1, 1951, for use and operation at frequencies above 30 Mc (other than transmitters authorized

[4] An artificial antenna having a capacitance of 750 micromicrofarads and an effective resistance of 4 ohms at a frequency of 500 kilocycles shall be employed for the measurement of the power output of receiving equipment at frequencies between 350 kilocycles and 515 kilocycles. The constants of artificial antennas for tests at other frequencies will be supplied upon request to the Commission.

solely for developmental stations), must be a type which is approved by the Commission pursuant to the provisions of § 8.136.

(2) Before being finally considered for type-approval, such transmitters shall, in addition to meeting all other applicable requirements, comply with the following limitations and operating conditions:

(i) When radiating F1, F2, or F3 emission on each marine radio-channel within the frequency-band 35 Mc to 44 Mc, with 100 percent[4] modulation applied, the frequency deviation[4] shall not exceed 12 kc.

(ii) When radiating F1, F2, or F3 emission on each marine radio-channel within the frequency-band 156 Mc to 158 Mc, with 100 percent[4] modulation applied, the frequency deviation[4] shall not exceed 15 kc.

(iii) When radiating class F1, F2, or F3 emission on each radio-channel within the frequency-band 35 Mc to 44 Mc, any emission appearing on any radio frequency removed from the carrier frequency by not less than 18 kc nor more than 36 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier. Any emission appearing on any radio frequency removed from the carrier frequency by more than 36 kc shall be attenuated 60 decibels or more below the intensity of the unmodulated carrier, provided that for transmitters incapable of plate input power of more than 3 watts, this attenuation shall be 40 decibels or more below the intensity of the unmodulated carrier.

(D) When radiating class F1, F2, or F3 emission on each marine radio-channel within the frequency-band 156 Mc to 158 Mc, any emission appearing on any radio frequency removed from the carrier frequency by not less than 21 kc nor more than 42 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier. Any emission appearing on any radio frequency removed from the carrier frequency by more than 42 kc shall be attenuated 60 decibels or more below the intensity of the unmodulated carrier, provided that for transmitters incapable of plate input power of more than 3 watts, this attenuation shall be 40 decibels or more below the intensity of the unmodulated carrier.

§ 8.138 *Special requirements for ship radar transmitters.* (a) Each radar transmitter authorized in any ship radar station license granted, modified, or renewed by the Commission after July 1, 1950 (other than licenses for developmental stations) must be type-approved by the Commission pursuant to § 8.136. In addition to meeting all other applicable requirements, such transmitters shall, in addition, comply with the limitations and conditions set forth in the following paragraph.[4]

(b) (1) The design and construction of the radar transmitter shall be such that, when properly installed, its use will not produce harmful interference to any other radiolocation service or any maritime mobile service;

(2) The radar transmitter shall not have means available for any external adjustment(s) which can result in a deviation from the terms of the station authorization or any deviation from the applicable technical requirements for ship radar stations stipulated in this part.

[4] See paragraphs (v), (w) and (aa) of § 8.7.
[4] See also § 8.155.

SUBPART F—OPERATOR REQUIREMENTS

§ 8.151 *Authorized operator required.* (a) Except as otherwise provided in § 8.155 or by any applicable order of the Commission, the actual operation of all transmitting apparatus in any radio station in the maritime mobile or maritime radiolocation service on board a ship of the United States shall be carried on only by a person holding an operator license issued by the Commission in accordance with Part 13 of the Commission's rules.

(b) When the station is used for telephony, the person lawfully in control of the station may, if authorized by the station licensee or the master (acting in this respect as the station licensee's agent), permit any person to speak over the station microphone: *Provided,* That such person in control shall continue to exercise his control so as to insure the continued proper operation of the station.

§ 8.152 *Operator required by statute for safety.* (a) The radio installation required by Part II of Title III of the Communications Act or by the Safety Convention, for purposes of safety on board a ship of the United States, shall be in charge of and shall be operated only by one or more qualified operators[1] who shall be subject to the lawful authority of the master.

(b) Each cargo ship of the United States required by Part II of Title III of the Communications Act to be fitted with a radio installation and not exempted therefrom by the Commission, which is not fitted with an auto-alarm,[2] and each passenger ship required by that statutory provision to be fitted with a radio installation and not exempted therefrom by the Commission, shall, for safety purposes, carry at least two qualified operators.

(c) Each cargo ship of the United States required by Part II of Title III of the Comunications Act to be fitted with a radio installation and not exempted therefrom by the Commission, which is fitted with an auto-alarm in accordance with that statutory provision, shall, for safety purposes, carry at least one qualified operator who shall have had at least six months previous service in the aggregate as a qualified operator in a station on board a ship or ships of the United States.

§ 8.153 *Operator required by Safety Convention.* (a) Each ship of the United States which is not subject to Part II of Title III of the Communications Act but which is required by the radio provisions of the Safety Convention[3] to be fitted with a radio installation, which has not been exempted therefrom by the Commission, shall, for safety purposes, carry at least one qualified[4] operator. If not fitted with an auto-alarm in proper operating condition, at least two qualified[4] operators shall be carried for this purpose by—

(1) A passenger ship of the United States.

(2) A Cargo ship of the United States of more than 5,500 tons gross tonnage.

§ 8.154 *Location of authorized operator.* (a) Whenever the transmitting apparatus of a station in the maritime mobile service subject to this part is being used or operated, and the provisions of section 318 of the Communications Act (in so far as such provisions require the actual operation of such apparatus only by a person holding an operator's license of the proper class issued by the Commission) are not waived by the Commission, at least one person holding an operator license of the proper class as prescribed in Part 13 of the Commission's rules shall be on duty at the place where such transmitting apparatus is located and, subject to the lawful authority of the master, shall be in charge of the station; provided that in lieu of the transmitter location, such operator may be on duty at a different location on the ship when—

(1) Such apparatus is installed and protected so that it is not accessible to and may not be placed in an operating condition by other than duly authorized persons; and

(2) The transmitting and associated receiving apparatus can be operated from such other location in a manner which will fully comply with all applicable rules of the Commission and the terms of the station license; and without any delay in normal operation being introduced by such arrangement.

§ 8.155 *Waivers of operator license—*(a) *For VHF telephony.* Subject to the conditions hereinafter stated, the provisions contained in section 318 of the Communications Act are waived, in so far as such provisions require any person to hold an operator's license in order to operate, during the course of normal rendition of service, any ship station (including developmental ship stations) or marine-utility station on board ship, in the maritime mobile service, when such station is authorized to use telephony only and further is authorized to be operated exclusively on one or more radio-channels above 30 Mc: *Provided,*

[1] A qualified operator for the purpose of this section on a ship of the United States is a person holding a radio operator's license of the proper class, as prescribed and issued by the Commission. See Part 13 of the Commission's rules and/or any applicable orders promulgated by the Commission.

[2] As prescribed by the Safety Convention, London, 1929; this requirement as well as others are subject to change when the Safety Convention, London, 1948, becomes effective.

[3] A qualified operator for this purpose is a person holding a certificate complying with the provisions of the International Radio Regulations (see Article 24 of the Radio Regulations of Atlantic City, 1947): *Provided, however,* That the operation of transmitting apparatus in all ship stations of the United States is subject to the provisions of § 8.151.

(1) The person who operates the transmitting equipment is the station licensee or is authorized by the station licensee to do so, and the use of the station during such operation is subject to the lawful direction and authority of the person who, at the time, occupies the position of the master of the ship on which the station is located;

(2) The station uses one or more of the following classes of emission only: A3 or F3 for telephony; and on the same radio-channels as are authorized for telephony AO, A2, FO, F2 solely for transmitting by automatic means attention signals, signals for actuating selective calling devices, for brief testing of the authorized apparatus, or station identification, or signals in an emergency involving safety;

(3) The station is authorized to use transmitting equipment only of a type which is approved by the Commission for operation in this service by unlicensed persons in accordance with this subsection;

(4) The transmitting equipment operated by an unlicensed person in accordance with this subsection is not required on board the ship for safety purposes by any statutory provisions or by any international agreement or treaty in force;

(5) All transmitter adjustments or tests during or coincident with the installation, servicing, or maintenance of the station that may affect its proper operation shall be made by or under the immediate supervision and responsibility of a person holding an operator license of the proper class for this purpose as prescribed in Part 13 of the Commission's rules;

(6) Subsequent to any transmitter adjustments made in accordance with subparagraph (5) of this paragraph, and at all other times, the station licensee shall be responsible for determining that the transmitting equipment continues to meet the conditions established by the Commission relative to approval of the particular type of equipment for the purpose of operation by unlicensed persons;

(7) The station licensee or the person(s) authorized by the licensee to operate the station shall, in lieu of a licensed operator, be on duty as prescribed by § 8.154 for a licensed operator;

(8) Nothing contained in this paragraph shall be construed to change or diminish in any respect the responsibility of the station licensee for having and maintaining control of the station or for proper functioning and operation of the station in accordance with law;

(9) No unlicensed person, authorized as provided by this paragraph to operate a station, may lawfully perform any act in relation to such station that he could not lawfully perform if he were acting under the authority of a radio operator license issued in his behalf by the Commission.

(b) *For ship radar.* (1) Effective on and after January 2, 1951, no radio operator license is required for the operation on board ship, during the course of normal rendition of service, of ship radar stations licensed in the radiolocation service, provided that the following conditions are met or provided for by the licensee of the station:

(i) The radar equipment shall employ as its frequency determining element a non-tunable, pulse-type magnetron.

(ii) The radar equipment shall be capable of being operated during the course of normal rendition of service in accordance with the radio law and the rules and regulations of the Commission by means of exclusively external controls, and

(iii) Operation during the course of normal rendition of service pursuant to this subparagraph, must be performed exclusively by the master of the radar-equipped ship or by one or more other persons responsible to him and authorized by him to do so.

(2) All adjustments or tests during or coincident with the installation, servicing, or maintenance of the equipment while it is radiating energy must be performed by or under the immediate supervision and responsibility of a person holding a first or second class commercial radio operator license, radiotelephone or radiotelegraph, containing a ship radar endorsement, who shall be responsible for the proper functioning of the equipment in accordance with the radio law and the Commission's rules and regulations and for the avoidance and prevention of harmful interference from improper transmitter external effects: *Provided, however,* That nothing in this sub-subsection shall be construed to prevent persons not holding such licenses or not holding such licenses so endorsed from making replacements of fuses or of receiving-type tubes.

(3) Nothing in this paragraph shall be construed to change or diminish in any respect the responsibility of any ship radar station licensee for having and maintaining control over the station licensed to him, or for the proper functioning and operation of such station in accordance with the terms of the station license.

§ 8.156 *Posting of operator license.* (a) When a licensed operator is required for the operation of a station subject to this part, each licensed operator involved shall observe the applicable requirements of Part 13 of the Commission's Rules with respect to the posting of operator licenses. During official inspection of the station at a port of any country which is a party to the International Radio Regulations, the operator must facilitate the examination of his operator license when requested to do so by the official(s) responsible for inspection of the station.

(b) The requirement of paragraph (a) of this section with respect to posting of operator licenses shall not apply to stations on board small boats if the posting of a license in the manner required by Part 13 of the Commission's rules is impracticable, upon the express condition that the licensed radio operator engaged in operating the station shall have on his person either his required operator license or a duly issued verification card (FCC Form 758–F) attesting to the existence of that license.

[4] Ship radar stations heretofore licensed in the ship service are construed to be licensed in the maritime radiolocation service (including the maritime radionavigation service).

SUBPART G—GENERAL OPERATING REQUIREMENTS

§ 8.171 *International Regulations applicable.* In addition to being regulated by applicable rules of this part, the use and operation of stations subject to this part shall be governed by applicable provisions of the International Radio Regulations and the applicable radio provisions of all other international agreements in force to which the United States is a party.

§ 8.172 *Authority in event of distress.* No provision of the International Radio Regulations shall prevent a ship in distress from using any means of telecommunication available to it for drawing attention, signalling its position, and obtaining help. A distress call and message, however, shall be transmitted only on the authority of the master of, or the person responsible for, the ship from which this call and message are transmitted. No person shall, by means of any station subject to this Part, knowingly transmit, or cause to be transmitted, any false or fraudulent signal of distress or communications relating thereto.

§ 8.173 *Authority of the master.* Except as may be regulated by law or international agreement or by the rules of the Commission, the radio service of each station on board ship shall at all times be under the supreme control of the master. In time of war, no provision of the Commission's rules and regulations shall prevent the master of any vessel of the United States from taking any action whatsoever in regard to the radio installation, the operators, the transmission and receipt of messages, and the radio service of the ship whenever in his discretion such action is necessary to carry out the instructions of United States naval control officers and other instructions issued by the United States Navy.

§ 8.174 *Secrecy of communication.* The master or the person responsible, as well as all persons who may have knowledge of the text or even of the existence of the radio communications transmitted or received by a station on board ship or of any information whatever obtained by means of the radiocommunication service of such station, shall be under the obligation of observing and insuring the secrecy of Communications to the extent required by the Communications Act and the International Radio Regulations.[1]

§ 8.175 *Intercommunication in mobile service.* Each ship station in the maritime mobile service at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any other

[1] See sections 501, 502, and 605 of the Communications Act; also Article 21 of the International Radio Regulations, Atlantic City, 1947.

ship station or aircraft station in the maritime mobile service at sea or with any public coast station in the maritime mobile service provided that such exchange of radio communication shall be without distinction as to radio systems or instruments adopted by each station.

§ 8.176 *Priority of communications to be observed.* Ship stations in the maritime mobile service shall observe at all times the priority of communications set forth in § 8.177; in particular, all such stations shall give absolute priority to radio communications or signals relating to any ship or aircraft in distress; shall, when any distress signal or communication is anticipated or intercepted, cease all transmission on frequencies which may interfere with any station hearing such radio communication or signal of distress except when engaged in answering or aiding the ship or aircraft in distress, and shall assist the vessel or aircraft in distress, so far as possible, by complying with its instructions.

§ 8.177 *Order of priority of communications.* (a) The order of priority of radiotelegraph communications in the maritime mobile service on any frequency used for this service shall be as follows:

(1) Distress calls (including the international distress signal SOS) international automatic-alarm signals for distress purposes,[1] distress messages, and distress traffic.

(2) Communications preceded by the international radiotelegraph urgency signal "XXX".

(3) Communications preceded by the international radiotelegraph safety signal "TTT".

(4) Communications relative to radio direction-finding bearings.

(5) Communications relative to the navigation and safe movement of aircraft.

(6) Communications relative to the navigation, movements, and needs of ships, including weather observation messages destined for an official meteorological service.

(7) Government communications for which priority right has been claimed.

(8) Service communications relating to the working of the radiocommunication service or to communications previously transmitted.

(9) All other communications.

(b) The order of priority of radiotelephone communications in the maritime mobile service on any frequency used for this service shall be as follows:

(1) Distress calls (including the international telephone distress signal MAYDAY and the telegraphic distress signal SOS transmitted by either telegraphy or telephony), distress messages, and distress traffic.

(2) Communications preceded by the international radiotelephone urgency signal "PAN", or known to the station licensee or his agent to consist of one or more urgent messages concerning the safety of a ship, aircraft, or other mobile unit or of some person on board or within sight of the ship, aircraft, or mobile unit.

(3) Communications preceded by the international radiotelephone safety signal "SECURITE", or known to the station licensee or his agent to consist of one or more messages concerning the safety of navigation or important meteorological warnings.

(4) Communications known to the station licensee or his agent to consist of one or more messages relative to the navigation, movements, and needs of ships; including weather observation messages destined for an official meteorological service.

(5) Government communications for which priority right has been claimed.

(6) All other communications.

§ 8.178 *Unauthorized transmissions.* Stations operating in the maritime mobile service shall not engage in radiocommunication which is superfluous or unnecessary in this service. Except in an emergency which requires otherwise, the transmission by ship stations of signals or communications not addressed to an authorized station or stations in the maritime mobile service is prohibited unless radiotelegraphy is used and the transmisison, preceded by CQ or CP in accordance with the International Radio Regulations, is intended to be intercepted by authorized stations of the maritime mobile service.

§ 8.179 *Control by coast or government station.* When communicating with a coast station or any government station in the maritime mobile service, ship stations shall, except when transmitting distress signals or controlling distress traffic, comply with instructions given by the coast station or government station relative to the order and time of transmission, to the choice of authorized frequency, to the suspension of communication, and to the permissible type of message traffic that may be transmitted or received by the particular coast station or government station. This provision, however, does not apply in the event of distress, either actual or impending.

§ 8.180 *Cooperative use of frequency assignments.* Unless provided otherwise in this part, or in the particular station authorization, each radio-channel authorized for use by a station on board ship subject to this part is available for such use on a shared basis only and shall not be construed as available for the exclusive use of any one station or any one station licensee. All station licensees shall cooperate in the use of their respective frequency assignment in order to minimize interference and obtain the most effective use of the authorized radio-channels.

§ 8.181 *Prevention of interference.* (a) From the standpoint of interference, the operation of a ship radio station (including receiving equipment, auto-alarm, and direction finder) required by law to be installed on board a vessel for safety purposes, shall have priority over the operation of any other radio apparatus on board the same vessel.

(b) Before commencing transmission (other than signals of distress) a ship station shall make sure that it will not cause interference to communications in the maritime mobile service being carried on within its range. For this purpose, the operator attending the station shall, before commencing transmission, use the necessary receiving installation to listen on the appropriate frequency or frequencies. If interference is likely, the station shall wait until the existing communications, which it may disturb, have been concluded; with due regard, nevertheless, for the priority of communications designated in § 8.177.

(c) Whenever a radiocommunication in the maritime mobile service is already in progress between two mobile stations or between a mobile station and a coast station and it appears to be interfered with by a subsequent transmission from another mobile station, the latter must cease transmitting at the first request of either of the other two, except as priority may be otherwise determined by § 8.177. The station requesting this cessation must indicate the approximate length of the wait imposed upon the mobile station whose transmission is suspended.

(d) Except in cases of distress, communications between ship stations or between ship and aircraft stations must not interfere with the work of coast stations. When this work is thus interfered with, the ship or aircraft station which causes it must stop transmitting or change frequency upon the first request of the coast station concerned.

(e) Ship stations when operating on a frequency below 3500 kilocycles or above 30 Mc shall not carry on, or attempt to carry on, communication with any station which, under the currently prevailing conditions of transmission or reception, is not within reliable communication range of the ship station: *Provided*, That this provision shall not apply in event of distress, either actual or impedening.

§ 8.182 *Suspension of transmission.* Transmission shall be suspended immediately upon detection or notification of a deviation from the technical requirements of the station authorization until such deviation is corrected, except for transmission concerning the immediate safety of life or property, in which case transmission shall be suspended as soon as the emergency is terminated.

§ 8.183 *Hours of service.* (a) Ship stations whose service is not continuous may not close before:

(1) Finishing all operations resulting from a distress call, or urgency or safety signal;

(2) Exchanging, so far as practicable and within the scope of their normal operation, all traffic originating in or destined for public coast stations situated within their range and mobile stations which, being within their range, have indicated their presence before the actual cessation of communication.

§ 8.184 *Maintenance of station log.* (a) Each station on board ship subject to this part which is required, under the provisions of this part pertaining to the particular class of station, to keep a radio station log, shall, in addition, comply with the applicable provisions of the following subsections of this section; the station licensee and the licensed radio operator (when a licensed operator is required) in charge of the station shall be responsible for compliance with this section;

(b) The log shall be kept in an orderly manner, in usable form, and in such detail that the information required for the particular class of station concerned is readily available. Key letters or abbreviations may be used if their proper meaning or explanation is contained elsewhere in the same log.

(c) The station log or any portion thereof shall not be erased, obliterated, or wilfully destroyed within the period of retention required by § 8.115. However, during this period any necessary correction may be made of such log but only by the person originating the entry and that person shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

SUBPART H—WATCHES AND AUTO-ALARMS FOR SAFETY PURPOSES

§ 8.201 *Watch required by International Radio Regulations.* All ship stations employing telegraphy (either compulsorily or voluntarily provided with a radiotelegraph installation) and normally keeping watch on frequencies in the authorized bands between 365 and 515 kc shall, during their hours of service, take the necessary measures to insure an efficient watch by a duly licensed radiotelegraph operator on the international distress frequency 500 kc for three minutes twice each hour, beginning at x h 15 and x h 45, Greenwich mean time (G. M. T.). For this purpose, either a head receiver or a loudspeaker may be used, on condition that use of the loudspeaker is no less effective than use of the head receiver. While maintaining this watch, the operator shall not use or operate any radio equipment (such as, for example, broadcast receivers, or amateur transmitters or receivers) not actually required for maritime mobile service.

§ 8.202 *Watch required by Communications Act.* (a) Each ship of the United States required by Part II of Title III of the Communications Act and the rules of the Commission to be fitted with a radiotelegraph installation and not exempted therefrom by the Commission shall, while being navigated outside a harbor or port, keep a continuous and efficient watch on the international distress frequency 500 kc by means of qualified radiotelegraph operators: *Provided, however*, That in lieu thereof on a cargo ship fitted with an auto-alarm in proper operating condition, a watch of at least eight hours per day,[1] in the aggregate, shall be maintained as herein prescribed by means of a qualified radiotelegraph operator: *Provided, further*, That in either instance such operator(s) shall be subject to the conditions and limitations prescribed by § 8.204.

(b) In accordance with the requirement set forth in subsection (a) for a cargo ship fitted with an auto-alarm in proper operating condition, when such vessel is navigated outside a harbor or port, the watch as prescribed in paragraph (a) of this section shall be maintained by means of a qualified radiotelegraph operator for at least one-third of each day, or portion thereof, during the period of time the vessel is so navigated.

§ 8.203 *Watch required by Safety Convention.* (a) The following subsections of this section are applicable to ships of the United States subject to the radio provisions of the Safety Convention but not at the same time subject to the provisions of Part II of Title III of the Communications Act (for example, certain ships engaged on an international voyage, no part of which is in the open sea).

(b) Each ship of the United States, except cargo ships of 5,500 tons gross tonnage or less, required by the Safety Convention to be fitted with a radiotelegraph installation and not exempted therefrom by the Commission shall, if not fitted with an auto-alarm in proper operating condition, while at sea, keep a continuous and efficient watch on the international distress frequency 500 kc by means of qualified radiotelegraph operators.

(c) Each cargo ship of the United States of 5,500 tons gross tonnage or less required by the Safety Convention to be fitted with a radiotelegraph installation and not exempted therefrom by the Commission shall, if not fitted with an auto-alarm in proper operating condition, while at sea, keep an efficient watch on the international distress frequency 500 kc by means of a qualified radiotelegraph operator for at least eight hours per day, in the aggregate.

(d) In keeping the watch prescribed in paragraph (b) and (c) of this section, the operator(s) shall be subject to the conditions and limitations prescribed by § 8.204.

(e) The use of a certified watcher in lieu of a qualified radiotelegraph operator for the purpose of complying with this section is not authorized for ships of the United States.

(f) In accordance with the requirement set forth in paragraph (c) of this section for cargo ships of 5,500 tons gross tonnage or less and not fitted with an auto-alarm in proper operating condition, when such vessel is at sea, the watch as prescribed in paragraph (c) shall be maintained by means of a qualified radiotelegraph operator for at least one-third of each day, or portion thereof, during the period of time the vessel is so navigated.

§ 8.204 *Provisions governing safety watch.* (a) For the purpose of maintaining the watch prescribed in §§ 8.202 and 8.203, the operator shall use an effectively operating main or emergency radio receiver complying with the applicable requirements of § 8.503 or § 8.504, respectively, and either a head receiver or a loudspeaker complying with the applicable requirements of § 8.503 or § 8.504, respectively, on condition that use of the loudspeaker is not less effective than use of the head receiver".

(b) While maintaining this watch, the operator shall not use or operate any radio equipment (such as, for example, broadcast receivers or amateur transmitters or receivers) not actually required for maritime mobile service.

(c) During the period of this watch and subject to the provisions of § 8.205, the operator may temporarily interrupt the required listening on the frequency 500 kc while he is transmitting on 500 kc operating the ship station equipment on any other frequency authorized for transmission or reception in the maritime mobile service, or performing other radio duties considered essential by the master within the scope of his authority under section 358 of the Communications Act, if it is not possible to maintain at the same time, by any practicable means,[2] the watch on 500 kc. The provisions of this paragraph shall not relieve the ship of the requirement for maintaining a watch on the international distress frequency 500 kc during the international silent periods as prescribed in § 8.201.

§ 8.205 *Compulsory use of auto-alarm.* (a) The auto-alarm, when provided on a ship compulsorily fitted with a radiotelegraph installation for the purpose of compliance with Part II of Title III of the Communications Act or the radio provisions of the Safety Convention, shall be in operation, connected to a suitable antenna,[3] and adjusted for normal efficiency according to prevailing conditions of radio reception, at all times while the ship is being navigated outside a harbor or port—

(1) When the operator is not on watch duty;

(2) When the operator is on watch duty but is engaged over an extended period—

(i) In transmitting (provided such transmission does not adversely affect the operation of the auto-alarm) or receiving on a frequency authorized for use in the maritime mobile service (other than 500 kc), if it is not possible as prescribed by paragraph (c) of § 8.204 for the operator to maintain, at the same time, by any practicable means, the watch on 500 kc; or

(ii) In performing other radio duties considered essential by the master within the scope of his authority under section 358 of the Communications Act if it is not possible as prescribed by paragraph (c) of § 8.204 for the operator to maintain, at the same time, by any practicable means, the watch on 500 kc.

(b) The provisions of paragraph (a) (2) of this section shall not relieve the

[1] The international auto alarm signal intended for use primarily in radiotelegraphy consists of a series of twelve dashes sent in one minute, the duration of each dash being four seconds and the duration of the interval between two consecutive dashes being one second.

[1] The term "day" for the purposes of this subpart is defined in paragraph (l) of § 8.2.

[2] Any practicable means of maintaining this watch would include a loudspeaker or a head receiver energized, if necessary, by an additional radio receiver (other than the receiver actually in use for non-watch purposes) which is tuned to 500 kc.

[3] For example, a main antenna as defined in paragraph (a) of § 8.8.

ship of the requirement for maintaining a watch on the international distress frequency 500 kc during the international silent periods as prescribed in § 8.201.

§ 8.206 *Procedure in use of auto-alarm.* (a) Paragraphs (b) and (c) of this section shall apply to the use of an auto-alarm which is provided for the purpose of compliance with Part II of Title III of the Communications Act or the radio provisions of the Safety Convention on a ship compulsorily fitted with a radiotelegraph installation under that act or under the radio provisions of that Convention.

(b) While the ship is being navigated outside a harbor or port, the auto-alarm shall be tested at least once every 24 hours by means of the testing device supplied as part of the alarm, the timing of the dashes to be made by reference to the second hand of the ship station clock. A test also shall be made to determine that the auto-alarm mechanism is operated in a normal manner by signals from other stations which are received on the frequency 500 kc. A statement that the foregoing requirement has been fulfilled must be inserted in the radio station log daily.[4]

(c) The qualified operator, when going off watch, shall report to the officer on watch on the bridge whether or not the auto-alarm has been placed in use and adjusted for effective operation as prescribed in paragraph (a) (1) of § 8.205.

SUBPART I—GENERAL PURPOSE WATCHES

§ 8.221 *Watch on 500 kc.* Ship stations using frequencies in the authorized bands between 365 and 515 kc shall, during their hours of service, remain on watch on the calling frequency 500 kc except when the operator is transmitting on 500 kc, operating the ship station equipment on any other frequency authorized for transmission or reception in the maritime mobile service (including maintenance of the watch on 143 kc as provided by § 8.222) if it is not possible to maintain at the same time, by any practicable means,[5] the watch for calls on 500 kc. The provisions of this section, however, shall not relieve the ship from complying with the requirements for a safety watch as prescribed in §§ 8.201, 8.202 and 8.203.

§ 8.222 *Watch on 143 kc.* On condition that compliance with the following requirement shall in no way interrupt or reduce the efficiency of the safety watch prescribed in §§ 8.201, 8.202, and 8.203, each ship station equipped for communication by means of class A1 emission on frequencies within the band 100 to 160 kc shall, during its hours of service when not engaged in communication with another station of the maritime mobile service, keep watch for calls every hour on the frequency 143 kc for five minutes beginning at x h 35, Greenwich mean time (G. M. T.).

§ 8.223 *Watch on 2182 kc.* (a) Each ship telephone station on board a ship navigating the Great Lakes and licensed to transmit on one or more frequencies within the band 1600 to 4000 kc shall, during its hours of service, maintain an efficient watch for the reception of class A3 emission on the radio-channel of which 2182 kc is the assigned frequency, whenever the station is not being used for transmission on that channel or for communication on other radio-channels.

(b) Effective on and after January 1, 1954, except as provided in paragraph (c) of this section, each ship telephone station licensed to transmit on one or more frequencies within the band 1600 to 4000 kc shall, during its hours of service, maintain an efficient watch for the reception of class A3 emission on the radio-channel of which 2182 kc is the assigned frequency, whenever such station is not being used for transmission on that channel or for communication on other radio-channels. When the ship station is in Region 1 or 3, this watch shall, in so far as is possible, be maintained at least twice each hour for three minutes commencing at x h 00 and x h 30, Greenwich mean time (G. M. T.).

(c) With respect to ship stations on board vessels when within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 600 miles of Vancouver, British Columbia, the requirement of paragraph (b) of this section shall become effective only when specifically ordered by the Commission.

SUBPART J—PROCEDURE IN EVENT OF DISTRESS

§ 8.231 *Applicable regulations.* In addition to the governing provisions of the International Radio Regulations[1] applicable to the transmission and interception of distress signals and the handling of distress traffic and the special provisions of §§ 8.61 and 8.172 of this part, mobile stations which are subject to this part shall, in cases of distress, be governed by the following sections of this subpart.

§ 8.232 *Radio-channels for distress.* (a) In case of distress in the maritime service, the frequency to be used shall be the international distress frequency 500 kc[2] with maximum power obtainable; the class of emission to be used if possible shall be A2. Stations which cannot transmit on 500 kc[2] or use A2 emission shall, if possible use their normal calling frequency and normal class of emission with maximum power obtainable.

(b) Until such time as the frequency 2182 kc[2] is effectively guarded for the reception of distress calls[3] mobile stations in regions of the United States (other than the Great Lakes region) not capable of using 500 kc but equipped to use telephony on medium frequencies may, in case of distress only, communicate with stations of the United States Coast Guard on the frequency 2670 kc.[3] In the Great Lakes region, the frequency 2182 kc[2] should be used at any time for radiotelephone distress calls in lieu of the frequency 2670 kc.

§ 8.233 *Form of distress call.* (a) The distress call transmitted by radiotelegraphy comprises:

(1) The international distress signal (. . . — — — . . .) formed as a single signal in which the dashes must be emphasized so as to be distinguished clearly from the dots (this call in each instance is transmitted 3 times);

(2) The signal "de"; and

(3) The call sign of the mobile station in distress (transmitted 3 times in each instance).

(b) The distress call, when transmitted by radiotelephony comprises the word "MAYDAY" (pronounced as the French expression "m'aider") spoken three times, followed by identification of the mobile station in distress; the whole repeated three times in each instance.

§ 8.234 *Radiotelegraph alarm signal.* The distress call, when transmitted by radiotelegraphy on the frequency 500 kc, should, if possible, be preceded by the international alarm signal transmitted by means of class A2 emission on 500 kc. This alarm signal consists of a series of 12 dashes transmitted in one minute, the duration of each dash being 4 seconds and the duration of the interval between 2 consecutive dashes being one second. The distress signal (. . . — — — . . .) shall be transmitted 3 times immediately after the alarm signal, in order to operate such automatic apparatus as may be designed to be actuated by the normal distress signal on 500 kc. When circumstances permit, an interval of 2 minutes shall be observed after transmission of the alarm signal and distress signal, before transmitting the distress message on 500 kc, to allow time for operators warned by these signals to go on watch.

§ 8.235 *Distress message.* (a) The distress call, must be followed, as soon as possible, by the distress message which comprises:

(1) The distress call;

(2) The name of the mobile station in distress;

(3) The particulars of its position;

(4) The nature of the distress;

(5) The kind of assistance desired; and

(6) Any other information which might facilitate rescue.

(b) When telegraphy is used, the distress message shall be transmitted by means of the International Morse code at a speed not exceeding 16 words per minute nor less than 8 words per minute.

(c) Where no reply to the distress signals or distress message has been received, these signals or this message shall be repeated at intervals (in radiotelegraphy especially during the 500 kc international silent periods), until a reply is received.

[4] See subparagraph (5) of paragraph (b) of § 8.330.

[5] Any practicable means of maintaining this watch would include a loudspeaker or head receiver energized, if necessary, by an additional radio receiver (other than the receiver actually in use for non-watch purposes) which is tuned to 500 kc.

[1] See Article 37 of the International Radio Regulations, Atlantic City, 1947.

[2] This frequency corresponds to the carrier frequency or (when a carrier is not present) the frequency in the center of the emission-bandwidth.

[3] See §§ 8.106, 8.223, and 8.352.

§ 8.236 *Transmission for radiolocation.* After the transmission of its distress message, a mobile station shall when possible transmit a signal in the form of 2 telegraphic dashes of approximately 10 seconds duration each, followed by its call sign, to permit radio direction-finding stations (or other stations equipped for radiolocation) to determine its position. This transmission may be repeated by the mobile station, subject to the provisions of § 8.240, whenever it is requested to do so by other stations endeavoring to determine its position.

§ 8.237 *Acknowledgment of distress message.* Any station in the maritime service which receives a distress message relative to a vessel, aircraft, or other unit which is, beyond any possible doubt, in the vicinity of that station, shall, when it has appropriate transmitting apparatus available, immediately acknowledge receipt. If it appears that the vessel, aircraft, or other unit in distress is not in its vicinity, a short interval of time shall elapse before the station acknowledges receipt of the distress message, in order to permit stations that may be nearer to the location of the distress to reply and acknowledge receipt without interference. All stations in the maritime service which hear a distress signal or message must cease immediately any transmission capable of interfering with the distress signal or message and shall listen on the frequency used for the distress signal and message.

§ 8.238 *Form of acknowledgment by telegraphy.* (a) The acknowledgment of receipt of a distress signal or message is transmitted, when telegraphy is used, in the following form:

(1) Call sign of the mobile station in distress (transmitted 3 times);

(2) The signal "de";

(3) Call sign of the station acknowledging receipt (transmitted 3 times);

(4) The signal "RRR"; and

(5) The distress signal.

§ 8.239 *Information from acknowledging stations.* (a) Every mobile station which acknowledges receipt of a distress signal or message must, on the order of the master or person responsible for the ship, aircraft or other vehicle carrying the mobile station, transmit in message form, as soon as possible, the following information in the order shown:

(1) Its name;

(2) Its position;

(3) The course and speed at which it is proceeding toward the vessel, aircraft, or other unit in distress; and

(4) Estimated time of arrival at the scene of distress.

(b) Before transmitting this message, the station must insure that it will not interfere with the transmissions of other stations which are better situated to render immediate assistance to the vessel, aircraft, or other unit in distress.

§ 8.240 *Control of distress traffic.* (a) The control of distress traffic is the responsibility of the mobile station in distress, or the station which has transmitted the distress call. These stations may, however, delegate the control of the distress traffic to another station.

(b) When any station has assumed control of distress traffic, it shall be responsible for maintaining silence on the distress frequency, or the frequency being used for distress traffic, for all emissions except distress signals and distress traffic, and for clearing the distress frequency when the distress traffic has ceased.

(c) The station in distress or the station in control of the distress traffic may impose silence either on all stations of the mobile service in the area or on any station which interferes with the distress traffic. In telegraphy, the service abbreviation "QRT" followed by the distress signal (. . . — — — . . .) is used to impose silence for this purpose.

(d) Any station engaging in radiocommunication with the mobile station in distress or with the station in control of the distress traffic may impose silence on any station which interferes with distress traffic. In telegraphy, this is indicated by using the signal "AS" (.— . . .) followed by the word "distress" and the call sign of the station imposing silence.

(e) The use of the radiotelegraph service abbreviation "QRT" followed by the distress signal (. . . — — — . . .) must be reserved, as far as possible, for the mobile station in distress and for the station controlling distress traffic.

(f) Any station which has been notified to cease transmission in connection with a situation of distress shall not resume transmission on any frequency which may cause interference to distress signals or traffic until notified by the station in control of the distress traffic that the distress traffic has ceased and transmission may be resumed, or until notified by the station issuing the original notice that transmission from the station in question will not interfere with the distress signals or traffic.

§ 8.241 *Supplementary transmissions.* (a) A mobile station located in the general vicinity of the vessel, aircraft, or other unit in distress shall, if possible and when deemed appropriate, upon authorization of the master or person responsible for the station, transmit the radiotelegraph alarm signal on the frequency 500 kc using the maximum available power and class A2 emission, when—

(1) A distress call has been transmitted and was not preceded by the alarm signal; or

(2) Upon audible reception of an alarm signal which appears to be ineffective by reason of improper timing, improper class of emission, insufficient signal strength, interference, or excessive deviation from the frequency 500 kc.

(b) When a mobile station has heard a distress call or distress message for which acknowledgment of receipt has not been given promptly, and when the intercepting station itself is not in a position to render assistance, it shall, subject to the authority of the master, make every effort possible to attract the attention of any station in the maritime service which appears to be in a position to render assistance. For this purpose, transmission of the distress call and distress message may be repeated, if possible on the frequency 500 kc using the maximum available power and if possible class A2 emission, and/or on such other frequency and with such other class of emission as may be deemed necessary or helpful. At the same time all necessary steps shall be taken to notify the authorities who may be able to intervene usefully.

(c) A mobile station which repeats a distress call or distress message shall follow it by the words "transmitted for (insert identity of mobile craft in distress) by", and thereafter its own call sign transmitted 3 times. In radiotelegraphy, the repetition of the distress call or distress message on 500 kc shall, when circumstances permit, be preceded by transmission of the 500 kc international alarm signal followed by an interval of 2 minutes.

SUBPART K—FOREIGN SHIP STATIONS IN UNITED STATES WATERS

§ 8.261 *Inspection of station.* (a) Pursuant to section 303 (n) of the Communications Act, and subject to the provisions of Article 23 of the International Radio Regulations, Atlantic City, 1947, and Articles 53, 54 and 55 of the Safety Convention, London, 1929, the radio installation on board any foreign ship within the territorial jurisdiction of the United States, which installation is subject to the provisions of any act, treaty, or convention binding on the United States, shall be available, at any reasonable time in any harbor, port, or place in the United States, for inspection by duly authorized representatives of the Commission at such frequent intervals as within the discretion of the Commission will insure compliance with applicable rules, regulations, laws, and treaties.

§ 8.262 *Installation for safety purposes.* (a) The provisions of Part II of Title III of the Communications Act, in so far as such provisions require certain radio apparatus in operating condition and one or more qualified[1] operators on board a ship which leaves or attempts to leave any harbor or port of the United States for a voyage in the open sea, apply to a ship of any foreign country except—

(1) A cargo ship of less than 1,600 gross tons;

(2) A ship of war;

(3) A ship belonging to a country which is a party to the Safety Convention and which ship carries a valid certificate exempting said ship from the radio provisions of that Convention, or which ship conforms to the radio requirements of such Convention or Regulations and has on board a valid certificate to that effect;

(4) A yacht of less than 600 gross tons not subject to the radio provisions of the Safety Convention;

(5) A vessel in tow; and

(6) A vessel leaving or attempting to leave any harbor or port of the United

[1] For this purpose, a qualified operator is defined by the Communications Act to be "a person holding a certificate as such complying with the provisions of the General Radio Regulations annexed to the International Telecommunications Convention in force, or complying with an agreement or treaty between the United States and the country to which the ship belongs."

States for a voyage solely on the Great Lakes, or on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States or navigating solely on any of these waters.

§ 8.263 *Limitations on transmission.* (a) Sections 301 and 318 of the Communications Act, relative to station licenses and operator licenses, respectively, are not applicable to any person sending radiocommunications or signals on a foreign ship while the same is within the jurisdiction of the United States; however, such communications or signals shall be transmitted only in accordance with applicable rules of the Commission intended to prevent interference including, among others, the following subparagraphs:

(1) The frequency or frequencies and the class or classes of emission used shall be available for the operation being conducted pursuant to the allocation of frequencies to radio services and the use of classes of emission established by the International Radio Regulations and pursuant to the terms of all other applicable international treaties and agreements to which the United States is a party;

(2) The operation of the radio apparatus shall not cause interference with the normal communications of other radio services, and only the minimum power necessary for effective communication shall be used;

(3) The station shall comply with the applicable provisions of the International Radio Regulations and other applicable international treaties and agreements to which the United States is a party.

(4) The operation of transmitting apparatus employing Class B emission is prohibited in any harbor or port of the United States except for emergency communication or for necessary tests of brief duration.

(b) Any transmission by a station on board a foreign man-of-war shall, in addition to the provisions of paragraph (a) of this section, be governed also by the following provisions:

(1) Transmission by radio from any foreign man-of-war while the same is within the territorial waters of the United States is prohibited unless authorized by appropriate United States authorities and carried on in conformity with the provisions of paragraph (a) of this section. Normally, a request from a foreign man-of-war to use its radio transmitting apparatus while in United States ports and territorial waters shall be made to one of the United States naval district commandants[1] or, after arrival in port, to the senior United States Navy Officer present. When a Navy Officer is not present, request shall be made to the port authorities, or to the United States Navy at Washington, D. C.

[1] The headquarters of District Commandants concerned are located at Boston, New York, Philadelphia, Norfolk; Charleston, South Carolina; San Diego, San Francisco, Seattle; Pearl Harbor, Territory of Hawaii; and Balboa, Canal Zone. In addition to having senior naval officers stationed at these places, the Navy has officers performing various duties at practically all other important United States ports.

SUBPART L—MESSAGE CHARGES

§ 8.271 *Distress messages.* No charge shall be made by any ship or station in the mobile service of the United States for the transmission of distress messages and replies thereto in connection with situations involving the safety of life and property at sea.

§ 8.272 *Danger messages.* No charge shall be made by any ship station or other station in the maritime mobile service of the United States for the transmission, receipt, or relay of the information concerning dangers to navigation designated in § 8.303 (b), originating on a ship of the United States or of a foreign country.

§ 8.273 *Tariff filing required.* No charge shall be made for the service of any station on board ship subject to this part unless effective tariffs applicable to such service are on file with the Commission, pursuant to the requirements of section 203 of the Communications Act and Part 61 of the Commission's rules and regulations.

§ 8.274 *Responsibility for payment.* (a) Each ship station shall be responsible for the payment of all charges accruing to any other station(s) or facilities for the handling or forwarding of messages or communications transmitted by that station.

(b) The transmission by any ship station of information concerning dangers to navigation, made in compliance with the provisions of § 8.303 (b), to any station which imposes a charge for the reception, relay, or forwarding of the required information, shall be free of cost to the ship concerned and any communication charges incurred by the ship for transmission, relay, or forwarding of the information may be certified to the Commission for reimbursement out of moneys appropriated to the Commission for that purpose.

§ 8.275 *Ship position reports.* Any common carrier subject to the Communications Act may furnish reports of positions of ships at seat to newspapers of general circulation, either at a nominal charge or without charge, provided the name of such common carrier is displayed along with such ship position reports.

§ 8.276 *Free safety service.* Notwithstanding any other provision of law, any ship station may render free service in connection with situations involving the safety of life and property, including hydrographic reports, weather reports, reports regarding aids to navigation and medical assistance to injured or sick persons on ships and aircraft at sea: *Provided,* That the Commission, from time to time under particular circumstances, may impose specific limitations on such free service to the extent it finds desirable in the public interest.

§ 8.277 *Free service for national defense.* Any common carrier subject to the Communications Act may render to any agency of the United States Government free service in connection with the preparation for the national defense. Every such carrier rendering any such free service shall make and file in duplicate, with the Commission, on or before the 31st day of July and on or before the 31st day of January in each year, reports covering the periods of 6 months ending on the 30th day of June and the 31st day of December, respectively, next prior to said dates. These reports shall show the names of the agencies to which free service was rendered pursuant to this paragraph, the general character of the communications handled for each agency, and the charges in dollars which would have accrued to the carrier for such service rendered to each agency if charges for all such communications had been collected at the published tariff rates.

SUBPART M—NATURE OF SERVICE PROVIDED BY SHIP STATIONS AND SHIPBOARD MARINE-UTILITY STATIONS

§ 8.301 *Supplemental eligibility requirements.* Subject to the basic eligibility requirements set forth in § 8.23, authorizations for limited ship stations, marine utility stations, or public ship stations may be granted to any person, or state or local government subdivision, or any agency of the Federal government which is subject to the provisions of section 301 of the Communications Act: *Provided:* That when the availability of the frequency assignment requested, or any part thereof, is specifically dependent upon the activity and/or the routes of voyage of the vessel, the application shall clearly show eligibility of the vessel for such station authorization under the provisions of this part which govern the assignment of frequencies: *And provided further,* That:

(a) An applicant for an authorization to operate a public ship station must request a frequency assignment on which the transmission of public correspondence is not excluded by any of the provisions of this part (although additionally he may request any other frequency assignment).

(b) An applicant for an authorization to operate a limited ship station or a marine utility station must request a frequency assignment on which the transmission of public correspondence is excluded.

§ 8.302 *Points of communication.* Subject to the conditions and limitations imposed by the terms of the particular station license or by applicable provisions of this part with respect to the use of particular radio channels, limited ship stations, marine-utility stations on board ships, and public ship stations are authorized to communicate with any station in the maritime mobile service including such other classes of stations as may be appropriately authorized in accordance with the provisions of this part for such communication: *Provided, however,* That for purposes of public correspondence between ship and shore, public ship stations are authorized to communicate only with public coast stations.

§ 8.303 *Service requirements for all ship stations.* (a) Unless prohibited by the terms of the station license or by other sections of this part relative to the limited use of a specifically designated frequency, each ship station shall:

(1) Within the scope of its normal operations and without discrimination, acknowledge all calls directed to it, and receive from stations operating in the maritime mobile service, all messages and communications which are addressed to the ship or to any person or persons on board and which are for termination on such ship.

(2) At the request of any station operating in the maritime mobile service, a ship station may, within the scope of its normal operation accept messages or communications as requested for retransmission to any other station in the maritime mobile service. Whenever such messages or communications have been received and acknowledged by a ship station for this purpose, it shall be incumbent upon that station to retransmit the message as directed, with the least delay possible.

(b) The master of every ship, equipped with licensed radio transmitting apparatus capable of providing communication with other ships or with a coast station, on meeting with a direct danger to the navigation of other ships such as dangerous ice, a dangerous derelict, a tropical storm, or any other direct danger to navigation, shall cause to be transmitted, insofar as is possible, all pertinent information relating thereto, to ships in the vicinity and to the appropriate authorities provided that such procedure, in the discretion of the master, will not be a repetition of action already taken for this purpose by another station.

§ 8.304 *Service requirements for public ship stations.* In addition to such messages as are necessary for compliance with § 8.303, and except as may be otherwise limited by the terms of this part governing the use of particular frequencies or by the terms of the station license, a public ship station within the scope of its normal service, without discrimination and upon reasonable demand, shall provide a service of public correspondence for any person who, while on board in any status or capacity, requests the service covering any subject matter that legally may be transmitted by radio: *Provided, however,* That, unless specifically authorized by the Commission in individual cases in advance, this service shall not be authorized to be provided when the ship carrying the station is out of service as a ship.

§ 8.305 *Service of limited ship stations and marine utility stations.* In addition to such messages as are necessary for compliance with § 8.303 and except as may be otherwise limited by the terms of this part governing the use of particular frequencies or by the terms of the station license, a limited ship station or a marine utility station is authorized to transmit within the scope of its normal operations messages necessary for the safe, expeditious or economical operation of ships or (when necessary) for the safety of aircraft.

SUBPART N—USE OF RADIOTELEGRAPHY

§ 8.321 *Assignable frequencies.* (a) Each of the specific frequencies in kilocycles hereinafter designated in this paragraph may be authorized as an assigned frequency for use by ship stations (public or limited) employing telegraphy by means of amplitude modulation in accordance with the provisions of paragraph (b) of this section and Subpart E of this part.

143	[1] 2,274	calling	16,520
calling	[1] 3,030	8,300	16,530
152	4,140	8,320	16,560
153	calling	8,330	calling
154	4,150	11,020	16,575
155	[1] 4,160	11,025	16,590
156	[1] 4,165	11,030	16,600
157	5,510	11,040	16,605
158	5,512.5	calling	16,640
160	5,515	11,050	16,660
[1] 355	5,520	11,055	22,025
[1] 375	calling	11,060	22,040
[1] 394	5,525	11,070	22,050
[1] 400	5,527.5	12,360	22,060
[1] 410	5,530	12,375	22,075
425	5,535	12,390	22,080
[1] 444	[1] 6,210	12,420	calling
454	calling	calling	22,100
468	6,220	12,440	22,110
[1] 480	6,230	12,450	22,120
500	8,240	12,460	22,125
calling	8,250	12,480	22,140
and	8,260	16,480	
distress	8,280	16,500	

Except as may be otherwise specified herein or in the particular station license, the radio channels of which the above frequencies are the assigned frequencies may be employed for communication with ship stations or coast stations: *Provided, however,* That if the assigned frequency is above 5000 kc, the radio channel thereof is authorized primarily for communication with coast stations.

(b) (1) The frequencies 355 kc and 444 kc are assignable exclusively for communication with United States Government stations; their use for any other communication (except distress) is not authorized. The radio-channel of which 444 kc is the assigned frequency shall, whenever practicable, be used for this purpose: *Provided,* That harmful interference shall not be caused to the service of any coast station. Effective when ordered by the Commission relative to implementation of certain international agreements, use by ship stations of the radio-channel of which 355 kc is the assigned frequency shall be discontinued.

(2) In addition to the transmission of specific signals for purposes of radiolocation, the radio-channel of which 375 kc is the assigned frequency may be used for communication by radiotelegraphy with direction-finding stations in connection with established international operating procedure, relative to radiolocation by means of direction-finding. Effective when ordered by the Commission relative to implementation of certain international agreements, the frequency 410 kc shall be assignable for this purpose in Region 2 in lieu of 375 kc: *Provided,* That in Regions 1 and 3, ship stations may transmit, for purposes of direction-finding, on the radio-channel of which 410 kc (in lieu of 375 kc) is the assigned frequency, if directed to do so by a coast station or direction-finding station located in either of those Regions.

(3) Any radio-channel, of which 394, 400, 410, 4165, or 6210 kc is the assigned frequency, shall not be used on the Great Lakes or on the inland waters of the United States.

(4) The radio-channel of which 480 kc is the assigned frequency is authorized for use only in European coastal regions in accordance with paragraph (b) of § 8.324.

(5) The frequency 2274 kc is assignable for use only on the Great Lakes or on inland waters of the continental United States, on condition that interference is not caused to the service of any station of Canada.

(6) The frequency 3030 kc is assignable for use only on the Mississippi River and tributaries thereof, on condition that interference is not caused to the service of any station of Canada.

§ 8.322 *Frequencies for use in distress.* (a) The international distress frequency is 500 kc; it is used as an assigned frequency for this purpose by ship or aircraft stations, using frequencies in the band 365 to 515 kc, when requesting assistance from the maritime services. It is used, preferably with class A2 emission, for the distress call and distress traffic.

(b) The frequency 8280 kc is designated as the assigned frequency for the use of survival craft equipped to transmit on frequencies within the band 4,000 kc to 23,000 kc and desiring to establish, with stations of the maritime mobile service, communications relating to search and rescue. Effective when ordered by the Commission, this frequency will be replaced by the frequency 8364 kc.

§ 8.323 *Frequencies for calling.* (a) The general international calling frequency is 500 kc; the radio-channel of which this frequency is the assigned frequency shall be used by any ship station engaged in radiotelegraphy in the authorized bands between 365 and 515 kc, and by aircraft desiring to enter into communication with a station of the maritime mobile service using frequencies in this band. The radio-channel for replying to a call sent on the general calling channel (500 kc assigned frequency) is the same channel as that used for the call. In Region 2, and in other areas of heavy radiotelegraph traffic in this band, ship stations shall request coast stations to answer by means of their normal working channel. In order to facilitate the reception of distress calls, all stations using the radio-channel of which 500 kc is the assigned frequency shall reduce to the minimum their transmissions on this channel.

(b) The frequency 143 kc is the international calling frequency in the maritime mobile service in the band 100 to 160 kc (class A1 emission only). The frequency for replying to a call sent on the frequency 143 kc is, for ship stations, 143 kc, the same as that of the call.[2]

[1] Subject to the special conditions and limitations set forth in paragraph (b) of this section.

[2] Coast Stations reply on their normal working frequency in this band.

When a ship station which uses frequencies within the band 100 to 160 kc desires to establish communication with another station of the maritime mobile service, it shall call that station on the frequency 143 kc, unless the International List of Coast and Ship Stations provides otherwise. This frequency shall be used exclusively for individual calls and replies to such calls and for the transmission of signals preparatory to traffic.

(c) The radio-channels of which the frequencies between 4,000 kc and 23,000 kc, designated for "calling" in paragraph (a) of § 8.321, are the assigned frequencies shall be used primarily for calling and answering; with the exception of 8280 kc they may be used otherwise on a secondary basis only as provided by paragraph (e) of § 8.324.

(d) In addition to the radio-channels of which the assigned frequencies are specifically authorized herein for "calling", all radio-channels within the band 4,000 kc to 23,000 kc similarly authorized for working may be used for calling also: *Provided*, Interference is not caused to any communication in progress on the particular working channel.

§ 8.324 *Frequencies for working.* (a) Each assigned frequency listed in paragraph (a) of § 8.321, and which is not identified therein with a specific use or function, is authorized as an assigned frequency for "working."

(b) Ship telegraph stations working on frequencies within the band 390 to 485 kc shall use, whenever practicable, an authorized working channel of which 425, or 468 kc is the assigned frequency: *Provided*, That in the European coastal regions where message traffic is congested, ship stations when using class A–2 emission in this band shall use, if practicable, an authorized working channel of which either 425 kc or 480 kc is the assigned frequency.

(c) The calling channel of which 500 kc is the assigned frequency may be used for the transmission of distress, urgency, and safety messages; except for the applicable provisions of §§ 8.402 and 8.403 relative to radiolocation, any other use of this channel for working is prohibited.

(d) In so far as is practicable, ship stations shall use frequency-assignments within the high frequency band (3,000 to 23,000 kc) only when other frequency-assignments will not provide effective communication.

(e) In addition to the radio-channels of which the assigned frequencies are designated by paragraph (a) of this section for "working", the radio-channels within the band 4,000 kc to 23,000 kc (except 8,280 kc) of which the assigned frequencies are designated in paragraph (a) of § 8.321 for "calling" may be used, additionally and with discretion, for working; on condition that interference shall not result to calling, answering, and the exchange of operating signals on the same channel.

(f) In addition to the frequency-assignment designated for telegraphy in the license of a ship station, such station, when working by telegraphy with a coast station, may, on condition that its emission-bandwidth and frequency-tolerance shall be within the respective limits thereof permitted for the coast station, transmit—

(1) On a telegraph working channel of a coast station within the band 110 to 194 kilocycles when directed to do so by the coast station for which the channel is authorized: *Provided*, Interference is not caused to the service of any land, fixed, broadcast, or radiolocation station: *And provided*, That the emission shall be class A1 only.

(2) On a telegraph working channel of a coast station within the bands 385 to 485 kc and 4,000 kc to 23,000 kc when directed to do so by the coast station for which the channel is authorized.

(g) In addition to the frequency-assignment designated for telegraphy in the license of a ship station, such station when working by telegraphy with a mobile or coast station of the United States Government may, on condition that its emission-bandwidth and frequency tolerance shall be within the respective limits thereof permitted for the Government station, transmit on a United States Government radio-channel when authorized or directed to do so by the Government station responsible, or by the Government department for which the radio-channel is authorized. The ship station assigned frequency, the class of emission, and the class of traffic on this frequency shall be designated by the Government station: *Provided*, That on frequencies below 160 kilocycles the emission shall be A1 only.

§ 8.325 *Use of Morse code required.* The signal code employed for telegraphy by stations in the maritime mobile service shall be the Morse code signals specified in the Telegraph Regulations annexed to the International Telecommunication Convention (Atlantic City, 1947). However, for radiotelegraph communication of a special character, the use of other signals may be specifically authorized by the Commission in response to an appropriate application therefor.

§ 8.326 *Identification of stations.* (a) All radiotelegraph emissions of a ship station shall be clearly identified by transmission therefrom of the official call letters assigned to that station for telegraphy by the Commission. These call letters shall be transmitted by telegraphy in accordance with § 8.325 and the procedure set forth in the International Radio Regulations and by means of the class of emission normally used by the station for telegraphy: *Provided*, They shall be transmitted always upon completion of any transmission when the station resumes its watch or suspends transmission for an indefinite time; in addition they shall be transmitted at intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes.

§ 8.327 *Procedure in testing.* (a) Ship stations must use every precaution to insure that, when conducting operational transmitter tests, the emissions of the station will not cause harmful interference. Radiation must be reduced to the lowest practicable value and if feasible shall be entirely suppressed. When radiation is necessary or unavoidable, the radiotelegraph testing procedure described below shall be followed.

(1) The licensed radiotelegraph operator responsible for operation of the transmitting apparatus shall ascertain by careful listening that the test emissions will not be likely to interfere with transmissions in progress;

(2) The operator shall transmit the the signal "IE" (two dots, space, one dot) on the test frequency as a warning that test emissions are about to be made on that frequency. When the frequency or frequencies of the test emissions is/are within the frequency band 365–515 kc, a listening watch shall be maintained on 500 kc by a licensed radiotelegraph operator at the station throughout the test period.

(3) If, as a result of transmitting the test signal "IE", any station indicates, by transmitting the signal "AS" (wait), that it anticipates harmful interference, testing shall be suspended. When transmission of "IE" is resumed and no response is observed, and careful listening indicates that harmful interference should not be caused, the operator shall proceed as set forth in (4);

(4) Test signals composed of a series of "VVV" followed by the call sign of the testing station shall be transmitted. The call sign shall be sent clearly and at relatively slow speed.

(b) When testing is conducted on the frequency 500 kc, the test signals shall not continue for more than 10 seconds, and no tests shall be conducted during the 500 kc silent periods. Care must be exercised not to so prolong and space the dash portion of the "VVV" series as to form the alarm signal.

§ 8.328 *Radiotelegraph operating procedure.* (a) Except for the transmission of distress or urgency signals, all transmissions from stations on board ship must cease within the band 480 to 520 kc during each 500 kilocycles silent period, i. e., for three minutes twice an hour beginning at x h 15 and x h 45, Greenwich mean time (G. M. T.).

(b) In order to facilitate radiotelegraph communication in the maritime mobile service, all ship stations transmitting by means of telegraphy shall, whenever practicable, use the service abbreviations ("Q" signals) listed in Appendix 9 of the International Radio Regulations (Atlantic City, 1947).

(c) In addition to compliance with all applicable sections of this part, the operation of ship stations using telegraphy for call, reply, and the transmission of message traffic shall, in particular, comply with all applicable provisions of Articles 29 (except subparagraph (2) of paragraph 8 thereof), 30, 31, 32, 38, 39, and 40 of the International Radio Regulations (Atlantic City, 1947).

§ 8.329 *Station documents.* (a) All ship stations on board ships compulsorily fitted with a radiotelegraph installation shall be provided with the following documents:

(1) A valid station license.

(2) The necessary operator license or licenses.

(3) The station log required by this part for stations of this category.

(4) The Alphabetical List of Call Signs prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(5) The List of Coast Stations and Ship Stations prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(6) The List of Stations performing Special Services prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(7) The General Radiocommunication Regulations (Revision of Cairo, 1938), and such provisions of the International Telecommunication Convention (Madrid, 1932) as are necessary for the operation of the radiocommunication service on board ship.

(8) Such provisions of the International Radio Regulations (Atlantic City, 1947), including Articles 23, 24, 25, 26, 29, 30, 31, 32, 35, 37, 38, 39, 40, 41, 44, and 45, as are necessary for the operation of the radiocommunication and radiolocation service on board ship.

(9) Telegraph tariffs of the countries for which the station most frequently accepts radiotelegrams.

(10) Part 8 of the rules of the Commission.

(b) All ship stations on board ships not compulsorily fitted with a radiotelegraph installation, but using telegraphy, shall be provided with the documents prescribed by subparagraphs (1), (2), (3), (4), (5), and (10) of paragraph (a) of this section.

(c) These documents shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

§ 8.330 *Station records.* (a) Each ship station authorized to use telegraphy on frequencies within the band 100 to 515 kc shall maintain an accurate radiotelegraph log as follows:

(1) Each sheet of the log shall be numbered in sequence, for each voyage, and shall include the name of the vessel, official call letters of the ship station and the name of the operator on watch.

(2) The entry "on watch" shall be made by the operator beginning a watch, followed by his signature. The entry "off watch" shall be made by the operator being relieved or terminating a watch, followed by his signature. All log entries shall be currently completed at the end of each watch by the operator responsible for the entries. The use of initials or signs is not authorized in lieu of the operator's signature.

(3) During the period a watch is maintained by an operator, all calls transmitted to or from the ship station and all replies transmitted or received shall be entered, stating the time and frequencies, and the call letters of the station communicated with or heard. (If desired, the names of the stations or ships also may be entered.) In addition, a notation of any messages exchanged shall be entered stating the time, the frequency in kilocycles, and the call letters of the station(s) heard, or communicated with. (If desired, the names of the stations or ships also may be entered.) In so far as possible, a positive entry with respect to reception on 500 kilocycles shall be made at least once in each 15 minutes. The entries required by paragraph (e) of this section shall be acceptable as positive entries provided operating conditions are such as to prevent additional entries being made.

(4) The date and time of making an entry shall be shown opposite the entry and the time shall be expressed in Greenwich mean time (GMT), except that in the Great Lakes region the time shall be expressed in eastern standard time (e. s. t.) (counted from 00:00 to 24:00 o'clock, beginning at midnight).[3] The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "GMT" (e. s. t. in the Great Lakes region) shall be marked at the head of the column in which the time is entered.

(5) During the period a watch is maintained by an operator, an entry shall be made twice per hour stating whether or not the international silent period was observed. In addition, entries shall be made indicating any signals or communications heard on 500 kilocycles during this period. If no signals are heard on 500 kilocycles, an entry to that effect shall be made. The use of rubber stamps for making entries to show observation of the silent period is not authorized.

(6) All distress calls, automatic alarm signals, urgent and safety signals made or intercepted, the complete text, if possible, of distress messages and distress communications, and any incidents or occurrences which may appear to be of importance to safety of life or property at sea, shall be entered, together with the time of such observation or occurrence, and the position of the ship or other mobile unit in need of assistance, if it can be determined.

(7) Whenever harmful interference is experienced, an entry shall be made to that effect, stating the source of the interference, if known.

(8) The approximate geographical location of the ship, preferably the noon position, shall be entered each day of each voyage, either in terms of latitude and longitude, or as the distance in nautical miles and the direction from a known fixed point. For this purpose, the master of the ship shall furnish this information to the radio operator. The position report so furnished shall correspond to any entry of the same position made in other official records of the ship.

(9) An entry shall be made of the time of departure and arrival of the vessel at each port, including in each entry the name of the port.

(10) A daily entry shall be made regarding comparison of the radio station clock with standard time, including an indication of any errors observed and corrections made. For this purpose, authentic radio time signals received from land or fixed stations shall be acceptable as standard time.

[3] For example, 8:01 p. m. eastern standard time should be entered as 0101 GMT; 8:30 a. m. eastern standard time should be entered as 1330 GMT; 7:45 p. m. eastern standard time should be entered as 0045 GMT.

(11) All test transmissions shall be entered, together with the time of such transmissions and the approximate geographical location of the vessel, without regard to whether two-way communication with any other station is established.

(12) Any failure of equipment to operate as required, any failure of power supply, any inability to obtain sufficient power to charge storage batteries or to properly operate the radio installation and any incidents tending to unduly delay communications shall be entered.

(b) In addition to the radio log requirements stipulated in paragraph (a) of this section, the radio log of each ship station authorized to use telegraphy on frequencies within the band 100 to 515 kc, shall, when the ship is required by law and regulations to keep a radiotelegraph watch on 500 kc for safety purposes by means of a qualified operator, comply also with the following provisions:

(1) Entries shall be made of the results of tests of the emergency installation including transmitter antenna current, hydrometer readings of lead-acid storage batteries, voltage readings of other types of batteries, and quantity of fuel available for engine generators.

(2) An entry shall be made each time the emergency power supply is used (when the vessel is in the open sea) to carry on communication (other than a watch for safety purposes), stating the approximate period of time of such use.

(3) Results of inspections and tests of lifeboat radio equipment, when installed in compliance with requirements of law, prior to departure of the vessel from a harbor or port and the results of weekly inspections of such lifeboat equipment shall be entered.

(4) On a cargo vessel equipped with an auto-alarm, the entry "auto-alarm on", "sensitivity set at (The actual setting of the sensitivity control at the time the auto-alarm is placed in operation should be designated)", and the entry "auto-alarm off", respectively, shall be made whenever the operator places the auto-alarm in and out of operation. Results of the required auto-alarm tests shall be entered daily, including the sensitivity-control setting and the minimum number of 4-second dashes from the testing device which were necessary to properly operate the alarm.

(5) On a cargo vessel equipped with an auto-alarm, an entry shall be made in the radio station log whenever the visual indicator installed on the bridge (to indicate when the alarm becomes inoperative due to prolonged atmospherics or other interference), remains actuated for a continuous period of 5 minutes. A statement shall be included giving particulars as to the time the operator was called to make the necessary repairs or adjustments; any reason for the failure; the names of any parts removed, added, or substituted; repairs effected; and the time the alarm was restored to proper operating conditions.

(6) On a cargo vessel equipped with an auto-alarm, an entry shall be made in the radio station log whenever the auto-alarm becomes inoperative due to causes not indicated by the audible warning or the visual indicator, or

whenever the audible warning is actuated. The entry shall include a statement showing the time the operator was called to make any necessary repairs or adjustments; the reason for the audible alarm being actuated or failing to be actuated, any parts removed, added, or substituted; repairs effected; and the time the auto-alarm was restored to proper operating condition.

(c) Each ship station authorized to use telegraphy, on frequencies above 550 kc exclusively (except ship stations on the Great Lakes and on board vessels navigated solely on inland waters of the United States), shall maintain an accurate radiotelegraph log as prescribed in paragraph (a) of this section: *Provided*, That (3) and (5) of section (a) shall, in this case, not be applicable.

(d) Each ship station on the Great Lakes and on board a vessel navigated solely on inland waters of the United States which is authorized to use telegraphy, on frequencies above 550 kilocycles exclusively, shall maintain an accurate radiotelegraph log as follows:

(1) Each sheet of the log shall be numbered in sequence and shall include the name of the vessel, official call letters of the ship station and the signature of the licensed operator in attendance at the time communication is effected.

(2) An entry shall be made for each complete exchange of communications with any station, stating the approximate geographical location of the vessel, the call letters or the name of the station communicated with, the time of the communication, the nature of the messages or signals exchanged, and designation of the transmitting frequencies.

(3) All test transmissions shall be entered, including designation of the transmitting frequency, together with the time of commencement and completion of such transmissions and the approximate geographical location of the vessel, without regard to whether two-way communication with any other station is established.

(4) All distress calls, urgent and safety signals made or intercepted; the complete text, if possible, of distress messages and distress communication; and any incidents or occurrences which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation of concurrence, designation of the frequency on which such transmissions were received, and the position of the ship or other mobile unit in need of assistance, if it can be determined.

(5) Any failure of equipment to operate as required, any failure of power supply, any inability to obtain power to charge storage batteries or to properly operate the radio installation and any incidents tending to unduly delay communication shall be entered.

(6) The date and time of making an entry shall be shown opposite the entry and the time shall be expressed as follows:

For vessels navigated on the Great Lakes:

Eastern standard time (e. s. t.) (counted from 00:00 to 24:00 o'clock beginning at midnight.[4] The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "e. s. t." shall be marked at the head of the column in which the time is entered.

For vessels navigated on inland waters of the United States, other than the Great Lakes:

Local standard time (e. s. t., c. s. t., etc.) (counted from 00:00 to 24:00 o'clock, beginning at midnight).[4] The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "e. s. t." or "c. s. t.", etc., shall be marked at the head of the column in which the time is entered. However, this provision shall not prohibit the use of time entries expressed in GMT (and so indicated) in lieu of local standard time.

(e) In all ship stations authorized to transmit on frequencies with the band 365 to 515 kilocycles, a written record shall be maintained of the adjustments of the transmitting and receiving equipment for operation on the assigned frequencies 375 kc and 500 kc and at least one authorized working frequency within this band. This record shall be posted at all times in a conspicuous place on or near the particular equipment involved.

(f) The ship radiotelegraph log currently in use shall be kept by the licensed operator(s) of the station and while in use it shall be located in the main radiotelegraph operating room of the ship. At the conclusion of each voyage terminating at a port of the United States, the original station log or a duplicate thereof dating from the last departure of the ship from a United States port shall be retained under proper custody on board the ship for a sufficient period of time but not necessarily in excess of 24 hours, to be available for inspection by a duly authorized representative(s) of the Commission. Thereafter the original log, and the duplicate log, if provided, may be filed at an established shore office of the ship station licensee, and shall be retained as stipulated by § 8.115.

SUBPART O—USE OF RADIOTELEPHONY

§ 8.351 *Assignable frequencies.* (a) Each of the specific frequencies in kilocycles hereinafter designated in this paragraph may be licensed as an authorized carrier frequency for use by ship stations employing telephony by means of amplitude modulation subject to and in accordance with the provisions of paragraph (d) of this section, other applicable sections of this subpart, and Subpart E of this part:

2,003	2,214	6,660	13,245
2,110	2,638	6,670	13,260
2,118	2,738	8,810	13,275
2,126	2,782	8,820	17,600
2,134	4,162.5	8,830	17,610
2,142	4,402.5	8,840	17,620
2,158	4,412.5	8,650	17,640
2,166	4,422.5	11,090	17,660
2,174	4,457.5	13,200	17,680
2,182	6,240	13,210	23,000
2,198	6,455	13,220	
2,206	6,650	13,230	

[4] For example, 7:01 p. m. eastern standard time would be entered as 1901 e. s. t.; 7:30 a. m. eastern standard time would be entered as 0730 e. s. t.; 6:45 p. m. eastern standard time would be entered as 1845 e. s. t.

(b) Each of the specific frequencies in megacycles hereinafter designated in this paragraph may be licensed as an authorized carrier frequency for use by ship stations or marine-utility stations on board ship employing telephony by means of either amplitude modulation or frequency modulation subject to and in accordance with the provisions of other applicable sections of this subpart, and Subpart E of this part:

35.06 35.10 35.14 35.18 43.02

(c) Each of the specific frequencies in megacycles hereinafter designated in this paragraph may be licensed as an authorized carrier frequency for use by ship stations and/or marine-utility stations as respectively designated herein which employ telephony by means of frequency modulation in Region 2 or by means of either frequency modulation or amplitude modulation in Regions 1 and 3, subject to and in accordance with the provisions of other applicable sections of this subpart and Subpart E of this part:

(1) Available for ship stations and marine-utility stations;

156.3 156.5 156.8
156.4 156.6 157.0

(2) Available for ship stations only;

157.1 157.4

(d) Assignment of the specific carrier frequencies designated in paragraph (a) of this section and use of frequency-assignments of which those frequencies are the authorized carrier frequencies shall be subject to the express limitations and conditions hereinafter set forth in this paragraph:

(1) The frequency 2003 kc is authorized for use by ship stations on the Great Lakes only. Availability of this frequency for this use is temporary, in the sense that its assignment as prescribed in this subpart shall be subject to cancellation or modification by the Commission without the necessity of a hearing if in the discretion of the Commission such action is necessary or desirable in connection with implementation of the Table of Frequency Allocations set forth in Article 5 of the Radio Regulations, Atlantic City, 1947. The use of this frequency is shared with ship stations of other countries in the Great Lakes area for the purposes hereinafter prescribed in this subpart.

(2) The frequencies 2134, 2142, 2166, and 2206 kc are authorized for use upon the express condition that interference shall not be caused to the service of any station of Canada: *Provided*, That in the Great Lakes area, the frequency 2206 kc may be used for communication exclusively with coast stations in Canada.

(3) The frequencies 2118 kc and 2158 kc are authorized for use on a shared basis with stations of Canada: *Provided*, That in the Great Lakes area, the frequency 2158 kc shall be used for communication exclusively with coast stations in the United States.

(4) The frequency 2182 kc is the radiotelephone calling and distress frequency for the maritime mobile service of the United States. This frequency is authorized for use on a shared basis with stations of other countries and without

distinction as to location or area of use: *Provided, however*, That its use for purposes other than distress shall not cause interference to stations of the maritime mobile service within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 500 nautical miles of Vancouver, British Columbia, which, for a temporary period, continue in accordance with their respective station authorizations to use this frequency, or other frequencies within the band 2170 kc to 2194 kc, inclusive, for working.

(5) The frequency 2214 kc is authorized for use exclusively at locations at which interference is not caused to the service of any United States Government Station.

(6) Subsequent to the effective date of this subparagraph, the frequency 2638 kc is assignable exclusively to ship stations on board ocean-going vessels, and on board other vessels (without distinction as to their area of navigation) which are compulsorily fitted with a radiotelephone installation for purposes of safety. The use of this frequency is on a shared basis with ship stations of other countries, for the purpose hereinafter prescribed in this subpart.

(7) The frequency 2738 kc is not authorized for use on the Great Lakes. It is authorized for use in all other areas on a shared basis with ship stations of other countries, for the purpose hereinafter prescribed in this subpart.

(8) The frequency 2782 kc is authorized for use exclusively on the Mississippi River and connecting inland waters (except the Great Lakes); such use of this frequency is subject to coordination with stations operating in the fixed service at other locations in the United States, in order that interference shall be avoided or reduced to a minimum.

(9) The frequency 4162.5 kc is authorized for use exclusively on the Mississippi River and connecting inland waters (except the Great Lakes); such use of this frequency is authorized upon the express condition that interference shall not be caused to the service of any station which may have priority on the frequency or frequencies used for the service to which interference is caused.

(10) On the Great Lakes, the frequencies 4422.5, 6660, and 8820 kc are authorized upon the express condition that interference shall not be caused to the service of any station which may have priority on the frequency or frequencies used for the service to which interference is caused.

(11) The frequencies 6,240, 6,455 kc, and 11,090 kc are authorized for use exclusively on the Mississippi River and connecting inland waters (except the Great Lakes) upon the express condition that interference shall not be caused to the service of any station which may have priority on the frequency or frequencies used for the service to which interference is caused. In order to avoid such interference, transmission on these frequencies during the period from two hours after local sunset until two hours before local sunrise is prohibited.

(12) On the Mississippi River and connecting inland waters (except the Great Lakes), use of the frequency 8840 kc is authorized upon the express condition that interference shall not be caused to the service of any station which may have priority on the frequency or frequencies used for the service to which interference is caused. In order to avoid such interference, transmission on this frequency in this area during the period from two hours after local sunset until two hours before local sunrise is prohibited.

(13) Use of the frequencies 8810 kc and 8850 kc is subject to coordination with stations operating in the fixed service in order that interference shall be avoided or reduced to a minimum.

(e) Specific frequencies other than those listed in paragraphs (a), (b) and (c) of this section must be requested as set forth in § 8.30 and may not be assigned except in accordance with applicable international agreement and subsequent to appropriate rule making procedures.

§ 8.352 *Frequencies for use in distress.* (a) Subject to the provisions of paragraph (b) of this section, the radiotelephone distress frequency for the maritime mobile service of the United States is 2182 kc[1] it may be used as a carrier frequency for this purpose by ship or aircraft stations employing telephony in the band 1605 kc to 2850 kc when requesting assistance from the maritime services. It may be used, preferably with class A3 emission, for the distress call and distress traffic.

(b) Until such time as the frequency 2182 kc becomes guarded effectively for distress calls in United States areas other than the Great Lakes region,[2] ship stations using telephony in event of distress only may call stations of the United States Coast Guard on the Government frequency 2670 kc. Transmission on the Government frequency 2670 kc for any purpose other than distress is strictly forbidden. In the Great Lakes region, the distress frequency 2182 kc is to be used at all times for radiotelephone distress calls and traffic.

§ 8.353 *Frequencies for calling.* (a) The general radiotelephone calling frequency for the maritime mobile service of the United States is 2182 kc; it may be used as a carrier frequency for this purpose by ship stations and aircraft stations operating in the maritime mobile service subject to the following conditions and limitations:

(1) Aside from distress calls and distress traffic, this frequency may be used for urgency and safety signals and for urgency and safety messages (other than public correspondence);

(2) In addition, this frequency is authorized only for call and reply, and for signals preparatory to working on other frequencies;

(3) When using this frequency for other than distress calls and distress traffic, and urgency and safety signals and messages, the mean[3] antenna power of the unmodulated carrier wave shall not exceed 100 watts.

(4) The use of this frequency for other than distress calls and distress traffic, and urgency and safety signals and messages within 300 nautical miles of Charleston, South Carolina, Jacksonville, Fla., or Wilmington, California, or within 600 miles of Vancouver, British Columbia, shall not cause interference to stations of the maritime mobile service which, for a temporary period, continue in accordance with their current respective station authorizations to use this frequency, or other frequencies within the band 2170 kc to 2194 kc inclusive, for working.

(b) The radiotelephone frequency for call and reply for the maritime mobile service of the United States using frequencies within the band 156.25 mc to 162.05 mc is 156.8 mc. It may be used as a carrier frequency for this purpose by these stations for call and reply, and by ship stations additionally as prescribed in paragraph (c) of § 8.359.

(c) In addition to the radio-channels of which the carrier frequencies are specifically authorized herein for "calling", the radio-channels authorized in this subpart for "working" may be used for call and reply also: *Provided*, Interference is not caused to any communication in progress on the particular working channel.

§ 8.354 *Frequencies below 5000 kc for public correspondence.* (a) Carrier frequencies which are authorized for use by public ship stations employing telephony by means of amplitude modulation for the transmission of public correspondence exclusively are designated herewith; ship stations shall use the radio-channels of which these frequencies are the authorized carrier frequencies exclusively for working with public coast stations (normally providing direct connection with public service land-line telephone systems) located at, or in the vicinity of, the specific harbors, ports or places designated hereinafter opposite the respective ship transmitting frequency, and shall receive transmission from the particular coast stations on the associated receiving frequencies also designated herewith:

(1) Frequencies available for use when different radio-channels are used

[1] The frequency 2182 kc will be formally recognized as the international radiotelephone distress and calling frequency in Region 2 not later than the date on which Article 3 of the Inter-American Radio Agreement, Washington, 1949, becomes effective, and in Regions 1, 2, and 3 (world-wide) not later than the date on which the new International Frequency List becomes effective as provided by Article 47 of the International Radio Regulations, Atlantic City, 1947.

[2] In the Great Lakes region, the frequency 2182 kc has been in use as the general radiotelephone calling frequency for several years, and its use in time of distress in that area has proven effective.

[3] As prescribed by paragraph 2, Article 3, of the Inter-American Radio Agreement, Washington, 1949. Article 1, paragraph 63 of the International Radio Regulations, Atlantic City, 1947, states as follows: "Mean power of a radio transmitter: The power supplied to the antenna during normal operation, averaged over a time sufficiently long compared to the period corresponding to the lowest frequency encountered in actual modulation." (In general, a time of one-tenth second, during which the meanpower is a maximum, will be selected.)

alternately for transmission by the ship station and the coast station:

Ship station transmit ting carrier frequency [1]	Coast station(s) located in vicinity of—	Ship station receiving carrier frequency
2110 kc.	Boston, Mass. San Francisco, Calif. Eureka, Calif.	2506 kc.
2118 kc.	Miami, Fla. Great Lakes (U. S. and Canada).	2514 kc.
2126 kc.	Seattle, Wash. New York, N. Y.	2522 kc.
2134 kc.	Galveston, Tex. Hawaiian Islands.	2530 kc.
2142 kc.	San Juan, P. R. Norfolk, Va. Quantico, Va.[2]	2538 kc.
2158 kc.	Tampa, Fla.	2550 kc.
2166 kc.	Great Lakes (U. S. only). Wilmington, Del. New York, N. Y.[3]	2558 kc.
2174 kc.	Charleston, S. C. Jacksonville, Fla.[4]	2566 kc.
2198 kc.	Los Angeles, Calif. New York, N. Y.	2590 kc.
2206 kc.	Hawaiian Islands. New Orleans, La. Astoria, Oreg. Portland, Oreg.[5]	2582 kc. 2598 kc.
4402.5 kc.	Great Lakes (Canada only). Miami, Fla. Hawaiian Islands.	2582 kc. 4267.5 kc. 4177.5 kc.
4412.5 kc.	New York, N. Y. Boston, Mass.[6]	4177.5 kc.
4422.5 kc.	San Francisco, Calif. Great Lakes. Los Angeles, Calif.[7]	4280 kc. 4282.5 kc. 4280 kc.
4457.5 kc.	New York, N. Y.	4752.5 kc.

[1] These frequencies are those which may be specified in applications for ship station authorizations.
[2] On these channels, Quantico shares circuit-time with Norfolk.
[3] On these channels, New York shares circuit-time with Wilmington.
[4] On these channels, Jacksonville shares circuit-time with Charleston.
[5] On these channels, Portland shares circuit-time with Astoria.
[6] On these channels, Boston shares circuit time with New York.
[7] On these channels, Los Angeles shares circuit-time with San Francisco.

(2) Frequencies available for use by ship stations on board vessels while navigated on the Mississippi River and connecting inland waters (other than the Great Lakes); exclusively for communication with coast stations located in the vicinity of any harbor, port, or place on the Mississippi River and connecting inland waters (other than the Great Lakes), when the ship station and the coast station transmit alternately on the same radio-channel:

2782 kc [4] 4162.5 kc [4]

(b) The use of the working frequencies authorized in subsection (a) of this section is subject to the applicable conditions and limitations set forth in paragraph (d) of § 8.351. Further, and insofar as practicable, ship stations shall use frequency assignments within the band 4000 kc to 5000 kc only when frequency assignments below 4000 kc or above 30 Mc will not provide effective communication.

§ 8.355 *Frequencies from 5000 kc to 30 Mc for public correspondence.* (a) Carrier frequencies within the band 5000 kc to 30 Mc which are authorized for use by public ship station employing telephony by means of amplitude modulation for the transmission of public correspondence exclusively are designated herewith; ship stations shall use the radio-channels of which these frequencies are the authorized carrier frequencies exclusively for working with public coast stations (normally providing direct connection with public service landline telephone systems):

(1) Frequencies authorized for use by ship stations on board ocean-going vessels primarily for long distance communication, when the ship station and the coast station transmit alternately on different radio-channels; except as expressly provided otherwise in this subpart, these frequencies shall not be used by ship stations on the Great Lakes or inland waters of the continental United States:

6,650 kc	8,840 kc	13,245 kc	17,640 kc
6,660 kc	8,850 kc	13,260 kc	17,660 kc
6,670 kc	13,200 kc	13,275 kc	17,680 kc
8,810 kc	13,210 kc	17,600 kc	23,000 kc
8,820 kc	13,220 kc	17,610 kc	
8,830 kc	13,230 kc	17,620 kc	

(2) Frequencies authorized for use by ship stations on board vessels while navigated on the Great Lakes; exclusively for communication with coast stations in the Great Lakes area, when the ship station and the coast station transmit alternately on different radio-channels. Ship stations shall receive transmission from the particular coast stations on the associated receiving frequencies also designated herewith:

Ship station transmitting carrier frequency [5]	*Ship station receiving carrier frequency*
6660 kc	6470 kc
8820 kc	8585 kc

(3) Frequencies authorized for use by ship stations on board vessels while navigated on the Mississippi River and connecting inland waters (other than the Great Lakes); exclusively for communication with coast stations located in the vicinity of any harbor, port, or place on the Mississippi River and connecting inland waters (other than the Great Lakes), when the ship station and the coast station transmit alternately on the same radio-channel:

6240 kc [5]	6455 kc [5]
2840 kc [5]	11090 kc [5]

(b) The use of the working frequencies authorized in paragraph (a) of this section is subject to the applicable conditions and limitations set forth in paragraph (d) of § 8.351. Further, insofar as is practicable, ship stations shall use frequency assignments within the band 5000 kc to 30 Mc only when frequency assignments below 5,000 kc or above 30 Mc will not provide effective communication.

§ 8.356 *Frequencies above 30 Mc for public correspondence.* (a) Carrier frequencies above 156 Mc which are authorized for use by public ship stations employing modulation (or in Regions 1 and 3, amplitude modulation when required) for the transmission of public correspondence exclusively, are designated herewith; ship stations shall use the radio-channels of which these frequencies are the authorized carrier frequencies exclusively for working with public coast stations (normally providing direct connection with public service land-line telephone systems);

(1) For ship station transmission to public coast stations when the same radio-channel is used for transmission by the coast station:

157.1 Mc and 157.4 Mc

(2) For transmission to public coast stations except coast stations within 75 statute miles of Chicago, Illinois, when a different radio-channel is used for transmission by the coast station:

For ship station transmission [6]	*For ship station reception* [6]
157.4 Mc	161.9 Mc

(3) For transmission to public coast stations including coast stations at Chicago, Illinois, and locations within 75 statute miles thereof, when a different radio-channel is used for transmisison by the coast station:

For ship station transmission	*For ship station reception*
157.1 Mc	162 Mc

(4) For transmission to public coast stations at Chicago, Illinois, and locations within 75 statute miles thereof, when a different radio-channel is used for transmission by the coast station:

For ship station transmission	*For ship station reception*
157.4 Mc	156.4 Mc

(b) (1) Carrier frequencies within the band 30 Mc to 40 Mc which, subject to and in accordance with the conditions and limitations hereinafter set forth in this subsection, are authorized for use by public ship stations employing telephony by means of either frequency modulation or amplitude modulation for transmission and reception of public correspondence exclusively on the same radio-channel only when communicating with public coast stations licensed to transmit on such frequencies prior to the effective date of this subsection and located within the vicinity of the respective harbor(s), port(s), or place(s) designated herein opposite the particular carrier frequency:

Carrier frequency:	*For communication only with coast stations within the vicinity of—*
35.14 Mc	Philadelphia, Pa.
35.18 Mc	Great Lakes region.

(2) Each of these carrier frequencies is available for use on a shared basis with limited coast stations, limited ship stations, marine-utility stations and aircraft stations operating in the maritime mobile service at any location on the same radio channel; they are not available exclusively for public correspondence. Licensees having authority to transmit on these frequencies shall cooperate in the use thereof in order to minimize interference.

(3) Applicants for public ship station licenses or renewal or modification of such licenses whose applications request authority to transmit on 35.14 Mc or 35.18 Mc for the purpose of communicating with public coast stations as specifically set forth in this section, may be required, in the discretion of the Commission, to show a need for the use of such frequencies for public correspondence in lieu of the specific frequencies above 156 Mc authorized in this subpart for public correspondence exclusively.

(4) Ship stations (except stations operating under appropriate licenses granted prior to the effective date of this paragraph) shall not use the carrier frequencies 35.14 Mc or 35.18 Mc for public correspondence unless such stations are specifically authorized to do so by the terms of the respective ship station license. Notwithstanding the provisions of Subpart M of this part, ship stations shall not be classified as public ship stations because of their authority to transmit on 35.14 Mc and/or 35.18 Mc, unless they are specifically authorized by the terms of their station licenses to use these carrier frequencies for public correspondence as prescribed in this section.

§ 8.357 *Additional frequencies for public correspondence.* In addition to the frequency assignment designated for public correspondence by means of telephony in the license of a public ship station, such station, when working by telephony with a foreign coast station for this purpose may, on condition that interference shall not be caused to the service of any station which in the discretion of the Commission may have priority on the involved radio channel(s), transmit to such coast station when directed to do so by that station on a specific frequency assignment designated by the coast station for the service being carried on.

§ 8.358 *Frequencies below 3000 kc for safety purposes.* (a) Carrier frequencies which are authorized for working between ship stations (ship-to-ship) employing telephony for transmission and reception on the same radio-channel by means of amplitude modulation, primarily for the transmission of safety communication,[7] are designated herewith:

2003 kc (Great Lakes area only).
2638 kc (as designated in subsection (d)).
2738 kc (other than Great Lakes area).

The use of these carrier frequencies for public correspondence is prohibited. Further, their use by ship stations is subject to the conditions and limitations set forth in the following subsections of this section.

(b) The frequency 2003 kc is the general working frequency for ship to ship telephony in the Great Lakes area exclusively, primarily for safety communication under conditions requiring the use of a frequency in this portion of the spectrum. This frequency, even though licensed, is not to be used by ship stations which are licensed also to use frequencies above 30 Mc for ship to ship telephony, under conditions when the use of a licensed frequency above 30 Mc in lieu of 2003 kc would provide effective safety communication.

(c) The frequency 2738 kc is the general working frequency for ship to ship telephony (except in the Great Lakes area), primarily for safety communication under conditions requiring the use of a frequency in this portion of the spectrum. This frequency, even though licensed, is not to be used by ship stations which are licensed also to use frequencies above 30 Mc for ship to ship telephony, under conditions when the use of a licensed frequency above 30 Mc in lieu of 2738 kc would provide effective safety communication.

(d) The frequency 2638 kc is the primary working frequency for ship to ship telephony for safety communication between ships at sea and between ships in any area which are compulsorily fitted with a radiotelephone installation for safety purposes. This frequency is assignable only to ship stations on board ocean-going vessels and ship stations on board vessels compulsorily fitted with a radiotelephone installation for safety purposes. Even though licensed for this purpose, it is not to be used by ship stations which are licensed also to use frequencies above 30 Mc for ship to ship telephony, under conditions when the use of a licensed frequency above 30 Mc in lieu of 2638 kc would provide effective safety communications.

§ 8.359 *Frequencies above 156 Mc for safety purposes.* (a) Carrier frequencies which are authorized for use by ship stations and by marine-utility stations on board ship, employing telephony for transmission and reception on the same radio-channel by means of frequency-modulation (or by means of amplitude modulation in Regions 1 and 3 when required) primarily for the transmission of safety communication, are designated herewith:

156.8 Mc: for calling and safety; available for any ship station or marine-utility station on board ship in any area.

156.3 Mc: for intership (ship-to-ship) communication exclusively; available for any ship station or marine-utility station board ship in any area.

157.0 Mc: for intership (ship-to-ship) communication exclusively; for this purpose available only for ship stations and marine-utility stations on board commercial transport vessels,[8] for use exclusively on the Great Lakes, the Mississippi River and tributaries, and the Gulf of Mexico Intra-Coastal Waterway.

The use of these carrier frequencies for public correspondence (except as may be required for communication with foreign coast stations) is prohibited. Further, their use by ship stations is subject to the conditions and limitations set forth in the following paragraphs of this section.

(b) The carrier frequency 157.0 Mc is assignable only to ship stations and marine-utility stations on board commercial transport vessels when such stations are capable also of transmitting and receiving on the intership radio-channel of which 156.3 Mc is the authorized carrier frequency, and are authorized to communicate on that radio-channel. One application, however, may be submitted for ship station license for initial authority to transmit on each of these two radio-channels. The requirement of this subsection shall not apply to a marine-utility station on board ship when the ship station on board the same vessel complies therewith.

(c) (1) The radio channel of which 156.8 Mc is the authorized carrier frequency is designated primarily for calling and safety purposes in ship-to-ship and ship-shore communication. It may be used when appropriate by ship stations and marine-utility stations on board ship employing telephony for short-distance communication as an alternative to the radiotelephone distress frequency 2182 kc, for distress calls and distress traffic, and for safety communication.

(2) In accordance with the provisions of subparagraph (1) of this paragraph, this radio-channel may be used by ship stations and marine-utility stations on board ship for:

(i) Call, reply, and the exchange of brief operating signals; and

(ii) Operating signals preparatory to message traffic on a different radio-channel; and

(iii) The transmission from ship to ship of brief messages within the category of safety communication.

(3) The use of this radio-channel by ship stations, or marine-utility stations on board ship, for transmission not strictly in accordance with subparagraphs (1) and (2) of this paragraph is prohibited unless the stations engaged in communication are in the open sea and more than 150 nautical miles from the nearest land. Under the latter circumstances, this radio-channel may be used for ship-to-ship communication of any nature necessary for the safe, expeditious or economical operation of ships.

(d) The radio-channel of which 156.3 Mc is the authorized carrier frequency is designated for intership (ship-to-ship) communication exclusively. When a ship station or a marine-utility station on board ship is authorized to transmit on one radio-channel only (within the frequency-band 156.25 Mc to 157.45 Mc) exclusively for intership communication, the authorized carrier frequency of such intership radio-channel shall, in all cases, be 156.3 Mc: *Provided*, This condition shall not apply to a marine-utility station on board ship when the ship station on board the same vessel is authorized to transmit on the assigned frequency 156.3 Mc. This radio-channel may be used:

(1) Primarily for safety communication and the exchange of signals and messages of direct benefit to marine navigation;

(2) Secondarily, and with discretion, for other communication concerning the safe, expeditious or economical operation of ships.

(e) The radio-channel of which 157.0 Mc is the authorized carrier frequency is designated, with respect to its use by ship stations and marine-utility stations on board ship on the Great Lakes, Mississippi River and tributaries, and the Gulf of Mexico Intra-coastal Waterway, exclusively for intership communications. Its use for intership communica-

[4] These frequencies are those which may be designated in applications for ship station authorizations.

[5] These frequencies are those which may be designated in applications for ship station authorizations.

[6] In accordance with arrangements between the United States and certain foreign countries.

[7] The term "safety communication" is defined in paragraph (a) of § 8.6.

[8] See paragraph (o) of § 8.2 which defines "commercial transport vessel."

tion is authorized for stations on board commercial transport vessels only. For intership communication, this radio-channel may be used:

(1) Primarily for safety communication and the exchange of signals and messages of direct benefit to marine navigation;

(2) Secondarily, and with discretion, for other communication concerning the safe, expeditious or economical operation of ships.

§ 8.360 *Frequencies above 156 Mc for business and operational purposes.* (a) Carrier frequencies which are authorized for use exclusively by ship stations and marine-utility stations on board commercial transport vessels, employing telephony by means of frequency-modulation (or amplitude modulation in Regions 1 and 3 when required) for transmission and reception on the same radio channel, are designated herewith; these carrier frequencies are authorized primarily for communication with limited coast stations and marine-utility stations on shore, and secondarily with ship stations and marine-utility stations on board ship:

156.4 Mc (except at Chicago, Ill., and locations within 225 statute miles thereof).

156.5 Mc: all areas.

156.6 Mc: all areas[*] (limited to harbor or port operational traffic).

157.0 Mc: not available for ship-shore communication on the Great Lakes, the Mississippi River or any tributary thereof, the Gulf of Mexico Intra-coastal Waterway, nor any location within 100 statute miles of any portion of these waters.

The use of these carrier frequencies for public correspondence (except as may be required for communication with foreign coast stations) is prohibited. Further, their use by ship stations is subject to the conditions and limitations set forth in the following paragraphs of this section.

(b) Each of the radio-channels of which the frequencies designated in paragraph (a) of this section are the authorized carrier frequencies is available on a shared basis only to serve the business and operational needs of commercial transport vessels and they shall not be construed as available for the exclusive use of any one station licensee or any specific ship or ships. All licensees saving authority to transmit on such assigned frequencies shall cooperate in the use thereof in order to minimize interference and obtain the most effective use of the authorized facilities.

(c) The carrier frequency 156.4 Mc is authorized for use as designated herewith:

Geographic area	*Type of commercial transport vessel*
Other than Great Lakes, Mississippi River and tributaries, and Gulf Intra-coastal Waterway.	Vessels navigated primarily within harbor or port areas, including tugs, towboats, pilot boats, barges, wreckers, dredges, local ferries, repair ships, and harbor craft of municipalities or States.
Great Lakes, except within 225 statute miles of Chicago, Ill.	Ferries navigated primarily between separate harbors or ports, and commercial fishing vessels.
Mississippi River and tributaries and Gulf Intra-coastal Waterway, except within 225 statute miles of Chicago, Ill.	Vessels of such class or classes as may be required by prevailing needs of various port areas.

(d) The carrier frequency 156.5 Mc is authorized for use as designated herewith:

Georgraphic area	*Type of commercial transport vessel*
Other than Great Lakes	Vessels navigated primarily between separate harbors or ports, and commercial fishing vessels.
Great Lakes, except within 225 statute miles of Chicago, Ill.	Vessels (except ferries and commercial fishing vessels) navigated primarily between separate harbors or ports.
Great Lakes, within 225 statute miles of Chicago, Ill.	Vessels (including ferries) navigated primarily between separate harbors or ports, and commercial fishing vessels.

(e) The carrier frequency 156.6 Mc is authorized for use within, or within the vicinity of, all harbor or port areas primarily for communication concerning port operations; in such areas it may be used additionally, on a secondary basis, to serve other business and operational needs of ships upon the express condition that such secondary use shall not interfere with nor delay the exchange of port operational message traffic.

(f) Except as otherwise provided in this subsection and in paragraph (a) of this section, the carrier frequency 157.0 Mc is authorized for such use as may be required from time to time to serve prevailing business and operational needs of commercial transport vessels: *Provided,* That in order to avoid interference in certain geographic areas to the use of an exclusive intership radio-channel of which 157.0 Mc is the authorized carrier frequency, the use of this carrier frequency for ship-shore communication is prohibited (except for distress purposes) on the Great Lakes, the Mississippi River and tributaries, the Gulf of Mexico Intra-coastal Waterway, and at any location within 100 statute miles of any portion of those waters.

(g) All communication on any radio-channel of which 156.4 Mc, 156.5 Mc, 156.6 Mc, or 157.0 Mc is the authorized carrier frequency shall be limited solely to safety communication and communication necessary for the operational and business needs of ships; in particular communication of a personal nature not relative to safety or the operational or business needs of ships is strictly forbidden: *Provided, however,* That the radio-channel of which 156.4 Mc is the authorized carrier frequency may be used for the reception of public correspondence, from public coast stations transmitting on this channel which are located at Chicago, Illinois, or within 75 statute miles thereof, pursuant to the provisions of paragraph (a) (4) of § 8.356. Whenever these radio-channels are used on a secondary basis for ship-to-ship communication, such use shall not willfully interfere with nor delay any communication between ship and shore.

(h) Notwithstanding any of the provisions of this section, any radio-channel of which 156.4 Mc, 156.5 Mc, 156.6 Mc, or 157.0 Mc is the authorized carrier frequency may be used for ship-to-ship communication of any nature necessary for the safe, expeditious or economical operation of ships when the stations engaged in communication are in the open sea and more than 150 nautical miles from the nearest land.

§ 8.361 *Frequencies within the band 30 to 50 Mc for general communication.* (a) Carrier frequencies which are authorized for any communication necessary for the safe, expeditious or economical operation of ships (other than public correspondence) for use by ship stations and marine-utility stations on board ship employing either frequency-modulation or amplitude modulation for telephony, for transmission and reception on the same radio-channel are designated herewith:

Carrier frequency:	*Normal geographic area of use*
35.06 Mc	Gulf-Caribbean area north of 15° north latitude (includes Puerto Rico and Virgin Islands—does not include Florida east coast area).
35.10 Mc	Pacific area within Region 2 and north of 15° north latitude.
35.14 Mc	Atlantic area within Region 2 and north of 15° north latitude (includes Florida east coast area).
35.18 Mc	Mid-continent area (includes Great Lakes).

Each of these assignable frequencies is available on a shared basis only and shall not be construed as available for the exclusive use of any one station licensee. All licensees having authority to transmit on such assigned frequencies shall cooperate in the use thereof in order to minimize interference and obtain the most effective use of the authorized facilities.

(b) Each application which requests assignment of a carrier frequency designated in paragraph (a) of this section shall designate normally the carrier frequency specified in that paragraph for use in the geographic area in which the station is to be operated. Normally, only that carrier frequency is assignable for use in that area. When any other of these carrier frequencies is requested for assignment in a specified area, the application therefor shall include a satisfactory showing that the carrier frequency designated in paragraph (a) for use in the particular area will not meet the need of the proposed or existing service. When, in the opinion of the applicant, the location of the involved station is not, or will not be, clearly within one of the geographic areas designated in paragraph (a), the applicant shall obtain the necessary information in this respect by corresponding directly with the Commission at Washington, D. C.

[*] In accordance with arrangements between the United States and certain foreign countries.

(c) Each of these carrier frequencies is assignable for communication (other than public correspondence) by means of telephony with limited coast stations, ship stations, and marine-utility stations on ship or shore, which for this purpose transmit on the same radio-channel. In addition, when required to serve a maritime purpose, each of these carrier frequencies is assignable in accordance with the geographic areas specified in paragraph (a) of this section for use by mobile stations on board aircraft at sea for communication by telephony with ship stations, limited coast stations, and marine-utility stations on board ship, when each of the involved stations transmit and receive on the same radio-channel; subject to this provision, ship stations and marine-utility stations are authorized to communicate additionally on such radio-channel(s) with mobile stations on board aircraft appropriately licensed for this purpose. Such stations on board aircraft shall be governed in the use of any of these frequency assignments by the same rules and regulations that apply to ship stations using the same frequency assignment.

(d) Any ship station licensed prior to March 1, 1949, for the use of telephony on the radio-channel of which 43.02 Mc is the authorized carrier frequency, may continue to be licensed for use of this radio-channel for communication only with limited coast stations and with ship stations using this same radio-channel for that purpose. The class of emission, authorized frequency-band, type of modulation, and maximum power as licensed prior to March 1, 1949, continues to be authorized for such licensed stations, upon the condition that the carrier frequency shall be maintained within 0.01 per cent of the authorized carrier frequency 43.02 Mc and that interference shall not be caused to any station in any other service.

(e) In addition to the provisions of paragraph (d) of this section, the carrier frequency 43.02 Mc may be authorized for use by ship stations employing telephony by means of either amplitude modulation or frequency modulation for ship to ship communication exclusively at locations or in areas (primarily outside the continental United States) where, as the result of transmission by ship stations on the radio-channel of which this frequency is the authorized carrier frequency, interference is not caused to any other service operating on the same or adjacent radio-channels.

§ 8.362 *Frequencies below 3000 kc for business and operational purposes.* (a) In addition to availability of the carrier frequency 2738 kc primarily for intership communication as prescribed in § 8.358, this frequency may, in response to proper application therefor, be specifically authorized in ship station licenses or specifically by order of the Commission for use (except in the Great Lakes area) to a limited extent in communicating by telephony (amplitude modulation) with such limited coast stations as are designated in the respective ship station license or in any applicable order of the Commission: *Provided:*

(1) The applicant makes a showing satisfactory to the Commission that exceptional and limited use of this carrier frequency for ship-shore communication, in lieu of a different frequency normally authorized for ship-shore communication (public correspondence or otherwise) is necessary to serve an important business or operational need of the vessel on which the ship station is located (other than public correspondence) and that the desired communication will be effective even though ship-to-ship communication for safety and other purposes has priority in the use of this frequency; and

(2) Harmful interference will not be caused to the service of ship-to-ship communication on the radio-channel of which 2738 kc is the authorized carrier frequency; and

(3) The plate input power to be used will be the minimum amount necessary to provide effective ship-shore communication on this radio-channel and will not at any time exceed the average plate-input power generally used by ship stations for intership communication on this radio-channel; and

(4) The ship-shore communication on this radio-channel shall be limited exclusively to that which is necessary to serve an important business or operational need of the vessel on which the ship station is located (excluding public correspondence);

(5) The use of this carrier frequency in accordance with any station authorization granted pursuant to this section shall be on a shared basis with any other station using this same frequency in accordance with a similar station authorization.

(b) The carrier frequency 2214 kc may, in response to proper application therefor, be specifically authorized in the license of a ship station for use, subject to the applicable limitation set forth in paragraph (d) of § 8.351, in communicating by telephony (amplitude modulation) with such limited coast station(s) and with such ship stations (when they use this same carrier frequency for transmission) as are designated in the particular ship station license: *Provided:*

(1) The applicant makes a showing satisfactory to the Commission that use of this carrier frequency, in lieu of a frequency above 30 Mc normally authorized for use by ship stations, is necessary to serve an important business or operational need of the vessel on which the station is located (other than public correspondence); and

(2) The communication carried on by the ship station on the radio-channel of which 2214 kc is the authorized carrier frequency shall be limited exclusively to that which is necessary to serve an important business or operational need of the vessel on which the ship station is located (excluding public correspondence); and

(3) The use of this carrier frequency in accordance with any station authorization granted pursuant to this section shall be on a shared basis with any other station using this same frequency in accordance with a similar station authorization.

§ 8.363 *Use of U. S. Government frequencies for telephony.* In addition to use of the frequency assignment designated for telephony in the license of a ship station, such station when communicating by telephony with a mobile or coast station of the United States Government may transmit on a Government frequency assignment when authorized or directed to do so by the Government station responsible or by the Government department or agency for which use of such frequency assignment is authorized; on condition that the emission bandwidth and frequency tolerance of the ship station shall be within the respective limits thereof required to be maintained by the Government station. Under these circumstances, the ship station carrier frequency, the class of emission, and the permissible class of traffic shall be designated and controlled by the responsible Government station, department, or agency.

§ 8.364 *Identification of station.* (a) All radiotelephone emissions of a ship station or a marine-utility station on board ship shall be clearly identified by transmission therefrom in the English language of the official call sign assigned to that station by the Commission: *Provided,* That, in lieu of identification of the station by voice, the official call sign may be clearly transmitted by tone-modulated telegraphy in the International Morse Code either by a duly licensed radiotelegraph operator or by means of an automatic device approved for this purpose by the Commission. This identification shall be made—

(1) At the beginning and upon completion of each communication with any other station;

(2) At the beginning and upon conclusion of each transmission made for any other purpose; and

(3) At intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes.

(b) When an official call sign is not assigned by the Commission to a ship station using telephony, the complete name of the ship on which the station is located and the name of the licensee shall be transmitted by voice in the English language for the purpose of station identification.

(c) The provisions of paragraphs (a) and (b) of this section shall apply also to ship stations of portable nature when using telephony and operated on board ship pursuant to §§ 8.40 and 8.71.

§ 8.365 *Procedure in testing.* (a) Ship stations must use every precaution to insure that, when conducting operational transmitter tests, the emissions of the station will not cause harmful interference. Radiation must be reduced to the lowest practicable value and if feasible shall be entirely suppressed. When radiation is necessary or unavoidable, the radiotelephone testing procedure described below shall be followed:

(1) The licensed radio operator or other person responsible for operation of the transmitting apparatus shall ascertain by careful listening that the test emissions will not be likely to interfere with transmissions in progress;

(2) The official call sign of the testing station, followed by the word "test", shall be announced on the radio-channel being used for the test, as a warning that test emissions are about to be made on that frequency;

(3) If, as a result of the announcement prescribed in subparagraph (2) of this paragraph any station transmits by voice the word "wait", testing shall be suspended. When, after an appropriate interval of time, such announcement is repeated and no response is observed, and careful listening indicates that harmful interference should not be caused, the operator shall proceed as set forth in subparagraph (4) of this paragraph;

(4) The operator shall repeat the word "test" followed by the count "1, 2, 3, 4, • • • etc.", which in turn shall be followed by voice announcement of the official call sign of the testing station, the name of the ship on which the station is located, and the general location of the ship at the time the test is being made.

(b) When radiotelephone testing is conducted on the assigned frequency 500 kc or 8280 kc (from lifeboat stations specially authorized), or on the assigned frequency 2182 kc or 156.8 Mc, the test transmissions shall not continue for more than 10 seconds. Lifeboat stations using telephony shall not be tested on the assigned frequency 500 kc during the 500 kc silent periods.

§ 8.366 *General radiotelephone operating procedure*—(a) *Limitations on calling.* (1) Except when transmitting a general call to all stations within range for announcing or preceding the transmission of distress, urgency, or safety messages, a ship station shall call the particular station with which it intends to communicate.

(2) Calling a particular station, either by voice or by automatic means, shall not continue for a period of more than thirty seconds in each instance. If the called station is not heard to reply, that station shall not again be called until after an interval of five minutes.

(b) *Use of calling frequency required.*[10] (1) Before transmitting on the intership radio-channel of which 2003 kc is the authorized carrier frequency, ship stations in the Great Lakes area, shall first establish communication with each other by initially calling and answering on the calling channel of which 2182 kc is the authorized carrier frequency.

(2) Before transmitting on the intership radio-channel of which either 2638 kc or 2738 kc is the authorized carrier frequency, ship stations shall first establish communication with each other by initially calling and answering on the calling channel of which 2182 kc is the authorized carrier frequency; *Provided,* That this requirement shall be effective on and after January 1, 1954.

[10] See §§ 8.106, 8.353, 8.358, and 8.359.

(3) Except when other operating procedure is established by and between the stations concerned, and except for marine-utility stations or stations of a portable nature which are not capable of a plate input power in excess of three watts and are not capable of being readily adjusted for operation on more than one radio-channel, the radio-channel of which 156.8 Mc is the authorized carrier frequency shall be used for call and reply by all ship stations and marine-utility stations on board ship preparatory to establishing ship-to-ship communication on the radio-channel of which the authorized carrier frequency is either 156.3 Mc or 157.0 Mc: *Provided,* That this requirement shall be effective on and after January 1, 1952.

(c) *Calling coast stations.* (1) Use of the carrier frequency 2182 kc by ship stations for calling coast stations, and for replying to calls from such stations is authorized; however, such calls and replies shall, in general, be made on a ship-shore radio-channel authorized primarily for working.

(2) Use of the carrier frequency 156.8 Mc by ship stations and marine-utility stations on board ship for calling coast stations and marine-utility stations on shore, and for replying to calls from such stations is authorized; however, such calls and replies shall, in general, be made on a ship-shore radio-channel authorized primarily for working.

(d) *Time limitation on calling frequency.* Transmission by ship stations on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency (including calls, answers, operating signals, and conversation pertaining to safety) shall be kept to a minimum and in general any one exchange of communications shall not exceed 3 minutes in duration. In the event of distress or other emergency, this time limitation shall not apply.

(e) *Change to working frequency.* After establishing communication with another station by call and reply on the calling channel of which 2182 kc or 156.8 Mc is the authorized carrier frequency, stations on board ship shall change to an authorized working channel for the transmission of messages which, under the provisions of this subpart, cannot be transmitted on the respective calling channels.

(f) *Shared use of 2003, 2638 and 2738 kc.* (1) In regions of heavy radio traffic, any one exchange of communications between any two ship stations on the radio-channel of which 2003, 2638, or 2738 kc is the authorized carrier frequency, or between a ship and a limited coastal station on the 2738 kc channel, shall not exceed 5 minutes in duration after the two stations have established contact by calling and answering. Subsequent to such exchange of communications, the 2003, 2638 or 2738 kc channel shall not again be used for communication between the same two stations until 5 minutes have elapsed: *Provided,* That this requirement shall in no way limit or delay the transmission of distress or emergency communications.

(2) All transmission on the radio-channels of which 2638 kc and 2738 kc are the authorized carrier frequencies by two or more stations, engaged in any one exchange of signals or communications with each other, shall take place on only one of these channels. For this purpose, the stations involved shall transmit and receive on the same channel: *Provided,* That this requirement is waived in the event of emergency when by reason of interference or limitation of equipment this method of single-channel communication cannot be used.

(g) *Authorized use of 2003, 2638, and 2738 kc.* (1) The radio-channels of which 2003 kc, 2638 kc, or 2738 kc are the authorized carrier frequencies, shall be used by ship stations for safety communication and for communication necessary for and relating directly to maritime operations. Other classes of communication, such as those of a purely personal or social nature which do not concern safety or a maritime purpose, are strictly forbidden.

(2) Ship stations licensed to transmit on the radio-channel of which 2638 kc is the authorized carrier frequency, shall, when on inland waters of the United States, restrict the use of this channel to a necessary minimum.

(h) *Time limitation on public correspondence.* Any one exchange of public correspondence between a public ship station and a public coast station shall not exceed ten minutes in duration. Subsequent to any one exchange of public correspondence of ten minutes or less, the same working channel shall not again be used by the same ship station until five minutes have elapsed: *Provided,* That this limitation shall not apply in event of distress or other emergency.

(i) *Limitation on business and operational traffic.* All ship-to-ship communication and communication with limited coast stations and marine-utility stations on shore engaged in by ship stations and marine-utility stations on board ship shall be limited, on radio-channels above 30 Mc, to the minimum practicable transmission time. In the conduct of ship-shore communication (other than distress), stations on board ship shall comply with instructions given by the limited coast station or marine-utility station on shore, with which they are communicating, in all matters relative to operating practices and procedures and to the suspension of transmission in order to minimize interference.

(j) *Limitation on 6660 kc and 8820 kc on Great Lakes.* Ship stations in the Great Lakes area, authorized to use the carrier frequency 6660 kc or 8820 kc pursuant to § 8.351 (d) (10), shall during the periods from local sunset to local sunrise, not transmit on these frequencies whenever the necessary communication can be effected on authorized frequencies below 5000 kc or above 30 Mc.

§ 8.367 *Station documents.* (a) Ship stations using telephony, but not authorized to employ telegraphy except for calling purposes incidental to the use of telephony, shall be provided with the documents hereinafter specified:

(1) Ship stations on board vessels engaged on international voyages other

than those voyages designated in subparagraph (2) of this paragraph:

(i) A valid station license.

(ii) The necessary operator license or licenses.

(iii) The station log required by this part for stations of this category.

(iv) The Alphabetical List of Call Signs prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(v) The List of Coast Stations and Ship Stations prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(vi) Part 8 of the rules of the Commission.

(2) Ship stations on board vessels not navigated on international voyages or engaged on international voyages solely on inland waters of the United States and Canada, including the Great Lakes; the documents listed in items (i), (ii), (iii), and (vi) of subparagraph (1) of this paragraph.

§ 8.368 *Station records.* (a) Ship stations using telephony shall maintain an accurate radiotelephone log during their hours of service, as hereinafter specified:

(1) The radiotelephone log of each ship station on board a vessel engaged on an international voyage other than a voyage of the category designated in subparagraph (2) of this paragraph shall be maintained as follows:

(i) Each sheet of the log shall be numbered in sequence for each voyage, and shall include, the name of the vessel, official call sign of the ship station, and the name and signature of the licensed operator on board who is responsible for operation of the radiotelephone transmitting apparatus. (The use of initials or signs in lieu of the operator's signature is not authorized.)

(ii) With respect to ship stations which, by reason of the provisions of § 8.223, are required to maintain a watch on the radio-channel designated for radiotelephone calling and distress (assigned frequency 2182 kc), entries shall be made showing each time this watch is begun, suspended, or concluded; without any requirement, however, of making such entries during interruption of this watch as may be necessary during hours of service for calling, answering and exchanging operating signals and safety communications on this radio-channel, or for any brief exchange of communication on an intership radio-channel. These entries shall be made by a licensed operator or by a member of the crew who is designated and authorized by the master to do so; the name and signature of the person(s) making these entries and the person(s) who actually maintain such watch shall appear in the log and shall be properly related to each particular entry for this purpose.

(iii) All radiotelephone distress, urgency or safety signals and communications made or intercepted; the complete text, if possible, of such communications; and any information which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation or occurrence, identification of the radio channel(s) on which such signals or messages were transmitted or received, and the position of any ship, or other mobile unit in need of assistance, if this can be determined. In addition, the ship's own position and the distance from the distressed ship or other mobile unit, if obtainable, shall be entered. These entries shall be made by a licensed operator or by a member of the crew who is designated and authorized by the master to do so; the name and signature of the person(s) making these entries shall appear in the log and shall be properly related to each particular entry of this category.

(iv) Whenever harmful interference is experienced by or reported to the responsible operator, an entry shall be made by such operator to that effect, stating the source of the interference, if known.

(v) The approximate geographical location of the ship, preferably the noon position, shall be entered each day of each voyage, either in terms of latitude and longitude, or as the distance in nautical miles and the direction from a known fixed point. For this purpose, the master of the ship shall furnish this information either to the responsible operator or to a licensed deck officer who shall make this entry together with related entry of his name and signature.

(vi) An entry shall be made, in the same manner as for item (v) of this subparagraph, of the time of departure and arrival of the vessel at each port, including in each entry the name of the particular port.

(vii) A daily entry shall be made, in the same manner as for item (v) of this subparagraph, regarding comparison of the radio station clock or other timepiece with standard time, including an indication of any errors observed and correction made. For this purpose, authentic radio time signals received from land or fixed stations shall be acceptable as standard time.

(viii) All test transmissions shall be entered, together with the time of such transmissions and the approximate geographical location of the vessel, without regard to whether two-way communication with any other station is established. These entries shall be made by the licensed operator responsible for operation of the radio-telephone transmitting apparatus and his name and signature shall be entered in relation thereto.

(ix) An entry shall be made giving pertinent details of all installation, service, or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full-time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

(x) The date and time of making each entry shall be shown opposite the entry and the time shall be expressed in Greenwich mean time (GMT) as follows. The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "GMT" shall be marked at the head of the column in which time is entered.

(2) The radiotelephone log of each ship station on board a vessel not navigated on an international voyage, or engaged on an international voyage solely on inland waters of the United States and Canada, shall be maintained as follows:

(i) Each sheet of the log shall be numbered in sequence for each voyage made in the open sea; for other voyages or for navigation not within the meaning of a voyage, each log sheet shall be numbered in sequence during the period covered by each calendar month.

(ii) Each sheet of the log shall include the name of the vessel, official call sign of the ship station, and the name and signature of the licensed operator (or other person in accordance with § 8.155) who is responsible for operation of the radiotelephone transmitting apparatus. (The use of initials or signs in lieu of signatures is not authorized.)

(iii) The log shall contain all entries stipulated in items (ii), (iii), (iv), (vii), (viii) and (ix) of subparagraph (1) of this paragraph; such entries shall be made in the manner prescribed in each such item, provided that with respect to item (viii), the required entries may be made by the person responsible for operation of the station, in lieu of a licensed operator, in accordance with the provisions of § 8.155.

(iv) With respect to each ship station on board a vessel navigated in the open sea, the log shall contain all entries stipulated in items (v) and (vi) of subparagraph (1) of this paragraph; such entries shall be made in the manner prescribed in each such item.

(v) With respect to each ship station on board a vessel not navigated in the open sea, the geographic area in which the vessel is navigated or is temporarily moored, or the route being followed by the vessel, expressed in a general way, shall be entered in the log each day the vessel is in service. This entry shall be made by the responsible operator or by a member of the crew designated by the master to do so. The person who makes this entry shall enter his name and signature in relation thereto.

(b) Marine utility stations on board ship shall maintain an accurate radiotelephone log during their hours of service as follows:

(1) Each sheet of the log shall be numbered in sequence and shall include the name and geographic area of navigation of the vessel upon which the station is operated; the date and time of operation of the station; official call sign of the marine utility station, the name and signature of the licensed operator (or other person in accordance with § 8.155) who is responsible for operation of the marine utility station. (The use of initials or signs in lieu of signatures is not authorized.)

(2) An entry shall be made giving pertinent details of all installation, service or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed

the work, and unless he is regularly employed on a full time basis at the station and has his operator license properly posted, shall also include his mail address and the class, serial number, and expiration date of his license.

SUBPART P—USE OF RADIOLOCATION

§ 8.401 *Assignable frequencies for direction-finding.* (a) The frequency 375 kc is the assigned frequency in Region 2 for direction-finding exclusively. Effective when ordered by the Commission this frequency shall be replaced, with respect to stations of the United States, by the frequency 410 kc. In Regions 1 and 3, the frequency 410 kc may be used in those areas where the use of this frequency (in lieu of 375 kc) for direction-finding is the prevailing procedure.

(b) As an exception, on condition that signals of distress, urgency and safety, and calls and answers, are not interfered with, the calling channel of which 500 kc is the assigned frequency may be used additionally and with discretion, by ship stations for direction-finding; exclusively in Regions 1 and 3 outside areas of heavy radio traffic.

(c) In the event of distress, the following frequencies may be used for radiolocation for purposes of search and rescue by any licensed station on board ship, without regard to whether or not these frequencies are designated in the station license:

375 kc	2182 kc
410 kc	8280 kc
500 kc	

§ 8.402 *Use of direction-finding frequency.* Except in event of distress, transmission on the direction-finding frequency (375 kc or 410 kc as designated in § 8.401) is permissible only when authorized by the terms of the station license. The operating procedure used shall comply with that set forth in the International Radio Regulations applicable to the use of this frequency; the exchange of signals and communications on this frequency by means of radiotelegraphy which is a necessary adjunct to direction-finding, together with the actual process of direction-finding, constitutes a maritime radionavigation service.

§ 8.403 *Radiolocation by cable-repair ship.* Provided radio transmitting equipment attached to a cable-marker buoy has been adequately described in an application for ship radio station license for a cable-repair ship with which the buoy is associated, and provided further that such equipment is authorized in the related ship station license, that equipment may be operated for direction-finding on the frequency 278 kc (or such other comparable frequency as may be authorized by the Commission specifically for this purpose) under authority of the ship station license, with A–1 or A–2 emission and a maximum plate input power of 30 watts. The call signals that must be used for a transmitter operating under the provisions of this section shall be the regularly assigned call of the ship station with which the buoy is associated, to be followed by the letters "BT", and the identifying number of the buoy. The buoy transmitter shall be continuously monitored by a licensed radiotelegraph operator on board the associated cable-repair ship. Should a frequency deviation in excess of 0.5 percent or interference to the service of any other station be reported or observed, the radiation of the transmitter shall be suspended until the deviation is eliminated or until the transmitter can be operated without causing interference.

§ 8.404 *Assignable frequencies above 2400 Mc.* (a) The following frequency-bands are authorized for use by ship radionavigation stations (including ship radar stations) in the maritime radionavigation service;[1] the maximum power shall be designated in each instrument of authorization: *Provided,* That for stations other than ship radar stations,[2] the class of emission, the frequency tolerance, and the bandwidth occupied by the emission shall be designated in each instrument of authorization.

3000 Mc to 3246 Mc
5460 Mc to 5650 Mc
9320 Mc to 9500 Mc

(b) The following frequency-bands are authorized for use by ship radiolocation stations in the maritime radiolocation service; the class of emission, the frequency tolerance, the bandwidth occupied by the emission, and the maximum power shall be designated in each instrument of authorization:

(1) 2450 to 2500 Mc: For purposes other than radionavigation or safety, on the condition that harmful interference shall not be caused to the fixed and mobile services, on the condition that no protection shall be given from interference caused by emissions from industrial, scientific, or medical equipment.

(2) 3000 Mc to 3246 Mc, 5460 Mc to 5650 Mc, 9320 Mc to 9500 Mc: The use of frequencies within these bands for radiolocation, other than radionavigation, shall not cause harmful interference to the radionavigation service.

§ 8.405 *Special provisions applicable to ship radar stations.* (a) Every ship radar station licensed, prior to the effective date of this section, in the former "ship service" shall, subsequent to the effective date of this section, be regarded as licensed in the maritime radionavigation service[3] and the use and operation of such stations shall be governed accordingly.[4]

(b) Each ship radar station installation the manufacture of which was completed on or after 1947 shall be furnished with a durable name plate with the manufacturer's name, transmitter model number; and month and year of completion of manufacture permanently inscribed thereon. Such name plate shall be affixed to the indicator housing at the principal radar operating position or to some other component of the radar installation which is readily accessible for inspection.

[1] The associated transmitting frequencies of U. S. Government radar beacons (racons) are, respectively, as follows: 3256, 5450, and 9310 megacycles.

[2] With respect to ship radar stations, see §§ 8.131, 8.132, and 8.133.

[3] See paragraph (1) of § 8.4.

[4] See § 8.138 relative to type-approval of ship radar transmitters.

(c) Each ship radar station license issued shall be subject to the condition that the station licensee, in relation to the proper operation of the station in accordance with the radio law, and rules and regulations of the Commission, will be represented on board the radar-equipped vessel by the person who at any given time occupies the position of master.

(d) Effective on and after January 2, 1951, the following provisions shall apply to ship radar stations:

(1) The station licensee of each ship radar station shall provide and require to be kept at the station a permanent installation and maintenance record. Entries in this record shall be made by or under the personal direction of the responsible installation, service, or maintenance operator concerned in each particular instance, but the station licensee shall have joint responsibility with the responsible operator concerned for the faithful and accurate making of such entries as are required by this paragraph.

(2) Each entry in this record shall be personally signed by the responsible operator concerned.

(3) The following entries shall be made in this record:

(i) The date and place of initial installation.

(ii) Any necessary steps taken to remedy any interference found to exist at the time of such installation.

(iii) The nature of any complaint (including interference to radio communication) arising subsequent to initial installation, and the date thereof.

(iv) The reason for the trouble leading to the complaint, including the name of any component or component part which failed or was misadjusted.

(v) Remedial measures taken, and the date thereof.

(vi) The name, license number, and date of the ship radar operator endorsement on the first or second class radio operator license of the responsible operator performing or immediately supervising the installation, servicing, or maintenance.

(e) Until the Commission shall otherwise provide, the ship radar station licensee, by such arrangement as may be necessary with the ship master, operating agency, or ship owner, shall, upon specific request made by the Commission, be responsible for the submission of such reports as are requested by the Commission to show the value and practical performance of the ship radar station. For assistance in preparing these reports, daily records, when the radar installation is tested or used, should, when practicable, be kept showing at least the following:

(1) Approximate number of hours of use while the ship is in operation;

(2) Number of service failures, and duration, nature, and cause of each failure if known;

(3) Performance under local weather conditions which are unfavorable for marine navigation; and

(4) Unusual incidents, including, among others, cases in which radar may have aided or hindered safe operation of the ship.

(f) In addition to the installation and maintenance record required by paragraphs (d) and (e) of this section, the following documents shall be available for reference on board each radar-equipped vessel whose ship radar station is licensed by the Commission:

(1) Part 8 of the Commission's rules.

(2) At least one set of instructions from the respective manufacturer relative to the use and operation of the particular type of ship radar installation.

(g) No provisions of this part shall require any ship radar station to transmit any signal(s) intended solely for the purpose of identifying that station.[5]

SUBPART Q—DEVELOPMENTAL STATIONS

§ 8.431 *Supplemental eligibility.* An authorization for developmental operation of a station on board ship in any of the services under this part will be issued only to those persons who are eligible to operate such stations on a regular basis.

§ 8.432 *Showing and statement required.* (a) Except as provided in paragraph (c) of this section, each application for authorization for a developmental station on board ship shall be accompanied by a showing that:

(1) The applicant has an organized plan of development leading to a specific objective,

(2) A point has been reached in the program where actual transmission by radio is essential to the further progress thereof,

(3) The program has reasonable promise of substantial contribution to the expansion or extension of the use of radio for a maritime purpose, or is in a field of maritime operation not already investigated,

(4) The program will be conducted by qualified personnel,

(5) The applicant is legally and financially qualified, and possesses adequate technical facilities for conduct of the program as proposed,

(6) The public interest, convenience, or necessity will be served by the proposed operation.

(b) Every application for authority to engage in developmental operation shall be accompanied by a statement signed by the applicant in which it is agreed that any authorization issued pursuant thereto will be accepted with the express understanding of the applicant that it is subject to change in any of its terms or to cancellation in its entirety at any time, upon reasonable notice but without a hearing, if, in the opinion of the Commission, circumstances should so require.

(c) The provisions of paragraph (a) of this section do not apply when an application is made for a developmental station solely for the reason that the frequency requested is restricted to such developmental use.

§ 8.433 *Assignable frequencies.* (a) Stations engaged in developmental operation may be authorized to use a frequency or frequencies, available for the service and class of station which they propose to operate. The number of frequencies assignable to a particular station shall depend upon the specific requirements of the developmental program and the number of frequencies available for such use in the particular area where the station is to be operated.

(b) In addition to the specific frequencies and frequency bands designated in this part as available for a particular service and class of station each of the following frequencies and frequency bands available for the maritime mobile service may be licensed as an assigned frequency or as an authorized frequency band, respectively, for use by developmental ship stations subject to the applicable provisions of this part:

156.7 Mc
156.9 Mc
3,500 Mc to 8,700 Mc
6,425 Mc to 6,575 Mc
11,700 Mc to 12,200 Mc
26,000 Mc to 30,000 Mc

and

16,000 Mc to 18,000 Mc, 2,450 Mc to 2,500 Mc on the condition that no protection shall be given from interference caused by emissions from industrial, scientific or medical equipment. The class of emission, the frequency tolerance, the emission bandwidth and the maximum transmitter power for use on frequencies within these bands above 2,400 Mc shall be designated in each station authorization.

§ 8.434 *Use of developmental stations.* (a) Developmental stations on board ship shall be constructed and used in such manner as to conform with all applicable technical and operating requirements[1] contained in this part, unless deviation therefrom is specifically provided in the station authorization.

(b) Communication with any station of a country other than the United States is prohibited unless specifically authorized by the terms of the station authorization.

(c) The operation of a developmental station is subject to the condition that harmful interference is not caused to the operation of stations licensed in an established service under any part of the Commission's rules.

§ 8.435 *Developmental program.* (a) The developmental program as described by the applicant in the application for authorization shall be substantially followed unless the Commission shall otherwise direct.

(b) Where some phases of the developmental program are not covered by the general rules of the Commission and the rules in this Part, the Commission may specify supplemental or additional requirements or conditions in each case as deemed necessary in the public interest, convenience or necessity.

(c) The Commission may, from time to time, require a station engaged in developmental work to conduct special tests which are reasonable and desirable to the authorized developmental program.

§ 8.436 *Report of operation required.* A report on the results of the developmental program shall be filed with and made a part of each application for renewal of authorization, or in cases where no renewal of authorization is requested, such report shall be filed within 60 days of the expiration of such authorization. Matters which the applicant does not wish to disclose publicly may be so labelled; they will be used solely for the Commission's information and will not be publicly disclosed without permission of the applicant. The report shall include comprehensive and detailed information on the following:

(a) The final objective of the developmental operation.

(b) Pertinent results of operation to date.

(c) Analysis of the results obtained.

(d) Copies of any published reports.

(e) Need for continuation of the program if such need exists.

(f) Number of hours of operation on each authorized frequency during the term of the license to the date of the report.

§ 8.437 *Identification of station.* (a) The radiotelegraph and radiotelephone emissions of a developmental station on board ship shall be clearly identified in the manner provided in §§ 8.326 and 8.364, respectively.

(b) The facsimile emissions of a developmental station on board ship shall be identified either by telegraphy or by telephony as provided in §§ 8.326 and 8.364, respectively.

(c) All other classes of emission of a developmental station on board ship shall be identified as prescribed in the respective station authorization.

SUBPART R—COMPULSORY SHIPBOARD RADIO INSTALLATIONS[1]

§ 8.501 *Inspection of installation.*[2] (a) In accordance with paragraph (a) of § 8.101 and pursuant to section 360 of the Communications Act, every ship of the United States subject to Part II of Title III of the Communications Act, shall have the equipment and apparatus prescribed therein, inspected at least once each year by the Commission. The issuance of an appropriate certificate[3] in behalf of any vessel of the United States concerning the radio particulars provided for in the Safety Convention is subject to a finding by the Commission that such vessel complies in an efficient manner with the applicable radio and communication provisions of that convention or that, pursuant to the provisions of Article 28 of that Convention, such vessel is exempt from those provisions of that Convention.

(b) In accordance with Article 54 of the Safety Convention, every ship of the United States holding a Safety Certificate, Safety Radiotelegraphy Certificate or Exemption Certificate is subject, when in a port of any foreign country

[5] See § 8.74 in respect to call signs of ship radar stations.

[1] Such requirements are those applicable to the corresponding established class of station including provisions relating to operator requirements, station logs, station documents and assignment of call signs.

[1] With respect to required operators, watches, and use of auto-alarms, see Subparts F and H of this part.

[2] See §§ 8.46, 8.47, 8.48 and 8.49.

[3] See section 359 of the Communications Act.

which is a party to the Safety Convention to control by officers duly authorized by the government of that country, in so far as that control is directed towards verifying that there is on board a valid convention certificate, and if necessary, that the conditions of the vessel's seaworthiness correspond substantially with the particulars of that certificate; that is to say, so that the ship can proceed to sea without danger to the passengers and the crew.[4]

§ 8.502 *Main and emergency installations.* (a) A radio installation on board a vessel subject to Title III, Part II of the Communications Act, to be construed as a main installation and a separate emergency or reserve installation, shall comply with the following conditions, in addition to all other requirements:

(1) A main radio transmitter and an associated main radio receiver shall be installed.

(2) A separate emergency radio transmitter and an associated separate emergency radio receiver shall be installed.

(3) Emergency electric lights shall be installed.

(4) An emergency power supply shall be installed.

(5) A main antenna and a separate emergency antenna shall be installed.

(b) Whenever a main installation only is provided on board a cargo vessel in accordance with the terms of subsection (a) of section 354 of the Communications Act, this installation shall comply in full with all rules and regulations of the Commission that apply to an emergency or reserve installation on board a vessel subject to Title III, Part II of the Communications Act.

§ 8.503 *Requirements of main installation.* (a) All main installations on board vessels subject to Title III, Part II of the Communications Act shall comply with the following conditions, in addition to all other requirements:

(1) The main antenna shall be as efficient as is practicable under the prevailing physical limitations and shall be adequately installed and protected so as to insure proper operation, and so as not to endanger the ship and the required radio installation. For the purpose of insuring adequate protection against failure of the main antenna installation when severe mechanical stress is suddenly applied, an approved "safety link"[5] shall be provided as a component of this installation.

(2) The main transmitter shall be of the electron-tube type[6] and shall be capable of meeting the requirements of § 8.552.

(3) The main receiver shall be capable of efficiently receiving radiotelegraph signals, classes A1 and A2 emission, on all frequencies within the bands 100 to 200 kilocycles and 350 to 515 kilocycles, and in addition class B emission within the band 485 to 515 kilocycles. In addition, it shall be fitted with a head receiver[7] capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive. Where a loudspeaker[7] is additionally provided for use in accordance with the provisions of § 8.204, such device also shall be capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive.

(4) There shall be readily available for use at all times under normal load conditions, when the vessel is leaving or attempting to leave a harbor or port for a voyage in the open sea, while being navigated in the open sea outside a harbor or port, and when required during inspection of the ship radio station by an authorized representative of the Commission, a main power supply for the main radio installation capable of supplying electrical power sufficient to energize simultaneously and efficiently the main transmitter at its required antenna power[8] and the main receiver; and at the same time to charge, at the required rate(s), all storage batteries used as the emergency power supply, and any other storage batteries which are charged by connection to this radio room main power supply. Under this load condition and at all times herein specified, the potential(s) of the main power supply at the radio room terminals shall not deviate from its rated electrical potential(s) by more than 10 percent on vessels completed on or after July 1, 1941, nor by more than 15 percent on vessels completed before that date.

(5) For the purpose of determining the potential(s) of the main power supply of the main transmitter at its radio room terminals, a suitable voltmeter or voltmeters of approved accuracy shall be permanently installed in the main radio operating room.

§ 8.504 *Requirements of emergency or reserve installation.* (a) All emergency or reserve installations on board vessels subject to Title III, Part II of the Communications Act shall comply with the following conditions, in addition to all other requirements:

(1) The emergency installation shall be capable of being placed in operation (by a qualified operator who is on duty at the operating location) within a maximum time of 1 minute after need arises for its use.

(2) The emergency antenna shall be as efficient as is practicable under the prevailing physical limitations and shall be adequately installed and protected so as to insure proper operation in time of an emergency, and so as not to endanger the ship and the required radio installation.

(3) The emergency transmitter shall be of the electron-tube type[9] and shall be capable of meeting the requirements of § 8.553.

(4) The emergency receiver shall be capable of efficiently receiving radiotelegraph signals, classes A1 and A2 emission, on all frequencies within the band 350 to 515 kilocycles, and class B emission on all frequencies within the band 485 to 515 kilocycles. In addition, it shall be fitted with a head receiver[10] capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive. Where a loudspeaker is additionally provided for use in accordance with the provisions of § 8.204, such device also shall be capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive.

(5) There shall be readily available for use at all times under normal load conditions, when the vessel is leaving or attempting to leave a harbor or port for a voyage in the open sea, while being navigated in the open sea outside a harbor or port, and when required during inspection of the ship radio station by an authorized representative of the Commission, an emergency power supply for the emergency installation (independent of the propelling power of the ship, and any other electrical system; and independent of the main power supply where a separate main and emergency or reserve installation is provided for the purpose of compliance with subsection (a) of section 354 of the Communications Act) capable of supplying electrical power sufficient to energize simultaneously and efficiently the emergency transmitter at its required antenna power[11] and the emergency receiver. Such emergency power supply shall be maintained in readiness to operate effectively and shall have a reserve capacity of at least 6 continuous hours at all times while the vessel is navigated outside a harbor or port and whenever the vessel leaves or attempts to leave a harbor or port of the United States for a voyage in the open sea.

(6) There shall be provided emergency electric lights of not less than 10 watts per unit, capable of being energized solely by the radio installation emergency power supply and connected thereto through individual fuses. These electric lights shall be capable of operation independent of any other electrical system and shall be arranged so as to provide satisfactory illumination of the main and emergency radio operating controls and radio station clock. The emergency lighting electrical circuits shall be arranged so as to avoid the application of excessive voltage to the emergency lights during the charging of any emergency batteries. The provisions of this paragraph or of paragraph (j) of § 8.8 shall not preclude the use of any other power supply for energizing these lights solely as an additional provision.

(7) All emergency power supply circuits shall be appropriately fused to afford adequate protection from serious overloads or short-circuits.

(8) No electrical load circuits except those of the emergency installation (includes the required radio station emergency light(s)) shall be connected to the emergency power supply: *Provided*, That an approved automatic-alarm-signal keying device, or the audible warning apparatus associated with an approved auto-alarm receiver, or both, may be connected to that part of the emergency power supply furnishing power to the emergency transmitter: *Provided further*, That the reserve capacity of the emergency power supply shall include the additional capacity required to energize, in a normal manner and to a normal extent, any keying device or audible warning apparatus that may be connected as herein authorized, including sufficient capacity to energize any keying device continuously for a period of one hour.

(9) The emergency power supply shall be located as near to the emergency transmitter and receiver as is practicable: *Provided*, That the location of such power supply complies with all applicable rules and regulations of the United States Coast Guard.

(10) The cooling system of all internal-combustion engines used as part of the emergency power supply shall be adequately protected or treated to prevent freezing or overheating consistent with the season and route to be traveled by the particular vessel involved.

(b) (1) The shipowner, operating company, or station licensee, if directed by the Commission or its authorized representative shall prove by demonstration prescribed in subparagraphs (2), (3), (4) and (5) of this paragraph or by such other means as may be deemed necessary, that the emergency installation satisfies the 6-hour operating requirement of law.

(2) When the emergency power supply, on board a vessel required by law to be equipped with a radio installation, consists of or includes a storage battery, proof of the ability of such battery power supply to operate continuously and effectively over a prescribed period of time is authorized to be established by a discharge test over such prescribed period of time, when supplying power at the voltage required for normal and effective operation, to an electrical load as prescribed by subparagraph (4) of this paragraph.

(3) When the emergency power supply, on board a vessel required by law to be equipped with a radio installation, consists of or includes an engine-driven generator, proof of the adequacy of the engine fuel supply to operate the unit continuously and effectively over a prescribed period of time may be established by using as a basis the fuel consumption during a continuous period of 1 hour when supplying power, at the voltage required for normal and effective operation, to an electrical load as prescribed by subparagraph (4) of this paragraph.

(4) The electrical load to be supplied by an emergency power supply for the purpose of establishing proof of required capacity shall be computed in accordance with a standard method specified in each case by the official representative of the Commission who observes the particular demonstration of capacity.

(5) At the conclusion of the tests specified in subparagraphs (2) and (3) of this paragraph, no part of the emergency source of power shall have an excessive temperature rise, nor shall the specific gravity or voltage of the storage battery be below the 90 percent discharge point as determined from information (such as voltage curves or specific gravity tables) supplied by the manufacturer for the type of battery involved.

§ 8.505 *Tests of emergency installation.* (a) On vessels required by law to be equipped with an emergency or reserve installation, the condition of this installation shall be determined by test and actual operation prior to the vessel's departure from each port[12] (but not necessarily more than once each day) and on each day the vessel is outside a harbor or port. When storage batteries are used as an emergency power supply or are used for the purpose of starting an emergency engine-driven generator, tests shall be made of the charging circuits for polarity and correct charging rate. Hydrometer readings of the electrolyte of a pilot cell and such other cells as are necessary to determine the state of charge of an emergency lead-acid storage battery and voltage readings under normal load as are necessary to determine the state of charge of emergency storage batteries of other types shall be taken. When an engine-driven generator is used as an emergency power supply, a check shall be made of the quantity of fuel in the supply tank.

(b) When an automatic-alarm-signal keying device is installed in accordance with § 8.508, this device shall be operated to determine that it is in efficient operating condition prior to the vessel's departure from each port (but not necessarily more than once each day) and on each day the vessel is outside a harbor or port. To avoid the actual transmission of auto-alarm signals during such test operation, the radiotelegraph transmitter(s) to which this device is connected shall not be energized.

§ 8.506 *Use of emergency installation.* (a) The emergency installation on board a vessel subject to Title III, Part II of the Communications Act, while being navigated in the open sea, is authorized to be used only for safety communication[13] except that it may be used for other communication for a period not to exceed 1 hour per day in the aggregate. However, the emergency receiver and its emergency power supply (if such power supply is a storage battery) may be used at any time to maintain a watch for safety purposes, if such use will not reduce the ability of the emergency power supply to energize the emergency installation for a period of at least 6 consecutive hours.

(b) When more than one storage battery is installed on board a ship for the purpose of providing an emergency power supply in compliance with Title III of Part II of the Communications Act, any one of these batteries may be designated at any time as the required emergency power supply or a part thereof, upon the express condition that such battery, whenever so designated, is capable of energizing (independent of the propelling power of the ship and any other electrical system) the associated component or components of the emergency installation for a period of at least 6 consecutive hours.

(c) The emergency power supply on board a cargo vessel (on which a separate[14] main and emergency installation is not provided), subject to Title III, Part II of the Communications Act, while being navigated in the open sea, is authorized to be used only for safety communication[15] except that it may be used for other communication for a period not to exceed 1 hour per day in the aggregate.

(d) Any storage battery whether or not it is the emergency power supply or a part thereof may be used at any time to maintain a watch for safety purposes upon the express condition that such use will not reduce the ability of the emergency power supply to energize the emergency installation for a period of at least 6 consecutive hours as required by subsection (f) of section 354 of the Communications Act.

§ 8.507 *Routing of electrical wiring.* The electrical conductors connecting the main radio installation to its normal power supply and the electrical conductors connecting the emergency power supply to the emergency or reserve installation shall be routed so as to afford adequate protection from mechanical injury, shall be adequately protected from overload by fuses, and shall be kept clear of electrical grounds. If, because of the ship's structure, a long, indirect routing is necessary, an additional equivalent circuit shall be provided over an alternate route.

§ 8.508 *Automatic-alarm-signal keying device.* After July 1, 1951, each passenger ship of the United States and after July 1, 1952, each ship of the United States, which is subject to Title III, Part II of the Communications Act shall be fitted with one or more automatic-alarm-signal keying devices of a type approved by the Commission in accordance with § 8.555.[16]

---

[4] The privileges of the Safety Convention may not be claimed in favor of any ship unless it holds a proper valid certificate. In the event of control giving rise to intervention of any kind in a foreign port, the officer carrying out the control is required to inform the United States Consul of all the circumstances in which intervention is deemed to be necessary.

[5] A safety link may be described as a device which, under heavy stress, will operate to greatly reduce such stress without breakage of the antenna, the halyards, or any other antenna-supporting elements.

[6] Upon proper application and satisfactory demonstration being made, the Commission for the purpose of this regulation will consider approval of transmitters other than those of the electron-tube type, except transmitters employing class B emission.

[7] See paragraph (kk) of § 8.7.

[8] The antenna power specified in § 8.552.

[9] Upon proper application and satisfactory demonstration being made, the Commission for the purpose of this section will consider approval of transmitters other than those of the electron-tube type, except transmitters employing class B emission.

[10] See paragraph (kk) of § 8.7.

[11] The antenna power specified in § 8.553.

[12] It is recognized that in some cases, tank vessels cannot meet this requirement when in port because of the hazardous nature of the cargo being handled.

[13] See paragraph (a) of § 8.6.

[14] See paragraph (b) of § 8.502.

[15] See paragraph (a) of § 8.6.

[16] The provisions of this section (8.508) supersede Order No. 114 of the Commission, and said order is hereby canceled.

§ 8.509 *Installation of automatic-alarm-signal keying device.* (a) The automatic-alarm-signal keying devices required by § 8.508 shall be installed in an accessible location in the radio room so as to be capable of automatically keying alternatively either the main or the emergency transmitter. When only one automatic-alarm-signal keying device is installed for this purpose, means shall be provided in the radio operating room for instantly using this device to key alternatively either the main transmitter or the emergency transmitter: *Provided*, That whenever one transmitter is employed as both a main and emergency transmitter on board a cargo vessel, this requirement will be satisfied when the automatic-alarm-signal keying device is capable of automatically keying this transmitter only. Only one control shall be provided for starting and stopping each automatic-alarm-signal keying device; this control shall be located in the radio room.

(b) The required automatic-alarm-signal keying device shall be capable of operating automatically for a continuous period of at least 1 hour from a source of power independent of the propelling power of the ship and independent of any source of power other than the emergency power supply or the storage battery used to energize a required automatic-alarm receiver.

(c) Each automatic-alarm-signal keying device installed on board a vessel pursuant to § 8.508, shall be furnished with a durable nameplate bearing type and serial number and the month and year of completion by the manufacturer.

§ 8.510 *Auto-alarm.* (a) An auto-alarm which is installed and used on board a cargo vessel of the United States pursuant to the provisions of § 8.205, shall be a type of auto-alarm approved by the Commission in accordance with subsection (x) of section 3 of the Communications Act and § 8.554.

(b) The Commission shall be informed in writing on the prescribed form [17] immediately upon completion of each auto-alarm installation on board any vessel of the United States. Each report shall specify the type and serial number of the alarm, the name of the vessel, the date of completion of installation, the call letters and name of licensee of the ship radio station and the name of the owner and operating company of the vessel.

§ 8.511 *Installation of auto-alarm.* A vessel shall be considered as fitted with an auto-alarm in accordance with the requirements of Title III, Part II of the Communications Act and the radio provisions of the Safety Convention when the auto-alarm is a type approved by the Commission as prescribed by § 8.510 and the auto-alarm installation on board such vessel complies with the conditions prescribed in the following paragraphs of this section.

(b) Each auto-alarm of a type approved by the Commission when first installed on board a vessel of the United States, shall bear an identifying serial number. Two or more principal components of one complete installation shall bear the same number. After the initial installation, if any principal component is entirely replaced, the substitute unit shall bear the serial number of the initial unit but must be identified in addition as a replacement. For this purpose the principal components of the following types of approved auto-alarms are designated as follows:

(1) *Radiomarine Corporation of America Models AR–8600 and AR–8600–X auto-alarms.* One combined receiver and selector unit, without regard to container; one control and terminal box.

(2) *Radiomarine Corporation of America Model AR–8601 auto-alarm.* One combined receiver and selector unit, without regard to container; one control and terminal unit.

(3) *Mackay Radio & Telegraph Co. auto-alarms, Types 101–A and 101–B manufactured by Federal Telegraph Co.* One selector unit without regard to container; one receiver unit, without regard to container.

(4) *Mackay Radio and Telegraph Company, auto-alarm, Type 5001–A.* One combined receiver and selector unit, without regard to container.

(c) The auto-alarm shall be located in the main radiotelegraph operating room and shall be adequately installed and protected so as to insure proper operation.

(d) Approved apparatus shall be provided for giving an audible warning in the main radiotelegraph operating room, in the radio operator's cabin, and on the navigating bridge. This apparatus shall operate continuously after the auto-alarm has been actuated by an alarm signal or by failure of the auto-alarm system, until manually stopped. Only one switch for stopping the audible warning apparatus from functioning is authorized and this shall be located in the main radiotelegraph operating room and shall be capable of manual operation only.

(e) Failure of the auto-alarm to function normally because of prolonged atmospherics (static) or other prolonged interference, or both, shall operate a visual indicator on the bridge. The type and method of installation of such visual indicator shall comply with requirements of the United States Coast Guard.

(f) When an auto-alarm is dependent for effective operation upon a power supply having a voltage within definite upper and lower limits, such auto-alarm shall be fitted with an auxiliary device which (1) will energize the audible alarms if and when this power supply fails or its voltage exceeds the limits specified by the Commission for the particular type of alarm involved; or (2) will automatically connect the auto-alarm to an auxiliary power supply, the voltage of which is within the specified limits.

(g) The testing device [18] of the auto-alarm shall be adjusted to produce a test signal of the correct value. This adjustment shall be considered satisfactory when it becomes necessary to turn the sensitivity control from its position of lowest sensitivity (zero dial position) to its position of approximately one-third maximum sensitivity before the alarm can be actuated.

§ 8.512 *Auto-alarm instructions.* (a) There shall be furnished at least two sets of written instructions for the guidance of the ship station radio operator and ship's officers relative to the auto-alarm, which shall include:

(1) A general technical description of the auto-alarm, including a circuit diagram of the auto-alarm receiver and a wiring diagram of its complete installation on shipboard.

(2) A general explanation of its principles of operation.

(3) A list of faults which may be indicated by the sounding of the audible alarm.

(4) Explanation of how to correct faults, remove and replace defective parts and perform limited repairs at sea.

(5) Explanation of how to test the alarm and adjust the sensitivity control to the "optimum" setting, which shall be summarized upon a card and permanently attached to the front of the alarm in a conspicuous position.

(6) Explanation of the effect of various sensitivity control settings upon the operation of the alarm, which shall be summarized upon a card and permanently attached to the front of the alarm in a conspicuous position.

(7) Description of procedure to be followed with respect to operator making adjustments when alarm bell sounds and also in making log entries.

§ 8.513 *Interior communication system.* Pursuant to subsection (g) of section 354 of the Communications Act, an efficient interior communication system shall be provided between the bridge of a ship and the radio room, in all cases where the radio room does not adjoin or open onto the navigating bridge structure; further, an efficient interior communication system shall be provided between the bridge and the location of the direction-finding apparatus whenever the latter is not located on the bridge or within any compartment adjoining or opening onto the navigating bridge structure. When the operating position of the emergency radio installation is not located in the compartment normally used for operating the main radio installation, an efficient interior communication system shall be separately provided between the bridge and each of these radio-operating positions.

§ 8.514 *Requirements for interior communication systems.* The interior communication systems required by § 8.513 shall be capable of providing efficient signalling and communication, shall be independent of any other communication system on the ship, and shall be a type of system approved by the United States Coast Guard. Further, the location and termination of individual systems shall be subject to approval by the Commission.

§ 8.515 *Radio station clock.* The radio station clock required by § 8.114, when installed on board a vessel subject to Title III, Part II, of the Communications Act, shall, in addition to the requirements of § 8.114 have a sweep second hand and an hour dial not less than 5 inches in diameter, and shall be capable of operation for at least 8 days on one winding: *Provided*, That deviations from these requirements may be authorized by the Commission if such deviation does not adversely affect the reliability of the clock or the ability of the ship radio operator to transmit properly timed auto-alarm signals. A request for approval of any deviation from these requirements must be accompanied by a sample of the proposed clock face.

§ 8.516 *Direction-finder.* Each passenger ship of 5,000 gross tons or over which is subject to the requirement set forth in subsection (a) (2) of section 351 of the Communications Act shall be equipped with an efficient direction-finder (radio compass) properly adjusted in operating condition and approved by the Commission in accordance with subsection (h) of section 354 of the Communications Act and § 8.517.

§ 8.517 *Requirements for direction-finder.* (a) To be approved by the Commission, as provided by § 8.516, the radio direction finder (radio compass) shall

(1) Be capable of efficiently receiving signals (at least types A2 and B emission) with the minimum of receiver noise, on each radio channel within the frequency band 285 to 515 kc which is designated by the International Radio Regulations for distress, direction-finding, or marine radio beacons;

(2) Be capable of receiving types A1, A2, and B emission, if installed on board ship after January 1, 1940;

(3) Be capable of taking bearings on received radio signals as set forth in subparagraphs (1) and (2) of this paragraph, from which the true bearing and direction may be determined;

(4) Be accurately calibrated for the purpose of taking bearings from which the true bearing and direction may be determined for actual use in maritime radiolocation service and maritime radionavigation service.

(5) Have a sensitivity, in the absence of interference, sufficient to permit of accurate bearings being taken on a signal having a field strength as low as 50 microvolts per meter.

(b) The calibration of the direction finder shall be verified whenever any changes are made in the physical or electrical characteristics or the location of any antenna(s) on board the vessel, or whenever any changes are made in any structure(s) on deck, which might appreciably affect the accuracy of the direction finder. The calibration particulars shall be checked at yearly intervals or as near thereto as possible. A record of the calibrations and of any checks made of their accuracy shall be maintained on board the vessel for a period of not less than one year from date of the related action.

(c) If, in the discretion of the Commission, the direction finder requires recalibration at any time as the result of official inspection or pertinent facts coming to the attention of the Commission, approval for the purpose of section 351 of the Communications Act may be withdrawn pending such recalibration.

§ 8.518 *Auxiliary antenna.* On a vessel required by law to maintain a watch by a qualified operator or operators [19], an effective auxiliary antenna or other approved arrangement shall be provided whenever necessary to avoid unauthorized [19] interruption or reduced efficiency of this watch by reason of unavailability of the normal receiving antenna for use during the period of time when a radio direction finder on board the same vessel is being operated.

§ 8.519 *Lifeboat radio facilities.* Pursuant to section 355 of the Communications Act, every motor lifeboat, required to be equipped with radio by treaty or convention to which the United States is a party, by statute, or by regulation made in conformity with a treaty, convention, or statute, shall be fitted with an efficient radio installation which complies with all requirements set forth in the following § 8.520.

§ 8.520 *Lifeboat radio installation.* (a) Each lifeboat radio installation which complies with the requirements of this section shall be deemed to be efficient for the purpose of section 355 of the Communications Act and to meet all requirements for such installations which the Commission has found necessary to promote the safety of life.

(b) The lifeboat radio installation shall include the following components, as a minimum:

(1) An antenna for transmitting and receiving, either fixed in useable position in the lifeboat or capable of being quickly placed in useable position by a person in the lifeboat while afloat; together with such antenna accessories as are necessary;

(2) An emergency radio transmitter, with radiotelegraph key;

(3) An emergency radio receiver, with headset;

(4) An emergency power supply of required capacity;

(5) The necessary material or device for a "ground" connection to the water when the lifeboat is afloat;

(6) Necessary operating instructions;

(7) Necessary auxiliary equipment and spare parts.

(c) Each of the components specified in paragraph (b) of this section shall be a type of apparatus or shall comprise such items as are approved by the Commission in accordance with the provisions of § 8.556, and, when applicable, §§ 8.557 and 8.558. When all components of any particular lifeboat radio installation have been approved by the Commission, the installation, as such, may be identified specifically as a complete type-approved lifeboat radio installation.

(d) A storage battery power supply of a lifeboat radio installation shall be capable at all times of operating the entire lifeboat radio installation for a period of at least 6 continuous hours in accordance with paragraph (a) (5) of § 8.504. With the exception of the electric starter of the lifeboat motor, the storage battery or batteries may be used, however, to operate equipment other than radio; provided, such additional use of the battery or batteries will not affect, adversely, the ability of the installation to fulfill the foregoing 6-hour radio operating requirement. All individual circuits connected to the transmitter storage battery shall be independently and properly fused.

(e) Any storage battery provided as a power supply for a lifeboat radio installation, or as a reserve power supply therefor, shall be kept adequately charged at all times while at sea. When the vessel is under way, provision shall be made for adequate charging of the storage batteries and the routine inspection of all batteries used to supply the power to lifeboat radio installations. The charging and routine inspection of such batteries shall not require their removal from the lifeboats in which they are installed. The necessary charging equipment shall be arranged so as not to interfere with the launching of the lifeboats, and for this purpose shall be easily and quickly removable. For new radio installations completed after January 1, 1940, in motor lifeboats of oceangoing passenger vessels, the charging circuit for the lifeboat radio storage battery or batteries (when such batteries are used as a source of power) shall be routed through the main radiotelegraph operating room of the vessel. A device which, during charge of the lifeboat radio battery or batteries will give a continuous indication of the polarity and the rate of such charge, shall be connected in this charging circuit, and shall be located in the main radiotelegraph operating room for purposes of frequent observation.

(f) In addition to the foregoing, lifeboat radio installations of the type set forth in § 8.557 shall comply with the following requirements:

(1) Storage batteries shall be mounted in cabinets that will provide protection from salt-water spray and also allow proper ventilation, subject to approval of the United States Coast Guard.

(2) Provision shall be made to protect the operator from the elements when the lifeboat is afloat in a heavy sea.

(3) The use of metal masts and stays, unless broken by insulators or of any structure at electrical ground potential at the masthead(s) is not permitted: *Provided, however*, That this limitation shall not prohibit the use of a metal mast or masts used as the antenna. Provision shall be made for the expeditious erection of the antenna system under adverse weather and sea conditions.

(g) The lifeboat radio installation shall be inspected and tested [20] by a qual-

[17] FCC Form No. 500, available upon request, should be used for this purpose.

[18] See § 8.206 relative to required testing of the auto-alarm.

[19] See Subparts H and I of this part.

[20] Subject to such limitations as may be imposed by the Administration having jurisdiction at foreign ports. It is necessary that each lifeboat transmitter be licensed by the Commission to insure compliance with the Rules and Regulations of the Commission, during the required tests with an actual antenna. Operation of a lifeboat transmitter is ordinarily authorized by the regular ship station license when it has been described in the application for such license and the authorization has been approved by the Commission. See § 8.68.

ified representative of the licensee within 24 hours prior to the ship's departure for sea from each port (except not necessarily more than once each week), and with the lifeboat afloat in a harbor or port of the United States when required by an engineer of the Commission. Such inspection afloat shall include an actual test of the transmitter (and receiver when required) connected to the regular lifeboat antenna(s) erected to determine that each is in effective operating condition. When testing with the lifeboat not afloat, the transmitter may be connected to an artificial antenna. The general result of any such inspection and test, whether or not made in a Commission engineer's presence shall be made known to the master of the vessel and shall be entered in the ship's radio station log or recorded in the ship's log if the ship is not provided with a radio station. Inspection of batteries shall be made at least once every seven days by a qualified representative of the licensee, and their condition, and specific gravity in the case of a lead-acid battery, or voltage under normal load in the case of other type batteries (including dry batteries when such batteries are permitted, shall be reported to the master and entered in the ship's radio station log or recorded in the ship's log if the ship is not provided with a radio station. The records of all inspections and tests shall be made available to duly authorized representatives of the Commission upon request. The shipowner, operating company, or station licensee, if directed by the Commission or its authorized representative, shall prove by demonstration, as may be deemed necessary, that a storage battery used for a required lifeboat radio installation is capable of energizing this installation for the required period of time as is stipulated for an emergency power supply in paragraph (b) of § 8.504.

§ 8.521 *Auxiliary equipment and components.* (a) On board all vessels subject to Title III, Part II of the Communications Act, sufficient tools to make any minor adjustments of the main and emergency radio installation shall be provided, together with spare parts and auxiliary equipment sufficient to maintain the installations in efficient working condition. These spare parts and this auxiliary equipment are designated in §§ 8.522 to 8.524 inclusive. Pursuant to the provisions of § 8.525, they shall be located so as to be readily accessible to the radio operator in an emergency.

(b) In addition to the spare parts required by § 8.522, and the auxiliary equipment required by § 8.523, spare parts as are specifically designated in special lists [21] promulgated by the Commission pursuant to the provisions of section 356 (a) (2) of the Communications Act shall be provided for transmitters, receivers, auto-alarms, direction finders, lifeboat radio installations, and other required equipment which have been given type approval by the Commission.

§ 8.522 *General spare parts.* The following spare parts are considered indispensable for the general maintenance of the appropriate shipboard radio installations in efficient working condition on board vessels subject to Title III, Part II of the Communications Act:

(1) Sufficient wire of good electrical conductivity and suitable insulators for the erection of a single-wire antenna of the same configuration and linear dimensions as the main transmitting antenna but not less than 300 feet of such wire and not less than two such insulators; or an assembled single-wire transmitting antenna (including suitable insulators) of the same linear dimensions as the main transmitting antenna.

(2) One sleeve bearing of each type used by all rotating machinery which is a component part of the radio installation required by law.

(3) One complete set of brushes for each unit of rotating machinery which utilizes brushes.

(4) Renewable fuse-cartridges of each type used in connection with units of the radio installation in the amount of at least one-half the number of each size and type in actual use. For each renewable fuse-cartridge in actual use, there shall be available six spare fuse links of appropriate capacity. For each nonrenewable fuse in use, there shall be available six spare fuses of the same type and of appropriate capacity.

(5) One spare electric light bulb for each emergency light required by paragraph (a) (6) of § 8.504.

§ 8.523 *General auxiliary equipment.* (a) The following auxiliary equipment is considered indispensable for the general maintenance of the appropriate shipboard radio installations in efficient working condition on board vessels subject to Title III, Part II of the Communications Act.

(1) One 1- to 2-inch screwdriver with approximately ⅛-inch blade.

(2) One 4- to 6-inch screwdriver.

(3) One set of assorted end wrenches or socket wrenches, or one adjustable end wrench.

(4) One pair 5- to 8-inch side-cutting pliers.

(5) One high-resistance direct-current voltmeter having a resistance of at least 1000 ohms per volt and capable of measuring 2, 6, and 110 volts with an accuracy of at least 3 percent except that on ships where the normal radio room power supply voltage is higher than 110 to 120 volts direct current, the voltmeter shall be capable of measuring this line voltage and 2 and 6 volts with an accuracy of at least 3 percent.

(6) One electric flashlight, two-cell or larger, complete with bulb and battery, or one portable emergency electric lamp (protected from mechanical injury) with at least 10 feet of flexible cord and means for rapid connection to the emergency source of power. One spare bulb of the type used shall be provided.

(7) One hydrometer for use with lead-acid batteries when this type of battery is installed.

(8) Approximately one gallon or more of distilled water, or the same amount of any kind of water suitable for use in the type of storage batteries installed.

(9) Instruction book(s) and circuit diagrams, including modifications, covering transmitter(s), receiver(s), and direction finder, if a direction finder is required.

§ 8.524 *Spare parts for specific apparatus.* (a) Prior to the Commission's approval of a particular type of marine transmitter, receiver or direction finder, and prior to the issuance of associated specific lists [22] of required spare parts and auxiliary equipment, the following spare parts and auxiliary equipment relative to specific apparatus shall be provided in addition to those stipulated in §§ 8.522 and 8.523.

(1) *For each electron tube transmitter (other than lifeboat transmitter).* One radio-frequency oscillator tube, one tube for each radio-frequency amplifier stage, and, if used to provide A–2 emission, one audio-frequency oscillator tube. One tube for a main transmitter or two tubes for an emergency transmiter intended for use in the radio-frequency circuit of transmitters of the self-rectified, simple oscillator type. One anode power-supply rectifier tube for each such tube used. One resistor of each type used as a grid leak; one resistor of each type as used in voltage divider of grid-blocking keying circuit; one resistor of each type as used in series with keying relay winding. The value of each resistor shall be clearly indicated thereon.

(2) *Receivers (other than lifeboat receivers).* One complete spare set of tubes for the receiver(s). One headset (telephone receiver) complete with connecting cord and, if used, a cord-terminal plug.

(3) *Direction finders.* One complete set of tubes for the radio receiver incorporated in the direction finder, when a direction finder is required.

(4) *Lifeboat radio installations.* One complete set of spare parts specifically designated and promulgated by the Commission for the particular type of installation which is type-approved in accordance with § 8.556, and when applicable §§ 8.557 and 8.558.

(5) *Auto-alarms.* One complete set of spare parts specifically designated and promulgated by the Commission for the particular type of auto-alarm which is type-approved in accordance with § 8.554.

§ 8.525 *Location of spare parts.* (a) Spare parts for the direction finder receiver shall be kept in the same compartment or room in which this receiver is located.

(b) Spare parts and auxiliary equipment for the radio-equipped lifeboat, shall be kept in the lifeboat cabin housing the radio equipment.

[21] Lists of spare parts required for specific types of equipment approved by the Commission are furnished to its inspectors in charge at principal ports and are available to others upon request.

[22] Lists of spare parts required for specific types of equipment approved by the Commission are furnished to its inspectors in charge at principal ports and are available to others upon request.

(c) The spare emergency light bulb(s) shall be mounted in close proximity to the corresponding emergency light socket(s).

(d) The antenna wire, antenna insulators, and distilled water, respectively, may be retained in the radio operating room or elsewhere: *Provided,* The antenna material is readily accessible to the radio operator in an emergency.

(e) All other spare parts and auxiliary equipment shall be securely retained preferably in a single space, readily accessible to the radio operator in an emergency, in the main radiotelegraph operating room, or, if desired, in any associated room adjacent to and connected with the main radiotelegraph operating room by an interconnecting doorway.

(f) The space(s) allocated for the location of spare parts and auxiliary equipment in accordance with paragraph (e) of this section shall be used only for this purpose, and such space(s) shall be appropriately and conspicuously marked.

(g) All required spare parts and auxiliary equipment shall be available for observation by authorized representatives of the Commission at the time of inspection of the ship radio installation.

SUBPART S—TYPE APPROVAL OF COMPULSORY SHIPBOARD EQUIPMENT

§ 8.551 *Scope of type approval.* (a) Approval by the Commission of a particular type of equipment in accordance with the provisions of any section or sections of this subpart, for use on board ships for the purpose of compliance with Title III of Part II of the Communications Act, is extended to all equipment of the same identical type, design, and construction, which is manufactured by the same person.

(b) For the purpose of determining compliance with sections 351 (a), 354 (c), (d), (e), and 356 (a) of the Communications Act, the term "transmitter" means a transmitter proper, together with all auxiliary equipment which is deemed necessary to make this unit operate efficiently as a main and/or emergency transmitter in a ship station at sea. For this purpose, each separate motor-generator, rectifier or other unit required to convert the power available as a primary source or sources on the ship, to the phase, frequency, and/or voltage necessary to energize the transmitter proper is construed to be a component of the transmitter.

§ 8.552 *Requirements for main transmitter.* (a) A main electron-tube transmitter, regardless of the date of its completion, installation, or modification, will be type-approved by the Commission as capable of meeting the relevant requirements of section 354, paragraphs (c) and (d) of the Communications Act if it is demonstrated to the satisfaction of the Commission that the transmitter involved, or a transmitter of the same identical type, is capable of meeting the specific requirements of paragraphs (b), (c), and (d) of this section: *Provided,* That, if deemed necessary, a demonstration of the capabilities of an individual main transmitter installed on board a ship may be required to determine compliance with any or all of the following provisions of this section before initial or continued type approval of such transmitter will be given by the Commission.

(b) *Tabulation of basic technical requirements.*

Operating carrier frequency	Frequency tolerance	Class of emission	Percentage [1] modulation (for amplitude modulation)	Modulation frequency (for amplitude modulation)	Antenna power
500 kc.	Plus or minus 0.3 percent until Jan. 1, 1953, except for for transmitters installed after Jan. 1, 1950; plus or minus 0.1 percent for all transmitters installed after Jan. 1, 1950, and for all transmitters after Jan. 1, 1953.	A2	Not less than 70; not more than 100.	At least 1 frequency between 300 and 1250 cycles per second; except for transmitters installed after July 1, 1951, at least 1 frequency between 450 and 1250 cycles per second.	Not less than 200 watts into an average ship station antenna.
Do.	do.	A–1			Not less than 160 watts into an average ship station antenna.
375 kc [2] and 1 authorized working frequency in the band 415 to 490 kc.	do.	A–2	Not less than 70; not more than 100.	At least 1 frequency between 300 and 1250 cycles per second; except for transmitters installed after July 1, 1951, at least 1 frequency between 450 and 1250 cycles per second.	Not less than 200 watts into an average ship station antenna.
Do.	do.	A–1			Not less than 160 watts into an average ship station antenna.

[1] In determining percentage modulation, the following concept is taken into account. In linear modulation, the average amplitude of the envelope is equal to the amplitude of the unmodulated wave, provided there is no zero-frequency component in the modulating wave (as in telephony). For modulating waves having unequal positive and negative peaks, positive and negative modulative factors may be defined as the ratios of the maximum departures (positive and negative) of the envelope from its average value, to its average value.

[2] The frequency 410 kc, when ordered by the Commission, shall be required in lieu of 375 kc.

For the purpose of these specific requirements, the term "average ship station antenna" means an actual antenna installed on board ship having a capacitance of 750 micromicrofarads and an effective resistance of 4 ohms at a frequency of 500 kilocycles, or an artificial (dummy) antenna having the same electrical characteristics.

(c) In addition to the foregoing specific requirements, a main transmitter shall be capable of efficient operation at its required antenna power when adjusted to any required operating frequency and when energized by the main power supply of the ship station in which it is installed or a power supply equivalent thereto: *Provided,* That the potential of the main power supply or equivalent power supply is maintained within the tolerance specified in § 8.503; shall be capable of being adjusted rapidly for operation on any one of its required operating frequencies; shall be provided with an arrangement for conveniently reducing the antenna power to not more than 75 watts, and shall conform with all other applicable rules of this part.

(d) A main transmitter shall be equipped with suitable indicating instruments of standard accuracy and reliability to measure (1) the current in the antenna circuit, (2) the potential of the heating current applied to the cathode or cathode heater of each electron tube or a potential directly proportional thereto, and (3) the anode current of the radio frequency oscillator or amplifier which supplies power to the antenna circuit, or in lieu thereof, the anode current of such oscillator or amplifier plus the anode current of any other radio or audio frequency oscillator(s) or amplifier(s) normally employed as part of the transmitter.

(e) Measurements for the purpose of demonstrating compliance with the specific requirements of this section shall be made by methods acceptable to the Commission.

(1) The antenna power shall be determined by the product of the square of the antenna current and the antenna resistance at the operating carrier frequency, both measured at the same point in the antenna circuit and at approximately ground potential.

(f) Each transmitter which was not in existence prior to February 1, 1938, but which is installed after that date on board a vessel in order to comply with the provisions of this section, shall be furnished with a durable name plate with the month and year of its completion permanently inscribed thereon.

§ 8.553 *Requirements for emergency transmitter.* (a) An emergency electron-tube transmitter will be type-approved by the Commission as capable of meeting the relevant requirements of section 354 (c) and (f) of the Communciations Act if it is demonstrated to the satisfaction of the Commission that the transmitter involved, or a transmitter of the same identical type, is capable of meeting the requirements of paragraphs (b), (c) and (d) of this section when energized for a period of at least six continuous hours by a power supply equivalent to the radio station emergency power supply which is or will be, available on board the vessel on which the transmitter is, or will be, installed and operated: *Provided,* That if

deemed necessary a demonstration of the capabilities of an individual emergency transmitter installed on board a ship may be required to determine compliance with any or all of the following provisions of this section before initial or continued approval of such transmitter will be given by the Commission.

(b) *Tabulation of basic technical requirements.*

Operating carrier frequency	Frequency tolerance	Class of emission	Percentage modulation [1] (for amplitude modulation)	Modulation frequency (for anuplitude modulation)	Antenna power
500 kc.	Plus or minus 0.3 percent until Jan. 1, 1953, except for transmitters installed after Jan. 1, 1950; plus or minus 0.1 percent for all transmitters installed after Jan. 1, 1950, and for all transmitters after Jan. 1, 1953.	A-2	Not less than 70; not more than 100.	At least 1 frequency between 300 and 1250 cycles per second except for transmitters installed after July 1, 1951, at least 1 frequency between 450 and 1250 cycles per second.	Not less than 25 watts into an average ship station antenna.
375 kc [2] and 1 authorized working frequency in the band 415 to 490 kc.	do	A-2	do	do	Do.

[1] In determining percentage modulation, the following concept is taken into account. In linear modulation, the average amplitude of the envelope is equal to the amplitude of the unmodulated wave, provided there is no zero-frequency component in the modulating wave (as in telephony). For modulating waves having unequal positive and negative peaks, positive and negative modulative factors may be defined as the ratios of the maximum departures (positive and negative) of the envelope from its average value, to its average value.

[2] The frequency 410 kc, when ordered by the Commission, shall be required in lieu of 375 kc.

For the purpose of these specific requirements, the term "average ship station antenna" means an actual antenna installed on board ship having a capacitance of 750 micromicrofarads and an effective resistance of 4 ohms at a frequency of 500 kilocycles, or an artificial (dummy) antenna having these same electrical characteristics.

(c) In addition to the foregoing specific requirements, an emergency transmitter shall be capable of efficient operation at its required antenna power when adjusted to any required operating frequency and, when energized by the emergency power supply of the ship station in which it is installed or by a power supply equivalent thereto, shall be capable of being adjusted rapidly for operation on any one of its required operating frequencies, and shall conform with all other applicable rules of this part.

(d) An emergency transmitter shall be equipped with suitable indicating instruments of standard accuracy and reliability to measure the current in the antenna circuit and, if completed by the manufacturer after January 1, 1944, the potential of the heating current applied to the cathode or cathode heater of each electron tube or a potential directly proportional thereto.

(e) Measurements for the purpose of demonstrating compliance with the specific requirements of this section shall be made by methods acceptable to the Commission.

(f) The antenna power shall be determined by the product of the square of the antenna current and the antenna resistance at the operating carrier frequency, both measured at the same point in the antenna circuit and at approximately ground potential.

(f) Each transmitter which was not in existence prior to February 1, 1938, but which is installed after that date on board a vessel in order to comply with the provisions of this section, shall be furnished with a durable name plate with the month and year of its completion permanently inscribed thereon.

§ 8.554 *Requirements for auto-alarm.*

(a) To be approved by the Commission pursuant to section 3 (x) of the Communications Act subsequent to January 1, 1951, each type of auto-alarm not approved prior to that date shall comply with the following requirements: *Provided, however,* That the Commission may, in its discretion, approve an automatic alarm receiver which complies with these requirements and can be actuated by the distress signal - - - — — — - - -.

(1) *Basic technical requirements.* (i) The auto-alarm shall be capable of being operated by not less than 3 nor more than 4 consecutive dashes when the dashes vary in duration from 3.5 seconds as a minimum to a maximum approaching 6 seconds as near as practicable (but not more than 6 seconds) and the spaces between dashes vary in duration from 1.5 seconds as a maximum to the lowest practicable value, preferably not more than 10 milliseconds.

(ii) In the presence of interference (provided it is not continuous) caused by atmospherics and powerful signals other than the alarm signal and without manual adjustment during operation, the auto-alarm shall be capable of positive and reliable operation with a minimum available signal of 100 microvolts from the antenna circuit. It shall be capable under these conditions of operation on signals of the following classes of emission:

(*a*) A2 (carrier modulated 30 percent at each modulation frequency from 300 to 1350 cycles per second, inclusive).

(*b*) B (at each tone frequency from 300 to 1350 cycles per second, inclusive).

(iii) It shall not be made inoperative by any signal, groups of signals, or atmospherics and with respect to received radio signals shall be operated so as to actuate the warning device only by the alarm signal specified by subdivision (i) of this subparagraph.

(iv) The overload capacity must be sufficient to enable the auto-alarm to operate with inputs from the antenna circuit up to 1 volt, under normal operating conditions.

(v) In the presence of atmospherics or interfering signals, the auto-alarm shall automatically adjust itself so that within a reasonably short time it approaches the condition in which it can most readily distinguish the alarm signal.

(vi) The auto-alarm receiver shall be capable of operating when the received auto-alarm signals have a radio-frequency of 500 kilocycles with a sensitivity as set forth in subdivision (ii) of this subparagraph, and shall, in addition, respond without adjustment and with the same sensitivity to signals having any radio-frequency from 492 to 508 kc, inclusive. With respect to the reception of signals having a radio frequency outside the band 492 to 508 kc, the sensitivity of the auto-alarm shall decrease as rapidly as possible, in conformity with the best engineering practice.

(vii) The auto-alarm must not be operated, so as to actuate the warning device, by atmospherics or by any signal from the antenna circuit other than the alarm signal: *Provided,* That received signals other than the alarm signal itself do not in fact constitute a signal falling within the tolerance limits indicated in subdivision (i) of this subparagraph.

(viii) When operated by an alarm signal, or in the event of failure of the auto-alarm apparatus, the auto-alarm shall cause a continuous audible warning to be given in the principal radiotelegraph operating room, in the radio operator's cabin, and on the bridge. In so far as may be practicable, the audible alarm shall also be given in the event of any failure of the auto-alarm system, as a whole, which results in the auto-alarm becoming inoperative.

(ix) Only one switch for stopping the aural warning shall be provided and this shall be located in the principal radiotelegraph operating room.

(x) For the purpose of regularly testing the auto-alarm, the apparatus shall include a generator pre-tuned to the 500 kc distress frequency and a keying device by means of which an alarm signal of minimum strength approximately as indicated in subdivision (ii) of this subparagraph is produced solely for actuating the particular auto-alarm and is not radiated beyond the immediate area of the vessel.

(2) *Requirements as to construction.* (i) The auto-alarm shall consist essentially of:

(*a*) A radio receiver capable of receiving signals emissions of classes A2 and B over the entire frequency range 492 to 508 kc inclusive.

(*b*) A selector device capable of selecting the alarm signal specified under subparagraph (1) (i) of this paragraph.

(*c*) A suitable form of audible alarm (minimum of 3 units required).

(*d*) A means of placing the entire system in or out of operation from the principal radio telegraph operating room.

(*e*) A testing device to determine locally that the auto-alarm system is effectively operative.

(ii) The auto-alarm may be constructed in one or more units, but must

be independent of the ship's regular radio receiving apparatus.

(iii) A telephone jack shall be provided to permit reception, if desired, by a telephone receiver.[1]

(iv) Tuning and timing controls shall not be accessible to the exterior of the device and shall be so designed and housed as to permit adjustment with special tools only.

(v) Once set into operation the audible alarms must continue to function until switched off in the principal radiotelegraph operating room.

(vi) A simple change-over switch shall be provided to perform the following operations:

(*a*) Disconnect the main antenna from all other equipment and connect it to the auto-alarm receiver and place the auto-alarm system in effective operating condition.

(*b*) Conversely, de-energize the auto-alarm system and reconnect the main antenna to other equipment.

(vii) A non-locking or momentary-throw switch shall be provided to permit temporary disconnection of the audible alarm on the bridge and in the operator's quarters when the auto-alarm system is being tested.

(viii) Suitable means of determining that the supply voltages are within the limits required for proper operation of the auto-alarm system shall be provided.

(ix) The receiver and selector shall be of rugged construction throughout, capable of withstanding continuous and severe vibration equivalent to conditions that may be experienced on board a ship under the worst possible conditions and capable of continuous operation over long periods of time.

(x) All units of the auto-alarm system shall be designed and constructed in accordance with generally accepted principles and practices of modern electronic engineering.

(xi) The auto-alarm system shall not be affected by sudden changes in ambient temperature between zero degrees centigrade and 50 degrees centigrade, shall not be affected by salt atmosphere, and by humidity conditions as high as 90 percent at a temperature of 40 degrees centigrade.

(xii) Condensers, transformers, or other units shall not contain compounds which will flow at temperatures below 65 degrees centigrade, which will crack at temperatures above 0° centigrade, which are hygroscopic or which contain any corrosive substance.

(3) *Requirements as to testing and approval.* (i) Before an auto-alarm receiver will be approved by the Commission pursuant to subsection (x) of section 3 of the Communications Act a sample type of such auto-alarm receiver must be submitted for the purpose of demonstrating by means of suitable laboratory and field tests, that it complies with these requirements. Such tests will be conducted by the Commission, the National Bureau of Standards and other cooperating government departments under the test specifications set forth under subparagraph (5) of this paragraph.

[1] See paragraph (kk) of § 8.7.

(ii) Failure to pass any specified test may result, by order of the Commission, in the discontinuance of all tests on the unit or component involved and the immediate rejection of the entire apparatus.

(iii) Manufacturers' tests of the complete device and/or of any components thereof shall be conducted in the laboratory or shop of the manufacturer(s). These tests shall be carried out in accordance with the provisions of subparagraph (4) of this paragraph.

(iv) Laboratory tests conducted by the National Bureau of Standards and/or by any other cooperating Government department, under test specifications prescribed by the Commission shall be at the expense of the manufacturer or person submitting the device for approval. A report of the tests conducted by the Bureau of Standards, and/or other Government department, will be submitted to the Commission only: *Provided,* That such reports will be made available to the manufacturer involved at a subsequent date to be determined by the Commission.

v) Field tests, as deemed necessary or desirable.

(4) *Requirements as to manufacturers' tests.* (i) The following tests shall be conducted by the manufacturer of the auto-alarm device, who shall submit data in affidavit form showing that such tests have been made as hereinafter required prior to submission of a working model for type tests: *Provided, however,* That properly authenticated data obtained from manufacturers of parts used in the construction of the device may be submitted in lieu of the results of such tests conducted by the manufacturer of the complete device. The Commission may require that any or all of the prescribed tests be witnessed by its representative(s).

(*a*) The insulation resistance of the windings and terminals to case and core of transformers and electromagnet coils and the dielectric resistance of condensers shall be measured and data recorded for the information of the Commission.

(*b*) Transformers and/or electromagnet coils shall be energized continuously under normal conditions of operation for a period of one hour at an ambient temperature of 25 degrees centigrade. For purposes of making this test, maximum rated voltage at rated frequency with the secondary of transformers normally loaded and with the frame or enclosure grounded will be applied. Under these conditions the temperature of each transformer and/or electromagnet coil shall not be such as to affect injuriously any of the material used in construction and the temperature rise of the unit undergoing test shall not exceed 40 degrees centigrade at the end of one hour.

(*c*) Immediately after each transformer and/or electromagnet coil has been tested under subdivision (*b*) of this subparagraph, a test for breakdown capability will be made by applying between windings and between each winding and the core or enclosure, for a period of five minutes, a potential ten times the maximum rated effective potential of the circuit in which the coil or winding is connected,

(*d*) All components containing wax or other sealing, insulating or electrolytic compounds shall be placed in an oven and the ambient temperature brought to 75 degrees centigrade and maintained for a period of 15 minutes. They shall then be placed in a refrigerator and the ambient temperature brought to zero degrees centigrade and maintained for a period of 15 minutes. If sealing, insulating or electrolytic compounds flow during this oven test or crack during this refrigerator test, these units will not be acceptable for use as components in the device. The electrical characteristics of each unit shall be measured at these temperatures and any deviations from their normal ratings that would adversely affect the operation of the auto-alarm device shall preclude the use of that component.

(*e*) A sample of each completed [2] electromagnetic winding, fixed metallic [3] resistor, or fixed condenser used for any component of the device shall be immersed in a salt solution composed of two pounds of pure sodium chloride to one gallon of water. The temperature of this solution shall be carried through at least five complete cycles of temperature ranging form normal ambient room temperature (approximately 25 degrees centigrade) to 50 degrees centigrade throughout a period of three days. At the expiration of this test the component shall be washed clean, wiped and dried for a period not exceeding one hour in an atmosphere having a relative humidity of not less than 50 perecnt and a temperature of not more than 30 degrees centigrade. All terminals and windings and condenser dielectrics shall again be measured and recorded for the information of the Commission. The ohmic value of resistors at the beginning and expiration of this test shall also be measured and recorded. Inspection, with case removed if necessary, should evidence no mechanical or electrical defect, or material reduction in insulation; otherwise, the component shall not be acceptable for use in the device.

(5) *Requirements as to laboratory tests.* (i) The following tests shall be conducted at the National Bureau of Standards, Washington, D. C., and shall be at the expense of the manufacturer or person submitting the auto-alarm for approval. The report of these tests will be furnished by the Bureau to the Commission only. Tests will be conducted as described in the following paragraphs with the auto-alarm connected to an artificial antenna consisting of a 20 microhenry inductance, a 500 micromicrofarad capacitor and a 5 ohm resistor connected in series. The receiver will be tested with its internal sensitivity control (if provided) set at maximum sensitivity, except where otherwise specified.

(*a*) Test of sensitivity of the auto alarm at the radio frequency 500 kc to determine operation of the aural warning device.

[2] A "completed" winding of this purpose is either the winding itself, taped and treated; or the winding together with the unit of which it is an inherent part.

[3] This test need not be applied to carbon resistors.

(*1*) Measurement of minimum alarm signal input, A2 emission 30 percent modulated with a 300 cycles per second tone, required to operate aural warning device.

(*2*) Test of operation using 100 microvolts alarm signal input, A2 emission, 30 percent modulated with a 300 cycles per second tone.

(*3*) Test of operation using 1 volt alarm signal input, A2 emission, 30 percent modulated with a 300 cycles per second tone.

(*4*) Using A2 emission, 30 percent modulated with a 1350 cycles per second tone, test as in subdivisions (*1*), (*2*), and (*3*) of this subparagraph.

(*5*) Test of aural warning device operation with 50 microvolts noise input and 100 microvolts alarm signal, A2 emission, 30 percent modulated with a 300 cycles per second tone.

(*b*) Test to determine operation of aural warning device from a 100 microvolts alarm signal, A2 emission, 30 percent modulated with a 300 cycles per second tone transmitted on any radio frequency or frequencies selected by the Commission from 492 to 508 kc, inclusive.

(*c*) Test of auto alarm operation with internal receiver sensitivity control (if provided) set at minimum setting at which 100 microvolts input on the radio frequency 492 kc will operate aural warning device with simultaneous inputs of 100 microvolts auto-alarm signal, A2 emission, 30 percent modulation with an 800 cycles per second tone on 492 kc and 200,000 microvolts, A2 emission (800 cycles per second modulation) unkeyed signal on the frequency 350 kc; similar tests with the same alarm signal and a 25,000 microvolts, A2 emission (800 cycles per second modulation) unkeyed signal on the frequency 460 kc; similar test with internal receiver sensitivity control (if provided) set at minimum setting at which 100 microvolts input on the frequency 508 kc will operate aural warning device with simultaneous input of A2 emission (800 cycles per second modulation) unkeyed signal on the frequency 540 kc at 25,000 microvolts; and similar test with this latter signal on the frequency 650 kc at 200,000 microvolts.

(*d*) Test of selector response to dashes from 3.5 up to 6.0 seconds in duration when the spaces between the dashes have a duration from 10 milli-seconds to 1.5 seconds. These tests shall be made on the radio frequency 500 kc with an input of 100 microvolts, A2 emission, 30 percent modulated with 300 cycles per second tone.

(*e*) Test of ability to avoid selector response to the radio telegraph radiolocation signal "MO", the "M" being sent in 3.5 seconds and the "O" in 4.5 seconds with 0.1 second space between dashes. These tests shall be made on the radio frequency 500 kc using 100 microvolts input, A2 emission, 30 percent modulated with a 300 cycles per second tone.

(*f*) Test of ability of the aural warning device to operate satisfactorily when the auto-alarm becomes inoperative under the following conditions:

(*1*) Filament burn-out of any electron tube in the apparatus;

(*2*) Failure of power supply; and

(*3*) Prolonged static.

(*g*) Tests to determine capability of proper operation of auto-alarm over long periods of time under any condition which may be expected on board ships while being navigated during extreme weather and sea conditions.

(*1*) The auto-alarm device shall be placed in operation for a period of one hour while subjected to each of the following conditions of temperature and relative humidity:

(*i*) 50 degrees centigrade and 50 percent relative humidity.

(*ii*) 30 degrees centigrade and 95 percent relative humidity.

(*iii*) Zero centigrade and 50 percent relative humidity.

(*2*) The auto-alarm device shall be placed in operation for a sufficient length of time under the following conditions to determine whether or not it will operate properly under such conditions:

(*i*) While the device is being rocked in such manner as to simulate a roll and pitch of 45 degrees from the vertical;

(*ii*) When subjected to severe vibration comparable to that which might be experienced on board ship, as for example when subjected to vibrations having a period between 20 and 30 cycles per second and an amplitude [4] of at least 0.03 inch in a direction at an angle of 30 to 45 degrees with the base of the device.

(*h*) Test of the testing device incorporated in the auto alarm.

(*i*) Tests to determine satisfactory operation of the apparatus on a 500 kc alarm signal at temperatures of approximately 20 and 50 degrees centigrade. Tests to be made on the frequencies 500, 492 and 508 kc with an input of 100 microvolts, A2 emission, modulated 30 percent with a 300 cycles per second tone.

(*j*) General inspection of electrical and mechanical features.

(6) *Requirements as to field test.* (i) This test shall be conducted 24 hours a day for a period of not less than 30 consecutive days and shall be for the purpose of ascertaining the reliability of the auto-alarm and its freedom from false operation under practical interference conditions. For this test the auto-alarm shall be connected to an antenna typical of the average main antenna on shipboard and its operation shall be observed continuously during this period.

(ii) During this test period a minimum of 500 test alarm signals shall be transmitted locally while the test antenna is connected to the auto-alarm. The power used for the production of this test alarm signal shall be produced by a suitable radio frequency generator coupled to the antenna system. The receiver internal sensitivity adjustment (if provided) shall be set at the optimum value for the prevailing noise level. During the official test period, adjustment of the auto-alarm shall not be made more than once in each 12 consecutive hours.

(iii) Tests for response to the alarm signal shall be made on at least the radio frequencies 492, 500 and 508 kc in a proportion on each frequency as determined by the Commission.

[4] 0.03 inch total excursion, i. e., 0.015 inch each side of the position of rest.

(b) Each type of auto alarm approved by the Commission prior to the effective date of this section is approved, as to its type for use on board ship as provided by section 353 of the Communications Act or by the applicable provisions of the Safety Convention until such time as the Commission in consideration of developments with respect to improved types of auto alarms, may terminate, in accordance with appropriate rule making proceedings, such type approval.[5]

(c) No change shall be made in any auto-alarm under the type approval identification issued by the Commission, except upon specific authorization by the Commission. When it is desired to make any change, an application therefor, together with pertinent detailed information shall be submitted to the Commission for consideration and appropriate action.

(d) Type approval of an auto-alarm when given by the Commission, may be for a limited period of time only, and is subject to withdrawal if the device proves defective in service and cannot be relied upon under usual conditions of maintenance and operation encountered on board ships at sea. Withdrawal of approval means that no further devices of the particular model affected may be installed, but will not immediately apply to such devices already installed unless it is found that there has been an unauthorized change in design or construction, or the material or workmanship is defective.

§ 8.555 *Requirements for automatic-alarm-signal keying device.* (a) To be approved by the Commission for use in compliance with § 8.508 and to be recognized as being capable of functioning in compliance with §§ 8.508 and 8.509. Each type of automatic-alarm-signal keying device shall comply with the requirements set forth in this section.

(b) No change shall be made in any automatic-alarm-signal keying device under the type approval identification issued by the Commission, except upon specific authorization by the Commission to make such change(s). When it is desired to make any change, an application therefor, together with pertinent detailed information shall be submitted to the Commission for consideration and appropriate action.

(c) Type approval of an automatic-alarm-signal keying device when given by the Commission, may be for a limited period of time only, and is subject to withdrawal if the device proves defective in service and cannot be relied upon under usual conditions of maintenance and operation encountered on board ships at sea. Withdrawal of approval means that no further devices of the particular model affected may be installed, but will not immediately apply to such devices already installed unless it is found that there has been an unauthorized change in design or construction, or the material or workmanship is defective.

[5] The provisions of this paragraph supersede any provisions of any order heretofore promulgated by the Commission which are in conflict herewith.

(1) *Basic technical requirements.* (i) The automatic-alarm-signal keying device may consist of one or more units, either separate and distinct from other units of the ship's radio installation or may be incorporated, if approved by the Commission, as part of any other unit.

(ii) The device shall be designed so as to properly operate, on board ships at sea, the normal keying circuits of any transmitter approved by the Commission for use as a main or as an emergency transmitter in compliance with section 354 of the Communications Act of 1934, as amended.[6]

(iii) Timing-adjustment controls shall not be accessible from the exterior of the device and shall be designed and housed so as to prevent adjustment by unauthorized persons.

(iv) The keying mechanism shall operate so as to repeatedly transmit the alarm signal. For this purpose the dashes transmitted shall have a duration within the limits of 3.8 to 4.2 seconds, and spaces between each of the twelve dashes constituting a series shall have a duration within the limits of 0.8 to 1.2 seconds. Spaces between each series of twelve dashes shall have a duration within the limits of 0.8 second to one minute.

(v) A single control, protected so as to avoid accidental manipulation, shall be provided for placing the device itself into full operation within a maximum period of 30 seconds. Once set into operation, the device shall be capable of continuously and properly operating without further attention for a period of not less than one hour.

(vi) The automatic-alarm-signal keying device shall be capable of being energized solely by a source of power independent of the propelling power of the ship and independent of any other system: *Provided, however,* That the device may be energized by the radio station emergency power supply and any storage battery power supply regularly used for operating a required automatic alarm receiver.

(vii) When the proper operation of the device is dependent upon the maintenance of any inherent conditions of operation within relatively narrow limits, the Commission, as a provision of its approval, may prescribe such limits and require that the device shall include means for indicating to the operator when deviations from the conditions occur.

(viii) Instructions concerning the proper adjustment of the device and the correct indication of any instrument incorporated for the purpose of revealing improper operation, shall be inscribed in a durable manner on a plate mounted on the device in a position to be easily read by the operator.

(ix) Means shall be provided to insure that when the "on-off" control of the device is placed in the "off" position, the keying circuit to the radio transmitter(s) is automatically opened.

(2) *Requirements as to construction.* (i) The design of the automatic-alarm-signal keying device shall be in accordance with the modern engineering practice and the device shall be capable of operating under conditions of constant and severe vibrations and extreme variations of temperature and humidity equivalent to those experienced on board ships at sea under the worst possible conditions. This requirement applies only to use of the device on board such types of vessels as are normally subject to Title III, Part II of the Communications Act.

(ii) A durable nameplate shall be mounted on each device showing the name of the manufacturer, the type and serial number and the month and year of completion by the manufacturer. However, this nameplate need not be provided on a working model submitted to the Commission for type testing and approval.

(3) *Requirements as to testing and approval.* (i) Before an automatic-alarm-signal keying device is approved by the Commission, a working model of the particular type for which approval is desired shall be submitted for inspection, and it shall be demonstrated by means of suitable type tests that it complies with these requirements. The model equipment will be operated in these tests in the same way and under conditions similar to those encountered in actual service. In connection with such tests, the manufacturer shall supply all instructions and/or services which are intended to be supplied to the purchaser of the equipment, including a proposed instruction book and a tentative list of spare parts as would normally be supplied with shipboard installations.

(ii) Failure to pass any specified test may result, by order of the Commission, in the discontinuance of all tests on the particular device involved and in the immediate rejection thereof: *Provided,* That the Commission, within its discretion, may relax to a reasonable extent the provisions of subparagraph (4) of this paragraph with respect to an automatic-alarm-signal keying device which is included as an integral part of any automatic-alarm receiver approved by the Commission and completed by the manufacturer prior to the effective date of these requirements and Type Tests.

(iii) Manufacturers' tests of the complete device and/or of any components thereof shall be conducted in the laboratory or shop of the manufacturer(s). These tests shall be carried out in accordance with the following requirements under the heading "Manufacturers' Tests" and at the expense of the manufacturer or person submitting the device for approval.

(iv) Laboratory tests shall be conducted by the National Bureau of Standards, and/or by any other cooperating government department, under test specifications prescribed by the Commission and shall be at the expense of the manufacturer or person submitting the device for approval. A report of the tests conducted by the Bureau of Standards, and/or other government department, will be submitted to the Commission only: *Provided,* That such reports will be made available to the manufacturer involved at a subsequent date to be determined by the Commission.

(v) Field tests, as deemed necessary or desirable.

(4) *Requirements as to manufacturers' tests.* (i) Tests shall be conducted by the manufacturer of the automatic-alarm-signal keying device, who shall submit proof in affidavit form that they have been made as required, together with supporting data: *Provided, however,* That properly authenticated data obtained from manufacturers of parts used in the construction of the device may be submitted in lieu of the results of such tests conducted by the manufacturer of the complete device.

(ii) Sufficient tests shall be applied to all components to determine the durability of materials, character of workmanship, and that the electrical and/or mechanical characteristics are those required for efficient operation of the device.

(5) *Requirements as to laboratory tests.* (i) The automatic-alarm-signal keying device shall be capable of operating the keying circuit of any transmitter approved by the Commission for use as a main transmitter or as an emergency transmitter in compliance with section 354 of the Communications Act of 1934.[7] For the purpose of demonstrating compliance with this requirement the transmitter keying circuit of the device shall be tested for a direct current carrying capacity of two amperes through a non-inductive resistance of 115 ohms. Terminals, electrical conductors and keying contacts shall be of sufficient size and properly spaced and insulated for these values of current and for the voltage which will necessarily be applied in this test. During this test arcing shall not occur when the keying contacts are operated, which would unduly affect the duration of the dashes and spaces between dashes, or which would otherwise adversely affect the operation of an approved radiotelegraph transmitter keyed by the device.

(ii) The automatic-alarm-signal keying device, if electrically driven, shall be capable of operation when the required electrical energy is furnished solely by an independent power supply. For the purpose of demonstrating compliance with this requirement, the following tests are prescribed:

(*a*) The device shall be operated continuously for a period of one hour from a power supply equivalent to the radio station emergency power supply or the required automatic-alarm receiver storage battery power supply of vessels on which the device is to be used,[8] or from a separate and independent source of power furnished as an integral part of the device. For this operation test the

[6] A list of transmitters approved by the Commission for this purpose will be furnished upon request.

[7] A list of the types of transmitters approved by the Commission for this purpose will be furnished upon request.

[8] Radio station emergency power supplies having potentials of 12, 24 and 110 volts are commonly used on board vessels of the United States. Twelve-volt emergency power supplies are most common on these vessels. Approved automatic alarm receivers used on board United States ships to date are energized by a storage battery power supply of either 6 or 24 volts.

potential of the electrical power supply, if used, shall be varied over a voltage range of plus or minus 15 percent of the rated potential of such power supply, during which the transmitted dashes shall have a duration within the limits of 3.8 to 4.2 seconds, and spaces between dashes shall have a duration within the limits of 0.8 to 1.2 seconds.

(*b*) The electrical circuits of the device shall be inspected and tested as may be necessary to determine whether or not they are properly fused for adequate protection of the device and the power supply.

(iii) The automatic-alarm-signal keying device shall be capable of properly operating the keying circuit of an approved radiotelegraph transmitter so as to transmit the alarm signal for a continuous period of one hour, under any condition which may be expected on board ships while being navigated during extreme weather and sea conditions. For this purpose the following tests are prescribed in addition to the test prescribed in subdivision (ii) of this subparagraph:

(*a*) The keying device shall be placed in operation for a period of one continuous hour while subjected to each of the following conditions of temperature and relative humidity:

(*1*) 50 degrees centigrade and 50 percent relative humidity.

(*2*) 30 degrees centigrade and 95 percent relative humidity.

(*3*) Zero centigrade and 50 percent relative humidity.

(*b*) The keying device shall be placed in operation for a sufficient length of time under the following conditions to determine whether or not it will operate properly under such conditions:

(*1*) While the keying device is being rocked in such a manner as to simulate a roll and pitch of 45 degrees from the vertical, that is, over an arc of 45 degrees in two planes normal to the horizon and perpendicular to each other.

(*2*) When subjected to severe vibration comparable to that which might be experienced on board ship, as for example when subjected to vibrations having a period between 20 and 30 cycles per second and an amplitude [9] of at least 0.03 inch in a direction at an angle of 30 to 45 degrees with the base of the device.

(*3*) The keying device shall be inspected to determine whether or not all delicate parts are properly enclosed and protected from moisture and from mechanical injury and whether or not components are accessible as may be necessary for inspection and repair, when in service.

(*4*) The keying device shall be inspected and tested as may be necessary to determine the effectiveness of adjustment controls and means for making these adjustments under service conditions together with precautions taken to prevent tampering wih adjustments.

(*5*) Indicating instruments (when provided [10]) and operating controls shall be inspected to determine whether indication is given that the device is in satisfactory operation when the starting control is placed in the "on" position and to determine that a single control for starting and stopping is provided, capable of placing the device in full operation within 30 seconds from the time the control is placed in the "on" position.

§ 8.556 *Requirements for lifeboat radio equipment.* (a) Each type of lifeboat radio installation shall, in order to be approved by the Commission pursuant to section 355 of the Communications Act and § 8.519, comply with the specific requirements set forth in either § 8.557 or § 8.558, and additionally in paragraphs (b) and (c) of this section.

(b) The components and assembly of the entire lifeboat radio installation shall insure the utmost dependable operation, and the design shall be such that heavy vibration and physical shocks to which a lifeboat is subject will cause no damage. All components shall be housed and treated so as to withstand saline dampness for extended periods without damage and to minimize the adverse effect of prolonged exposure to salt water or salt spray.

(c) Instructions shall be plainly marked on the apparatus in sufficient detail which will inform inexperienced or uninstructed personnel how to place the lifeboat radio equipment in operation and how to transmit appropriate signals for a sufficient period of time to enable vessels or land stations, within communication range and equipped with radio direction finders, to determine the position of the lifeboat.

§8.557 *Requirements for non-portable lifeboat radio equipment.* (a) The following minimum requirements apply to lifeboat radio installations which are not intended to be portable in nature and which are designed primarily for fixed installations in the larger class of motor lifeboat:

(1) Assigned frequency on which transmitter operates: 500 kc.

(2) Class of emission of transmitter: A2.

(3) Frequency tolerance of transmitter: 0.5 percent.

(4) Power of transmitter: Not less than 75 watts plate input power to the oscillator or amplifier supplying power to the antenna when such oscillator or amplifier is effectively coupled to an antenna equivalent to that specified in subparagraph (5) of this paragraph.

(5) Antenna: A single wire inverted L-type for use not less than 20 feet above the water line with a horizontal section of the maximum practicable length.

(6) Receiver: Electron tube type, continuous frequency range of at least 350 to 550 kc and capable of reception of classes A1, A2, and B emission; equipped with a head receiver capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive.

(7) The type of power supply shall be: for the transmitter; a storage battery; for the receiver; dry cell battery and/or storage battery. The necessary power for the transmitter and receiver, at voltages other than the battery voltages, may be obtained by the use of a dynamotor or other suitable device approved by the Commission.

(8) The lifeboat radio transmitter shall be fitted with a radio frequency ammeter of suitable range and scale, connected so as to indicate the current in the antenna circuit.

(b) In addition to compliance with the requirements of paragraph (a) of this section, each lifeboat radio installation shall be supplied with auxiliary equipment consisting of one screwdriver, one pair of side-cutting pliers, and one artificial antenna capacitor.

(c) In addition to compliance with the requirements of paragraph (a) of this section, the following designated spare parts, as specifically approved and identified by the Commission in relation to the particular type of approved installation, shall be supplied with each lifeboat radio installation:

(1) At least 35 feet of insulated wire suitable for use as antenna wire.

(2) Two antenna insulators.

(3) Two tubes for radiotelegraph transmitters, except when transmitter employs a single transmitting tube, in which case one tube is required.

(4) One complete set of tubes for the radiotelegraph receiver.

(5) One panel electric light bulb, if used.

(6) Renewable fuse-cartridges of each type used in connection with the units of the lifeboat radio installation or which are used in circuits connected to the lifeboat radio installation power supply in the amount of at least one-half the number of each size and type in actual use. For each renewable fuse-cartridge in actual use, there shall be available six spare fuse links of appropriate capacity. For each non-renewable fuse in use, there shall be available six spare fuses of the same type and of appropriate capacity. If fuse wire is used, sufficient wire shall be provided to permit six complete fuse replacements.

§ 8.558 *Requirements for portable lifeboat radio equipment.* (a) The minimum requirements set forth in the following paragraphs of this section apply to lifeboat radio installations which are intended to be portable in nature.

(b) The lifeboat radio installation shall consist of an efficient and reliable emergency transmitter and emergency receiver (such radio receiver to be provided with a head receiver capable of effective operation at every audio frequency from 100 to 3000 cycles per second, inclusive), an emergency power supply, an antenna wire and insulator assembly for use with a lifeboat sailing mast, an antenna wire and reel assembly for use with a balloon and a kite, an approved container of gas for inflating the balloon, an approved kite, a ground system, an artificial antenna, and such auxiliary equipment and spare parts as are prescribed in paragraphs (i) and (j) of this section, and shall comply with the following general requirements:

(1) The transmitter, receiver and power supply shall be enclosed in a single container: *Provided*, That operational parts of these components not adversely affected by immersion in sea water need not be so enclosed; and not more than two containers shall be required to house the complete installation. The container enclosing the transmitter, receiver and power supply shall be water-tight and capable of withstanding complete submersion in sea water for a continuous period of two hours without leakage. This container shall be capable of withstanding this submersion with all manual operating controls and all indicating devices and instruments unprotected from contact with sea water. Any other container provided shall be of durable and splash-proof construction. Suitable protection shall be provided for the operating controls, indicating devices and instruments, including the microphone and the head telephone(s), against physical harm from accidental or inadvertent blows, and from the adverse effects of prolonged exposure to the weather. The container enclosing the transmitter, receiver and power supply shall be durably constructed of steel or aluminum, or alloys thereof, and shall be suitably protected against the adverse effects of sea water and saline dampness. Provision shall be made to protect the operator from the elements while the lifeboat is afloat in a heavy sea.

(2) The container housing the transmitter, receiver and power supply shall be provided with a non-corrosive cartridge type desiccator installed in a manner which will permit convenient inspection, maintenance and replacement.

(3) The physical dimensions and shape of the container(s) shall require the minimum amount of space consistent with the design of the equipment.

(4) The weight of the complete installation shall not exceed 160 pounds.

(5) The design and construction of the entire installation shall be such that no tools are required to place it in operation for routine tests or for emergency communication.

(6) All component parts used in the installation shall be of acceptable quality for marine service.

(7) The complete installation shall be efficient and reliable in its operation and shall be ruggedly constructed and capable of withstanding the shock and vibration to which a lifeboat may be subjected.

(8) Each installation shall be equipped with a durable name plate mounted on the transmitter, receiver, power supply or control panel, or made an integral part thereof, showing at least the following: The type or model number, the name of the manufacturer, the month and year of manufacture, and the rated power output for each frequency and each type of emission into each artificial antenna specified in § 8.205 (b) (1).

(9) Suitable printed instructions together with sketches covering the erection of the antenna(s) and operation of the equipment shall be permanently and conspicuously attached to the control panel or the surface of the transmitter, receiver and power supply container, or shall be made an integral part thereof. These instructions shall be as simple as possible consistent with the amount of detail required by an unskilled person to operate the equipment for automatic radiotelegraph communication and for radiotelephony. In addition, these instructions shall include sufficient information to permit an unskilled person to manually transmit the radiotelegraph distress signal ... — — — ... and the auto-alarm signal and a statement that the latter signal is effective only if transmitted on the frequency 500 kilocycles. These instructions shall be durable and waterproof.

(10) Each installation shall be provided with a copy of an instruction manual covering the design, installation, operation and maintenance of the apparatus.

(c) (1) The radio transmitter shall comply with the following requirements:

Operating carrier frequencies	Frequency tolerance (percent)	Class of emission	Modulation percentage	Modulation frequency	Power into antenna supported by kite or balloon	Power into antenna supported by lifeboat mast
500 kc	0.5	A2	Not less than 70...	Not less than 450; nor greater than 1250 c. p. s.	Not less than 5 watts.	Not less than 2 watts.
500 kc	.5	A3	Not less than 70 nor greater than 100.	400 to 3000 c. p. s..	Not less than 4 watts unmodulated carrier.	Not less than 1.5 watts unmodulated carrier.
8280 kc	.02	A1			Not less than 4 watts.	Not less than 3 watts.
8280 kc	.02	A3	Not less than 70 nor greater than 100.	400 to 3000 c. p. s..	Not less than 4 watts unmodulated carrier.	Not less than 3 watts unmodulated carrier.

(2) The transmitter radio frequency control circuits shall be pretuned to the required frequencies and shall be of such design and construction that the operating frequencies are maintained within the prescribed tolerances under varying antenna circuit characteristics and conditions of adjustment. The frequency control circuit adjustment(s) shall be securely locked to prevent detuning as a result of shock or vibration and shall not be readily available to the person using the transmitter.

(3) The indicated modulation percentage shall be determined as the average of the modulation percentages of the positive and negative peaks.

(4) The indicated power into the antenna supported by the kite or balloon shall be developed on 500 kilocycles into an artificial antenna of 500 micromicrofarads capacitance and 15 ohms resistance, and on 8280 kilocycles into an artificial antenna of 300 ohms resistance.

(5) The indicated power into the antenna supported by the lifeboat sailing mast shall be developed on 500 kilocycles into an artificial antenna of 100 micromicrofarads capacitance and 10 ohms resistance and on 8280 kilocycles into an artificial antenna of 50 ohms resistance.

(6) Controls shall be provided on the operating panel for efficient transfer of radio frequency energy at each required operating frequency to antennas having the following characteristics at 500 kilocycles; 80 to 750 micromicrofarads of capacitance and 10 to 20 ohms of resistance. An initial adjustment of these controls shall effectively resonate the antenna circuit at each required operating frequency and this condition shall be maintained without further adjustment of these controls during a normal operating period of the transmitter.

(7) Provision shall be made for keying the transmitter manually and by automatic means on 500 kilocycles and 8280 kilocycles. Provision shall be made for automatic transmission of the international distress signal "SOS", in one or more groups of three "SOS" signals, followed by a continuous dash not less than 12 seconds nor more than 20 seconds in duration. Provision shall be made for automatically changing the operating frequency of the transmitter from 500 kilocycles to 8280 kilocycles, and vice versa, with a frequency transfer time interval not to exceed five seconds so that the automatically keyed transmission sequence specified herein will take place alternately on 500 kilocycles and 8280 kilocycles. The speed of automatic telegraph transmission shall not exceed 16 words per minute. Simple and reliable controls shall be provided so that the operator of the transmitter can quickly and conveniently place it in operation in accordance with any of the three required modes of transmitter operation; that is, manual radiotelegraph, automatic radiotelegraph and manual radiotelephone operation, provided, that not more than one manual switch adjustment shall be made to place the transmitter in operation for automatic radiotelegraph transmission, and under this condition of operation the receiver shall be completely de-energized. The transmitter and the receiver, including their controls, shall be arranged mechanically and electrically so that they can be operated efficiently and conveniently from the same operating position for manual radiotelegraph communication on the required operating frequencies and so that the time necessary to change from transmission to reception, and vice versa, on these frequencies is as short as possible and in no event more than ten seconds.

(8) The transmitter shall be equipped with reliable visual indicators (such as neon tubes) to indicate antenna resonance at each operating frequency with any antenna normally provided. Failure of these indicators shall have no effect on the actual operation of the transmitter.

(d) The emergency receiver shall comply with the following requirements:

(1) The receiver shall provide reception on the frequency 500 kilocycles and shall be capable of manual tuning between the frequencies 8100 and 8600 kilocycles for operation on the frequency 8280 kilocycles.

(2) The receiver shall be capable of responding to classes A 2 and A 3 emission on the frequency 500 kilocycles and

[9] 0.03 inch total excursion, i. e., 0.015 inch each side of the position of rest.

[10] See subparagraph (1) (VII) and (VIII).

on all frequencies in the range 8100 to 8600 kilocycles.

(3) The sensitivity of the receiver shall be such that at least 6 milliwatts of audio power is developed in a non-inductive load resistor having an ohmic value equal to the value of the load resistance into which the output audio amplifier stage is designed to operate, at a signal to noise power ratio of not less than 10 to 1 when the receiver is supplied through the appropriate artificial antennas specified in paragraph (f) of this section with the following radio frequency signals:

Carrier frequency kilocycles	Signal strength microvolts	Modulation factor	Modulation frequency
500 8,280	25 100	0.3 .3	400 c. p. s. 400 c. p. s.

The noise power present in the output of the receiver when the receiver is adjusted for reception of classes A 2 and A 3 emission on the frequencies 500 kilocycles and 8280 kilocycles shall be determined with an unmodulated input signal of the indicated strength.

(4) The receiver shall be equipped with only one manually operated volume control. The effect of this control together with an automatic sensitivity control circuit, if used, shall permit the receiver to operate normally without overload when an input signal of one volt modulated 20 percent at 400 cycles per second is applied to the receiver input terminals through the appropriate artificial antennas specified in paragraph (c) of this section.

(5) The receiver shall be capable of maximum "undistorted" audio frequency output power of 10 milliwatts.

(6) The over-all electric fidelity of the receiver shall be such that with a zero decibel 1000 cycle reference the maximum response deviation at any frequency between 400 and 2000 cycles per second will not exceed 4 decibels.

(7) The selectivity of the receiver shall be at least as follows:

Ratio of input voltage off resonance to input voltage at resonance	Bandwidth at 500 kilocycles	Bandwidth at 8280 kilocycles
10 100 1000	20 kc 40 kc 60 kc	30 kc 60 kc 90 kc

(e) The emergency power supply shall comply with the following requirements:

(1) The source of power shall be a manually operated electric generator capable of efficiently energizing the lifeboat radio installation.

(2) The mechanical power applied to the crank handle(s) or the propelling lever(s) of the generator driving mechanism shall not exceed a maximum of 0.15 horsepower for any required condition of operation of the lifeboat radio installation at any temperature of the generator and its associated driving mechanism between minus 30 degrees and 125 degrees Fahrenheit. Under these conditions the speed of rotation of the crank handle(s) shall not be greater than 70 revolutions per minute or the cycle of operation of the propelling lever(s) shall not be greater than 70 cycles per minute.

(3) The voltages applied to the radio installation shall not vary from their normal values more than 20 percent at any generator speed in excess of the normal operating speed which can be manually developed.

(f) The antenna assemblies shall comply with the following requirements:

(1) The antenna assembly required for use with a balloon and a kite shall consist of a reliable reel constructed of materials resistant to the corrosive effects of sea water and saline dampness, containing 300 feet of flexible stranded or braided copper or copper alloy wire of high conductivity having a tensile strength of not less than 60 pounds. This wire shall be securely fastened at one end to the reel and effectively insulated electrically. If an insulating cord is used it shall have a tensile strength at least equal to that of the antenna wire, and the material(s) used therein shall be such that the cord is not weakened by kinking or wetting. This reel shall be associated with the container housing the transmitter, receiver and power supply in a manner which will provide mechanical protection and protection from the weather to the reel, and shall be designed and mounted in a manner which will permit convenient unwinding and rewinding of the antenna wire. Means shall be provided for conveniently and effectively connecting the antenna wire to the proper radio installation antenna terminal.

(2) The required balloon when inflated with gas shall be capable of effectively supporting the 300-foot antenna wire and shall comply with the requirements of § 8.560.

(3) The required container of gas shall be capable of effectively inflating the balloon, and shall comply with the requirements of § 8.560.

(4) The required kite shall be capable of effectively supporting the 300-foot antenna wire, and shall comply with the requirements of § 8.559.

(5) The required antenna assembly for use with a lifeboat sailing mast shall consist of a length of not less than 40 feet of No. 10 stranded copper wire having at least 80 strands, with the antenna insulators necessary for effective insulation of the antenna when used with a lifeboat sailing mast.

(g) The artificial antenna shall comply with the following requirements:

(1) The artificial antenna shall provide a reliable load for the transmitter, for test purposes at the frequencies 500 kilocycles and 8280 kilocycles, of approximately the same electrical characteristics as the mast supported antenna required by paragraph (c) (5) of this section.

(2) The artificial antenna shall be housed in a single container and provided with appropriate terminals for the necessary characteristics. If more than two terminals are provided on the artificial antenna, all the terminals shall be properly labeled. The physical dimensions of this container shall permit convenient storage of the unit in one of the containers specified in paragraph (b) of this section.

(h) The ground system shall comply wth the following requirements:

(1) The radio installation when installed in a metal hull lifeboat shall be effectively grounded to the hull of the lifeboat. This ground connection shall be physically located in a position where it is inaccessible to the normal movement of occupants or accessories in the lifeboat.

(2) The radio installation when installed in a lifeboat having a non-metallic hull shall be provided with a grounding conductor consisting of a length of not less than 20 feet of No. 10 bare stranded copper wire of equivalent copper braid effectively weighted at one end for immersion in the sea. This conductor shall be securely fastened to an effective ground terminal on the radio installation.

(i) In addition to compliance with the requirements of the foregoing paragraphs of this section, each lifeboat radio installation shall be supplied with auxiliary equipment consisting of one screwdriver and one pair of side-cutting pliers.

(j) In addition to compliance with the requirements of the foregoing paragraphs of this section, the following designated spare parts, as specifically approved and identified by the Commission in relation to the particular type of approved installation, shall be supplied with each lifeboat radio installation:

(1) One electron tube of each type used for normal operation of the radio installation in accordance with the requirements governing the installation, including neon or any other type of tube or lamp employed as resonance indicator(s).

(2) Six fuses of each type used which shall be of the same rating and interchangeable therewith.

(3) Where a kite and balloon are used for an antenna support, one spare 300-foot length of antenna wire of the type used which shall be of the same rating and interchangeable therewith.

§ 8.559 *Requirements for lifeboat antenna kites.* (a) Each type of kite supplied with a lifeboat radio installation as prescribed in paragraph (b) of § 8.558 shall, in order to be approved by the Commission, meet the following requirements:

(1) *Frame.* The frame may be of wood or of metal. It must be strong and be collapsible or be easily disassembled for storage. If of wood, the wood must be treated to prevent absorption of water, unless it naturally does not take up much water. If of metal, all the metal parts must be treated with a corrosion resistant finish, unless they are of non-corrodible material.

(2) *Cloth.* The cloth shall be of a strong and durable material. It shall have a thread count in warp and fill of not less than 115 and a tensile strength (grab method) of not less than 30 pounds in warp and fill. The material shall be fast dyed a bright yellow. The cloth shall be adequately treated so as to be water repellent. The finished cloth shall not be stiff or tacky even under wide ranges of temperatures.

(3) *Buoyant material.* The kite, when assembled for flying, must be buoyant. Any buoyant material added must be securely fastened to the kite and not seriously interfere with its flight.

(4) *Dimensions and shape.* The kite may be of any desired shape, such as box, etc., provided it can be easily assembled and handled.

(5) *Antenna connector.* Each kite shall be provided with a strong and secure means for the attachment of the antenna to the kite.

(6) *Instructions.* Each kite shall be accompanied by a set of instructions written in simple and clear language so that a person may assemble and fly the kite even though he may have had no previous experience with kites.

(7) *Container.* Each kite shall be packed in a rigid and sealed container. The container shall be as small as possible and shall be rigid enough to protect the kite even though it may be stepped upon by persons getting in a lifeboat. The container shall be easy to open and not require the use of tools. A metal tear-strip with a key removably soldered to the top is acceptable. The provision is not applicable if the kite is stowed in a watertight compartment with other components of the radio installation.

(8) *Marking.* Each container shall be permanently marked to show the contents, the name of the manufacturer, the place of manufacture, the date of packing, and the model number of the kite.

(b) *Tests.* Any samples or manufactured kites may be subjected to such tests as may be necessary to determine whether they are suitable for the purpose intended. Among the tests that may be performed are:

(1) *Storage test.* One year storage aboard ship or in a laboratory in which the container containing the kite may be subjected to Fahrenheit temperatures between 70 degrees below zero to 150 degrees above zero.

(2) *Use test.* The kite shall be removed from its container and sent aloft at Fahrenheit temperatures between 30 degrees below zero to 140 degrees above zero. The kite shall function properly and the cloth shall show no signs of serious cracking, brittleness, tackiness or other evidence of deterioration.

(3) *Launching test.* The kite shall be assembled, the antenna wire attached, and successfully launched by a person sitting in a lifeboat, the wind being of a velocity between 7 and 10 miles per hour.

(4) *Lift test.* The kite shall raise and hold aloft in even flight an antenna approximately 300 feet long and weighing approximately 12 ounces. It shall maintain its flight at an angle of not less than 30 degrees in a wind of not more than 10 miles per hour.

§ 8.560 *Requirements for lifeboat antenna balloons.* (a) Each type of balloon and associated inflating apparatus supplied with a lifeboat radio installation as prescribed in paragraph (b) of § 8.558 shall, in order to be approved by the Commission, meet the following requirements:

(1) *Material.* The balloon may be constructed of any gas impermeable flexible material that can be relied upon to stand storage for long periods in a folded condition and will also withstand the effect of sunlight, temperature change, humidity, etc., likely to be encountered at sea. The material must be of such a nature that it can be easily packed, together with the valve and other gas filling fittings, into a rigid container of not more than 70 cubic inches capacity.

(2) *Gas.* The gas to be used for inflating the balloon must be nonflammable and at the same time provide adequate buoyancy. The gas shall be furnished in a strong steel cylinder having an overall length of not over 30 inches and a diameter of not over 8 inches. A quantity of gas sufficient to inflate the balloon to a volume of 38 to 44 cubic feet shall be furnished in the steel cylinder. In lieu of steel cylinder filled with gas, a gas generator may be furnished. The generator must be fireproof and the gas generated must not be of a flammable or explosive nature. A fitting or other means shall be supplied with the cylinder or the generator so that the balloon may be quickly and easily inflated and without excessive loss of gas, even by an inexperienced person. Neither the gas cylinder, together with its gas nor the gas generator together with its chemicals shall weigh over 25 pounds.

(3) *Dimensions and shape.* If spherical, the balloon shall be approximately 48 inches diameter when inflated so as to provide a buoyancy of 20 ounces available for supporting an antenna. The balloon may be of any desired shape provided it supplies the 20 ounce lift. The use of fins or other means for providing stable flight of the balloon during windy periods is acceptable provided that the balloon can be packed away easily in the 70 cubic inch container.

(4) *Antenna connection.* Each balloon shall be provided with a strong and secure means for the attachment of the antenna to the balloon.

(5) *Valve.* Each balloon shall be fitted with a valve which will allow the balloon to be filled with gas in a quick and simple manner. If a gas generator is provided, the fitting shall be of such a nature that the balloon may be drained of any liquid that may have collected inside. Any metal parts of the valve must be made of non-corrodible material.

(6) *Instructions.* Simple, clear and concise instructions shall accompany each balloon so that a person who has never operated one before may successfully inflate it without injury to the balloon or excessive loss of gas. The instructions may be made in a permanent manner on the outside of the container.

(7) *Container.* Each balloon shall be packed in a rigid airtight container. The container shall not exceed 70 cubic inches capacity nor shall it be over 6 inches in any one dimension. Preferably, the container shall be fitted with an inert gas so as to preserve the balloon. The can must be easy to open. A metal tear-strip around the top with a key removably soldered to the top is satisfactory.

(8) *Marking.* Each container shall be marked to show the contents, the name of the manufacturer, the place of manufacture, the date of packing, and the model number of the balloon.

(b) *Tests.* Any samples of manufactured balloons may be subjected to such tests as may be necessary to determine whether they are suitable for the purpose intended. Among the tests that may be performed are:

(1) *Storage test.* One year storage aboard ship or in a laboratory in which the container containing the balloon may be subjected to Fahrenheit temperature between 70 degrees below zero to 150 degrees above zero.

(2) *Use test.* The balloon shall be removed from its container and inflated and sent aloft at Fahrenheit temperatures between 30 degrees below zero to 140 degrees above zero. The balloon shall function properly and show no signs of serious cracking, tackiness, stickiness or other evidences of deterioration.

(3) *Lift test.* The balloon shall be inflated with about 35 cubic feet of helium gas so as to inflate the balloon to its regular size. It shall then support an antenna of approximately 300 feet length and weighing approximately 12 ounces at an angle of not less than 30 degrees from the horizontal during a wind of not over 15 miles per hour. In the above lift tests, the balloon shall maintain the antenna aloft for 48 hours without further addition of gas.

SUBPART T—VIOLATIONS

§ 8.601 *Answers to notice of violation.* (a) Any person receiving official notice of a violation of the terms of the Communications Act, any legislative act, Executive Order, treaty to which the United States is a party, terms of a station or operator license, or the rules and regulations of the Federal Communications Commission, shall, within 3 days from such receipt, send a written answer to the office of the Commission originating the official notice. If an answer cannot be sent, or an acknowledgment made within such 3-day period, acknowledgment and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices. The answer shall contain a full explanation of the incident involved and shall set forth the action taken to prevent a continuation or recurrence thereof. If the notice relates to lack of attention to, or improper operation of the station, or to log or watch discrepancies, the answer shall give the name and license number of the licensed operator on duty.

(b) When an official notice of violation, impending violation, or discrepancy, pertaining to any provision of Part II of Title III of the Communications

Act or the radio provisions of the Safety Convention, is served upon the master or person responsible for a vessel and any instructions appearing on such document as issued by a representative of the Commission are at variance with the content of paragraph (a) of this section, then the instructions issued by the Commission's representative shall supersede those set forth in paragraph (a) of this section.

§ 8.602 *Reports of infringements of the International Radio Regulations.* In the event that infringement of the International Radio Regulations by a foreign station is detected, report thereof may be made by the submission to the Commission of a form similar to that set forth in Appendix 2 of the International Radio Regulations.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. #55603]

CALIFORNIA

RESTORATION TO HOMESTEAD ENTRY OF LANDS WITHIN THE KLAMATH NATIONAL FOREST

SEPTEMBER 18, 1950.

Pursuant to the recommendation of the Department of Agriculture and in accordance with section 2.22 of departmental Order No. 2583 of August 16, 1950 (15 F. R. 5645), the land described below in the Klamath National Forest, California, is hereby opened to homestead settlement and entry as provided by the act of June 11, 1906 (34 Stat. 233; 16 U. S. C. 506-509), as amended, and the regulations thereunder in 43 CFR, Part 170, in the manner hereinafter described:

MOUNT DIABLO MERIDIAN

List 5-3011—T. 46 N., R. 12 W.,
Sec. 14, lots 18 and 23;
Sec. 23, lots 2, 5 and 8.
Norman C. and Gladys M. Valpey, preferred applicants.

The area described contains 3.39 acres.

1. The persons named, on whose application the land was listed, will be accorded a preference right for 60 days from the date of publication of this order in the FEDERAL REGISTER within which to make homestead entry of such tract under the said act of June 11, 1906.

2. For a period of 90 days from the expiration of the 60-day preference right period accorded the applicants, the land if remaining unentered will be subject to entry by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

3. The land if unentered at the expiration of the 90-day preference right period, will, on the following business day, become subject to homestead settlement and entry under the provisions of the act of June 11, 1906, by any qualified persons.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 18, 1950.

Notice is given that the plat of extension survey of the following described lands, accepted April 1, 1943, will be officially filed in the Land Office, Los Angeles, California, effective at 10:00 a. m. on the 35th day after the date of this notice:

SAN BERNARDINO MERIDIAN

T. 10 N., R. 22 E.
Sec. 3, lot 3,
Sec. 10, lots 1, 2, W½NE¼, E½SW¼, SE¼,
Sec. 11, lots 1, 2,
Sec. 14, lots 1, 2, 3, 4, SW¼NW¼, W½SW¼, SE¼SW¼,
Sec. 15, E½NW¼, E½,
Sec. 22, lots 1, 2, 3, 4, 5,
Sec. 23, lots 1, 2, 3, 4, 5, 6, N½SW¼, NW¼.

The area described aggregates 1,642.04 acres.

All the lands are included in first form withdrawal for reclamation purposes by the Secretary October 16, 1931—1433125.

All the lands involved are withheld from entry until boundaries of the Hay and Wood Reserves, Fort Mohave Indian Reservation, have been determined by the Secretary, December 3, 1926—1242462.

Lot 3, sec. 3, lots 1, 2, W½NE¼, E½ SW¼, SE¼ sec. 10, E½NW¼, E½ sec. 15, lots 4, 5, sec. 22, T. 10 N., R. 22 E., S. B. M., are embraced in Power Site Classification No. 55, California 18, adjusted by Interpretation 51 dated July 17, 1924 (F), August 22, 1924—1093936.

Anyone having a valid settlement or other right to any of these lands initiated prior to the date of the withdrawals of the lands should assert same within three months from the date on which the plat is officially filed by filing an application under the appropriate public land laws, setting forth all facts relative thereto.

All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

[F. R. Doc. 50-8290; Filed, Sept. 21, 1950; 8:45 a. m.]

[1944464]

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 18, 1950.

Notice is given that the plats of (1) dependent resurveys of lots 1, 2, E½ SW¼ sec. 18, W½ sec. 22, W½ sec. 25, W½ sec. 36, T. 13 S., R. 6 E.; SW¼ sec. 18, SW¼ sec. 26, W½ sec. 35, T. 14 S., R. 8 E., S. B. M., delineating a retracement and reestablishment of the lines of the original surveys as shown on the plats approved August 27 and September 20, 1880, and (2) Extension Surveys in T. 13 S., R. 6 E., T. 14 S., R. 8 E., S. B. M., California, of the following described lands accepted July 7, 1948, will be officially filed in the Land Office at Los Angeles, California, effective at 10:00 a. m. on the 35th day after the date of this notice:

SAN BERNARDINO MERIDIAN

T. 13 S., R. 6 E.,
Secs. 1 to 17, inclusive,
Sec. 18, lots 3 to 12, inclusive,
Sec. 22, lots 1 to 8, inclusive,
Sec. 23, all,
Sec. 24, all,
Sec. 25, lots 1 to 8, inclusive,
Sec. 36, lots 1 to 8, inclusive.
T. 14 S., R. 8 E.,
Secs. 1 to 17, inclusive,
Sec. 18, N½, SE¼,
Sec. 23, all,
Sec. 24, all,
Sec. 25, all,
Sec. 26, N½, SE¼,
Sec. 35, E½,
Sec. 36, all.

The area described aggregates 28,137.82 acres.

Available data indicates the lands are mountainous desert in character.

No applications for these lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Los Angeles, California.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 18, 1950.

Notice is given that the plat of (1) dependent resurvey of the SW¼ sec. 23, SE¼ sec. 24, T. 2 N., R. 17 E., S. B. M., delineating a retracement and reestablishment of the lines of the original survey as shown upon the plat approved January 10, 1857, and (2) extension surveys in T. 2 N., R. 17 E. and T. 1 N. R., 18 E., S. B. M., California, of the following described lands accepted May 12, 1949, will be officially filed in the Land Office, Los Angeles, California, effective at 10:00 a. m. on the 35th day after the date of this notice. The lands affected by this notice are described as follows:

SAN BERNARDINO MERIDIAN

T. 2 N., R. 17 E.,
Sec. 11, all,
Sec. 14, all,
Sec. 23, lots 1 to 12, inclusive,
Sec. 24, lots 1 to 12, inclusive,
T. 1 N., R. 18 E.,
Sec. 4, all.

The area described aggregates 2,920.86 acres.

Available data indicates that the lands described are relatively flat and highly mineralized and lie within Danby Dry Lake.

No applications for these lands may be allowed under the homestead, small tract, desert land or any other non-mineral public land laws unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Los Angeles, California.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

National Park Service

[Order 2]

DELEGATION OF AUTHORITY TO CERTAIN OFFICIALS WITH RESPECT TO EXECUTION AND APPROVAL OF CONTRACTS AND LEASES

SECTION 1. *Execution and approval of contracts.* (a) The following officers and employees of the National Park Service may enter into contracts, not in excess of the amounts specified in this paragraph, for construction, supplies, or services in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations:

(1) Superintendents employed in areas administered by the National Park Service in which the position of the Superintendent is allocated to a civil service grade of GS-5 to GS-9, inclusive: $5,000.

(2) Superintendents employed in areas administered by the National Park Serv-

ice in which the position of the Superintendent is allocated to a civil service grade of GS–10 or above: $10,000.

(3) The Finance Officer of the National Park Service, Regional Directors, and Superintendent, National Capital Parks: $50,000.

(b) Regional Administrative Officers and Chief Clerks employed in areas administered by the National Park Service in which the position of the Superintendent is allocated to a civil service grade of GS–10 or above may enter into contracts, not in excess of $10,000, for supplies or services, in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations.

(c) Approval by the Secretary of the Interior, the Director, or the Regional Directors is not a condition precedent to the consummation of a contract entered into pursuant to paragraphs (a) and (b) above, not in excess of the amounts hereinbefore stated, unless the Secretary or the Director by a written order published in the FEDERAL REGISTER specifically prescribes such a requirement with respect to a particular contract, or unless approval of the contract by the Secretary is specifically required by statute.

(d) Regional Directors may approve contracts for construction, supplies, or services entered into by the field officers within their respective regions in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations when the amount of each such contract does not exceed $50,000.

(e) (1) With respect to any contract entered into pursuant to paragraphs (a) and (b) above, including a contract approved by the Secretary, the Director, or the Regional Directors, the contracting officers mentioned in subparagraphs (a) (1) and (2) and paragraph (b) of this section may issue change orders and extra work orders pursuant to the contract and enter into modifications of the contract which are legally permissible, where each such change order, extra work order, or modification of the contract is in an amount less than $500: *Provided*, That the aggregate of all such change orders, extra work orders, or modifications of the contract entered into by the contracting officer shall not exceed ten per cent (10%) of the contract price.

(2) With respect to contracts entered into in their respective regions, including contracts approved by the Secretary or the Director, the Regional Directors may issue or approve change orders and extra work orders pursuant to the contract and enter into or approve modifications of the contract which are legally permissible, and terminate the contract if such action is legally authorized, irrespective of the amounts involved in such change orders, extra work orders, modifications, or terminations.

SEC. 2. *Execution and approval of leases.* (a) Regional Directors and the Superintendent, National Capital Parks, may lease space in real estate outside of the District of Columbia, in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations. Approval by the Secretary of the Interior or the Director is not a condition precedent to the consummation of a lease agreement unless the Secretary or the Director, by written order published in the FEDERAL REGISTER, prescribes such a requirement with respect to a particular lease or type of lease, or unless secretarial approval is specifically required by statute.

(b) With respect to any such lease, including a lease approved by the Secretary or the Director, the officers mentioned in section 2 (a) may modify or renew the lease if such action is legally permissible, and may terminate the lease if such action is legally authorized.

(c) Proposed leases, renewals, and modifications which would increase the area or rental involved should be cleared either with a division field office or with the Washington office of the Public Buildings Service unless (1) the lease, modification, or renewal involves the acquisition of office space for a period of less than 6 months at a rental that is lower than $500 per annum, or (2) the lease involves the acquisition of space other than office space at an annual rental of less than $500, or (3) the lease involves space in real estate located outside the borders of the United States.

(d) The termination or lapse of a lease which has been cleared by the Public Buildings Service should be reported to a division field office or the Washington office of that agency.

(e) A copy of U. S. Standard Form 81, "Request for Clearance of Lease," or of Form REM 6, "Request for Clearance of Space," or of P–SC Form No. 6, "Request for Approval of Lease," for each lease and each modification or renewal of a lease shall be transmitted to the Chief Clerk of the Department and to the Director. If the lease, modification, or renewal has been cleared with a division field office or the Washington office of the Public Buildings Service, that fact shall be indicated on the copies sent to the Chief Clerk and the Director.

SEC. 100. *Revocation.* This order supersedes § 10.3, Part 10, Title 36, Code of Federal Regulations, 1947 Supplement.

(Secretary's Order No. 2509, dated January 13, 1949; 39 Stat. 535, 16 U. S. C. 2.)

Issued this 5th day of September 1950.

NEWTON B. DRURY,
Director.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

[Secretary's Memorandum No. 1270]

DELEGATION OF FUNCTIONS UNDER THE DEFENSE PRODUCTION ACT OF 1950

SEPTEMBER 15, 1950.

Pursuant to the provisions of Executive Order No. 10161 delegating functions to the Secretary of Agriculture under the Defense Production Act of 1950, the following delegations of functions, to be exercised under my general direction and supervision, are hereby made:

(1) All functions vested in the Secretary of Agriculture or the Department of Agriculture under Parts I, II, III except in respect to lumber, and VII of said order, are hereby delegated to the Administrator, Production and Marketing Administration.

(2) The functions vested in the Secretary of Agriculture by Part III of the Executive Order in respect to lumber, are hereby delegated to the Chief of the Forest Service.

(3) The functions vested in the Secretary of Agriculture by Part IX of the Executive Order are hereby delegated to the agencies affected hereby including the authority of redelegation as prescribed therein.

(4) The heads of agencies delegated functions herein may utilize, with the consent of the head thereof, the services of any other agency within the Department in carrying out the functions delegated herein.

(5) The Administrator of Production and Marketing Administration shall also have, with respect to food as defined in the said Executive Order, the following functions:

(a) Immediate responsibility for carrying out any other functions delegated to or otherwise vested in the Department under the provisions of the Defense Production Act of 1950, including Title IV—Price and Wage Stabilization, but excluding Title VI—Control of Consumer and Real Estate Credit; and

(b) Maintenance of liaison and coordination with, and advice to other governmental agencies concerned with functions under provisions of the Defense Production Act of 1950 (except Title VI) or other phases of the nation's defense production program.

(6) Nothing herein shall be construed to delegate any function not permitted by the order or the statute to be delegated.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

FEDERAL POWER COMMISSION

[Docket Nos. G–587, G–607, G–608, G–776, G–810, G–820, G–1222, G–1441]

GREENFIELD GAS CO., INC., ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

SEPTEMBER 14, 1950.

In the matters of Greenfield Gas Company, Inc., *v.* Panhandle Eastern Pipe Line Company, Docket Nos. G–587, G–607; Eastern Indiana Gas Company, et al., Docket Nos. G–608, G–776, G–810, G–820; Indiana Gas & Water Company, Inc., Docket No. G–1222; Indiana Gas & Water Company, Inc., Docket No. G–1441.

On June 15, 1949, the Commission issued an order in Docket No. G–1222 instituting a proceeding for the purpose of determining whether, by reason of the operations described in said order, Indiana Gas & Water Company, Inc. (Indiana Gas) is a "natural-gas company" within the meaning of the Natural Gas Act. A hearing was ordered to be held on July 6, 1949, with respect to the matters involved and the issues presented by the petition of Indiana Gas for "Declaratory Order To Settle Controversy and Remove Uncertainty," filed in Docket No. G–1200, and with respect to the matters involved and the issues presented in the proceeding in Docket No. G–1222. By such order issued June 15, 1949, the Commission reopened the proceedings in Dockets Nos. G–587, G–607, and G–608, and in Docket Nos. G–776, G–810, and G–820, for certain specific purposes and provided that they be consolidated with the proceedings in Docket Nos. G–1200 and G–1222 for the purposes of hearing.

On June 24, 1949, Indiana Gas filed a "Notice of Withdrawal of Petition" filed in Docket No. G–1200. In accordance with § 1.11 of the Commission's rules of practice and procedure the notice is deemed to have effected the withdrawal of the petition.

By order issued July 1, 1949, upon motion of Indiana Gas the hearing in these consolidated proceedings was postponed to a date to be fixed by further order of the Commission.

On March 20, 1950, Indiana Gas filed its response to the Commission's order issued June 15, 1949, averring, among other things, that the Commission has the burden of proof to establish that it has jurisdiction over Indiana Gas, and requesting, for the reasons stated in said response, that the order to show cause be dismissed without further proceedings.

On July 12, 1950, Indiana Gas filed an application, Docket No. G–1441, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the acquisition and operation by Indiana Gas of certain facilities comprising the gas systems of Eastern Indiana Gas Company, Summit Gas and Water Company, Inc., and Knightstown Natural Gas Company, Inc., as an alternative to a request for an order disclaiming jurisdiction over the proposed acquisition and operation by Indiana Gas of the facilities of said companies.

The Commission finds: Good cause exists for consolidating the proceeding in Docket No. G–1441 with the proceedings in Docket Nos. G–1222, G–587, G–607, G–608, G–776, G–810 and G–820, for purposes of hearing.

The Commission orders:

(A) The application of Indiana Gas & Water Company, Inc., in Docket No. G–1441, be consolidated for purposes of hearing with the proceedings in Docket Nos. G–1222, G–587, G–607, G–608, G–776, G–810 and G–820.

(B) A public hearing be held on October 16, 1950, at 10:00 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pensylvania Avenue NW., Washington, D. C., with respect to (1) the matters involved and the issues presented by the application in Docket No. G–1441, (2) the matters involved and issues presented in the proceeding in Docket No. G–1222, and (3) the limited matters involved in the reopened proceedings in Docket Nos. G–587, G–607, G–608, G–776, G–810, and G–820 as set forth in said order of June 15, 1949.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 15, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G–1472]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 18, 1950.

Take notice that on August 30, 1950, Panhandle Eastern Pipe Line Company, (Applicant), a Delaware Corporation with its principal office at Kansas City, Missouri, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of metering and regulating equipment at a point on Applicant's 22 inch transmission pipeline, west of Delta, Ohio, for delivery of natural gas to The Toledo Edison Company for distribution and sale in Delta, Ohio.

Applicant states that it has been requested to construct the facilities above described by the The Ohio Gas Company and the Toledo Edison Company so as to obviate the necessity of using a 2-inch pipeline which had been in service for many years and was in a bad state of repair as shown by the application for abandonment filed with this Commission at Docket No. G–1293.

Applicant further states that no increase in volumes of gas will be made availabe for service to The Toledo Edison Company through the new connection.

The total overall cost of the facilities installed is $6,800.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 6th day of October 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY TO REPRESENT THE GOVERNMENT IN THE MATTER OF SOUTHERN COUNTIES GAS CO.

1. Pursuant to the provisions of sections 201 (a) (4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress, authority to represent the interests of the executive agencies of the Federal Government and to appear as witnesses and counsel for the executive agencies of the Federal Government in the matter of the Application Number 31161 of the Southern Counties Gas Company, before the Public Utilities Commission of the State of California is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers, officials and employees of such Administration.

4. This delegation of authority shall be effective as of the date hereof.

Dated: September 18, 1950.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

2½ PERCENT WAR HOUSING INSURANCE FUND DEBENTURES, SERIES H

NOTICE OF FOURTH CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 11, 1950.

The notice of Fourth Call for partial redemption, before maturity of 2½ percent War Housing Insurance Fund Debentures, Series H, dated September 22, 1948, is hereby amended to read as follows:

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2½ percent War Housing Insurance Fund Debentures, Series H, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1949, on which date interest on such debentures shall cease:

2½ PERCENT WAR HOUSING INSURANCE FUND DEBENTURES, SERIES H

Denomination:	Serial Numbers (*all numbers inclusive*)
$50	689 to 721
	3,005 to 3,018
$100	2,713 to 2,802
	8,010 to 8,049
$500	762 to 808
	4,003 to 4,015
$1,000	3,662 to 3,838
	9,013 to 9,073
$5,000	179 to 200
	1,003 to 1,006
$10,000	2,930 to 3,235
	5,001 to 5,060

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1948. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1948, and provision will be made for the payment of final interest due on January 1, 1949, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1948, to December 31, 1948, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1949, or for purchase prior to that date will be given by the Secretary of the Treasury.

WALTER L. GREENE,
Acting Commissioner.

Approved: September 18, 1950.

JOHN W. SNYDER,
Secretary of the Treasury.

2¾ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES E

NOTICE OF FIFTH CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 11, 1950.

The notice of Fifth Call for Partial Redemption, before maturity, of 2¾ percent Mutual Mortgage Insurance Fund Debentures, Series E, dated March 20, 1950, is hereby amended to read as follows:

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Mutual Mortgage Insurance Fund Debentures, Series E, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on July 1, 1950, on which date interest on such debentures shall cease:

2¾ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES E

Denomination:	Serial numbers (*All numbers inclusive*)
$50	2,002 to 2,023
$100	2,002 to 2,081
$500	28 to 48
	2,514 to 2,525
$1,000	6,001 to 6,091
$5,000	1,202 to 1,214
$10,000	301

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after April 1, 1950. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after April 1, 1950, and provision will be made for the payment of final interest due on July 1, 1950, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from April 1, 1950, to June 30, 1950, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after July 1, 1950, or for purchase prior to that date will be given by the Secretary of the Treasury.

WALTER L. GREENE,
Acting Commissioner.

Approved: September 18, 1950.

JOHN W. SNYDER,
Secretary of the Treasury.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812–682]

AMERICAN GENERAL CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of September A. D. 1950.

In the matter of American General Corporation, The Morris Plan Corporation of America, The Bank of Akron Company, M. S. Richardson, C. B. Alexander, W. A. Allen, Robert H. Collacott, George W. Crouse, Jr., Wilford Holcomb, Martin D. Kuhlke, H. W. Slabaugh, F. D. Spangenberg, Caroline Strazan, Francis Wolcott, W. E. Slabaugh, File No. 812–682.

Notice is hereby given that The Morris Plan Corporation of America (Morris Plan), 103 Park Avenue, New York 17, New York, has filed an application under section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from section 17 (a) of the act, the proposed purchase from Morris Plan by certain individuals of 310 shares of the capital stock of The Bank of Akron Company (Akron), 323 South Main Street, Akron, Ohio, at a price of $290 per share, or a total purchase price of $89,900, less any dividends declared and paid after August 1, 1950.

American General Corporation is a registered investment company with offices at 103 Park Avenue, New York 17, New York. American General Corporation owns in excess of 60 percent of the voting stock of Morris Plan. Morris Plan owns 15.5 percent of the outstanding capital stock of Akron.

Eleven of the twelve individuals who propose to purchase stock of Akron are officers and/or directors of Akron and the twelfth is the owner of 5 percent of the outstanding capital stock of Akron. Therefore, each is an affiliated person of Akron. The eleven persons who are officers and/or directors of Akron are M. S. Richardson, C. B. Alexander, W. A. Allen, Robert H. Collacott, George W. Crouse, Jr, Wilford Holcomb, Martin D. Kuhlke, H. W. Slabaugh, F. D. Spangenberg, Caroline Strazan and Francis Wolcott; 5 percent of Akron's outstanding capital stock is owned by W. E. Slabaugh.

The proposed transactions involve purchases by affiliated persons of an affiliated person of a registered investment company, from a controlled person of such company, of securities of which the seller is not the issuer. Such transactions are made unlawful by section 17 (a) of the act unless an exemption therefrom is granted by the Commission under section 17 (b) of the act. Morris Plan, accordingly, requests an order pursuant to section 17 (b) of the act exempting the proposed transactions from the prohibitions of section 17 (a) of the act.

Akron was organized in 1918 under the general corporation laws of Ohio with an authorized capital of $100,000 consisting of 1,000 shares of stock of the par value of $100 per share. An additional 1,000 shares was issued in 1930. In 1918, Morris Plan purchased 50 shares by original subscription at $110 per share. In 1924 and 1925 105 shares were acquired at $110 per share. In 1930, pursuant to the exercise of "rights", Morris Plan subscribed to 155 shares at $105 per share. The principal business of Akron consists of making various types of loans to individuals and to business organizations. Its operations have been successful from the beginning. As of June 30, 1950, Akron had combined capital, surplus and undivided profits of over $540,000. During the ten years 1940 to 1949, inclusive, the earnings of Akron ranged from a low of $7.45 (1942) per share to a high of $28.50 (1949) per share. For the first six months of 1950, its earnings were equivalent to $17.00 per share. The book value of Akron's stock as of June

30, 1950, was approximately $272 per share and the application asserts that it is estimated approximately $302 per share might be realized upon liquidation although no intention exists of liquidating the company. Applicant states that there is no established market for the capital stock of Akron and asserts that the price of $290 per share agreed upon between the parties is fair and equitable to both seller and purchasers.

No director, officer, agent or employee of Morris Plan is a director, officer, agent or employee of Akron; and, conversely, no director, officer, agent or employee of Akron is a director, officer, agent or employee of any affiliated person thereof other than Akron.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after October 6, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than October 4, 1950, at 5:30 p. m., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2475]

ALABAMA POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington D. C., on the 15th day of September A. D. 1950.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by Alabama Power Company ("Alabama"), a registered holding company and a public utility company which is a subsidiary of The Southern Company, also a registered holding company. The applicant-declarant has designated section 6 (b) of the act and Rules U-50 and U-62 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than September 29, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed as follows: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after 5:30 p. m., e. s. t., on September 29, 1950, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the offices of the Commission for a statement of the transaction therein proposed, which is summarized as follows:

Alabama proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, 100,000 shares of its cumulative ---- percent preferred stock, $100 par value. The dividend rate on such preferred stock and the price to the company (to be not less than $100 per share nor more than $102.75) are to be determined by competitive bidding. In the event that the successful bid specifies a dividend rate of 4.20 percent, Alabama proposes to issue shares of its presently authorized but unissued 4.20 percent preferred stock. If the successful bidder specifies a dividend rate on the new preferred stock other than 4.20 percent, Alabama proposes to solicit proxies for use at a special meeting of stockholders to authorize a new class of preferred stock.

The filing states that Alabama anticipates making expenditures of approximately $62,200,000 during 1950, 1951, and 1952 for the construction of property additions. In order to finance, in part, such construction program the company will use the proceeds from the sale of the new preferred stock, cash on hand and estimated to be received from operations, and $6,000,000 expected to be received from the proposed sale to The Southern Company of 60,000 additional shares of Alabama's common stock (Holding Company Act Release No. 10092). The company estimates that, based upon the present level of earnings, and current expectations of the probable progress of its construction program, approximately $7,000,000 of additional funds will have to be provided before the end of 1951, and approximately $10,000,000 more before the end of 1952. To the extent necessary, Alabama expects to issue additional securities of a type not yet determined.

The proposed transaction has been expressly authorized by the Alabama Public Service Commission, the State Commission of the State in which Alabama is organized and doing business.

The applicant-declarant has requested that the Commission's order be issued as soon as possible and that it become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2459]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER REGARDING LIQUIDATION AND DISSOLUTION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

In the matter of Pennsylvania Gas & Electric Corporation, New Penn Development Corporation, Penn-Western Service Corporation; File No. 70-2459.

The Commission having issued an order dated December 22, 1949, (Holding Company Act Release No. 9574) pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 (the "act"), directing that Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, liquidate and dissolve; and

Penn Corp, New Penn Development Corporation ("New Penn"), a non-utility subsidiary of Penn Corp, and Penn-Western Service Corporation ("Penn-Western"), the mutual service company for the Penn Corp holding company system, having filed on August 7, 1950, pursuant to Rule U-44 (c) of the rules and regulations under the act, a Notice of Intention of Penn Corp to sell its holdings of all the outstanding 80,160 shares of capital stock of New Penn to Goodman Pipe Corporation, a non-affiliated company, in accordance with the terms and conditions contained in an agreement dated August 4, 1950, for a cash consideration of $811,620; said agreement containing provisions for the transfer by New Penn to Penn-Western of 170 shares of the capital stock of Penn-Western for a nominal consideration not exceeding $10 in the aggregate; and

The Commission having examined the filing and having determined that the proposed transactions constitute a reasonable and appropriate method of compliance with said order of December 22, 1949, directing that Penn Corp liquidate and dissolve, and the Commission being of the view that the proposed transfer of the service company stock is in accordance with a program as to ownership of securities of Penn-Western which the Commission has heretofore found to meet the requirements of section 13 of the act (1 S. E. C. 562), and the Commission finding that the requirements of Rules U-40 (b) and U-43 (b) (3) are satisfied and deeming it unnecessary to require the filing of an application-declaration with respect to the proposed transactions; and

The filing having requested that the Commission issue an order containing the recitals, itemizations and specifications required by Supplement R and section 1808 (f) of the Internal Revenue Code:

It is hereby ordered and recited, That the following transactions are necessary or appropriate to the integration or simplification of the holding company system of which Penn Corp, New Penn and Penn-Western are members, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, 49 Stat. 820 (U. S. C., Title 15, sec. 79K (b)) within the meaning of Supplement R and section 1808 (f) of the Internal Revenue Code, and are hereby authorized, permitted and approved:

1. The sale, transfer, and delivery by Penn Corp to Goodman Pipe Corporation of the 80,160 shares of common capital stock of New Penn for a cash consideration of $811,620.

2. The sale, transfer and delivery by New Penn to Penn-Western of 170 shares of the common capital stock of Penn-Western for a cash consideration not exceeding $10 in the aggregate.

3. The expenditure by Penn Corp of $600,000 of the net proceeds from the sale by Penn Corp of the 80,160 shares of common capital stock of New Penn for the payment of a short-term note issued on August 28, 1950, by Penn Corp to Bank of the Manhattan Company in the amount of $600,000.

It is further ordered and recited, That the Commission reserves jurisdiction to determine by subsequent order or orders herein the expenditure, distribution or investment (except temporary investment in securities of the United States of America) that shall be made, within twenty-four (24) months of said sale of the 80,160 shares of common capital stock of New Penn, of the balance of the net proceeds from such sale, or an amount equivalent thereto, as may hereafter be proposed by Penn Corp and as may be shown to be necessary or appropriate to the integration or simplification of the holding company system of which Penn Corp is a member, and necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

By the Commission.

[File No. 70-2381]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN NATURAL GAS CO.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of September 1950.

The Commission by order dated May 26, 1950, having granted and permitted to become effective joint applications-declarations, as amended, filed by Wisconsin Electric Power Company ("Wisconsin Electric"), a registered holding company and a public utility company, and its public utility subsidiary, Wisconsin Natural Gas Company ("Wisconsin Gas"), pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935, with respect to, among other matters, the issuance and sale by Wisconsin Electric of $15,000,000 principal amount of its First Mortgage Bonds, 2¾ Percent Series, due 1980; the issuance and sale by Wisconsin Electric, for cash to its common stockholders, of a maximum of 585,405 additional shares of its Common Stock, par value $10 per share, on the basis of one share for each five shares held; the issuance and sale by Wisconsin Gas of $3,500,000 principal amount of its First Mortgage Bonds 2⅞ Percent Series, due 1975; the sale of its electric properties by Wisconsin Gas to Wisconsin Electric; and certain related transactions; and having in said order reserved jurisdiction over all fees and other expenses incurred or to be incurred in connection therewith; and

The Commission, by supplemental order, dated June 6, 1950, having, inter alia, released jurisdiction over certain miscellaneous fees and expenses, including regulatory expenses and expenses of printing and engraving, to be paid by Wisconsin Electric, amounting to $194,300, of which 112,500 was allocable to the bond issuance and sale and $81,800 to the common stock issuance and sale, and over similar items aggregating $48,650, to be paid by Wisconsin Gas, and having, in said supplemental order continued the jurisdiction previously reserved over all other fees and expenses incurred or to be incurred in connection therewith; and

Further information having been filed concerning the nature and extent of the services rendered, and the fees and expenses proposed to be paid therefore, as set forth below:

[File No. 70-2473]

NEW ENGLAND ELECTRIC SYSTEM AND WEYMOUTH LIGHT AND POWER COMPANY

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

Notice is hereby given that a joint application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by New England Electric System ("NEES"), a registered holding company, and its subsidiary company, Weymouth Light and Power Company ("Weymouth"). Applicants designate sections 6 (b), 7 and 10 of the act and Rules U-23, U-24, and U-42 (b) (2) promulgated thereunder

as applicable to the proposed transactions.

All interested persons are referred to said application, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Weymouth proposes to issue and sell 16,298 shares of additional Capital Stock, par value $25 each (aggregate par value $407,450), and to issue warrants to its shareholders to subscribe for such shares in proportion to their holdings. The subscription price of $35 per share (the total subscription price aggregating $570,430) was determined by Weymouth's board of directors and is subject to the approval of the Department of Public Utilities of the Commonwealth of Massachusetts. Each warrant will expire on the 21st day following the mailing thereof and will indicate the number of new shares or the fraction of a new share to which the holder thereof is entitled to subscribe. Fractional warrants can be combined but no fractional shares will be issued.

Weymouth presently has outstanding 48,893 shares of capital stock. NEES owns 48,682 shares of such stock (99.568 percent) and will receive warrants to subscribe for 16,227⅓ additional shares. The minority public shareholders own 211 shares of such capital stock (0.432 percent) and will receive warrants to subscribe for an aggregate of 70⅓ new shares. Waymouth proposes to sell any shares unsubscribed for by its shareholders at public auction or directly to NEES at the price of $35 per share, provided the same is authorized by the Department of Public Utilities of Massachusetts.

NEES proposes to exercise its right to subscribe for the additional shares of capital stock of Weymouth to which it will be entitled. NEES further proposes to bid $35 per share for all unsubscribed shares sold at public auction, or, in the event that the consent of the Department of Public Utilities of Massachusetts is obtained, to purchase such shares directly from Weymouth at the price of $35 per share.

Total expenses to be borne by Weymouth for services performed in connection with the proposed sale of said common shares are estimated at $3,152. Such estimate includes $2,000 for services rendered at the actual cost thereof by New England Power Service Company, an affiliated service company. The cost to NEES for services to be rendered by such service company is estimated not to exceed $500.

Weymouth will use the proceeds to be derived from the proposed sale of additional common shares, estimated at $570,430, to pay off its non-interest bearing advances from NEES in the amount of $50,000 and to retire the $430,000 principal amount of notes payable to banks and presently bearing interest at the rate of 2¾ percent per annum and the balance of $90,430 remaining will be applied by Weymouth to the cost of extensions, enlargements and additions to plant and property subsequent to October 31, 1949. The application states that, the Department of Public Utilities of the Commonwealth of Massachusetts has jurisdiction over the transactions proposed by Weymouth and that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The applicants request that the order of this Commission be made effective forthwith upon issuance.

Notice is further given, that any interested person may, not later than September 27, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-8298; Filed, Sept. 21, 1950; 8:47 a. m.]

[File No. 70-2474]

NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 regarding the sale by Haverhill Electric Company ("Haverhill Electric"), a public utility subsidiary company of NEES, of its gas properties to the Haverhill Gas Light Company, a non-affiliated gas utility company. NEES has designated section 12 (d) of the act and Rule U-44 (a) promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 25, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 25, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Haverhill Electric, a Massachusetts corporation doing an electric and gas utility business in Massachusetts, proposes to sell its gas properties and franchises, as at June 30, 1950, to Haverhill Gas Light Company for a cash consideration of $197,000, plus or minus an amount equal to the net plant additions or retirements subsequent to June 30, 1950. Haverhill Electric also proposes to sell to Haverhill Gas Light Company its gas accounts receivable not billed prior to the date of the transfer of the gas properties, amounts due on conditional sales contracts for the sale of gas appliances, and gas materials and supplies at the fair value thereof at the date of transfer. It is stated in the declaration that the consideration for such accounts and materials is not expected to exceed $10,000.

Haverhill Electric supplies gas to approximately 2,600 customers and its gas plant and business constitute approximately 4 percent of its total utility plant and business. Its gas requirements are purchased from Haverhill Gas Light Company. It is stated in the declaration that the base purchase price of $197,000 was arrived at by negotiations between the two companies and that consideration was given to the depreciated book value of the gas properties, amounting as at June 30, 1950, to $214,455, and to the past, present and potential earning capacity of such properties. It is indicated that Haverhill Electric's net operating income from the gas properties for the twelve months ended June 30, 1950, approximated $9,500. The declaration states that Haverhill Electric will use the proceeds derived from the proposed sale to reduce its 2¾ percent promissory note indebtedness, which as at June 30, 1950, amounted to $500,000.

It is estimated in the declaration that the total expenses in connection with the proposed transactions, including the expenses for services performed by New England Power Service Company, an affiliated service company, will be approximately $2,017.

NEES, the declarant, states that the proposed sale and acquisition of Haverhill Electric's gas properties and franchises is subject to the jurisdiction of the Department of Public Utilities of the Commonwealth of Massachusetts and is not subject to the jurisdiction of any Federal regulatory body other than this Commission. NEES requests that this Commission's order be made effective upon issuance.

By the Commission.

[F. R. Doc. 50-8299; Filed, Sept. 21, 1950; 8:47 a. m.]

[File No. 55-94]

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

NOTICE OF FILING OF APPLICATION FOR APPROVAL OF MAXIMUM INTERIM COMPENSATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

Notice is hereby given that Oliver R. Waite of Brickley, Sears and Cole, 1 Federal Street, Boston, Massachusetts, has filed with this Commission an application pursuant to Rule U-63 promulgated under section 11 (f) of the Public Utility Holding Company Act of 1935 ("the act"), for approval of $10,000 as the maximum amount for which application may be made to the District Court of the United States for the District of Massachusetts ("the Court") for an interim allowance for his services rendered as counsel to Bartholomew A. Brickley, Trustee of International Hydro-Electric System ("IHES"), a registered holding company, for the period from August 1, 1948, to January 27, 1950, inclusive.

All interested persons are referred to said application on file in the offices of the Commission for a statement of the services rendered, which are summarized as follows:

The applicant has been employed since May 19, 1947, as counsel to assist the Trustee in connection with proceedings pursuant to section 11 (d) of the act for the liquidation and dissolution of IHES. For his services prior to August 1, 1948, he has been paid $10,000, pursuant to orders of the Commission and the Court. He now requests the Commission to fix $10,000 as the maximum amount for which he may apply to the Court for interim compensation for his services from August 1, 1948, to January 27, 1950, inclusive, during which period he states that he devoted 814 hours to the work, plus unrecorded time in conferences with the Trustee, estimated at an additional 100 hours. Applicant's detailed statement of recorded time indicates work in connection with the drafting of the Trustee's Second Plan, in preparing for and attending hearings before the Commission and the Court, and in various ancillary matters.

Notice is further given that any interested person may, not later than September 25, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said application which he proposes to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 25, 1950, said application, as filed or as amended, may be granted without public hearing; or the Commission may exempt such transaction as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-8300; Filed, Sept. 21, 1950; 8:47 a. m.]

[File No. 70-2471]

DELAWARE POWER AND LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of September A. D. 1950.

Delaware Power and Light Company ("Delaware"), a registered holding company and utility company, having filed a declaration, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 and Rule U-50 of the general rules and regulations promulgated thereunder, with respect to the following proposed transaction:

Delaware proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $12,000,000 principal amount of its First Mortgage and Collateral Trust Bonds ____ percent series due 1980. The interest rate and the price to the company for the bonds will be determined by competitive bidding except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102.75 percent of the principal amount.

The proceeds from the sale of such securities will be used to finance a portion of the copstruction program of Delaware and its subsidiaries. It is estimated that the construction program for the years 1950 to 1951 inclusive will require expenditures of $38,000,000. Of such estimated requirements, approximately $4,750,000 has been obtained from the sale of 232,520 shares of common stock in April 1950, $19,000,000 will be obtained from treasury funds, retained earnings, and provisions for amortization and depreciation, and $12,000,000 will be obtained from the bonds now proposed to be sold. The company states that it has no present plans for the sale of any additional securities, if such may be required to complete its construction program.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that the said declaration be permitted to become effective forthwith:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act, that said declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed issuance and sale of bonds shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record herein and a further order shall have been entered with respect thereto, which order shall contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved.

It is further ordered, That jurisdiction be, and the same hereby is, reserved over all fees and expenses to be incurred in connection with the proposed transaction.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 15 NUMBER 185

Washington, Saturday, September 23, 1950

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 67—DETERMINATION AND CERTIFICATION OF CONDITION (SHRINKAGE OR CLEAN CONTENT) OF WOOL

SUSPENSION OF SERVICE

On July 27, 1950, there was published in the FEDERAL REGISTER (15 F. R. 4849) a notice of the proposed suspension of the service heretofore conducted by the Department of Agriculture for the determination and certification of the condition (shrinkage or clean content) of wool under the regulations in Part 67 of Title 7 of the Code of Federal Regulations, pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the so-called Farm Products Inspection Act consisting of provisions for the market inspection of farm products recurring in the annual appropriation acts for the Department of Agriculture (7 U. S. C. Supp. 414). After due consideration of all relevant matters presented pursuant to the notice and under the authority of the Agricultural Marketing Act of 1946 and the item for market inspection of farm products in the Department of Agriculture Apropriation Act, 1951, the wool certification service conducted under the regulations in said Part 67 is hereby suspended.

This order shall become effective thirty days after its publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624. Interprets or applies Chap. VI, Title I, Pub. Law 759, 81st Cong.)

Done at Washington, D. C., this 20th day of September 1950.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 183]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.482 *Orange Regulation 183*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 25, 1950. Shipments of oranges, grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since September

11, 1950, and will so continue until September 25, 1950; the recommendation and supporting information for continued regulation subsequent to September 24 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 19; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., September 25, 1950, and ending at 12:01 a. m., e. s. t., October 9, 1950, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida which grade U. S. No. 2 Bright, U. S. No. 2, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida which are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Bright," "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," "container," and "standard nailed box" shall each have the same meaning as when used in the revised United States Standards for Oranges (7 CFR 51. 192; 14 F. R. 6831).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 21st day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Grapefruit Reg. 127]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.483 *Grapefruit Regulation 127.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 25, 1950. Shipments of grapefruit grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since September 11, 1950, and will so continue until September 25, 1950; the recommendation and supporting information for continued regulation subsequent to September 24 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 19; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., September 25, 1950, and ending at 12:01 a. m., e. s. t., October 9, 1950, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(v) Any pink seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "variety," "ship," and "Growers Administrative Committee," shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Grapefruit (7 CFR 51.191; 14 F. R. 6828).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 21st day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Lemon Reg. 349]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.456 *Lemon Regulation 349.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 20, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time,

are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 24, 1950, and ending at 12:01 a. m., P. s. t., October 1, 1950, is hereby fixed as follows:

(i) District 1: unlimited movement;

(ii) District 2: 250 carloads;

(iii) District 3: unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 21st day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Orange Reg. 340, Amdt. 1]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Orange Regulation 340, as amended. (a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR Part 966; 14 F. R. 3614) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of oranges grown in the State of California or in the State of Arizona.

(b) *Order, as amended.* The provisions in paragraph (b) (1) (i) (*b*) of § 966.486 (Orange Regulation 340, 15 F. R. 6215) are hereby amended to read as follows:

(i) *Valencia oranges* • • •

(*b*) Prorate District No. 2: 1,250 carloads,

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 20th day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 50-8328; Filed, Sept. 22, 1950; 8:45 a. m.]

[Orange Reg. 341]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.437 *Orange Regulation 341*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended, (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on September 21, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona, which may be handled during the period beginning at 12:01 a. m., P. s. t., September 24, 1950, and ending at 12:01 a. m., P. s. t., October 1, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: Unlimited movement; (*b*) Prorate District No. 2: 1,200 carloads; (c) Prorate District No. 3: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: No movement; (*b*) Prorate District No. 2: No movement; (c) Prorate District No. 3: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6538) contained in this part.

Orange Regulation 332 (7 CFR 966.478, 15 F. R. 3363) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 22d day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 50-8421; Filed, Sept. 22, 1950; 11:46 a. m.]

PART 986—HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

SUPPLEMENTARY ALLOTMENTS OF 1950 CROP

Section 986.402 *Supplementary allotments for the 1950 hop crop*—(a) *Findings.* (1) Notice of proposed rule making with respect to supplementary allotments for the 1950 crop of hops was published in the FEDERAL REGISTER of September 6, 1950 (15 F. R. 6000), pursuant to the provisions of Marketing Agreement No. 107 and Order No. 86 regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (7 CFR 986.1 et seq.). In said notice, in which it was proposed that supplementary allotments of not over 90 percent be issued to growers for whom there is complete information as to their 1950 hop crop available to the Growers Allocation Committee, opportunity was afforded interested parties to submit to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., written data, views, or arguments for consideration prior to final rule making. No such data, views, or arguments were filed.

Therefore, after consideration of the recommendation of the Hop Control Board and other information available to the Department, it is found that supplementary allotments of 1950 crop of hops should be made on the basis as indicated in the order below.

(2) It is necessary to make effective not later than the day after publication of this section in the FEDERAL REGISTER this regulation as to supplementary allotments of 1950 crop hops for the reason that in some areas the harvesting of hops has been completed, and the prompt issuance of supplementary allotments is necessary. No preparation for this section is required which cannot be completed prior to such effective date. Therefore, good cause exists for not delaying the effective date of this section beyond the day after the publication of this section in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.).

(b) *Order.* The supplementary allotment to any grower for hops produced during the marketing season beginning August 1, 1950, shall be such as will not exceed 80 percent of such grower's probable 1950 salable allotment, as provided in § 986.6 (c) (2) (ii) (b) of this part: *Provided*, That, when complete information on the 1950 hop crop production of any grower is available to the Growers Allocation Committee, a supplementary allotment such as will not exceed 90 percent of that grower's probable salable allotment of 1950 crop hops shall be issued, upon application, to such grower.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. Sup. 608c)

Issued at Washington, D. C., this 20th day of September 1950, to be effective on the day after this document is published in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 2, Amdt. 7]

PART 60—AIR TRAFFIC RULES

MINIMUM EN ROUTE INSTRUMENT ALTITUDES

The minimum en route instrument altitude alterations appearing hereinafter are adopted when indicated in order to promote safety of the flying public.

Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 60 is amended as follows:

1. Section 60.17–12 *Green Civil Airway No. 2*, is amended to read in part:

From—	To—	Minimum altitude
Buffalo, N. Y.	Rochester, N. Y.	2,100
Rochester, N. Y.	Syracuse, N. Y.	2,100

2. Section 60.17–14 *Green Civil Airway No. 4*, is amended to read in part:

From—	To—	Minimum altitude
St. Peters (INT), Mo.	St. Louis, Mo.	1,800
St. Louis, Mo.	Wood River (INT), Ill.	1,800

3. Section 60.17–106 *Amber Civil Airway No. 6*, is amended to read in part:

From—	To—	Minimum altitude
Mansfield, Ohio	Int. W. crs. Wellington, Ohio (VAR) and NE. crs. Columbus, Ohio.	2,600
Int. W. crs. Wellington, Ohio (VAR) and NE crs. Columbus, Ohio.	Elyria, Ohio (Rbn)	2,200

4. Section 60.17–107 *Amber Civil Airway No. 7*, is amended to read in part:

From—	To—	Minimum altitude
Bedford (INT), Mass.	Boston, Mass.	1,700

5. Section 60.17–209 *Red Civil Airway No. 9*, is amended to read in part:

From—	To—	Minimum altitude
San Diego, Calif.[1]	El Centro, Calif. (east-bound).	8,000
El Centro, Calif.	Barrett Lake, Calif. (FM) (west-bound).	8,000
Barrett Lake, Calif. (FM).	Jamel, Calif. (Rbn) (west-bound).	6,000
Jamel, Calif. (Rbn)	San Diego, Calif. (west-bound).	3,500

[1] 3,000 feet—Minimum Crossing Altitude at San Diego, east-bound.

6. Section 60.17–211 *Red Civil Airway No. 11*, is amended to eliminate:

From—	To—	Minimum altitude
Ardmore Okla. (Rbn)	Tulsa, Okla.	2,700
Bedford (INT), Mass.	Boston, Mass.	1,700

7. Section 60.17–213 *Red Civil Airway No. 13*, is amended to read in part:

From—	To—	Minimum altitude
Franklin (INT), Mass.	Bedford (INT), Mass.	1,800

8. Section 60.17–221 *Red Civil Airway No. 21*, is amended to eliminate:

From—	To—	Minimum altitude
Pittsburgh, Pa.	New Alexandria (INT), Pa. (east-bound).	4,000
New Alexandria (INT), Pa.	Pittsburgh, Pa. (west-bound).	2,600
New Alexandria (INT), Pa.	North Altoona, Pa.	4,500
North Altoona, Pa.	Selinsgrove, Pa. (Rbn).	4,500

9. Section 60.17–221 *Red Civil Airway No. 21*, is amended to read in part:

From—	To—	Minimum altitude
Int. E. crs. Pittsburgh, Pa. and W. crs. Altoona, Pa.	Tyrone (INT), Pa.	4,500
Tyrone (INT), Pa.	Selinsgrove, Pa. (Rbn).	4,500

10. Section 60.17–229 *Red Civil Airway No. 29*, is amended to read in part:

From—	To—	Minimum altitude
Harrisburg, Pa.	Int. S. crs. Harrisburg, Pa. and NE. crs. Arcola, Va.	2,500
Int. S. crs. Harrisburg, Pa. and NE. crs. Arcola, Va.	Int. S. crs. Harrisburg, Pa. and W. crs. Baltimore, Md.	2,000

11. Section 60.17–234 *Red Civil Airway No. 34*, is amended by adding:

From—	To—	Minimum altitude
Int. E. crs. Charleston, W. Va. (VAR) and N. crs. Pulaski, Va.	Pulaski, Va.	6,000

12. Section 60.17–237 *Red Civil Airway No. 37*, is amended by adding:

From—	To—	Minimum altitude
Int. E. crs. Huntington, W. Va. and W. crs. Charleston, W. Va. (VAR).	Charleston, W. Va. (VAR).	2,500
Charleston, W. Va. (VAR).	Roanoke, Va.	6,500

13. Section 60.17–259 *Red Civil Airway No. 59*, is amended by adding:

From—	To—	Minimum altitude
Garden City, Kans.	Gage, Okla.	4,000

14. Section 60.17–260 *Red Civil Airway No. 60*, is amended to eliminate:

From—	To—	Minimum altitude
Saratoga (INT), Calif.	Moffett, Calif.	5,000

15. Section 60.17–272 *Red Civil Airway No. 72*, is amended by adding:

From—	To—	Minimum altitude
Idlewild, N. Y.	Int. SE. crs. Idlewild, N. Y. and SW. crs. Islip, N. Y. (VAR).	1,500

16. Section 60.17–277 *Red Civil Airway No. 77*, is amended to read in part:

From—	To—	Minimum altitude
Lynchburg, Va.	Int. of Red Civil Airway No. 77 and NW. crs. Blackstone, Va.	3,000
Int. of Red Civil Airway No. 77 and NW. crs. Blackstone, Va.	Richmond, Va.	2,000

17. Section 60.17–292 *Red Civil Airway No. 92*, is added to read:

From—	To—	Minimum altitude
Int. SE. crs. Newark, N. J. and SW. crs. Islip, N. Y. (VAR).	Islip, N. Y. (VAR)	1,500
Islip, N. Y. (VAR)	Int. NE crs. Islip, N. Y. (VAR) and SW crs. Moosup, Conn. (VAR).	1,600
Int. NE crs. Islip, N. Y. (VAR) and SW. crs. Moosup, Conn. (VAR).	Moosup, Conn. (VAR)	1,800
Moosup, Conn. (VAR).	Logan Airport, Boston, Mass.	1,700

18. Section 60.17–294 *Red Civil Airway No. 94*, is added to read:

From—	To—	Minimum altitude
Providence, R. I.	Otis, Mass. (Rbn)	1,500
Otis, Mass. (Rbn)	Hyannis, Mass. (Rbn)	1,500

19. Section 60.17–602 *Blue Civil Airway No. 2*, is amended to read in part:

From—	To—	Minimum altitude
Mercer (INT), Pa.	Erie, Pa.	3,000

20. Section 60.17–614 *Blue Civil Airway No. 14*, is amended to eliminate:

From—	To—	Minimum altitude
Mt. Laguna, Calif. (Rbn).	Oceanside, Calif. (Rbn).[1]	9,000

[1] 6,000 feet—Minimum crossing altitude at Oceanside, southeast-bound.

21. Section 60.17–614 *Blue Civil Airway No. 14*, is amended by adding:

From—	To—	Minimum altitude
Int. W. crs. El Centro, Calif., and bearing 150° mag. from Julian, Calif. (Rbn).	Julian, Calif. (Rbn)	9,000

22. Section 60.17–615 *Blue Civil Airway No. 15*, is amended to read in part:

From—	To—	Minimum altitude
Portsmouth (INT), Ohio.	Columbus, Ohio.	2,400

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective October 1, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50–8288; Filed, Sept. 22, 1950; 8:45 a. m.]

Subchapter C—Procedural Regulations

[Regs., Serial No. PR–7]

PART 303—RULES OF PRACTICE IN AIRCRAFT ACCIDENT INQUIRIES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

At the present time, the procedural regulations of the Board do not contain provisions which make known to the public its procedures in aircraft accident inquiries. The purpose of this part is to fill that gap by making available to the public information concerning the procedures followed by the Board in such inquiries. Part 303 is not intended to prescribe any new procedures, for it is designed merely to codify and publish the procedures which the Board has followed for many years.

An aircraft accident inquiry is held solely for the purpose of discovering the facts, conditions, and circumstances concerning an aircraft accident in order to determine the probable cause of the accident and to ascertain the measures which will best tend to prevent similar accidents in the future. Such inquiries are not held for the purpose of determining the rights or liabilities of private parties, and the Board makes no attempt to do so. The procedures followed by the Board in such inquiries are adapted to the special nature of the inquiries. It is believed that the Board's procedures as set forth in Part 303 are self-explanatory.

Since this part is a rule of agency procedure and practice, notice and public procedure are not necessary.

In consideration of the foregoing, the Civil Aeronautics Board hereby promulgates a new Part 303 of the procedural regulations to read as follows, effective September 15, 1950:

Sec.
303.0 Applicability of part.
303.1 Nature of inquiry.

INITIAL PROCEDURE

303.2 Institution of inquiry.
303.3 Designation of presiding officer.
303.4 Notice of inquiry.
303.5 Investigator-in-charge.
303.6 Board of inquiry.

CONDUCT OF INQUIRY

303.11 Powers of presiding officer.
303.12 Examination of witnesses.
303.13 Evidence.
303.14 Recommendations by interested persons.
303.15 Stenographic transcript.
303.16 Docket.
303.17 Investigation to remain open.
303.18 Withholding of information.

BOARD REPORT

303.21 Basis of report.
303.22 Supplemental report.

AUTHORITY: §§ 303.0 to 303.22 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 701, 702, 1004, 52 Stat. 1012, 1013, 1021; 49 U. S. C. 581, 582, 644.

§ 303.0 *Applicability of part.* The provisions of this part shall govern all aircraft accident inquiries conducted by the Civil Aeronautics Board under the authority of Title VII of the Civil Aeronautics Act of 1938, as amended, unless otherwise specifically ordered by the Board.

§ 303.1 *Nature of inquiry.* Aircraft accident inquiries are held by the Board as a part of the investigation of accidents involving aircraft in order to determine the facts, conditions, and circumstances relating to each accident and the probable cause thereof and to ascertain measures which will best tend to prevent similar accidents in the future. It is purely a fact-finding procedure, and there are no formal pleadings or issues and no adverse parties. Aircraft accident inquiries are not subject to the provisions of secs. 4, 5, 7, 8, or 10 of the Administrative Procedure Act.

INITIAL PROCEDURE

§ 303.2 *Institution of inquiry.* The Director, Bureau of Safety Investigation, shall, on behalf of the Board, order an inquiry into an accident involving aircraft whenever he deems it necessary in the public interest.

§ 303.3 *Designation of Presiding Officer.* The Director, Bureau of Safety Investigation, shall designate in writing a Presiding Officer to conduct the inquiry.

§ 303.4 *Notice of inquiry.* The Presiding Officer shall designate a time and place for the inquiry which meets the needs of the Board and gives due consideration to the convenience of the witnesses. The time and place of the inquiry shall be published in the notices section of the FEDERAL REGISTER prior to the date of the inquiry, unless such notice is impractical or unnecessary.[1]

§ 303.5 *Investigator-in-Charge.* An employee of the Board shall be designated to serve as the Investigator-in-Charge. It shall be his responsibility to direct the investigation in the field and to serve on the Board of Inquiry.

§ 303.6 *Board of Inquiry.* The Board of Inquiry shall be composed of the Presiding Officer, the Investigator-in Charge, and such other persons as are appointed by the Director, Bureau of Safety Investigation. It shall be the duty of the Board of Inquiry to secure in the form of a public record all known facts pertaining to the cause of the accident and the surrounding circumstances and conditions from which corrective action may be formulated.

CONDUCT OF INQUIRY

§ 303.11 *Powers of Presiding Officer.* A Presiding Officer shall have the following powers:

(a) To give notice concerning and hold inquiries;
(b) To adjourn, continue, or postpone inquiries;
(c) To administer oaths and affirmations;
(d) To examine witnesses;
(e) To issue subpoenas and to take or cause depositions to be taken in accordance with the provisions of section 1004 of the Civil Aeronautics Act of 1938, as amended;
(f) To rule upon the admissibility of and receive evidence;
(g) To regulate the course of the inquiry;
(h) To dispose of procedural requests or similar matters; and
(i) To take any other action necessary or incident to the orderly conduct of such proceedings.

§ 303.12 *Examination of witnesses.* All questions shall be asked by the Presiding Officer or by other members of the Board of Inquiry. Questions from other persons shall be signed and submitted separately in writing to the Presiding Officer, and they shall be asked by the Presiding Officer if he finds them proper and relevant to the proceeding.

[1] The Board ordinarily gives personal notice to all known interested persons and also publicizes the inquiry by a press release to aviation trade journals and local newspapers near the scene of the accident.

§ 303.13 *Evidence.* The Presiding Officer shall receive all testimony and exhibits which might be of aid in determining the cause of the accident. He may exclude any testimony or exhibits which are not pertinent to the inquiry or which are merely cumulative. He may withhold from public disclosure any evidence, pending a final determination by the Board as to whether it is in the public interest to release such evidence.

§ 303.14 *Recommendations by interested persons.* Any person may submit his recommendations as to the proper conclusions to be drawn from the testimony and exhibits submitted at the inquiry. Such recommendations may be submitted by a written brief either at or after the inquiry, provided that the Presiding Officer may in his discretion permit such recommendations to be presented orally at the close of the inquiry. Five copies of such briefs shall be submitted, and they shall be made a part of the docket.

§ 303.15 *Stenographic transcript.* A verbatim report of the inquiry shall be taken. Copies of the transcript may be obtained by any interested person from the official reporter upon payment of the fees fixed therefor.

§ 303.16 *Docket.* The docket of an inquiry shall include the transcript, exhibits, briefs, and all other information concerning the accident which the Board has not ordered to be withheld from the public. A copy of the docket shall be made available to any person for review at the Washington office of the Board. Photostatic copies of exhibits may be obtained from the Chief of the Docket Section upon paying the cost of such copies.

§ 303.17 *Investigation to remain open.* Safety investigations are never officially closed but are kept open for the submission of new and pertinent evidence. If the Director of the Bureau of Safety Investigation finds that such evidence is relevant and probative, it may be made a part of the docket, unless the Board orders it to be withheld from public disclosure.

§ 303.18 *Withholding of information.* Any person may make written objection to the public disclosure of information contained in any report or document filed pursuant to this part or the provisions of the Civil Aeronautics Act of 1938, as amended, or of information obtained by the Board pursuant to the provisions of this part or the act, stating the grounds for such objection. Whenever such objection is made, the Board shall order such information withheld from public disclosure when, in its judgment, a disclosure of such information would adversely affect the interests of such person and is not required in the interest of the public.

BOARD REPORT

§ 303.21 *Basis of report.* The Board's report as to the facts, conditions, and circumstances relating to the accident and the probable cause thereof shall be based upon the docket of the inquiry, together with any other information which has come to the attention of the Board and its staff.

§ 303.22 *Supplemental report.* Upon receipt of any newly discovered evidence, the Board, after due consideration, may issue a supplemental report if it finds that such evidence warrants such action.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Regs., Serial No. PR–8]

PART 311—DISCLOSURE OF AIRCRAFT ACCIDENT INVESTIGATION INFORMATION

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

At the present time, the procedural regulations of the Board do not contain provisions regarding the disclosure by Board employees of information obtained during the course of an investigation of an accident involving aircraft. The purpose of this part is to make provision therefor and to regulate the conduct of its employees in regard to the disclosure of aircraft accident investigation information.

The Board is required by section 702 of the Civil Aeronautics Act (49 U. S. C. 582) to investigate such accidents and report the facts, conditions, and circumstances relating to each accident and the probable cause thereof, and to make such recommendations as, in its opinion, will tend to prevent similar accidents in the future.

To perform this function, the Board has appointed air safety investigators who are assigned to the investigation of aircraft accidents. However, the Board's staff of accident investigators is very small in relation to the great number of accidents which must be investigated. In the fiscal year 1949 alone, more than 7,500 accidents involving aircraft were reported to the Board. Since the Board has less than 30 field employees assigned to accident investigation duties, "on the spot" investigations of such accidents have necessarily been limited to those kinds of accidents most likely to be productive of information leading to future improvements in air safety, even though valuable information as to aviation safety might have been obtained through such investigation of all accidents. Furthermore, the Board must employ specialists in aircraft design, metallurgy, aerodynamics, power plants, meteorology, electronics, and other technical phases of aviation. However, the Board is able to employ only one or two specialists in some of these technical fields. It cannot be predicted when a major crash will occur, and all Board investigators must be instantly ready to proceed to the scene of an accident immediately after it occurs. It would, therefore, substantially interfere with the performance of the Board's accident investigation duties if its employees were compelled to testify in all the cases of which they gain personal knowledge in the per-

formance of their official duties with the Board.

The Board is not unmindful, however, of the possible hardships which confront private litigants, who often have great difficulty in establishing the facts relating to an aircraft accident. In order to preserve the wreckage, it is generally placed under guard and the public kept at a distance. However, air carriers and aircraft manufacturers are frequently invited to participate in the field investigation since their detailed technical and operating knowledge can contribute to the discovery of important evidence bearing upon the accident. Such participation in the public interest does, however, allow them a degree of access to factual information regarding the accident not accorded to injured parties or the dependents of deceased persons who, not having the requisite technical background, are not permitted to take part in the investigation of the accident, and therefore, would not have equal access to such information. It would be an injustice in such cases for the Board to withhold from injured parties the only source of the facts in an accident investigation as to facts which are known only to those participating in an accident investigation. In light of the foregoing, the Board believes it to be in the interest of the public to release to all interested parties all factual information regarding an aircraft accident in its possession and to allow its employees to testify as to facts known to them when it is convinced that such facts cannot reasonably be established by any other witness or method.

Section 205 (b) of the act authorizes the Board to cooperate with state and local authorities in connection with matters arising under the Act, and the Board believes it is in the public interest to cooperate with local authorities in investigations conducted by them in fulfillment of local governmental obligations. Therefore, the Board has decided to permit its employees to testify as to facts in coroners' investigations and grand jury proceedings conducted by a state or local government without regard to the availability of other witnesses.

The Board has consistently interpreted section 701 (e) thereof as forbidding the giving of opinion testimony by Board air safety investigators in civil suits between private litigants. The opinions of these experts, upon which the Board relies heavily in making its findings as to probable cause and recommendations in accident reports, are so inextricably entwined with the report that the basic purpose of section 701 (e) would be defeated were such opinion testimony permitted. Furthermore, apart from the provisions of 701 (e), the use of Board investigators as experts to give opinion testimony in civil suits between private parties would impose a serious burden on the Board's investigative staff, and would seriously interfere with the functioning of the Board's investigative processes. Consequently, the Board has prohibited its investigators from serving as expert witnesses or giving opinion testimony with regard to accidents investigated by them.

Since this regulation provides a rule of agency organization, procedure, and practice, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends the procedural regulations by adding a new Part 311 to read as follows, effective September 15, 1950:

Sec.
311.1 Finding as to the public interest.
311.2 Release of information concerning accidents.
311.3 Disclosure of information by testimony in court.

AUTHORITY: §§ 311.1 to 311.3 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 701, 702, 52 Stat. 1012, 1013; 49 U. S. C. 581, 582.

§ 311.1 *Finding as to the public interest.* All accident reports and underlying papers in the office of the Bureau of Safety Investigation are in the custody of the Secretary of the Board subject to access by employees of the Board for purposes relating to their official duties. Employees have no control of such reports and papers, and no discretion with regard to permitting the use of them for any other purpose except as provided in this part. Employees are hereby prohibited from giving out any such reports, papers, or copies thereof to private parties or to local officers, or to testify in any court as to information in such reports or papers, or to produce such reports, papers, or copies thereof in any court (whether in answer to subpoenas duces tecum or otherwise) except as provided in this part. Making such reports or underlying papers public other than as provided in this part is deemed to be contrary to the public interest and is hereby prohibited.

§ 311.2 *Release of information concerning accidents.* Information secured by the Board concerning accidents involving aircraft may be released only as follows:

(a) *Regional offices.* Chiefs of Regions shall, upon request, release the following information concerning any accident at any time during or after the investigation of the accident:

(1) Place and date of the accident;

(2) Make, model, identification mark, and registered owner or operator of the aircraft involved;

(3) Names and addresses of the crew and other occupants of the aircraft or persons injured in the accident; and

(4) Information relating to any fatalities resulting from the accident and to the condition of injured persons (disclosure of this information must be qualified by the statement that such information is based on reports of physicians or hospitals).

(b) *The Washington office.* The Director of the Bureau of Safety Investigation or such person in the Washington office as he may designate shall, upon request, release the information described in paragraph (a) of this section. In addition, the Director or such designee shall, upon request:

(1) Release the names of witnesses and their addresses;

(2) Make replies as to facts in answer to specific inquiries, either verbal or written, concerning aircraft accidents, and shall furnish copies of documents in accident files, provided the expense of making such copies is borne by the recipient. In both instances, however, any suggestion, opinion, or recommendation made by any employee of the Board or any employee of the Civil Aeronautics Administration, when acting on behalf of the Board, shall be omitted; and

(3) Make available for inspection that portion of the file containing data pertinent to the accident but shall not make available that portion of the file containing any opinion, suggestion, or recommendation of any employee of the Board or any employee of the Civil Aeronautics Administration, when acting on behalf of the Board.

§ 311.3 *Disclosure of information by testimony in court.* No Board employee shall make public by testimony in court aircraft accident information obtained by him in the performance of his official duties, except in accordance with the following:

(a) *Testimony of employees.* Employees may serve as witnesses for the purpose of testifying to the facts observed by them in the course of accident investigations in those cases in which an appropriate showing has been made that the facts desired to be adduced are not reasonably available to the party seeking such evidence by any other method, including the use of discovery procedures against the opposing party. Employees shall testify only as to facts actually observed by them in the course of accident investigations and shall not give opinion evidence as expert witnesses.

(b) *State and local investigations.* Employees may testify in a coroner's inquest and a grand jury proceeding by a state or local government only as to facts actually observed by them in the course of accident investigations and shall not give opinion evidence as expert witnesses.

(c) *Testimony by deposition.* Insofar as possible, testimony of employees will be made available only through depositions taken at times and places reasonably fixed so as to avoid substantial interference with the performance of the duties of the employees concerned.

(d) *Request for testimony of employees.* A request for testimony of a Board employee relating to an aircraft accident shall be addressed to the General Counsel of the Board, who shall have power to approve or deny such a request. Such request shall set forth the reasons for desiring the testimony and facts showing that it conforms to the Board policies set forth above.

(e) *Procedure in the event of a subpoena.* If any employee receives a subpoena to produce accident reports or underlying papers or to testify in court as to accident information, the employee shall immediately notify the Director, Bureau of Safety Investigation by telegram. He shall give the title of the case, and identify the accident by name; the name of the judge, if available, and the title and address of the court; the date on which he is directed to appear; the name, address and telephone number, if available, of the attorney representing the party initiating the request; the scope of the testimony, if known, and whether or not the evidence is available elsewhere. The Director will immediately, upon receipt of notice that an employee has been subpoenaed, inform the General Counsel of the Board. The General Counsel will either give the employee permission to testify or make arrangements with the court to have him excused from testifying. Until one of these actions is taken the employee shall appear in court in response to the subpoena and respectfully decline to testify or to produce the records called for, on the grounds that this part prohibits such conduct.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.115]

PART 45 — VISAS: DOCUMENTATION OF ALIENS UNDER THE DISPLACED PERSONS ACT OF 1948, AS AMENDED

VISA REGULATIONS

CROSS REFERENCE: For regulations of the Displaced Persons Commission see 8 CFR Parts 700–710, Chapter IV (15 F. R. 3864). For regulations of the Immigration and Naturalization Service, see 8 CFR, Chapter I, Parts 105, 129 and 171 (15 F. R. 4440).

Chapter I, Title 22 of the Code of Federal Regulations is amended by the addition of the following new part:

Sec.
45.1 Definitions.
45.2 Classes of applicants under the Displaced Persons Act.
45.3 Applications for visas: Qualifications.
45.4 Preference and priorities.
45.5 Procedure in issuing or refusing visas.
45.6 Exemptions.
45.7 Assurances under section 3 (b) and section 3 (c) of the Displaced Persons Act.
45.8 Good-faith affidavit.
45.9 Disqualification to receive visas.
45.10 Visas: Numerical limitations.
45.11 Quota control.

AUTHORITY: §§ 45.1 to 45.11 issued under sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 222, 458. Interpret or apply 62 Stat. 1009–1014, Pub. Law 555, 81st Cong.; 50 U. S. C. App., Sup., 1951–1963.

§ 45.1 *Definitions.* For the purposes of this part all pertinent terms which are defined in § 42.101 of this chapter shall have the meaning ascribed thereto in § 42.101. As used in this part, the term:

(a) "Displaced Persons Act" means the Displaced Persons Act of 1948, approved June 25, 1948 (62 Stat. 1009), as amended and extended by Public Law 555, 81st Congress, 2d Session, approved June 16, 1950.

(b) "Commission" means the Displaced Persons Commission established under the Displaced Persons Act.

(c) "Displaced person" shall have the meaning ascribed thereto in section 2 of the Displaced Persons Act.

(d) "Eligible displaced person" shall have the meaning ascribed thereto in section 2 of the Displaced Persons Act and § 45.2 (a).

(e) "Eligible displaced orphan" shall have the meaning ascribed thereto in section 2 (e) of the Displaced Persons Act and § 45.2 (b).

(f) "Sec. 2(f) orphan" shall have the meaning ascribed thereto in section 2 (f) of the Displaced Persons Act and § 45.2 (c) (1).

(g) "German ethnic origin" refers to a person who

(1) Was born in Czechoslovakia, Estonia, Hungary, Latvia, Lithuania, Poland, Roumania, Russia, or Yugoslavia or areas which were under the control and domination on June 16, 1950, of any such countries, except those parts of Germany and Austria under military occupation on such date by the Union of Soviet Socialist Republics; and

(2) Resided, on January 1, 1949, in the western (American, British, or French) zones of Germany or Austria or western (American, British, or French) sectors of Berlin or Vienna; and

(3) Is a refugee or expellee who is characteristically Germanic, a status which shall be determined upon the basis of the following combination of factors, the presence or absence of any particular one of which shall not in itself be considered as conclusive, but any combination of which may be considered as providing satisfactory evidence of Germanic origin:

(i) Antecedents emigrated from Germany;

(ii) Uses German or any German dialect as the common language of the home or for social communication;

(iii) Resided in the country of birth in an area predominantly populated by persons of Germanic stock or origin who have retained German social characteristics and group homogeneity, as distinguished from the surrounding population;

(iv) Evidences common attributes or social characteristics of the Germanic group in which he resided in the country of birth such as educational institutions attended, church affiliation, social and political associations and affiliations, name, business or commercial practices and associations, and secondary languages or dialects.

(h) "Within the third degree of consanguinity" means lineal and collateral consanguinity computed according to the rules of the common law. Lineal consanguinity is the direct line of descent and those within the third degree of such consanguinity include the child, grandchild, great grandchild, parent, grandparent, and great grandparent. Collateral consanguinity is the relationship of persons descended from the same common ancestor and those within the third degree of such consanguinity include the brother, sister, nephew, niece, uncle, aunt, first cousin, second cousin, grandnephew, grandniece, great uncle, great aunt, child of great uncle or great aunt, and child of first cousin.

(i) "Country of last residence" as used in section 2 (d) and 3 (c) of the Displaced Persons Act means the country of the alien's residence in which he had established his domicile, or in which he had the right to reside permanently and the right to work.

(j) "World War II" shall be considered to have started on September 1, 1939.

(k) "Applicant" means an alien applying for an immigration visa under the provisions of the Displaced Persons Act and under the regulations contained in this part.

(l) "Principal applicant" means an applicant for whom an assurance of employment is provided or who confers derivative status on a spouse or minor dependent children.

(m) "Firmly settled", "firmly settled or resettled", or "firmly settled or firmly resettled" as used in sections 2 (c) (1), 3 (b) (3), 3 (b) (4), and 3 (c) (4), of the Displaced Persons Act are considered to be synonymous and shall have the meaning ascribed thereto in the regulations of the Commission (see 8 CFR 702.5 (15 F. R. 3867)): *Provided*, That a former member of the Polish Army as defined in section 3 (b) (3) of the Displaced Persons Act and as classified in § 45.2 (d) (2) who has not applied for British naturalization shall not be considered firmly settled or resettled if he registered for an immigration visa with a United States consular officer in Great Britain prior to June 16, 1950: *And provided further*, That a Greek refugee as defined in section 3 (b) (4) of the Displaced Persons Act and as classified in § 45.2 (d) (3), shall be considered firmly settled or firmly resettled if such refugee returned to his former habitual residence in Greece prior to January 1, 1950, or, if afforded the opportunity to return, he freely chose another place of residence prior to that date.

(n) "Unmarried" means not married at the time of issuance of a visa to the applicant, whether or not previously married.

(o) "Under 21 years of age" means under 21 years of age as of the time of issuance of a visa to the applicant.

(p) "Farm worker" means a person who engages in activities or performs services in his own behalf or as an employee of another person, trust, estate, partnership, corporation, or public agency in connection with farming in any of its branches and, among other things, includes the cultivation and tillage of the soil, dairying, the raising, production, cultivation, growing, harvesting, and processing of any agricultural or horticultural commodities including (1) crude gum (oleoresin) from a living tree, and the following products as processed by the original producer of the crude gum (oleoresin) from which derived: gum spirits of turpentine and gum resin, (2) maple syrup or maple sugar, and (3) mushrooms, the ginning of cotton, the raising, shearing, feeding, caring for, training, management, and slaughtering of livestock, bees, poultry, fur-bearing animals, and wildlife on a farm, the hatching of poultry, and any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to, or in conjunction with such farming operations,

including planting, handling, drying, packing, freezing, grading, processing (if such service is performed as an incident to ordinary farming operations, or in the case of fruits and vegetables as an incident to the preparation of such fruits and vegetables for market), storing, the preparation for market, delivery to storage or to market or to carriers for transportation to market, and the operation, management, conservation, improvement, or maintenance of the farm and the tools and equipment used in connection therewith, and including further the operation or maintenance of ditches, canals, reservoirs, or waterways used exclusively for supplying and storing water for farming purposes: *Provided, however*, That the foregoing shall not include services performed in connection with commercial canning or commercial freezing or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for processing or distribution for consumption.

(q) "British Isles" and "Great Britain" as used in section 3 (b) (3) of the Displaced Persons Act and in the regulations contained in this part are construed to be synonymous, and shall include England, Scotland, Wales and Northern Ireland.

(r) "Until July 1, 1952" as used in section 2 (f) of the Displaced Persons Act means not later than midnight of June 30, 1952.

(s) "Natives of Greece" as used in section 3 (b) (4) of the Displaced Persons Act means aliens chargeable to the quota of Greece under section 12 (a) of the Immigration Act of 1924.

(t) "Nationals of Greece" as used in section 3 (b) (4) means aliens who are citizens of Greece regardless of their place of birth.

(u) "Area or country in Europe" as used in section 3 (c) of the Displaced Persons Act shall include the Azores, the British Isles, the Dodecanese Islands, Iceland, Madeira, Svalbard, and all islands in the Mediterranean under the sovereignty of European countries.

(v) "Department" means the Department of State of the United States of America.

§ 45.2 *Classes of applicants under the Displaced Persons Act*—(a) *Eligible displaced persons*—(1) *IRO Displaced persons and refugees.* This class shall consist of aliens who (i) are displaced persons or refugees as defined in Annex I of the Constitution of the International Refugee Organization and are the concern of such organization; (ii) on or after September 1, 1939, and on or before January 1, 1949, entered Germany, Austria or Italy; (iii) on January 1, 1949, were in Italy or the American sector, the British sector, or the French sector of either Berlin or Vienna, or in the American zone, the British zone, or the French zone of either Germany or Austria, or who had temporarily absented themselves therefrom for reasons which show special circumstances justifying such absence; and (iv) have not been firmly resettled.

(2) *Persecutees: Residents of Germany and Austria.* This class shall consist of persons as defined in section 2 (c) of the Displaced Persons Act who (i) resided in Germany or Austria; (ii) were victims of persecution by the Nazi government and were detained in Germany or Austria, or were obliged to flee from and subsequently returned to one of such countries; and (iii) have not been firmly resettled.

(3) *Venezia Giulia refugees.* This class shall consist of persons as defined in section 2 (g) of the Displaced Persons Act who (i) were residents of Venezia Giulia prior to May 6, 1945; (ii) on or after May 6, 1945, departed from those parts of Venezia Giulia placed under the sovereignty or administration of Yugoslavia under the terms of the treaty of peace with Italy signed at Paris February 10, 1947; (iii) on June 16, 1950, were not *de jure* Italian citizens; and (iv) on July 1, 1947, were in Italy or in the United States-United Kingdom zone of the Free Territory of Trieste, or in the American sector, the British sector, or the French sector of either Berlin or Vienna, or in the American zone, the British zone or the French zone of either Germany or Austria. Not more than 2,000 immigration visas within the total numerical limitations provided in section 3 (a) of the Displaced Persons Act shall be issued to persons entitled to classification under this subparagraph.

(4) *Section 2 (d) persecutees.* This class shall consist of persons as defined in section 2 (d) of the Displaced Persons Act who (i) have been displaced from the country of their birth, or nationality, or their last residence since January 1, 1946; (ii) fled into Italy or the American sector, the British sector, or the French sector of either Berlin or Vienna, or the American zone, the British zone, or the French zone of either Germany or Austria; (iii) cannot return to the country of their birth, nationality, or last residence because of persecution or fear of persecution on account of race, religion, or political opinions; and (iv) whose admission into the United States for permanent residence is recommended by or on behalf of the Secretary of State and the Secretary of Defense. Not more than 500 immigration visas within the total numerical limitations provided in section 3 (a) of the Displaced Persons Act shall be issued to persons entitled to classification under this subparagraph.

(b) *Eligible displaced orphans*—(1) *Displaced orphans in general.* This class shall consist of persons as defined in section 2 (e) of the Displaced Persons Act, exclusive of Greek orphans defined therein, who (i) had not passed their 16th birthday anniversary on June 25, 1948; (ii) are orphans because of the death or disappearance of both parents, or who have been abandoned, or deserted by, or separated or lost from, both parents, or who have only one parent due to the death or disappearance of the other and the remaining parent is incapable of providing care for any such orphan and agrees to release him for emigration and adoption or guardianship; and (iii) on or before June 16, 1950, were in Italy or in the American sector, the British sector, or the French sector of either Berlin or Vienna, or the American zone, the British zone, or the French zone of either Germany or Austria.

(2) *Greek orphans.* This class shall consist of persons as defined in section 2 (e) of the Displaced Persons Act who (i) are natives of Greece; (ii) had not passed their 16th birthday anniversary on June 25, 1948; (iii) are orphans because of the death or disappearance of both parents, or who have been abandoned, or deserted by, or separated or lost from, both parents, or who have only one parent due to the death or disappearance of the other and the remaining parent is incapable of providing care for any such displaced person and agrees to release him for emigration and adoption or guardianship; (iv) on or after January 1, 1940, and on or before January 1, 1949, were forcibly removed or forced to flee from their former habitual residences in Greece as a direct result of military operations in Greece by the Nazi Government or by military operations in Greece by the Communist guerrillas; and (v) were residing in Greece on January 1, 1950.

(3) Not more than 5,000 special nonquota immigration visas within the total numerical limitations provided in section 3 (a) of the Displaced Persons Act shall be issued to persons entitled to classification under subparagraphs (1) and (2) of this paragraph.

(c) *Other orphans and adopted children*—(1) *Section 2 (f) orphans.* This class shall consist of persons as defined in section 2 (f) of the Displaced Persons Act who (i) are under the age of 10 years at the time of issuance of the visa; (ii) prior to June 30, 1950, were residents of Germany, Luxemburg, Austria, Italy, the United States-United Kingdom zone of the Free Territory of Trieste, the United Kingdom, Ireland, Portugal, France, Switzerland, Belgium, the Netherlands, Norway, Sweden, Denmark, Finland, Greece, or Turkey; (iii) are orphans because of the death or disappearance of both parents, or because of abandonment or desertion by, or separation or loss from, both parents, or who have only one parent due to the death or disappearance of, abandonment or desertion by, or separation or loss from, the other parent and the remaining parent is incapable of providing care for any such orphan and agrees to release him for emigration and adoption or guardianship; and (iv) prior to June 30, 1951, have assurances of proper care submitted to the Commission in their behalf for admission to the United States for permanent residence with a father or mother by adoption, or with a near relative, or with a citizen of the United States, or with an alien admitted to the United States for permanent residence, or who are seeking to enter the United States to come to a public or private agency approved by the Commission. Not more than 5000 special nonquota immigration visas, in addition to the total numerical limitations provided in section 3 (a) of the Displaced Persons Act, shall be issued until July 1, 1952, to persons entitled to classification under this subparagraph.

(2) *Section 12 (c) adopted children.* This class shall consist of children as defined in section 12 (c) of the Displaced Persons Act who (i) are chargeable either to the German or Austrian quota under the provisions of section 12 of the Immigration Act of 1924 or the provisions of section 12 of the Displaced Persons Act; (ii) had not passed their 16th birthday anniversary on June 25, 1948; (iii) are orphans because of the death or disappearance of both parents, or who have been abandoned, or deserted by, or separated or lost from, both parents, or who have only one parent due to the death or disappearance of the other and the remaining parent is incapable of providing care for any such displaced person and agrees to release him for emigration and adoption or guardianship; (iv) on or after January 1, 1940, and on or before January 1, 1949, were forcibly removed or forced to flee from their former habitual residences in Greece as a direct result of military operations in Greece by the Nazi Government or by military operations in Greece by the Communist guerrillas; and (v) were residing in Greece on January 1, 1950.

(3) Not more than 5,000 special nonquota immigration visas within the total numerical limitations provided in section 3 (a) of the Displaced Persons Act shall be issued to persons entitled to classification under subparagraphs (1) and (2) of this paragraph.

(c) *Other orphans and adopted children*—(1) *Section 2 (f) orphans.* This class shall consist of persons as defined in section 2 (f) of the Displaced Persons Act who (i) are under the age of 10 years at the time of issuance of the visa; (ii) prior to June 30, 1950, were residents of Germany, Luxemburg, Austria, Italy, the United States-United Kingdom zone of the Free Territory of Trieste, the United Kingdom, Ireland, Portugal, France, Switzerland, Belgium, the Netherlands, Norway, Sweden, Denmark, Finland, Greece, or Turkey; (iii) are orphans because of the death or disappearance of both parents, or because of abandonment or desertion by, or separation or loss from, both parents, or who have only one parent due to the death or disappearance of, abandonment or desertion by, or separation or loss from, the other parent and the remaining parent is incapable of providing care for any such orphan and agrees to release him for emigration and adoption or guardianship; (iv) on or after

ing preferences, without priority in time of issuance of visas as between such preferences or as between preference or nonpreference cases under the Displaced Persons Act, shall be granted to persons and their family dependents who are the spouses or the unmarried dependent children under twenty-one years of age, including adopted children and stepchildren of such persons:

(1) Aliens who are farm, household, construction, clothing, and garment workers and other workers needed in the locality in the United States in which such persons propose to reside, or persons possessing special educational, scientific, technological or professional qualifications.

(2) Persons who are the blood relatives of citizens or lawfully admitted alien residents of the United States, such relationship in either case being within the third degree of consanguinity computed according to the rules of the common law.

(3) Within the foregoing preference classes priority in the issuance of visas shall be given to eligible displaced persons who during World War II bore arms against the enemies of the United States or who served honorably in the labor service or guard units of the United States Army, and their family dependents who are the spouses or the unmarried dependent children under twenty-one years of age, including adopted children and stepchildren.

(b) Notwithstanding the preferences established by paragraph (a) of this section, and the preferences authorized by section 6 of the Immigration Act of 1924, top priority in the issuance of immigration visas under the German and Austrian quotas shall be granted to adopted children described in § 45.2 (c) (2). The date of registration for an immigration visa with the United States consular office shall determine the priority among such children in the issuance of visas within the classification. Immigration visas issued pursuant to this paragraph shall be charged to the nonpreference portion of such quotas.

§ 45.5 *Procedure in issuing or refusing visas under the Displaced Persons Act.* (a) Except as otherwise expressly provided in this part, consular officers shall follow the procedure prescribed in §§ 42.317–42.357 of this chapter in issuing immigration visas pursuant to the provisions of the Displaced Persons Act.

(b) Supporting documents required under § 42.327 of this chapter shall be attached to the visa application. Reports required under the provisions of sections 10 and 12 of the Displaced Persons Act with respect to eligible displaced persons and persons of German ethnic origin shall be appended to the visa in such manner as to make them readily available to officers of the Immigration and Naturalization Service. Consular officers shall insist upon presentation of birth certificates if such certificates are reasonably procurable, and in those cases in which the consular officer knows or has reason to believe that the alien was not born in the alleged country of birth, the alien shall be required to present satisfactory evidence of his birthplace. In cases where birth or police certificates are not reasonably available, secondary evidence of birthplace, character references, or other probative evidence may be accepted in lieu thereof.

(c) In the case of any applicant who is determined by the Commission to be eligible under the provisions of the Displaced Persons Act and who, for any reason, is refused an immigration visa by a consular officer, a report in writing, approved and signed by the consular officer in charge shall be submitted to the Commission for the purpose of maintaining orderly records, which report shall show the cause for rejection of the applicant and shall contain a reference to the specific provision or provisions of law on which such rejection is based. In any such case the consular officer shall notify the appropriate field representative of the Commission of the action taken.

(d) No quota immigration visa shall be issued under the provisions of the Displaced Persons Act or the regulations promulgated pursuant thereto until the visa-issuing officer shall have received an appropriate quota number for such purpose.

(e) Nonquota immigration visas issued within the numerical limitations prescribed in the Displaced Persons Act shall be numbered serially in a common series from which such numbers shall be apportioned by the Department in order to keep the issuances of such visas within the numerical limitations prescribed.

(f) Quota nationality shall be determined in accordance with the provisions of section 12 (a) of the Immigration Act of 1924, unless expressly provided otherwise in the Displaced Persons Act. However, section 12 (a) (2) of the Immigration Act of 1924, providing that the accompanying wife under certain conditions may be charged to the quota of her husband, shall not be applicable so far as concerns the Displaced Persons Act, except section 3 (c) thereof. In all such cases the accompanying wife shall be charged to the quota of her nationality. However, section 12 (a) (1) of the Immigration Act of 1924, providing that a minor child accompanied by its alien parent shall be charged to the quota of such parent, shall apply in the case of children accompanying parents under the provisions of the Displaced Persons Act.

(g) In the case of an alien applying for an immigration visa pursuant to the provisions of the Displaced Persons Act and of the Immigration Act of 1924, application Forms 256a and 256b shall be revised as follows:

(1) In the space provided in the upper left-hand corner of Form 256a and 256b, a line shall be drawn through the inapplicable words and the statement revised to read: "I claim to be an applicant under the Displaced Persons Act, and my claim is based on the following facts:".

(2) In the adjoining space provided below on Form 256a and 256b the statement shall be revised to read: "Available documents required by the Immigration Act of 1924, as amended, and the Displaced Persons Act are filed herewith and made a part hereof as follows".

(3) The clause at the lower end of the visa application form beginning with the word "Wherefore" shall be revised to read: "WHEREFORE, I apply for an Immigration Visa pursuant to the provisions of the Immigration Act of 1924 and the Displaced Persons Act".

(4) On the reverse side of Form 256a and 256b, the blank space opposite the fifth "box" shall be used to show the classification of persons under the Displaced Persons Act, except Greek preferentials as classified in § 45.2 (d) (4) and as to which the usual procedure shall be followed. In this connection, reference shall be made to the specific subsection or subdivision of the Displaced Persons Act under which the applicant is classified followed by a descriptive designation as used to identify the several classes of applicants in § 45.2, for example, "Section 2 (c)—Eligible displaced person", or "Section 2 (e)—Eligible displaced orphan", or "Section 2 (g)—Venezia Giulia refugee", or "Section 3 (b) (2)—China Refugee", or "Section 12 (a)—German ethnic origin".

(5) On the reverse side of Form 256a and 256b, the statement directly above the space provided for the signature of the visa-issuing officer shall be revised to read: "The bearer, who is of (citizen or subject) Nationality, having been seen and examined, is classified as a (insert descriptive designation used above) and is granted this Immigration Visa pursuant to the provisions of the Immigration Act of 1924 and the Displaced Persons Act".

§ 45.6 *Exemptions*—(a) *Visa fees.* No fee shall be charged for an immigration visa, or application therefor, issued to an eligible displaced person, an eligible displaced orphan, a person of German ethnic origin, or a section 12 (c) adopted child. In all other cases of applicants under the Displaced Persons Act, the issuance of an immigration visa shall be subject to payment of the prescribed fee of $1 for the application and $9 for the visa.

(b) *Contract labor and assisted immigration.* The excluding provisions of section 3 of the Immigration Act of February 5, 1917, as amended (39 Stat. 875–878; 8 U. S. C. 136), relating to contract labor and the payment of an alien's ticket or passage by another, or by any corporation, association, society, municipality, or foreign government, either directly or indirectly, shall not be applicable to persons whose admission into the United States is authorized under the provisions of the Displaced Persons Act: *Provided,* That the benefits of exemption from the contract-labor provision of section 3 of the Immigration Act of February 5, 1917, which are provided by section 3 (b) (5) of the Displaced Persons Act, shall not apply in the case of a person whose application under the Displaced Persons Act is based on the submission of an affidavit or other evidence of support. In lieu thereof, the applicant may submit assurances, as provided in section 45.7 of this part, in order to have the benefits of such exemption.

§ 45.7 *Assurances under sections 3 (b) and 3 (c) of the Displaced Persons Act.*—(a) *Assurances in lieu of affidavits of support.* In lieu of affidavits of support or other evidence of support, a person authorized to be admitted under sections 3 (b) and 3 (c) of the Displaced Persons Act may submit to consular officers assurances by a citizen or citizens of the United States in such form as is prescribed in this section, which shall provide that such person, if admitted into the United States, will be suitably employed without displacing some other person from employment, and that such person and the members of his family who shall accompany and who propose to live with him shall not become public charges and will have housing without displacing some other person from such housing. Either form of evidence shall be acceptable and either may be used for different individuals, except that an affidavit of support may be submitted by an alien resident of the United States as well as by a citizen of the United States. The term "citizen or citizens of the United States" shall include (1) domestic corporations, partnerships or other firms having their principal place of business within the United States; and (2) American public or voluntary agencies recognized by the Department for this purpose: *Provided,* That a voluntary agency within the meaning of this part shall be an agency which provides services in connection with the immigration, settlement, or welfare of aliens: *And provided further,* That the officer or member of such corporation, partnership, firm, or agency who executes the assurance in its behalf shall be a citizen of the United States.

(b) *Assurance of employment.* (1) The assurance that an applicant will be suitably employed without displacing some other person from employment shall provide such information as may be required to satisfy the responsible consular officer that (i) suitable activities for salary, wages, or other gain are to be made available to the applicant by, through, or on behalf of the individual or agency furnishing the assurance; (ii) the wages or compensation offered are not less than the prevailing rate for like activity in the community where the employment is pursued; (iii) the employment is of a permanent or indefinite nature and will be available at the time of the arrival of the applicant in the United States; and (iv) that no person will be removed from employment because of the activities to be performed by the applicant.

(2) Assurance that an applicant will, as his principal activity, attend regular sessions at a school in the United States and that he will undertake studies appropriate to his age and prior scholastic attainment shall, for the purposes of the Displaced Persons Act, be deemed to be assurance that the applicant will be suitably employed.

(3) If the employment is to be provided by an individual other than the person furnishing the required assurances, a statement in triplicate from the prospective employer, preferably on the business stationery of such employer, shall accompany the assurances, which statement shall contain a specific offer of employment, and shall indicate the place, nature, and anticipated duration, and other pertinent data relative thereto. The original of such statement shall accompany Form 256a; the duplicate thereof shall be attached to Form 256b; and the third copy given to the alien.

(c) *Assurance of housing.* The assurance that the principal applicant and the members of his family who will accompany him and who propose to live with him will have housing without displacing some other person from such housing shall provide such information as may be required to satisfy the responsible consular officer that (i) adequate housing will be available to the applicants upon arrival in the United States, and (ii) no occupant of such housing will be displaced therefrom in order to accommodate the occupancy of such applicants.

(d) *Assurance against becoming a public charge.* The assurance against becoming a public charge shall provide such information as may be required to satisfy the responsible consular officer that neither the principal applicant nor any of the members of his family who will accompany him and who propose to live with him will become a public charge.

(e) *Assurance of transportation.* In the case of an applicant who is ineligible for transportation provided by the International Refugee Organization, or by the Commission, the consular officer shall be satisfied, prior to the issuance of a visa to the applicant, that adequate arrangements will be made for the transportation of such applicant from his place of foreign residence to his destination in the United States, and in support thereof the consular officer may require the submission of such supplemental assurances as he deems necessary.

(f) *Forms of assurances.* (1) The assurances referred to in paragraphs (b), (c), (d) and (e) of this section shall be in such written form as may be prescribed by the Department and, except for the assurances submitted by public agencies or voluntary agencies approved by the Department, shall be sworn to or affirmed before a notary public or other person authorized to administer oaths or affirmations. Assurance forms may be obtained from such public agencies or voluntary agencies or from the Visa Division, Department of State, Washington 25, D. C.

(2) The assurance form prescribed for the purpose of this section shall contain the following statement immediately preceding the jurat: "I am furnishing this assurance fully mindful of the provisions of section 15 of the Displaced Persons Act providing that any person or persons who knowingly violate or conspire to violate any provision of such Act, except section 9, shall be guilty of a felony, and upon conviction thereof shall be fined not less than $500 or more than $10,000, or shall be imprisoned not less than two or more than ten years, or both."

(g) *Adequacy of assurances.* If the consular officer is satisfied that the assurances submitted pursuant to the provisions of this section meet the requirements of the Displaced Persons Act and the regulations contained in this part, he may proceed to a further consideration of the applicant's eligibility under the provisions of the Displaced Persons Act, and his eligibility to receive an immigration visa under the general immigration laws and regulations. If the consular officer is not satisfied that the assurances meet such requirements, he may require the sponsor to provide additional information relative thereto. If such additional information is not submitted within a reasonable time, or if submitted, does not meet the requirements of the Displaced Persons Act and the regulations contained in this part, the consular officer shall discontinue consideration of the application based on such assurances, and shall notify the applicant and the sponsor of his action.

(h) *Named and unnamed assurances.* Assurances submitted to a consular officer as provided in this section may be either named assurances (identifying the particular applicant by name), or unnamed assurances (not identifying the applicant by name but requesting admission of an alien having specific skills or other qualifications): *Provided,* That in the case of an applicant under section 3 (c) of the Displaced Persons Act only named assurances may be submitted.

(i) *Public agencies and voluntary agencies.* For the purpose of this section, public agencies and voluntary agencies shall include only such agencies as are recognized by the Department, and consular officers shall not accept assurances from any agency not so recognized and included in an approved list thereof furnished by the Department. Assurances submitted by public agencies or voluntary agencies shall conform to all the applicable requirements prescribed in this section.

(j) *Assurances: section 2, orphans*—(1) *Greek orphans.* Assurances required by subsection (e) of section (2) of the Displaced Persons Act in the case of a Greek orphan shall be submitted to the Commission in accordance with the regulations thereof as contained in 8 CFR Parts 700–710 (15 F. R. 3864). In areas where the operations of the Commission do not extend, such assurances, upon being validated by the Commission, will be forwarded to the appropriate consular office.

(2) *Section 2 (f) orphans.* The procedure prescribed in subparagraph (1) of this paragraph shall be applicable in the cases of orphans defined in subsection (f) of section (2) of the Displaced Persons Act except that the assurance required thereunder may be given either by a citizen of the United States or by an alien admitted to the United States for permanent residence, and shall be submitted to the Commission prior to June 30, 1951: *Provided,* That no immigration visa shall be issued subsequent to June 30, 1952, to an orphan defined in subsection (f) of section 2 of the Displaced Persons Act.

§ 45.8 *Good-faith affidavit.* (a) An applicant applying for an immigration

visa under the provisions of section 3 (b) or 3 (c) of the Displaced Persons Act whose admission is based on the submission of an assurance of suitable employment shall execute a signed statement under oath or affirmation that he accepts and agrees in good faith to abide by the terms of employment provided in such assurances. Consular officers are authorized to administer the required oath or affirmation without fee.

(b) The affidavit provided for in paragraph (a) of this section shall be executed in duplicate in accordance with the terms of a prescribed form to be furnished by the Department. The original of such affidavit shall be attached to Visa application Form 256a, and a duplicate copy thereof shall be attached to Form 256b.

§ 45.9 *Disqualification to receive visas.* (a) No visa shall be issued to any applicant whose admission under the Displaced Persons Act is based on the submission of an assurance of suitable employment unless the applicant shall first execute the good-faith affidavit required by section 6 of the Displaced Persons Act and the regulations contained in this part.

(b) No alien shall be issued a visa of any kind under the general immigration laws and regulations or under the provisions of the Displaced Persons Act if the consular officer knows or has reason to believe that the alien has willfully made a misrepresentation for the purpose of gaining admission into the United States as an eligible displaced person. In any case involving a reasonable doubt, the consular officer shall communicate with the Department with a view to obtaining an advisory opinion, and shall submit with his communication all the pertinent facts on which such doubt is based.

(c) No applicant shall be issued an immigration visa as an eligible displaced person, as a person of German ethnic origin, or as a section 12 (c) adopted child, in the absence of a written report from the Commission concerning his character, history, and eligibility as required by sections 10 and 12 of the Displaced Persons Act.

(d) No applicant shall be issued an immigration visa if the consular officer knows or has reason to believe that the applicant, subject to the exemptions expressly provided in § 45.6 (b), is excluded from admission to the United States under any of the provisions of the immigration laws and regulations, or if the consular officer knows or has reason to believe that the applicant is not entitled to the specific classification under which he makes application.

(e) No applicant shall be issued an immigration visa if the consular officer knows or has reason to believe that:

(1) The applicant is or has ever been a member of the Communist, Nazi or Fascist party or of a political or subversive group of an ideological character similar to that of any of said parties;

(2) The applicant adheres to, advocates, or follows, or has adhered to, advocated, or followed, the principles of any political or economic system or philosophy directed toward both the destruction of free competitive enterprise and the revolutionary overthrow of representative governments;

(3) The applicant is or has been a member of any organization which has been designated by the Attorney General of the United States as a Communist organization;

(4) The applicant is or has been a member of or participated in any movement which is or has been hostile to the United States or the form of Government of the United States;

(5) The applicant has advocated or assisted in the persecution of any person because of race, religion, or national origin;

(6) The applicant voluntarily bore arms against the United States during World War II. This provision shall apply to aliens who voluntarily bore arms against the United States on the Western front, including North Africa and Italy, but shall not apply to aliens, other than German nationals, who were forced against their will to serve in the German armed forces or auxiliary organizations.

(f) No visa shall be issued to an applicant coming within the provisions of sections 3 (b) or 3 (c) of the Displaced Persons Act in the absence of a thorough security check. An appropriate report thereon shall be placed in the applicant's file.

(g) No immigration visa shall be issued to a person coming within the provisions of section 2 (d) of the Displaced Persons Act and classified as a persecutee in § 45.2 (a) (4) in the absence of an appropriate instruction from the Department.

§ 45.10 *Numerical limitations on visas.* (a) In accordance with the provisions of the Displaced Persons Act, a total of 400,744 immigration visas, including visas previously issued under the Displaced Persons Act of 1948, may be issued as follows:

(1) Not more than 341,000 to eligible displaced persons and eligible displaced orphans, and certain other classes.

(2) Not more than 54,744 to persons of German ethnic origin and their spouses and children.

(3) Not more than 5,000 to nonquota orphans under 10 years of age.

(b) Within the 341,000 immigration visas authorized by section 3 (a) of the Displaced Persons Act and referred to in paragraph (a) (1) of this section, numerical limitations on the issuance of visas to designated classes shall apply as follows:

(1) Eligible displaced orphans	5,000
(2) China refugees and their spouses and children	4,000
(3) Polish veterans and their spouses and children	18,000
(4) Greek refugees and their spouses and children	7,500
(5) Greek preferentials	2,500
(6) Venezia Giulian refugees and their spouses and children	2,000

(c) In the event that all of the special classes of persons enumerated in paragraph (b) of this section do not receive the total of 39,000 visas authorized for such classes, the unused portion shall be made available to qualified aliens classifiable as eligible displaced persons to the extent of such unused portion but not in excess of 341,000.

(d) The number of immigration visas which may be issued to "out-of-zone" refugees pursuant to the provisions of section 3 (c) of the Displaced Persons Act shall be determined by the current numerical limitations on the quotas of the countries concerned.

(e) All persons receiving visas pursuant to the provisions of the Displaced Persons Act shall be charged to their proper quota on a current-year or a future-year basis, except the 5,000 eligible displaced orphans for whom special nonquota immigration visas are provided by section 3 (b) (1) of the Displaced Persons Act, and the 5,000 orphans under the age of 10 years for whom special nonquota immigration visas are provided by section 2 (f) of that Act, and other applicants who qualify for nonquota status under the general immigration laws.

(f) The number of immigration visas which may be issued to adopted children pursuant to the provisions of section 12 (c) of the Displaced Persons Act, exclusive of those which may be issued to such adopted children who qualify as persons of German ethnic origin, shall be determined by current numerical limitations on the immigration quotas of Germany and Austria.

(g) A quota number used in issuing an immigration visa to a particular applicant shall not be used in the issuance of a visa to any other applicant even though the original recipient thereof fails, for any reason, to use his immigration visa.

(h) A replace visa may be issued to the original applicant under the same number of the same quota, or to a nonquota applicant, during the effective period of the particular provisions of the Displaced Persons Act under which the applicant was classified and was issued his original visa: *Provided*, That in applying therefor the applicant is found to be still qualified to receive a replace visa under the same provisions of the Displaced Persons Act as were originally applicable to his case. If the original visa was allotted from a current quota, no replace visa may be issued subsequent to the quota year in which such original visa was issued.

§ 45.11 *Quota control.* The following rules are prescribed to govern the administration of immigration quotas under the Immigration Act of 1924 as affected by the Displaced Persons Act:

(a) The first fifty per centum of the quota of each nationality for each of the fiscal years beginning July 1, 1950, shall be made available for the issuance of immigration visas to qualified applicants of the first-preference quota class specified in section 6 (a) (1) of the Immigration Act of 1924.

(b) The remainder, if any, of the fifty per centum of each quota referred to in paragraph (a) of this section shall be made available for the issuance of immigration visas to qualified applicants of the second-preference quota class specified in section 6 (a) (2) of the Immigration Act of 1924.

(c) Any portion of the first fifty per centum of each annual quota referred to in paragraph (a) of this section not required for the issuance of immigration visas to qualified applicants entitled to first or second preference under the provisions of sections 6 (a) (1) or 6 (a) (2) of the Immigration Act of 1924, shall be made available to aliens qualifying for nonpreference status under the provisions of section 3 (c) of the Displaced Persons Act and section 6 (a) (3) of the Immigration Act of 1924: *Provided*, That not more than fifty per centum of such unrequired portion shall be made available to applicants qualifying under the provisions of section 3 (c) of the Displaced Persons Act.

(d) Twenty-five per centum of the quota of each nationality, for each of the fiscal years beginning July 1, 1950, and ending June 30, 1954, shall be made available for the issuance of immigration visas to qualified applicants under all provisions of the Displaced Persons Act, except section 3 (c) thereof, and for persons whose cases are adjusted under section 19 (c) of the Immigration Act of February 5, 1917, as amended, and for persons whose cases are adjusted under section 4 of the Displaced Persons Act: *Provided*, That beginning July 1, 1954, as much as fifty per centum of any quota may be used in any fiscal year for persons covered by this paragraph.

(e) During the fiscal years beginning July 1, 1950, and ending June 30, 1954, twenty-five per centum of each annual quota, exclusive of the fifty per centum (first preference immigrants) referred to in paragraph (a) of this section, and the twenty-five per centum (displaced persons) referred to in paragraph (d) of this section, shall be made available first for the issuance of immigration visas to qualified applicants entitled to preference under the provisions of section 6 (a) (2) of the Immigration Act of 1924, and second to qualified applicants under the provisions of section 3 (c) of the Displaced Persons Act: *Provided*, That not more than fifty per centum of the quota numbers not required for issuance to qualified applicants under the provisions of section 6 (a) (2) of the Immigration Act of 1924 shall be made available for issuance to qualified applicants under the provisions of section 3 (c) of the Displaced Persons Act: *Provided further*, That any residue of such twenty-five per centum shall be made available for issuance to qualified applicants entitled to nonpreference status under the provisions of section 6 (a) (3) of the Immigration Act of 1924.

(f) The reduction of a quota as required by the enactment of private acts by the Congress shall operate to reduce that particular portion of each annual quota from which a quota number is most readily available.

This order shall become effective upon publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is unnecessary because the regulations contained in this order involved foreign-affairs functions of the United States.

JAMES E. WEBB,
Acting Secretary of State.

SEPTEMBER 20, 1950.

Recommended, so far as the provisions of the Immigration Act of 1924 and the Alien Registration Act, 1940, are concerned:

J. HOWARD MCGRATH,
Attorney General.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 533—GRATUITY UPON DEATH

SPECIAL DETERMINATION CONCERNING ABSENCE WITHOUT LEAVE

Amend the second sentence of paragraph (a) (1) of § 533.8 to read as follows:

§ 533.8 *Special determinations*—(a) *Absence without leave.* (1) * * *. The 6 months' death gratuity is not a part of a member's "pay and allowances," therefore, if a member dies during an absence without leave, whether or not such absence is excused as unavoidable, payment of the 6 months' death gratuity at the rate of pay accruing to such member at the date of death is authorized if otherwise payable. * * *

TITLE 45—PUBLIC WELFARE

Chapter IV — Office of Vocational Rehabilitation, Federal Security Agency

PART 402—BUSINESS ENTERPRISES PROGRAM FOR THE BLIND

ADOPTION OF CERTAIN REGULATIONS

Pursuant to the authority conferred by the Omnibus Appropriation Act 1951, P. L. 759, approved September 6, 1950, governing Federal reimbursement for one-half of necessary expenditures for acquisition of vending stands and other equipment to be controlled by the State Agency for the use of blind persons, the regulations prescribed pursuant to the Labor-Federal Security Appropriation Act, 1948, approved July 8, 1947 (12 F. R. 4044), are hereby adopted and prescribed as the regulations under the Omnibus Appropriation Act 1951, with the following changes:

1. Section 402.2 (a), formerly § 601.2 (a), is hereby changed to read as follows:

(a) "Act" means Public Law 759, approved September 6, 1950, known officially as the "Omnibus Appropriation Act 1951."

2. Section 402.16, formerly § 601.16, is hereby changed to read as follows:

§ 402.16 *Limitation on amount of Federal reimbursement.* Federal reimbursement under the act and regulations in this part shall not exceed one-half the necessary cost of acquisition of vending stands or other equipment for the program: *Provided*, That such Federal reimbursement shall not exceed $700 for any one vending stand or for any one business enterprise irrespective of the number of operators placed in such vending stand or business enterprise; except that such Federal reimbursement shall not exceed $800 for a vending stand requiring special candy refrigerating equipment, or $1,000 for a vending stand requiring special cooking or cold drink refrigerating equipment, provided that in the case of an out-of-door stand, each of the foregoing maxima is increased by twenty percent.

3. Section 402.27, formerly § 601.27, is hereby changed to read as follows:

§ 402.27 *Continued operation of programs under plans submitted previous to the issuance of the regulations in this part.* Insofar as they are not inconsistent with the act or the regulations in this part, plan materials submitted pursuant to regulations previously issued, Part 402, Chapter IV, formerly Part 601, Chapter VI, of Title 45, shall be of the same force and effect, and shall be subject to the same terms and conditions as though submitted under the regulations in this part.

(39 Stat. 929 as amended, 49 Stat. 1559, sec. 7, 57 Stat. 374; 20 U. S. C. 11-30, 107-107f, 29 U. S. C. 37)

Date: September 19, 1950.

OSCAR R. EWING,
Federal Security Administrator.

[F. R. Doc. 50-8315; Filed, Sept. 22, 1950; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9508]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS

PART 4—EXPERIMENTAL AND AUXILIARY BROADCAST SERVICES

ORDER AMENDING RULES

In the matter of Amendment of Parts 2 and 4 of the Commission's rules and regulations Governing STL stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration a proposal to amend Parts 2 and 4 of the Commission's rules and regulations governing STL stations; and

It appearing, that Notice of Proposed Rule Making setting forth the proposed amendment was issued by the Commission on November 28, 1949, and was duly published in the FEDERAL REGISTER (14 F. R. 7274), which notice provided that interested parties might file written data, views, or comments concerning the said proposal on or before December 30, 1949; and

It appearing, that comments were filed by Parkersburg Broadcasting Co., Parkersburg, W. Va.; Maricopa Broadcasters, Inc., Phoenix, Arizona; WIBC, Inc., Indianapolis, Indiana; Bay Broadcasting Company, Inc., Bay City, Michigan; McClatchy Broadcasting Company, California; The Fort Industry Co., Detroit, Michigan; Isle of Dreams Broadcasting Corporation, Miami, Florida; which comments supported the adoption of the said amendments in the form proposed;

It further appearing, that comments were filed by the following parties which supported the adoption of the said amendments with the following modifications: (1) National Broadcasting Company proposed that the rules be revised, "to permit an STL station * * * to transmit the same program simultaneously to the transmitters of both its AM station and its FM station," which recommendation has been incorporated in the rules hereby adopted; and further proposed international broadcast stations remain eligible to become licensees of STL stations, which recommendation is unsupported by any showing of present or future need for such facilities by international broadcast stations, and therefore has not been adopted; (2) American Broadcasting Company, Inc. and KTOK, Inc., which proposed that the rules be revised to permit a licensee of both an FM and an AM broadcast station in the same city to use its STL station as an auxiliary to both such stations, which recommendation has in effect been incorporated in the rules hereby adopted; (3) Davenport Broadcasting Company (KSTT) which proposed that AM STL stations be licensed in the 940–952 Mc band, which proposal is outside the scope of the Notice of Proposed Rule Making herein and would require a reallocation of the 940–952 Mc band, and therefore has not been adopted; (4) A. Earl Cullum, Jr., which proposed that, "the entire STL spectrum be available for transmission of audio programs, whether for Standard, FM, or TV stations," which proposal is outside the scope of the Notice of Proposed Rule Making herein, would require a reallocation of frequencies in several parts of the spectrum, and is unsupported by any facts showing the need for such reallocation, and therefore has not been adopted; and

It further appearing, That from consideration of all the comments filed with the Commission and on the basis of its own further considerations of the matter, it now appears proper to make final the adoption of the amendment with minor changes designed to permit any licensee of an FM and a Standard broadcast station in the same city or Metropolitan District to use a single STL station for relaying to both such broadcast stations without regard to the scheduled hours of operation thereof;

Accordingly, it is ordered, Effective October 16, 1950 that Parts 2 and 4 of the Commission's rules and regulations governing STL stations are amended as set forth below.

Released: September 8, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Part 2 of the Commission's rules and regulations is amended as follows: In § 2.104 (a): Delete the footnote designator "NG13" on the band 890–940 Mc in Column 7 of the Table of Frequency Allocations.

Part 4 of the Commission's Rules and Regulations is proposed to be amended as follows:

1. In § 4.1 (b) (2): Change the reference title from "ST Broadcast" to "Broadcast STL Stations (Subpart E)".

2. In § 4.11: In line 2 delete the term "ST" and substitute therefor", broadcast STL,".

3. In § 4.18 (b): In line 1 delete the words "and ST broadcast" and substitute therefor ", broadcast STL,".

4. Subpart E of Part 4 is amended to read as follows:

SUBPART E—RULES GOVERNING BROADCAST STL STATIONS

DEFINITION AND ALLOCATION OF FREQUENCIES

§ 4.501 *Definitions.* (a) FM Broadcast STL Station: A fixed station utilizing telephony to transmit from a studio of an FM broadcasting station to the transmitter of that broadcasting station, programs to be broadcast by that station.

(b) Standard broadcast STL station: A fixed station utilizing telephony to transmit from a studio of a standard broadcasting station to the transmitter of that broadcasting station, programs to be broadcast by that station.

(c) The term "FM broadcasting station" as used in this part of the rules includes non-commercial educational FM broadcasting stations.

(d) The abbreviation "STL" is derived from "studio-transmitter link."

§ 4.502 *Frequency assignment.* (a) An FM broadcast STL station may be licensed on one of the following frequencies:

940.5 Mc	943.5 Mc	946.5 Mc	949.5 Mc
941.0 Mc	944.0 Mc	947.0 Mc	950.0 Mc
941.5 Mc	944.5 Mc	947.5 Mc	950.5 Mc
942.0 Mc	945.0 Mc	948.0 Mc	951.0 Mc
942.5 Mc	945.5 Mc	948.5 Mc	951.5 Mc
943.0 Mc	946.0 Mc	949.0 Mc	

(b) A standard broadcast STL station may be licensed on one of the following frequencies: [1]

925.5 Mc	929.5 Mc	933.0 Mc	936.5 Mc
926.0 Mc	930.0 Mc	933.5 Mc	937.0 Mc
926.5 Mc	930.5 Mc	934.0 Mc	937.5 Mc
927.0 Mc	931.0 Mc	934.5 Mc	938.0 Mc
927.5 Mc	931.5 Mc	935.0 Mc	938.5 Mc
928.0 Mc	932.0 Mc	935.5 Mc	939.0 Mc
928.5 Mc	932.5 Mc	936.0 Mc	939.5 Mc
929.0 Mc			

[1] Shared with other services. See § 2.104 (a) of this chapter.

Stations operating in the band 925–940 Mc must accept any interference that may be experienced from the operation of industrial, scientific and medical equipment.

(c) The frequencies listed in paragraph (b) of this section may be assigned to FM broadcast STL stations in any area where insufficient space in that area is available in the band 940–952 Mc.

§ 4.503 *Frequency selection.* (a) Each application for a new station or change in an existing station shall be specific with regard to frequency. In general, the lowest suitable frequency will be assigned which, on an engineering basis, will not cause harmful interference to other stations operating in accordance with existing frequency allocations.

(b) Where it appears that interference may result from the operation of a new station or a change in the facilities of an existing station, the Commission may require a showing that harmful interference will not be caused to existing stations or that if interference will be caused the need for the proposed service outweighs the loss of service due to the interference.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 4.511 *Administrative procedure.* See §§ 4.11 to 4.33, inclusive.

RULES RELATING TO LICENSING POLICIES

§ 4.531 *Licensing requirements.* (a) An FM broadcast STL station will be licensed only to the licensee of an FM broadcasting station as an auxiliary to a particular FM broadcasting station of that licensee.

(b) A standard broadcast STL station will be licensed only to the licensee of a standard broadcast station as an auxiliary to a particular standard broadcast station of that licensee.

(c) More than one FM broadcast STL or standard broadcast STL transmitter will be licensed for use with a single broadcast station only upon a specific and satisfactory showing that (1) more than one STL transmitter is required for the effective operation of a single STL circuit, due to terrain, distance of transmission, or similar circumstances; or (2) more than one STL circuit is needed for the purpose of connecting an additional studio with the transmitter and it is shown that the nature and extent of use of such additional STL circuit is such as to justify its authorization.

(d) Each station shall be licensed at a fixed location and the direction of radiation of the antenna shall be fixed.

§ 4.532 *Service.* (a) The license of an FM broadcast STL station or a standard broadcast STL station authorizes the relaying of programs from a studio to the transmitter of the broadcast station with which it is licensed, for simultaneous or delayed broadcast: *Provided, however,* That where the licensee of an FM broadcast STL station or a standard broadcast STL station is the licensee of an FM broadcast station and a standard broadcast station in the same city or metropolitan district, the license of each such STL station authorizes the relaying to be made to either or both such broadcast stations.

(b) Each FM broadcast STL station or standard broadcast STL station will be licensed for unlimited time operation.

(c) During periods in which it is not a part of the broadcast circuit, the transmitting equipment may be used for the transmission of communications which pertain to the broadcast operations.[2] Superfluous transmissions are not permitted.

§ 4.533 *Remote control operation.* Remote control operation of broadcast STL stations will be permitted subject to the following conditions:

(a) A percentage modulation indicator or calibrated program level meter shall be provided at the operating position.

(b) The operator shall have off-and-on control of the power to the last radio stage.

(c) The transmitter shall be so installed and protected that it is not accessible to other than duly authorized persons.

§ 4.534 *Power limitations.* Broadcast STL stations will be licensed with a power output not in excess of that necessary to render satisfactory service. The license for these stations will specify the maximum authorized power. The operating power shall not be greater than necessary to carry on the service and in no event more than 5 percent above the maximum power specified. Engineering standards have not been established for these stations. The efficiency factor for the last radio stage of transmitters employed will be subject to individual determination but shall be in general agreement with values normally employed for similar equipment operated within the frequency range authorized.

§ 4.535 *Emission authorized.* (a) Broadcast STL stations normally will be authorized to employ frequency modulation only.

(b) The maximum frequency swing [3] employed shall not be in excess of 200 kilocycles.

§ 4.536 *Directional antenna required.* Each Broadcast STL station is required to employ a directional antenna. Considering one kilowatt of radiated power as a standard for comparative purposes, such antenna shall provide a free space field intensity at one mile of not less than 435 mv/m in the main lobe of radiation toward the receiver and not more than 20 percent of the maximum value in any azimuth 30 degrees or more off the line to the receiver. Where more than one antenna is authorized for use with a single station, the radiation pattern of each shall be in accordance with the foregoing requirement.

[2] If the STL transmitter and receiver are equipped with a multiplex circuit, communications during broadcast periods may be authorized upon application therefor. Such a circuit, if used, shall be designed and operated in a manner which will not cause spurious emissions or derogation of the program transmission. Studio to transmitter and transmitter to studio communication may also be provided by equipment operated under the remote pickup broadcast station rules.

[3] The term "frequency swing" means the instantaneous departure of the frequency of the emitted wave from the center frequency resulting from modulation.

RULES RELATING TO EQUIPMENT

§ 4.551 *Equipment changes.* The licensee of a broadcast STL station may make any changes in the equipment that are deemed desirable or necessary provided:

(a) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(b) That the emissions are not permitted outside the authorized band;

(c) That the power output complies with the license and the regulations governing the same; and

(d) That the transmitter as a whole or output power rating of the transmitter is not changed.

RULES RELATING TO TECHNICAL OPERATION

§ 4.561 *Frequency tolerance.* The licensee of each broadcast STL station shall maintain the operating frequency of the station within plus or minus 0.005 percent of the assigned frequency.

§ 4.562 *Frequency monitors and measurements.* The licensee of a broadcast STL station shall provide the necessary means for determining that the frequency of the station is within the allowed tolerance. The date and time of each frequency check, the frequency as measured, and a description or identification of the method employed shall be entered in the station log. Sufficient observations shall be made to insure that the assigned carrier frequency is maintained within the prescribed tolerance.

§ 4.563 *Station inspection.* The licensee of each broadcast STL station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 4.564 *Station and operator license; posting of.* (a) The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible, in a conspicuous place in the room in which the transmitter is located; *Provided,* That if the transmitter operator is located at a distance from the transmitter pursuant to § 4.533 the station license shall be posted in the above-described manner at the operating position.

(b) The original license of each station operator shall be posted at the place where he is on duty: *Provided, however,* If the original license of a station operator is posted at another radio transmitting station in accordance with the rules governing that class of station and is there available for inspection by an authorized Commission representative, a verification card (Form 758–F) is acceptable in lieu of the posting of such license: *Provided further, however,* That if the operator on duty holds a restricted radiotelephone operator permit of the card form (as distinguished from the diploma form) he shall not post that permit but shall keep it in his personal possession.

§ 4.565 *Operator requirements.* One or more radio operators holding any class of commercial radio operator license or permit shall be on duty at the place where the transmitting apparatus is located, except as provided in § 4.533, and in actual charge of its operation. Further provisions and restrictions concerning the operator's authority are contained in Part 13 of this chapter. The licensed operator on duty and in charge of a broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.

§ 4.566 *Inspection of tower lights and associated control equipment.* The licensee of each broadcast STL station which has an antenna or antenna supporting structure(s) required to be illuminated pursuant to the provisions of section 303 (q) of the Communications Act of 1934, as amended:

(a) Shall make a visual observation of the tower lights at least once each 24 hours to insure that all such lights are functioning properly as required.

(b) Shall report immediately by telephone or telegraph to the nearest Airways Communication Station or office of the Civil Aeronautics Administration any observed failure of the tower lights, not corrected within 30 minutes, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given immediately upon resumption of the required illumination.

(c) Shall inspect at intervals of at least once each 3 months all flashing or rotating beacons and automatic lighting control devices to insure that such apparatus is functioning properly as required.

§ 4.567 *Additional orders.* In case the rules contained in this part do not cover all phases of operation or experimentation with respect to external effects, the Commission may make supplemental or additional orders in each case as may be deemed necessary.

OTHER RULES RELATING TO OPERATION

§ 4.581 *Station records.* (a) The licensee of each broadcast STL station shall maintain adequate records of the operation, including:

(1) Hours of operation.
(2) Program transmitted.
(3) Frequency check.
(4) Pertinent remarks concerning transmission.

(b) Where an antenna or antenna support structure(s) is required to be illuminated the licensee shall make entries in the radio station log as follows:

(1) The time the tower lights are turned on and off if manually controlled.

(2) The time the daily visual observation of the tower lights was made.

(3) In the event of any observed failure of a tower light.

(i) Nature of such failure.

(ii) Time the failure was observed.

(iii) Time and nature of the adjustments, repairs or replacements made.

(iv) Airways Communication Station (C. A. A.) notified of the failure of any tower light not corrected within thirty minutes and the time such notice was given.

(v) Time notice was given to the Airways Communication Station (C. A. A.) that the required illumination was resumed.

(4) Upon completion of the periodic inspection required at least each three months.

(i) The date of the inspection and the condition of all tower lights and associated tower lighting control devices.

(ii) Any adjustments, replacements or repairs made to insure compliance with the lighting requirements.

§ 4.582 *Station identification.* Each broadcast STL station shall announce its call letters at the beginning and end of each period of operation, and during operation, at least once every hour, it shall either announce its call letters or make an announcement[*] which will permit it to be identified.

(Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U. S. C. 154, 303. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303.)

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 865, Corr. Amdt. 2]

PART 95—CAR SERVICE

DEMURRAGE ON FREIGHT CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of September A. D. 1950.

Upon further consideration of Service Order No. 865 (15 F. R. 6197, 6256), and good cause appearing therefor: It is ordered, that:

§ 95.865 *Demurrage on freight cars,* of Service Order No. 865 be, and it is hereby further amended by substituting the following paragraph (c) (1) for paragraph (c) (1) thereof:

(c) *Application.* (1) The provisions of this order, subject to the following exceptions, shall apply to intrastate and interstate traffic as well as foreign traffic, including commerce with insular possessions and the territories of Alaska and Hawaii.

Exceptions. Export, coastwise (including Great Lakes) or intercoastal bulk freight (including vessel fuel coal and coke) or explosives during the period such bulk freight or explosives is held in cars at ports for transfer to vessels is not subject to this order. Bulk freight means any carload freight consisting of any non-liquid, non-gaseous commodity shipped loose or in mass and which in the unloading thereof is ordinarily shoveled, scooped, forked, or mechanically conveyed, or which is not in containers or in units of such size as to permit piece by piece unloading.

Effective date. This amendment shall become effective at 7:00 a. m., September 20, 1950.

It is further ordered, That a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8347; Filed, Sept. 22, 1950; 8:48 a. m.]

[S. O. 868-A]

PART 95—CAR SERVICE

SUSPENSION OF FOLLOW LOT RULE AND TWO-FOR-ONE RULE

At a Session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of September A. D. 1950.

Upon further consideration of Service Order No. 868 (15 F. R. 6314) and good cause appearing therefor: *It is ordered,* That Section 95.868 Service Order No. 868, Suspension of follow-lot rule and two-for-one rule be, and it is hereby suspended until 12:01 a. m., October 4, 1950.

It is further ordered, That this order shall become effective at 12:01 a. m., September 20, 1950; that a copy of this order and direction be served upon each State railroad regulatory body and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12 interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc 50-8348; Filed, Sept. 22, 1950; 8:48 a. m.]

[Released Rates Order MC-314, FF-56]

Subchapter B—Carriers by Motor Vehicle

PART 187—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS

Subchapter D—Freight Forwarders

PART 420—TARIFFS AND CLASSIFICATIONS

Released Rates Application No. MC-500 being under consideration, and good cause therefor appearing: It is ordered,

§ 187.202 (§ 420.25) *Released ratings; household goods*—(a) *Establishment.* All common carriers of property by motor vehicle and all freight forwarders, their duly authorized agents or the duly accredited successors to such agent, who have been, or who may hereafter be, granted authority by the Commission to transport household goods in interstate or foreign commerce, be, and they are hereby, authorized to establish and maintain by filing and posting in the manner prescribed in the Interstate Commerce Act, classification ratings and exceptions ratings for household goods dependent upon the value declared in writing by the shipper or agreed upon in writing, as the released value of the property, as follows:

	Less than truckload	Truckload or volume
Household goods, as described in note 1 below, prepaid. Each article released in value in accordance with the following, see note 2.	-	
Released value not exceeding 10 cents per pound	1	2-3-3
Released to value exceeding 10 cents but not exceeding 20 cents per pound	1¼	1-3-3
Released to value exceeding 20 cents but not exceeding 50 cents per pound	1½	1¼-2-2
Released to value exceeding 50 cents but not exceeding $2 per pound	D1	1½-1-1
Released to value exceeding $2 but not exceeding $5 per pound	3t1	D1-1¼-1¼

NOTE 1: Ratings on household goods apply only on second-hand (used) household or personal effects such as clothing, furniture or furnishings for residences with not to exceed one piano, and with each truckload or volume shipment there may also be included not to exceed one second-hand (used) freight (not driving trucks for freight vehicles or fire apparatus) or passenger automobile, or one second-hand (used) motorcycle. Ratings do not apply on articles specifically named in

(insert here reference to the rule in the classification or exceptions which names articles of extraordinary value not accepted for transportation.)

nor on goods shipped for sale or speculation.

Articles not included in the above description will be subject to their less-than-truckload ratings if shipped with household goods.

NOTE 2: "If consignor declines to release each article in the shipment to a value not exceeding $5 per pound, the shipment will not be accepted.

The release, which shall be deemed to relate to each article separately and not to the shipment as a whole, must be entered on shipping order and bill of lading in the following form:

"The agreed or declared value of each article in this shipment is hereby specifically stated by the shipper to be not exceeding ..... per pound."

(b) *Changes in ratings or released valuations.* Changes may be made in any ratings or packing specifications established under the authority of this order, but the commodity description may not be broadened to embrace other articles nor may any change be made in the released valuation upon which the ratings are dependent without the specific authority of the Commission.

(c) *Authority for released ratings must be shown in tariff.* Tariffs containing released ratings filed under authority of this order shall show in connection therewith the following notation:

Ratings herein based on released value have been authorized by the Interstate Commerce Commission in Released Rates Order No. MC-314, FF-56, of September 14, 1950, subject to complaint or suspension.

(d) *Notation required on receipt or bill of lading.* The value declared or agreed upon by the shipper as the released value shall be stated in each bill of lading or receipt issued for property accepted for transportation at the released ratings herein authorized to be established and maintained.

(e) *Carriers and freight forwarders affected.* This order does not constitute authority for the establishment of released ratings on any description of traffic or over the line of any carrier or freight forwarder other than as herein specifically indicated.

(f) *Lawfulness of ratings.* The Commission does not hereby approve the lawfulness, except under sections 20 (11), 219 and 413 of the Interstate Commerce Act, of any ratings which may be filed under authority of this order.

(g) *Application denied in other respects.* The said application, insofar as it requests authority other than that granted by paragraphs (a) to (f) of this section is hereby denied.

(Sec. 12, 24 Stat. 383, as amended, 49 Stat. 546, as amended, 56 Stat. 285; 49 U. S. C. 12, 304, 1003. Interprets or applies sec. 20, 24 Stat. 386, as amended, 49 Stat. 563, as amended, 56 Stat. 295; 49 U. S. C. 20, 319, 1013)

Dated at Washington, D. C., this 14th day of September 1950.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8331; Filed, Sept. 22, 1950; 8:45 a. m.]

[*] Such as announcement during program operation of the call letters of the broadcast station with which the broadcast STL station is operated.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 984]

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice is hereby given, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), approved June 11, 1946, that the administrative rule herein set forth is proposed in accordance with the provisions of Marketing Agreement No. 105 and Order No. 84 regulating the handling of walnuts grown in California, Oregon, and Washington (7 CFR 984.1 et seq.), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Prior to the final issuance of such administrative rule, consideration will be given to written data, views, or arguments pertaining thereto which are submitted to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on October 2, 1950.

The Walnut Control Board, established pursuant to the provisions of the aforesaid marketing agreement and order, at a duly called meeting in Los Angeles on August 30, 1950, unanimously adopted the following estimates:

(1) The quantity of merchantable walnuts to be produced and packed during the 1950–51 marketing year is 950,000 bags of 100 pounds each;

(2) The handler carryover as of August 1, 1950, is 173,000 bags of 100 pounds each, of which 74,400 bags were certified for handling, subjected to surplus control and assessed under the 1949–50 program pursuant to the marketing order;

(3) The trade carryover as of August 1, 1950, is 64,000 bags of 100 pounds each; and

(4) The trade demand in the continental United States, Alaska, Hawaii, Puerto Rico, Canal Zone, and Cuba (on the basis of prices not exceeding the maximum prices contemplated in section 2 of the act) with consideration for the foregoing estimate of trade carryover is 850,000 bags of 100 pounds each.

The board by unanimous vote recommended that for the 1950–51 marketing year the salable percentage of merchantable walnuts be fixed as 75 percent and the surplus percentage as 25 percent.

Other statistics, information, and data relating to current crop conditions, production, usage, and foreign trade which were considered by the board in making its recommendation were submitted to the Department.

Important aspects of the current walnut production and marketing situation are:

(1) As of September 1 a prospective walnut crop of 64,600 tons which would be 27 percent smaller than the 1949 record large crop and 2 percent smaller than the 1939–48 average;

(2) A handler carryover on August 1, 1950, 173,000 bags of 100 pounds each, which is by far the largest August 1 handler carryover since 1933, and compares with 72,940 bags on August 1, 1949, and 26,111 bags on August 1, 1948;

(3) An estimated trade carryover on August 1, 1950, of 64,000 bags of 100 pounds each as compared with an August 1 trade carryover of 54,000 bags in 1949 and 23,500 bags in 1948; and

(4) The estimated trade demand of 850,000 bags of 100 pounds each for the 1950–51 marketing year as compared with 807,600 bags acquired by the trade in 1949–50 and 826,700 bags in 1948–49.

Consideration has been given to the board's estimates and recommendation and to other pertinent data available to the Department, and it is proposed to accept such estimates and recommendation.

A summary of the computation in justification of the recommended percentages follows:

	100-pound bags
Merchantable production	950,000
Handler carryover subject to surplus contribution	98,600
Total subject to surplus contribution	1,048,600
25 percent surplus (262,150).	
75 percent salable	786,450
Handler carryover not subject to surplus contribution	74,400
Total available to trade	860,850
Less: Trade demand estimate	850,000
Allowance for handler carryover, Aug. 1, 1951	10,850

It is provided in § 984.4 of the aforementioned marketing agreement and order that a withholding percentage shall be announced, that it shall be the ratio (measured as a percentage) of the surplus percentage to the salable percentage adjusted to the nearest whole number. On the basis of the proposed salable percentage of 75 percent and surplus percentage of 25 percent, the withholding percentage would be 33 percent.

Therefore, such proposed administrative rule is as follows:

§ 984.202 *Salable, surplus, and withholding percentages for merchantable walnuts during the 1950–51 marketing year.* For merchantable walnuts, during the 1950–51 marketing year, the salable percentage shall be 75, the surplus percentage shall be 25, and the withholding percentage shall be 33 percent.

Issued at Washington, D. C., this 19th day of September 1950.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Branch.*

[F. R. Doc. 50-8358; Filed, Sept. 22, 1950; 8:50 a. m.]

[7 CFR, Part 997]

HANDLING OF FILBERTS GROWN IN OREGON AND WASHINGTON

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice is hereby given, pursuant to the provisions of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Congress, 60 Stat. 237), approved June 11, 1946, that the administrative rule herein set forth is proposed in accordance with the provisions of Marketing Agreement No. 115 and Order No. 97 regulating the handling of filberts grown in Oregon and Washington.

Prior to the final issuance of such administrative rule, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on the 10th day after the date of the publication of this notice in the FEDERAL REGISTER, except that if said 10th day after publication should fall on a holiday or Sunday, such submission may be received by the Director not later than the close of business on the next following work day.

The Department, on the basis of information supplied by the Filbert Control Board and other available data, has estimated trade demand, or the quantity of merchantable unshelled filberts which the domestic trade will receive from handlers during the 12 months beginning August 1, 1950, as 9,500,000 pounds. A handler carryover of 2,068,700 pounds, which had been certified as salable prior to August 1, 1950, was reported by the Board. By subtracting this quantity from the estimated trade demand of 9,500,000 pounds, a quantity of 7,431,300 pounds remains to be satisfied from the 9,519,400 pounds representing the Control Board's estimate of merchantable production from the 1950 crop, plus handler carryover not certified for shipment on August 1, 1950. A salable percentage of 92.5 percent and a surplus percentage of 7.5 percent would permit the handling of sufficient merchantable unshelled filberts to satisfy the estimated trade demand and would leave a handler carryover on August 1, 1951, of about 1,374,100 pounds. This would compare with the large handler carryover of 2,068,700 pounds on August 1, 1950, which had contributed to surplus. For the purpose of determining the quantity to be withheld as surplus in respect to each quantity of merchantable filberts handled, the agreement and order provides for the computing and announcing of a withholding percentage. Such percentage is the ratio of the surplus percentage to the salable percentage and in this instance would be eight percent.

The proposed rule is as follows:

§ 997.200 *Salable, surplus, and withholding percentages of merchantable unshelled filberts during the 1950–51 marketing year.* For the fiscal year beginning August 1, 1950, the salable percentage of merchantable unshelled filberts shall be 92.5 percent, the surplus percentage shall be 7.5 percent, and the withholding percentage shall be eight percent.

Issued at Washington, D. C., this 19th day of September 1950.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 12770]

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 39 N., R. 4 W.,
Sec. 32,
T. 3 N., R. 6 W.,
Sec. 2, S½NE¼,
T. 3 N., R. 15 W.,
Sec. 2, N½, N½SW¼, SW¼SW¼;
Sec. 16;
Sec. 32;
T. 39 N., R. 16 W.,
Sec. 32, lots 1 and 2, NE¼,
T. 24 N., R. 21 W.,
Sec. 2, lot 4, S½NW¼.

The area described aggregates 2,790.59 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

[Misc. 53013]

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

PRINCIPAL MERIDIAN

T. 9 N., R. 50 E.,
Sec. 33.

The area described aggregates 640 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as

amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that Title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Billing, Montana.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

NEVADA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976; 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 27 N., R. 18 E.,
Sec. 12, N½NW¼, SE¼NW¼;
Sec. 23, S½SW¼,
T. 14 N., R. 26 E.,
Sec. 23, NW¼,
T. 24 S., R. 57 E.,
Sec. 31, N½SE¼;
Sec. 32, N½SW¼, N½SE¼, SE¼SE¼, SE¼NE¼.

The areas described aggregate 680 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

[Misc. 55190]

OREGON

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

WILLAMETTE MERIDIAN

T. 15 S., R. 13 E.,
Sec. 36, NE¼NE¼.
T. 18 S., R. 14 E.,
Sec. 16, S½,

T. 19 S., R. 14 E.,
Sec. 2, S½SW¼;
Sec. 8, SE¼SE¼;
Sec. 10, N½N½;
Sec. 11, NW¼NW¼.

The areas described aggregate 680 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Portland, Oregon, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Portland, Oregon.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

[Misc. 55183]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

SIXTH PRINCIPAL MERIDIAN

T. 54 N., R 64 W.,
Sec. 25, SE¼NE¼.
T. 22 N., R. 68 W.,
Sec. 24, S½NE¼.
T. 53 N., R. 69 W.,
Sec. 10, SW¼NE¼.
T. 24 N., R. 70 W.,
Sec. 13, NE¼NW¼.
T. 53 N., R. 73 W.,
Sec. 14, SW¼NE¼.
T. 50 N., R. 74 W.,
Sec. 21, SE¼SE¼;
Sec. 22, SE¼NE¼;
Sec. 23, SE¼SW¼;
Sec. 27, NW¼NW¼.
T. 48 N., R. 82 W.,
Sec. 9, NW¼SW¼;
Sec. 20, NE¼NW¼.
T. 21 N., R. 84 W.,
Sec. 36.
T. 22 N., R. 84 W.,
Sec. 16.
T. 23 N., R. 84 W.,
Sec. 36, W½W½.
T. 22 N., R. E5 W.,
Sec. 16.
T. 19 N., R. 88 W.,
Sec. 16.
T. 17 N., R. 91 W.,
Sec. 16, N½, N½SW¼, SW¼SW¼.
T. 58 N., R. 96 W.,
Sec. 36.
T. 16 N., R. 100 W.,
Sec. 36, N½, E½SE¼,
T. 15 N., R. 105 W.,
Sec. 16, W½NW¼.
T. 24 N., R. 105 W.,
Sec. 16.

The areas described aggregate 5,440.00 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Cheyenne, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

OREGON

NOTICE OF HEARING WITH REGARD TO PROPOSED WITHDRAWAL OF LANDS IN CONNECTION WITH THE WARNER VALLEY WILDLIFE MANAGEMENT AREA

Notice is hereby given that a public hearing will be held by James F. Doyle, or such other employee of the Bureau of Land Management as may be designated by the Regional Administrator, Region I, Bureau of Land Management, Department of the Interior, at 10:00 a. m. on Wednesday, October 25, 1950, in the Courtroom, Lake County Courthouse, Lakeview, Oregon, with respect to a proposed withdrawal of certain public lands. The proposed order of withdrawal, including a description of the lands involved, is as follows:

"By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

"Subject to valid existing rights, the following described public lands in Lake County, Oregon, are hereby withdrawn from all forms of appropriation under public-land laws, including the mining laws, but not mineral leasing laws, and reserved for use by the Department of the Interior as a wildlife refuge, breeding ground, and management area for all forms of wildlife; and for administration of grazing and other uses not incompatible with wildlife use.

together with all Federal riparian ownership lands adjoining such subdivisions within the beds of Hart Lake, Crump Lake, Jones Lake, Anderson Lake, Turpin Lake, and Bluejoint Lake.

"The public lands described above aggregate 28,818.61 acres.

"The described lands will be under the joint administration of the Fish and Wildlife Service for wildlife management and the Bureau of Land Management for grazing and other uses and shall be designated the Warner Valley Wildlife Management Area.

"This order shall take precedence over, but shall not modify, the order of the Secretary of the Interior dated July 9, 1935, establishing Oregon Grazing District No. 2, so far as it affects the above-described lands."

The hearing will be open to the attendance of all interested persons, including individuals, State and local officials, officials of Federal agencies, and representatives of individuals and organizations.

All persons wishing to be heard with respect to the proposed withdrawal should notify one of the following persons before the time designated: Marion Clawson, Director, Bureau of Land Management, Washington 25, D. C., before October 20, 1950; Daniel L. Goldy, Regional Administrator, Bureau of Land Management, Swan Island Station, Portland 18, Oregon, before October 23, 1950; or Edwin G. Bailey, Range Manager, Oregon Grazing District No. 0-1 & 0-2W½, P. O. Box 429, Lakeview, Oregon, before October 24, 1950. Those desiring to submit written statements should file them up to October 24, 1950, with the Regional Administrator, address above, from whom information as to the lands involved or other information may be obtained.

DALE E. DOTY,
Assistant Secretary of the Interior.

FEDERAL POWER COMMISSION

[Docket No. G-1440]

LOUISIANA-NEVADA TRANSIT CO.

NOTICE OF FINDINGS AND ORDER

SEPTEMBER 20, 1950.

Notice is hereby given that, on September 19, 1950, the Federal Power Commission issued its findings and order entered September 18, 1950, issuing certificate of public convenience and necessity in the above-designated matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-1475]

NIAGARA MOHAWK POWER CORP.

NOTICE OF APPLICATION

SEPTEMBER 19, 1950.

Take notice that Niagara Mohawk Power Corporation (Applicant), a New York corporation with its principal place of business at Syracuse, New York, filed on September 11, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural-gas pipeline facilities hereinafter described.

Applicant proposes to construct in 1951 approximately 55 miles of 10¾-inch O. D. natural-gas transmission pipeline extending from the terminus of its existing 10-inch line in Fulton, Oswego County, New York, to Watertown, Jefferson County, New York, together with necessary appurtenances.

The proposed facilities are to be used to transport natural gas which Applicant will receive from New York State Natural Gas Corporation at the present point of interconnection of the two systems at Therm City, near Syracuse, Onondaga County, New York, to convert Applicant's present manufactured gas service in the City of Watertown to straight natural gas service, and also to provide natural gas service to communities along the route of the proposed pipeline which do not now have service, including the towns of Mexico, Pulaski, Mannsville, Adams, Adams Center, Sandy Creek and Lacona, New York.

The estimated cost of the facilities proposed by Applicant is $1,991,000. Applicant represents that it is able to secure the capital necessary to construct the proposed facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 7th day of October 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25421]

LIQUEFIED PETROLEUM GAS FROM THE SOUTH TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 20, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1065.

Commodities involved: Liquefied petroleum gas, tank carloads.

From: Points in the South.

To: Points in central, trunk line and New England territories.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1065, Supplement 173.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25422]

IRON AND STEEL ARTICLES FROM SOUTHERN PORTS TO NASHVILLE, TENN.

APPLICATION FOR RELIEF

SEPTEMBER 20, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1048.

Commodities involved: Iron and steel, viz: band, beams, or channels, carloads.

From: Southern ports.

To: Nashville, Tenn.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1048, Supplement 13.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25423]

LIQUEFIED PETROLEUM GAS FROM BATON ROUGE, LA., TO CINCINNATI, OHIO, AND LUDLOW, KY.

APPLICATION FOR RELIEF

SEPTEMBER 20, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1065.

Commodities involved: Liquefied petroleum gas, in steel cylinders, carloads.

From: Baton Rouge, La.

To: Cincinnati, Ohio, and Ludlow, Ky.

Grounds for relief: Competition with water carriers.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1065, Supplement 172.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 25424]

PULPBOARD FROM DALLAS AND SCOTTDALE, TEX., TO NEW ORLEANS, LA.

APPLICATION FOR RELIEF

SEPTEMBER 20, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3894.

Commodities involved: Pulpboard or fibreboard, carloads.

From: Dallas and Scottdale, Tex.

To: New Orleans, La.

Grounds for relief: Market competition.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3894, Supplement 24.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commis-

sion in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Vesting Order 15033]

KURT S. WUNDT ET AL.

In re: Stock owned by Kurt S. Wundt and others. F-28-30873-D-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Kurt S. Wundt, whose last known address is Burgstall/Murr, Krs. Backnang, Wurtemberg, Bahnhofstr. 124, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the personal representatives, heirs, next of kin, legatees and distributees of William Wundt, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the personal representatives, heirs, next of kin, legatees and distributees of Petronella Wundt, also known as Petronella Wundt von Lyncker, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

4. That the property described as follows: Seven hundred and forty (740) shares of $1.00 par value common capital stock of Schoenhofen Edelweiss Company, 1926 W. 18th St., Chicago 8, Illinois, a corporation organized under the laws of the State of Delaware, evidenced by certificates numbered TCC 1341/7 for one hundred (100) shares each, and certificate numbered TCO 109 for forty (40) shares, registered in the names of William Wundt, Kurt S. Wundt and Petronella Wundt, as joint tenants, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Kurt S. Wundt and the personal representatives, heirs, next of kin, legatees and distributees of William Wundt, deceased, and the personal representatives, heirs, next of kin, legatees and distributees of Petronella Wundt, also known as Petronella Wundt von Lyncker, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

5. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

6. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of William Wundt, deceased, and the personal representatives, heirs, next of kin, legatees and distributees of Petronella Wundt, also known as Petronella Wundt von Lyncker, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON, *Deputy Director, Office of Alien Property.*

[Vesting Order 15072]

GERTRUDE PFAFFMAN

In re: Stock and bond owned by Gertrude Pfaffman. F-28-29859-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby, found:

1. That Gertrude Pfaffman, whose last known address is 19 Garten Street, Stuttgart, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Eighty-one and seventy-one one-hundredths (81 71/100) shares of no par value preferred capital stock of Jersey Mortgage Co., 280 North Broad Street, Elizabeth, New Jersey, a corporation organized under the laws of the State of New Jersey, evidenced by certificates numbered P798 for one (1) share and SP845 for eighty and seventy-one one-hundredths (80 71/100) shares registered in the name of Gertrude Pfaffman, presently in the custody of The National State Bank of Elizabeth, Elizabeth, New Jersey, together with all declared and unpaid dividends thereon.

b. Ten-twentieths (10/20) share of no par value common capital stock of Jersey Mortgage Co., 280 North Broad Street, Elizabeth, New Jersey, a corporation organized under the laws of the State of New Jersey, evidenced by a certificate numbered SC475, registered in the name of Gertrude Pfaffman, presently in the custody of The National State Bank of Elizabeth, Elizabeth, New Jersey, together with all declared and unpaid dividends thereon, and

c. One (1) Jersey Mortgage Co., Secured Income Bond, of $389.31 face value, due December 1, 1947, bearing the number B3110, registered in the name of Gertrude Pfaffman, presently in the custody of The National State Bank of Elizabeth, Elizabeth, New Jersey, together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[Vesting Order 15112]

FREDERICK W. ILG

In re: Trust under the Will of Frederick W. Ilg, deceased. File No. D-28-12346; E. T. Sec. No. 16566.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Herman Gotlieb Pfeiffer, Johann Herman Schofer and Hedwig Gotlieb (Schofer) Vortler, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. An undivided three-fourteenths (3/14) interest in real property situated in the County of Philadelphia, State of Pennsylvania, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. An undivided three-fourteenths (3/14) interest in real property situated in the County of Delaware, State of Pennsylvania, particularly described in Exhibit B, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

c. All right, title and interest of the persons named in subparagraph 1 hereof in and to:

(1) Fire Insurance Policy No. 669158 issued by the Insurance Company of North America, Philadelphia, Pennsylvania, in the amount of $4,500 and expiring May 25, 1953, which policy insures the improvements to the property described as Parcel 1 of Exhibit A, attached hereto and by reference made a part hereof,

(2) Fire Insurance Policy No. 4308606 issued by The Home Insurance Company, Philadelphia, Pennsylvania, in the amount of $6,000 and expiring July 12, 1951, which policy insures the improvements to the property described as Parcel 2 of Exhibit A, attached hereto and by reference made a part hereof, and

(3) Fire Insurance Policy No. 21541 issued by the Fire Association of Philadelphia, Philadelphia, Pennsylvania, in the amount of $12,000 and expiring September 20, 1952, which policy insures the improvements to the property described in Exhibit B, attached hereto and by reference made a part hereof.

d. That certain debt or other obligation owing to the persons named in subparagraph 1 hereof by Land Title Bank and Trust Company, Broad and Chestnut Streets, Philadelphia, Pennsylvania, arising by reason of the collection of rents from the real property described in subparagraphs 2-a and 2-b hereof,

is property within—the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-a and 2-b hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-c and 2-d hereof,

All such property so vested shall be held, used, administered, liquidated, sold, or otherwise dealt with in the interest of and for the benefit of the United States.

Th terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

Real property situated in County of Philadelphia, State of Pennsylvania, more particularly described as follows:

Parcel No. 1

That certain lot or piece of ground with the brick messuage or tenement thereon erected, described according to a survey made by Walter Brinton, Esq., Surveyor and Regulator of the Fifth Survey District, April 17th, 1920, as follows to wit: SITUATE on the East side of Second Street at the distance of three hundred and sixty-eight feet Southward from the South side of Ashdale Street (70 feet wide) in the Forty-second Ward of the City of Philadelphia, CONTAINING in front or breadth on the said Second Street sixteen feet and extending of that width in length or depth Eastward between parallel lines at right angles to the said Second Street, sixty-five feet to a three feet wide alley, extending Southward from Ashdale Street to the Boulevard.

UNDER AND SUBJECT, nevertheless, to certain conditions and reservations as therein mentioned.

TOGETHER with the free and common use, right, liberty and privilege of the aforesaid alley as and for a passageway and watercourse at all times, hereafter forever.

Parcel No. 2

That certain lot or piece of ground with the buildings and improvements thereon erected, described according to a survey and plan thereof made by F. Bloch, Esquire, Surveyor and Regulator of the Fourth District on the Twenty-seventh day of January, A. D. 1917, as follows, to wit, SITUATE on the East side of Sixth Street (Fifty feet wide) at the distance of Forty-eight feet Southward from the South side of Oxford Street (Fifty feet wide) in the Seventeenth Ward of the City of Philadelphia.

CONTAINING in front or breadth on the said Sixth Street Fifteen feet eight inches and extending of that width in length or depth Eastward between parallel lines at right angles to the said Sixth Street Seventy-four feet two and three-eighths inches. The North line thereof partly crossing head of a certain proposed three feet wide alley.

TOGETHER with the free and common use, right, liberty and privilege of the said three feet wide alley leading into and from the said Oxford Street, as and for a passage-way and water course at all times hereafter forever.

EXHIBIT B

Real property situated in County of Delaware, State of Pennsylvania, and more particularly described as follows:

That certain lot or piece of ground with the buildings and improvements thereon erected, Situate on the Southwesterly side of Darby and Coopertown Road, in the Township of Haverford, County of Delaware and State of Pennsylvania, being lot numbered ninety-eight (98) on a Plan of lots of John N. M. Shiner, made by J. C. Sharpless, Engineer, dated February 28th, 1901, and described as follows: BEGINNING at a point on the Southwesterly side of said Road at the distance of two hundred and fifty feet Southeastwardly from Langhorne Avenue, as shown on said Plan, thence extending along said Road South thirty-three and two one-hundredths degrees East, fifty feet to a corner of Lot numbered ninety-nine (99), thence extending in depth, continuing the same width between parallel lines at right angles to said Road, on the Northerly line, one hundred and fifty and two hundred and seventy-five one-thousandths feet and on the Southerly line one hundred and fifty and five one-hundredths feet.

PMA Commodity Office,[1] U. S. Department of Agriculture, Postal Building, 502 Delaware Avenue, Kansas City 6, Mo.

(b) The Southeastern area consisting of the States of Georgia, Alabama, Mississippi, Florida, and that part of South Carolina south and west of the Santee, Congaree, and Broad Rivers.

Designated Agency: GFA Peanut Association, Camilla, Ga.
PMA Commodity Office: PMA Commodity Office, U. S. Department of Agriculture, 449 West Peachtree Street NE., Atlanta 3, Ga.

(c) The Southwestern area consisting of the States of Texas, Oklahoma, Arkansas, Louisiana, New Mexico, Arizona, and California.

Designated Agency: Southwestern Peanut Growers Association, Gorman, Tex.
PMA Commodity offices:
PMA Commodity Office, U. S. Department of Agriculture, 1114 Commerce Street, Dallas 2, Tex.
PMA Commodity Office,[2] U. S. Department of Agriculture, 335 Fell Street, San Francisco 3, Calif.

§ 646.203 *Availability* — (a) *Method of support.* CCC will support the price of the 1950 crop of peanuts by means of (1) contracts with shellers whereunder the sheller agrees to pay eligible producers not less than the support price for quota peanuts and the announced oil price for excess oil peanuts in consideration of CCC's agreement to purchase from the sheller any surplus inventory of farmers stock peanuts, to purchase No. 2 shelled peanuts produced by the sheller from farmers stock peanuts and to make the sheller eligible for direct or indirect loans to assist him in financing purchases from producers, (2) purchases of farmers stock peanuts from producers through receiving agencies, and (3) loans to producers on farm stored peanuts.

(b) *Time.* Purchases through receiving agencies of farmers' stock peanuts from producers will be made from August 1, 1950, through June 15, 1951. Purchases of eligible farmers' stock peanuts from shellers operating under the 1950 Peanut Program Sheller Contract will be made from August 1, 1950, through April 30, 1951. Purchases of No. 2 quality shelled peanuts (and other kernels contained therein) will be made from such shellers from August 1, 1950, until November 30, 1951, unless such purchases are terminated earlier by CCC, in accordance with the terms of the 1950 Peanut Program Sheller Contract. Producer loans maturing on or before June 1, 1951, will be available from August 1, 1950, through January 31, 1951. Properly executed notes and chattel mortgages must be delivered to the county committee on or before January 31, 1951. Sheller loans maturing on or before August 31, 1951, will be available from August 1, 1950, through June 15, 1951.

§ 646.204 *Definitions.* As used in this bulletin, and in all instructions, forms and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Farmers' stock peanuts" means picked and threshed peanuts which have been produced in the continental United States during the calendar year 1950 and have not been cleaned, shelled, crushed or otherwise changed from their natural state after picking or threshing.

(b) "Excess oil peanuts" means the quantity of farmers stock peanuts in a lot which are marketed by the producer at oil value to a receiving agency or sheller for the account of CCC, which quantity shall be determined by multiplying the total pounds in such lot by the percent excess shown on the excess oil card (Form MQ–77).

(c) "Quota peanuts" means the peanuts produced on the farm in 1950 which are within the amount of the farm marketing quota determined pursuant to the Marketing Quota Regulations for the 1950 Crop of Peanuts (7 CFR § 729.146, 15 F. R. 4740). With respect to the marketing of any lot of peanuts on an excess oil card under the option for marketing excess peanuts at oil value to an agency designated by the Secretary of Agriculture, the quantity of quota peanuts in the lot shall be the total quantity of peanuts in the lot less the quantity of excess oil peanuts.

(d) "Farm allotment" means the farm peanut acreage allotment for the 1950 crop of peanuts, established pursuant to the Marketing Quota Regulations for the 1950 Crop of Peanuts (7 CFR §§ 729.110 to 729.127, 14 F. R. 7611).

(e) "1950 Farm peanut acreage" means the acreage on the farm planted to peanuts in 1950 as determined by the county committee, less any such acreage with respect to which it is established by the operator or otherwise to the satisfaction of the county committee that the entire production therefrom has not and will not be picked or threshed either before or after marketing from the farm: *Provided, however,* That (1) the farm peanut acreage shall be considered equal to the farm allotment on a farm for which such allotment equals or exceeds the larger of one acre or the 1947 farm peanut acreage, if the acreage in excess of the farm allotment from which peanuts are picked or threshed is not greater than one-tenth acre or three percent of the farm allotment, whichever is larger; (2) the farm peanut acreage shall be considered equal to one acre on a farm for which the farm allotment and the 1947 farm peanut acreage are each equal to or less than one acre, and the acreage from which peanuts are picked or threshed does not exceed 1.1 acres; or (3) the farm peanut acreage shall be considered equal to the 1947 farm peanut acreage on a farm for which such 1947 acreage exceeds the larger of the farm allotment or one acre, if the acreage in excess of the 1947 farm peanut acreage from which peanuts are picked or threshed is not greater than one-tenth acre or three percent of the 1947 farm peanut acreage, whichever is larger; but the provisions of subparagraphs (1), (2) and (3) of this paragraph shall not apply unless (i) the operator submits evidence satisfactory to the county committee that the picking or threshing of peanuts was completed before he received notice of the acreage planted to peanuts, or that peanuts were picked or threshed from an acreage in excess of the largest of the farm allotment, one acre, or the 1947 farm peanut acreage notwithstanding an honest effort on the part of the operator to dispose of the excess by means other than by picking or threshing, and (ii) a quantity of peanuts equal to the county committee's estimate of the production from the acreage in excess of the largest of the farm allotment, one acre, or the 1947 farm peanut acreage is disposed of on the farm in such manner that the peanuts cannot be marketed: *Provided further,* That the maximum acreage limit prescribed in subparagraphs (1), (2), or (3) of this paragraph shall not be applicable if the State committee concurs in the findings and recommendations of the county committee that the unusual circumstances from which the excess resulted are such that the maximum limitation should not apply.

(f) "1947 farm peanut acreage" means the acreage on the farm in 1947 from which the peanuts were picked or threshed as determined by the county committee in accordance with instructions issued by the Assistant Administrator for Production, PMA.

(g) "Marketing card":

(1) "Excess oil card" means MQ–77—Peanuts (1950), Excess Marketing Card, providing the producer an option for marketing each lot of peanuts either by paying the marketing penalty or by delivering the excess oil peanuts at oil prices to agencies designated by the Secretary.

(2) "Excess penalty card" means MQ–77—Peanuts (1950), Excess Marketing Card, requiring that a marketing penalty be paid on all peanuts marketed.

(3) "Within quota card" means MQ–76—Peanuts (1950), Within Quota Marketing Card, authorizing the marketing of peanuts without penalty and without

[1] For producer loans in the State of Missouri only.
[2] For producer loans in Arizona and California.

requiring the delivery of any peanuts to agencies designated by the Secretary.

(h) The term "No. 2 shelled peanuts" shall mean shelled peanuts produced from quota peanuts or from excess oil peanuts which may be split or broken, but which are free from small shriveled, unshelled or damaged peanuts, small pieces of peanuts and foreign material.

(1) "Small shriveled" and "small pieces of peanuts" means peanuts that will pass through a screen having:

(i) 16/64 inch round perforations in the case of Spanish type.

(ii) 17/64 inch round perforations in the case of Runner and Valencia types.

(iii) 18/64 inch round perforations in the case of Virginia type.

(2) "Foreign material" means sticks, stones, dirt, shells, portions of vines and any material other than peanut kernels.

(3) "Damaged peanuts" means:

(i) Peanuts which are rancid, or decayed to an extent visible,

(ii) Moldy peanuts,

(iii) Peanuts showing sprouts over ⅛ inch long.

(i) "Other kernels" means shelled peanuts contained in a lot of No. 2 shelled peanuts (whether worked or unworked), that do not meet the above specifications for No. 2 shelled peanuts.

(j) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(k) "Producer" means a person who, as owner, landlord, tenant, or sharecropper, is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(l) With respect to purchases of farmers stock peanuts, "lot" means the quantity of peanuts marketed on one memorandum of sale issued from a 1950 peanut marketing card (Form MQ–76 or MQ–77). In the case of purchases of farmers stock peanuts containing excess oil peanuts the total quantity of such farmers stock peanuts delivered to the purchaser by one seller during one calendar week must be covered by one or more memoranda of sale.

§ 646.205 *Eligible producer.* (a) A producer will be eligible for price support (1) with respect to all peanuts produced by him on any farm on which the 1950 farm peanut acreage does not exceed the larger of the farm allotment or one acre, or (2) with respect to the quota peanuts produced by him on any farm on which the 1950 farm peanut acreage exceeds the larger of the farm allotment or one acre but does not exceed the 1947 farm peanut acreage, provided such quota peanuts are marketed in a lot from which the excess oil peanuts are delivered at oil value to a sheller or Receiving Agency for the account of CCC, except that, if the State or county PMA committee determines, pursuant to regulations of the Secretary of Agriculture, that the producer knowingly contributed to the production of peanuts in excess of the largest of the farm allotment, one acre, or the 1947 peanut acreage for one or more farms to such an extent as to off-set his contribution to the adjustment of production on other farms, he will not be eligible for price support with respect to any peanuts produced by him on any farm.

(b) The operator of an overplanted farm may be issued a "within quota" or "excess oil" marketing card if he executes MQ–92, "Agreement by Operator of Overplanted Farm", in which he agrees (1) that the 1950 farm peanut acreage is not and will not be in excess of either the larger of the farm allotment or one acre or the 1947 farm peanut acreage; and (2) if such undertaking is breached, to pay liquidated damages to CCC determined in accordance with the terms of such agreement and any marketing penalties determined to be due the Secretary of Agriculture. Copies of Form MQ–92 may be obtained from the county committee. The county committee may decline to execute Form MQ–92 in any case where it finds reasonable grounds to believe that such agreement will be used as a device to evade the requirements of this program or the collection of marketing penalty.

§ 646.206 *Eligible sheller.* An eligible sheller shall be any person engaged in shelling peanuts who has entered into a 1950 Peanut Program Sheller Contract, CCC Peanut Form 801. The applicable PMA Commodity Office will advise approved lending agencies as to the eligibility of shellers.

§ 646.207 *Determination of grade.* A Federal or Federal-State inspector shall, determine the grade (i. e., percentages of sound mature kernels, damaged kernels, other kernels, foreign material, moisture, and extra large kernels in the case of Virginia-type peanuts) of:

(a) Farmers stock peanuts delivered to a Receiving Agency for purchase by CCC, such grade to be determined at the time of delivery.

(b) Farmers stock peanuts to be pledged as security for a sheller loan, such grade to be determined at the time the peanuts are purchased from the producer.

(c) Farmers stock peanuts to be mortgaged as security for a producer loan, such grade to be determined on the basis of a sample taken by the county committee before the loan is made; but the settlement value of the mortgaged peanuts delivered in satisfaction of the loan will be determined on the basis of the grade determined at the time such peanuts are delivered.

(d) Each lot of farmers stock quota peanuts and each lot of farmers stock peanuts containing both quota and excess oil peanuts purchased by a sheller under the terms of the 1950 Peanut Program Sheller Contract, such grade to be determined at the time of the purchase from the producer.

(e) Each lot of farmers stock peanuts and of No. 2 shelled peanuts (and other kernels contained therein) purchased by CCC from shellers, such grade to be determined at the time of delivery to CCC.

§ 646.208 *Set-offs.* (a) If a producer obtaining a farm storage loan or a sheller selling peanuts to CCC under the terms of the sheller contract is indebted to CCC on any accrued obligation, or if any installments past due or maturing within 12 months are unpaid on any loan made by CCC to the producer on farm-storage facilities, whether held by CCC or a lending agency, he must designate CCC or such lending agency as the payee of the proceeds of the loan or sale to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of amounts due prior lienholders. If the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders.

(b) Shellers and Receiving Agencies purchasing peanuts from producers pursuant to the 1950 Peanut Sheller and Receiving Agency Contracts shall collect and remit any indebtedness of such producers to any agency of the United States, as shown on the marketing card on which such peanuts are marketed, in accordance with the Sheller and Receiving Agency Contracts and instructions on such marketing card.

(c) Compliance with the provisions of this section shall not constitute a waiver of any right of the debtor to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 646.209 *Purchase prices and producer loan rates.* The prices and producer loan rates for merchantable farmers stock and No. 2 shelled peanuts are contained in § 646.211 (the 1950 CCC Peanut Bulletin, 721 (Peanuts 50)–1, Supplement 1).[1] Sheller loan rates are $10.00 per ton less than the announced prices. Excess oil peanuts eligible for purchase by CCC or by shellers operating under the 1950 Peanut Program Sheller Contract will be purchased at their oil value based on the price announced by CCC applicable for the period in which such peanuts are delivered for purchase. The basic support price and producer loan rate is 10.8 cents per pound.

1950 PEANUT PURCHASES

§ 646.210 *Purchases from producers.* Eligible farmers' stock quota peanuts offered by eligible producers will be purchased at support prices by CCC through Receiving Agencies.

Excess oil peanuts offered by eligible producers will be purchased by CCC through receiving agencies and shellers at the oil value thereof based on the price announced by CCC applicable to the period in which the lot containing such peanuts is delivered for purchase.

§ 646.211 *Purchases from shellers.* CCC will purchase from shellers, farmers' stock peanuts and No. 2 shelled peanuts (and other kernels contained therein), which have been purchased and are offered to CCC in accordance with the provisions of the 1950 Peanut Program Sheller Contract, CCC Peanut Form 801.

Copies of the contracts may be obtained from the Fats and Oils Branch, PMA, U. S. Department of Agriculture, Washington 25, D. C., or from the Designated Agencies shown in § 646.202.

[1] See F. R. Doc. 50–8420, *infra*.

§ 646.212 *Peanuts eligible for purchase.* (a) Farmers' stock peanuts eligible for purchase by CCC at support prices shall be peanuts which meet the following requirements:

(1) Such peanuts must be merchantable farmers' stock peanuts of the 1950 crop produced by an eligible producer.

(2) When purchased from producers such peanuts must have been identified, in accordance with the Marketing Quota Regulations for Peanuts of the 1950 Crop (15 F. R. 4739) as quota peanuts marketed on a within quota marketing card (Form MQ–76) or as the quota portion of a lot of peanuts containing both quota and excess oil peanuts and marketed on an excess oil marketing card (Form MQ–77).

(3) When purchased from shellers such peanuts include also the excess oil peanuts marketed by a producer to the sheller for CCC's account and simultaneously purchased from CCC by the sheller, pursuant to the terms of the 1950 Peanut Program Sheller Contract.

(4) Such peanuts must be free and clear of all liens and encumbrances including landlord's liens, or if liens or encumbrances exist on the peanuts, proper waivers must be obtained.

(5) Such peanuts must be offered for sale by a person who is the owner of the peanuts and who has a legal right to sell such peanuts.

(6) The beneficial interest in the peanuts must be in the person offering them for sale, and in the case of peanuts offered by a producer, must always have been in him or in him and a former producer whom he succeeded before the peanuts were harvested.

(7) When purchased by CCC from producers or from shellers such peanuts must not contain more than 9½ percent moisture in the Southeast and Southwest areas or more than 10½ percent moisture in the Virginia-Carolina area. Shellers under contract with CCC may purchase for their accounts peanuts containing moisture in excess of the maximum moisture content specified herein but shall not make any deductions for moisture greater than that authorized in Supplement 1 to this Bulletin. The sheller may dry peanuts containing excess moisture for the account of the producer in accordance with 1950 Peanut Program Sheller Contract.

(b) No. 2 shelled peanuts eligible for purchase by CCC from shellers must be merchantable No. 2 shelled peanuts (and other kernels contained therein) which were produced from farmers stock peanuts meeting the eligibility requirements in subparagraphs (1) to (6) of paragraph (a) of this section, and which contain not more than 9½ percent moisture in the Southeast and Southwest areas and not more than 10½ percent moisture in the Virginia-Carolina area.

(c) Excess oil peanuts eligible for purchase from producers by receiving agencies or shellers for the account of CCC shall be farmers' stock peanuts which meet the following requirements:

(1) Such peanuts must meet the requirements of subparagraphs (1), (4), (5), and (6) of paragraph (a) of this section.

(2) Such peanuts must be identified, in accordance with the Marketing Quota Regulations for Peanuts of the 1950 Crop (15 F. R. 4739) as the excess oil portion of a lot of peanuts containing both quota and excess oil peanuts and marketed on an excess oil marketing card (Form MQ–77).

§ 646.213 *Determination of quantity for purchase.* The quantity of farmers' stock peanuts or No. 2 shelled peanuts (and other kernels contained therein) to be purchased shall be the gross weight at the time of delivery less foreign material content.

§ 646.214 *Settlement.* The producer will be paid for peanuts delivered to a Receiving Agency by a draft drawn on CCC. Shellers will submit claim for payment to and be paid through the office of the Designated Agency serving the area in which the sheller is located.

1950 SHELLER LOANS

Copies of the CCC forms referred to in connection with sheller loans may be obtained from the PMA commodity office serving the area.

§ 646.215 *Approved lending agencies.* An approved lending agency shall be any cooperative marketing association, corporation, partnership, individual or other legal entity with which CCC has entered into a 1950 Peanut Program Lending Agency Agreement on CCC Peanut Form 817 for the purpose of making loans to shellers.

§ 646.216 *Peanuts eligible for sheller loan.* Farmers stock peanuts which are eligible, in accordance with § 646.212 of this bulletin, for purchase by CCC from shellers are eligible as security for a sheller loan, if such peanuts were purchased from producers not more than 30 days prior to the date on which the sheller files his application for advance (CCC Peanut Form 817–C) with respect thereto.

§ 646.217 *Storage.* Peanuts pledged as security for a loan must be stored separately by type and segregation in warehouses approved in writing by CCC, and must be represented by warehouse receipts. Warehousemen will be required to submit copies of their warehouse receipts, a properly certified current financial statement, a copy of the bond under which the warehouse is operating, and such other information as CCC may request. Warehousemen desiring approval should communicate with the appropriate commodity office or the Fats and Oils Branch, PMA, Washington 25, D. C.

§ 646.218 *Loan rates.* Loans shall be made at the rate of $10.00 per ton less than the support prices shown in Supplement 1 to this bulletin for the type and grade of peanuts pledged as security.

§ 646.219 *Determination of quantity for sheller loan.* The quantity of peanuts pledged as security for a loan shall be the gross weight less foreign material.

§ 646.220 *Loan and collateral documents.* (a) Loans shall be evidenced by promissory notes, payable to CCC or the lending agency, executed by the sheller on CCC Peanut Form 817–B, Sheller Note.

(b) In addition to the notes, the following documents will be required:

(1) Application for advance, CCC Peanut Form 817–C.

(2) Warehouse receipts approved by CCC both as to warehouse arrangement and as to form of receipt.

(3) Inspection certificates issued by a Federal or Federal-State inspector; or in lieu of such certificates, a certification as to such inspection on the warehouse receipts.

(4) Insurance for the benefit of CCC covering peanuts under loan is required in the amount of the loan plus $10.00 per ton against risk of loss or damage by fire, lightning, windstorm, tornado, sprinkler damage, and other risks normally insured against by the sheller. Premiums on such insurance must be paid by the sheller and the policies kept in force to the extent of the required insurance on peanuts at any time under loan.

§ 646.221 *Payment of interest.* Interest at the rate of 3 percent per annum is payable monthly to the lending agency or other holder of the note, or to the PMA commodity office in the case of loans made direct by CCC.

§ 646.222 *Release of peanuts.* The sheller may obtain the release of the warehouse receipts representing the peanuts pledged as security for the loan by paying the principal amount loaned on such peanuts plus the accrued and unpaid interest thereon. Redemption of the peanuts represented by one or more of the several warehouse receipts covered by a note or application for advance will be permitted. In making repayments of loans made by CCC direct, the amount due, available at par in the city in which the PMA commodity office is located, must be forwarded to that office with information identifying the collateral being redeemed.

§ 646.223 *Assignment of indebtedness to CCC.* Lending agencies may assign the loan indebtedness to CCC in whole or in part, but not less than the amount representing the sheller loan value applicable to a single warehouse receipt. Such assignments must be made on the assignment form prescribed by CCC for use in connection with the lending agency agreement. Payments for the principal amount of the loan indebtedness assigned to CCC will be made by drafts drawn on CCC through a designated Federal Reserve Bank or branch bank. Drafts shall be supported by the signed original of the assignment(s). The original loan and collateral documents relating to the loan indebtedness assigned to CCC shall be retained by the lending agency in trust for CCC, until such time as CCC requests delivery thereof.

1950 PRODUCER LOANS

All producer loan documents referred to herein may be obtained from PMA county offices.

§ 646.224 *Approved lending agencies.* An approved lending agency shall be any

bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which CCC has entered into a lending agency agreement (Form PMA–97 or other form prescribed by CCC) or loan servicing agreement.

§ 646.225 *Peanuts eligible for producer loan.* Farmers stock peanuts containing less than 3 percent damaged kernels and which meet the eligibility requirements contained in § 646.212 of this bulletin are eligible as security for a farm storage loan except that producer loans shall be limited to peanuts produced by an eligible producer on a farm on which the 1950 farm peanut acreage does not exceed the larger of the 1950 farm allotment or one acre.

§ 646.226 *Approved storage.* Approved farm storage will be structures located either on or off the farm (provided no warehouse receipts are outstanding) which the county committee determines to be of such construction as to afford safe storage for peanuts. The structure must be substantial, dry and well-ventilated. A producer who obtains a loan is obligated to maintain the storage structure in good repair and to keep the peanuts in good condition. No storage payment will be made.

§ 646.227 *Loan documents.* The approved forms consist of the Producer's Note, Commodity Loan Form A, and chattel mortgage, Commodity Loan Form AA, which, together with the provisions of this bulletin and any supplements or amendments thereto, govern the rights and responsibilities of the producer. State documentary revenue stamps must be affixed to notes and chattel mortgages where required by law. Loan documents executed by an administrator, executor, or trustee, will be acceptable only upon condition that they are legally valid.

§ 646.228 *Loan rates.* Loan rates are contained in Supplement 1 of this bulletin.

§ 646.229 *Determination of quantity.* (a) Loans will be made on the basis of net weight (gross weight less foreign material) at the time the loan is made.

(b) The gross weight shall be determined as follows:

(1) If peanuts are stored in bags, the county committee will weigh a sufficient number of bags to determine the gross weight of all the peanuts to be placed under loan.

(2) If the peanuts are stored in bulk, the gross weight will be determined on the basis of the number of cubic feet of peanuts multiplied by the weight shown below for the type of peanuts.

Type:	*Weight per cubic foot (pounds)*
Spanish	20
Runner	19
Valencia	18
Virginia	18

§ 646.230 *Service charges.* The producer shall pay a service charge of $3.00 or 30 cents a ton, or fraction thereof, whichever is greater, and an inspection charge of 50 cents per ton. The producer shall pay the $3.00 minimum service charge prior to inspection of the storage structure. The balance of the service charge, if any, shall be collected from the proceeds of the loan. The inspection charge of 50 cents per ton shall be collected by the County Committee for the account of the Federal-State Inspection Service by deduction from the proceeds of the loan. No refund of service or inspection charges will be made.

§ 646.231 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum, accrued from the date of disbursement of the loan.

§ 646.232 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the peanuts under the loan or his remaining interest may be restricted by CCC.

§ 646.233 *Insurance.* CCC will not require the producer to insure the peanuts placed under the loan; however, if the producer does insure such peanuts, such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the peanuts involved in the loss.

§ 646.234 *Loss of or damage to peanuts.* The producer is responsible for any loss in grade and for any loss in weight in excess of a shrinkage allowance of 1 percent of the delivered gross weight; except that uninsured physical loss damage occurring without fault, negligence or conversion on the part of the producer or any other person having control of a storage structure not located on the farm, resulting solely from an external cause other than insect infestation or vermin, will be assumed by CCC provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 646.235 *Personal liability.* The making of any fraudulent representations by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the peanuts by him shall render the producer subject to criminal prosecution under Federal law and render him personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 646.236 *Maturity and satisfaction.* Loans mature on demand but not later than June 1, 1951. The producer is required to pay off his loan on or before maturity, or to deliver the mortgaged peanuts in accordance with instructions of the county committee. If the producer fails to deliver mortgaged peanuts in accordance with instructions of the county committee, he will be responsible for delivery costs. When the peanuts are delivered, the producer is required to deliver the entire lot of peanuts stored in the structure with the mortgaged peanuts; and in determining the settlement value of the peanuts, credit will be given for the total quantity delivered. The settlement value shall be computed on the basis of the applicable support price specified in Supplement 1 to this bulletin, based on the type, grade, quality, and moisture content of the peanuts delivered. The quantity on which the settlement value will be determined shall be the net weight (gross weight less foreign material) of the peanuts delivered plus an allowance of 1 percent of the delivered gross weight.

If the settlement value of the peanuts delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer by a sight draft drawn on CCC by the State PMA office.

If the settlement value of the peanuts delivered is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to CCC, and may be set off against any payment which would otherwise be made to the producer under any agricultural program administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC, or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the peanuts may be delivered before the maturity date of the loan, upon prior approval by the county committee.

§ 646.237 *Removal and release of the peanuts under the loan*—(a) *Removal of the peanuts under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the peanuts and sell them either by separate contract or by pooling them with other lots of peanuts similarly held.

If the peanuts are pooled, the producer has no right of redemption after the date the pool is established, but shall share ratably in any over-plus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled peanuts as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers and not unduly impair the market for the current crop of peanuts, even though part or all of the pooled peanuts are disposed of at prices less than the current domestic price of such peanuts. Any sum due the producer as a result of the sale of the peanuts or of insurance proceeds thereon, or any ratable share resulting from the liquidation of the pool, shall be payable only to the producer, without a right of assignment by him.

(b) *Release of the peanuts under loan.* A producer may at any time obtain release of peanuts remaining under loan by paying to the holder of the note, the principal amount thereof, plus charges and accrued interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local lending agency or to the county committee for collection. All charges in connection with the payment of the note shall be paid by the producer. Upon payment of the loan, the county committee should be requested to release the mortgage by filing an instrument of release or by executing a marginal release on the county records. Partial release of the peanuts prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the peanuts to be released.

§ 646.238 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages. The purchase price to be paid by CCC will be the principal sum remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit Commodity Credit Corporation Form 500 or such other form as CCC may prescribe, covering all payments received on producer's notes held by them, and are required to remit to CCC an amount equal to 1½ percent interest per annum of the amount of the principal collected from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the PMA commodity office serving the area.

Issued this 21st day of September 1950.

65	(5)	(6)	(7)	(8)	
Below 65					

PRICES FOR NO. 2 SHELLED PEANUTS AND OTHER KERNELS

Type	Spanish and Valencia	Runner and Virginia	Other kernels
Price per pound	15¾ cents	15½ cents	Market value.

Virginia type peanuts containing less than 11 percent fancy size (peanuts riding a 34/64" x 3" slotted screen) will be purchased at Runner type prices. No extra large premiums are applicable for such peanuts.

[1] For the purpose of this program includes all peanuts, excluding Valencia, which except for type, meet the "U. S. Standards for Farmers Stock Runner Peanuts (1951)" but do not meet the U. S. Standards for Farmers Stock Spanish or Farmers Stock Virginia type peanuts.

[2] $214 plus $3.10 per ton for each 1 percent above 70 percent sound mature kernels.

[3] $209 plus $3 per ton for each 1 percent above 70 percent sound mature kernels.

[4] $204.50 plus $2.90 per ton for each 1 percent above 70 percent sound mature kernels.

[5] $223 plus $3.20 per ton for each 1 percent above 70 percent sound mature kernels.

[6] $188.50 less $3.10 per ton for each 1 percent or fractional part thereof below 65 percent sound mature kernels.

[7] $194 less $3 per ton for each 1 percent or fractional part thereof below 65 percent sound mature kernels.

[8] $190 less $2.90 per ton for each 1 percent or fractional part thereof below 65 percent sound mature kernels.

[9] $207 less $3.20 per ton for each 1 percent or fractional part thereof below 65 percent sound mature kernels.

NOTES: Above prices are for peanuts delivered in bulk in the Southeastern Peanut Area. In other areas the price is for delivery of peanuts in sacks and is also to apply to bulk deliveries accepted by the purchaser. No producer loans will be made on peanuts containing 3 percent and more damage. The following premiums and discounts are to be applied in the order listed.

(1) Deduct from the above prices 50 cents per ton for each full 1 percent foreign material in excess of 3 percent but not in excess of 12 percent. For each full 1 percent of foreign material in excess of 12 percent deduct $1.

(2) Deduct from the above prices $3 per ton for each full 1 percent damage in excess of 1 percent.

(3) Add to the above prices for Virginia type peanuts 75 cents per ton as a premium for each full 1 percent of Extra Large kernels in excess of 15 percent.

(4) Add to the above prices 1 percent for each full 1 percent moisture below 7 percent (8 percent in the Virginia-Carolina area) and deduct 1 percent for each full 1 percent moisture above 7 percent (8 percent in the Virginia-Carolina area). No peanuts containing more than 9½ percent moisture (10½ percent in the Virginia-Carolina area) will be purchased by CCC.

Definitions: (1) The term "sound mature kernels" shall mean kernels which are free from damage as defined in the U. S. Standards for farmers stock (i) white Spanish peanuts in the case of Spanish and Valencia peanuts and (ii) Runner and Virginia peanuts, respectively, in the case of Runner and Virginia peanuts; and which will not pass through a screen having (i) 14/64 x ¾ inch perforations in the case of Spanish peanuts and (ii) 15/64 x 1 inch perforations in the case of Virginia peanuts, (iii) 15/64 x ¾ inch perforations in the case of Runner and Valencia peanuts.

(2) Extra Large kernels shall mean any shelled Virginia peanuts which are whole and which are free from noticeably discolored or damaged peanuts as defined in the U. S. Standards for Shelled Virginia peanuts (Effective Nov. 1, 1939) and which will not pass through a screen having 21½/64 x 1-inch perforations.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[MQ–71—Cotton (1950), Amdt. 3]

PART 722—COTTON

ACREAGE ALLOTMENTS AND MARKETING QUOTAS FOR THE 1950 CROP; ISSUANCE OF MARKETING CERTIFICATE FOR UNMEASURED FARMS

Basis and purpose. Section 375 (a) of the Agricultural Adjustment Act of 1938, as amended, provides that the Secretary of Agriculture shall provide by regulations for the identification, wherever necessary, of cotton so as to afford aid in discovering and identifying such amounts as are subject to and such amounts as are not subject to marketing restrictions in effect under the act. Under the authority of this provision, § 722.147 (a) of the regulations pertaining to acreage allotments and marketing quotas for the 1950 crop of cotton, issued June 26, 1950 (15 F. R. 4162), provides that, except as otherwise provided in such section, the operator and all other producers on a farm shall be eligible to receive a marketing card (Form MQ–76—Cotton (1950)), if (1) no farm marketing excess is determined for the farm, or (2) an amount equal to the penalty on the farm marketing excess has been received by the treasurer of the county committee for the county in which the farm is located.

Due to adverse weather conditions in some areas, it has been impossible for county committees to complete measuring cotton acreages on many farms from which cotton is presently being harvested. The cotton harvested from some of these farms is ready to be marketed and, because of these incomplete measurements, the county committees are not authorized by the provisions of the regulations now in effect to issue marketing cards or marketing certificates to the producers on such farms. In the absence of identification by marketing card or certificate, the purchaser of any such cotton would be required to consider it as being subject to the marketing penalty

and to collect and remit such penalty to the appropriate county committee. This procedure would be required even though the acreage planted to cotton on the farm, on which such cotton was produced did not, in fact, exceed the farm acreage allotment. The amendment to the regulations set out herein provides that the county committee, with the approval of the State committee, may, under certain conditions, issue a marketing certificate to any farm operator who has cotton ready for marketing from a farm on which the acreage planted to cotton in 1950 has not been determined. It is in the interest of such producers in the areas where adverse weather conditions have delayed the measuring of acreages planted to cotton that the amendment become effective at the earliest possible date in order that affected producers may be relieved of the inconvenience and the financial responsibilities which attach to the marketing of cotton without identification by marketing card or certificate. Accordingly, it hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest, and the amendment contained herein shall be effective upon filing of this document with the Director, Division of Federal Register.

The regulations pertaining to acreage allotments and marketing quotas for the 1950 crop of cotton (15 F. R. 4162) are hereby amended by the addition of the following new section:

§ 722.177 *Issuance of marketing certificates for unmeasured farms.* Notwithstanding any other provision of the regulations in this part, the county committee, with the approval of the State committee, may issue marketing certificates (Form MQ–91–Cotton) for a farm in a total amount not exceeding the product of the farm acreage allotment multiplied by the smaller of the normal yield per acre or the estimated actual yield per acre, in instances where the acreage planted to cotton on the farm in 1950 has not been determined and the operator, in applying for such certificates, certifies that he has cotton from the 1950 crop available for marketing and that to the best of his knowledge and belief the acreage planted to cotton on the farm does not exceed the farm cotton acreage allotment.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets or applies sec. 346, 52 Stat. 59, as amended; 7 U. S. C. and Sup. 1346)

Done at Washington, D. C., this 21st day of September 1950. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

TITLE 12—BANKS AND BANKING

Chapter III—Federal Deposit Insurance Corporation

FUNCTIONS, POWERS AND DUTIES

CONTINUATION IN EFFECT OF REGULATIONS

It is ordered, That all of the rules and regulations (Parts 301 to 334) which have been adopted by the Board of Directors of the Federal Deposit Insurance Corporation in the exercise of its functions, powers and duties under section 12B of the Federal Reserve Act, as amended (48 Stat. 168, as amended; 12 U. S. C. and Sup. 264), and which are in effect on this date shall continue in effect, insofar as they are not in conflict with the Federal Deposit Insurance Act (Pub. Law 797, 81st Cong.), until modified, terminated, suspended or repealed by this Board.

Because this order merely continues the Corporation's existing rules and regulations in full force and effect, the Board for good cause hereby finds that it is unnecessary and impracticable to issue this order with prior notice and public participation in rule making thereon under sections 4 (a) and 4 (b) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitations of section 4 (c) of said act. *Accordingly it is further ordered,* That this order shall become effective upon being filed for publication in the FEDERAL REGISTER.

(Pub. Law 797, 81st Cong.)

By Direction of the Board.

[SEAL] E. F. DOWNEY,
Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7, Amdt. 50]

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13–1 is amended as follows:

1. The Chincoteague Bay, Maryland, area, published on April 21, 1949, in 14 F. R. 1913, is deleted.

2. The Sinepuxent Bay, Maryland, area, published on April 21, 1949, in 14 F. R. 1913, is deleted.

3. The Quabbin Reservoir, Massachusetts, area, published on April 21, 1949, in 14 F. R. 1913, and amended on June 23, 1949, in 14 F. R. 3393, is deleted.

4. The Oswego, New York, area, published on March 17, 1950, in 15 F. R. 1510, is amended to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
OSWEGO (Albany Chart).	Beginning at lat. 43°45'00" N, long. 76°23'00" W; due S to lat. 43°34'00" N; SSW to lat. 43°30'00" N, long. 76°25'00" W; WSW to lat. 43°19'00" N, long. 77°10'00" W; NW to lat. 43°25'00" N, long. 77°15'00" W; due N to lat. 43°35'00" N; due E to long. 76°53'00" W; NE to lat. 43°38'00" N, long. 76°45'00" W; NE to lat. 43°45'00" N, long. 76°30'00" W; due E to lat. 43°45'00" N, long. 76°23'00" W, point of beginning.	Surface to 40,000 feet.	Hours of daylight.	Griffiss Air Force Base, Rome, N. Y.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on September 26, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50–8367; Filed, Sept. 25, 1950; 8:45 a. m.]

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg. Amdt. 286]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg. Amdt. 283]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CALIFORNIA, COLORADO, AND WASHINGTON

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule A, Item 27c, is amended to describe the counties in the Defense-Rental Area as follows:

Kern County, except the City of Bakersfield.

This decontrols the City of Bakersfield in Kern County, California, a portion of the Kern, California, Defense-Rental Area.

2. Schedule A, Item 30, is amended to describe the counties in the Defense-Rental Area as follows:

Orange County, except (1) the Cities of Anaheim, Fullerton, Huntington Beach, Laguna Beach, Newport Beach and Orange (2) that portion of Orange County lying south of the south line of Township six south, Range Eight West, San Bernardino Base and Meridian, and the easterly and westerly prolongation of said south line, and (3) that portion of Orange County beginning at the intersection of the north line of Section 12, Township 5 South, Range 12 West, San Bernardino Base and Meridian with the westerly line of said Orange County; running thence from said point of beginning easterly along Section lines to the northeast corner of Section 9, Township 5 South, Range 11 West, San Bernardino Base and Meridian; thence southerly along section lines to the northerly boundary line of the City of Huntington Beach, thence westerly and southerly along said boundary line of the City of Huntington Beach to the ordinary high tide line of the Pacific Ocean; thence northwesterly along said high tide line to the westerly boundary line of Orange County; thence northwesterly along said boundary line to the point of beginning; including the incorporated City of Seal Beach, and the unincorporated communities of Sunset Beach and Surfside.

Los Angeles County, except (1) Catalina Township, (2) the Cities of Arcadia, Alhambra, Bell, Beverly Hills, Burbank, Gardena, Claremont, Compton, Covina, Culver City, El Monte, El Segundo, Glendale, Hermosa Beach, Huntington Park, Inglewood, La Verne, Long Beach, Lynwood, Manhattan Beach, Maywood, Monrovia, Montebello, Monterey Park, Pasadena, Pomona, Redondo Beach, Santa Monica, Sierra Madre, Signal Hill, South Gate, South Pasadena and Whittier, and (3) all unincorporated localities.

This decontrols all unincorporated localities in Los Angeles County, California, a portion of the Los Angeles, California, Defense-Rental Area.

3. Schedule A, Item 39a, is amended to read as follows:

(39a) [Revoked and Decontrolled.]

This decontrols (1) the City of Santa Cruz in Santa Cruz County, California, a portion of the Santa Cruz, California, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Santa Cruz being the major portion of said Defense-Rental Area, and (2) the remainder of said Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

4. Schedule A, Item 41, is amended to describe the counties in the Defense-Rental Area as follows:

Kings County, Except the City of Lemoore; and Tulare County, except the Cities of Porterville, Visalia and Woodlake.

This decontrols the City of Lemoore in Kings County, California, a portion of the Tulare-Kings, California, Defense-Rental Area.

5. Schedule A, Item 41b, is amended to read as follows:

(41b) [Revoked and Decontrolled.]

This decontrols (1) the City of Canon City in Fremont County, Colorado, a portion of the Canon City, Colorado, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the remainder of said Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

6. Schedule A, Item 43, is amended to describe the counties in the Defense-Rental Area, as follows:

Arapahoe County, except the Town of Littleton; and Adams, Denver, and Jefferson Counties.

This decontrols the Town of Littleton in Arapahoe County, Colorado, a portion of the Denver, Colorado, Defense-Rental Area.

7. Schedule A, Item 352, is amended to describe the counties in the Defense-Rental Area as follows:

Those parts of King County lying west of the Snoqualmie National Forest, except the City of Kent; and those parts of Pierce County lying west of the Snoqualmie National Forest, except the Cities of Puyallup and Sumner and the Town of Ruston.

This decontrols the Town of Ruston in Pierce County, Washington, a portion of the Puget Sound, Washington, Defense-Rental Area.

All decontrols effected by this amendment, except items 3 and 5 thereof, are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective September 22, 1950.

Issued this 21st day of September 1950.

ED DUPREE,
Acting Housing Expediter.

[F. R. Doc. 50–8384; Filed, Sept. 25, 1950; 8:49 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter D—Military Renegotiation Regulations

PART 423—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

GENERAL CLASSES OR TYPES OF EXEMPTED CONTRACTS AND SUBCONTRACTS

Amendment 5 to Appendix A to Subpart E of Part 423.

Section 423.354, Appendix A (15 F. R. 170, 4942, 5196) hereby is amended, by the amendment of the following item:

6. *Collateral items*—(a) *Exemption.* All subcontracts for:

(1) The sale, furnishing, or installation, of machinery, equipment or materials used in the processing of an end product or of an article incorporated therein; provided such machinery, equipment, or materials do not become a part of such end product or of an article incorporated therein.

(2) The sale, furnishing, or installation, of machinery used in the processing of other machinery to be used in the processing of an end product or of an article incorporated therein.

(3) The sale, furnishing, or installation of component parts of, or subassemblies for, machinery included in (2) above, and machinery, equipment and materials included in (1) above.

(4) The performance of services directly required for the performance of subcontracts included in (1), (2) and (3) above.

As used herein the phrase "used in processing" has the same meaning as that set forth in § 423.333–3 of the Military Renegotiation Regulations.

(b) *Limitations on exemptions.* This exemption does not apply to subcontracts subject to the Renegotiation Act of 1948, under contracts entered into on or after January 1, 1951.

This exemption does not apply to subcontracts where the purchaser of such machinery, equipment, or materials, has acquired them for the account of the Government. As used herein the phrase "acquired for the account of the Government" means acquired pursuant to an arrangement between the Government and the purchaser of such machinery, equipment, or materials, whereby title to such machinery, equipment, or materials will, or may, at the option of the Government, vest in the Government.

NOTE: Interested persons are advised that the Military Renegotiation Policy and Review Board does not intend to extend this exemption beyond January 1, 1951.

(Sec. 3, 62 Stat. 259; 50 U. S. C. App. Sup. 1193)

Adopted by the Board: September 15, 1950.

FRANK L. ROBERTS,
Chairman, Military Renegotiation Policy and Review Board.

PART 562—RESERVE OFFICERS' TRAINING CORPS

MISCELLANEOUS AMENDMENTS

Sections 562.21 (b), 562.25 (a) (1) (ii) (b), 562.26 (c), and 562.40 (a) (1) are amended as follows:

§ 562.21 *General conditions for enrollment in ROTC.* • • •

(b) Physically qualified under • • • Waivers of these physical defects will be granted only in exceptional cases and then only upon the prior approval of the Department of the Army. • • •

§ 562.25 *Eligibility of certain graduates for appointment to service academies*—(a) *United States Military Academy*—(1) *General.* • • •

(ii) *Honor Graduate.* • • •

(b) Have been a member of the ROTC for at least two years while at the school from which nominated.

• • • • •

§ 562.26 *Eligibility for membership of active or Reserve personnel of the Armed Forces.*

• • • • •

(c) No commissioned officer or former commissioned officer of the Army or Air National Guard, Naval Militia, United States Coast Guard Reserve, or Reserve or former AUS officer of the military forces of the United States is eligible for membership in the ROTC, except that a Reserve or National Guard officer of the Army or Air Force or former AUS Officer of the military forces of the United States who is a regularly enrolled student of a medical school at which there is established an Army Medical Service ROTC unit may be enrolled in that Army Medical Service ROTC unit.

§ 562.40 *Military training certificates*—(a) *Senior Division.* • • •

(1) *DA AGO Form 133 (Military Training Certificate; ROTC (Basic Course Senior Division)).* For successful completion of the basic course ROTC, together with 2 years of academic work on a college level.

• • • • •

[C 1, AR 145–350, 13 Sept. 1950] (R. S. 161, 5 U. S. C. 22. Interpret or apply 39 Stat. 191, as amended, sec. 34, 44 Stat. 778; 10 U. S. C. 354, 381–388, 441)

[SEAL] EDWARD F. WITSELL,
Major General, U. S. Army,
The Adjutant General.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 6—SUPPLY CONTRACTS; SERVICE PROPERTY; TELEGRAMS

PART 26—LEASES, ALLOWANCES, AND SUPPLIES FOR POST OFFICES

COLLUSION AMONG BIDDERS; LEASING OF PREMISES

1. In § 6.5 *Contracts* (39 CFR 6.5), amend paragraph (c) to read as follows:

(c) *Collusion among bidders.* No contract for furnishing supplies to the Post Office Department or the Postal Service shall be made with any person who has entered, or proposed to enter, into any combination to prevent the making of any bid for furnishing such supplies, or to fix a price or prices therefor, or who has made any agreement, or given or performed, or promised to give or perform, any consideration whatever to induce any other person not to bid for any such contract, or to bid at a specified price or prices thereon.

Whoever violates this section shall be fined not more than $5,000 or imprisoned not more than one year, or both; and if the offender is a contractor for furnishing such supplies his contract may be annulled. (62 Stat. 704; 18 U. S. C. 441.)

2. In § 26.2 *Leasing of premises* (39 CFR 26.2), amend the legislative citation at the end of paragraph (c) to read as follows:

(44 Stat. 688; 39 U. S. C. 14)

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] J. M. DONALDSON,
Postmaster General.

[F. R. Doc. 50-8364; Filed, Sept. 25, 1950; 8:45 a. m.]

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

FINLAND AND FRENCH SETTLEMENTS IN INDIA

1. In § 127.251 *Finland* (39 CFR 127.251), insert a new paragraph (b) (4–a) to read as follows:

(4–a) *Observations.* (i) The Finnish customs authorities permit the duty-free entry of gift parcels, regardless of weight and value, containing only used clothing, used table linen or used bed linen in quantities not exceeding the normal needs of the addressee and his family.

(ii) Gift parcels containing only the following articles are admitted duty free provided they do not exceed 22 pounds in weight or 3,000 Finnish marks in value:

Foodstuffs other than coffee, cocoa, tea, or candy.

Coffee up to 4 pounds 6 ounces, cocoa up to 2 pounds 3 ounces, candy up to 2 pounds 3 ounces, and tea up to 8¼ ounces.

Tobacco up to 3½ ounces (100 cigarettes, 80 small cigars or 20 cigars).

Small quantities of clothing, soap, leather goods, razor blades, and similar articles of small value, new or used, not be to sold or used commercially.

(iii) Articles exceeding the limits in subdivision (ii) will be charged with customs duties and such other charges as may be applicable in Finland.

b. In § 127.258 *French Settlements in India (Chandernagore, Karikal, Mahe, Pondichery, and Yanaon)* (39 CFR 127.258), amend paragraph (b) (1) to read as follows:

(1) *Table of rates.* (i) Surface parcels.

(Rates include transit charges)

Pounds:	Rate	Pounds:	Rate
1	$0.53	12	$2.46
2	.67	13	2.60
3	.94	14	2.74
4	1.08	15	2.88
5	1.22	16	3.02
6	1.36	17	3.16
7	1.50	18	3.30
8	1.74	19	3.44
9	1.88	20	3.58
10	2.02	21	3.72
11	2.16	22	3.86

Weight limit: 22 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Optional.
Group shipments: No.
Registration: No.
Insurance: No.
C. o. d.: No.

(R. S. 161, 396, secs, 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; and the terms of postal conventions and agreements entered into pursuant to R. S. 398, 48 Stat. 943; 5 U. S. C. 372)

[SEAL] J. M. DONALDSON,
Postmaster General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 44]

UNITED STATES STANDARDS FOR EDIBLE SUGARCANE MOLASSES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, pursuant to the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.), of United States Standards for Edible Sugarcane Molasses. On the basis of information now available to the Department, it appears that the promulgation of United States standards for edible sugarcane molasses may tend to improve the marketability of this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards may do so by filing them in duplicate with the Director of the Sugar Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

UNITED STATES STANDARDS FOR EDIBLE SUGARCANE MOLASSES [1]

GENERAL

Sec.
44.1 Definition.

GRADES

44.2 Grades of edible sugarcane molasses.
44.3 Grade specifications.

DETERMINATION OF FACTORS

44.4 Quantitative determination of factors.
44.5 Preparation of basic solutions and ESM color standards.
44.6 Use of ESM color standards in determining color factor.

AUTHORITY: §§ 44.1 to 44.6 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624.

GENERAL

§ 44.1 *Definition.* "Edible sugarcane molasses" means the liquid product obtained when any part of the commercially crystallizable sugar is extracted from sugarcane grown in the United States.

GRADES

§ 44.2 *Grades of edible sugarcane molasses.* The grades for edible sugarcane molasses are designated as follows:

(a) U. S. Fancy Edible Sugarcane Molasses.

(b) U. S. Medium-light Edible Sugarcane Molasses.

(c) U. S. Medium-dark Edible Sugarcane Molasses.

§ 44.3 *Grade specifications.* Specifications for each grade of edible sugarcane molasses are as follows:

(a) U. S. Fancy Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses an acceptable flavor characteristic of edible sugarcane molasses of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 80 percent; which has a ratio of sulfated ash to Brix solids of not more than 8.5 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than ESM Color Standard No. 1.[2]

(b) U. S. Medium-light Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses an acceptable flavor characteristic of edible sugarcane molasses of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 77 percent; which has a ratio of sulfated ash to Brix solids of not more than 9.5 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than ESM Color Standard No. 2.

(c) U. S. Medium-dark Edible Sugarcane Molasses consists of edible sugarcane molasses which possesses an acceptable flavor characteristic of edible sugarcane molasses of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 79 percent when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 72 percent; which has a ratio of sulfated ash to Brix solids of not more than 11 percent; which contains not more than 200 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than ESM Color Standard No. 3.

(d) *Table of specifications for grades.* The specifications for the designated grades of edible sugarcane molasses are also set forth in summary form in the table which follows:

TABLE OF SPECIFICATIONS FOR GRADES

Factors	Grades and specifications		
	U. S. Fancy Edible Sugarcane Molasses	U. S. Medium-light Edible Sugarcane Molasses	U. S. Medium-dark Edible Sugarcane Molasses
Brix solids content (corrected to 20° C. [68° F.]).	Not less than 79 percent		
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 80 percent.	Not less than 77 percent.	Not less than 72 percent.
Ratio of sulfated ash to Brix solids	Not more than 8.5 percent.	Not more than 9.5 percent.	Not more than 11.0 percent.
Total sulfites (calculated as total SO_2) per million parts of Brix solids.	Not more than 200 percent		
Color	No darker than ESM Color Standard No. 1.	No darker than ESM Color Standard No. 2.	No darker than ESM Color Standard No. 3.

DETERMINATION OF FACTORS

§ 44.4 *Quantitative determination of factors.* Quantitative determination of the respective factors (other than color) of the grades may be on the basis of any method of analysis adopted by the Association of Official Agricultural Chemists. The results so obtained, however, are to be interpreted in terms of the results obtained when the determination of such factors is made by the methods (also adopted by the Association of Official Agricultural Chemists) set forth in this section for the respective factors:

(a) *Brix solids.* By Brix hydrometer, using the double-dilution method, corrected to 20° C. (68° F.).

(b) *Total sugars*—(1) *Sucrose.* By the Clerget, or double polarization, method using invertase as the inverting agent.

(2) *Reducing sugars.* By the Lane-Eynon volumetric method.

(c) *Sulfated ash.* By the double sulfation method, with no deduction.

(d) *Total sulfites.* By the Monier-Williams method, calculated as total SO_2.

§ 44.5 *Preparation of basic solutions and ESM color standards.* Chemicals of reagent grade, at room temperature, are used in the preparation of the solutions described in this section.

(a) *Preparation of basic solutions*—(1) *Solution A.* Dissolve 10 grams of $CuCl_2 \cdot 2H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 100 milliliters.

(2) *Solution B.* Dissolve 50 grams of $CoCl_2 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(3) *Solution C.* Dissolve 50 grams of $FeCl_3 \cdot H_2O$ in a sufficinet quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(4) *ESM stock solution.* Mix 50 milliliters of Solution A and 485 milliliters of Solution B with 465 milliliters of Solution C.

(b) *Preparation of ESM color standards*—(1) *ESM Color Standard No. 1.* Dilute 30 milliliters of the ESM stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(2) *ESM Color Standard No. 2.* Dilute 65 milliliters of the ESM-stock solution to 100 milliliters with 10 percent hydrochloric acid solution.

(3) *ESM Color Standard No. 3.* ESM stock solution undiluted.

§ 44.6 *Use of ESM color standards in determining color factor*—(a) *Containers required.* The containers needed to perform the visual color comparison test set forth in paragraph (c) of this section are:

(1) A container for a sample of edible sugarcane molasses for which the color factor is to be determined (such container hereinafter called "sample container"); and

(2) Containers for the respective ESM color standards.

(b) *Description of containers.* The sample container is made of colorless and transparent glass or plastic material and is of such shape and construction as to provide a flat ⅛-inch thickness of the sample to be viewed. The container for each ESM color standard is a colorless and transparent 2-ounce French square water sample bottle having outside base dimensions of 1 7/10 inches by 1 7/16 inches.

(c) *Visual comparison test.* A sample of edible sugarcane molasses is compared in the following manner with the ESM color standards to determine whether the sample is darker than one or more of such color standards:

(1) Place each of the ESM Color Standards Nos. 1, 2, and 3 in separate

[1] Compliance with the requirements of these standards will not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] "ESM" is an abbreviation for edible sugarcane molasses.

2-ounce French square water sample bottles;

(2) Place a sample of the edible sugarcane molasses in a sample container; and

(3) In order to determine whether the sample is darker than one or more of the ESM color standards, visually compare the sample with each of the color standards by looking through them at a light-colored background in diffuse light. The sample is viewed through its 1/8-inch thickness; and each ESM color standard is viewed at right angles to one of the sides of its container.

Issued this 21st day of September 1950.

[SEAL] F. R. BURKE,
Acting Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 50-8412; Filed, Sept. 25, 1950; 8:52 a. m.]

[7 CFR, Part 44]

UNITED STATES STANDARDS FOR SUGARCANE SIRUP

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, pursuant to the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.), of United States Standards for Sugarcane Sirup. On the basis of information now available to the Department, it appears that the promulgation of United States standards for sugarcane sirup may tend to improve the marketability of this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards may do so by filing them in duplicate with the Director of the Sugar Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

UNITED STATES STANDARDS FOR SUGARCANE SIRUP [1]

GENERAL

Sec.
44.21 Definition.

GRADES

44.22 Grades for sugarcane sirup.
44.23 Grade specifications.

DETERMINATION OF FACTORS

44.24 Quantitative determination of factors.
44.25 Preparation of basic solutions and SS color standards.
44.26 Use of SS color standards in determining color factor.

AUTHORITY: § 44.21 to § 44.26 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624.

GENERAL

§ 44.21 *Definition.* (a) "Sugarcane sirup" means the liquid product obtained by evaporating the juice of sugarcane or by dissolving sugarcane concrete in water without removing any of the sugar therefrom. Types of sugarcane sirup are:

(1) "Sulfured sugarcane sirup" which is sugarcane sirup made by the sulfitation process; and

(2) "Unsulfured sugarcane sirup" which is sugarcane sirup made without the use of the sulfitation process.

GRADES

§ 44.22 *Grades for sugarcane sirup.* (a) *Grades for sulfured sugarcane sirup.* The grades for sulfured sugarcane sirup are designated as follows:

(1) U. S. Fancy Sugarcane Sirup.

(2) U. S. Good Sugarcane Sirup.

(b) *Grades for unsulfured sugarcane sirup.* The grades for unsulfured sugarcane sirup are designated as follows:

(1) U. S. Extra-Fancy (A-1) Sugarcane Sirup.

(2) U. S. Fancy (No. 1) Sugarcane Sirup.

(3) U. S. Good (No. 2) Sugarcane Sirup.

§ 44.23 *Grade specifications.* (a) *Grade specifications for sulfured sugarcane sirup.* (1) U. S. Fancy Sugarcane Sirup consists of sulfured sugarcane sirup which possesses an acceptable flavor characteristic of sulfured sugarcane sirup of good quality; which contains no excess of sediment; which is practically free of foreign matter, which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 88 percent; which has a ratio of sulfated ash to Brix solids of not more than 4.5 percent; which contains not more than 100 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than SS Color Standard No. 2.[2]

(2) U. S. Good Sugarcane Sirup consists of sulfured sugarcane sirup which possesses an acceptable flavor characteristic of sulfured sugarcane sirup of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 86 percent; which has a ratio of sulfated ash to Brix solids of not more than 6.0 percent; which contains not more than 100 parts of total sulfites, calculated as total SO_2, per million parts of Brix solids; and which possesses a color no darker than SS Color Standard No. 3.

(b) *Grade specifications for unsulfured sugarcane sirup.* (1) U. S. Extra-Fancy (A-1) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 92 percent; which has a ratio of sulfated ash to Brix solids of not more than 2.5 percent; and which possesses a color no darker than SS Color Standard No. 1.

(2) U. S. Fancy (No. 1) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 90.5 percent; which has a ratio of sulfated ash to Brix solids of not more than 3.5 percent; and which possesses a color no darker than SS Color Standard No. 2.

(3) U. S. Good (No. 2) Sugarcane Sirup consists of unsulfured sugarcane sirup which possesses an acceptable flavor characteristic of unsulfured sugarcane sirup of good quality; which contains no excess of sediment; which is practically free of foreign matter; which has a Brix solids content of not less than 74 percent (39.5° Baumé) when corrected to 20° C. (68° F.); which has a ratio of total sugars (sucrose plus reducing sugars) to Brix solids of not less than 89 percent; which has a ratio of sulfated ash to Brix solids of not more than 4.5 percent; and which possesses a color no darker than SS Color Standard No. 3.

(c) *Table of specifications for grades.* The specifications for the designated grades of sulfured sugarcane sirup and unsulfured sugarcane sirup are also set forth in summary form in the table which follows:

TABLE OF SPECIFICATIONS FOR GRADES

SULFURED SUGARCANE SIRUP

Factors	Grades and specifications	
	U. S. Fancy Sugarcane Sirup	U. S. Good Sugarcane Sirup
Brix solids content (corrected to 20° C. [68° F.]).	Not less than 74 percent (39.5° Baumé)	
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 88 percent.	Not less than 86 percent.
Ratio of sulfated ash to Brix solids	Not more than 4.5 percent.	Not more than 6 percent.
Total sulfites (calculated as total SO_2) per million parts of Brix solids.	Not more than 100 percent	
Color	No darker than SS Color Standard No. 2.	No darker than SS Color Standard No. 3.

[1] Compliance with the requirements of these standards will not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] "SS" is an abbreviation for sugarcane sirup.

TABLE OF SPECIFICATIONS FOR GRADES—Continued

UNSULFURED SUGARCANE SIRUP

Factors	Grades and specifications		
	U. S. Extra-fancy (A-1) Sugarcane Sirup	U. S. fancy (No. 1) Sugarcane Sirup	U. S. Good (No. 2) Sugarcane Sirup
Brix solids content (corrected to 20° C. [68° F.])	Not less than 74 percent (39.5° Baumé)		
Ratio of total sugars (sucrose plus reducing sugars) to Brix solids.	Not less than 92 percent.	Not less than 90.5 percent.	Not less than 89 percent.
Ratio of sulfated ash to Brix solids	Not more than 2.5 percent.	Not more than 3.5 percent.	Not more than 4.5 percent.
Color	No darker than SS Color Standard No. 1.	No darker than SS Color Standard No. 2.	No darker than SS Color Standard No. 3.

DETERMINATION OF FACTORS

§ 44.24 *Quantitative determination of factors.* Quantitative determination of the respective factors (other than color) of the grades may be on the basis of any method of analysis adopted by the Association of Official Agricultural Chemists. The results so obtained, however, are to be interpreted in terms of the results obtained when the determination of such factors is made by the methods (also adopted by the Association of Official Agricultural Chemists) set forth in this section for the respective factors:

(a) *Brix solids.* By Brix hydrometer or Baumé hydrometer corrected to 20° C. (68° F.).

(b) *Total sugars*—(1) *Sucrose.* By the Clerget, or double polarization, method, using invertase as the inverting agent.

(2) *Reducing sugars.* By the Lane-Eynon volumetric method.

(c) *Sulfated ash.* By the double sulfation method, with no deduction.

(d) *Total sulfites.* By the Monier-Williams method, calculated as total SO_2.

§ 44.25 *Preparation of basic solutions and SS color standards.* Chemicals of reagent grade, at room temperature, are used in the preparation of the solutions described in this section.

(a) *Preparation of basic solutions*—(1) *Solution A.* Dissolve 10 grams of $CuCl_2 \cdot 2H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 100 milliliters.

(2) *Solution B.* Dissolve 50 grams of $CoCl_2 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(3) *Solution C.* Dissolve 50 grams of $FeCl_3 \cdot 6H_2O$ in a sufficient quantity of 10 percent hydrochloric acid solution to make 500 milliliters.

(4) *SS stock solution.* Mix 50 milliliters of Solution A and 485 milliliters of Solution B with 465 milliliters of Solution C.

(b) *Preparation of SS color standards*—(1) *SS Color Standard No. 1.* Dilute 4 milliliters of SS stock solution to 100 millilliters with 10 percent hydrochloric acid solution.

(2) *SS Color Standard No. 2.* Dilute 8 milliliters of SS stock solution to 100 millilliters with 10 percent hydrochloric acid solution.

(3) *SS Color Standard No. 3.* Dilute 18 milliliters of SS stock solution to 100 millilliters with 10 percent hydrochloric acid solution.

§ 44.26 *Use of SS color standards in determining color factor*—(a) *Containers required.* The containers needed to perform the visual color comparison test set forth in paragraph (c) of this section are:

(1) A container for a sample of sugarcane sirup for which the color factor is to be determined (such container hereinafter called "sample container"; and

(2) Containers for the respective SS color standards.

(b) *Description of containers.* The sample container is made of colorless and transparent glass or plastic material and is of such shape and construction as to provide a flat 1/8-inch thickness of the sample to be viewed. The container for each SS color standard is a colorless and transparent 2-ounce French square water sample bottle having outside base dimensions of 1 7/16 inches by 1 7/16 inches.

(c) *Visual comparison test.* A sample of sugarcane sirup is compared in the following manner with the SS color standards to determine whether the sample is darker than one or more of such color standards:

(1) Place each of the SS Color Standards Nos. 1, 2, and 3 in separate 2-ounce French square water sample bottles;

(2) Place a sample of sugarcane sirup in a sample container; and

(3) In order to determine whether the sample is darker than one or more of the SS color standards, visually compare the sample with each of the color standards by looking through them at a light-colored background in diffuse light. The sample is viewed through its 1/8-inch thickness; and each SS color standard is viewed at right angles to one of the sides of its container.

Issued this 21st day of September 1950.

[SEAL] F. R. BURKE,
Acting Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 50-8411; Filed, Sept. 25, 1950; 8:52 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 240]

EXEMPTION OF CERTAIN TRANSACTIONS IN WHICH SECURITIES ARE RECEIVED BY REDEEMING OTHER SECURITIES

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt an exemptive rule pursuant to authority vested in it by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 16 (b) and 23 (a) thereof. Under the proposed rule certain transactions in which a security is acquired by the redemption of another security would be exempt from the operation of section 16 (b) of the Securities Exchange Act.

Section 16 (b) provides that any profit realized by a beneficial owner of more than 10 percent of any class of equity security registered on a national securities exchange, or by a director or officer of the issuer of such a security, as a result of any purchase and sale (or sale and purchase) of any equity security of such issuer within a period of less than six months shall inure to the corporation. As the section expressly states, this provision is designed "for the purpose of preventing the unfair use of information which may have been obtained by such beneficial owner, director, or officer by reason of his relationship to the issuer."

It has been suggested that a transaction which consists simply of an exchange of one security for another by way of redemption, where both the old and new securities are substantially and in practical effect equivalents and the redemption does not involve the payment of any consideration for the new security other than the old security, is not the sort of "purchase" contemplated by the section. Such a redemption, it is contended, does not result in any change in the rights of the beneficial owner of the security or in the nature of his holdings. If, therefore, a redemption of this kind takes place and there is no purchase of the old security within six months of the redemption, it is urged that the beneficial owner has simply changed the form but not the amount of his holdings.

The proposed rule does not contemplate, however, that there will be any change in the requirement that the beneficial owner must file the reports required by section 16 (a) when the redemption takes place. Nor would the proposed rule exempt any transaction other than the redemption. Thus, if there should be a purchase and sale (or sale and purchase) of either the old or the new security within any six-month period, or if there should be a purchase of one and a sale of the other (or a sale of one and a purchase of the other) within any six-month period, the officer, director or 10-percent stockholder would still be liable to the issuer for any profit realized. Paragraph (c) of the proposed rule is designed to facilitate the recovery of any such profit in the latter case by requiring an issuer which desires to avail itself of the exemption provided in the rule to recognize the similarity in the two securities by appropriate corporate action, such as the adoption of a by-law or resolution by the board of directors.

The proposed rule would by its terms be inapplicable if any security of the same class as the security redeemed were acquired within six months before or after the redemption.

The proposed rule would provide substantially as follows:

§ 240.16b–5 *Exemption from section 16 (b) of certain transactions in which securities are received by redeeming other securities.* Any acquisition of an equity security (other than a convertible security or right to purchase a security) by a director or officer of the issuer of such security shall be exempt from the operation of section 16 (b) upon condition that:

(a) The equity security is acquired by way of redemption of another security which (1) represented substantially and in practical effect a stated or readily ascertainable amount of such equity security, (2) had a value which was substantially determined by the value of such equity security, and (3) conferred upon the holder the right to receive such equity security by way of redemption without the payment of any consideration other than the security redeemed;

(b) No security of the same class as the security redeemed was acquired by the director or officer within six months prior to such redemption or is acquired within six months after such redemption;

(c) The issuer of the equity security acquired has recognized the applicability of paragraph (a) of this section by appropriate corporate action.

All interested persons are invited to submit their views and comments on the proposed rule in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before October 20, 1950.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. E–6316]

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF APPLICATION

SEPTEMBER 20, 1950.

Take notice that on September 18, 1950, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by California Electric Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing the issuance and sale at competitive bidding, of $4,000,000 principal amount first mortgage bonds, 2⅞ percent series due 1980, and $2,000,000 principal amount of 10-year debentures. The proposed Bonds will bear interest at a rate of 2⅞ percent per annum, will be issued on or about October 24, 1950, and will mature on June 1, 1980. The debentures will bear interest at a rate to be determined later, will be issued on or about October 24, 1950, and will mature on October 1, 1960; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 23d day of October 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

SEPTEMBER DOMESTIC AND EXPORT PRICE LISTS

SALES OF CERTAIN COMMODITIES AT FIXED PRICES

Pursuant to the Pricing Policy of Commodity Credit Corporation issued March 22, 1950 (15 F. R. 1583), and subject to the conditions stated therein, the following commodities are available for sale in the quantities and at the prices stated:

SEPTEMBER DOMESTIC PRICE LIST—Continued

Commodity (1)	Approximate quantities available (subject to prior sale) (2)	Domestic sales price (3)
Blue lupine seed, bagged	315 hundredweight	$5.02 per 100 pounds, f. o. b. point of production. Amount of any paid-in freight to be added.
Kobe lespedeza seed, bagged	36,000 hundredweight	$13.50 per 100 pounds, f. o. b. point of production. Amount of any paid-in freight to be added.
Weeping lovegrass seed, bagged	500 hundredweight	$53.25 per 100 pounds, f. o. b. point of production. Amount of any paid-in freight to be added.
Wheat, bulk	100,000,000 bushels [1]	Basis in store, the market price but not less than the applicable 1950 county loan rate plus 9 cents per bushel; at other points, the foregoing plus average paid-in freight and location plus 21 cents per bushel. Examples of minimum prices, per bushel: Kansas City, No. 1 HW, $2.47; Minneapolis, No. 1 DNS, $2.48; Chicago, No. 1 HW, $2.52; Portland, Oreg., No. 1 WW, $2.62.
Oats, bulk	11,000,000 bushels [1]	At points of production, basis in store, the market price but not less than the applicable 1950 county loan rate plus 9 cents per bushel; at other points, the foregoing plus average paid-in freight. Examples of minimum prices, per bushel: Chicago, No. 3 or better, 92 cents; Minneapolis, No. 3 or better, 88 cents.
Barley, bulk	31,000,000 bushels [1]	At points of production, basis in store, the market price but not less than the applicable 1950 county loan rate plus 15 cents per bushel; at other points, the foregoing plus average paid-in freight and location plus 15 cents per bushel. Examples of minimum prices, per bushel: Minneapolis, No. 1 Harley, $1.47; San Francisco, No. 1 Western Barley, $1.54.
Corn, bulk	100,000,000 bushels [1]	At points of production, basis in store, the market price but not less than the applicable 1949 county loan settlement rate plus 21 cents per bushel; at other points, the foregoing plus average paid-in freight and location plus 21 cents per bushel. Examples of minimum prices, per bushel: Chicago, No. 3, $1.68; Omaha, No. 3, $1.67; Kansas City, No. 3, $1.70.
Rough rice, bulk	200,000 hundredweight	At points of production, in store in approved warehouse, the market price on date of sale but not less than the 1950 loan rate for the class, grade, quality and location plus 42 cents per hundredweight; at other locations, the market price on date of sale but not less than the 1950 loan rate at point of production plus 42 cents plus paid-in freight to destination. Basis in store, the market price but not less than the applicable 1950 loan rate for the class, grade, quality and location plus 29 cents per hundredweight. Examples of minimum price per hundredweight: Kansas City No. 2 or better, $2.64.
Grain sorghums, bulk	20,000,000 hundredweight [1]	$1.50 per hundredweight basis f. o. b. Maine shipping points.
Potato starch, in carload lots only: Pearl type packed in 200-pound burlap bags with paper inner-liners.	600,000 pounds [1]	$6.60 per 100 pounds, net, grades N through G; $6.70 grade WG; and $6.80 grades X and WW; "as is" in bulk at warehouses in Georgia, Florida, and Alabama.
Powdered type packed in 100-pound and 200-pound burlap bags with paper innerliners.	6,605,000 pounds [1]	
Gum rosin, in metal drums averaging 517 pounds, net each.	175,000 drums [1]	

SEPTEMBER EXPORT PRICE LIST

Mexican canned meat and gravy (packed 48 cans of 20 ounces each per export case).	30,700,000 pounds	10 cents per net pound, f. a. s. vessel, U. S. Gulf of Mexico ports.
Mexican canned beef and gravy (packed 48 cans of 20 ounces each per export case).	23,500,000 pounds	20 cents per net pound, f. a. s. vessel, U. S. Gulf of Mexico ports.
Dried whole eggs (packed in barrels, drums, and 14-pound cartons), in carload lots only.	31,271,000 pounds [1]	30 cents per pound, f. a. s. vessel at U. S. Gulf or east coast ports; or 30 cents per pound, f. o. b. cars or trucks at warehouse locations, less the net export freight rate to New York or New Orleans, whichever is lower; or 1946 dried eggs, 20 cents per pound, f. a. s. vessel, U. S. Gulf or east coast ports. *Provided*, The egg powder is retrieved and replenished by the buyer under the supervision and according to the requirements of USDA.

SEPTEMBER DOMESTIC PRICE LIST

Commodity (1)	Approximate quantities available (subject to prior sale) (2)	Domestic sales price (3)
Nonfat dry milk solids, in carload lots only: Spray process	200,000,000 pounds [1]	13 cents per pound f. o. b. location of stock in any State.
Roller process	162 million pounds [1]	11 cents per pound f. o. b. location of stock in any State.
American cheese (cheddar and twin types, flavor, fancy quality, not to exceed 39 percent moisture basis), in carload lots only.	59,000,000 pounds	U. S. Grade A and higher: All States except those listed below: 38 cents per pound, f. o. b. location of stock. Illinois, Indiana, Michigan, New York, New Jersey, Pennsylvania, other States bordering the Atlantic Ocean and Gulf of Mexico, and California, Oregon, and Washington; 34 cents per pound f. o. b. location of stock. U. S. Grade B: 1 cent per pound less than Grade A prices. All points of production, basis in store, the market price but not less than the applicable 1950 county loan rate plus 9 cents per bushel; at other points, the foregoing plus average paid-in freight. Examples of minimum prices, per bushel: No. 3 or better, 92 cents Minneapolis, No. 3 or better, 88 cents.
Salted creamery butter, in carload lots only.	113,000,000 pounds	U. S. Grade A and higher: All States except those listed below: 68 cents per pound, f. o. b. location of stock. New England States, New York, New Jersey, Pennsylvania, other States bordering the Atlantic Ocean and Gulf of Mexico: 64 cents per pound f. o. b. location of stock. California, Oregon, and Washington: 66½ cents per pound f. o. b. location of stock. U. S. Grade B: 2 cents per pound less than Grade A prices.
Linseed oil, raw	48,000,000 pounds	Market price on date of sale but not less than the applicable CCC purchase price for the nearest future month, Chicago; 14.05 cents per pound, New York, Philadelphia, Baltimore, and Portland, Oreg.; 14.45 cents per pound, Houston, Tex., Minneapolis, and Duluth; 14.65 cents per pound, Los Angeles, San Francisco, and Cleveland; 14.35 cents per pound New York, Philadelphia, Baltimore, and Portland, Oreg.; 14.45 cents per pound, Houston, Tex., Minneapolis, and Duluth; 14.65 cents per pound, Los Angeles, San Francisco, and Cleveland; 14.35 cents per pound New York, Philadelphia, Baltimore, and Portland, Oreg.; 14.45 cents per pound, Houston, Tex., Minneapolis, and Duluth; 14.65 cents per pound, Los Angeles, San Francisco, and Cleveland. Above prices f. o. b. tank cars at storage locations. Domestic sales prices for linseed oil through Jan. 31, 1951, will not be reduced below the above specified minimum price.
Flaxseed, bulk	12,000,000 bushels [1]	Basis in store, the market price on date of sale at place of delivery, but not less than the following: No. 1, $3.50 per net bushel, bulk, basis in store Minneapolis; for other markets, and other grades, differentials established by the Minneapolis sales prices for flaxseed through Jan. 31, 1951, will not be reduced below the above specified minimum price.
		For No. 1 Grade, 1948 crop [1] and 1949 crop.
Dry edible beans: Pinto, bagged	1,730,000 bags	$8.10 per 100 pounds, basis f. o. b. Denver rate area and California area; $7.70 per 100 pounds, basis f. o. b. Idaho rate area. For other areas, adjust price upward or downward by amount equal to difference between prevailing rail carload rate and $7.85 per 100 pounds, basis f. o. b. Michigan and New York areas; $7.35 per 100 pounds, basis f. o. b. Sunshine area.
Pea, bagged	2,100,000 bags	$9.00 per 100 pounds, basis f. o. b. New York, Michigan and California area; $7.75 per 100 pounds, basis f. o. b. Twin Falls, Idaho, rate area; $7.55 per 100 pounds, basis f. o. b. Morrill, Nebr., rate area. For other areas, adjust price upward or downward by amount equal to difference between prevailing rail carload rate and support program differential area.
Red kidney, bagged	730,000 bags	$7.90 per 100 pounds, basis f. o. b. California area.
Great Northern, bagged	2,570,000 bags	$7.95 per 100 pounds, basis f. o. b. California area.
Small white, bagged	220,000 bags	$9.15 per 100 pounds, basis f. o. b. California area.
Baby lima, bagged	710,000 bags	$8 per 100 pounds, basis f. o. b. California area.
Stanfield lima, bagged	100,000 bags	$8.60 per 100 pounds, basis f. o. b. California area and Michigan area (1949 crop only). For other grades of all beans, adjust by market differentials. Above prices are subject to usual adjustment for moisture content. Amount of any paid-in freight to be added.
Pink, bagged	170,000 bags	
Cranberry beans, bagged	30,000 bags	
Dry edible peas, bagged	900,000 hundredweight [1]	No. 1 Grade, 1949 crop, $4.03 per 100 pounds, Spokane area, f. o. b. point of production. Amount of any paid-in freight to be added.
Austrian, winter pea seed, bagged	65,000 hundredweight	$7.02 per 100 pounds, f. o. b. point of production. Amount of any paid-in freight to be added.

[1] These same lots also are available at export sales prices announced on Sept. 1, 1950.

SEPTEMBER EXPORT LIST—Continued

Commodity (1)	Approximate quantities available (subject to prior sale) (2)	Domestic sales price (3)

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25426]

GRAIN FROM LEBANON, OREG., TO CALIFORNIA

APPLICATION FOR RELIEF

SEPTEMBER 21, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: J. P. Haynes, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 1474.

Commodities involved: Grain and grain products, carloads.

From: Lebanon, Oreg.

To: Points in California.

Grounds for relief: Circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: J. P. Haynes' tariff I. C. C. No. 1474, Supplement 86.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 50–8377; Filed, Sept. 25, 1950; 8:47 a. m.]

[4th Sec. Application 25427]

ASBESTOS FIBRE FROM QUEBEC TO LOUISIANA

APPLICATION FOR RELIEF

SEPTEMBER 21, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3814.

Commodities involved: Asbestos fibre, waste, shorts and refuse, carloads.

From: Points in Quebec.

To: New Orleans and Marrero, La.

Grounds for relief: Circuitous routes and competition with water-rail carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–2338]

DUQUESNE LIGHT CO.

ORDER EXTENDING TIME

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of September 1950.

Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia Company and Standard Gas and Electric Company, both registered holding companies, having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") with respect to numerous proposed transactions designed to enlarge Duquesne's chartered territory so as to permit practical and economical interconnection between Duquesne's new electric generating station now under construction and its present electric transmission and distribution system; and

The Commission having entered its order herein on March 17, 1950, granting and permitting to become effective said application-declaration and providing that the time within which the proposed transactions were to be completed should extend for six months from March 17, 1950; and

Duquesne having stated that certain authorizations necessary under Pennsylvania State law have not been obtained and that therefore certain of the proposed transactions could not be carried out within the prescribed six-month period; and

Duquesne having further stated that it believes an additional period of six months will be required to complete all of the proposed transactions and having requested that this Commission extend accordingly the period within which the transactions proposed in the application-declaration shall be carried out; and

It appearing to the Commission in the light of the circumstances set forth that it is appropriate to grant said request for an extension of time:

It is ordered, That the period within which the transactions proposed in the aforesaid application-declaration shall be carried out be, and hereby is, extended to March 19, 1951.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 50–8370; Filed, Sept. 25, 1950; 8:46 a. m.]

[File No. 70–2439]

NEW HAMPSHIRE ELECTRIC CO.

SUPPLEMENTAL ORDER GRANTING APPLICATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 20th day of September A. D. 1950.

New Hampshire Electric Company ("New Hampshire"), an electric utility subsidiary of New England Gas and Electric Association, a registered holding company, having filed an application, with amendments thereto, under the Public Utility Holding Company Act of 1935 with respect to the issuance and sale by New Hampshire, pursuant to the competitive bidding provisions of Rule U-50, of $3,600,000 principal amount of first mortgage sinking fund ____ percent bonds, series A due 1975; and

The Commission having, by order dated September 5, 1950, granted said application, except that the issuance and sale of bonds were not to be consummated until the results of competitive bidding pursuant to Rule U-50, were made a matter of record in this proceeding and a further order issued, for which purpose jurisdiction was reserved; and

Jurisdiction also having been reserved in said order of September 5, 1950, in respect of all fees and expenses incurred in connection with the proposed transaction; and

New Hampshire having filed a further amendment to the application in which it is stated that, in accordance with the permission granted by the said order of the Commission dated September 5, 1950, it offered such bonds for sale pursuant to the competitive bidding requirements of Rule U-50 and received the following bids:

	Annual interest rate (percent)	Price to company [1] (percent of principal)	Annual cost to company (percent)
Halsey, Stuart & Co., Inc.	3	101.18	2.92307
Equitable Securities Corp.	3	100.31	2.98232
Kidder, Peabody & Co.	3	100.09	2.99486
The First Boston Corp.-Coffin & Burr, Inc.	3⅛	101.40	3.04491

[1] Exclusive of accrued interest from Sept. 1, 1950.

Said amendment further stating that New Hampshire has accepted the bid of Halsey, Stuart & Co., Inc. for the bonds as set forth above, and that the bonds will be offered for sale to the public at a price of 101.769 percent of their principal amount plus accrued interest, resulting in an underwriters spread of 0.589 percent of the principal amount; and

Said amendment also setting forth the expenses and fees to be incurred in connection with the proposed transaction including the following legal fees: $4,500 to William A. Hill and $1,175 to Choate Hall and Stewart as counsel for the company, and $4,000 to Palmer Dodge Gardner & Bickford, to be paid by, and as counsel for, underwriters; and

The Commission having examined said amendment and having considered the record herein and finding no reason for imposing terms and conditions with respect to said matter:

It is ordered, That the application, as amended, be granted to become effective forthwith, and that the jurisdiction heretofore reserved over the issuance and sale of the bonds with respect to the results of competitive bidding, and over the fees and expenses incurred in connection with the proposed transaction, be, and the same hereby is, released, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

STANDARD GAS AND ELECTRIC CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of September 1950.

Standard Gas and Electric Company ("Standard Gas"), a registered holding company, has filed an application pursuant to sections 9 and 10 of the Public Utility Holding Company Act of 1935 ("act") relating to the transactions summarized below:

Standard Gas proposes to purchase on the New York Stock Exchange such number of shares of the Common Stock, without par value, of Louisville Gas and Electric Company, a Kentucky corporation ("Louisville"), as it may deem necessary or appropriate for the purpose of stabilizing the market price of such stock. Such purchases, if any, are proposed to be made by Standard Gas during the period beginning on the day upon which Standard Gas invites offers to purchase its present holdings (137,857 shares) of Louisville Common Stock and ending at the time of the acceptance of an offer or the rejection of all offers, but in no event for a period longer than three days.

Applicant states that any shares it may purchase pursuant to the stabilizing program will be promptly disposed of after appropriate notice to the Commission.

Appropriate notice pursuant to Rule U-44 (c), promulgated under the act, with respect to the proposed sale of the 137,857 shares of Common Stock of Louisville has been given to the Commission by Standard Gas and no filing has been required by the Commission with respect to such sale. Standard Gas will report the results of the bidding and its acceptance of any bid will be subject to the entry by the Commission of an order conforming to the requirements of Supplement R and section 1808 (f) of the Internal Revenue Code, as amended.

Standard Gas estimates that the fees and expenses in connection with the transactions proposed in the instant filing, exclusive of customary brokerage fees or commissions to be paid by Standard Gas in any purchases of Louisville Common Stock for stabilization purposes, will not exceed $950, including legal fees in the amount of $750. Applicant estimates that its fees and expenses in connection with the proposed sale of the 137,857 shares of Louisville Common Stock will not exceed $3,000, including legal fees not to exceed $2,000.

The application having been filed on August 25, 1950, notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated

pursuant to said act, and the Commission not having received a request for a hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding, with respect to the proposal to acquire shares of Common Stock of Louisville for the purpose of stabilizing the market price of such stock, that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, that the estimated fees and expenses in connection with the transactions proposed herein are not unreasonable, and that it is not necessary to impose any terms and conditions other than those set forth below, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted:

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of said act that said application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the Commission's order of August 8, 1941, the effect of which is to require Standard Gas to sever its relationship with Louisville by disposing or causing the disposition, in any appropriate manner not in contravention of the applicable provisions of the act or of the rules and regulations promulgated thereunder, of its direct and indirect ownership, control and holding of securities issued by Louisville, shall be deemed to require the disposition of any shares of Common Stock of Louisville acquired by Standard Gas for the purpose of stabilizing the market price of such stock, as authorized herein, with the same force and effect as if said shares had been held by Standard Gas as of the date of said order.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2472]

QUEENS BOROUGH GAS AND ELECTRIC CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of September A. D. 1950.

Queens Borough Gas and Electric Company ("Queens"), a subsidiary of Long Island Lighting Company ("Long Island"), a registered holding company, having filed a declaration pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following transaction:

Queens proposes to issue and sell for cash at principal amount to three commercial banks an aggregate of $2,000,000 principal amount of unsecured notes which will bear interest at the rate of 2½ percent per annum and will mature on December 15, 1950. The proceeds of the sale of the notes are to be used to repay all of the company's presently outstanding bank loans in the amount of $1,500,000 which mature September 26, 1950, and the balance of $500,000 will be employed to finance extensions and additions to the company's utility plant.

A plan of consolidation and recapitalization for Long Island, Queens, and Nassau & Suffolk Light Company ("Nassau"), a subsidiary of Queens, filed pursuant to section 11 (e) of the act, has been approved by this Commission, ordered enforced by the United States District Court for the Eastern District of New York, and affirmed by the United States Court of Appeals for the Second Circuit. A petition for certiorari to review such affirmance has been filed with the United States Supreme Court. Upon consolidation, the interest rate will be reduced to 2¼ percent per annum.

Such declaration having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary with respect to the declaration, and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective, and deeming it appropriate to grant the request of declarant that the order become effective at the earliest date possible;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that the declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2476]

OHIO EDISON CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of September A. D. 1950.

Notice is hereby given that Ohio Edison Company ("Ohio"), a registered holding company and a public utility company, has filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 (the "act") and the rules and regulations promulgated thereunder. Applicant-declarant has designated sections 6 (a), 7, 12 (c) and 12 (d) of the act and Rules U-42 and U-50 promulgated thereunder as applicable to the proposed transaction.

All interested persons are referred to said application-declaration which is on file in the offices of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Ohio proposes to issue 396,571 shares of additional common stock of a par value of $8 per share, pursuant to a warrant offering to its common stockholders of record at the close of business on October 11, 1950, at the rate of one share of additional common stock for each 10 shares of common stock held, at a price to be determined by its Board of Directors. The holders of warrants will also be entitled to subscribe, subject to allotment, at the same price for the shares covered by outstanding unexercised warrants.

Such shares as are not subscribed for by the stockholders and such shares as are acquired by Ohio in connection with stabilizing the price of the common stock, as described more fully below, are to be offered to underwriters who, under the competitive bidding requirements of Rule U-50, will be invited to submit bids for the purchase of such common stock. The price per share at which Ohio proposes to offer the additional shares of its common stock to underwriters will be the same as the subscription price. Prospective underwriters who have qualified to bid on the shares of Ohio's additional common stock will be notified of the price per share, as determined by the Board of Directors, at least 42 hours prior to the time for the receipt of the bids. The invitation for bids will request the prospective underwriters to name the amount of compensation, if any, to be paid by the company to such underwriters for their services.

The application states that Ohio may, during the period commencing with the first business day prior to the date when the price per share is determined by the Board of Directors and ending at the time of acceptance of a bid for the stock, purchase up to 39,567 shares of its common stock on the New York Stock Exchange, on the Midwest Stock Exchange, or otherwise, such purchases to be made through brokers with the payment of the regular stock exchange commissions.

The applicant-declarant has requested that the competitive bidding period provided by Rule U-50 be shortened to 6 days so that bids may be received on or about October 11, 1950.

The filing states that Ohio has made, and contemplates making during the years 1950, 1951, and 1952, expenditures for the construction of property additions aggregating approximately $72,100,000, of which $9,600,000 have been expended to July 31, 1950. Ohio proposes to utilize the proceeds from the proposed issue and sale of additional shares of common stock for the purposes of such construction program, and possibly also for the increase to the extent of $1,200,000 of its investment in common stock of its public utility subsidiary, Pennsylvania Power Company. Ohio estimates that approximately $20,000,000 of the company's requirements will have to be provided by the issue during 1951 and 1952 of additional securities, the amount and type of which have not yet been determined.

Notice is further given that any interested person may, not later than September 29, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided by Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-8368; Filed, Sept. 25, 1950; 8:45 a. m.]

[File No. 70-2479]

NEW ENGLAND GAS & ELECTRIC ASSN. ET AL.

NOTICE OF FILING

In the matter of New England Gas and Electric Association, Cape and Vineyard Electric Company and Provincetown Light and Power Company, File No. 70-2479.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of September A. D. 1950.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Gas and Electric Association ("Negea"), a registered holding company, and its wholly owned utility subsidiaries, Cape and Vineyard Electric Company ("Cape") and Provincetown Light and Power Company ("Provincetown"). Applicants-declarants have designated sections 6 (b), 9, 10 and 12 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 28, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 28, 1950, said application-declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, and which are summarized as follows:

Cape proposes to purchase the properties and assets of Provincetown, subject to all its liabilities other than capital stock, for a consideration of $380,000 in cash, which amount is equivalent to the par value of all of Provincetown's outstanding common stock. To provide the funds necessary to effectuate the purchase of Provincetown's properties and assets, Cape proposes to issue and sell to Negea 7,600 additional shares of its common capital stock, of a par value of $25 per share, at a price of $50 per share.

Negea as the holder of all the common stock of Provincetown proposes to surrender all such stock to Provincetown for cancellation and to cause Provincetown to be dissolved receiving $380,000 in cash as a liquidating dividend.

The proposed transactions have been submitted to the Department of Public Utilities of Massachusetts for its approval.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2480]

NORTH PENN GAS CO. AND PENNSYLVANIA GAS & ELECTRIC CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 22d day of September 1950.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by North Penn Gas Company ("North Penn"), a public utility company and a registered holding company, and its parent, Pennsylvania Gas & Electric Corporation ("Penn Corp."), also a registered holding company. The declarants have designated sections 6 (a), 7, 9, 10, and 12 of the act as applicable to the proposed transactions.

All interested parties are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

North Penn proposes to issue and sell to the Bank of the Manhattan Company, Cleveland Trust Company, The Chase National Bank of the City of New York, and Manufacturers National Bank of Troy, New York, $3,000,000 aggregate principal amount of its promissory notes, bearing interest at the rate of 3% per annum, payable monthly, and maturing 360 days after the date of issue. The proceeds of such notes and treasury cash will be used by North Penn to redeem on November 1, 1950, all of the outstanding $2,992,000 principal amount of its First Mortgage and Lien Gold Bonds, 5½% Series, due 1957, at the redemption price of 101½%, plus accrued interest.

The proposed notes are to be issued pursuant to the terms of an agreement to be entered into between North Penn and the banks mentioned hereinabove. Under the terms of the note agreement, North Penn may prepay the notes at any time, in whole or in part, without premium. The note agreement also provides that a payment of $50,000 in reduction of the principal amount of the notes will be made six months from the date of issue.

The filing states that North Penn contemplates retiring the proposed notes with treasury cash and with funds expected to be derived from permanent financing which is anticipated as soon as practicable following the merger of the Pennsylvania subsidiaries of Penn Corp., a proposal for which merger is now pending before this Commission.

Penn Corp proposes to loan on open account to North Penn, on or before November 30, 1950, not in excess of $150,000 for a period not exceeding 6 months, without payment of interest. North Penn will use the funds borrowed from Penn Corp for the purchase of natural gas for storage and to reimburse North Penn's treasury for expenditures made for such purposes.

The declarants have requested that the Commission's order be issued as soon as practicable and that it become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than September 29, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C.

By the Commission.

UNITED STATES TARIFF COMMISSION

COTTON HAVING A STAPLE OF 1⅜ INCHES OR MORE BUT LESS THAN 1 1/16 INCHES IN LENGTH

SUPPLEMENTAL INVESTIGATION AND HEARING

The United States Tariff Commission, on this 20th day of September 1950, an-

nounces an investigation supplemental to its investigation No. 1 under section 22 of the Agricultural Adjustment Act, as amended, and under Executive Order No. 7233 of November 23, 1935, with respect to: cotton having a staple of 1⅜ inches or more but less than 1 11/16 inches in length.

Quotas on imports of cotton having a staple of 1⅛ inches or more in length were originally made effective on September 20, 1939, by Presidential Proclamation of September 5, 1939. The President after a subsequent supplemental investigation by the Tariff Commission issued a proclamation effective December 19, 1940 freeing imports of cotton of 1 11/16 inches or more in length from quota restriction, so that at present the quota on long-staple cotton applies only to cotton having a staple of 1⅛ inches or more but less than 1 11/16 inches in length. The President after another supplemental investigation by the Tariff Commission on September 3, 1949 proclaimed a change in the opening date for the quota year from September 20 to February 1 of each year for long-staple cotton subject to quota controls.

The quota on long-staple cotton for the current quota year ending January 31, 1951 is exhausted and the purpose of the present supplemental investigation is to determine whether an additional quantity of extra long-staple cotton should be permitted entry before the opening of the new quota year on February 1, 1951 to take care of domestic requirements for such cotton including those attributable to the expanded defense program.

Hearing. All parties interested will be given opportunity to be present, to produce evidence, and to be heard at a public hearing to be held in the Hearing Room of the Commission at 8th and E Streets, NW., in Washington, D. C., at 10 a. m. on September 29, 1950.

Nature of information at hearing. Information submitted at the hearing must be relevant and material to the matters under investigation.

Appearances at hearing. Interested persons may appear at the hearing either in person or by representative; if several persons have a joint interest in the subject, it is suggested that effort be made for the designation of a representative in order to avoid unnecessary repetition of testimony.

DONN N. BENT,
Acting Secretary.

ERNST SEELIS

In re: Debts owing to Ernst Seelis. F-28-21516.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernst Seelis, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of The Chase National Bank of the City of New York, 20 Pine Street, New York, New York, in the amount of $13,463.01 as of August 8, 1950, representing funds held by the aforesaid bank in an account, entitled Hollandsche Bank-Unie N. V., Old Account, Special Account, Amsterdam, Netherlands, Blocked Holland, Germany, Bulgaria, subject to General Ruling 11A, and any and all rights to demand, enforce and collect the same,

b. That certain debt or other obligation of The Chase National Bank of the City of New York, 20 Pine Street, New York, New York, in the amount of $1,116.67 as of August 8, 1950, representing funds held by the aforesaid bank in an account entitled Hollandsche Bank-Unie, N. V., Amsterdam, Netherlands, Old Account, and any and all rights to demand, enforce and collect the same, and

c. That certain debt or other obligation of White, Weld and Co., 40 Wall Street, New York 5, New York, in the amount of $1,949.54 as of April 21, 1950, representing funds held by the aforesaid White, Weld and Co., in an account entitled Hollandsche Bank-Unie N. V., Blocked Cash Account No. 1, and any and all rights to demand, enforce and collect the same,

is property within the United States, owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Ernst Seelis, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

MARIA INGELHAUT

In re: Rights of Maria Ingelhaut under insurance contract. File No. F-28-23439-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Ingelhaut, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 121990 issued by the Workmen's Benefit Fund of the U. S. A., Brooklyn, New York, to Klement Emberger, together with the right to demand, receive and collect said net proceeds is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15083]

HEDWIG KAUTTER

In re: Rights of Hedwig Kautter under insurance contracts. File Nos. F-28-24329-H-1 and H-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hedwig Kautter, whose last known address is Germany is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under contracts of insurance evidenced by policies numbers 73359247 and 79551253 issued by the Metropolitan Life Insurance Company, New York, New York, to Hedwig Kautter, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have

the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15094]

BANCO ALEMAN TRANSATLANTICO

In re: Debts owing to Banco Aleman Transatlantico, Madrid, Spain and Banco Aleman Transatlantico, Barcelona, Spain. F-28-1098-E-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, Iona, Spain. F-28-1099-E-2.

1. That Deutsche Uberseeische Bank, A. G., also known as Banco Aleman Transatlantico and as Banco Alemao Transatlantico, the last known address of which is Fredreichstr. 103, Berlin N.W. 7, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, which has or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany and is a national of a designated enemy country (Germany);

2. That Banco Aleman Transatlantico, the last known address of which is Madrid, Spain, is a branch of Deutsche Uberseeische Bank, A. G., also known as Banco Aleman Transatlantico and as Banco Alemao Transatlantico, and is, or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Deutsche Uberseeische Bank, A. G., and is a national of a designated enemy country (Germany);

3. That Banco Aleman Transatlantico, the last known address of which is Barcelona, Spain, is a branch of Deutsche Uberseeische Bank, A. G., also known as Banco Aleman Transatlantico and as Banco Alemao Transatlantico, and is, or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Deutsche Uberseeische Bank, A. G., and is a national of a designated enemy country (Germany);

4. That the property described as follows:

a. That certain debt or other obligation owing to Banco Aleman Transatlantico, Madrid, Spain, by the Manufacturers Trust Company, 55 Broad Street, New York 15, New York, arising out of a Vostro checking account in the name of Banco Aleman Transatlantico, Madrid, Spain, maintained with the aforesaid company, and any and all rights to demand, enforce and collect the same, and

b. That certain debt or other obligation owing to Banco Aleman Transatlantico, Madrid, Spain, by the Manufacturers Trust Company, 55 Broad Street, New York 15, New York, arising out of a Nostro account in the name of Banco Aleman Transatlantico, Madrid, Spain, maintained with the aforesaid company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Banco Aleman Transatlantico, Madrid, Spain, the aforesaid national of a designated enemy country (Germany);

5. That the property described as follows: That certain debt or other obligation owing to Banco Aleman Transatlantico, Barcelona, Spain, by the Manufacturers Trust Company, 55 Broad Street, New York 15, New York, arising out of a Vostro checking account in the name of Banco Aleman Transatlantico, Barcelona, Spain, maintained with the aforesaid company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Banco Aleman Transatlantico, Barcelona, Spain, the aforesaid national of a designated enemy country (Germany)

and it is hereby determined:

6. That Banco Aleman Transatlantico, Madrid, Spain and Banco Aleman Transatlantico, Barcelona, Spain are controlled by, or acting for or on behalf of a designated enemy country (Germany) or persons within such country and are nationals of a designated enemy country (Germany);

7. That to the extent that the persons named in subparagraphs 1, 2, and 3 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

SEP 29 '50

FEDERAL REGISTER

VOLUME 15 NUMBER 187

Washington, Wednesday, September 27, 1950

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10163

THE ARMED FORCES RESERVE MEDAL

By virtue of the authority vested in me as President of the United States and as Commander in Chief of the armed forces of the United States, it is hereby ordered as follows:

1. There is hereby established the Armed Forces Reserve Medal, with accompanying appurtenances and devices, for award to members and former members of the reserve components of the armed forces of the United States as hereinafter provided.

2. The Armed Forces Reserve Medal shall be of such design as the Secretary of Defense shall approve: *Provided*, That the obverse face of the medal shall be of the same design in all cases, and the reverse face shall be distinctive in design with respect to each reserve component of the armed forces of the United States, including the Coast Guard Reserve and the Marine Corps Reserve: *And provided further*, That the reverse face of the medal to be awarded to members of the Coast Guard Reserve shall be of such design as the Secretary of the Treasury shall approve.

3. The Armed Forces Reserve Medal may be awarded to members or former members of the reserve components of the armed forces of the United States, including the Coast Guard Reserve and the Marine Corps Reserve, who complete, or have completed, a total of ten years of honorable service in one or more of such reserve components, including annual active-duty and inactive-duty training as required by appropriate regulations: *Provided*, (1) That such ten years of service is, or has been, performed within a period of twelve consecutive years, (2) that any medal awarded hereunder shall be of the design distinctive of the reserve component in which the person to whom it is awarded is serving at the time of the award or in which he last served, (3) that such service shall not include service in a regular component of the armed forces, including the Coast Guard, and (4) that such service shall not include service for which the Naval Reserve Medal or the Marine Corps Reserve Medal has been, or may be, awarded.

4. Not more than one Armed Forces Reserve Medal may be awarded to any one person, but for each succeeding ten-year period of service as above described a suitable device may be awarded, to be worn with the medal in accordance with appropriate regulations.

5. A member of a Naval or Marine Corps Reserve component who is eligible to receive a Naval Reserve or Marine Corps Reserve Medal may at his election be awarded, in lieu of such medal, the Armed Forces Reserve Medal.

6. The Armed Forces Reserve Medal shall be awarded in lieu of the Naval Reserve and the Marine Corps Reserve Medals for service performed after twenty years from the dates on which such medals were established.

7. Subject to the provisions of this order, the Armed Forces Reserve Medal shall be awarded under such regulations as the Secretaries of the military departments of the Department of Defense and the Secretary of the Treasury shall severally prescribe. Such regulations shall, so far as practicable, be of uniform application, and regulations issued pursuant to this order by the Secretaries of the military departments of the Department of Defense shall be subject to the approval of the Secretary of Defense.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter F—Determination of Normal Yields and Eligibility for Abandonment and Crop Deficiency Payments

[Sugar Determination 847.2]

PART 847—PUERTO RICO

1950–51 AND SUBSEQUENT CROPS

Pursuant to the provisions of section 303 of the Sugar Act of 1948, the following determination is hereby issued:

§ 847.2 *Normal yields and eligibility for abandonment and crop deficiency payments.*—(a) *Farm normal yields.* The normal yield of commercially recoverable sugar per acre for any sugarcane farm in Puerto Rico shall be established for the 1950–51 and each subsequent crop year as follows:

(1) For a farm on which sugarcane was grown and marketed (or processed by the producer) for the extraction of sugar in three or more crop years of the base period, as defined in paragraph (c) of this section, the normal yield shall be the simple average of the annual average yields of sugar per acre of sugarcane harvested from the farm for the extraction of sugar for all of such years in which sugarcane was harvested.

(2) For a farm on which sugarcane was grown and marketed (or processed by the producer) for the extraction of sugar in less than three crop years of the base period, the normal yield shall be the simple average of the normal yields per acre which are computed pursuant to subparagraph (1) of this paragraph for all other farms within the same local producing area.

(b) *Eligibility for abandonment and deficiency payments.* The Director of the Caribbean Area office of the Production and Marketing Administration (hereinafter referred to as "Director") or a representative as may be designated by the Director, shall approve for abandonment and/or deficiency payments any farm located in whole or in part in a local producing area in which the actual yields of sugar from 10 percent or more of the sugarcane acreage harvested on all farms or parts of other farms located in such local producing area, were not in excess of 80 percent of the applicable normal yields: *Provided*, That (1) such acreage abandonment and/or crop deficiency was directly due to drought, flood, storm, freeze, disease or insects, (2) the acreage abandoned and/or the acreage with respect to which there was a crop deficiency was suitable for the production of sugarcane and was cared for up to the time of harvest or abandonment, as the case may be, in a manner which could have been expected under average conditions to produce a normal crop of sugarcane, and (3) the other conditions for payment specified in Title III of the act with respect to the farm have been met. Such approval on the application for payment by the Director or a designated representative of the Director, shall constitute determination that such farm is eligible for abandonment and/or deficiency payments.

(c) *Definitions.* (1) "Sugar" shall mean hundredweight of sugar commercially recoverable from the sugarcane grown on the farm and marketed (or processed) for the extraction of sugar.

(2) For the 1950–51 crop year, the "base period" shall mean the crop years 1946–47 through 1949–50, and for the 1951–52 and each subsequent crop year, it shall mean the next preceding five crop years.

(3) Acreage of sugarcane "harvested" shall mean the acreage from which sugarcane was harvested for the extraction of sugar plus the acreage of sugarcane with respect to which there was bona fide abandonment as a result of drought, flood, storm, freeze, disease or insects.

(4) "Local producing area" shall mean all nearby farms or parts of farms which are similar with respect to types of soil or with respect to topography, as determined by the Director: *Provided, however*, That farms or parts of farms separated from other farms or parts of farms by any natural barrier or large area of land shall not be included within the same local producting area.

This determination supersedes, with respect to the 1950–51 and subsequent crop years, the "Determination of Normal Yields of Commercially Recoverable Sugar per Acre and Eligibility for Payment with Respect to Abandonment and Crop Deficiency for Sugarcane Farms in Puerto Rico (Revised)", issued March 17, 1948 (13 F. R. 1505–1506).

STATEMENT OF BASES AND CONSIDERATIONS

Requirements of the Sugar Act of 1948. Section 303 of the act authorizes the Secretary to make payments to producers of sugar beets or sugarcane with respect to bona fide abandonment of planted acreage and crop deficiencies of harvested acreage under certain conditons. The payments are based on normal yields of commercially recoverable sugar per acre as established for individual farms under determinations issued by the Secretary.

Historical background. Normal yields for farms in Puerto Rico have been based heretofore on the average yields of commercially recoverable sugar per acre obtained during base periods consisting of three crop years deemed to be representative of the yields to be expected under normal conditions. For the crop years 1937–38 through 1941–42, the base period consisted of the crop years 1934–35, 1935–36, and 1936–37. For the crop years 1942–43 through 1946–47, the base period included the crop years 1938–39, 1939–40 and 1940–41. Beginning with the 1947–48 crop, the base period comprised the years 1941–42, 1944–45 and 1946–47. The average yields per acre in Puerto Rico for these base periods were 63.4, 80.0, and 69.9 cwt., respectively.

Base periods. The use of fixed base periods covering selected crop years does not adequately reflect changes in yields. This is indicated by the significant variations in the average yields for the former base periods as shown above. It also tends to benefit those producers who obtained abnormally high yields in the selected base years, while the effect is the reverse with respect to those producers who obtained subnormal yields in those years. It is believed that the use of moving base periods will reflect current changes more adequately, will assure equitable treatment among all producers, and will provide a sounder basis for the computation of any acreage abandonment or crop deficiency payments which may be applied for in the future. For the 1950–51 crop year, the base period will consists of the next preceding four crop years because the 1945–46 crop was affected by conditions resulting from the war and by adverse weather. The average yield per acre obtained in Puerto Rico for this base period will approximate 70.0 hundredweight of sugar. Beginning with the 1951–52 crop year, the base period will cover the next preceding five crop years, since the data will be readily available and the longer period is deemed more appropriate for continued use. Moving base periods have been used continually for this purpose in the sugar beet area and have been adopted recently for both the Mainland sugarcane area and Hawaii.

Eligibility for abandonment and deficiency payments. The provisions regarding eligibility for these payments have been in effect for several years and have proven to be generally satisfactory. Minor changes have been made to give recognition to the location and production of parts of farms in determining eligibility for such payments. Except for these changes, the provisions are the same as those which were in effect last year. Accordingly, I hereby find and conclude that the foregoing determination will effectuate the provisions of section 303 of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup., 1153. Interprets or applies Sec. 303, 61 Stat. 930; 7 U. S. C. Sup., 1133)

Issued this 21st day of September 1950.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52563]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

REIMBURSABLE SERVICES

Section 24.17 (a), Customs Regulations of 1943 (19 CFR 24.17 (a)), is hereby amended by inserting a new subparagraph (8) reading as follows:

(8) When a customs officer or employee [58a] is assigned under authority of section 562, Tariff Act of 1930, as amended, to supervise the manipulation of merchandise at a place other than a bonded warehouse, the compensation and expenses of such officer or employee shall be reimbursed to the Government by the party in interest.

[58a] A customs officer or employee so assigned is not acting as a storekeeper, since the services have no connection with a customs bonded warehouse.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 562, 46 Stat. 745, as amended; 19 U. S. C. 1562)

This amendment shall become effective October 1, 1950.

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: September 20, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 50–8415; Filed, Sept. 26, 1950; 8:45 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter II—Economic Cooperation Administration

[ECA Reg. 1, Rev. Amdt. 5]

PART 201—PROCEDURE FOR FURNISHING ASSISTANCE TO PARTICIPATING COUNTRIES

PETROLEUM PRODUCTS

Amendment 5 to ECA Regulation 1 (F. R. Doc. 50-7387, 15 F. R. 5690) is amended to read as follows:

ECA Regulation 1 is amended in the following respect:

Section 201.22 (d) (4) is amended by adding the following:

(i) *Petroleum products.* (*a*) Purchases from any source: A price for a purchase of a petroleum product from any source will not be approved for reimbursement if it results in a delivered cost to the participating country which is in excess of the lowest prevailing delivered cost, on the date the purchase price is fixed, for a comparable export sale of the same or similar commodity to such participating country from any alternative source of supply from which the commodity is available for export in sufficient quantity.

(*b*) Purchases from sources other than the United States: A price for a purchase of a petroleum product from sources other than the United States will be approved for reimbursement if it complies with the requirements of paragraph (e) (2) of this section, and does not exceed the lowest competitive market price in the United States for a comparable export sale of the same or a similar commodity on the date the purchase price is fixed.

Provided, That a price for a purchase of a petroluem product from the Middle East may not exceed the United States price referred to above less $3.50 per long ton for loadings from Arabian ports or from Bahrein Island; $4.00 per long ton for loadings from Kuwait ports; or $4.20 per long ton for loadings from Iranian ports; *Provided further*, That the price shall be further reduced in the amounts specified below for shipments to the following destinations:

Group	Ports of destination	Additional reductions per long ton
1	Including and between Bordeaux, Hamburg, and the United Kingdom	$0.85
2	Sweden	1.15
3	Denmark	1.25
4	Norway	1.35

(*c*) For the purposes of this subdivision, a sale for export from the Middle East to any port of destination described in subdivision (*b*) of this subdivision shall not be deemed a "comparable sale" within the meaning of paragraph (b) (2) of this section to (*1*) a sale for export from the Middle East to any other port of destination in any other group described in subdivision (*b*) of this subdivision, or (2) any other destination other than the United States.

(*d*) For purposes of this subdivision "price" shall mean the realized f. o. b. price or realized netback.

Transitory provision. This amendment to ECA Regulation 1 will take effect on October 1, 1950, but will not be applicable to claims for reimbursement for payments made to a supplier pursuant to letters of credit issued, confirmed or advised, or payment instructions received, prior to September 15, 1950.

(Sec. 104, 62 Stat. 138, as amended; 22 U. S. C. Sup., 1503. Interprets or applies secs. 111, 403, 62 Stat. 143, 159; 22 U. S. C. Sup., 1509, 1542)

WILLIAM FOSTER,
Acting Administrator for Economic Cooperation.

55.61 Applicability of Federal excise taxes.
55.62 Authority under other laws.
55.63 Exceptions.

AUTHORITY: §§ 55.1 to 55.63 issued under sec. 205, Pub. Law 152, 81st Cong.; 41 U. S. C. Sup. 235. Interpret or apply sec. 203, Pub. Law 152, 81st Cong.; 41 U. S. C. Sup. 233.

§ 55.1 *Purpose and scope.* The regulations in this part prescribe the policies and methods governing the disposal, including donation, of surplus personal property located within the continental United States, Hawaii, Alaska, Puerto Rico and the Virgin Islands.

SUBPART A—DEFINITIONS

§ 55.2 *Terms defined in the act.* Terms not defined in §§ 55.3 through 55.63 which are defined in the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong.; 41 U. S. C. Sup. 201-274, referred to in this part as the "act") shall in this part have the meaning given to them in the act.

OTHER TERMS

§ 55.3 *Administration.* "Administration" means the General Services Administration acting by or through the Administrator of General Services or a designated official to whom functions under the regulations in this part have been delegated by the Administrator.

§ 55.4 *Administrator.* "Administrator" means the Administrator of General Services.

§ 55.5 *Donable property.* "Donable property" means surplus equipment, materials, books, or other supplies, under the control of any executive agency, except: (a) such property as may be specified from time to time by the Administrator, (b) property which, by other law, is precluded from donation under the regulations in this part, and (c) property which was acquired by the use of funds either not appropriated from the general fund of the Treasury or appropriated therefrom but by law reimbursable from assessment, tax, or other revenue or receipts, unless the holding agency deems it uneconomical or impracticable to dispose of the property other than by donation.

§ 55.6 *Educational institution.* "Educational institution" means any tax-supported school system, school, college, and university, any other non-profit school, college, and university which has been held exempt from taxation under section 101 (6) of the Internal Revenue Code and any State department of education or other State agency designated by State law to receive property for and distribute it to such tax-supported and non-profit school systems, schools, colleges, and universities within the State.

§ 55.7 *Excess.* "Excess" when used with respect to personal property means any such property under the control of any Federal agency which is not required for its needs and the discharge of its responsibilities, as determined by the head thereof.

§ 55.8 *Executive agency.* "Executive agency" means, notwithstanding § 51.1 of this chapter, any executive department or independent establishment in the executive branch of the Government, including any wholly owned Government corporation.

§ 55.9 *Federal agency.* "Federal agency" means any executive agency or any establishment in the legislative or judicial branch of the Government (except the Senate and the House of Representatives).

§ 55.10 *Holding agency.* "Holding agency" means the executive agency which has accountability for the property involved.

§ 55.11 *Personal property.* "Personal property" means property of any kind or any interest therein, except real property and naval vessels of the following categories: battleships, cruisers, aircraft carriers, destroyers and submarines.

§ 55.12 *Real property.* "Real property" means (a) any interest in land (except the public domain and lands reserved or dedicated for national forest or national park purposes) owned by the United States, including any wholly owned Government corporation, and any fixtures, appurtenances, and improvements of any kind located thereon; (b) any fixtures, structures and other improvements (excluding standing timber and crops) owned by the United States; and (c) any fixtures, structures and other improvements owned by the United States which are located on the public domain and lands reserved or dedicated for national forest or national park purposes or located on land that is not owned by the United States.

§ 55.13 *Reviewing authority.* "Reviewing authority" means a local, regional, or departmental board of review of a holding agency. It may consist of one or more persons.

§ 55.14 *Service educational activity.* "Service educational activity" means any educational activity designated by the Secretary of Defense as being of special interest to the Armed Services, such as maritime academies or military, naval, Air Force or Coast Guard preparatory schools.

§ 55.15 *Small business.* "Small business" means any concern whose aggregate number of employees, including its affiliates, is less than five hundred.

§ 55.16 *Surplus.* "Surplus" when used with respect to any personal property means any excess personal property not required for the needs and the discharge of the responsibilities of all Federal agencies, as determined by the Administration.

SUBPART B—BASIC POLICIES

§ 55.21 *Economy.* It is the policy of the Administrator that surplus personal property shall be disposed of in the most economical manner consistent with the best interests of the Government.

§ 55.22 *Other objectives.* It is the policy of the Administrator that surplus personal property shall be disposed of promptly and in such a manner as to:

(a) Facilitate production for national defense requirements;

(b) Encourage and foster employment opportunities;

(c) Strengthen and preserve the competitive position of small business;

(d) Foster the development of new independent enterprises;

(e) Discourage monopoly, speculation and restraint of trade;

(f) Strengthen and encourage the development and expansion of the education program.

SUBPART C—DISPOSAL BY DONATION

§ 55.31 *Scope.* This subpart implements section 203 (j) of the act, providing for the donation of certain surplus property to educational institutions and service educational activities. It does not pertain to the abandonment, destruction, or donation to public bodies, under secton 202 (h) of the act, of property which has no commercial value or of which the estimated cost of continued care and handling would exceed the estimated proceeds (covered by General Services Administration Temporary Regulation 5, 14 F. R. 5514).

§ 55.32 *Needs of Federal agencies paramount.* Any need for personal property expressed by any Federal agency (including the Senate and the House of Representatives, the District of Columbia and mixed-ownership Government corporations) shall be paramount to any educational use determination or allocation by the Federal Security Administrator or the Secretary of Defense, if such need shall be made known to the holding agency prior to shipment or delivery to donees pursuant to this subpart.

§ 55.33 *Delegation of authority.* Authority is hereby delegated to the heads of all executive agencies, with full power of redelegation, to donate and to execute transfers and deliveries of donable property in accordance with this subpart.

§ 55.34 *Service educational activities.* Donable property which has been designated and determined by the Secretary of Defense to be usable and necessary for service educational activities shall, unless otherwise directed by the Administrator, be available for allocation by the Secretary of Defense when determined surplus and may thereafter be donated to eligible applicants. Applications to be submitted by service educational activities shall be in such form as may be prescribed by the Secretary of Defense.

EDUCATIONAL INSTITUTIONS

§ 55.35 *Responsibility of Federal Security Administrator.* Both nationally and by areas, the Federal Security Administrator shall determine the over-all requirements of educational institutions for donable property on the basis of needs and utilization. Instructions for use of educational institutions in obtaining donable property, including terms and conditions, shall be as prescribed by the Federal Security Administrator.

§ 55.36 *Determination by Federal Security Administrator.* The Federal Security Administrator may determine that excess donable property is usable and necessary for educational purposes, subject to the provisions of § 55.34.

§ 55.37 *Allocation by Federal Security Agency.* The Federal Security Agency may allocate to educational institutions such donable property, approved by the Administration for donation, as to which a determination has been made pursuant to § 55.36. Applications from educational institutions shall adequately describe the donable property applied for, supply shipping instructions, provide that the applicant agrees to pay, and certify that funds are available to pay, the costs of care and handling incurred incident to donation, including packing, preparation for shipment, shipping, loading, and transporting such property. Such application shall not require shipment of unreasonably small quantities. The Federal Security Administrator shall endorse such application with a certification in the following form:

Pursuant to the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress, and regulations promulgated thereunder, the Federal Security Administrator certifies that he has determined that the property herein requested is usable and necessary for educational purposes; that it is hereby allocated to the applicant on the basis of needs and utilization; and that the applicant is eligible to receive such property in accordance with said act.

The original and two copies of the certified application (or less if mutually agreed upon) shall be transmitted to the holding agency by the Federal Security Administrator.

§ 55.38 *Donation and shipment by holding agencies.* Upon receipt of a proper certified application for donable property, the holding agency shall donate and promptly ship or deliver the property covered thereby in accordance with the shipping instructions contained in such application.

SUBPART D—DISPOSAL OTHER THAN BY DONATION

§ 55.41 *Responsibility for disposal.* Each holding agency shall, except as otherwise provided in other order of the Administrator, dispose of surplus personal property in its possession in accordance with the regulations in this part.

§ 55.42 *Disposal methods and procedures.* Except as provided in Subpart C, holding agencies shall dispose of surplus personal property in accordance with this subpart.

§ 55.43 *Competitive bid sales.* Holding agencies shall, except as otherwise provided by this subpart, sell surplus personal property by competitive bid sale after advertising. Competitive bid sales shall include sealed bid sales, spot bid sales, and auction sales.

§ 55.44 *Sealed bid sales.* In sealed bid sales, bidders shall be required to submit to the office designated for receipt and opening of bids, sealed written bids on authorized bid forms for

public opening at a time and place designated.

§ 55.45 *Spot bid sales.* In spot bid sales, bidders shall be furnished with bid forms in advance of the bidding, a bid form to be used for each lot or unit to be separately sold. Requests for bids on items offered for sale shall be made by the official in charge. In requesting bids, the official in charge shall announce the item, its identification number, and a brief description of the item or lot. The right to reject all such bids shall be reserved in the terms of sale; and lots for which all bids have been rejected may be re-offered at the same sale in order to secure an acceptable bid price. Awards shall be made or bids rejected immediately following the offering of the item or lot. The bids at spot bid sales shall not be disclosed except at the announcement of award for any item or lot. Where mailed written bids at spot bid sales are permitted, they shall be sealed and not disclosed except at the announcement of award. Bidders may be required to register in advance of the sale. Any special conditions of sale shall be issued in printed form to everyone attending the sale. Final payment on such sales must be by cash, certified check, cashier's check, bank draft, express or postal money order, payable to the Treasurer of the United States, except as provided in § 55.54. Deposits shall be in similar form or in such other form of security as may be acceptable to the contracting officer.

§ 55.46 *Auction sales.* Sales of surplus personal property by holding agencies may be made by public auction. Such sales may be made either by qualified personnel of holding agencies or public auctioneers when authorized. Terms and conditions of sale shall be announced by the person conducting the auction, immediately prior to commencement of the sale. Final payment on such sales must be by cash, certified check, cashier's check, bank draft, express or postal money order, payable to the Treasurer of the United States, except as provided in § 55.54. Deposits shall be in similar form or in such other form of security as may be acceptable to the contracting officer. Such offerings must reserve in the Government the right to accept or reject any or all bids. Lots for which all offers have been rejected may be re-offered later at the same sale to secure acceptable bids.

§ 55.47 *Lotting.* To the extent practicable, and consonant with the type of property and usual commercial practice, property offered for sale shall be assembled into reasonably sized lots of like or similar categories of items.

§ 55.48 *Inspection by bidders.* Sufficient time prior to the date for submission of bids shall be allowed to permit inspection by potential purchasers.

§ 55.49 *Negotiation.* Holding agencies may sell surplus property by negotiated sale where:

(a) The reasonable recovery value involved in any case does not exceed $500;

(b) The property is such a hazard to health or property as to require immediate disposition;

(c) The property will spoil or deteriorate so rapidly as to require immediate disposition;

(d) After adequate advertising, no acceptable bids have been received: *Provided*, That all responsible bidders who responded to the previous advertising shall be offered an opportunity to participate in the negotiations;

(e) Authorized under § 55.52;

(f) Otherwise authorized by law; or

(g) Authorized by the Administrator.

Written justification for negotiated sales in excess of $500 shall be prepared and filed with the record of disposal in each case. Agencies making sales by negotiation shall secure competition to the maximum extent feasible under the circumstances.

§ 55.50 *Reviewing authority.* Approval by a reviewing authority of each holding agency shall be required for each proposed award involving the type of sale and acquisition cost (actual or estimated) of property as follows:

(a) By negotiation--$1,000 or more;

(b) By competitive bid sale—$10,000 or more.

§ 55.51 *Property controlled by other law.* No property shall be disposed of in violation of any other applicable law.

§ 55.52 *Sales for catastrophe relief.* Surplus personal property may, with the approval of an authorized field representative of an agency designated by the President under the provisions of the Independent Offices Appropriation Act, 1950 (or other similar provisions of law) to render assistance in alleviating hardship or suffering caused by any catastrophe, be disposed of by the holding agency through negotiated sale to any State or other non-Federal public body which is in possession, without regard to the provisions of Subpart C relating to donation for educational purposes.

§ 55.53 *Sales to Government employees.* Holding agencies shall not sell surplus personal property to persons known to be officers or employees of the Federal Government, except to the extent determined by the heads of such agencies to be in the best interest of the Government, and under procedures and safeguards, prescribed by the heads of such agencies, adequate to preclude collusion and fraud.

§ 55.54 *Credit.* When approved by the head of a holding agency or his designee, any holding agency may provide for sale of surplus personal property on credit where deemed necessary or desirable in furtherance of the basic policy objectives set forth in § 55.22 or in the best interest of the Government. In such cases, the terms and conditions of sale shall specifically provide therefor.

SUBPART E—MISCELLANEOUS PROVISIONS

§ 55.61 *Applicability of Federal excise taxes.* Federal manufacturers' and retailers' excise taxes are not applicable to the sale or other disposal by the Government of surplus personal property. Federal manufacturers' excise taxes do not apply to subsequent sales, including uses, by purchasers of Government property. Federal retailers' excise taxes apply to subsequent sales but not to subsequent uses by the purchasers unless the subsequent sale is made for resale and a certificate of resale is obtained. The foregoing does not apply to gasoline, and holding agencies shall make appropriate arrangements with the Bureau of Internal Revenue with respect to the disposal thereof. Questions relating to the applicability of Federal excise taxes arising from the disposal of surplus property should be referred to the Bureau of Internal Revenue.

§ 55.62 *Authority under other laws.* In order to effectuate the provisions of Title II of the act, actions relating to donation and disposal of personal property subject to, and within the scope of authority conferred on the Administrator by the act, shall not be taken under other laws, except as authorized by section 502 (d) (1)–(17) of the act, or expressly authorized by subsequently enacted law, but shall be taken only in accordance with the regulations in this part unless the Administrator, upon written application by the holding agency, shall otherwise permit in writing.

§ 55.63 *Exceptions.* Exceptions from any portion of the regulations in this part shall be permitted only by direction of the Administrator.

Dated: September 21, 1950.

JESS LARSON,
Administrator.

[F. R. Doc. 50-8427; Filed, Sept. 26, 1950; 8:46 a. m.]

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 1, 2, 3, 4b, 6, 15]

AIRWORTHINESS REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments of airworthiness parts of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received by October 31, 1950, will be considered by the Board before taking further action on the proposed rules. Copies of such communications will be available after November 3, 1950, for perusal by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

In a policy statement dated October 6, 1949, the Civil Aeronautics Board announced a procedure for the annual review of airworthiness parts of the Civil Air Regulations. It was then indicated that after consideration of comments on, and suggestions for amendment of, the airworthiness requirements at the annual review meetings, which were to be held in the first two weeks of August 1950, that by October 1, 1950, there would be published a notice of proposed rule making indicating those specific amendments which, in the opinion of the Bureau of Safety Regulation, should be recommended for adoption by the Board.

Attached hereto are the amendments proposed under the caption, "Proposed Rules." Also attached is an "Explanatory Statement" setting forth the basis and purpose thereof.

It will be noted that due to circumstances resulting from the current military situation, it was impossible to consider at the annual review meetings any of the more complicated questions in transport category air worthiness requirements. Such matters will, therefore, be handled on an ad hoc basis outside of the scope of the annual review.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, 49 U. S. C. 551–560)

Dated: September 20, 1950, at Washington, D. C.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

Explanatory statement. The following statement sets forth the basis and purpose of the proposed amendments to the Civil Air Regulations under headings designed to facilitate reference thereto.

Proposed Part 1 includes a revision of current Parts 1 and 2 and portions of Part 43. It is an attempt to synthesize and systematize the administrative rules for obtaining necessary aircraft and product certification. It also provides for the identification of products and aircraft in accordance with current requirements. In most significant respects, the part does not attempt to change current procedures or practices, but merely to reflect them accurately.

The most important changes from current requirements in the proposal are those affecting the duration of airworthiness certificates, and the provision in the proposal that airworthiness certificates shall be of one-year duration automatically renewable when maintained under a continuous maintenance system, or reissued upon satisfactory completion of the annual inspection does not depart radically from current practice. In addition, the part contains new requirements designed to permit more adequate supervision of products manufactured by a subsidiary manufacturer.

The most extensive amendments resulting from the annual review cycle are those proposed for Part 3.

A considerable step towards simplifying type certification of small aircraft is proposed. For example, aircraft of 6,000 pounds or less maximum certificated take-off weight, will not be subject to the required service tests, and take-off, climb, landing, and trim requirements have been modified.

In addition, the current spin recovery requirements have been modified to permit demonstration of recovery with use of normal controls, and more realistic requirements for stall handling characteristics are set forth. It is further proposed, on the other hand, to provide a requirement for stall warning indication. Analysis of available safety statistics appears to establish that such modification of the regulations would contribute substantially to safety.

Amendments are also proposed to increase the crash load factor requirements for seat attachments and safety belt anchorages. The values proposed are designed to increase the chance of survival in crashes where the cabin structure remains relatively intact, and are consistent with the recently established crash load factor requirements for safety belts.

There are additional proposed amendments of a relatively minor nature, based upon experience with the requirements of the part, designed to increase safety or to facilitate administration of the part.

It should be noted that, as a result of discussions held during the annual review meetings, serious consideration is being given to limiting the applicability of Part 3 to airplanes having maximum certificated take-off weights of 12,500 pounds or less, and to establishing a separate cargo category.

Position light requirements. The requirements herein proposed for position lights are little different in substance from those currently in effect except for certain modifications of intensity requirements for transport category aircraft to bring such requirements into conformity with international standards. However, it is our understanding that United States air carrier position light systems already meet such modified requirements.

It is proposed that unnecessary material on position lights be eliminated from the applicable sections of Parts 3, 4b, 6, and 15. In addition, it is proposed that those sections be revised to provide a greater degree of clarity and uniformity.

Part 6, as adopted in 1945, was an initial attempt to establish standards for rotorcraft airworthiness. As of that date in view of the then extremely limited experience with rotorcraft, it was undesirable to specify too rigid standards which might have had the effect of restricting the development of rotorcraft. At the present time, in view of the rapid development of this category aircraft since 1945 and increased engineering and operational experience with it, it is possible to specify certain additional standards which must be met for type certification. However, we recognize the fact that rotorcraft are still in a developmental stage where the contribution to safety from a more rigid prescription of standards than proposed would probably be outweighed by the depressing effect of such prescription on new developments from manufacturers in the field and on applications for type certification from manufacturers not yet in the field.

The proposed revision of Part 6 prescribes: (a) Conservative added power-plant requirements, (b) more comprehensive performance, flight, and structural requirements, (c) more detailed design and construction requirements, (d) new equipment and operating standards, and (e) the compilation of flight and maintenance manuals to be furnished to operators of rotorcraft. It is our opinion that this revision will substantially increase safety in the rotorcraft field without unduly depressing future development.

The part also expressly provides that the airworthiness standards to be applicable to the type design shall be those standards in effect at the time of application for the type certificate, thus expressly including in the part, the industry sponsored principle of non-retroactivity for airworthiness standards. The holder of the type certificate, however, is given the option of complying with such standards, or with those in effect at the later date for subsequent amendments to the type design. Procedurally, it is provided that the part, as amended, on the date of application for the type certificate shall be considered to be incorporated in the certificate. Such a provision shall be made applicable to current Part 6, thus making possible the promulgation of the proposal contained herein as revised Part 6, rather than Part 6b.

In accordance with the program announced with the adoption of enabling amendments to the Civil Air Regulations authorizing the establishment of the T. S. O. system for approval of aircraft appliances, it is proposed to eliminate §§ 15.21 and 15.31 from Part 15 providing for the type certification of landing flares and parachutes, since it is expected that technical standard orders for such equipment will be adopted and effective by January 1, 1951.

It is also proposed to eliminate §§ 15.40, 15.50, and 15.51 providing for certification of control and structural units and particularized equipment for aircraft types since these provisions have not proven to be useful to the industry.

As previously mentioned, § 15.20 on position light systems is to be revised to provide a greater degree of clarity and uniformity and to modify certain of the intensity requirements for transport category aircraft to bring such requirements into conformity with international standards.

a. It is proposed to rescind Part 2, Type and Production Certificates, and to revise Part 1, effective January 1, 1951, to read as follows:

PART 1—CERTIFICATION, IDENTIFICATION, AND MARKING OF AIRCRAFT AND RELATED PRODUCTS

APPLICABILITY AND DEFINITIONS

1.0 Applicability of this part.
1.1 Definitions.
1.2 Type design.

TYPE CERTIFICATES

1.10 Application.
1.11 Products for which issued.
1.12 Requirements for issuance.
1.13 Location of manufacturing facilities.
1.14 Type design changes.
1.15 Transferability.
1.16 Inspection.
1.17 Duration.
1.18 Display.
1.19 Privileges.
1.20 Statement of conformity.

PRODUCTION CERTIFICATES

1.30 Application.
1.31 Product for which issued.
1.32 Requirements for issuance.
1.33 Location of manufacturing facilities.
1.34 Quality control.
1.35 Statement of conformity.
1.36 Data required; prime manufacturer.
1.37 Data required; subsidiary manufacturer.
1.38 Modification of required data.
1.39 Multiple products.
1.40 Production limitation record.
1.41 Modification of the production limitation record.
1.42 Transferability.
1.43 Duration.
1.44 Display.

AIRCRAFT AND PRODUCT IDENTIFICATION

1.50 Identification.

AIRWORTHINESS CERTIFICATES

1.60 Application.
1.61 Aircraft categories for which airworthiness certificates are issued.
1.62 Amendment or modification.
1.63 Transferability.
1.64 Duration.
1.65 Display.
1.66 Airworthiness certificates for normal, utility, acrobatic, and transport categories.
1.67 Airworthiness certificate; requirement for issuance.
1.68 Airworthiness certificates for restricted category aircraft.
1.69 Airworthiness certificates for restricted category aircraft; requirements for issuance.
1.70 Multiple airworthiness certification.
1.71 Airworthiness certificate for limited category aircraft.
1.72 Airworthiness certificate for limited category aircraft; requirements for reissuance.
1.73 Experimental certificates.
1.74 Experimental certificates; requirements for issuance.
1.75 Special flight permits.
1.76 Special flight permits; requirements for issuance.

AIRCRAFT NATIONALITY AND REGISTRATION MARKS

1.80 General.
1.81 Display of identification marks.
1.82 Location of identification marks.
1.83 Measurements of identification marks.
1.84 Color.
1.85 Affixation.
1.86 Design.
1.87 Maintenance.
1.88 Identification marks for nonconventional aircraft.
1.89 Identification marks for export aircraft.

APPLICABILITY AND DEFINITIONS

§ 1.0 *Applicability of this part.* This part establishes administrative requirements for the issuance of type, production, and airworthiness certificates and for the identification and marking of aircraft and related products.

§ 1.1 *Definitions.* (a) As used in this part, terms shall be defined as follows:

(1) *Administrator.* The Administrator means the Administrator of Civil Aeronautics.

(2) *Aircraft.* An aircraft means any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air.[1]

(3) *Aircraft engine.* An aircraft engine means an engine used, or intended to be used, for propulsion of aircraft and includes all parts, appurtenances, and accessories thereof other than propellers.[1]

(4) *Appliances.* Appliances means instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of aircraft in flight (including parachutes and including communication equipment and any other mechanism or mechanisms installed in or attached to aircraft during flight), and which are not a part or parts of aircraft, aircraft engines, or propellers.[1]

(5) *Authorized representative of the Administrator.* An authorized representative of the Administrator means any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties delegated to the Administrator by the provisions of this part.

(6) *Person.* Person means any individual, firm, copartnership, corporation, company, association, joint-stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative thereof.[1]

(7) *Prime manufacturer.* A prime manufacturer means the person who initiated the design and construction of the product and who applied for the type certificate, or any person to whom a current right to reproduce the product has been transferred.

(8) *Product.* The term product, as used in this part means:

(i) An aircraft,

(ii) An aircraft engine,

(iii) A propeller, or

(iv) Any appliance specified in the Civil Air Regulations as eligible for a type certificate.

(9) *Propeller.* A propeller includes all parts, appurtenances, and accessories thereof.[1]

(10) *Subsidiary manufacturer.* A subsidiary manufacturer means the person who contracted with the prime manufacturer to produce and to supply to the prime manufacturer major assemblies and components which are manufactured in conformity with the prime manufacturer's approved drawings and data for the fabrication of the product.

(11) *United States.* United States means the several States, the District of Columbia, and the several Territories and possessions of the United States, including the Territorial waters and the overlying air space thereof.[1]

[1] As defined in section 1 of the Civil Aeronautics Act of 1938, as amended.

§ 1.2 *Type design.* The type design shall consist of such test reports and computations as are necessary to demonstrate that the product complies with the pertinent airworthiness requirements, such drawings and specifications as are necessary to disclose the configuration of the product and all design features covered in the pertinent airworthiness requirements, sufficient information on materials and processes to define the strength of the structure, and sufficient other data to permit the airworthiness of subsequent products of the same type to be determined by comparison with the type design.

TYPE CERTIFICATES

§ 1.10 *Application.* Any person, whether or not a citizen of the United States, may apply for the issuance of a type certificate. The application for a type certificate for a specified product shall be made upon a form prescribed and furnished by the Administrator.

§ 1.11 *Products for which issued.* A type certificate may be issued for an aircraft, aircraft engine, propeller, or any appliance for which certification is provided elsewhere in the Civil Air Regulations.

§ 1.12 *Requirements for issuance.* A type certificate for a product shall be issued when:

(a) The applicant has submitted such descriptive data, test reports, and other information required by the pertinent airworthiness regulations for the type design, and

(b) Upon examination of the type design and the completion of all tests and inspections, the Administrator finds that the type design meets the requirements of the applicable Civil Air Regulations.

§ 1.13 *Location of manufacturing facilities.* No type certificate for a product shall be issued if the manufacturing facilities therefor are located outside the United States, unless where facilities are located outside the United States the Administrator finds that no undue burden on the Government is created in administering applicable requirements of the act or regulations issued thereunder.

§ 1.14 *Type design changes.* Changes in the type design shall be made in accordance with the rules established in the part of the Civil Air Regulations under which the type certificate was issued.

§ 1.15 *Transferability.* A type certificate may be transferred or made available to third persons by licensing agreements: *Provided*, That the grantor shall immediately notify the Administrator in writing of any transfer, licensing agreement, or termination thereof: *And provided further*, That the provisions of § 1.13 are complied with.

§ 1.16 *Inspection.* A representative of the Administrator shall be permitted to make such inspections as may be necessary to determine initial and continued compliance with the requirements of this part.

§ 1.17 *Duration.* A type certificate shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Board.

§ 1.18 *Display.* Type certificates shall be made available for examination by an authorized representative of the Board or of the Administrator.

§ 1.19 *Privileges.* The holder of a type certificate or license may produce duplicates of any product for which a type certificate has been issued.

§ 1.20 *Statement of conformity.* The holder of a type certificate only or of a current right to the benefits of a type certificate only under a licensing arrangement, upon the initial transfer by him of the ownership of any product manufactured under such type certificate or upon application for original issuance of an airworthiness certificate for an aircraft, shall furnish to an authorized representative of the Administrator a statement of conformity for such product on a form prescribed by the Administrator. For aircraft manufactured under a type certificate only, there shall be included a statement that the aircraft referred to has been flight checked. When a production certificate is held in addition to the type certificate, the provisions of § 1.35 shall apply. The Administrator may consider military acceptance in lieu of a statement of conformity for a product which has been manufactured for the military service.

PRODUCTION CERTIFICATES

§ 1.30 *Application.* Any person, whether or not a citizen of the United States, may apply for the issuance of a production certificate. The application for a production certificate shall be made upon a form prescribed and furnished by the Administrator.

§ 1.31 *Product for which issued.* A production certificate shall be issued only for products for which a type certificate is currently in effect. The applicant shall hold a currently effective type certificate for the product to be manufactured or shall hold a current right to the benefits of such certificate under a licensing agreement.

§ 1.32 *Requirements for issuance.* A person shall be issued a production certificate when the Administrator finds, after examination of the supporting data and after inspection of the organization and production facilities, that the applicant complies with the requirements of §§ 1.33 through 1.37.

§ 1.33 *Location of manufacturing facilities.* No production certificate for a product shall be issued if the manufacturing facilities therefor are located outside the United States, unless where facilities are located outside the United States the Administrator finds that no undue burden on the Government is created in administering applicable requirements of the act or regulations issued thereunder.

§ 1.34 *Quality control.* The applicant shall show that he is adequately prepared to manufacture and control the quality of any product for which he requests production certification, so that each article shall conform with the design provisions of the pertinent type certificate.

§ 1.35 *Statement of conformity.* It shall not be necessary for the holder of a production certificate to furnish a separate statement of conformity for each of the products produced.

§ 1.36 *Data required; prime manufacturer.* The applicant shall submit the following data:

(a) A description of the manufacturing layout and production flow,

(b) A listing and description of any special processes required by the product or products to be manufactured,

(c) A description of the established quality-control organization, its functions and responsibilities, including an organizational chart showing the lines of authority for quality control and inspection responsibility,

(d) If the application is for the manufacture of an aircraft, a description of the flight test procedures established by the manufacturer for the testing of production aircraft and a copy of the flight test check list to be used, and for other products a description of such tests established by the manufacturer as may be appropriate for the product, and

(e) A list, by name and address, of any subsidiary manufacturers. (See § 1.37.)

§ 1.37 *Data required; subsidiary manufacturer.* Where found necessary by the Administrator, a subsidiary manufacturer shall submit the data prescribed by paragraphs (a), (b), and (c) of § 1.36.

§ 1.38 *Modification of required data.* The holder of a production certificate shall immediately notify the Administrator in writing of any changes affecting the data required by § 1.36 which may alter the conformity or quality control of the product being manufactured.

§ 1.39 *Multiple products.* The Administrator may authorize more than one type certificated product to be manufactured under the terms of one production certificate provided that the products have similar production characteristics.

§ 1.40 *Production limitation record.* A production limitation record shall be issued as part of a production certificate. The record shall list the type certificate of every product which the applicant is authorized to manufacture under the terms of a production certificate. Where different models of a basic type approved under the same type certificate number require different fabrication methods and processes, the Administrator may list the model designation of the product for which authorization is given, as well as the type certificate number, on the production limitation record.

§ 1.41 *Modification of the production limitation record.* The holder of a production certificate desiring the addition of a type certificate and/or model to the production certificate shall submit an application therefor on a form and in a manner prescribed by the Administrator. The applicant shall comply with the applicable requirements of §§ 1.32 through 1.36 and § 1.38.

§ 1.42 *Transferability.* A production certificate shall not be transferred.

§ 1.43 *Duration.* A production certificate shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Board, or the location of the manufacturing facility is changed.

§ 1.44 *Display.* A production certificate shall be prominently displayed in the main office of the factory.

AIRCRAFT AND PRODUCT IDENTIFICATION

§ 1.50 *Identification.* (a) Each product manufactured under the terms of a type or production certificate shall display permanently such data as may be required to show its identity. The data shall include such of the following items as the Administrator finds appropriate:

(1) Manufacturer's name,

(2) Model designation,

(3) Manufacturer's serial number (if article is numbered serially), otherwise the date of manufacture, except that articles subject to deterioration as a result of aging (parachutes, parachute flares, etc.) shall bear the date of manufacture in addition to the serial number, if any,

(4) Type certificate number,

(5) Production certificate number,

(6) Capacity or rating.

AIRWORTHINESS CERTIFICATES

§ 1.60 *Application.* Any U. S. Citizen may apply for issuance of an airworthiness certificate for an aircraft provided he is the registered owner of the aircraft or his agent. The application for an airworthiness certificate shall be made upon a form prescribed and furnished by the Administrator.

§ 1.61 *Aircraft categories for which airworthiness certificates are issued.* Airworthiness certificates are issued for aircraft whose type design has been certificated under the normal, utility, acrobatic, or transport categories, for aircraft of the restricted category, and for surplus military aircraft in the limited category. In addition, experimental certificates and special flight permits are issued.

§ 1.62 *Amendment or modification.* An airworthiness certificate may be amended or modified only upon application to the Administrator.

§ 1.63 *Transferability.* An airworthiness certificate shall be transferred with the aircraft.

§ 1.64 *Duration.* The duration of an airworthiness certificate shall be in accordance with the provisions of paragraphs (a) and (b) of this section:

(a) An airworthiness certificate shall remain in effect for one year from the date of issuance unless it is surrendered, suspended, revoked, or a termination date is otherwise established by the Board; or, in the case of an experimental airworthiness certificate, a lesser period is established by the Administrator.

(b) A currently valid airworthiness certificate may be automatically renewed when the aircraft is maintained under a continuous maintenance system approved by the Administrator, or reissued upon completion of the annual inspection elsewhere required in the Civil Air Regulations.

§ 1.65 *Display.* An airworthiness certificate shall be carried in the aircraft at all times, and shall be displayed as prescribed by the Administrator.

§ 1.66 *Airworthiness certificates for normal, utility, acrobatic, and transport categories.* Aircraft certificated in the normal, utility, acrobatic, and transport categories may be used for the carriage of persons and property for compensation or hire.

§ 1.67 *Airworthiness certificate; requirement for issuance.* The requirements for the issuance of an airworthiness certificate are stated in paragraphs (a) and (b) of this section:

(a) *Aircraft manufactured under a production certificate.* An applicant for the original issuance of an airworthiness certificate for an aircraft, whose type design was certificated in categories other than the limited category, manufactured under the terms of a production certificate may be issued such certificate without further showing. The Administrator may inspect the aircraft to see if it conforms to the type design.

(b) *Aircraft manufactured under type certificate only.* An applicant for the original issuance of an airworthiness certificate for an aircraft, whose type design was certificated in categories other than the limited category, manufactured under the terms of a type certificate only shall be issued such certificate upon presentation of a statement of conformity for such aircraft issued by the manufacturer when, upon inspection of the aircraft, the Administrator finds that the aircraft conforms to the type design, and is in a condition for safe operation.

§ 1.68 *Airworthiness certificates for restricted category aircraft.* Aircraft certificated in the restricted category may not be used for the carriage of persons for compensation or hire. For purposes of this section, crop dusting, seeding, and other similar specialized operations are not considered as the carriage of persons or cargo for compensation or hire. Other special limitations for such aircraft are prescribed under the provisions of Part 8 of this chapter.

§ 1.69 *Airworthiness certificates for restricted category aircraft; requirements for issuance.* The requirements for issuance of an airworthiness certificate for an aircraft in the restricted category are as stated in paragraphs (a) and (b) of this section:

(a) *Aircraft manufactured under a production certificate or type certificate only.* An applicant for the original issuance of an airworthiness certificate for an aircraft in the restricted category, type certificated under the provisions of § 8.10 (a) (1) of this chapter, shall comply with the appropriate provisions of § 1.67.

(b) *Other aircraft.* An applicant for the issuance of an airworthiness certificate for aircraft of the restricted category other than those referred to in paragraph (a), such as surplus military aircraft and modified civil aircraft, may be issued such certificate when he demonstrates compliance wth the following provisions:

(1) The aircraft has been type certificated under the provisions of § 8.10 (a) (2) of this chaper, or modified under the provisions of § 8.10 (b) of this chapter of the Civil Air Regulations;

(2) The aircraft has been inspected by the Administrator and found by him to be in a good state of preservation and repair and in condition for safe operation; and

(3) The Administrator has prescribed operating limitations in accordance with Part 8 of this chapter.

§ 1.70 *Multiple airworthiness certification.* Multiple airworthiness certification shall conform to the provisions of paragraphs (a) and (b) of this section.

(a) An aircraft shall be issued an airworthiness certificate in the restricted category and in any one or more of the other airworthiness categories prescribed by the Civil Air Regulations, if the applicant shows compliance with the requirements for each category when the aircraft is in the configuration for that category and if the aircraft can be converted from one category to another by removal or addition of equipment by simple mechanical means.

(b) Any aircraft certificated in the restricted and any other category shall be inspected and approved by an authorized representative of the Administrator, or by a certificated mechanic with an appropriate airframe rating, to determine airworthiness each time the aircraft is converted from the restricted category to another category for the carriage of passengers for compensation or hire, unless the Administrator finds this unnecessary for safety in a particular case.

§ 1.71 *Airworthiness certificate for limited category aircraft.* Airworthiness certificates were issued for surplus military aircraft of the limited category prior to August 31, 1948, under the provisions of Part 9 of this chapter. Aircraft in the limited category may not be used for the carriage of persons or property for compensation or hire.

§ 1.72 *Airworthiness certificate for limited category aircraft; requirements for reissuance.* An applicant for an airworthiness certificate for an aircraft in the limited category shall show that the aircraft has been previously issued a *limited category aircraft; requirements* had been surrendered or has expired, and that the aircraft complies fully with the requirements of Part 9 of this chapter of the Civil Air Regulations.

§ 1.73 *Experimental certificates.* Experimental certificates are issued for amateur-built aircraft and for aircraft which are to be used for experiment, for exhibition, for air racing, and to show compliance with Civil Air Regulations for the issuance of type certificates and related purposes.

§ 1.74 *Experimental certificates; requirements for issuance.* The requirements for the issuance of experimental certificates are as stated in paragraphs (a) and (b) of this section:

(a) In applying for an experimental certificate the applicant shall submit:

(1) A statement in a form and manner prescribed by the Administrator setting forth the purpose for which the aircraft is to be used,

(2) Sufficient data, such as photographs, to identify the aircraft, and,

(3) Upon inspection of the aircraft, any pertinent information found necessary by the Administrator to safeguard the general public.

(b) Appropriate operating restrictions for the use of such aircraft shall be prescribed by the Administrator.

(1) Experimental aircraft shall not be used for the carriage of persons or property for compensation or hire.

§ 1.75 *Special flight permits.* A special flight permit may be issued for an aircraft which may not currently meet applicable airworthiness requirements, but which is capable of safe flight, for the purpose of permitting the aircraft to be flown to a base where repairs or alterations are to be made or to permit the delivery or export of the aircraft.

§ 1.76 *Special flight permits; requirements for issuance.* The requirements for the issuance of special flight permits are as stated in paragraphs (a) and (b) of this section:

(a) Where found necessary by the Administrator, an applicant for a special flight permit shall submit a statement in a form approved by the Administrator indicating the purpose of the flight, the proposed itinerary, the duration of authorization requested, the persons to be on board the aircraft, the particulars, if any, in which the aircraft does not comply fully with the applicable airworthiness requirements, and the restrictions, if any, deemed necessary for safe operation of the aircraft.

(b) The Administrator shall accomplish, or shall require the applicant to accomplish, such appropriate inspections or tests as the Administrator may deem necessary in the interest of safety.

(c) Nothing in the foregoing paragraphs shall prevent the issuance to an air carrier by the Administrator of a general authorization to conduct ferry flights for specified purposes as above provided, under such terms and conditions as may from time to time be prescribed by the Administrator.

AIRCRAFT NATIONALITY AND REGISTRATION MARKS

§ 1.80 *General.* The identification of each aircraft shall be marked, and the markings shall be displayed as required in §§ 1.81 through 1.87. No design, mark, or symbol which modifies or confuses the identification marks shall be placed on an aircraft, except with the approval of the Administrator.

§ 1.81 *Display of identification marks.* Identification marks shall be displayed

in accordance with the following provisions:

(a) Aircraft registered for the first time after December 31, 1948, shall display identification marks consisting of the Roman capital letter "N," denoting United States registration, followed by the registration number. Other aircraft which display identification marks containing an airworthiness symbol "C," "R," "X," or "L" and which are operated solely within the continental limits of the United States may display such identification marks until the first time such aircraft are recovered or refinished to an extent necessitating the reapplication of the identification mark. Thereafter, such aircraft, and after December 31, 1950, all aircraft of United States registry operated outside of the continental limits of the United States, shall display identification marks consisting of the Roman capital letter "N," denoting United States registration, followed by the registration number.

(b) When an identification mark including only the Roman capital letter "N" and the registration number is utilized, limited and restricted category aircraft and experimental aircraft shall display the words "limited," "restricted," or "experimental," respectively, near each entrance to the cabin or cockpit of the aircraft. These markings shall be in letters not less than 2 inches nor more than 6 inches in height.

§ 1.82 *Location of identification marks.* Identification marks shall be located in accordance with paragraphs (a) through (e) of this section.

(a) *Fixed-wing aircraft.* The following shall be applicable to fixed-wing aircraft:

(1) *Wing surfaces.* Identification marks shall be displayed on the right half of the upper surface and the left half of the lower surface of the wing structure. As far as possible, the marks shall be located an equal distance from the leading and trailing edges of the wing. The top of the marks shall be toward the leading edge of the wing.

(2) *Vertical tail surfaces.* Identification marks shall be displayed on the upper half of the vertical tail surface. They shall be displayed on both sides of a single tail surface and on the outer sides of multitail surfaces. They may be placed either horizontally or vertically.

(3) *Fuselage surfaces.* Identification marks shall be displayed on the fuselage when the aircraft, as a result of design, does not have a vertical tail surface. The marks shall be located on each side of the top half of the fuselage, just forward of the leading edge of the horizontal tail surface. They may be placed either horizontally or vertically.

(b) *Rotorcraft.* The following requirements shall be applicable to rotorcraft:

(1) *Bottom fuselage surfaces.* Identification marks shall be displayed on the bottom surface of the fuselage or cabin. The top of the marks shall be toward the left side of the fuselage.

(2) *Side fuselage surfaces.* Identification marks shall be displayed below the window lines and as near the cockpit as possible.

(c) *Airships.* The following requirements shall be applicable to airships:

(1) *Horizontal stabilizer surfaces.* Identification marks shall be displayed on the upper surface of the right horizontal stabilizer and on the under surface of the left horizontal stabilizer. The top of the marks shall be toward the leading edge of the stabilizer. The marks shall be placed horizontally.

(2) *Vertical stabilizer surfaces.* Identification marks shall be displayed on each side of the bottom half of the vertical stabilizer. The marks shall be placed horizontally.

(d) *Spherical balloons.* Identification marks for spherical balloons shall be displayed on two places diametrically opposite, and shall be located near the maximum horizontal circumference of the balloon.

(e) *Nonspherical balloons.* Identification marks for nonspherical balloons shall be displayed on each side. They shall be located near the maximum cross section of the balloon, immediately above either the rigging band or the points of attachment of the basket or cabin suspension cables.

§ 1.83 *Measurements of identification marks.* The measurements of identification marks shall conform to the provisions of paragraphs (a) through (d) of this section:

(a) *Fixed-wing aircraft.* The following requirements shall be applicable to fixed-wing aircraft:

(1) *Wing surfaces.* The height of the identification marks on the wings shall be at least 20 inches.

(2) *Fuselage and vertical tail surfaces.* Identification marks shall be such as to leave at least a margin of 2 inches along each edge of the surface. Within these stipulations, the marks shall be as large as practicable, except that this rule shall not be interpreted as requiring the use of marks exceeding 6 inches in height or permitting the use of marks smaller than 2 inches in height. The letters and numbers of each separate group of identification marks shall be of equal height.

(b) *Rotorcraft.* The following requirements shall be applicable to rotorcraft:

(1) *Fuselage or cabin bottom surfaces.* Identification marks shall be at least ⅓ as high as the fuselage is wide, but need not be more than 20 inches high.

(2) *Fuselage or cabin side surfaces.* Identification marks shall conform to requirements stipulated in paragraph (a) (2) of this section.

(c) *Lighter-than-air aircraft.* The following requirements shall be applicable to lighter-than-air aircraft.

(1) *Height of identification marks.* On each airship, spherical balloon, or nonspherical balloon identification marks shall be at least 20 inches high.

(d) *All aircraft.* The following requirements shall be applicable to all aircraft:

(1) *Width.* Identification marks shall be ⅔ as wide as they are high with the exception of number "1" which shall be ⅙ as wide as it is high.

(2) *Thickness.* Identification marks shall be formed by solid lines of a thickness equal to ⅙ of the character height.

(3) *Spacing.* The space between the identification numbers and letters shall be not less than ¼ of the character width.

§ 1.84 *Color.* On each aircraft, identification marks shall contrast in color with the background.

§ 1.85 *Affixation.* On each aircraft, identification marks shall be painted or shall be affixed by any other means insuring a similar degree of permanence and legibility, except that aircraft intended for immediate delivery to a foreign purchaser may display identification marks of a readily removable material.

§ 1.86 *Design.* On each aircraft, identification marks shall have no ornamentation.

§ 1.87 *Maintenance.* On each aircraft, identification marks shall be kept clean and legible at all times.

§ 1.88 *Identification marks for nonconventional aircraft.* The identification marking rules prescribed in §§ 1.81 through 1.87 are intended to apply to conventional aircraft as they are known today. When aircraft are developed which do not conform to the general configuration of present-day aircraft, a procedure for identification marking will be prescribed by the Administrator.

§ 1.89 *Identification marks for export aircraft.* An aircraft manufactured in the United States for delivery outside the United States or its possessions may display such identification marks as are required by the State of registry of the aircraft. Such aircraft shall be operated only for the purpose of test and demonstration flights for a limited period of time or while in necessary transit to the purchaser.

b. It is proposed to amend Part 3, effective January 1, 1951, as follows:

1. By amending the title thereof to read as follows:

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC CATEGORIES

2. By amending § 3.19 to read as follows:

§ 3.19 *Flight tests.* (a) After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspection and testing on the ground, and proof of conformity of the airplane with the type design, and upon receipt from the applicant of a report of flight tests conducted by him, there shall be conducted such official flight tests as the Administrator finds necessary to determine compliance with §§ 3.61 through 3.780.

(b) After the conclusion of the flight tests prescribed in paragraph (a) of this section such additional flight tests shall be conducted, on airplanes having a maximum certificated take-off weight of more than 6,000 pounds, as the Administrator finds necessary to ascertain whether there is reasonable assurance that the airplane, its components, and equipment are reliable and function

properly. The extent of such additional flight tests shall depend upon the complexity of the airplane, the number and nature of new design features, and the record of previous tests and experience for the particular airplane model, its components, and equipment. If practicable, the flight tests performed for the purpose of ascertaining the reliability and proper functioning shall be conducted on the same airplane which was used in flight tests to show compliance with §§ 3.61 through 3.780.

3. By adding a new § 3.80 to read as follows:

§ 3.80 *Alternate performance requirements.* As set forth in the following sections the provisions of §§ 3.84, 3.85, 3.86, and 3.112 (a) (2) (ii) shall not be applicable to airplanes having a maximum certificated take-off weight of 6,000 lbs. or less. In lieu thereof, such airplanes shall comply with the provisions of §§ 3.84a, 3.85a, 3.87, and 3.112 (c).

4. By adding a new § 3.84a to read as follows:

§ 3.84a *Take-off requirements; aircraft of 6,000 lbs. or less.* Airplanes having a maximum certificated take-off weight, of 6,000 lbs. or less shall comply with the provisions of this section.

(a) *Tail wheel type.* The elevator control at 0.8 V_{s_1} shall be sufficient to maintain an airplane attitude which will permit holding the airplane on the runway until a safe take-off speed is attained.

(b) *Nose wheel type.* The elevator control shall be sufficient to raise the nose wheel clear of the take-off surface at a speed equal to 0.85 V_{s_1}.

(c) *Runway characteristics.* The characteristics prescribed in paragraphs (a) and (b) of this section shall be demonstrated with:

(1) Take-off power,
(2) Most unfavorable weight,
(3) Most unfavorable c. g. position.

(d) *Demonstration of safety.* It shall be demonstrated that the airplane will take off safely without requiring an exceptional degree of piloting skill.

5. By adding a new § 3.85a to read as follows:

§ 3.85a *Climb requirements; aircraft of 6,000 lbs. or less.* Airplanes having a maximum certificated take-off weight of 6,000 lbs. or less shall comply with the requirements of this section.

(a) *Climb; normal climb condition.* The steady rate of climb at sea level shall not be less than 10 V_{s_1} or 300 feet per minute, whichever is the greater, with:

(1) Take-off power,
(2) Landing gear extended,
(3) Wing flaps in take-off position,
(4) Cowl flaps in the position used in cooling tests specified in §§ 3.581 through 3.596.

(b) *Climb; balked landing conditions.* The steady rate of climb at sea level shall not be less than 5 V_{s_0} or 200 feet per minute, whichever is the greater, with:

(1) Take-off power,
(2) Landing gear extended,
(3) Wing flaps in the landing position.

If rapid retraction is possible with safety, without loss of altitude and without requiring sudden changes of angle of attack or exceptional skill on the part of the pilot, wing flaps may be retracted.

6. By adding a new § 3.87 to read as follows:

§ 3.87 *Landing requirements; aircraft of 6,000 pounds or less.* For an airplane having a maximum certificated take-off weight of 6,000 pounds or less it shall be demonstrated that the airplane can be safely landed and brought to a stop without requiring an exceptional degree of piloting skill, and without excessive vertical acceleration, tendency to bounce, nose over, ground loop, porpoise, or water loop.

7. By adding a new § 3.112 (c) to read as follows:

§ 3.112 *Requirements.* • • •

(c) For aircraft having a maximum certificated take-off weight of 6,000 lbs. or less, the value specified in paragraph (a) (2) (ii) of this section shall be 1.5 V_{s_1}.

8. By amending § 3.120 to read as follows:

§ 3.120 *Stalling demonstration.* (a) Stalls shall be demonstrated under two conditions:

(1) With power off, and

(2) With the power setting not less than that required to show compliance with the provisions of paragraph (a) of § 3.85 or with those of § 3.85a, whichever is appropriate.

(b) In either condition required by paragraph (a) of this section it shall be possible, with flaps and landing gear in any position, with center of gravity in the position least favorable for recovery, and with appropriate airplane weights, to show compliance with the applicable requirements of paragraphs (c) through (f) of this section.

(c) For airplanes having independently controlled rolling and directional controls, it shall be possible to produce and to correct roll by unreversed use of the rolling control and to produce and correct yaw by unreversed use of the directional control up until the time the airplane pitches in the maneuver prescribed in paragraph (g) of this section.

(d) For two-control airplanes having either interconnected lateral and directional controls or for airplanes having only one of these controls, it shall be possible to produce and to correct roll by unreversed use of the rolling control without producing excessive yaw up until the time the airplane pitches in the maneuver prescribed in paragraph (g) of this section.

(e) During the recovery portion of the stall maneuver the pitch shall not exceed a value of 30° below level, and the airplane shall not develop any uncontrollable rolling or yawing characteristics before the recovery is achieved. The altitude lost in the stall maneuver shall be entered in the airplane flight manual.

(f) A clear and distinctive stall warning shall precede the stalling of the airplane, with the flaps and landing gear in any position, both in straight and turning flight. The stall warning shall occur at a speed exceeding that of stalling by not less than 5 but not more than 10 miles per hour.

(g) In demonstrating the qualities required by paragraphs (c) through (f) of this section, the procedure set forth in subparagraphs (1) and (2) of this paragraph shall be followed:

(1) With trim controls adjusted for straight flight at a speed of approximately 1.4 V_{s_1}, reduce speed by means of the elevator control until the speed is steady at slightly above stalling speed; then

(2) Pull elevator control back at a rate such that the airplane speed reduction does not exceed 1 mile per hour per second until a stall is produced as evidenced by an uncontrollable downward pitching motion of the airplane, or until the control reaches the stop. Normal use of the elevator control for recovery shall be allowed after such pitching motion has unmistakably developed.

9. By amending § 3.124 (a) to read as follows:

§ 3.124 *Spinning*—(a) *Category N.* All airplanes of 4,000 pounds or less maximum gross weight shall recover from a one-turn spin with the controls applied normally for recovery in not more than ½ additional turn and without exceeding either the limiting air speed or the limit positive maneuvering load factor for the airplane. In addition, there shall be no excessive back pressure either during the spin or in the recovery. It shall not be possible to obtain uncontrollable spins by means of any possible use of the controls. Compliance with the above shall be demonstrated at any permissible combination of weight and center of gravity positions obtainable with all or any part of the designed useful load. All airplanes in category N, regardless of weight, shall be placarded against spins or demonstrated to be "characteristically incapable of spinning" in which case they shall be so designated. (See paragraph (d) of this section.)

10. By rescinding paragraph (a) of § 3.318.

11. By rescinding §§ 3.319, *"External bracing,"* and 3.320, *"Covering."*

12. By adding a new sentence at the end of paragraph (a) of § 3.390 to read as follows:

§ 3.390 *Seats and berths*—(a) *Passenger seats and berths.* • • • The accelerations prescribed in § 3.386 shall be multiplied by a factor of 1.33 for determining the strength of the seat and berth attachments to the structure.

13. By adding a new sentence at the end of § 3.391 to read as follows:

§ 3.391 *Safety belt or harness provisions.* • • • The accelerations prescribed in § 3.386 shall be multiplied by a factor of 1.33 for determining the strength of the belt anchorages to the seat or to the structure.

14. By amending the first sentence of § 3.417 to read as follows:

§ 3.417 *Propeller vibrations.* In the case of propellers with metal blades or other highly stressed metal components, the magnitude of the critical vibration stresses under all normal conditions of operation shall be determined by actual measurements or by comparison with similar installations for which such measurements have been made.

15. By amending § 3.431 to read as follows:

§ 3.431 *Multiengine fuel system arrangement.* The fuel systems of multiengine airplanes which must comply with the provisions of § 3.85 (b) shall be arranged to permit operation in at least one configuration in such a manner that the failure of any one component will not result in the loss of power of more than one engine and will not require immediate action by the pilot to prevent the loss of power of more than one engine. Unless other provisions are made in order to comply with this requirement, the fuel system shall be arranged to permit supplying fuel to each engine through a system entirely independent of any portion of the system supplying fuel to the other engines. Other multiengine airplanes shall also comply with the requirement except that separate fuel tanks need not be provided for each engine.

16. By amending § 3.434 to read as follows:

§ 3.434 *Fuel flow rate for gravity systems.* The fuel flow rate for gravity systems (main and reserve supply) shall be 150 percent of the actual take-off fuel consumption of the engine.

17. By amending § 3.438 to read as follows:

§ 3.438 *Fuel system hot weather operation.* Airplanes with suction lift fuel systems or other fuel system features conducive to vapor formation shall be demonstrated to be free from vapor lock when using fuel at a temperature of 110° F. under critical operating conditions.

18. By amending § 3.442 (a) to read as follows:

§ 3.442 *Fuel tank installation.* (a) The method of supporting tanks shall not be such as to concentrate the loads resulting from the weight of the fuel in the tanks. Pads shall be provided to prevent chafing between the tank and its supports. Materials employed for padding shall be nonabsorbent or shall be treated to prevent the absorption of fuels. If flexible tank liners are employed, they shall be of an approved type, and they shall be so supported that the liner is not required to withstand fluid loads. Interior surfaces of compartments for such liners shall be smooth and free of projections which are apt to cause wear of the liner, unless provisions are made for the protection of the liner at such points or unless the construction of the liner itself provides such protection. A positive pressure shall be maintained within the vapor space of all bladder cells under all conditions of operation including the most critical condition of low air speed and rate of descent likely to be encountered in normal operation.

19. By amending paragraphs (a) and (b) of § 3.444 to read as follows:

§ 3.444 *Fuel tank sump.* (a) Each tank shall be provided with a drainable sump having a capacity of not less than 0.25 percent of the tank capacity or 1/16 gallon, whichever is the greater. The sump may be dispensed with if the fuel system is provided with a sediment bowl permitting ready ground inspection. The sediment bowl shall also be readily accessible for drainage. The capacity of the sediment chamber shall not be less than 1 ounce per each 20 gallons of the fuel tank capacity.

(b) If a fuel tank sump is provided, the capacity specified in paragraph (a) of this section shall be effective with the airplane in the normal ground attitude and the normal level flight attitude.

20. By amending § 3.449 (b) to read as follows:

§ 3.449 *Fuel pump and pump installation.* • • •

(b) Emergency fuel pumps shall be provided to permit supplying all engines with fuel in case of the failure of any one engine-driven pump, except that if an engine fuel injection pump which has been certificated as an integral part of the engine is used, an emergency pump is not required. Emergency pumps shall be available for immediate use in case of the failure of any other pump. If both the normal pump and emergency pump operate continuously, means shall be provided to indicate to the crew when either pump is malfunctioning.

21. By amending § 3.553 to read as follows:

§ 3.553 *Fuel system drains.* Drains shall be provided to permit safe drainage of the entire fuel system and shall incorporate means for locking in the closed position. The provisions for drainage shall be effective in the normal ground attitude.

22. By amending § 3.561 to read as follows:

§ 3.561 *Oil system.* Each engine shall be provided with an independent oil system capable of supplying the engine with an ample quantity of oil at a temperature not exceeding the maximum which has been established as safe for continuous operation. The usable oil tank capacity shall not be less than the product of the endurance of the airplane under critical operating conditions and the maximum oil consumption of the engine under the same conditions, plus a suitable margin to assure adequate system circulation and cooling. In lieu of a rational analysis of airplane range and oil consumption, a fuel-oil ratio of 30:1 by volume shall be considered acceptable.

23. By amending § 3.605 (b) to read as follows:

§ 3.605 *General.* • • •

(b) Each engine shall be provided with at least two separate air intake sources, except that in the case of an engine equipped with a fuel injector only one air intake source need be provided, if the air intake, opening, or passage is unobstructed by a screen, filter, or other part on which ice might form and so restrict the air flow as to affect adversely engine operation. Primary air intakes may open within the cowling only if that portion of the cowling is isolated from the engine accessory section by means of a fire-resistant diaphragm or if provision is made to prevent the emergence of backfire flames. Alternate air intakes shall be located in a sheltered position and shall not open within the cowling unless they are so located that the emergence of backfire flames will not result in a hazard.

24. By adding a new paragraph (d) to § 3.606 to read as follows:

§ 3.606 *Induction system de-icing and anti-icing provisions.* • • •

(d) Airplanes equipped with sea level engines employing carburetors which embody features tending to reduce the possibility of ice formation shall be provided with a sheltered source of air warmed at least to the extent that the cylinder cooling air is warmed.

25. By adding a new sentence at the end of paragraph (a) of § 3.624 to read as follows:

§ 3.624 *Fire wall construction.* (a) • • • However, fire-resistant material may be used in such applications on single-engine airplanes using unsupercharged wet sump engines, provided the opening that may result in case of fire will not involve a serious hazard from the standpoint of flame propagation to the sheltered side of the fire wall.

26. By amending § 3.637 to read as follows:

§ 3.637 *Powerplant fire protection.* Suitable means shall be provided to shut off the flow in all lines carrying flammable fluids into the engine compartment on multiengine airplanes required to comply with the provisions of § 3.85 (b).

27. By amending § 3.672 to read as follows:

§ 3.672 *Fuel quantity indicator.* Means shall be provided to indicate to the flight personnel the quantity of fuel in each tank during flight. Tanks, the outlets and air spaces of which are interconnected, may be considered as one tank and need not be provided with separate indicators. Exposed sight gauges shall be so installed and guarded as to preclude the possibility of breakage or damage. Sight gauges which form a trap in which water can collect and freeze shall be provided with means to permit drainage on the ground. Fuel quantity gauges shall be calibrated to read zero during level flight when the quantity of fuel remaining in the tank is equal to the unusable fuel supply as defined by § 3.437. Fuel gauges need not be provided for small auxiliary tanks which are used only to transfer fuel to other tanks, provided the relative size of the tanks, the rate of fuel transfer, and the instructions pertaining to the use of the tanks are adequate to guard against overflow and to assume that the crew will receive prompt warning in case transfer is not being achieved as intended.

28. By amending § 3.700 to read as follows:

§ 3.700 *Position light system.* If a position light system is installed, it shall be of a type certificated in accordance with Part 15 of this chapter, and shall comply with the pertinent provisions of that part.

29. By amending § 3.701 to read as follows:

§ 3.701 *Installation requirements.* The following installation requirements apply to single circuit systems and shall be complied with if this type system is installed.[1]

(a) *Forward and rear position lights.* Single circuit systems shall consist of an aviation red light, an aviation green light, and an aviation white light. The red and the green lights shall be referred to as forward position lights and shall be so installed that, with the airplane in normal flying position, the red light is displayed on the left side and the green light on the right side, each showing unbroken light between two vertical planes the dihedral angle of which is 110° when measured to the left and right, respectively, of the airplane from dead ahead. These lights shall be spaced laterally as far apart as practicable. The white light shall be referred to as a rear position light and shall be mounted as far aft as practicable and so installed that unbroken light is directed symmetrically aft in such a manner that the axis of the maximum cone of illumination is parallel to the flight path. In addition, the intersection of the two planes forming dihedral angle A given in Part 15 of the Civil Air Regulations shall be vertical.

(b) *Circuit.* The forward position lights and the rear white position light shall constitute the single circuit.

(c) *Position light flasher.* If installed, a position light flasher shall be of a type acceptable to the Administrator.

30. By deleting §§ 3.702 and 3.703.

31. By combining §§ 3.704 and 3.705 into one section (§ 3.704) to read as follows:

§ 3.704 *Riding light.* (a) When a riding (anchor) light is required for a seaplane, flying boat, or amphibian, it shall be capable of showing a white light for at least 2 miles at night under clear atmospheric conditions.

(b) The riding light shall be installed to show the maximum unbroken light practicable when the airplane is moored or drifting on the water. Externally hung lights shall be acceptable.

32. By amending § 3.715 to read as follows:

§ 3.715 *Safety belts.* Safety belts shall be of an approved type.

33. By adding a new sentence at the end of § 3.759 to read as follows:

§ 3.759 *Powerplant instruments.* • • • Ranges of engine speed which are restricted as a result of excessive engine or propeller vibration shall be marked with a red arc.

34. By amending § 3.780 (a) to read as follows:

§ 3.780 *Performance information.* (a) For airplanes with a maximum certificated take-off weight of more than 6,000 pounds, information relative to the items of performance set forth in subparagraphs (1) through (5) of this paragraph shall be included.

c. It is proposed to amend Part 4b, effective January 1, 1951, as follows:

1. By amending § 4b.632 to read as follows:

§ 4b.632 *Position light system.* The position light system shall be of the dual circuit type, shall be certificated in accordance with Part 15 of this chapter, and shall comply with the provisions of § 15.20 (b) of this chapter.

2. By renumbering § 4b.633 as § 4b.636 and by adding a new § 4b.633 to read as follows:

§ 4b.633 *Installation requirements.* The installation requirements of paragraphs (a) through (e) of this section apply to dual circuit systems:

(a) *Forward position lights.* Forward position lights shall consist of a red and green light spaced laterally as far apart as practicable and installed forward on an airplane in such a location that, with the airplane in normal flying position, the red light is displayed on the left side and the green light is displayed on the right side, each showing unbroken light between two vertical planes the dihedral angle of which is 110° when measured respectively to the left and to the right of the airplane from dead ahead.

(b) *Rear position lights.* Rear position lights shall consists of a red and a white light mounted as far aft as practicable, located in close proximity to each other, and installed so that unbroken light is directed symmetrically aft from each light with the axis of the maximum cone of illumination parallel to the flight path. In addition, the intersection of the two planes forming the dihedral angle A prescribed in Part 15 of the Civil Air Regulations shall be vertical.

(c) *Fuselage lights.* Fuselage lights shall consist of two white lights installed approximately in line with the forward position lights. One of these lights shall be mounted on the top of the fuselage, the other on the bottom. In the case of seaplanes, the location of the bottom fuselage light shall be subject to specific approval on each individual type airplane. The top and bottom fuselage lights shall show through approximately a hemisphere.

(d) *Circuits.* The forward position lights and the rear white position light shall be on one of the circuits, while the fuselage lights and the rear red position light shall be on the other.

(e) *Position light flasher.* An approved flasher for dual circuit systems shall be installed. The flasher shall actuate the system automatically so that the two circuits are energized alternately at an approved frequency. A switch shall be provided to disconnect the flasher from the circuit so that continuous light can be supplied by the forward position lights and the rear white position light, while the fuselage lights and the rear red position light are not illuminated.

d. It is proposed to revise Part 6, effective January 1, 1951, to read as follows:

PART 6—ROTOCRAFT AIRWORTHINESS

SUBPART A—GENERAL

APPLICABILITY AND DEFINITIONS

6.0 Applicability of this part.
6.1 Definitions.

CERTIFICATION

6.10 Eligibility for type certificates.
6.11 Incorporation of this part in the type certificate.
6.12 Amendment.
6.13 Type certificate.
6.14 Data required.
6.15 Inspections and tests.
6.16 Flight tests.
6.17 Airworthiness, experimental, and production certificates.
6.18 Approval of materials, parts, processes, and appliances.

CHANGES

6.20 General.
6.21 Classification of changes.
6.22 Approval of minor changes.
6.23 Approval of major changes.
6.24 Service experience changes.

SUBPART B—FLIGHT

GENERAL

6.100 Proof of compliance.
6.101 Weight of limitations.
6.102 Center of gravity limitations.
6.103 Rotor limitations and pitch settings.
6.104 Empty weight.
6.105 Use of ballast.

PERFORMANCE

6.110 General.
6.111 Take-off.
6.112 Climb.
6.113 Minimum operating speed performance.
6.114 Landing.

FLIGHT CHARACTERISTICS

6.120 General.
6.121 Controllability.
6.122 Trim.
6.123 Stability.

GROUND AND WATER HANDLING CHARACTERISTICS

6.130 General.
6.131 Ground resonance.
6.132 Spray characteristics.

MISCELLANEOUS FLIGHT REQUIREMENTS

6.140 Flutter and vibration.

SUBPART C—STRUCTURE

GENERAL

6.200 Loads.
6.201 Strength and deformation.
6.202 Proof of structure.
6.203 Structural and dynamic tests.
6.204 Design limitations.

FLIGHT LOADS

6.210 General.
6.211 Flight load factors.
6.212 Maneuvering conditions.
6.213 Gust conditions.

CONTROL SURFACE AND SYSTEM LOADS

6.220 General.
6.221 Auxiliary rotor assemblies.
6.222 Auxiliary rotor attachment structure.
6.223 Tail rotor guard.
6.224 Stabilizing and control surfaces.
6.225 Primary control systems.

[1] Installation requirements for dual circuit position light systems are contained in Part 4b of this chapter of the Civil Air Regulations.

LANDING LOADS

6.230 Landing loads.
6.231 Level landing conditions.
6.232 Nose-up landing condition.
6.233 One-wheel landing condition.
6.234 Side load landing conditions.
6.235 Brake roll conditions.
6.236 Taxying condition.
6.237 Energy absorption for landing conditions.
6.240 Ski landing conditions.
6.245 Float landing conditions.

MAIN COMPONENT REQUIREMENTS

6.250 Main rotor structure.
6.251 Fuselage, landing gear, and rotor pylon structure.

EMERGENCY LANDING CONDITIONS

6.260 General.

SUBPART D—DESIGN AND CONSTRUCTION

GENERAL

6.300 Scope.
6.301 Materials.
6.302 Fabrication methods.
6.303 Standard fastenings.
6.304 Protection.
6.305 Inspection provisions.
6.306 Material strength properties and design values.
6.307 Special factors.

MAIN ROTOR

6.310 Main rotor blades; pressure venting and drainage.
6.311 Stops.
6.312 Rotor and blade balance.

CONTROL SYSTEMS

6.320 General.
6.321 Control system stops.
6.322 Control system locks.
6.323 Static tests.
6.324 Operation tests.
6.325 Control system details.
6.326 Spring devices.
6.327 Autorotation control mechanism.

LANDING GEAR

6.335 Wheels.
6.336 Brakes.
6.337 Tires.
6.338 Skis.
6.339 Ski installation.

FLOATS

6.340 Buoyancy (main floats).
6.341 Float strength.

PERSONNEL AND CARGO ACCOMMODATIONS

6.350 Pilot compartment; general.
6.351 Pilot compartment vision.
6.352 Pilot windshield and windows.
6.353 Controls.
6.354 Doors.
6.355 Seats and berths.
6.356 Cargo and baggage compartments.
6.357 Emergency exits.
6.358 Ventilation.

FIRE PREVENTION

6.360 General.
6.361 Cabin interiors.
6.362 Cargo and baggage compartments.
6.363 Heating systems.
6.364 Fire protection of flight controls.

MISCELLANEOUS

6.390 Leveling marks.
6.391 Ballast provisions.

SUBPART E—POWERPLANT INSTALLATION

GENERAL

6.400 Scope.
6.401 Engine type certification.
6.402 Engine vibration.

ROTOR DRIVE SYSTEM

6.410 Rotor drive mechanism.
6.411 Rotor brakes.
6.412 Rotor drive and control mechanism endurance tests.
6.413 Additional tests.
6.414 Shafting critical speeds.
6.415 Shafting joints.

FUEL SYSTEM

6.420 Capacity and feed.
6.421 Unusable fuel supply.
6.422 Fuel tank construction and installation.
6.423 Fuel tank details.
6.424 Fuel pumps.
6.425 Fuel system lines and fittings.
6.426 Valves.
6.427 Strainers.
6.428 Drains.
6.429 Fuel quantity indicator.

OIL SYSTEM

6.440 General.
6.441 Oil tank construction and installation.
6.442 Oil lines and fittings.
6.443 Oil drains.
6.444 Oil quantity gauge.
6.445 Oil temperature indication.
6.446 Oil pressure indication.

COOLING SYSTEM

6.450 General.
6.451 Cooling tests.
6.452 Coolant system.

INDUCTION AND EXHAUST SYSTEMS

6.460 General.
6.461 Air induction.
6.462 Induction system de-icing and anti-icing provisions.
6.463 Exhaust manifolds.

POWERPLANT CONTROLS AND ACCESSORIES

6.470 Powerplant controls; general.
6.471 Throttle controls.
6.472 Ignition switches.
6.473 Mixture controls.
6.474 Powerplant accessories.

POWERPLANT FIRE PROTECTION

6.480 General.
6.481 Ventilation.
6.482 Shut-off means.
6.483 Fire wall.
6.484 Engine cowling and engine compartment covering.

SUBPART F—EQUIPMENT

GENERAL

6.600 Scope.
6.601 Functional and installational requirements.
6.602 Required basic equipment.
6.603 Flight and navigational instruments.
6.604 Powerplant instruments.
6.605 Miscellaneous equipment.

INSTRUMENTS; INSTALLATION

6.610 General.
6.611 Arrangement and visibility of instrument installations.
6.612 Flight and navigational instruments.
6.613 Powerplant instruments.

ELECTRICAL SYSTEMS AND EQUIPMENT

6.620 Installation.
6.621 Batteries.
6.622 Generator system.
6.623 Master switch.
6.624 Master switch installation.
6.625 Protective devices.
6.626 Protective devices installation.
6.627 Electric cables.
6.628 Switches.

LIGHTS

6.630 Instrument lights.
6.631 Landing lights.
6.632 Position light system.
6.633 Installation requirements.
6.636 Riding light.

SAFETY EQUIPMENT

6.640 General.
6.641 Flares.
6.642 Flare installation.
6.643 Safety belts.
6.644 Emergency flotation and signaling equipment.

MISCELLANEOUS EQUIPMENT

6.650 Hydraulic systems.

SUBPART G—OPERATING LIMITATIONS AND INFORMATION

GENERAL

6.700 Scope.

OPERATING LIMITATIONS

6.710 Air-speed limitations; general.
6.711 Never-exceed speed V_{NE}.
6.712 Operating speed range.
6.713 Rotor speed.
6.714 Powerplant limitations.
6.715 Limiting height for autorotative landing.
6.716 Rotorcraft weight and center of gravity limitations.
6.717 Minimum flight crew.
6.718 Types of operation.
6.719 Maintenance manual.

MARKINGS AND PLACARDS

6.730 General.
6.731 Instrument markings; general.
6.732 Air-speed indicator.
6.733 Magnetic direction indicator.
6.734 Powerplant instruments; general.
6.735 Oil quantity indicators.
6.736 Fuel quantity indicator.
6.737 Control markings; general.
6.738 Miscellaneous markings and placards.

ROTORCRAFT FLIGHT MANUAL

6.740 General.
6.741 Operating limitations.
6.742 Operating procedures.
6.743 Performance information.
6.744 Marking and placard information.

ROTORCRAFT IDENTIFICATION DATA

6.750 Identification plate.
6.751 Identification marks.

SUBPART A—GENERAL

APPLICABILITY AND DEFINITIONS

§ 6.0 *Applicability of this part.* This part establishes standards with which compliance shall be demonstrated for the issuance of type certificates for rotorcraft. This part, until superseded or rescinded, shall apply to all rotorcraft for which applications for type certification are made after the effective date of this part.

§ 6.1 *Definitions.* Unless otherwise noted, terms used in this part of the regulations are defined as follows:

(a) *Administration*—(1) *Administrator.* The Administrator is the Administrator of the Civil Aeronautics.

(2) *Applicant.* An applicant is a person or persons applying for approval of a rotorcraft or any part thereof.

(3) *Approved.* Approved, when used alone or as modifying terms such as means, devices, specifications, etc., shall mean approved by the Administrator.

(b) *Rotorcraft types*—(1) *Rotorcraft.* A rotorcraft is any aircraft deriving its principal lift from one or more rotors.

(2) *Helicopter.* A helicopter is a rotorcraft which depends principally for its support and motion in the air upon the lift generated by one or more power driven rotors, rotating on substantially vertical axes.

(3) *Gyroplane.* A gyroplane is a rotorcraft which depends principally for its support upon the lift generated by one or more rotors which are not power driven, except for initial starting, and which are caused to rotate by the action of the air when the rotorcraft is in motion. The propulsion is independent of the rotor system and usually consists of conventional propellers.

(4) *Gyrodyne.* A gyrodyne is a rotorcraft which depends principally for its support upon the lift generated by one or more rotors which are partially power driven, rotating on substantially vertical axes. The propulsion is independent of the rotor system and usually consists of conventional propellers.

(c) *General design*—(1) *Standard atmosphere.* The standard atmosphere is an atmosphere defined as follows:

(i) The air is a dry, perfect gas,

(ii) The temperature at sea level is 59° F.,

(iii) The pressure at sea level is 29.92 inches Hg.

(iv) The temperature gradient from sea level to the altitude at which the temperature equals −67° F. is −0.003566° F./ft. and zero thereabove.

(v) The density ρ_0 at sea level under the above conditions is 0.002378 pound sec^2/ft^4.

(2) *Maximum anticipated air temperature.* The maximum anticipated air temperature is a temperature specified for the purpose of compliance with the powerplant cooling standards. (See § 6.451.)

(3) *Aerodynamic coefficients.* Aerodynamic coefficients are nondimensional coefficients for forces and moments. They correspond with those adopted by the U. S. National Advisory Committee for Aeronautics.

(4) *Autorotation.* Autorotation is a rotorcraft flight condition in which the lifting rotor is driven entirely by the action of the air when the rotorcraft is in motion.

(5) *Autorotative landing.* An autorotative landing is any landing of a rotorcraft in which the entire maneuver is accomplished without the application of power to the rotor.

(6) *Autorotative landing distance.* Autorotative landing distance is the horizontal distance required to make an autorotative landing and come to a complete stop (to a speed of approximately 3 mph for seaplanes or floatplanes) from a height of 50 feet above the landing surface.

(7) *Ground resonance.* Ground resonance is the mechanical instability encountered when the rotorcraft is in contact with the ground.

(8) *Mechanical instability.* Mechanical instability is an unstable resonant condition due to the interaction between the rotor blades and the rotorcraft structure, while the rotorcraft is on the ground or airborne.

(d) *Weights*—(1) *Maximum weight.* The maximum weight of the rotorcraft is that maximum at which compliance with the requirements of this part of the Civil Air Regulations is demonstrated. (See § 6.101.)

(2) *Minimum weight.* The minimum weight of the rotorcraft is that minimum at which compliance with the requirements of this part of the Civil Air Regulations is demonstrated. (See § 6.101.)

(3) *Empty weight.* The empty weight of the rotorcraft is a readily reproducible weight which is used in the determination of the operating weights. (See § 6.104.)

(4) *Design maximum weight.* The design maximum weight is the maximum weight of the rotorcraft at which compliance is shown with the structural loading conditions. (See § 6.101.)

(5) *Design minimum weight.* The design minimum weight is the minimum weight of the rotorcraft at which compliance is shown with the structural loading conditions. (See § 6.101.)

(6) *Design unit weight.* The design unit weight is a representative weight used to show compliance with the structural design requirements:

(i) Gasoline 6 lbs. per U. S. gallon,

(ii) Lubricating oil 7.5 lbs. per U. S. gallon,

(iii) Crew and passengers 170 lbs. per person.

(e) *Speeds*—(1) *IAS.* Indicated air speed is equal to the pitot static airspeed indicator reading as installed in the rotorcraft without correction for air-speed indicator system errors but including the sea level standard adiabatic compressible flow correction. (This latter correction is included in the calibration of the air-speed instrument dials.) (See §§ 6.612 and 6.732.)

(2) *CAS.* Calibrated air speed is equal to the air-speed indicator reading corrected for position and instrument error. (As a result of the sea level adiabatic compressible flow correction to the air-speed instrument dial, CAS is equal to the true air speed TAS in standard atmosphere at sea level.)

(3) *EAS.* Equivalent air speed is equal to the air-speed indicator reading corrected for position error, instrument error, and for adiabatic compressible flow for the particular altitude. (EAS is equal to CAS at sea level in standard atmosphere.)

(4) *TAS.* True air speed of the rotorcraft relative to undisturbed air. $(TAS=EAS\ (\rho_0/\rho)^{1/2})$

(5) V_H. The Maximum speed obtainable in level flight with rated rmp. and power.

(6) V_{NE}. The never-exceed speed. (See § 6.711.)

(7) V_X. The speed for best angle of climb.

(8) V_Y. The speed for best rate of climb.

(f) *Structural*—(1) *Limit load.* A limit load is the maximum load anticipated in normal conditions of operation. (See § 6.200.)

(2) *Ultimate load.* An ultimate load is a limit load multiplied by the appropriate factor of safety. (See § 6.200.)

(3) *Factor of safety.* The factor of safety is a design factor used to provide for the possibility of loads greater than those anticipated in normal conditions of operation and for uncertainties in design. (See § 6.200.)

(4) *Load factor.* The load factor is the ratio of a specified load to the total weight of the rotorcraft; the specified load may be expressed in terms of any of the following: aerodynamic forces, inertia forces, or ground or water reactions.

(5) *Limit load factor.* The limit load factor is the load factor corresponding with limit loads.

(6) *Ultimate load factor.* The ultimate load factor is the load factor corresponding with ultimate loads.

(7) *Fitting.* A fitting is a part or terminal used to join one structural member to another. (See § 6.307 (d).)

(g) *Power installation*[1]—(1) *Brake horsepower.* Brake horsepower is the power delivered at the propeller shaft of the engine.

(2) *Take-off power.* Take-off power is the brake horsepower developed under standard sea level conditions, under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use in the normal take-off, and limited in use to a maximum continuous period as indicated in the approved engine specification.

(3) *Maximum continuous power.* Maximum continuous power is the brake horsepower developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use during periods of unrestricted duration.

(4) *Manifold pressure.* Manifold pressure is the absolute pressure measured at the appropriate point in the induction system, usually in inches of mercury.

(5) *Critical altitude.* The critical altitude is the maximum altitude at which in standard atmosphere it is possible to maintain, at a specified rotational speed, a specified power or a specified manifold pressure. Unless otherwise stated, the critical altitude is the maximum altitude at which it is possible to maintain, at the maximum continuous rotational speed, one of the following:

(i) The maximum continuous power, in the case of engines for which this power rating is the same at sea level or at the rated altitude.

(ii) The maximum continuous rated manifold pressure, in the case of engines the maximum continuous power of which is governed by a constant manifold pressure.

(h) *Propellers and rotors*[2]—(1) *Rotor.* Rotor is a system of rotating airfoils.

(2) *Main rotor.* The main rotor is the main system of rotating airfoils providing sustentation for the rotorcraft.

(3) *Auxiliary rotor.* An auxiliary rotor is one which serves either to counteract the effect of the main rotor torque on the rotorcraft, or to maneuver the rotorcraft about one or more of its three principal axes.

[1] For engine airworthiness requirements see Part 13 of this chapter.

[2] For propeller airworthiness requirements see Part 14 of this chapter.

(4) *Axis of no feathering.* The axis of no feathering is the axis about which there is no first harmonic feathering or cyclic pitch variation.[3]

(5) *Plane of rotor disc.* The plane of rotor disc is a reference plane at right angles to the axis of no feathering.

(6) *Tip speed ratio.* The tip speed ratio is the ratio of the rotorplane flight velocity component in the plane of the rotor disc to the rotational tip speed of the rotor blades expressed as follows:

$$\mu=\frac{V\cos\alpha}{\Omega R}$$

where:

V=air speed of the rotorcraft along flight path (feet per second),

α=angle between projection in plane of symmetry of axis of no feathering and a line perpendicular to the flight path (radians, positive when axis is pointing aft),

Ω=angular velocity of rotor (radians per second),

R=rotor radius (feet).

(i) *Fire protection*—(1) *Fireproof.* Fireproof material means a material which will withstand heat at least as well as steel in dimensions appropriate for the purpose for which it is to be used. When applied to material and parts used to confine fires in designated fire zones, fireproof means that the material or part will perform this function under the most severe conditions of fire and duration likely to occur in such zones.

(2) *Fire-resistant.* When applied to sheet or structural members, fire-resistant material means a material which will withstand heat at least as well as aluminum alloy in dimensions appropriate for the purpose for which it is to be used. When applied to fluid-carrying lines, other flammable fluid system components, wiring, air ducts, fittings, and powerplant controls, this term refers to a line and fitting assembly, component, wiring or duct, or controls which will perform the intended functions under the heat and other conditions likely to occur at the particular location.

(3) *Flame-resistant.* Flame-resistant material means material which will not support combustion to the point of propagating, beyond safe limits, a flame after the removal of the ignition source.

(4) *Flash-resistant.* Flash-resistant material means material which will not burn violently when ignited.

(5) *Flammable.* Flammable pertains to those fluids or gases which will ignite readily or explode.

[3] See NACA Technical Note No. 1604.

CERTIFICATION

§ 6.10 *Eligibility for type certificates.* A rotorcraft shall be eligible for type certification under the provisions of this part if it complies with the airworthiness provisions hereinafter established or if the Administrator finds that the provision or provisions not complied with are compensated for by other design features which provide an equivalent level of safety: *Provided,* That the Administrator finds no feature or characteristic of the rotorcraft which renders it unsafe.

§ 6.11 *Incorporation of this part in the type certificate.* (a) The provisions of this part, together with all amendments effective on the date of application for type certification, shall be considered as incorporated in the type certificate.

(b) The type certificate shall bear the legend set forth in subparagraph (1) of this paragraph:

(1) "The provisions of Part 6 of the Civil Air Regulations, together with all amendments thereto effective on the date of application for this certificate, are hereby incorporated herein and made a part hereof as though set forth in full, and, except as otherwise provided by the Board, or pursuant to § 6.24 by the Administrator, any amendment of the type design may, at the option of the holder of the type certificate, be accomplished in accordance with either the standards set forth in such regulations or with the standards in effect at the time the application for amendment is filed."

§ 6.12 *Amendment.* Unless otherwise specified, an amendment of this part shall be effective with respect to rotorcraft for which applications for type certificates are filed after the effective date of the amendment.

§ 6.13 *Type certificate.* An applicant shall be issued a type certificate when he demonstrates the eligibility of the rotorcraft by complying with the requirements of §§ 6.14 through 6.16 in addition to those contained in Part 1 of this chapter.

§ 6.14 *Data required.* The applicant for a type certificate shall submit to the Administrator such descriptive data, test reports, and computations as are necessary to demonstrate that the rotorcraft complies with the airworthiness requirements. The descriptive data shall be known as the type design and shall consist of drawings and specifications disclosing the configuration of the rotorcraft and all design features covered in the airworthiness requirements as well as sufficient information on dimensions, materials, and processes to define the strength of the structure. The type design shall describe the rotorcraft in sufficient detail to permit the airworthiness of subsequent rotorcraft of the same type to be determined by comparison with the type design.

§ 6.15 *Inspections and tests.* Inspections and tests shall include all those found necessary by the Administrator to insure that the rotorcraft complies with the applicable airworthiness requirements and conforms to the following:

(a) All materials and products are in accordance with the specifications in the type design,

(b) All parts of the airplane are constructed in accordance with the drawings in the type design,

(c) All manufacturing processes, construction, and assembly are such that the design strength and safety contemplated by the type design will be realized in service.

§ 6.16 *Flight tests.* After proof of compliance with the structural requirements contained in this part, and upon completion of all necessary inspections and testing on the ground, and proof of the conformity of the rotorcraft with the type design, and upon receipt from the applicant of a report of flight tests performed by him, the following shall be conducted:

(a) Such official flight tests as the Administrator finds necessary to determine compliance with the requirements of this part.

(b) After the conclusion of flight tests specified in paragraph (a) of this section, such additional flight tests as the Administrator finds necessary to ascertain whether there is reasonable assurance that the rotorcraft, its components, and equipment are reliable and function properly. The extent of such additional flight tests shall depend upon the complexity of the rotorcraft, the number and nature of new design features, and the record of previous tests and experience for the particular rotorcraft type, its components, and equipment. If practicable, these flight tests shall be conducted on the same rotorcraft used in the flight tests specified in paragraph (a) of this section and in the rotor drive endurance tests specified in § 6.412.

§ 6.17 *Airworthiness, experimental, and production certificates.* (For requirements with regard to these certificates see Part 1 of this chapter.)

§ 6.18 *Approval of materials, parts, processes, and appliances.* (a) Materials, parts, processes, and appliances shall be approved upon a basis and in a manner found necessary by the Administrator to implement the pertinent provisions of the Civil Air Regulations. The Administrator may adopt and publish such specifications as he finds necessary to administer this regulation, and shall incorporate therein such portions of the aviation industry, Federal, and military specifications respecting such materials, parts, processes, and appliances as he finds appropriate.

(b) Any material, part, process, or appliance shall be deemed to have met the requirements for approval when it meets the pertinent specifications adopted by the Administrator, and the manufacturer so certifies in a manner prescribed by the Administrator.

CHANGES

§ 6.20 *General.* When the type design is changed, the applicant or holder of the type certificate shall demonstrate that the rotorcraft complies with the applicable airworthiness requirements.

§ 6.21 *Classification of changes.* Changes shall be classified as minor and major. A minor change shall be one which has no appreciable effect on the weight, balance, structural strength, powerplant operation, flight characteristics, or other characteristic affecting the airworthiness of the rotorcraft. A major change shall be one not classified as a minor change.

§ 6.22 *Approval of minor changes.* Minor changes to type designs may be approved by an authorized representative of the Administrator prior to the submittal to the Administrator of any revised drawings.

§ 6.23 *Approval of major changes.* Major changes to type designs shall be approved only after receipt by the Administrator of substantiating data and necessary descriptive data for inclusion in the type design.

§ 6.24 *Service experience changes.* (a) Where the Administrator finds as a result of service experience that an unsafe condition exists with respect to a design feature, part, or characteristic of any rotorcraft certificated under this part, he shall furnish notice[4] thereof to all operators of rotorcraft of that type, and the rotorcraft shall not thereafter be operated until the unsafe condition has been corrected, unless otherwise authorized by the Administrator under specified conditions and limitations:

(1) When the Administrator finds that design changes are necessary to correct the unsafe condition of the rotorcraft, the holder of the type certificate, upon request of the Administrator, shall submit appropriate design modifications for the approval of the Administrator.

(2) Upon approval, such changes shall be made a part of the type design of the type certificate, and descriptive data covering the changes shall be made available by the holder of the type certificate to all operators of rotorcraft previously certificated under such type certificate.

(3) All rotorcraft of the same type shall be modified in accordance with such amended type certificate.

(b) Where no current unsafe condition exists but the Administrator or the holder of the type certificate finds through service experience that changes in type design will contribute to the safety of the rotorcraft, the holder of the type certificate may submit appropriate design modifications for the approval of the Administrator. Upon approval of such modifications, the type design of the type certificate shall be amended accordingly, and all rotorcraft manufactured thereafter shall be modified in accordance with such amended type certificate. The manufacturer shall make available to all operators of the same type of rotorcraft information on the design modifications.

SUBPART B—FLIGHT

GENERAL

§ 6.100 *Proof of compliance.* (a) Compliance with the requirements prescribed in this subpart shall be established by flight or other tests conducted upon a rotorcraft of the type for which a certificate of airworthiness is sought or by calculations based on such tests, provided that the results obtained by calculations are equivalent in accuracy to the results of direct testing.

(b) Compliance with each requirement shall be established at all appropriate combinations of rotorcraft weight and center of gravity position within the range of loading conditions for which certification is sought by systematic investigation of all these combinations, except where compliance can be inferred reasonably from those combinations which are investigated.

(c) The controllability, stability, and trim of the rotorcraft shall be established at all altitudes up to the maximum anticipated operating altitude.

(d) The applicant shall provide a person holding an appropriate pilot certificate to make the flight tests, but a designated representative of the Administrator shall pilot the rotorcraft when it is found necessary for the determination of compliance with the airworthiness requirements.

(e) Official type tests shall be discontinued until corrective measures have been taken by the applicant when either:

(1) The applicant's test pilot is unable or unwilling to conduct any of the required flight tests, or

(2) It is found that requirements which have not been met are so substantial as to render additional test data meaningless or are of such a nature as to make further testing unduly hazardous.

(f) Adequate provision shall be made for emergency egress and for the use of parachutes by members of the crew during the flight tests.

(g) The applicant shall submit to the Administrator's representative a report covering all computations and tests required in connection with calibration of instruments used for test purposes and correction of test results to standard atmospheric conditions. The Administrator's representative shall conduct any flight tests which he finds necessary to check the calibration and correction report.

§ 6.101 *Weight limitations.* The maximum and minimum weights at which the rotorcraft will be suitable for operation shall be established as follows:

(a) Maximum weights shall not exceed any of the following:

(1) The weight selected by the applicant,

(2) The design weight for which the structure has been proven,

(3) The maximum weight at which compliance with all of the applicable flight requirements has been demonstrated.

(b) The maximum weight shall not be less than the sum of the weights of the following:

(1) The empty weight in accordance with § 6.104,

(2) 1 gallon of usable fuel for every 7 maximum continuous horsepower for which the rotorcraft is certificated,

(3) The full oil capacity,

(4) 170 pounds in all seats. Where in actual operation weights other than 170 pounds may affect adversely the balance and controllability of the rotorcraft, such weights shall be used in lieu of the 170 pounds. (See § 6.738 (a).)

(c) The minimum weight shall not be less than any of the following:

(1) The minimum weight selected by the applicant,

(2) The design minimum weight for which the structure has been proven,

(3) The minimum weight at which compliance with all of the applicable flight requirements has been demonstrated.

(d) The minimum weight shall not exceed the sum of the weights of the following:

(1) The empty weight in accordance with § 6.104,

(2) The minimum crew necessary to operate the rotorcraft assuming for each crew member the lowest of the following:

(i) 170 pounds,

(ii) Weight selected by the applicant,

(iii) Weight included in the loading instructions (see §§ 6.102 (b) and 6.738 (a)),

(3) 1 gallon of oil for each 100 maximum continuous horsepower for which the rotorcraft is certificated.

§ 6.102 *Center of gravity limitations.* (a) Center of gravity limits shall be established as the most forward position permissible for each weight established in accordance with § 6.101 and the most aft position permissible for each of such weights. Such limits of the center of gravity range shall not exceed any of the following:

(1) The extremes selected by the applicant,

(2) The extremes for which the structure has been proven,

(3) The extremes at which compliance with all of the applicable flight requirements has been demonstrated.

(b) Loading instructions shall be provided if the center of gravity position under any possible loading condition between the maximum and minimum weights as specified in § 6.101, with assumed weights for individual passengers and crew members variable over the anticipated range of such weights, lies beyond:

(1) The extremes selected by the applicant,

(2) The extremes for which the structure has been proven,

(3) The extremes for which compliance with all of the applicable flight requirements has been demonstrated. (See § 6.741 (c).)

§ 6.103 *Rotor limitations and pitch settings*—(a) *Power-on.* A range of power-on operating speeds for the main rotor(s) shall be established which will provide adequate margin to accommodate the variation of rotor rpm attendant to all maneuvers appropriate to the rotorcraft type and consistent with the type of synchronizer or governor used, if any (see §§ 6.713 (b) (2) and 6.714 (b)). A rotor blade high-pitch limiting device shall be provided and shall be positioned to prevent rotational speeds substantially less than the approved minimum rotor rpm in any flight condition with full throttle and with the pitch control of the main rotor(s) in the full high-pitch position.

(b) *Power-off.* A range of power-off operating rotor speeds shall be established which will permit execution of all autorotative flight maneuvers appropriate to the rotorcraft type throughout the range of air speeds and weights for which certification is sought (see §§ 6.713 (a) and 6.713 (b) (1)). A rotor blade low-pitch limiting device shall be positioned to provide rotational speeds within the approved rotor speed range in any autorotative flight condition under the most adverse combinations of weight and air speed with the rotor pitch control in the full low-pitch position.

[4] Operators of rotorcraft are notified of any unsafe condition, of the required corrective action, and of compliance dates through the medium of airworthiness directives issued by the Administrator.

§ 6.104 *Empty weight.* (a) The empty weight, and the corresponding center of gravity position, shall be determined by weighing the rotorcraft. This weight shall exclude the weight of the crew and payload, but shall include the weight of all fixed ballast, the unusable fuel supply (see § 6.421), undrainable oil, total quantity of engine coolant, and total quantity of hydraulic fluid.

(b) The condition of the rotorcraft at the time of weighing shall be one which can be easily repeated and easily defined, particularly as regards the contents of the fuel, oil, and coolant tanks, and the items of equipment installed. (See § 6.740.)

§ 6.105 *Use of ballast.* Removable ballast may be used to enable the rotorcraft to comply with the flight requirements. (See §§ 6.391, 6.738, and 6.740.)

PERFORMANCE

§ 6.110 *General.* The performance information prescribed in §§ 6.111 through 6.114 shall be determined, and the rotorcraft shall comply with the corresponding requirement in the standard atmosphere in still air.

§ 6.111 *Take-off.* (a) The distance required to take off and climb over a 50-foot obstacle shall be determined under the following conditions:

(1) Most unfavorable combination of weight and center of gravity location,

(2) Engines operating within the approved limitations.

(b) The take-off shall be made in a manner such that a landing can be made safely at any point along the flight path in case of an engine failure and shall not require an exceptional degree of skill on the part of the pilot or exceptionally favorable conditions.

(c) The take-off distance obtained, the type of surface from which the take-off was made, the effect of temperature and altitude variations, and all other pertinent information shall be established. (See § 6.740.)

§ 6.112 *Climb.* (a) For all rotorcraft, the steady rate of climb at the best rate-of-climb speed with maximum continuous power and landing gear retracted shall be determined over the range of weights, altitudes, and temperatures for which certification is sought (see § 6.740). This rate of climb shall provide a steady angle of climb under standard sea level conditions of not less than 1:6.

(b) For multiengine helicopters, the steady angle of climb at maximum weight, with one engine inoperative and the remaining engine(s) operating at maximum continuous power, shall not be less than 1:20 under standard sea level conditions.

§ 6.113 *Minimum operating speed performance.* (a) Hovering ceilings for helicopters shall be determined under the following conditions over the range of weights, altitudes, and temperatures for which certification is sought:

(1) With take-off power and landing gear extended in the ground effect at a height above the ground consistent with normal take-off procedures,

(2) With maximum continuous power and landing gear extended out of the ground effect.

(b) At maximum weight, under standard atmospheric conditions, and under conditions prescribed in paragraph (a) (1) of this section, the hovering ceiling for helicopters shall not be less than 4,000 feet.

(c) For rotorcraft other than helicopters, the steady rate of climb at the minimum operating speed appropriate to the type with take-off power and landing gear extended shall be determined over the range of weights, altitudes, and temperatures for which certification is sought.

§ 6.114 *Landing.* The horizontal distance required to land and come to a complete stop (to a speed of approximately 3 mph for seaplanes or float planes) from a point at a height of 50 feet above the landing surface shall be determined in accordance with the following:

(a) The approach speed or speeds in the glide shall be appropriate to the type of rotorcraft and shall be chosen by the applicant.

(b) The approach and landing shall be entered from steady autorotation and shall be made in such a manner that its reproduction would not require an exceptional degree of skill on the part of the pilot or exceptionally favorable conditions.

(c) During the landing there shall be no excessive vertical acceleration and no tendency to bounce, nose over, ground loop, porpoise, or water loop.

(d) There shall be established for the landing the type of surface on which the landing was made, the effect of temperature and altitude variations, and all other pertinent information (see also § 6.743 (c)).

FLIGHT CHARACTERISTICS

§ 6.120 *General.* (a) The rotorcraft shall meet the requirements prescribed in this section and §§ 6.121 to 6.123 at all normally expected operating altitudes, under all critical loading conditions within the range of weight and center of gravity, and for all speeds, power, and rotor rpm conditions for which certification is sought.

(b) It shall be possible to make a smooth transition from one flight condition to another without requiring an exceptional degree of skill, alertness, or strength on the part of the pilot, and without danger of exceeding the limit load factor under all conditions of operation probable for the type, including those conditions normally encountered in the event of sudden powerplant failure.

(c) For night or instrument certification the rotorcraft shall have such additional flight characteristics as the Administrator finds are required for safe operation under those conditions.

§ 6.121 *Controllability.* (a) The rotorcraft shall be safely controllable and maneuverable during steady flight and during the execution of any maneuver appropriate to the type rotorcraft, including take-off, climb, level flight, turn, glide, and power-on or power-off landings.

(b) The margin of longitudinal and lateral cyclic control shall allow satisfactory pitching and rolling control at the maximum permissible forward speed with:

(1) Maximum weight,

(2) Critical center of gravity,

(3) Power on and power off,

(4) Critical rotor rpm.

(c) Compliance with paragraph (b) of this section shall include a demonstration with a power failure at V_H.

(d) There shall be established a wind velocity in which the rotorcraft can be operated without loss of control on or near the ground at the critical center of gravity and the critical rotor rpm in any maneuver appropriate to the type rotorcraft (e. g. cross-wind take-offs, sideward or rearward flight). This wind velocity shall not be less than 20 mph.

§ 6.122 *Trim.* It shall be possible in steady level flight at any speed appropriate to the type rotorcraft to trim the steady longitudinal and lateral control forces to zero. The trim device shall not introduce any undesirable discontinuities in the force gradients.

§ 6.123 *Stability*—(a) *General.* It shall be possible to fly the rotorcraft in normal maneuvers, including a minimum of three take-offs and landings, for a continuous period of time appropriate to the operational use of the particular type rotorcraft without the pilot experiencing undue fatigue or strain. In addition, the rotorcraft shall comply with the requirements of paragraph (b) of this section.

(b) *Static longitudinal stability.* In the following configurations the characteristics of the longitudinal cyclic control shall be such that, with constant throttle and collective pitch settings, a rearward displacement of longitudinal control shall be necessary to obtain and maintain speeds below the specified trim speed, and a forward displacement shall be necessary to obtain and maintain speeds above the specified trim speed for the ranges of altitude and rotor rpm for which certification is sought:

(1) *Climb.* The stick position curve shall have a stable slope from an increment of speed 15 percent of V_H below the best rate-of-climb speed to an increment of speed 20 percent of V_H above the best rate-of-climb speed, with:

(i) Critical weight and center of gravity,

(ii) Maximum continuous power,

(iii) Landing gear retracted,

(iv) Trim at the best rate-of-climb speed.

(2) *Cruise.* The stick position curve shall have a stable slope from 0.7 V_H to 1.1 V_H, with:

(i) Critical weight and center of gravity,

(ii) Power for level flight at 0.9 V_H,

(iii) Landing gear retracted,

(iv) Trim at 0.9 V_H.

(3) *Autorotation.* The stick position curve shall have a stable slope through-

out the speed range for which certification is sought, with:

(i) Critical weight and center of gravity,

(ii) Power off,

(iii) Landing gear both retracted and extended,

(iv) Trim at the speed for minimum rate of descent.

(4) *Hovering.* In the case of helicopters the stick position curve shall have a stable slope between the maximum approved rearward speed and a forward speed of 20 m. p. h. with:

(i) Critical weight and center of gravity,

(ii) Power required for hovering in still air,

(iii) Landing gear retracted,

(iv) Trim for hovering.

GROUND AND WATER HANDLING CHARACTERISTICS

§ 6.130 *General.* The rotorcraft shall demonstrate satisfactory ground and water handling characteristics. There shall be no uncontrollable tendencies in any operating condition reasonably expected for the type.

§ 6.131 *Ground resonance.* There shall be no uncontrollable tendency for the rotorcraft to oscillate when the rotor is turning and the rotorcraft is on the ground.

§ 6.132 *Spray characteristics.* For rotorcraft equipped with floats, the spray characteristics during taxying, take-off, and landing shall be such as not to obscure the vision of the pilot nor produce damage to the rotors, propellers, or other parts of the rotorcraft.

MISCELLANEOUS FLIGHT REQUIREMENTS

§ 6.140 *Flutter and vibration.* All parts of the rotorcraft shall be demonstrated to be free from flutter and excessive vibration under all speed and power conditions appropriate to the operation of the type rotorcraft. (See also §§ 6.203 (f) and 6.711.)

SUBPART C—STRUCTURE

GENERAL

§ 6.200 *Loads.* (a) Strength requirements of this subpart are specified in terms of limit and ultimate loads. Unless otherwise stated, the specified loads shall be considered as limit loads. In determining compliance with these requirements the specifications set forth in paragraphs (b) through (e) of this section shall be used.

(b) The factor of safety shall be 1.5 unless otherwise specified. The factor of safety shall apply to the external and inertia loads, unless its application to the resulting internal stresses is more conservative.

(c) Unless otherwise provided, the specified air, ground, and water loads shall be placed in equilibrium with inertia forces, considering all items of mass in the rotorcraft.

(d) All loads shall be distributed in a manner closely approximating or conservatively representing actual conditions.

(e) If deflections under load significantly change the distribution of external or internal loads, the redistribution shall be taken into account.

§ 6.201 *Strength and deformation.* (a) The structure shall be capable of supporting limit loads without suffering detrimental permanent deformations.

(b) At all loads up to limit loads the deformation shall be such as not to interfere with safe operation of the rotorcraft.

(c) The structure shall be capable of supporting ultimate loads without failure. It shall support the load for at least 3 seconds, unless proof of strength is demonstrated by dynamic tests simulating actual conditions of load application.

§ 6.202 *Proof of structure.* (a) Proof of compliance of the structure with the strength and deformation requirements of § 6.201 shall be made for all critical loading conditions.

(b) Proof of compliance by means of structural analysis shall be acceptable only when the structure conforms to types for which experience has shown such methods to be reliable. In all other cases substantiating tests shall be required.

(c) In all cases certain portions of the structure shall be tested as specified in § 6.300.

§ 6.203 *Structural and dynamic tests.* At least the following structural tests shall be conducted to show compliance with the strength criteria:

(a) Dynamic and endurance tests of rotors and rotor drives, including controls (see § 6.412),

(b) Control surface and system limit load tests (see § 6.323),

(c) Control system operation tests (see § 6.324),

(d) Vibration surveys (see §§ 6.221 and 6.250),

(e) Landing gear drop tests (see § 6.237),

(f) Ground vibration tests to determine the natural frequencies of the blades and major structural components of the rotorcraft,

(g) Such additional tests as may be found necessary by the Administrator to substantiate new and unusual features of the design.

§ 6.204 *Design Limitations.* The following values shall be established by the applicant for purposes of showing compliance with the structural requirements specified in this subpart:

(a) Maximum design weight,

(b) Power-on and power-off main rotor r. p. m. ranges (see §§ 6.103 and 6.713 through 6.714 (b)),

(c) Maximum forward speeds for the power-on and power-off rotor r. p. m. ranges established in accordance with paragraph (b) of this section (see § 6.711),

(d) Maximum rearward and sideward flight speeds,

(e) Extreme positions of rotorcraft center of gravity to be used in conjunction with the limitations of paragraphs (b), (c), and (d) of this section,

(f) Rotational speed ratios between the powerplant and all connected rotating components,

(g) Positive and negative limit maneuvering load factors.

FLIGHT LOADS

§ 6.210 *General.* Flight load requirements shall be complied with at all weights from the design minimum weight to the design maximum weight, with any practicable distribution of disposable load within prescribed operating limitations stated in the Rotorcraft Flight Manual (see § 6.741).

§ 6.211 *Flight load factors.* The flight load factors shall represent rotor load factors. The net load factor acting at the center of gravity of the rotorcraft shall be obtained by proper consideration of balancing loads acting in the specific flight conditions.

§ 6.212 *Maneuvering conditions.* The rotorcraft structure shall be designed for a positive maneuvering limit load factor of 3.5 and for a negative maneuvering limit load factor of 1.0, except that lesser values shall be allowed if the manufacturer shows by analytical study and flight demonstrations that the probability of exceeding the values selected is extremely remote. In no case shall the limit load factors be less than 2.5 positive and 0.5 negative. The resultant loads shall be assumed to be applied at the center(s) of the rotor hub(s) and to act in such directions as necessary to represent all critical maneuvering motions of the rotorcraft applicable to the particular type, including flight at the maximum design rotor tip speed ratio under power-on and power-off conditions.

§ 6.213 *Gust conditions.* The rotorcraft structure shall be designed to withstand the loading due to a vertical gust of 30 feet per second in velocity in conjunction with the critical rotorplane air speeds, including hovering.

CONTROL SURFACE AND SYSTEM LOADS

§ 6.220 *General.* The structure of all auxiliary rotors (antitorque and control), fixed or movable stabilizing and control surfaces, and all systems operating any flight controls shall be able to comply with the provisions of §§ 6.221 through 6.225.

§ 6.221 *Auxiliary rotor assemblies.* Auxiliary rotor assemblies shall be tested in accordance with the provisions of § 6.412 for rotor drives. In addition, auxiliary rotor assemblies with detachable blades shall be substantiated for centrifugal loads of twice those resulting when the rotor is driven by the engine at its maximum continuous speed. In the case of auxiliary rotors with highly stressed metal components, the vibration stresses shall be determined in flight, and it shall be demonstrated that these stresses do not exceed safe values for continuous operation.

§ 6.222 *Auxiliary rotor attachment structure.* The attachment structure for the auxiliary rotors shall be able to withstand a limit load equal to the maximum loads in the structure occurring under the flight and landing conditions.

§ 6.223 *Tail rotor guard.* When a tail rotor is provided on a rotorcraft it shall not be possible for the tail rotor to contact the landing medium during a normal landing. If a tail rotor guard is provided which will contact the landing medium during landings and thus prevent tail rotor contact, suitable design loads for the guard shall be established, and the guard and its supporting structure shall be able to withstand the established loads.

§ 6.224 *Stabilizing and control surfaces.* Stabilizing and control surfaces shall be designed to withstand the critical loading from maneuvers or from combined maneuver and gust. In no case shall the limit load be less than 15 lbs. per square foot or a load due to C_N=0.55 at the maximum design speed. The load distribution shall simulate closely the actual pressure distribution conditions.

§ 6.225 *Primary control systems.* Manual control systems shall comply with the following:

(a) From the pilot compartment to the stops which limit the range of motion of the pilots' controls, the controls shall be designed to withstand the limit pilot applied forces as set forth in subparagraphs (1) through (3) of this paragraph, unless it is shown that the pilot is unable to apply such loads to the system. In the latter event the system shall be designed for the maximum loads which the pilot is able to apply, except that in any case values less than 0.60 of those specified shall not be employed.

(1) Foot type controls—130 pounds,

(2) Stick type controls—fore and aft 100 pounds—laterally 67 pounds,

(3) Wheel type controls—fore and aft 100 pounds—laterally 53-pound couple applied on opposite sides of the control wheel.

(b) From the stops to the attachment of the control system to the rotor blades (or control areas) the control system shall be designed to withstand the maximum loads which can be obtained in normal operation of the rotorcraft, except that where jamming, ground gusts, control inertia, or friction can cause loads exceeding operational loads, the system shall support without yielding 0.60 of the loads specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section.

LANDING LOADS

§ 6.230 *Landing loads*—(a) *General.* The limit loads obtained in the landing conditions shall be considered as external forces which would occur in a rotorcraft structure if it were acting as a rigid body. In each of the conditions the external loads shall be placed in equilibrium with the linear and angular inertia forces in a rational or conservative manner. In applying the specified conditions the provisions of paragraphs (b) through (e) of this section shall be complied with.

(b) *Center of gravity positions.* The critical center of gravity positions within the certification limits shall be selected so that the maximum design loads in each of the landing gear elements are obtained.

(c) *Design weight.* The design weight used in the landing conditions shall not be less than the maximum weight of the rotorcraft less the weight of the rotor blades.

(d) *Load factor.* The structure shall be designed for a limit load factor not less than two-thirds of the value developed in the energy absorption tests specified in § 6.237, except in conditions in which other values of load factor are prescribed.

(e) *Landing gear position.* For landing gear arrangements where two wheels are located aft and one or more wheels are located forward of the center of gravity, the tires shall be assumed to be in their static position, and the shock absorbers shall be assumed to be in the most critical position unless otherwise prescribed.

§ 6.231 *Level landing conditions.* (a) Under loading conditions prescribed in paragraph (b) of this section, the rotorcraft shall be assumed to be in the following two level landing attitudes:

(1) All wheels contacting the ground simultaneously,

(2) The aft wheels contacting the ground while the forward wheel(s) being just clear of the ground.

(b) The following two level landing loading conditions shall be considered. Where the forward portion of the landing gear has two wheels, the total load applied to the forward wheels shall be divided between the two wheels in a 40:60 proportion:

(1) Vertical loads shall be applied in accordance with the provisions of § 6.230.

(2) The vertical loads specified in subparagraph (1) of this paragraph shall be combined with a drag load at each wheel. The drag loads shall not be less than 25 percent of the respective vertical loads.

§ 6.232 *Nose-up landing condition.* The rotorcraft shall be assumed in the maximum nose-up attitude permitting clearance of the ground by all parts of the rotorcraft. The ground loads shall be applied perpendicularly to the ground.

§ 6.233 *One-wheel landing condition.* The rotorcraft shall be assumed in the level attitude to contact the ground on one of the wheels located aft of the center of gravity. The vertical load shall be the same as that obtained on the one side in the condition specified in § 6.231 (b) (1). The unbalanced external loads shall be reacted by the inertia of the rotorcraft.

§ 6.234 *Side load landing conditions.* (a) The rotorcraft shall be assumed in the level landing attitude. The limit vertical and side loads shall be based upon load factors of 1.33 and 0.56 respectively. These loads shall be applied at the ground contact point, unless the landing gear is of the full-swivelling type in which case the loads shall be applied at the center of the axle. The conditions set forth in paragraphs (b) and (c) of this section shall be considered.

(b) Only the wheels aft of the c. g. shall be assumed to contact the ground. The vertical load shall be divided equally between the wheels. The side load shall be divided between the two wheels so that 60 percent of this load acts inboard on one wheel and 40 percent acts outboard on the other wheel.

(c) The forward and aft wheels shall be assumed to contact the ground simultaneously. The vertical and side loads on the aft wheels shall be divided in accordance with paragraph (a) of this section. Where the forward portion of the landing gear has two wheels, the loads applied to the forward wheels shall be divided between the two wheels in a 40:60 proportion.

§ 6.235 *Brake roll conditions.* The rotorcraft attitudes shall be assumed to be the same as those prescribed for the level landing conditions in § 6.231 (a), with the shock absorbers deflected to their static position. The limit vertical load shall be based upon a load factor of 1.33. A drag load equal to the vertical load multiplied by a coefficient of friction of 0.8 shall be applied at the ground contact point of each wheel equipped with brakes, except that the drag load need not exceed the maximum value based on limiting brake torque.

§ 6.236 *Taxying condition.* The rotorcraft and its landing gear shall be designed for loads which occur when the rotorcraft is taxied over the roughest ground which it is reasonable to expect in normal operation.

§ 6.237 *Energy absorption for landing conditions.* The landing gear shall be capable of absorbing the energy of a free drop from a height of 20 inches measured from the bottom of the tires to the ground, except that a lesser height shall be acceptable if the value chosen is shown to exceed by at least $\sqrt{1.5}$ the value corresponding with the greatest probable sinking speed of the rotorcraft at ground contact in power-off landings likely to be made by pilots of average skill. In no case shall the drop height be less than 12 inches. It shall be acceptable to neglect the weight of the rotor blades in the drop test. The maximum drop test acceleration developed at the c. g. of the rotorcraft shall be determined in this test.

§ 6.240 *Ski landing conditions.* The structure of a rotorcraft equipped with skis shall be designed in compliance with the loading conditions set forth in paragraphs (a) through (c) of this section:

(a) *Up load conditions.* (1) A vertical load of Pn and a horizontal load of $Pn/4$ shall be applied simultaneously at the pedestal bearings, P being the maximum static weight on each ski when the rotorcraft is loaded to the maximum design weight. The limit load factor n shall be determined in accordance with § 6.230 (d).

(2) A vertical load equal to 1.33 P shall be applied at the pedestal bearings. (For P see subparagraph (1) of this paragraph.)

(b) *Side load condition.* A side load of 0.35 Pn shall be applied in a horizontal plane perpendicular to the center line of the rotorcraft at the pedestal bearings. (For P see paragraph (a) (1) of this section.)

(c) *Torque load condition.* A torque load equal to 1.33 P (foot-pounds) shall be applied to the ski about the vertical axis through the center line of the pedestal bearings. (For P see paragraph (a) (1) of this section.)

§ 6.245 *Float landing conditions.* The structure of a rotorcraft equipped with floats shall be designed in compliance with the loading conditions set forth in paragraphs (a) and (b) of this section:

(a) *Up load conditions.* (1) With the rotorcraft assumed in the static level attitude a load shall be applied so that the resultant water reaction passes vertically through the center of gravity of the rotorcraft. The limit load factor shall be determined in accordance with § 6.230 (d).

(2) The vertical load prescribed in subparagraph (1) of this paragraph shall be applied together with an aft component equal to 0.25 the vertical component.

(b) *Side load condition.* The vertical load prescribed in paragraph (a) (1) of this section, divided equally between the floats, shall be applied together with a side component equal to 0.25 the total vertical load. The total side component shall be applied to one float only.

MAIN COMPONENT REQUIREMENTS

§ 6.250 *Main rotor structure.* The requirements of paragraphs (a) through (f) of this section shall apply to the main rotor assemblies including hubs and blades.

(a) The hubs, blades, blade attachments, and blade controls which are subject to alternating stresses shall be designed to withstand repeated loading conditions. The stresses of critical parts shall be determined in flight in all attitudes appropriate to the type rotorcraft throughout the ranges of limitations prescribed in § 6.204. The service life of such parts shall be determined by fatigue tests or by other methods found acceptable by the Administrator.

(b) The main rotor structure shall be designed to withstand the critical flight loads prescribed in §§ 6.210 through 6.213.

(c) The main rotor structure shall be designed to withstand the limit loads prescribed in §§ 6.210 through 6.213 under conditions of autorotation necessary for normal operation. The rotor rpm used shall be such as to include the effects of altitude.

(d) The rotor blades, hubs, and flapping hinges shall be designed to withstand a loading condition simulating the force of the blade impact against its stop during operation on the ground.

(e) The rotor assembly shall be designed to withstand loadings simulating other critical conditions which might be encountered in normal operation.

(f) The rotor assembly shall be designed to withstand, at all rotational speeds including zero, the maximum torque likely to be transmitted thereto in both directions. If a torque limiting device is provided in the transmission system the design limit torque need not be greater than the torque defined by the limiting device, except that in no case shall the design limit torque be less than the limit torque specified in § 6.251 (c). The design torque shall be distributed to the rotor blades in a rational manner.

§ 6.251 *Fuselage, landing gear, and rotor pylon structure.* The requirements of paragraphs (a) through (c) of this section shall apply to the fuselage, landing gear, and rotor pylon structure:

(a) The structure shall be designed to withstand the critical loads prescribed in §§ 6.210 through 6.213. It shall be permissible to represent the resultant rotor force as a single force applied at the hub attachment point. The balancing and inertia loads occurring under the accelerated flight conditions as well as the thrust from auxiliary rotors shall be considered.

(b) The structure shall be designed to withstand the applicable ground loads prescribed in §§ 6.230 through 6.245.

(c) The engine mount and adjacent fuselage structure shall be designed to withstand loads occurring in the rotorcraft under the accelerated flight and landing conditions, including the effects of engine torque loads. In the case of engines having 5 or more cylinders, the limit torque shall be obtained by multiplying the mean torque by a factor of 1.5. For 4-, 3-, and 2-cylinder engines the factors shall be 2, 3, and 4, respectively.

(d) The structure shall be designed to withstand the loads prescribed in § 6.250 (d) and (f).

EMERGENCY LANDING CONDITIONS

§ 6.260 *General.* The requirements of paragraphs (a) through (c) of this section deal with emergency conditions of landing on land or water in which the safety of the occupants shall be considered, although it is accepted that parts of the rotorcraft may be damaged.

(a) The structure shall be designed to give every reasonable probability that all of the occupants, if they make proper use of the seats, belts, and other provisions made in the design (see § 6.355), will escape serious injury in the event of a minor crash landing (with wheels up if the rotorcraft is equipped with retractable landing gear) in which the occupants experience the following ultimate inertia forces relative to the surrounding structure.

(1) Upward, 1.5*g* (Downward, 4.0g),

(2) Forward, 4.0*g*,

(3) Sideward, 2.0*g*.

(b) The use of a lesser value of the downward inertia force specified in paragraph (a) of this section shall be acceptable if it is shown that the rotorcraft structure can absorb the landing loads corresponding with the design maximum weight and an ultimate descent velocity of 5 fps without exceeding the value chosen.

(c) The inertia forces specified in paragraph (a) of this section shall be applied to all items of mass which would be apt to injure the passengers or crew if such items became loose in the event of a minor crash landing, and the supporting structure shall be designed to restrain these items.

SUBPART D—DESIGN AND CONSTRUCTION

GENERAL

§ 6.300 *Scope.* The rotorcraft shall not incorporate design features or details which experience has shown to be hazardous or unreliable. The suitability of all questionable design details or parts shall be established by tests.

§ 6.301 *Materials.* The suitability and durability of all materials used in the rotorcraft structure shall be established on the basis of experience or tests. All materials used in the rotorcraft structure shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data.

§ 6.302 *Fabrication methods.* The methods of fabrication employed in constructing the rotorcraft structure shall be such as to produce a consistently sound structure. When a fabrication process such as gluing, spot welding, or heat treating requires close control to attain this objective, the process shall be performed in accordance with an approved process specification.

§ 6.303 *Standard fastenings.* All bolts, pins, screws, and rivets used in the structure shall be of an approved type. The use of an approved locking device or method is required for all such bolts, pins, and screws. Self-locking nuts shall not be used on bolts which are subject to rotation in operation.

§ 6.304 *Protection.* (a) All members of the structure shall be suitably protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion, or other causes.

(b) Provision for ventilation and drainage of all parts of the structure shall be made where necessary for protection.

(c) In rotorcraft equipped with floats, special precautions shall be taken against corrosion from salt water, particularly where parts made from different metals are in close proximity.

§ 6.305 *Inspection provisions.* Means shall be provided to permit the close examination of those parts of the rotorcraft which require periodic inspection, adjustment for proper alignment and functioning, and lubrication of moving parts.

§ 6.306 *Material strength properties and design values.* (a) Material strength properties shall be based on a sufficient number of tests of material conforming to specifications to establish design values on a statistical basis.

(b) The design values shall be so chosen that the probability of any structure being understrength because of material variations is extremely remote.

(c) ANC–5a and ANC–18 values shall be used unless shown to be inapplicable in a particular case.[4]

(d) The structure shall be designed in so far as practicable to avoid points of stress concentration where variable stresses above the fatigue limit are likely to occur in normal service.

§ 6.307 *Special factors*—(a) *General.* Where there is uncertainty concerning the actual strength of a particular part of the structure, or where the strength is likely to deteriorate in service prior to

[4] ANC–5a, "Strength of Metal Aircraft Elements," and ANC–18, "Design of Wood Aircraft Structures," are published by the Army-Navy-Civil Committee on Aircraft Design Criteria and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

normal replacement of the part, or where the strength is subject to appreciable variability due to uncertainties in manufacturing processes and inspection methods, the factor of safety prescribed in § 6.200 (b) shall be multiplied by a special factor of a value such as to make the probability of the part being understrength from these causes extremely remote. The special factors set forth in paragraphs (b) through (d) of this section shall be used for this purpose.

(b) *Casting factors.* (1) Where only visual inspection of a casting is to be employed, the casting factor shall be 2.0, except that it need not exceed 1.25 with respect to bearing stresses.

(2) It shall be acceptable to reduce the factor of 2.0 specified in subparagraph (1) of this paragraph to a value of 1.25 if such a reduction is substantiated by testing at least three sample castings and if the sample castings as well as all production castings are visually and radiographically inspected in accordance with an approved inspection specification. During these tests the samples shall withstand the ultimate load multiplied by the factor of 1.25 and in addition shall comply with the corresponding limit load multiplied by a factor of 1.15.

(3) Casting factors other than those contained in subparagraphs (1) and (2) of this paragraph shall be acceptable if they are found to be appropriately related to tests and to inspection procedures.

(4) A casting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (c) of this section) is of greater magnitude than the casting factor.

(c) *Bearing factors.* (1) Bearing factors shall be used of sufficient magnitude to provide for the effects of normal relative motion between parts and in joints with clearance (free fit) which are subject to pounding or vibration.

(2) A bearing factor need not be employed on a part if another special factor prescribed in this section is of greater magnitude than the bearing factor.

(d) *Fitting factors.* (1) A fitting factor of at least 1.15 shall be used on all fittings the strength of which is not proven by limit and ultimate load tests in which the actual stress conditions are simulated in the fitting and the surrounding structure. This factor shall apply to all portions of the fitting, the means of attachment, and the bearing on the members joined.

(2) In the case of integral fittings the part shall be treated as a fitting up to the point where the section properties become typical of the member.

(3) The fitting factor need not be employed where a type of joint made in accordance with approved practices is based on comprehensive test data, e. g. continuous joints in metal plating, welded joints, and scarf joints in wood.

(4) A fitting factor need not be employed with respect to the bearing surface of a part if the bearing factor used (see paragraph (c) of this section) is of greater magnitude than the fitting factor.

MAIN ROTOR

§ 6.310 *Main rotor blades; pressure venting and drainage.* Internal pressure venting of the main rotor blades shall be provided. Drain holes shall be provided and, in addition, the blades shall be designed to preclude the possibility of water becoming trapped in any section of the blade.

§ 6.311 *Stops.* The rotor blades shall be provided with stops, as required for the particular design, to limit the travel of the blades about their various hinges. Provision shall be made to keep the blades from hitting the droop stops except during the starting and stopping of the rotor.

§ 6.312 *Rotor and blade balance.* Rotors and blades shall be mass balanced to the degree necessary to prevent excessive vibrations and to safeguard against flutter at all speeds up to the maximum forward speed.

CONTROL SYSTEMS

§ 6.320 *General.* All controls and control systems shall operate with ease, smoothness, and positiveness appropriate to their function. (See also §§ 6.350 and 6.353.)

§ 6.321 *Control system stops.* (a) All control systems shall be provided with stops which positively limit the range of motion of the pilot's controls.

(b) Control system stops shall be so located in the system that wear, slackness, or take-up adjustments will not appreciably affect the range of travel.

(c) Control system stops shall be capable of withstanding the loads corresponding with the design conditions for the control system.

§ 6.322 *Control system locks.* If a device is provided for locking the control system while the rotorcraft is on the ground or water, the provisions of paragraphs (a) and (b) of this section shall apply.

(a) A means shall be provided to give unmistakable warning to the pilot when the locking device is engaged.

(b) Means shall be provided to preclude the possibility of the lock becoming engaged during flight.

§ 6.323 *Static tests.* Tests shall be conducted on control systems to show compliance with limit load requirements in accordance with the provisions of paragraphs (a) through (c) of this section:

(a) The direction of the test loads shall be such as to produce the most severe loading in the control system.

(b) The tests shall include all fittings, pulleys, and brackets used in attaching the control system to the main structure.

(c) Analyses or individual load tests shall be conducted to demonstrate compliance with the special factor requirements for control system joints subjected to angular motion. (See §§ 6.307 and 6.325.)

§ 6.324 *Operation tests.* An operation test shall be conducted for each control system by operating the controls from the pilot compartment with the entire system loaded to correspond with loads specified for the control system. In this test there shall be no jamming, excessive friction, or excessive deflection.

§ 6.325 *Control system details.* All details of control systems shall be designed and installed to prevent jamming, chafing, and interference from cargo, passengers, and loose objects. Precautionary means shall be provided in the cockpit to prevent the entry of foreign objects into places where they would jam the control systems. Provisions shall be made to prevent the slapping of cables or tubes against other parts of the rotorcraft.

§ 6.326 *Spring devices.* The reliability of any spring devices used in the control system shall be established by tests simulating service conditions, unless it is demonstrated that failure of the spring will not cause flutter or unsafe flight characteristics.

§ 6.327 *Autorotation control mechanism.* The main rotor blade pitch control mechanism shall be arranged to permit rapid entry into autorotative flight in the event of power failure.

LANDING GEAR

§ 6.335 *Wheels.* Landing gear wheels shall be of an approved type and shall have limit load ratings equal to or greater than the limit loads determined in accordance with §§ 6.230 through 6.237.

§ 6.336 *Brakes.* A braking device shall be installed, controllable by the pilot and usable during power-off landings, which is adequate to insure:

(a) Counteraction of any normal unbalanced torque when starting or stopping the rotor,

(b) Holding the rotorcraft parked on a 10° slope on a dry, smooth pavement.

§ 6.337 *Tires.* Landing wheel tires shall be of an approved type. The maximum static load rating of the tire shall not be less than the static ground reaction obtained at the wheel, assuming the maximum design weight concentrated at the most unfavorable center of gravity position.

§ 6.338 *Skis.* Skis shall be of an approved type. The approved rating of the skids shall not be less than the maximum weight of the rotorcraft on which they are installed.

§ 6.339 *Ski installation.* (a) When used, a ski installation shall include a trimming gear and a restraining gear.

(b) The trimming gear shall be designed to maintain the ski in an appropriate position during flight. It shall have sufficient strength to withstand the maximum aerodynamic and inertia loads to which the ski is subjected.

(c) The restraining gear and the structure to which it is attached shall be designed to withstand a vertical load equal to 0.8 times the static vertical load on the ski, applied first at the forward end of the flat portion of the ski and secondly at the aft end of the flat portion. The restraining gear shall limit the angular travel of the ski, with the shock absorber both in the extended and the fully compressed positions, to such values as will accommodate the position assumed by the ski in the conditions set

forth in subparagraphs (1) and (2) of this paragraph:

(1) When the rotorcraft encounters an uphill slope of 7.5° max. in a level attitude.

(2) When the rotorcraft encounters a downhill slope of 7.5° max. in a tail-down position.

FLOATS

§ 6.340 *Buoyancy (main floats).* (a) Main floats shall have a buoyancy in excess of that required to support the maximum weight of the rotorcraft in fresh water as follows:

(1) 50 percent in the case of single floats,

(2) 60 percent in the case of double floats.

(b) Main floats for use on rotorcraft of 2,500 pounds or more maximum weight shall contain at least 5 watertight compartments of approximately equal volume. Main floats for use on rotorcraft of less than 2,500 pounds maximum weight shall contain at least four such compartments.

§ 6.341 *Float strength.* Floats shall be designed for the conditions set forth in paragraphs (a) and (b) of this section:

(a) *Bag type floats.* Bag type floats shall withstand the maximum pressure differential which might be developed at the maximum altitude for which the rotorcraft is designed. In addition, the float shall withstand the maximum expected vertical load distributed along the length of the bag over three-quarters of the projected bag area.

(b) *Rigid floats.* Rigid type floats shall withstand the maximum expected vertical, horizontal, and side loads. An appropriate load distribution under critical conditions shall be used.

PERSONNEL AND CARGO ACCOMMODATIONS

§ 6.350 *Pilot compartment; general.* (a) The arrangement of the pilot compartment and its appurtenances shall provide safety and assurance that the pilot will be able to perform all of his duties and operate the controls in the correct manner without unreasonable concentration and fatigue.

(b) When provision is made for a second pilot, the rotorcraft shall be controllable with equal safety from both seats.

(c) The pilot compartment shall be constructed to prevent leakage likely to be distracting to the crew or harmful to the structure when flying in rain or snow.

(d) Vibration and noise characteristics of cockpit appurtenances shall not interfere with the safe operation of the rotorcraft.

§ 6.351 *Pilot compartment vision.* The pilot compartment shall be arranged to afford the pilot a sufficiently extensive, clear, and undistorted view for the safe operation of the rotorcraft. During flight in a moderate rain condition the pilot shall have an adequate view of the flight path in normal flight and landing, and have sufficient protection from the elements so that his vision is not unduly impaired. The pilot compartment shall be free of glare and reflections which would interfere with the pilot's vision. For rotorcraft intended for night operation, the demonstration of these qualities shall include night flight tests.

§ 6.352 *Pilot windshield and windows.* All glass panes shall be of a nonsplintering safety type.

§ 6.353 *Controls.* (a) All cockpit controls shall be located to provide convenience in operation and in a manner tending to prevent confusion and inadvertent operation. (See also § 6.737.)

(b) The controls shall be so located and arranged with respect to the pilots' seats that there exists full and unrestricted movement of each control without interference from either the cockpit structure or the pilots' clothing when seated. This shall be demonstrated for individuals ranging from 5' 2" to 6' 0" in height.

§ 6.354 *Doors.* Closed cabins shall be provided with at least one adequate and easily accessible external door. No passenger door shall be so located with respect to the rotor discs as to endanger persons using the door.

§ 6.355 *Seats and berths.* On rotorcraft, manufactured on or after the effective date of this part, all seats and berths, including their supporting structure shall be designed for the loads resulting from all specified flight and landing conditions, including the emergency landing conditions of § 6.260. Reactions from safety belts and harnesses shall be taken into account.

§ 6.356 *Cargo and baggage compartments.* (See also § 6.382.) (a) Each cargo and baggage compartment shall be designed for the placarded maximum weight of contents and the critical load distributions at the appropriate maximum load factors corresponding with all specified flight and ground load conditions, excluding the emergency landing conditions of § 6.260.

(b) Provisions shall be made to prevent the contents in the compartments from becoming a hazard by shifting under the loads specified in paragraph (a) of this section.

(c) Provisions shall be made to protect the passengers and crew from injury by the contents of any compartment when the ultimate inertia force acting forward is 4g.

§ 6.357 *Emergency exits.* (a) Closed cabins on rotorcraft carrying more than 5 persons shall be provided with an emergency exit. An additional exit or exits shall be provided where the total seating capacity is more than 15. Emergency exits shall comply with the provisions of subparagraphs (1) through (6) of this paragraph. (See also § 6.738 (c)):

(1) An emergency exit shall consist of a movable window or panel or of an additional external door which provides a clear and unobstructed opening, the minimum dimensions of which shall be such that a 19 by 26 inch ellipse may be completely inscribed therein.

(2) An exit shall be readily accessible, shall not require exceptional agility of a person using it, and shall be so located as to facilitate egress without crowding in all probable attitudes resulting from a crash.

(3) The method of opening an emergency exit shall be simple and obvious, and the exit shall be so arranged and marked as to be readily located and operated even in darkness.

(4) Reasonable provisions shall be made against the jamming of emergency exits as a result of fuselage deformation.

(5) The emergency exit, or second door, shall be on the opposite side of the cabin from the main door.

(6) The proper functioning of emergency exits shall be demonstrated by tests.

§ 6.358 *Ventilation.* The ventilating system for the pilot and passenger compartments shall be so designed as to preclude the presence of excessive quantities of fuel fumes and carbon monoxide. The concentration of carbon monoxide shall not exceed 1 part in 20,000 parts of air under conditions of forward flight or hovering in zero wind. For other conditions of operation, if the carbon monoxide concentration exceed this value, suitable operating restrictions shall be provided.

FIRE PREVENTION

§ 6.380 *General.* The fire prevention requirements of this subpart apply to personnel and cargo compartments. Additional fire prevention requirements are prescribed in Subpart E, Powerplant Installation, and Subpart F, Equipment.

§ 6.381 *Cabin interiors.* All compartments occupied or used by the crew or passengers shall comply with the provisions of paragraphs (a) through (c) of this section:

(a) The materials in no case shall be less than flash-resistant.

(b) The wall and ceiling linings, the covering of all upholstering, floors, and furnishings shall be flame-resistant.

(c) Compartments where smoking is to be permitted shall be equipped with ash trays of the self-contained type which are completley removable. All other compartments shall be placarded against smoking.

§ 6.382 *Cargo and baggage compartments.* Cargo and baggage compartments which are remote from the pilot compartment shall be completely lined with fire resistant material, except that additional lining of flame-resistant material may be employed.

§ 6.383 *Heating systems*—(a) *General.* Heating systems involving the passage of cabin air over or in close proximity to the exhaust manifold shall not be used unless adequate precautions are incorporated in the design to prevent the introduction of carbon monoxide into the cabin or pilot compartment.

(b) *Heat exchangers.* Heat exchangers shall be constructed of suitable materials, shall be cooled adequately under all conditions, and shall be capable of easy disassembly for inspection.

(c) *Combustion heaters.* Gasoline-operated combustion heaters shall be of an approved type and shall be installed so as to comply with the applicable sections of the powerplant installation requirements covering fire hazards and precautions. All applicable requirements concerning fuel tanks, lines, and exhaust systems shall be considered. (See §§ 6.422 through 6.428 and 6.463.)

§ 6.384 *Fire protection of flight controls.* All primary flight controls passing through the engine compartment shall be constructed of fireproof material or shall be enclosed in a suitably ventilated and drained enclosure of 0.012-inch nominally thick stainless steel or material of equivalent fireproof qualities.

MISCELLANEOUS

§ 6.390 *Leveling marks.* Reference marks shall be provided for use in leveling the rotorcraft to facilitate weight and balance determinations on the ground.

§ 6.391 *Ballast provisions.* Ballast provisions shall be so designed and constructed as to prevent the inadvertent shifting of the ballast in flight. (See also §§ 6.105, 6.738, and 6.741 (c).)

SUBPART E—POWERPLANT INSTALLATION

GENERAL

§ 6.400 *Scope*—(a) *General.* The powerplant installation shall be considered to include all components of the rotorcraft which are necessary for its propulsion with the exception of the structure of the main and auxiliary rotors. It shall also be considered to include all components which affect the control of the major propulsive units or which affect their safety of operation between normal inspections or overhaul periods. (See §§ 6.604 and 6.613 for instrument installation and marking.) The requirements of paragraphs (b) through (d) of this section shall be applicable to all powerplants.

(b) All components of the powerplant installation shall be constructed, arranged, and installed in a manner which will assure their continued safe operation between normal inspections or overhaul periods.

(c) Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness.

(d) Electrical interconnections shall be provided to prevent the existence of differences of potential between major components of the powerplant installation and other portions of the rotorcraft.

§ 6.401 *Engine type certification.* All engines shall be type certificated in accordance with the provisions of Part 13 of this chapter.

§ 6.402 *Engine vibration.* The engine shall be installed to preclude harmful vibration of any of the engine parts or of any of the components of the rotorcraft. It shall be demonstrated by means of a vibration investigation that the addition of the rotor and the rotor drive system to the engine does not result in modification of engine vibration characteristics to the extent that the principal rotating portions of the engine are subjected to excessive vibratory stresses. It shall also be demonstrated that no portion of the rotor drive system is subjected to excessive vibratory stresses.

ROTOR DRIVE SYSTEM

§ 6.410 *Rotor drive mechanism.* The rotor drive mechanism shall incorporate a unit which will automatically disengage the rotor drive and engine from the main and auxiliary rotors in the event of power failure. The rotor drive mechanism shall be so arranged that all rotors necessary for control of the rotorcraft in autorotative flight will continue to be driven by the main rotor(s) after disengagement of the engine and rotor drive from the main and auxiliary rotors. If a torque limiting device is employed in the rotor drive system (see § 6.250 (f)), such device shall be located to permit continued control of the rotorcraft after it becomes operative.

§ 6.411 *Rotor brakes.* If a means is provided to control the rotation of the rotor drive system independent of the engine, the limitations on the use of such means shall be specified, and the control for this means shall be guarded to prevent inadvertent operation.

§ 6.412 *Rotor drive and control mechanism endurance tests.* (a) The rotor drive and control mechanism shall be tested for not less than 100 hours. The test shall be conducted on the rotorcraft, and the power shall be absorbed by the actual rotors to be installed, except that the use of other ground or flight test facilities with any other appropriate method of power absorption shall be acceptable provided that all conditions of support and vibration closely simulate the conditions which would exist during a test on the actual rotorcraft. The endurance tests shall include the tests required by paragraphs (b) through (g) of this section.

(b) A 60-hour portion of the endurance test shall be run at not less than the maximum continuous engine speed in conjunction with maximum continuous engine power. In this test the main rotor shall be set in the position which will give maximum longitudinal cyclic pitch change to simulate forward flight. The auxiliary rotor controls shall be in the position for normal operation under the conditions of the test.

(c) A 30-hour portion of the endurance test shall be run at not less than 90 percent of maximum continuous engine speed and 75 percent of maximum continuous engine power. The main and auxiliary rotor controls during this test shall be in the same position as prescribed in paragraph (b) of this section.

(d) A 10-hour portion of the endurance test shall be run at not less than take-off engine power and speed. The main and auxiliary rotor controls shall be in the normal position for vertical ascent during this test.

(e) The portions of the endurance test prescribed in paragraphs (b) and (c) of this section shall be conducted in intervals of not less than 30 minutes and may be accomplished either on the ground or in flight. The portion of the endurance test prescribed in paragraph (d) of this section may be conducted in intervals of 5 minutes or more.

(f) At intervals of not more than every 5 hours during the endurance tests prescribed in paragraphs (b), (c), and (d) of this section the engine shall be stopped rapidly enough to allow the engine and rotor drive to be automatically disengaged from the rotors.

(g) There shall be accomplished under the operating conditions specified in paragraph (b) of this section 500 complete cycles of lateral control and 500 complete cycles of longitudinal control of the main rotors, and 500 complete cycles of control of all auxiliary rotors. A complete control cycle shall be considered to involve movement of the controls from the neutral position, through both extreme positions, and back to the neutral position. The control cycling may be accomplished during the testing prescribed in paragraph (b) of this section or may be accomplished separately.

§ 6.413 *Additional tests.* Such additional dynamic, endurance, and operational tests or vibratory investigations shall be conducted as are found necessary by the Administrator to substantiate the airworthiness of the rotor drive mechanism.

§ 6.414 *Shafting critical speeds.* An investigation shall be made to determine that the critical speeds of all shafting lie outside the range of permissible engine speeds under idling, power-on, and autorotative conditions. It shall be demonstrated by actual operation that this condition is satisfied with the mechanism installed in the rotorcraft.

§ 6.415 *Shafting joints.* All universal joints, slip joints, and other shafting joints shall have provision for lubrication, unless it is demonstrated that lack of lubrication will have no adverse effect on the operation of the rotorcraft.

FUEL SYSTEM

§ 6.420 *Capacity and feed.* The usable fuel capacity shall not be less than 0.15 gallon per maximum continuous horsepower for which the rotorcraft is to be certificated. Gravity feed or mechanical pumping of fuel shall be employed. Air-pressure fuel systems shall not be allowed. The fuel supply system shall be arranged so that, in so far as practicable, the entire fuel supply can be utilized in the maximum inclinations of the fuselage for any sustained conditions of flight, and so that the feed ports will not be uncovered during normal maneuvers involving moderate rolling or sideslipping. The system shall also feed fuel promptly after one tank has run dry and another tank is turned on.

§ 6.421 *Unusable fuel supply.* The unusable fuel supply in each tank shall be that quantity at which the first evidence of malfunctioning occurs in any sustained flight condition at the most critical weight and center of gravity position within the approved limitations. The unusable fuel supply shall be determined for each tank used in normal operation. (See also §§ 6.104, 6.736, and 6.741 (e).)

§ 6.422 *Fuel tank construction and installation.* Fuel tanks shall be designed and installed in accordance with the provisions of paragraphs (a) through (e) of this section:

(a) Fuel tanks shall be capable of withstanding without failure all vibra-

tion, inertia, fluid, and structural loads to which they may be subjected in operation.

(b) Fuel tanks shall be capable of withstanding, without failure or leakage, an internal pressure equal to the pressure developed during the maximum limit acceleration with full tanks, except that in no case shall the minimum internal pressure be less than 3.5 lb./sq. in. for conventional type tanks or less than 2.0 lb./sq. in. for bladder type tanks.

(c) Fuel tanks of 10 gallons or greater capacity shall incorporate internal baffles unless external support is provided to resist surging.

(d) Fuel tanks shall be separated from the engine compartment by a fire wall. At least one-half inch clear air space shall be provided between the tank and fire wall.

(e) Spaces adjacent to the surfaces of fuel tanks shall be ventilated so that fumes cannot accumulate in the tank compartment in case of leakage. If two or more tanks have their outlets interconnected, they shall be considered as one tank. The air spaces in such tanks shall be interconnected to prevent the flow of fuel from one tank to another as a result of a difference in pressure in the respective tank air spaces.

§ 6.423 *Fuel tank details*—(a) *Expansion space.* Fuel tanks shall be provided with an expansion space of not less than 2 percent of the tank capacity. It shall not be possible to fill the fuel tank expansion space inadvertently when the rotorcraft is in the normal ground attitude.

(b) *Sump.* Each fuel tank shall incorporate a sump and drain located at the point in the tank which is the lowest when the rotorcraft is in the normal ground attitude. The main fuel supply shall not be drawn from the bottom of the sump.

(c) *Filler connection.* The design of fuel tank filler connections shall be such as to prevent the entrance of fuel into the fuel tank compartment or to any other portion of the rotorcraft other than the tank itself. (See also § 6.738 (b) (1).)

(d) *Vents.* Fuel tanks shall be vented from the top portion of the expansion space in such a manner that venting of the tank is effective under all normal flight conditions. The air vents shall be arranged to minimize the possibility of stoppage by dirt or ice formation.

(e) *Outlet.* Fuel tank outlets shall be provided with large-mesh finger strainers.

§ 6.424 *Fuel pumps.* If a mechanical pump is employed, an emergency pump shall also be installed to be available for immediate use in case of failure of the mechanical pump. Pumps of appropriate capacity may also be used for pumping fuel from an auxiliary tank to a main fuel tank. Mechanical pump systems shall be so arranged that they cannot feed from more than one tank at a time.

§ 6.425 *Fuel system lines and fittings.* (a) Fuel lines shall be installed and supported to prevent excessive vibration and to withstand loads due to fuel pressure and due to accelerated flight conditions.

(b) Fuel lines which are connected to components of the rotorcraft between which relative motion could exist shall incorporate provisions for flexibility.

(c) Flexible hose shall be of an approved type.

(d) All fuel lines and fittings shall be of sufficient size so that the fuel flow, with the fuel being supplied to the carburetor at the minimum pressure for proper carburetor operation, is not less than the following:

(1) For gravity feed systems: double the normal flow required to operate the engine at take-off power;

(2) For pump systems: 1.5 times the normal flow required to operate the engine at take-off power.

(e) A test for proof of compliance with the applicable flow requirements shall be conducted.

§ 6.426 *Valves.* A positive and quick-acting valve which will shut off all fuel to each engine individually shall be provided. The control for this valve shall be within easy reach of appropriate flight personnel. In the case of rotorcraft employing more than one source of fuel supply, provision shall be made for independent feeding from each source. The shutoff valve shall not be located closer to the engine than the remote side of the fire wall.

§ 6.427 *Strainers.* A strainer incorporating a sediment trap and drain shall be provided in the fuel system between the fuel tanks and the engine and shall be installed in an accessible position. The screen shall be easily removable for cleaning. If an engine-driven fuel pump is provided, the strainer shall be located between the fuel tank and the pump.

§ 6.428 *Drains.* One or more accessible drains shall be provided at the lowest point in the fuel system to drain completely all parts of the system when the rotorcraft is in its normal position on level ground. Such drains shall discharge clear of all parts of the rotorcraft and shall be equipped with safety locks to prevent accidental opening.

§ 6.429 *Fuel quantity indicator.* The fuel quantity indicator (see § 6.613 (b)) shall be installed to indicate clearly to the flight crew the quantity of fuel in each tank while in flight. When two or more tanks are closely interconnected by a gravity feed system and vented, and when it is impossible to feed from each tank separately, only one fuel quantity indicator need be installed. If exposed sight gauges are employed they shall be installed and guarded to preclude the possibility of breakage or damage.

OIL SYSTEM

§ 6.440 *General.* (a) Each engine shall be provided with an independent oil system capable of supplying the engine with an appropriate quantity of oil at a temperature not exceeding the maximum which has been established as safe for continuous operation. (For oil system instruments see §§ 6.604 and 6.735.)

(b) The usable oil capacity shall not be less than the product of the endurance of the rotorcraft under critical operating conditions and the maximum oil consumption of the engine under the same conditions, to which product a suitable margin shall be added to assure adequate circulation and cooling of the oil system. In lieu of a rational analysis of rotorcraft endurance and oil consumption, the total oil capacity of 1 gallon for each 30 gallons of fuel capacity shall be considered acceptable.

(c) The ability of the oil cooling provisions to maintain the oil inlet temperature to the engine at or below the maximum established value shall be demonstrated by flight tests.

§ 6.441 *Oil tank construction and installation.* Oil tanks shall be designed and installed in accordance with the provisions of paragraphs (a) through (e) of this section:

(a) Oil tanks shall be capable of withstanding without failure all vibration, inertia, fluid, and structural loads to which they may be subjected in operation.

(b) Oil tanks shall be capable of withstanding without failure or leakage an internal pressure of 5 lbs/sq. in.

(c) Oil tanks shall be provided with an expansion space of not less than 10 percent of the tank capacity, nor less than one-half gallon.

(d) Oil tanks shall be vented.

(e) Provision shall be made in the filler opening to prevent oil overflow from entering the compartment in which the oil tank is located. (See also § 6.738 (b) (2).)

§ 6.442 *Oil lines and fittings.* (a) Oil lines shall be supported to prevent excessive vibration.

(b) Oil lines which are connected to components of the rotorcraft between which relative motion could exist shall incorporate provisions for flexibility.

(c) Flexible hose shall be of an approved type.

(d) Oil lines shall have an inside diameter not less than the inside diameter of the engine inlet or outlet, and shall have no splices between connections.

§ 6.443 *Oil drains.* One or more accessible drains shall be provided at the lowest point in the oil system to drain completely all parts of the system when the rotorcraft is in its normal position on level ground. Such drains shall discharge clear of all parts of the rotorcraft and shall be equipped with safety locks to prevent accidental opening.

§ 6.444 *Oil quantity gauge.* An oil quantity indicator (see § 6.735) shall be installed to indicate during the filling operation the amount of oil in the oil tank.

§ 6.445 *Oil temperature indication.* A means shall be provided for measuring during flight the oil temperature at the engine inlet. If a separate oil system is provided for the main rotor drive, a means shall also be provided to give a warning in flight when the oil temperature has exceeded a safe value. (See § 6.604.)

§ 6.446 *Oil pressure indication.* If the main rotor drive incorporates an independent oil pressure system, a means shall be provided to give a warning in flight when the oil pressure has fallen below a safe value.

COOLING SYSTEM

§ 6.450 *General.* The cooling system shall be capable of maintaining engine temperatures within safe operating limits under all conditions of flight during a period at least equal to that established by the fuel capacity of the rotorcraft, assuming normal engine power and speeds.

§ 6.451 *Cooling tests.* Compliance with the provisions of § 6.450 shall be demonstrated in flight tests in which engine temperature measurements are obtained under critical flight conditions. Such tests shall be conducted in air at temperatures corresponding with the maximum anticipated air temperatures as specified in paragraph (a) of this section. If the tests are conducted under conditions which deviate from the maximum anticipated air temperature, the recorded powerplant temperatures shall be corrected in accordance with the provisions of paragraphs (b) and (c) of this section. The corrected temperatures determined in this manner shall not exceed the maximum established safe values. The fuel used during the cooling tests shall be of the minimum octane number approved for the engines involved, and the mixture settings shall be those used in normal operation:

(a) *Maximum anticipated air temperature.* The maximum anticipated air temperature (hot day condition) shall be 100° F. at sea level, decreasing from this value at the rate of 3.6° F. per thousand feet of altitude above sea level until a temperature of −67° F. is reached above which altitude the temperature shall be constant at −67° F.

(b) *Correction factor for cylinder head and oil inlet temperatures.* The cylinder head and oil inlet temperatures shall be corrected by adding the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of maximum cylinder head or oil inlet temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

(c) *Correction factor for cylinder barrel temperatures.* Cylinder barrel temperatures shall be corrected by adding 0.7 of the difference between the maximum anticipated air temperature and the temperature of the ambient air at the time of the first occurrence of the maximum cylinder barrel temperature recorded during the cooling test, unless a more rational correction is shown to be applicable.

§ 6.452 *Coolant system.* The coolant system for liquid-cooled engines shall be designed and installed in accordance with the provisions of paragraphs (a) through (d) of this section:

(a) *Filler openings.* Provision shall be made in coolant tank filler openings to prevent coolant overflow from entering the compartment in which the tank is located. (See also § 6.738 (b) (3).)

(b) *Lines.* Lines and connections shall conform to accepted standards and by their presence shall not induce vibration to the radiator or to the structure of the rotorcraft.

(c) *Radiators.* Radiators shall be so mounted as not to induce vibrations and strains causing distortion.

(d) *Drains.* One or more accessible drains shall be provided at the lowest point in any liquid coolant system to drain completely all parts of the system when the rotorcraft is in its normal position on level ground. Such drains shall discharge clear of all parts of the rotorcraft and shall be equipped with safety locks to prevent accidental opening.

INDUCTION AND EXHAUST SYSTEMS

§ 6.460 *General.* The induction and exhaust systems shall be designed in accordance with accepted practice.

§ 6.461 *Air induction.* (a) The engine air induction system shall be designed to supply the proper quantity of air to the engine under all conditions of operation.

(b) Cold air intakes shall open completely outside the cowling unless the emergence of backfire flames is positively prevented.

(c) Carburetor air intakes shall be provided with drains. The drains shall not discharge fuel in the possible path of exhaust flames.

§ 6.462 *Induction system de-icing and anti-icing provisions.* (a) The engine air induction system shall incorporate means for the prevention and elimination of ice accumulations. Unless it is demonstrated that this can be accomplished by other means, compliance with the following heat rise provisions shall be demonstrated in air free of visible moisture at a temperature of 30° F. when the engine is operating at 75 percent of its maximum continuous power.

(b) Rotorcraft equipped with sea level engines employing conventional venturi carburetors shall have a preheater capable of providing a heat rise of 90° F.

(c) Rotorcraft equipped with sea-level engines employing carburetors which embody features tending to reduce the possibility of ice formation shall have a preheater capable of providing a heat rise of 70° F.

(d) Rotorcraft equipped with altitude engines employing conventional venturi carburetors shall have a preheater capable of providing a heat rise of 120° F.

(e) Rotorcraft equipped with altitude engines employing carburetors which embody features tending to reduce the possibility of ice formation shall have a preheater capable of providing a heat rise of 100° F., except that if a fluid deicing system is used the heat rise need not be greater than 40° F.

§ 6.463 *Exhaust manifolds.* (a) Exhaust manifolds shall be designed to provide for expansion, and shall be arranged and cooled so that local hot points cannot form.

(b) Exhaust manifolds shall be installed in accordance with the requirements of subparagraphs (1) through (3) of this paragraph:

(1) Exhaust manifolding shall be such that exhaust gases are discharged clear of cowling, rotorcraft structure, carburetor air intake, and fuel system parts or drains.

(2) Exhaust manifolding shall not be located immediately adjacent to or under the carburetor or fuel system parts unless such parts are protected against leakage.

(3) Exhaust manifolding shall be such that exhaust gases do not discharge in a manner which would impair pilot vision at night due to glare.

POWERPLANT CONTROLS AND ACCESSORIES

§ 6.470 *Powerplant controls; general.* The provisions of § 6.353 shall be applicable to all powerplant controls with respect to location and arrangement, and the provisions of § 6.737 shall be applicable to all powerplant controls with respect to marking. All flexible powerplant controls shall be of an approved type.

§ 6.471 *Throttle controls.* (a) A separate throttle control shall be provided for each engine. Throttle controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines.

(b) Throttle controls shall afford a positive and immediately responsive means of controlling the engines.

§ 6.472 *Ignition switches.* (a) Means shall be provided for quickly shutting off all ignition by the grouping of switches or by providing a master ignition control.

(b) If a master ignition control is provided, a guard shall be incorporated to prevent inadvertent operation of the control.

§ 6.473 *Mixture controls.* If mixture controls are provided, a separate control shall be provided for each engine. The mixture controls shall be grouped and arranged to permit separate control of each engine and also simultaneous control of all engines.

§ 6.474 *Powerplant accessories.* Engine mounted accessories shall be of a type approved for installation on the engine involved, and shall utilize the provisions made on the engine for mounting.

POWERPLANT FIRE PROTECTION

§ 6.480 *General.* The powerplant installation shall be protected against fire in accordance with §§ 6.481 through 6.484. Additional fire prevention requirements are prescribed in Subpart D, Design and Construction, and Subpart F, Equipment.

§ 6.481 *Ventilation.* Compartments which include powerplant installation shall have provision for ventilation.

§ 6.482 *Shut-off means.* Means shall be provided to shut off the flow in all lines carrying flammable fluids into the engine compartment, except that a shut-off means need not be provided in lines forming an integral part of an engine. Provision shall be made to guard against inadvertent operation of the shut-off means, and to make it possible for the crew to reopen the shut-off means in flight after it has once been closed.

§ 6.483 *Fire wall.* (a) All engines, auxiliary power units, fuel-burning heat-

ers, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the rotorcraft by means of fire walls, shrouds, or other equivalent means.

(b) Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of air, fluids, or flame can pass from the engine compartment to other portions of the rotorcraft.

(c) All openings in the fire wall or shroud shall be sealed with close fitting fireproof grommets, bushings, or fire-wall fittings.

(d) Fire walls and shrouds shall be constructed of fireproof material and shall be protected against corrosion.

§ 6.484 *Engine cowling and engine compartment covering.* (a) Cowling or engine compartment covering shall be constructed and supported so as to make it capable of resisting all vibration, inertia, and air loads to which it would be subjected in operation.

(b) Provision shall be made to permit rapid and complete drainage of all portions of the cowling or engine compartment in all normal ground and flight attitudes. Drains shall not discharge in locations which might cause a fire hazard.

(c) Cowling or engine compartment covering shall be constructed of fire-resistant material.

(d) Those portions of the cowling or engine compartment covering which would be subjected to high temperatures due to their proximity to exhaust system parts or exhaust gas impingement shall be constructed of fireproof material.

SUBPART F—EQUIPMENT

GENERAL

§ 6.600 *Scope.* The required basic equipment as prescribed in this subpart is the minimum which shall be installed in the rotorcraft for certification. Such additional equipment as is necessary for a specific type of operation is prescribed in the operating rules of the Civil Air Regulations.

§ 6.601 *Functional and installation requirements.* Each item of equipment installed in a rotorcraft shall be:

(a) Of a type and design appropriate to perform its intended function,

(b) Labeled as to its identification, function, or operational limitations, or any combination of these, whichever is applicable,

(c) Installed in accordance with specified limitations of the equipment,

(d) Demonstrated to function properly in the rotorcraft.

§ 6.602 *Required basic equipment.* The equipment listed in §§ 6.603 through 6.605 shall be the required basic equipment. (See §6.600.)

§ 6.603 *Flight and navigational instruments.* (See § 6.612 for installation requirements):

(a) Air-speed indicator (see § 6.612 (a)),

(b) Altimeter,

(c) Magnetic direction indicator (see § 6.612 (c)).

§ 6.604 *Powerplant instruments.* (See § 6.613 for installation requirements):

(a) For each engine or tank there shall be installed:

(1) A fuel quantity indicator (see § 6.613 (b)),

(2) An oil pressure indicator,

(3) An oil temperature indicator (see § 6.613 (g)),

(4) A carburetor air temperature indicator (see § 6.613 (f)),

(5) A tachometer to indicate engine rpm and rotor rpm for the main rotor, or for each main rotor the speed of which can vary appreciably with respect to another main rotor.

(b) For each engine or tank (if required in reference section) there shall be installed:

(1) A coolant temperature indicator, if liquid-cooled engines are used (see § 6.613 (h)),

(2) A cylinder head temperature indicator (see § 6.613 (e)),

(3) A fuel pressure indicator (if pump-fed engines are used),

(4) A manifold pressure indicator (if altitude engines are used),

(5) An oil quantity indicator (see § 6.613 (d)).

§ 6.605 *Miscellaneous equipment.* (a) Approved seats for all occupants (see § 6.355),

(b) Approved safety belts for all occupants (see § 6.643),

(c) Master switch arrangement (see §§ 6.623 and 6.624),

(d) Source(s) of electrical energy (see §§ 6.620 through 6.622), where such electrical energy is necessary for operation of the rotorcraft,

(e) Electrical protective devices (see § 6.625).

INSTRUMENTS; INSTALLATION

§ 6.610 *General.* The provisions of §§ 6.611 through 6.613 shall apply to the installation of instruments in rotorcraft.

§ 6.611 *Arrangement and visibility of instrument installations.* (a) Flight, navigation, and powerplant instruments for use by each pilot shall be easily visible to him.

(b) On multiengine rotorcraft, identical powerplant instruments for the several engines shall be so located as to prevent any confusion as to the engines to which they relate.

(c) The vibration characteristics of the instrument panel shall be such as not to impair seriously the readability or the accuracy of the instruments or to damage them.

§ 6.612 *Flight and navigational instruments*—(a) *Air-speed indicating system.* The air-speed indicating system shall be so installed that the air-speed indicator shall indicate true air speed at sea level under standard conditions to within an allowable installational error of not more than plus or minus 3 percent of the calibrated air speed or 5 mph, whichever is greater. The calibration shall be made in flight at all forward speeds of 10 mph or over. The allowable installation error shall not be exceeded at any forward speed of 20 mph and over. (See § 6.732.)

(b) *Static air-vent system.* All instruments provided with static air case connections shall be so vented that the influence of rotorcraft speed, the opening and closing of windows, air-flow variation, moisture, or other foreign matter will not seriously affect their accuracy.

(c) *Magnetic direction indicator.* The magnetic direction indicator shall be so installed that its accuracy shall not be excessively affected by the airplane's vibration or magnetic fields. After the direction indicator has been compensated, the installation shall be such that the deviation in level flight does not exceed 10° on any heading. A suitable calibration placard shall be provided as specified in § 6.733.

§ 6.613 *Powerplant instruments*—(a) *Instrument lines.* Instrument lines shall comply with the provisions of § 6.425. In addition, instrument lines carrying flammable fluids or gases under pressure shall be provided with restricted orifices or equivalent safety devices at the source of the pressure to prevent the escape of excessive fluid or gas in case of line failure.

(b) *Fuel quantity indicator.* Fuel quantity indicators shall be calibrated to read zero during level flight when the quantity of fuel remaining in the tank is equal to the unusable fuel supply as defined by § 6.421. (See also § 6.736.)

(c) *Fuel flowmeter system.* When a flowmeter system is installed, the metering component shall include a means for by-passing the fuel supply in the event that malfunctioning of the metering component results in a severe restriction to fuel flow.

(d) *Oil quantity indicator.* (1) A stick gauge or other equivalent means shall be provided to indicate the quantity of oil in each tank. (See § 6.735.)

(2) If an oil transfer system or a reserve oil supply system is installed, means shall be provided to indicate to the crew during flight the quantity of oil in each tank.

(e) *Cylinder head temperature indicator.* A cylinder head temperature indicator shall be provided for each engine or rotorcraft equipped with cooling shutters. In the case of rotorcraft which do not have cooling shutters, an indicator shall be provided if compliance with the provisions of § 6.451 is demonstrated in a condition other than the most critical cooling flight condition.

(f) *Carburetor air temperature indicating system.* A carburetor air temperature indicating system shall be provided for each engine equipped with a preheater which is capable of providing a heat rise in excess of 60° F.

(g) *Oil temperature indicator.* Means shall be provided to indicate to the appropriate members of the flight crew, during flight, the oil inlet temperature of each engine.

(h) *Coolant temperature indicator.* Means shall be provided to indicate to the appropriate members of the flight crew, during flight, the coolant outlet temperature of each liquid-cooled engine.

ELECTRICAL SYSTEMS AND EQUIPMENT

§ 6.620 *Installation.* (a) Electrical systems and equipment shall be free from hazards in themselves, in their method of operation, and in their effects on other parts of the rotorcraft. They shall be protected from fuel, oil, water, other detrimental substances, and from mechanical damage.

(b) The design of all components of the electrical system shall be appropriate for the intended use, and the components shall be capable of satisfactory operation over the entire range of environmental conditions encountered in the operation of the rotorcraft.

(c) Electrical sources of power shall have sufficient capacity during all normal flight operating conditions to supply maximum peaks and short-time and continuous electrical load requirements. For emergency operating conditions the capacity of electrical power sources shall be sufficient for all electrical loads necessary to permit a safe landing.

§ 6.621 *Batteries.* A battery or batteries shall be provided consistent with the needs of the electrical system in meeting the requirements of electrical power capacity. The installation shall provide adequate ventilation and drainage for the battery under all operating conditions, and means shall be provided to prevent corrosive battery substance from coming in contact with other parts of the rotorcraft during servicing or in flight.

§ 6.622 *Generator system*—(a) *Generator.* Sources of electrical power (including the battery) shall act coordinately, and shall also be capable of independent operation. The generator(s) shall be capable of delivering sufficient power to keep the batteries charged, and in addition shall provide for the normal electrical power requirements of the rotorcraft.

(b) *Generator controls.* Generator voltage control equipment shall be capable of regulating the generator output within rated limits.

(c) *Reverse current cut-off.* A generator reverse current cut-off shall disconnect the generator from the battery and from other generators when the generator is developing a voltage of such value that current sufficient to cause malfunctioning can flow into the generator.

§ 6.623 *Master switch.* A master switch arrangement shall be provided which will disconnect all sources of electrical power from the main distribution system at a point adjacent to the power sources.

§ 6.624 *Master switch installation.* The master switch or its controls shall be so installed that it is easily discernible and accessible to a member of the crew in flight.

§ 6.625 *Protective devices.* Protective devices (fuses or circuit breakers) shall be installed in the circuits to all electrical equipment, except that such items need not be installed in the main circuits of starter motors or in other circuits where no hazard is presented by their omission. If fuses are used, one spare of each rating or 50 percent spare fuses of each rating, whichever is the greater, shall be provided.

§ 6.626 *Protective devices installation.* Protective devices in circuits used in flight shall be conveniently located and properly identified to facilitate replacement of fuses or resetting of circuit breakers in flight.

§ 6.627 *Electric cables.* The electric cables used shall be in accordance with approved standards for aircraft electric cable of a slow-burning type. They shall have current-carrying capacity sufficient to deliver the necessary power to the items of equipment to which they are connected.

§ 6.628 *Switches.* Switches shall be capable of carrying their rated current. They shall be accessible to the crew and shall be labeled as to operation and the circuit controlled.

LIGHTS

§ 6.630 *Instrument lights.* (a) Instrument lights shall provide sufficient illumination to make all instruments, switches, etc., easily readable.

(b) Instrument lights shall be so installed that their direct rays are shielded from the pilot's eyes and so that no objectionable reflections are visible to him.

§ 6.631 *Landing lights.* (a) Landing and hovering lights shall be of an approved type.

(b) Landing lights shall be installed so that there is no objectionable glare visible to the pilot and so that the pilot is not adversely affected by halation.

(c) Landing lights shall be installed in a location where they provide the necessary illumination for night operation including hovering and landing.

(d) A switch for each light shall be provided, except that where multiple lights are installed at one location a single switch for the multiple lights shall be acceptable.

§ 6.632 *Position light system.* If a position light system is installed, it shall be of a type certificated in accordance with Part 15 of this chapter of the Civil Air Regulations, and shall comply with the pertinent provisions of that part.

§ 6.633 *Installation requirements.* The installation requirements of paragraphs (a) through (c) of this section apply to single circuit systems and shall be complied with if this type system is installed: *

(a) *Forward and rear position lights.* Single circuit systems shall consist of an aviation red light, an aviation green light, and an aviation white light. The red and the green lights shall be referred to as forward position lights and shall be so installed that, with the rotorcraft in normal flying position, the red light is displayed on the left side and the green light on the right side, each showing unbroken light between two vertical planes the dihedral angle of which is 110° when measured to the left and right, respectively, of the rotorcraft from dead ahead. These lights shall be spaced laterally as far apart as practicable. The white light shall be referred to as a rear position light, and shall be mounted as far aft as practicable and so installed that unbroken light is directed symmetrically aft in such a manner that the axis of the maximum cone of illumination is parallel to the forward flight path. In addition, the intersection of the two planes forming dihedral angle A given in Part 15 of this chapter shall be vertical.

(b) *Circuit.* The forward position lights and the rear white position light shall constitute the single circuit.

(c) *Position light flasher.* If installed, a position light flasher shall be of a type acceptable to the Administrator.

§ 6.636 *Riding light.* (a) When a riding (anchor) light is required for a rotorcraft operated from water, it shall be capable of showing a white light for at least 2 miles at night under clear atmospheric conditions.

(b) Riding lights shall be installed so that they will show a maximum practicable unbroken light when the rotorcraft is moored or drifting on the water. Externally hung lights shall be permitted.

SAFETY EQUIPMENT

§ 6.640 *General.* Required safety equipment which the crew is expected to operate at a time of emergency, such as flare and automatic life-raft releases, shall be readily accessible. (See also § 6.738 (e).)

§ 6.641 *Flares.* When parachute flares are required, they shall be of an approved type.

§ 6.642 *Flare installation.* (a) Parachute flares shall be releasable from the pilot compartment and installed to minimize the danger of accidental discharge.

(b) It shall be demonstrated in flight that the flare installation is such that ejection can be accomplished without hazard to the rotorcraft and its occupants.

(c) If recoil loads are involved in the ejection of the flares, the structure of the rotorcraft shall withstand such loads.

§ 6.643 *Safety belts.* Rotorcraft manufactured on or after the effective date of this part shall be equipped with safety belts approved in accordance with § 6.19. In no case shall the rated strength of the safety belt be less than that corresponding with the ultimate load factors specified, taking due account of the dimensional characteristics of the safety belt installation for the specific seat or berth arrangement. Safety belts shall be attached so that no part of the anchorage will fail at a load lower than that corresponding with the ultimate load factors specified. (See § 6.260.)

§ 6.644. *Emergency flotation and signaling equipment.* When emergency flotation and signaling equipment is required by the operating rules of the Civil Air Regulations, such equipment shall comply with the provisions of paragraphs (a) through (c) of this section.

* Installation requirements for dual circuit position light systems are contained in Part 4b of this chapter of the Civil Air Regulations.

(a) Rafts and life preservers shall be installed so as to be readily available to the crew and passengers.

(b) Rafts released automatically or released by the pilot shall be attached to the rotorcraft by means of a line to keep them alongside the rotorcraft.

(c) Signaling devices shall be free from hazard in their operation and shall be installed in an accessible location.

MISCELLANEOUS EQUIPMENT

§ 6.650 *Hydraulic systems*—(a) *Design.* Hydraulic systems and elements shall withstand, without exceeding the yield point, all structural loads which are expected to be imposed in addition to the hydraulic loads.

(b) *Tests.* Hydraulic systems shall be substantiated by proof pressure tests. When proof tested, no part of a hydraulic system shall fail, malfunction, or experience a permanent set. The proof load of any system shall be 1.5 times the maximum operating pressure of that system.

(c) *Accumulators.* Hydraulic accumulators or pressurized reservoirs shall not be installed on the engine side of the fire wall, except when they form an integral part of the engine.

SUBPART G—OPERATING LIMITATIONS AND INFORMATION

GENERAL

§ 6.700 *Scope.* (a) The operating limitations in §§ 6.710 through 6.718 shall be established as prescribed in this part.

(b) The operating limitations, together with any other information concerning the rotorcraft found necessary for safety during operation, shall be included in the Rotorcraft Flight Manual (§ 6.740), shall be expressed as markings and placards (§ 6.730), and shall be made available by such other means as will convey the information to the crew members.

OPERATING LIMITATIONS

§ 6.710 *Air-speed limitations; general.* When air-speed limitations are a function of weight, weight distribution, altitude, or other factors, the values corresponding with all critical combinations of these values shall be established.

§ 6.711 *Never-exceed speed* V_{NE}. (a) The never-exceed speed shall be established. It shall not be less than the maximum level flight speed with all engines operating at maximum continuous rpm and 90 percent of maximum continuous power, nor greater than either of the following:

(1) $0.9V$ established in accordance with § 6.204,

(2) 0.9 times the maximum speed demonstrated in accordance with § 6.140.

(b) It shall be permissible to vary the never-exceed speed with altitude and rotor rpm, provided that the ranges of these variables are sufficiently large to allow an operationally practical and safe variation of the never-exceed speeds.

§ 6.712 *Operating speed range.* An operating speed range shall be established for each rotorcraft.

§ 6.713 *Rotor speed.* Rotor r. p. m. limitations shall be established as set forth in paragraphs (a) and (b) of this section:

(a) *Maximum power off (autorotation).* Not to exceed 95 percent of the maximum design r. p. m. determined under § 6.204 (b) or 95 percent of the maximum r. p. m. demonstrated during the type tests (see § 6.103 (b)), whichever is lower.

(b) *Minimum*—(1) *Power off.* Not less than 105 percent of the higher of the following:

(i) The minimum demonstrated during the type tests (see § 6.103 (b)),

(ii) The minimum determined by design substantiation.

(2) *Power on.* Not less than the higher of the following:

(i) The minimum demonstrated during the type tests (see § 6.103 (a)),

(ii) The minimum determined by design substantiation and not higher than a value determined in compliance with § 6.103 (a).

§ 6.714 *Powerplant limitations.* The powerplant limitations set forth in paragraphs (a) through (c) of this section shall be established for the rotorcraft. They shall not exceed the corresponding limits established as a part of the type certification of the engine installed on the rotorcraft:

(a) *Take-off operation.* The take-off operation shall be limited by:

(1) The maximum rotational speed, which shall not be greater than the maximum value determined by the rotor design, nor greater than the maximum value demonstrated during type tests,

(2) The maximum permissible manifold pressure,

(3) The time limit upon the use of the corresponding power,

(4) The maximum allowable cylinder head, coolant outlet, or oil temperatures, if applicable when the time limit of subparagraph (3) of this paragraph exceeds two minutes.

(b) *Continuous operation.* The continuous operation shall be limited by:

(1) The maximum rotational speed, which shall not be greater than the maximum value determined by the rotor design, nor greater than the maximum value demonstrated during type tests,

(2) The minimum rotational speed demonstrated in compliance with the rotor speed requirements as prescribed in § 6.713 (b) (2).

(c) *Fuel octane rating.* The minimum octane rating of fuel shall be established for satisfactory operation of the powerplant within the limitations prescribed in paragraphs (a) and (b) of this section.

§ 6.715 *Limiting height for autorotative landing.* If a range of heights exists at any speed, including zero, within which it is not possible to make a safe landing following power failure, the range of heights and its variation with forward speed shall be established together with any other pertinent information, such as type of landing surface. (See § 6.741 (f).)

§ 6.716 *Rotorcraft weight and center of gravity limitations.* The rotorcraft weight and c. g. limitations to be established are those required to be determined by §§ 6.101 and 6.102.

§ 6.717 *Minimum flight crew.* The minimum flight crew shall be established by the Administrator as that number of persons which he finds necessary for safety in the operations authorized under § 6.718. This finding shall be based upon the work load imposed upon individual crew members with due consideration given to the accessibility and the ease of operation of all necessary controls by the appropriate crew members.

§ 6.718 *Types of operation.* The type of operation to which a rotorcraft is limited shall be established on the basis of flight characteristics and the equipment installed. (See the operating parts of the Civil Air Regulations.)

§ 6.719 *Maintenance manual.* The applicant shall furnish with each rotorcraft a maintenance manual to contain information which he considers essential for the proper maintenance of the rotorcraft. The maintenance manual shall include recommended limits on service life or retirement periods for major components of the rotorcraft:

MARKINGS AND PLACARDS

§ 6.730 *General.* (a) The markings and placards specified in §§ 6.731 through 6.738 are required for all rotorcraft.

(b) Markings and placards shall be displayed in conspicuous places and shall be such that they cannot be easily erased, disfigured, or obscured.

(c) Additional information, placards, and instrument markings having a direct and important bearing on safe operation of the rotorcraft shall be required when unusual design, operating, or handling characteristics so warrant.

§ 6.731 *Instrument markings; general.* (a) When markings are placed on the cover glass of the instrument, provision shall be made to maintain the correct alignment of the glass cover with the face of the dial.

(b) All arcs and lines shall be of sufficient width and so located that they are clearly visible to the pilot.

§ 6.732 *Air-speed indicator.* Instrument indications shall be in terms of indicated air speed. The markings set forth in paragraphs (a) through (c) of this section shall be used to indicate to the pilot the maximum and minimum permissible speeds and the normal precautionary operating ranges. (See § 6.612 (a).)

(a) A red radial line shall be used to indicate the limit beyond which operation is dangerous.

(b) A yellow arc shall be used to indicate the precautionary operating range.

(c) A green arc shall be used to indicate the safe operating range.

§ 6.733 *Magnetic direction indicator.* A placard shall be installed on or in close proximity to the magnetic direction indicator which shall comply with the requirements of paragraphs (a) through (c) of this section. (See § 6.612 (c).)

(a) The placard shall contain the calibration of the instrument in a level flight attitude with engine(s) operating.

(b) The placard shall state whether the calibration was made with radio receiver(s) on or off.

(c) The calibration readings shall be in terms of magnetic headings in not greater than 45° increments.

§ 6.734 *Powerplant instruments; general.* All required powerplant instruments shall be marked as required in paragraphs (a) through (c) of this section. (See § 6.613.)

(a) The maximum and the minimum (if applicable) safe operation limits shall be marked with red radial lines.

(b) The normal operating ranges shall be marked with a green arc not extending beyond the maximum and minimum safe operating limits.

(c) The take-off and precautionary ranges shall be marked with a yellow arc.

§ 6.735 *Oil quantity indicators.* Oil quantity indicators shall be marked in sufficient increments to indicate readily and accurately the quantity of oil. (See § 6.613 (d).)

§ 6.736 *Fuel quantity indicator.* When the unusable fuel supply for any tank exceeds 1 gallon or 5 percent of the tank capacity, whichever is the greater, a red arc shall be marked on the indicator extending from the calibrated zero reading to the lowest reading obtainable in the level flight attitude. (See §§ 6.421 and 6.613 (b).) A notation in the Rotorcraft Flight Manual shall be made to indicate that the fuel remaining in the tank when the quantity indicator reaches zero is not usable in flight. (See § 6.741 (g).)

§ 6.737 *Control markings; general.* (a) All cockpit controls including those referred to in paragraphs (b) and (c) of this section shall be plainly marked as to their function and method of operation. (See § 6.353.)

(b) *Powerplant fuel controls.* The powerplant fuel controls shall be marked as required by subparagraphs (1) through (4) of this paragraph.

(1) Controls for fuel tank selector valves shall be marked to indicate the position corresponding with each tank with all existing cross-feed positions.

(2) When more than one fuel tank is provided, and if safe operation depends upon the use of tanks in a specific sequence, the fuel tank selector controls shall be marked adjacent to or on the control to indicate to the flight personnel the order in which the tanks must be used.

(3) On multiengine rotorcraft, controls for engine valves shall be marked to indicate the position corresponding with each engine.

(4) The capacity of each tank shall be indicated adjacent to or on the fuel tank selector control.

(c) *Accessory and auxiliary controls.* Accessory and auxiliary controls shall be marked as required by subparagraphs (1) and (2) of this paragraph:

(1) Where visual indicators are essential to the operation of the rotorcraft (such as a rotor pitch or retractable landing gear indicator), they shall be marked in such a manner that the crew members at all times can determine the position of the unit.

(2) Emergency controls shall be colored red and shall be marked to indicate their method of operation.

§ 6.738 *Miscellaneous markings and placards*—(a) *Baggage compartments and ballast location.* Each baggage and cargo compartment as well as the ballast location shall bear a placard stating the maximum allowable weight of contents and, if applicable, any other limitation on contents found necessary due to loading requirements. When the maximum permissible weight to be carried in a seat is less than 170 pounds (see § 6.101 (b) (4)), a placard shall be permanently attached to the seat structure stating the maximum allowable weight of the occupant to be carried.

(b) *Fuel, oil, and coolant filler openings.* The information required by subparagraph (1) through (3) of this paragraph shall be marked on or adjacent to the appropriate filler cover.

(1) The word "fuel", the minimum permissible fuel octane number for the engines installed, and the usable fuel tank capacity (see § 6.423 (c)),

(2) The word "oil" and the oil tank capacity. (See § 6.441 (e).)

(3) The name of the proper coolant fluid and the capacity of the coolant system. (See § 6.452 (a).)

(c) *Emergency exit placards.* Emergency exit placards and operating controls shall be colored red. A placard shall be located adjacent to the controls which clearly indicates the location of the exit and the method of operation. (See § 6.357.)

(d) *Operating limitation placard.* A placard shall be provided in clear view of the pilot stating: "This (helicopter, gyrodyne, etc.) must be operated in compliance with the operating limitations specified in the CAA approved Rotorcraft Flight Manual."

(e) *Safety equipment.* (1) Safety equipment controls which the crew is expected to operate in time of emergency, such as flares, automatic life raft releases, etc., shall be plainly marked as to their method of operation.

(2) When fire extinguishers and signaling and other life-saving equipment are carried in lockers, compartments, etc., these locations shall be marked accordingly.

ROTORCRAFT FLIGHT MANUAL

§ 6.740 *General.* (a) A Rotorcraft Flight Manual shall be furnished with each rotorcraft.

(b) The portions of the manual listed in §§ 6.741 through 6.744 as are appropriate to the rotorcraft shall be verified and approved and shall be segregated, identified, and clearly distinguished from portions not so approved.

(c) Additional items of information having a direct and important bearing on safe operation shall be required when unusual design, operating, or handling characteristics so warrant.

§ 6.741 *Operating limitations.* The operating limitations set forth in paragraphs (a) through (g) of this section shall be furnished with each rotorcraft:

(a) *Air-speed and rotor limitations.* Sufficient information shall include the information necessary for the marking of the limitations on or adjacent to the indicators as required. (See § 6.732.) In addition, the significance of the limitations and of the color coding used shall be explained.

(b) *Powerplant limitations.* Information shall be included to outline and to explain all powerplant limitations (see § 6.714) and to permit marking the instruments as required by §§ 6.734 through 6.736.

(c) *Weight and loading distribution.* The rotorcraft weights and center of gravity limits required by §§ 6.101 and 6.102 shall be included, together with the items of equipment on which the empty weight is based. Where the variety of possible loading conditions warrants, instructions shall be included to facilitate observance of the limitations.

(d) *Flight crew.* When a flight crew of more than one is required, the number and functions of the minimum flight crew determined in accordance with § 6.717 shall be described.

(e) *Type of operation.* The type(s) of operation(s) shall be listed for which the rotorcraft and its equipment installations have been approved. (See § 6.718.)

(f) *Limiting heights.* Sufficient information shall be included to outline the limiting heights and corresponding speeds for safe landing after power failure. (See § 6.715.)

(g) *Unusable fuel.* If the unusable fuel supply in any tank exceeds one gallon or 5 percent of the tank capacity, whichever is the greater, warning shall be provided to indicate to the flight personnel that the fuel remaining in the tank when the quantity indicator reads zero cannot be used safely in flight. (See § 6.421.)

§ 6.742 *Operating procedures.* The section of the manual devoted to operating procedures shall contain information concerning normal and emergency procedures and other pertinent information peculiar to the rotorcraft's operating characteristics which are necessary for safe operation.

§ 6.753 *Performance information.* Information relative to the items of performance set forth in paragraphs (a) through (d) of this section shall be included:

(a) The take-off distance and the air speed at the 50-foot height together with any pertinent information defining the flight path with respect to the required autorotative landing in the event of an engine failure, including the calculated effect of altitude and temperature. (See § 6.111 (c).)

(b) The steady rates of climb and hovering ceilings together with the corresponding air speeds and other pertinent information, including the calculated effect of altitude and temperature. (See §§ 6.112 and 6.113.)

(c) The autorotative landing distance and the type of landing surface together with any other pertinent information which might affect this distance, including the calculated effect of altitude and temperature. (See § 6.114.)

(d) Maximum wind allowable for safe operation near the ground. (See § 6.121 (d).)

§ 6.744 *Marking and placard information.* (See § 6.730.)

ROTORCRAFT IDENTIFICATION DATA

§ 6.750 *Identification plate.* A fireproof identification plate shall be securely attached to the structure in an accessible location where it will not likely be defaced during normal service. The identification plate shall not be placed in a location where it might be expected to be destroyed or lost in the event of an accident. The identification plate shall contain the identification data required by § 1.50 of this chapter.

§ 6.751 *Identification marks.* The nationality and registration marks shall be permanently affixed in accordance with the operating rules of the Civil Air Regulations.

e. It is proposed to amend Part 15, effective January 1, 1951, as follows:

1. By amending § 15.20 to read as follows:

§ 15.20 *Position light systems.* The position light systems for aircraft shall be one of the following types. The type to be used in a particular case shall be in accordance with requirements contained in the aircraft airworthiness or operational parts of the Civil Air Regulations.

(a) *Single circuit systems.* Single circuit systems shall conform to the rules set forth in subparagraphs (1) through (6) of this paragraph and may or may not incorporate a position light flasher:

(1) *General.* Single circuit systems shall consist of an aviation red light, an aviation green light, and an aviation white light. The red and green lights shall be spaced laterally as far apart as practicable and installed forward on an aircraft in such a location that, with the craft in normal flying position, the red light is displayed on the left side and the green light is displayed on the right side. These lights shall be referred to as forward position lights. The white light shall be mounted as far aft as practicable and shall be referred to as a rear position light.

(2) *Dihedral angles.* The forward and rear position lights shall show unbroken light within dihedral angles specified as follows:

(i) Dihedral angle L (left) shall be formed by two intersecting vertical planes, one parallel to the longitudinal axis of the aircraft, and the other at 110° to the left of the first, when looking forward along the longitudinal axis.

(ii) Dihedral angle R (right) shall be formed by two intersecting vertical planes, one parallel to the longitudinal axis of the aircraft, and the other at 110° to the right of the first, when looking forward along the longitudinal axis.

(iii) Dihedral angle A (aft) shall be formed by two intersecting vertical planes making angles of 70° to the right and 70° to the left, respectively, looking aft along the longitudinal axis, to a vertical plane passing through the longitudinal axis.

(3) *Position light flashers.* If installed, a position light flasher for a single circuit system shall be of a type acceptable to the Administrator.

(4) *Color specifications.* The colors of the position lights shall have the following International Commission on Illumination chromaticity coordinates:

(i) *Aviation red.*

y is not greater than 0.335,
z is not greater than 0.002;

(ii) *Aviation green.*

x is not greater than $0.440-0.320y$,
x is not greater than $y-0.170$,
y is not less than $0.390-0.170z$;

(iii) *Aviation white.*

x is not less than 0.350,
x is not greater than 0.540,
$y-y_o$ is not numerically greater than 0.01, y_o being the y coordinate of the Planckian radiator for $x_o=x$.

(5) *Light distribution and intensities.* The intensities prescribed in this section are those to be provided by new equipment with all filters and covers in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the aircraft. The light distribution and intensities of the position lights shall comply with the following requirements:

(i) *Forward position lights.* Each forward position light shall have an intensity of not less than three candles in all directions in dihedral angle L for the left light and in dihedral angle R for the right light. Within these dihedral angles the minimum permissible intensities in any plane through the longitudinal axis of the unit shall not be less than the following values within the angular limits noted:

Angles from longitudinal axis of unit:	*Intensity*
60 degrees	4 candles
30 degrees	8 candles

In all directions in dihedral angle L for the right light and in dihedral angle R for the left light, a tolerance of 10° shall be permissible in which the intensity of these lights shall be reduced to two candles or less. In these same directions an additional 10° shall be permissible in which the intensity shall be reduced to 0.5 candle or less. In all directions in dihedral angle A a tolerance of 10° shall be permissible in which the intensity of these lights shall be reduced to 0.5 candle or less. In all directions outside the specified dihedral angle and the permissible tolerance angles for each unit, the stray light intensity shall not exceed 0.5 candle.

(ii) *Rear position lights.* Each rear position light shall have an intensity of not less than 8 candles in all directions within dihedral angle A. In all directions in dihedral angles L and R, a tolerance of 20° shall be permissible in which the intensity of this light shall be reduced to 1 candle or less. In all directions outside the specified dihedral angle and the permissible tolerance angles, the stray light intensity shall not exceed 1 candle.

(6) *Light covers.* The lamps and reflectors shall be protected by a cover which shall be of a noncombustible material, shall be so constructed that it will not change color or shape, and will not cloud or suffer any considerable loss of transmission in normal use. The coloring of those portions which are intended to transmit light shall be completely diffused through the material.

(b) *Dual circuit systems.* Dual circuit systems shall conform to the rules set forth in subparagraphs (1) through (6) of this paragraph and shall incorporate a position light flasher.

(1) *General.* Dual circuit systems shall include, in addition to the lights specified for the single circuit system, two aviation white lights and one aviation red light. These lights will constitute the second circuit. The two white lights shall be installed approximately in line with the forward position lights. One of these lights shall be mounted on the top of the fuselage, the other on the bottom with both showing unbroken light through approximately a hemisphere. These lights shall be referred to as fuselage lights. In the case of seaplanes, the location of the bottom fuselage light shall be subject to specific approval on each individual type airplane. The red light shall be mounted as far aft as practicable and in close proximity to the white rear position light. It shall also be referred to as a rear position light.

(2) *Dihedral angles.* The dihedral angles for dual circuit systems are identical to those prescribed for the single circuit system in paragraph (a) (2) of this section.

(3) *Position light flashers.* Dual circuit position light flashers shall be of a type approved by the Administrator.

(4) *Color specifications.* The colors of the position lights for dual circuit systems shall be the same as those prescribed for single circuit systems in paragraph (a) (4) of this section.

(5) *Light distribution and intensities.* The intensities prescribed in this section are those to be provided by new equipment with all filters and covers in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the aircraft. The light distribution and intensities of the position lights shall comply with the following requirements.

(i) *Forward and rear position lights—(a) Intensities in horizontal plane.* The intensity in any direction in the horizontal plane shall not be less than the values given in Figure 15–2. (The horizontal plane is the plane containing the longitudinal axis and is perpendicular to the plane of symmetry of the airplane.)

(*b*) *Intensities above and below horizontal.* The intensity in any direction plane shall not be less than the appropriate value given in figure 15–3, where I is the minimum intensity prescribed in figure 15–2 for the direction in the horizontal plane determined by the intersection of the horizontal plane and the vertical plane for which the distribution is prescribed. (Vertical planes are planes perpendicular to the horizontal plane.)

(c) *Overlaps between adjacent signals.* The intensities in overlaps between adjacent signals shall not exceed the values given in figure 15–4.

FIGURE 15-2—*Minimum intensities in the horizontal plane*

Dihedral angle	Angle from right or left of longitudinal axis, measured from dead ahead	Intensity
L and R	0° to 10°	40 candles.
	10° to 20°	30 candles.
	20° to 110°	20 candles.
A	110° to 180°	20 candles.

FIGURE 15-3—*Minimum intensities in any vertical plane*

Angle above or below horizontal	Intensity
0°	1.00 I
0° to 5°	.90 I
5° to 5°	.90 I
5° to 10°	.80 I
10° to 15°	.70 I
15° to 20°	.50 I
20° to 30°	.30 I
30° to 40°	.10 I
40° to 90°	At least 2 candles

FIGURE 15-4—*Maximum intensities in overlapping beams of forward and rear position lights*

Overlaps	Maximum intensity	
	Area A [1]	Area B [2]
Green in dihedral angle *L*.	10 candles	1 candle.
Red in dihedral angle *R*.	10 candles	1 candle.
Green in dihedral angle *A*.	5 candles	1 candle.
Red in dihedral angle *A*.	5 candles	1 candle.
Rear white or rear red in dihedral angle *L*.	5 candles	1 candle.
Rear white or rear red in dihedral angle *R*.	5 candles	1 candle.

[1] Area A represents the overlap in any plane bounded by two straight lines forming angles of $10^\circ \cos\theta$ and $20^\circ \cos\theta$ to the common boundary of the dihedral angles considered.

[2] Area B represents the overlap in any plane beyond $20^\circ \cos\theta$. θ is the angle of the plane to the horizontal plane.

(ii) *Fuselage lights.* The top and bottom fuselage lights shall each furnish illumination of an intensity equivalent to a 32-candlepower lamp installed in a reflector of high reflective properties and shall have a clear cover glass. These lights shall show through approximately a hemisphere.

(6) *Light covers.* The light covers for dual circuit systems are identical to those prescribed for the single circuit system in paragraph (a) (6) of this section.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 526]

INDUSTRIES OF A SEASONAL NATURE

EXEMPTION OF EXCAVATING, HAULING, AND PROCESSING OF CRUSHED STONE BY BLUE STONE QUARRY, INC., ACUSHNET, BRISTOL COUNTY, MASS.; PRELIMINARY DETERMINATION

On July 8, 1940, the administrator of the Wage and Hour Division issued a determination (5 F. R. 2526) that the northern branch of the crushed stone industry is of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 (52 Stat. 1063; 29 U. S. C. 207 (b) (3)) and Part 526 of the regulations issued thereunder (29 CFR Part 526).

Paragraph 8 of the above-mentioned determination provides that the determination was made without prejudice to a supplementary determination enlarging the scope of the northern branch of the industry as defined in the original determination by the inclusion therein of such plants or groups of plants, if any, as operate in the same manner and for the same reasons as the plants in the northern branch described in paragraphs 1 and 3 of that determination.

An application has been filed by Blue Stone Quarry, Inc., for a supplementary determination including its plant at Acushnet, Bristol County, Massachusetts in the northern branch of the industry.

It appears from the application of Blue Stone Quarry, Inc., that:

1. The plant at Acushnet, Bristol County, Massachusetts, normally shuts down for a period of approximately 6 months each year except for an insubstantial amount of production produced shortly before the main production season.

2. This plant is located near the counties included in the northern branch of the industry as described in the original determination, in the colder and generally more northerly part of the United States.

3. The plant ceases operations annually at a regularly recurring season of the year except for sales, maintenance, and similar work because the materials used are not available for excavation, handling, and processing in the form in which they must be excavated, handled and processed, i. e. as unfrozen ledges, and banks of blasted rock, because of climatic factors.

From the foregoing, it appears that this plant operates in the same manner and for the same reasons as the plants in the northern branch of the industry described in paragraphs 1 and 3 of the aforementioned determination.

Accordingly, upon consideration of the facts stated in the said application the Administrator hereby determines pursuant to § 526.5 (b) (2) of the regulations relating to industries of a seasonal nature (29 CFR 526.5 (b) (2)) that a prima facie case has been shown for enlarging the scope of the northern branch of the crushed stone industry, as defined in the determination of July 8, 1940, in accordance with paragraph 8 of that determination and pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (a) of Part 526, to include the crushed stone plant of Blue Stone Quarry, Inc. at Acushnet, Bristol County, Massachusetts.

If no objection and request for hearing is received within 15 days following the publication of this preliminary determination, the Administrator, pursuant to § 526.5 (b) (2) of the regulations will make a finding upon the prima facie case. Objections and requests for hearing from any interested person should be submitted in writing to the Wage and Hour and Public Contracts Divisions, Department of Labor Building, 14th Street and Constitution Avenue, NW., Washington 25, D. C. The application for exemption may be examined in Room 5118 at this address.

Signed at Washington, D. C., this 21st day of September 1950.

WM. R. McCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

ASSIGNMENT OF FUNCTIONS UNDER REORGANIZATION PLAN 26 OF 1950

The following order was issued by the Secretary of the Treasury under date of July 31, 1950:

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, it is directed that officers, employees, and agencies of the Treasury Department shall continue to perform the functions they were authorized to perform immediately prior to the effective date of the Reorganization Plan, and authorized regulations and procedures in effect immediately prior to the effective date of the Reorganization Plan shall continue in effect until changed by the appropriate authority.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[1778184]

NEVADA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 21, 1950.

Notice is given that the plats of original surveys of the following described lands, accepted June 17, 1947 will be officially filed in the Land and Survey Office, Reno, Nevada, effective at 10:00

a. m. on the 35th day after the date of this notice:

MOUNT DIABLO MERIDIAN

T. 9 N., R. 70 E.,
Secs. 1 to 36, inclusive.
T. 9½ N., R. 70 E.,
Sec. 31, lots 1, 2, 3, 4, 5, 6, E½SW¼, SE¼,
Sec. 32, lots 1, 2, 3, 4, SW¼, SE¼,
Sec. 33, lots 1, 2, 3, 4, SW¼, SE¼,
Sec. 34, lots 1, 2, 3, 4, SW¼, SE¼,
Sec. 35, lots 1, 2, 3, 4, SW¼, SE¼,
Sec. 36, lots 1, 2, 3, 4, SW¼, SE¼.
T. 9½ N., R. 71 E.,
Sec. 31, lots 1, 2, 3, 4, 5, 6, SW¼, W½SE¼.

The area described aggregates 25,995.37 acres.

Available data indicates that the lands are mountainous desert in character.

No application for these lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws, unless the land has already been classified as available or suitable for such type of application or shall be so classified upon consideration of an application.

According to the field notes and as shown by the plat, there is a spring of water in the W½SE¼ sec. 34, T. 9½ N., R. 70 E., M. D. M.

The legal subdivision containing the spring and the lands within a quarter of a mile thereof may be affected by the general withdrawal made by Executive order of April 17, 1926 (43 CFR 292.1), creating Public Water Reserve No. 107, but the question of whether the spring is of such size or value or so needed by the public as to bring the lands within the scope of the withdrawal is left for future determination.

At the hour and date specified above the said lands shall, subject to valid existing rights and the proviisons of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

CIVIL AERONAUTICS BOARD

[Docket No. SA–218]

ACCIDENT OCCURRING AT BILLINGS MUNICIPAL AIRPORT, BILLINGS, MONT.

NOTICE OF HEARING

In the matter of investigation of accident involving aircraft of United States Registry N–93051, which occurred at Billings Municipal Airport, Billings, Montana, September 4, 1950.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 702 of said act, in the above-entitled proceeding that hearing is hereby assigned to be held on Wednesday, September 27, 1950, at 9:00 a. m. in Room 342–6 Federal Office Building, First Avenue and Madison Street, Seattle, Washington.

Dated at Washington, D. C., September 21, 1950.

[SEAL] RUSSELL A. POTTER,
Presiding Officer.

[F. R. Doc. 50–8428; Filed, Sept. 26, 1950; 8:46 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G–1476]

WARWICK GAS CORP.

NOTICE OF APPLICATION

SEPTEMBER 21, 1950.

Take notice that on September 11, 1950, Warwick Gas Corporation (Applicant), a New York corporation with its principal place of business in Florida, New York, filed an application pursuant to section 7 of the Natural Gas Act, as amended;

1. For an order directing the Home Gas Company to establish physical connection of its transmission facilities with the proposed facilities of and to sell and deliver natural gas to the Applicant; and

2. For a certificate of public convenience and necessity authorizing the Applicant to construct a regulating station in the town of Warwick and to construct from that point approximately 5,446 feet of 4-inch welded steel main pipeline along the Warwick-Florida highway into the village of Warwick, and approximately 15,630 feet of 2-inch pipe for service connections to customers located on all streets of the village.

Applicant proposes to furnish natural gas to a portion of the town of Warwick and to all of the village of Warwick, an incorporated community of about 4,000 population and 987 dwellings. It estimates its maximum demand for natural gas not to exceed 200,000 cubic feet in any 24-hour period, and states that the Home Gas Company, from whom it is seeking its supply, has included and allocated the approximate amount of its needs in statements before the Commission.

Applicant estimates the cost of construction and acquisition of the proposed facilities and the total over-all capital costs to be $118,581.50 and $150.000.00, respectively, and anticipates that there will be no cost of financing, as the total funds required will be made available by the sale of capital stock.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 11th day of October 1950.

The application is on file with the Commission and is available for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8425; Filed, Sept. 26, 1950; 8:46 a. m.]

[Docket No. G–1479]

BANGOR GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 21, 1950.

Take notice that on September 15, 1950, Bangor Gas Company (Applicant), a Pennsylvania corporation with its principal place of business in Bangor, Pennsylvania, filed an application pursuant to section 7 of the Natural Gas Act, as amended:

(1) For an order directing The Manufacturer's Light and Heat Company (Manufacturers) to establish physical connection of its natural-gas transportation facilities with the proposed lateral pipe line mentioned below of Applicant, and to sell and deliver natural gas to Applicant for resale in the Boroughs of Bangor, East Bangor, Roseto and Pen Argyl, Pennsylvania.

(2) For a certificate of public convenience and necessity authorizing the construction and operation of the lateral necessary to make the connection requested in paragraph (1) above; and

(3) For a certificate of public convenience and necessity authorizing the sale of natural gas by Applicant to Pen Argyl Gas Company for resale in Pen Argyl.

To accept the delivery of gas in accordance with paragraph (1) above, Applicant proposes to construct a lateral of 6-inch steel pipe for a distance of some 15,825 feet to the 14-inch natural-gas transmission line of Manufacturers, commonly known as the Coatesville-Port Jervis line. The cost of such lateral is estimated to be $38,833.

In support of its application, Applicant alleges that the introduction of natural gas into its system would substantially increase the capacity thereof, which would result in a capital investment saving for the years 1951–55 of some $60,267; that by purchasing some natural gas and peak shaving with its propane plant, it will save a total of $232,562 for the same five-year period; that 750 B. t. u. propane-air gas represents a greater public hazard than would be represented by natural gas; that the cost of propane gas has resulted in increased costs to the consumers, and its fluctuations in price have resulted in inconveniences to the public; and that, if it is successful in obtaining natural gas, it proposes to extend its service to the Borough of East Bangor, which is presently without gas service.

Applicant alleges further that for similar reasons its affiliate, Pen Argyl, desires to convert to the sale and distribution of natural gas, and that, to avoid a duplication of transmission line facilities, it desires to purchase such gas from Manufacturers for resale to Pen Argyl.

Applicant states further that in 1951 its needs will be approximately 202 Mcf of natural gas per day on a peak day, increasing to 425 Mcf in 1955; that it will need 55.5 Mcf to supply Pen Argyl in 1951, increasing to 116 Mcf in 1955; and that in total, Applicant needs on a peak day in 1951, 257.5 Mcf of natural gas, increasing to 541 Mcf in 1955.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 11th day of October 1950.

The application is on file with the Commission and is available for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1245]

SUNRAY OIL CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 21st day of September A. D. 1950.

The Los Angeles Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F–1 thereunder, has made application for unlisted trading privileges in the 5½ percent Cumulative Convertible 2d Preferred Stock, $20 Par Value, of Sunray Oil Corporation, a security listed and registered on the New York Stock Exchange.

Rule X-12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to October 10, 1950, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 70-2438]

NEW ENGLAND PUBLIC SERVICE CO.

SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND AUTHORIZING SALE AND TRANSFER OF SHARES

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 20th day of September A. D. 1950.

New England Public Service Company ("NEPSCO"), a registered holding company and a subsidiary of Northern New England Company, also a registered holding company, having filed a declaration under section 12 (d) of the Public Utility Holding Company Act of 1935 ("the act") proposing the sale at competitive bidding of 260,000 shares of NEPSCO's holdings of the common stock of its subsidiary, Central Maine Power Company ("Central Maine"), the proceeds to be applied toward the reduction of NEPSCO's outstanding bank loan; and

The Commission having by order dated September 8, 1950, permitted said declaration, as then amended, to become effective subject to the conditions that the proposed sale of common stock not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order entered by the Commission in the light of the record as so completed, and subject to a reservation of jurisdiction with respect to the payment of all fees and expenses incurred or to be incurred in connection with legal and accounting services applicable to the proposed transactions; and

NEPSCO having filed a further amendment to its declaration setting forth that it had requested bids for said common stock, and that in response to such invitation the following bids were received:

Bidder:	Price to company (per share)
Harriman Ripley and Co., Inc.	$15.34
The First Boston Co. and Coffin & Burr, Inc.	15.27
Blyth & Co., Inc. and Kidder, Peabody & Co.	14.459

The amendment further stating that NEPSCO has accepted the bid submitted by Harriman Ripley & Co., Incorporated and that the purchaser proposes to offer said shares to the public at $16.25 per share resulting in an underwriters' spread of $0.91 per share; and

David J. Greene, et al., Committee for Common Stockholders of NEPSCO and Shareholders of Northern, having appeared and having been heard in opposition to the entry of an order permitting the proposed sale at the price stated above, and the Commission having examined the amendment herein filed on September 20, 1950, and having considered the record herein and the arguments of the Greene Committee; and

The Commission finding that the Greene Committee's objections should be overruled, that no terms or conditions should be imposed with respect to the consideration to be received for such sale or the underwriters' spread in connection therewith, and that the declaration as amended should be permitted to become effective forthwith, subject to the terms and conditions stated below; and

The record not having been completed with respect to payment of fees and expenses in connection with legal and accounting services applicable to the proposed transaction; and

NEPSCO having requested that our order herein contain appropriate recitals with respect to the sale and transfer of the Central Maine stock conforming to the requirements of Supplement R and section 1808 (f) of the Internal Revenue Code, as amended; and it appearing appropriate to grant such request:

It it ordered, That the jurisdiction heretofore reserved to consider the results of competitive bidding with respect to the sale of said stock be, and hereby is, released and that said declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24, and to the further condition that the jurisdiction heretofore reserved with respect to legal and accounting fees and expenses in connection with the sale of said common stock be and the same hereby is continued.

It is further ordered and recited, That the sale and transfer for cash by NEPSCO of 260,000 shares of the Common Stock, $10 par value, of Central Maine Power Company are necessary or appropriate to the simplification of the New England Public Service Company Holding Company System, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and are hereby authorized, approved and directed.

By the Commission.

EUGENIO STANGER

In re: Bonds owned by and debt owing to Eugenio Stanger. F-28-23552-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Eugenio Stanger, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Five (5) State of San Paulo, Brazil, 15 Year, 8% Gold External Loan of 1921 bonds, of $1,000.00 face value each, bearing the numbers M1716, M4773, M6515, M8062, and M8999, presently in the custody of The First Boston Corporation, 100 Broadway, New York 5, New York, together with any and all rights thereunder and thereto, and

b. That certain debt or other obligation of The First Boston Corporation, 100 Broadway, New York 5, New York, representing cash and the proceeds of redemption of certain bonds, held by said The First Boston Corporation in a blocked account of the First National Bank of Boston, Buenos Aires, Argentina, in the names of Eugenio Stanger and/or Berta Stanger, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

JOSEPHUS ADOLPHUS MARIA BERGHAUS

In re: Securities and cash owned by Josephus Adolphus Maria Berghaus also known as Josef Adolf Berghaus and as Joseph A. Berghaus. F-28-30859.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Josephus Adolphus Maria Berghaus also known as Josef Adolf Berghaus and as Joseph A. Berghaus, whose last known address is 201 Kurfuerstendamm, Berlin-Charlottenburg, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Sixty five (65) shares of $10.00 par value common capital stock of the F. W. Woolworth Company, Woolworth Building, New York 7, New York, a corporation organized under the laws of the State of New York, being a part of the seventy five (75) shares evidenced by certificate numbered WT/F 657854, registered in the name of Slade and Co., presently on deposit with the American Express Company, Inc., 65 Broadway, New York 6, New York, in an account for the American Express Company, Inc., Zurich, together with all declared and unpaid dividends thereon, and

b. That certain debt or other obligation of The American Express Company, Inc., 65 Broadway, New York 6, New York, in the amount of $627.90, as of August 23, 1950, representing a portion of a credit balance in a General Ruling Number 6 account held for The American Express Co., Inc., Zurich, maintained at the aforesaid company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

KOHPCKE AND NEUMANN

In re: Debt owing to Kohpcke & Neumann, Inc. F-27-30808.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernest Fritz Neumann, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That Kohpcke & Neumann, Inc., the last known address of which is Panama City, Panama, is a corporation, partnership, association or other business organization, organized under the laws of Panama, which is, or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Ernest Fritz Neumann, and is a national of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation owing to Kohcpke & Neumann, Inc. by The Panama Canal, Balboa Heights, Canal Zone, representing payment due under contracts for furnishing electrical refrigerators to units of The Panama Canal in 1941, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Kohpcke & Neumann, Inc., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That Kohpcke & Neumann, Inc. is controlled by or acting for or on behalf of a designated enemy country (Germany), or persons within such enemy country, and is a national of a designated enemy country (Germany).

5. That to the extent that the persons named in subparagraph 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

ANNA MEYER

In re: Real property owned by Anna Meyer.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Anna Meyer, whose last known address is Zittau, Saxony, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Real property situated in the City of Safety Harbor, County of Pinellas, State of Florida, particularly described as all of Lots Two (2) and Three (3) of Block Three (3), of C. W. Johnson's Green Spring Subdivision according to the map or plat thereof as the same appears of Record in Plat Book 3, Page 10, Public Records of Hillsborough County, Florida, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8403; Filed, Sept. 25, 1950; 8:51 a. m.]

[Vesting Order 15109]

DR. SEIICHI OHATA

In re: Real property, property insurance policy and a bank account owned by Dr. Seiichi Ohata.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Dr. Seiichi Ohata, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Real property situated in Lower Paia, Island and County of Maui, Territory of Hawaii, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. All right, title and interest of Dr. Seiichi Ohata in and to the fire insurance policy numbered 61061 in the amount of $6,000, issued by the Commonwealth Insurance Company of New York, 150 William Street, New York 8, New York, which policy expired March 13, 1950, and insured the improvements on the real property described in Exhibit A, attached hereto, together with any and all extensions and renewals thereof, and

c. That certain debt or other obligation of Bishop National Bank of Hawaii at Honolulu, King and Bishop Streets, Honolulu, T. H., arising out of a savings account, account number 23111, entitled Dr. S. Ohata, by Chiyoko Ohata, attorney-in-fact, maintained at the branch office of the aforesaid bank located at Kahului, Maui, T. H., and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Dr. Seiichi Ohata, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2–a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2–b and 2–c hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8404; Filed, Sept. 25, 1950; 8:51 a. m.]

[Return Order 738]

PROF. DR. AUGUST CHWALA

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, be returned after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention to Return Published, and Property

Prof. Dr. August Chwala, Vienna, Austria; Claim No. 41161; August 4, 1950 (15 F. R. 5036); property described in Vesting Order No. 68 (7 F. R. 6181, August 11, 1942), relating to United States Patent Application Serial No. 283,323 (now United States Letters Patent No. 2,356,565). This return shall not be deemed to include the rights of any licensees under the above patent application or patent.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on September 20, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8439; Filed, Sept. 26, 1950; 8:49 a. m.]

[Return Order 749]

HERTA HOLLAND AND ANNA STEIN

Having considered the claim set forth below and having issued a determination allowing claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Notice of Intention to Return Published, and Property

Herta Holland, nee Latz, and Anna Stein, nee Latz, London, England; Claims Nos. 10257 & 36328; August 18, 1950 (15 F. R. 5523); $1,764.63 in the Treasury of the United States, returnable to the claimants in equal shares.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on September 21, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8441; Filed, Sept. 26, 1950; 8:50 a. m.]

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

UNITED STATES CONSUMER STANDARDS FOR ITALIAN SPROUTING BROCCOLI

On August 18, 1950, a notice of rule making was published in the FEDERAL

REGISTER (F. R. Doc. 50-7238; 15 F. R. 5512) regarding proposed United States Consumer Standards for Italian Sprouting Broccoli. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Consumer Standards for Italian Sprouting Broccoli are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.).

§ 51.146 *Consumer standards for Italian sprouting broccoli*—(a) *Grades*—(1) *U. S. Grade A.* U. S. Grade A consists of stalks, or parts of stalks of Italian sprouting broccoli which are well trimmed, and have good characteristic color, and fairly compact bud clusters; and which are fresh, tender, and clean, and are free from decay and from damage caused by discoloration, freezing, hollow stem or pithiness, scars, disease, insects, or mechanical or other means. Broccoli stalks on the shown face shall be reasonably representative in size and quality of the contents of the container.

(i) The length of the stalks or parts thereof shall be not more than 6 inches nor less than 3 inches, and the diameter of the stem shall be not less than ¼ inch.

(ii) Incident to proper grading and handling, not more than 5 percent, by weight, of the broccoli stalks or parts thereof in any lot may fail to meet the size requirements and, in addition, not more than 5 percent, by weight, may fail to meet the remaining requirements of the grade, including not more than 1 percent for decay.

(2) *U. S. Grade B.* U. S. Grade B consists of stalks or parts of stalks of Italian sprouting broccoli which meet the requirements of U. S. Grade A except as to compactness of bud clusters and except for the increased tolerances specified below.

(i) Stalks or parts of stalks of broccoli of this grade shall have reasonably compact bud clusters.

(ii) Incident to proper grading and handling, not more than 10 percent, by weight, of the broccoli stalks or parts thereof in any lot may fail to meet the size requirements and in addition, not more than 10 percent, by weight, may fail to meet the remaining requirements of the grade, including not more than 1 percent for decay.

(b) *Off-Grade Italian sprouting broccoli.* Italian sprouting broccoli which fails to meet the requirements of either of the foregoing grades shall be Off-Grade Italian sprouting broccoli.

(c) *Definitions.* (1) "Stalk" means a portion of the broccoli plant including the stem, bud clusters and leaves.

(2) "Well trimmed" means that all coarse, damaged, and discolored leaves and leaves extending more than 1½ inches above the top of the head have been removed, and that cross cuts on butts and lengthwise cuts on split stalks are smooth.

(3) "Good characteristic color" means that the stem and external portion of the head or part thereof has a light green or darker shade of green color except that purplish color shall be allowed on the external portion of the head or part thereof.

(4) "Fairly compact bud clusters" means that the individual florets of bud clusters are relatively small and fairly tightly crowded together and that the bud clusters on the stalk or part of a stalk are generally close together.

(5) "Fresh" means that the broccoli is not flabby or more than slightly wilted.

(6) "Tender" means that the broccoli is succulent, and that the stems are not fibrous, tough or stringy.

(7) "Clean" means that the broccoli is practically free from sand, dirt, silt, muck, and other water-insoluble inorganic material.

(8) "Damage" means any defect which more than slightly affects the appearance, or the edible, shipping, or keeping quality of the individual stalks or parts thereof, or the lot as a whole. The following defects or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(i) Discoloration, when more than very slight.

(ii) Freezing, when causing more than slight discoloration of the individual unit.

(iii) Hollow stem or pithiness, when discolored, or when more than slightly affecting the appearance of the individual unit.

(iv) Scars, when discolored, or when more than slight or superficial.

(v) Disease, when showing discoloration, or when more than slightly affecting the appearance of the individual unit.

(vi) Insects, when worms or worm frass are present or when there is more than slight infestation by other insects.

(9) "Diameter" means the greatest thickness of the stem measured at the base.

(10) "Reasonably compact bud clusters" means that the individual florets of bud clusters are not on the verge of opening, but that pedicels on florets may be moderately elongated and bud clusters may be moderately open and spreading.

(d) *Effective time.* The United States Consumer Standards for Italian Sprouting Broccoli contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Done at Washington, D. C., this 25th day of September 1950.

[SEAL] ROY W. LENNARTSON,
Acting Assistant Administrator, Production and Marketing Administration.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[Amdt. 1]

PART 706—NAVAL STORES CONSERVATION PROGRAM

EXCESS COTTON ACREAGE

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1950 Naval Stores Conservation Program, issued October 20, 1949 (14 F. R. 6511), is amended so that § 706.105 will read as follows:

§ 706.105 *Excess cotton acreage.* (a) Any person who makes application for payment with respect to any farm located in a county in which cotton is planted in 1950 shall file with such application a statement that he has not knowingly planted cotton or caused cotton to be planted during 1950 on land in any farm in which he has an interest in excess of the cotton allotment under section 344 of the Agricultural Adjustment Act of 1938, as amended, for the farm for 1950.

(b) Any person who knowingly plants cotton or causes cotton to be planted on his farm in 1950 in excess of the 1950 cotton acreage allotment for the farm under section 344 of the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment whatsoever on that farm or on any other farm under 1950 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, Cotton will not be deemed to have been planted on any farm in excess of the farm acreage allotment if, after the acreage originally planted to cotton has been determined and notice thereof sent to the operator of the farm, the planted acreage is adjusted to the farm acreage allotment in the period allowed under the notice. If the operator is notified that the cotton acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment in the period allowed under the notice, the cotton acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton on the farm. Notice of overplanting mailed to the operator of the farm shall be deemed to be notice to all persons sharing in the production of cotton on the farm.

For the purposes of this paragraph, the acreage planted to cotton will include only acreage planted to upland cotton.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7-17, 49 Stat. 1148, as amended, 63 Stat. 670; 7 U. S. C. 1348; 16 U. S. C. 590g-590q, 7 U. S. C., Sup., 1348)

Done at Washington, D. C., this 22d day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc 50-8468; Filed, Sept 27, 1950; 8:48 a m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 909—HANDLING OF ALMONDS GROWN IN CALIFORNIA

BUDGET OF EXPENSES AND RATE OF ASSESSMENT FOR THE 1950-51 CROP YEAR

§ 909.300 *Budget of expenses and rate of assessment for the 1950-51 crop year*—(a) *Findings.* (1) On the basis of recommendations of the Almond Control Board, established and functioning pursuant to Marketing Agreement No. 119 and Order No. 9 (15 F. R. 4993), regulating the handling of almonds grown in California, and other available information, it is hereby found that expenses in the amount of $7,600.00 are reasonable and likely to be incurred by the Almond Control Board for its maintenance and functioning during the crop year beginning August 4, 1950; and that, in lieu of the rate of assessment of two-tenths of a cent per pound of edible almond kernels received by each handler for his own account (except as to receipts from other handlers on which assessments had been paid), as provided in § 909.121 of the aforesaid agreement and order, the rate of assessment for the crop year beginning August 4, 1950, should be five one hundredths of a cent for each such pound of edible almond kernels.

The anticipated limited operations of the board in the 1950-51 crop year, due to the fixing of a zero surplus percentage, are expected to require expenditures of only $7,600. This is a much smaller amount than would be required under normal operating conditions. Considering the rate of assessment in conjunction with the budget of expenses, it is concluded that the assessment rate of two-tenths of a cent per pound as set forth in § 909.121 would provide funds far in excess of contemplated expenses. Therefore, the recommendation of the board concerning the changing of the assessment rate is accepted. A rate of assessment of five one hundredths of a cent per pound of edible kernels received by handlers for their own accounts (except receipts from other handlers on which assessments had been paid) will provide sufficient funds to meet the budget for the 1950-51 crop year.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this document later than three days after the date of its publication in the FEDERAL REGISTER. This action with respect to the budget of expenses and the rate of assessment is necessary for the reason that shipment of the current crop of almonds will soon begin, and it is essential that a budget and assessment rate be authorized for application as soon as such shipments begin. No preparation for this regulation is required which cannot be completed prior to that effective date. In addition, the effect of this action will be wholly for the benefit of the persons affected thereby. Therefore, good cause exists for not delaying the effective date of these regulatory requirements beyond three days after the date of publication of this document in the FEDERAL REGISTER (See section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(b) *Order*—(1) *Budget of expenses.* Expenses in the amount of $7,600.00 are reasonable and likely to be incurred by the Almond Control Board for its maintenance and functioning during the crop year beginning August 4, 1950.

(2) *Rate of assessment.* The rate of assessment for the crop year beginning August 4, 1950, shall be, in lieu of the assessment rate specified in § 909.121, five one-hundredths of a cent for each pound of edible almond kernels received by each handler for his own account (except as to receipts from other handlers on which assessments had been paid).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of September 1950, to become effective at 12:01 a. m., P. s. t., on the third day after the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50-8522; Filed, Sept. 27, 1950; 8:56 a. m.]

PART 918—MILK IN THE MEMPHIS, TENNESSEE, MARKETING AREA

ORDER REGULATING HANDLING

Sec.
918.0 Findings and determinations.

DEFINITIONS

918.1 Act.
918.2 Secretary.
918.3 Department of Agriculture.
918.4 Person.
918.5 Cooperative association.
918.6 Memphis, Tennessee, marketing area.
918.7 Fluid milk plant.
918.8 Nonfluid milk plant.
918.9 Handler.
918.10 Producer.
918.11 Producer milk.
918.12 Other source milk.
918.13 Producer-handler.

MARKET ADMINISTRATOR

918.20 Designation.
918.21 Powers.
918.22 Duties.

REPORTS, RECORDS, AND FACILITIES

918.30 Reports of receipts and utilization.
918.31 Other reports.
918.32 Records and facilities.
918.33 Retention of records.

CLASSIFICATION

918.40 Skim milk and butterfat to be classified.
918.41 Classes of utilization.
918.42 Shrinkage.
918.43 Responsibility of handlers and reclassification of milk.
918.44 Transfers.
918.45 Computation of the skim milk and butterfat in each class.
918.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

918.50 Basic formula price to be used in determining the Class I price.
918.51 Class prices.
918.52 Butterfat differential to handlers.
918.53 Location differentials to handlers.

APPLICATION OF PROVISIONS

918.60 Producer-handlers.

DETERMINATION OF UNIFORM PRICE

918.70 Net obligation of each handler.
918.71 Computation of the uniform price for each handler.
918.72 Computation of the uniform price for base milk and for excess milk for each handler.

BASE RATING

918.80 Determination of daily base of each producer.
918.81 Determination of monthly base of each producer.
918.82 Base rules.
918.83 Announcement of daily bases.

PAYMENTS

918.90 Payments to market administrator.
918.91 Payments to producers.
918.92 Butterfat differential to producers.
918.93 Location differentials to producers.
918.94 Statement to producers.
918.95 Adjustment of accounts.
918.96 Marketing services.
918.97 Expense of administration.
918.98 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

918.100 Effective time.
918.101 Suspension or termination.
918.102 Continuing obligations.
918.103 Liquidation.

MISCELLANEOUS PROVISIONS

918.110 Agents.
918.111 Separability of provisions.

AUTHORITY: §§ 918.0 to 918.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 918.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held March 20-24, and March 27-29, 1950, at Memphis, Tennessee, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Memphis, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) The necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all (a) producer milk (including such handler's own production) received during the month, and (b) other source milk classified as Class I milk during the month.

(b) *Additional findings.* It is necessary, in the public interest, to make the several provisions of this order effective as hereinafter set forth. Any further delay in the effective date of the order will seriously threaten the orderly marketing and supply of milk in the Memphis, Tennessee, marketing area. The need for the order is also disclosed by the decision (15 F. R. 6144) which was executed on September 8, 1950. The provisions of the order are well known to handlers—the public hearing having been held on March 20 to 24, and March 27 to 29, 1950, the recommended decision having been published in the FEDERAL REGISTER (15 F. R. 5082) on August 8, 1950, and the final decision (15 F. R. 6144) having been executed by the Secretary on September 8, 1950. Reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order effective October 1, 1950, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, Public Law 404, 79th Congress; 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order which is marketed within the Memphis, Tennessee, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order is approved or favored by at least three-fourths of the producers who participated in a referendum on the question of approval of its issuance, and who during the determined representative period (July 1950) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Memphis, Tennessee, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 918.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 918.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 918.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified herein.

§ 918.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 918.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 918.6 *Memphis, Tennessee, marketing area.* "Memphis, Tennessee, marketing area," hereinafter called the "marketing area," means all the territory within the boundaries of the cities of Memphis and Jackson, Tennessee.

§ 918.7 *Fluid milk plant.* "Fluid milk plant" means any milk plant, except that of a producer-handler, approved by the appropriate health authority in the marketing area, and used during the month for (a) the processing and packaging of producer milk, all or a portion of which is disposed of as Class I milk in the marketing area to wholesale or retail outlets, including plant stores; or (b) the receipt and cooling of producer milk for shipment to a plant described in paragraph (a) of this section.

§ 918.8 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant.

§ 918.9 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of a fluid milk plant(s), (b) a producer-handler, or (c) any cooperative association with respect to milk of producers diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

§ 918.10 *Producer.* "Producer" means any person, except a producer-handler, who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area and whose milk is permitted to be used for consumption as milk in the marketing area, which milk is: (a) Received at a fluid milk plant, or (b) diverted from a fluid milk plant to a nonfluid milk plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

§ 918.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is purchased or received by a handler either directly from producers or from other handlers.

§ 918.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 918.13 *Producer-handler.* "Producer-handler" means any person who produces milk under a dairy farm permit issued by the appropriate health authority in the marketing area and who processes milk from his own production, and distributes all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

MARKET ADMINISTRATOR

§ 918.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 918.21 *Powers.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 918.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 918.97 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 918.96, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 3 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 918.30 and 918.31 or payments pursuant to § 918.90;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing on or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 918.51 (a) and the Class I butterfat differential computed pursuant to § 918.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 918.51 (b) and the Class II butterfat differential computed pursuant to § 918.52 (b), both for the previous month;

(j) Notify each handler in writing on or before the 11th day of each month the amount of the net obligation of such handler for milk received from producers during the previous month. Such notification shall show the amount and the value of milk in each class; the amount and the value of overage; and the amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing:

(1) On or before the 13th day after the end of each of the months of September through February, the uniform price and the location differential for each handler computed pursuant to §§ 918.71 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(2) On or before the 13th day after the end of each of the months of March through August, the uniform prices for base milk and for excess milk and the location differential for each handler computed pursuant to §§ 918.72 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(l) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 918.30 *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 918.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator in detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 8th day after the end of the month, the correct name and address of each producer, the total pounds of milk received from each producer, the number of days on which milk was received from each producer, the amount of any deductions authorized in writing by the producer to be made in making payments to such producer, and the average butterfat content of the milk received from each producer.

(2) Upon request of the market administrator, the information described in subparagraph (1) of this paragraph together with such other information as the market administrator may prescribe for prior calendar months included in the period beginning with September 1950 to the effective date of this order.

(3) On or before the first day other source milk is received, such handler's intention to receive such milk and on or before the last day such milk is received, his intention to discontinue receipt of such milk.

§ 918.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled; and

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 918.33 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 918.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 918.30 shall be classified by the market administrator pursuant to the provisions of §§ 918.41 through 918.46.

§ 918.41 *Classes of utilization.* Subject to the conditions set forth in §§ 918.43 and 918.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, and any other product required by the appropriate health authority in the marketing area to be made from Grade A milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section, (2) disposed of for livestock feed, (3) in shrinkage up to 2 percent of receipts from producers, and (4) in shrinkage of other source milk.

§ 918.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for such handler; and

(b) Prorate the resulting amounts between such handler's receipts of skim milk and butterfat in producer milk and in other source milk.

§ 918.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first re-

ceives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if vertification by the market administrator discloses that the original classification was incorrect.

§ 918.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion from a fluid milk plant shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a fluid milk plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the month within which such transaction occurred: *Provided,* That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 918.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *Provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk: *And provided further,* That the amount of skim milk or butterfat transferred or diverted from a fluid milk plant to which a location differential applies pursuant to § 918.53 to a fluid milk plant described in § 918.7 (a) shall not be classified in Class I to the extent that the resulting uniform price for the transferring handler shall be higher than the resulting uniform price for the transferee-handler.

(b) As Class I milk if transferred to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, except that of a producer-handler, unless the following conditions are met:

(1) The handler claims classification in Class II;

(2) The market administrator is permitted to audit the books and records showing the utilization of all skim milk and butterfat received at such nonfluid milk plant, for the purpose of verification; and

(3) An amount of skim milk and butterfat not less than that so transferred or diverted was used in Class II: *Provided,* That the skim milk and butterfat so assigned to Class II shall be limited to the amount thereof in Class II in such nonfluid milk plant and any additional amounts of skim milk and butterfat so transferred or diverted shall be assigned to Class I.

§ 918.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 918.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 918.45 the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 918.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided,* That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to § 918.44 (a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 918.50 *Basic formula price to be used in determining the Class I price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section and § 918.51 (b), all for the preceding month.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the butterfat differential computed pursuant to § 918.52 (b) for the month by 5.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) To the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the month, add 20 percent thereof, and multiply by 4.0.

(2) For the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5 cents, and multiply by 7.5.

§ 918.51 *Class prices.* Subject to the provisions of §§ 918.52 and 918.53, the minimum prices per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers during the month shall be as follows:

(a) *Class I milk.* The price per hundredweight for Class I milk for the month shall be the amount set forth below for such month opposite the price range within which the basic formula price falls:

Basic formula price range (dollars per hundredweight)	Amount per hundredweight	
	September through February	March through August
Not more than 1.999	$3.48	$3.08
2.00 but not more than 2.399	3.88	3.48
2.40 but not more than 2.799	4.28	3.88
2.80 but not more than 3.199	4.68	4.28
3.20 but not more than 3.599	5.08	4.68
3.60 but not more than 3.999	5.48	5.08
4.00 but not more than 4.399	5.88	5.48
And for each additional 40 cents or fraction thereof.	An additional 40 cents	

Provided, That the Class I price from the effective date of this provision through the month of February 1951 shall not be less than $5.08 per hundredweight: *And provided further,* That for any month after this provision has been in effect for 13 months the Class I price shall be increased 40 cents per hundredweight if the receipts of milk from producers by all handlers, during the 12 months prior to the month immediately preceding the month for which the Class I price is being computed, was less than 110 percent of the total Class I milk disposed of by all handlers during such 12-month period; or the Class I price for any such month shall be reduced 40 cents per hundredweight if the receipts of milk from producers during such 12-month period are more than 125 percent of the total Class I milk disposed of by all handlers during such 12-month period.

(b) *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

Present Operator and Location

Collierville Dairy Products Co., Collierville, Tenn.
Coldwater Dairy Products Co., Coldwater, Miss.
Olive Branch Cheese Co., Olive Branch, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Kosciusko, Miss.

§ 918.52 *Butterfat differential to handlers.* If the average butterfat content of producer milk allocated to any class pursuant to § 918.46 is more or less than 4.0 percent there shall be added to the respective class price computed pursuant to § 918.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the period listed below by the applicable factor so listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price reported for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price reported for the current month by 1.20.

§ 918.53 *Location differentials to handlers.* For that portion of milk which is received from producers at a handler's fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by shortest hard surfaced highway distance, as determined by the market administrator, and which is classified as Class I milk, the prices specified in § 918.51 (a) shall be reduced by the amount per hundredweight set forth in the schedule below for the appropriate distance at which is located the fluid milk plant where such milk was received: *Provided,* That with respect to milk received at a fluid milk plant described in § 918.7 (b) the quantity of milk to which the location differential shall apply shall not exceed the quantity of milk actually moved from such plant in fluid form to a fluid milk plant described in § 918.7 (a) plus the quantity of milk moved from such plant in fluid form to a nonfluid milk plant and classified as Class I milk:

Distance from the City Hall in Memphis (miles):	*Amount per hundredweight (cents)*
40 but less than 50	17
50 but less than 60	18
60 but less than 70	19
Within each 10-mile zone thereafter an additional 1 cent.	

APPLICATION OF PROVISIONS

§ 918.60 *Producer-handlers.* Sections 918.40 through 918.46, 918.50 through 918.53, 918.70 through 918.72, 918.80 through 918.83, and 918.90 through 918.97 shall not apply to a producer-handler.

DETERMINATION OF UNIFORM PRICE

§ 918.70 *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price, (b) add together the resulting amounts, (c) add the amounts computed by multiplying the pounds of coverage deducted from each class by the applicable class price, and (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months.

§ 918.71 *Computation of the uniform price for each handler.* For each of the months of September through February the market administrator shall compute for each handler the uniform price as follows:

(a) Add to the amount computed pursuant to § 918.70 the amount of location differential pursuant to § 918.93;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Add the amount represented by any deductions made pursuant to paragraph (d) of this section for fractions of a cent in computing the uniform price for the preceding month;

(d) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. the marketing area.

§ 918.72 *Computation of the uniform price for base milk and for excess milk for each handler.* For each of the months of March through August, the market administrator shall compute for each handler the uniform price for base milk and for excess milk as follows:

(a) Add to the amount computed pursuant to § 918.70 the amount of location differential pursuant to § 918.93;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Subtract, for each of the months of March through August, during which a handler purchased a smaller percentage of his Class I milk from producers who were members of a cooperative association than he so purchased during the preceding period of September through February, an amount computed as follows:

(1) Compute the difference between the percentage which Class I milk purchased from producers who were members of such cooperative association was of the total Class I milk disposed of by such handler during the preceding period of September through February, and the percentage which Class I milk purchased from member producers of such cooperative association was of the total Class I milk disposed of by such handler during the month;

(2) Multiply this percentage difference by the total Class I milk disposed of by such handler during the month; and

(3) Multiply this quantity of milk by the difference between the price of Class I milk and Class II milk for the month: *Provided,* That the total quantity of all handlers to which such difference in price shall apply shall not be greater than the pounds of milk which were received by all handlers from member producers of such cooperative association during the month, and which were classified as Class II milk: *And provided further,* That during any month when the preceding proviso applies to more than one handler the quantities of milk for each handler to be multiplied by such difference in price shall be reduced pro rata until the total of such quantities is equal to the total pounds of milk which were received by all handlers from member producers of such cooperative during the month, and which were classified as Class II milk.

(d) Add, in computing the uniform price of base milk and excess milk diverted by a cooperative association, the sum of the deductions made for the month pursuant to paragraph (c) of this section in computing such uniform prices for all handlers;

(e) Add the amount represented by any deductions made pursuant to paragraphs (h) and (i) of this section for fractions of a cent in computing such uniform prices for the preceding month;

(f) Subject to the conditions set forth in paragraph (g) of this section, compute the value of excess milk received by such handler from producers by multiplying the quantity of such milk by the Class II price;

(g) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (f) of this section from the value obtained pursuant to paragraphs (a) through (e) of this section: *Provided,* That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price such value in excess thereof shall be added to the value computed pursuant to paragraph (f) of this section:

(h) Divide the value obtained pursuant to paragraph (g) of this section by the hundredweight of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 4.0 percent butterfat content, f. o. b. the marketing area; and

(i) Divide the value obtained pursuant to paragraph (f) of this section, subject to the conditions set forth in paragraph (g) of this section, by the hundredweight of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 4.0 percent butterfat content.

BASE RATING

§ 918.80 *Determination of daily base of each producer.* For the months of March through August of each year, the daily base of each producer shall be an amount of milk computed by the market administrator by dividing the total pounds of milk received from such producer by handlers during the preceding months of September through February by the total number of days in such period.

§ 918.81 *Determination of monthly base of each producer.* For each of the months of March through August of each year, the monthly base of each producer shall be an amount of milk computed by the market administrator by multiplying the daily base of such producer by the number of days on which milk was received during such month from such producer by a handler.

§ 918.82 *Base rules.* (a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of the landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) The base of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

§ 918.83 *Announcement of daily bases.* On or before March 20, of each year, the market administrator shall notify each producer of his daily base.

PAYMENTS

§ 918.90 *Payments to market administrator.* On or before the 12th day of each month each handler shall pay to the market administrator an amount equal to such handler's net obligation for the previous month as determined pursuant to § 918.70 less deductions authorized in writing by producers from whom he received milk. The market administrator shall maintain a separate fund in which he shall deposit all payments of handlers received pursuant to this paragraph and out of which he shall make all payments pursuant to § 918.91.

§ 918.91 *Payments to producers.* The market administrator shall pay each producer in the following manner for milk received by a handler from such producer: *Provided*, That if such handler has not made full payment pursuant to § 918.90 for the month the market administrator shall reduce uniformly such payments to such handler's producers and shall complete such payments as soon as the necessary funds are available.

(a) On or before the 15th day after the end of the months of September through February, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed by multiplying the hundredweight of such milk by not less than the uniform price computed for such handler pursuant to § 918.71, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less deductions authorized in writing by such producer.

(b) On or before the 15th day after the end of each of the months of March through August, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed as follows, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less deductions authorized in writing by such producer:

(1) Multiply the hundredweight of base milk received from such producer by such handler by not less than the uniform price for base milk computed for such handler pursuant to § 918.72;

(2) Multiply the hundredweight of excess milk received from such producer by such handler by not less than the uniform price for excess milk computed for such handler pursuant to § 918.72; and

(3) Add together the resulting sums.

(c) In making payments to producers pursuant to paragraphs (a) and (b) of this section the market administrator shall pay, on or before the 2d day prior to the date payments are due to individual producers, to a cooperative association which is authorized to collect payment for milk of its members and from which a request for such payment has been received a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to this section.

§ 918.92 *Butterfat differential to producers.* In making payment to producers pursuant to § 918.91, there shall be added to or subtracted from, as the case may be, the applicable uniform prices computed pursuant to §§ 918.71 and 918.72 for the handler who received milk from such producer for each one-tenth of one percent of butterfat content above or below 4.0 percent in such milk the amount shown in the schedule below for the butter price range in which falls the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department of Agriculture during the month:

Butter price range (cents):	*Butterfat differential (cents)*
Not more than 17.500	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

§ 918.93 *Location differentials to producers.* In making payment to producers pursuant to § 918.91, there shall be deducted from the applicable uniform prices, computed pursuant to §§ 918.71 and 918.72 (h), to be paid by a handler for producer milk received at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, the amount set forth below for the appropriate distance at which is located the fluid milk plant where such milk was received:

Distance from the City Hall in Memphis (miles):	*Amount per hundredweight (cents)*
40 but less than 50	17
50 but less than 60	18
60 but less than 70	19
Within each 10-mile zone thereafter an additional 1 cent.	

§ 918.94 *Statement to producers.* In making the payments pursuant to § 918.91, the market administrator shall furnish each producer or cooperative association with a statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer;

(c) The minimum rates at which payment to the producer or cooperative association is required under the provisions of §§ 918.91 and 918.92;

(d) The amount or rates per hundredweight of each deduction, together with a description of the respective deductions; and

(e) The net amount of payment to the producer or cooperative association.

§ 918.95 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due the market administrator from such handler, or due such handler from the market administrator, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 918.96 *Marketing services—(a) Deductions.* In making payments to producers pusuant to § 918.91, the market administrator shall deduct 7 cents per hundredweight or such amount not exceeding 7 cents per hundredweight as may be prescribed by the Secretary, with respect to milk (other than milk of a handler's own production) of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to paragraph (a) of this section shall be used by the market administrator to sample, test, and check the weights of milk received from producers for whom a cooperative association is not performing such services and to provide such producers with market information.

§ 918.97 *Expense of administration.* As his pro rata share of the expense of administration hereof, each handler shall pay to the market administrator, on or before the 15th day after the end of the month, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe with respect to all receipts within the month of (a) milk from producers including such handler's own production, and (b) other source milk which is classified as Class I milk.

§ 918.98 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler falls or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 918.100 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 918.101.

§ 918.101 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 918.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 918.103 *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 918.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 918.111 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 25th day of September 1950, to be effective on and after the 1st day of October 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8524; Filed, Sept. 27, 1950; 8:57 a. m.]

PART 987—IRISH POTATOES IN MAINE

LIMITATION OF SHIPMENTS

§ 987.305 *Limitation of shipments—*(a) *Findings.* (1) Pursuant to Marketing Agreement No. 108 and Order No. 87 (7 CFR 987.1 et seq.) regulating the handling of Irish potatoes grown in the State of Maine, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendation and information submitted by the State of Maine Potato Committee, established under said marketing agreement and order, and other available information, it is hereby found that such limitation of shipments as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impractical and contrary to the public interest to give preliminary notice, engage in public rule-making procedure and postpone the effective date of this section until thirty days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of the 1950 crop Irish potatoes grown in the State of Maine have begun, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by regulating the shipment of potatoes in the manner set forth below on and after the effective date hereinafter set forth, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date hereof, (iv) a reasonable time

is permitted, under the circumstances, for such preparation, (v) the time intervening between the date when adequate information became available to the State of Maine Potato Committee to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and (vi) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* During the period from October 1, 1950, to June 30, 1951, both dates inclusive, no handler shall ship (1) potatoes of the Bliss Triumph variety wnich are not U. S. No. 1 or better grade, or are less than 1⅞ inches minimum diameter, as such grades and sizes are defined in the U. S. Standards for Potatoes (14 F. R. 1955, 2161), including the tolerances set forth therein; and (2) any potatoes, other than potatoes of the Bliss Triumph variety, which are not U. S. No. 1 or better grade, or are less than 2¼ inches minimum diameter or are more than 3¾ inches maximum diameter, as such grades and sizes are defined in the said U. S. Standards for Potatoes, including the tolerances set forth therein: *Provided*, That the aforesaid limitation shall not be applicable to shipments of Maine Four Star grade potatoes (as such grade is defined in the State of Maine Standards for Potatoes, including the tolerances set forth therein); shipments of potatoes for export; shipments of potatoes purchased by the Commodity Credit Corporation for distribution by the Federal Government; shipments of potatoes for distribution by relief agencies or for consumption by charitable institutions; shipments of potatoes for the purpose of having such potatoes manufactured or converted into non-food products or for canning; shipments of potatoes for livestock feed; and shipments of seed potatoes, except that the State of Maine Potato Committee may prescribe adequate safeguards applicable to the aforesaid shipments (exclusive of Maine Four Star grade potato shipments) as provided by § 987.6 (c) of Order No. 87: *Provided further*, That for the period ending June 30, 1951, § 987.4 (d) of Marketing Agreement No. 108 and Order No. 87 (Inspection and Certification) is suspended with respect to each shipment of potatoes grown in District No. 4 of the production area which is not in excess of 1,500 pounds net weight.

The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 108 and Order No. 87.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 25th day of September 1950, to be effective on October 1, 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter F—Animal Breeds

[BAI Order 379, Amdt. 7]

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PUREBRED ANIMALS

CATTLE

On August 24, 1950, a notice of rule making was published in the FEDERAL REGISTER (15 F. R. 5693) regarding the proposed recognition by the Secretary of Agriculture of the book of record of purebred cattle entitled "Lincoln Red Shorthorn Herd Book."

After due consideration of all relevant material presented in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by paragraph 1606 of section 201 of the Tariff Act of 1930 (19 U. S. C. sec. 1201, par. 1606), hereby recognizes the said book of record, and hereby amends § 151.10, Chapter I, Title 9, Code of Federal Regulations, by adding to the subdivision of paragraph (a) of said section relating to cattle, the following book of record:

CATTLE

Name of breed	Book of record	By whom published
Lincoln Red Shorthorn.	Lincoln Red Shorthorn Herd Book.	Lincoln Red Shorthorn Society, W. Dunnaway, Secretary, 17 West Parade, Lincoln, England.

(Par. 1606, 46 Stat. 673, as amended; 19 U. S. C. 1201, par. 1606)

The foregoing amendment shall become effective on the 30th day of October 1950.

Done at Washington, D. C., this 22d day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50-8469; Filed, Sept. 27, 1950; 8:48 a. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Regulation W]

PART 222—CONSUMER INSTALMENT CREDIT

PRE-EFFECTIVE DATE TRANSACTIONS; INTERPRETATION

§ 222.102 *Pre-effective date transactions.* Certain questions have been received regarding the status under Part 222 of contracts or commitments made prior to September 18, 1950, to extend credit after that date. Section 222.8 (h) exempts "any valid contract or obligation entered into prior to" September 18. In order to clarify the application of this provision certain general principles are set out below:

(a) The exemption in § 222.8 (h) for "any valid contract or obligation" entered into before September 18 applies not only to credit actually extended before that date, but also to any valid contract or obligation to make a contract. The exemption, therefore, includes a valid commitment made in good faith before September 18 to extend credit after September 18, and includes also the credit extended pursuant to such a commitment.

(b) In order for the exemption to apply there must have been a valid contract or obligation. The general test is that the party seeking the credit should, aside from Part 222, have been able to maintain a suit for damages if the credit had not been granted pursuant to the contract or commitment to extend the credit. Some of the requirements for such a contract may be briefly summarized:

(1) A contract to sell or even a contract of sale for future delivery is not necessarily an agreement to extend credit for the article involved. There must have been a valid contract relating to the credit for the purchase of the article.

(2) There must be considerably more than general negotiations or indefinite "understandings" that credit would be extended. There must have been an agreement to extend the credit and a reasonably exact agreement as to terms and amount.

(3) While not always essential, the case is much clearer if there is written evidence of the commitment. The time as of which the credit itself is dated is not important, the significant date being that of the prior commitment.

(c) Substance and good faith rather than technicalities and formalities control in determining whether there is a valid pre-September 18 contract. The most elaborate written documents do not constitute such a contract unless they represent a bona fide commitment made as a part of a regular business transaction and not as a means of evading Part 222.

(Sec. 5, 40 Stat. 415, as amended, Title VI, Pub. Law 774, 81st Cong.; 50 U. S. C. App. 5; E. O. 8843, Aug. 9, 1941, 6 F. R. 4035; 3 CFR, 1941 Supp.)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc. 50-8457; Filed, Sept. 27, 1950; 8:46 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 33]

PART 600—DESIGNATION OF CIVIL AIRWAYS

MISCELLANEOUS AMENDMENTS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote

safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 600 is amended as follows:

1. Section 600.211 is amended to read:

§ 600.211 *Red civil airway No. 11 (Enid, Oklahoma, to Boston, Mass.)* From the intersection of the northwest course of the Enid, Okla. (Vance AFB) radio range and the northeast course of the Gage, Okla., radio range via the Enid, Okla. (Vance EFB), radio range station to the intersection of the southeast course of the Enid, Okla. (Vance AFB), radio range and the north course of the Oklahoma City, Okla., radio range. From the intersection of the northeast course of the Tulsa, Okla., radio range and the south course of the Chanute, Kans., radio range via the Springfield, Mo., radio range station; Vichy, Mo., radio range station to the intersection of the northeast course of the Vichy, Mo., radio range and the west course of the St. Louis, Mo., radio range. From the intersection of the east course of the St. Louis, Mo., radio range and the west course of the Evansville, Ind., radio range via the Evansville, Ind., radio range station; Louisville, Ky., radio range station; the intersection of the east course of the Louisville, Ky., radio range and the southwest course of the Huntington, W. Va., radio range to the Huntington, W. Va., radio range station. From the intersection of the east course of the Clear Creek, Ont., Canada, radio range and the southwest course of the Buffalo, N. Y., radio range to the Danville, N. Y., non-directional radio beacon. From the Elmira, N. Y., radio range station via the Albany, N. Y., radio range station to the intersection of the northeast course of the Hartford, Conn., radio range and the west course of the Boston, Mass., radio range. From the Boston, Mass., radio range station to the intersection of the east course of the Boston, Mass., radio range and the northeast course of the Squantum, Mass. (Navy) radio range.

2. Section 600.212 is amended to read:

§ 600.212 *Red civil airway No. 12 (Kansas City, Mo., to Williamsport, Pa.).* From the interesection of the northeast course of the Kansas City, Mo., radio range and the west course of the Columbia, Mo., radio range via the Kirksville, Mo., radio range station; Burlington, Iowa, radio range station; Joliet, Ill., radio range station; the intersection of the east course of the Joliet, Ill., radio range and the west course of the South Bend, Ind., radio range; South Bend, Ind., radio range station to the Detroit, Mich., radio range station. From the intersection of a direct line between the Windsor, Ont., Canada, radio range and the Erie, Pa., radio range station with the U. S.-Canadian Border via the Erie, Pa., radio range station; Philipsburg, Pa., radio range station to the Williamsport, Pa., radio range station.

3. Section 600.215 is amended to read:

§ 600.215 *Red civil airway No. 15 (Las Vegas, Nev., to Phoenix, Ariz.).* From the Las Vegas, Nev., radio range station to the intersection of the southeast course of the Las Vegas, Nev., radio range and the west course of the Prescott, Ariz., radio range. From the Prescott, Ariz., radio range station via the intersection of the southeast course of the Prescott, Ariz., radio range and the northwest course of the Phoenix, Ariz., radio range to the Phoenix, Ariz., radio range station.

4. Section 600.229 is amended to read:

§ 600.229 *Red civil airway No. 29 (Rochester, N. Y., to Baltimore, Md.).* From the intersection of the southwest course of the Rochester, N. Y., radio range and the east course of the Buffalo, N. Y., radio range to the intersection of the southwest course of the Rochester, N. Y., radio range and the northwest course of the Elmira, N. Y., radio range. From the intersection of the southeast course of the Elmire, N. Y., radio range and the north course of the Williamsport, Pa., radio range via the Williamsport, Pa., radio range station; Harrisburg, Pa., radio range station to the intersection of the south course of the Harrisburg, Pa., radio range and the west course of the Baltimore, Md., radio range. From the Baltimore, Md., radio range station to the intersection of the south course of the Baltimore, Md., radio range and the southeast course of the Andrews, Md., radio range, excluding that portion which lies more than two miles east of the south course of the Baltimore, Md., radio range between the intersection of the south course of the Baltimore, Md., radio range and the southern boundary of Red civil airway No. 45 and the intersection of the south course of the Baltimore, Md., radio range and the southeast course of the Washington, D. C., radio range, and excluding those portions which overlap danger areas.

5. Section 600.283 is amended to read:

§ 600.283 *Red civil airway No. 83 (Gila Bend, Ariz., to Rodeo, N. Mex.).* From the intersection of the west course of the Phoenix, Ariz., radio range and the north course of the Gila Bend, Ariz., radio range via the Gila Bend, Ariz., radio range station to the Tucson, Ariz., radio range station. From the intersection of the southeast course of the Tucson, Ariz., radio range and the west course of the Cochise, Ariz., radio range via the intersection of the southeast course of the Tucson, Ariz., radio range and the northwest course of the Douglas, Ariz., radio range; Douglas, Ariz., radio range station; the intersection of the northeast course of the Douglas, Ariz., radio range and the southwest course of the Rodeo, N. Mex., radio range to the Rodeo, N. Mex., radio range station.

6. Section 600.295 is added to read:

§ 600.295 *Red civil airway No. 95 (Elmira, N. Y., to Utica, N. Y.).* From the Elmira, N. Y., radio range station to the Utica, N. Y., radio range station.

7. Section 600.639 is amended to read:

§ 600.639 *Blue civil airway No. 39 (Knoxville, Tenn., to U. S.-Canadian Border).* From the Tri-City, Tenn., radio range station via the Paynesville, W. Va., non-directional radio beacon; the intersection of the southeast course of the Huntington, W. Va., radio range and the south course of the Charleston, W. Va., radio range to the Charleston, W. Va., radio range station. From the intersection of the west course of the Elkins, W. Va., radio range and the southwest course of the Morgantown, W. Va., radio range via the Morgantown, W. Va., radio range station to the intersection of the northeast course of the Morgantown, W. Va., radio range and the east course of the Pittsburgh, Pa., radio range. From the intersection of the northeast course of the Altoona, Pa., radio range and the northeast course of the Pittsburgh, Pa., radio range via the intersection of the northeast course of the Altoona, Pa., radio range and the southwest course of the Elmira, N. Y., radio range to the Elmira, N. Y., radio range station. From the Syracuse, N. Y., radio range station via the intersection of the northwest course of the Syracuse, N. Y., radio range and the southwest course of the Watertown, N. Y., VHF radio range; Watertown, N. Y., VHF radio range station; the intersection of the northeast course of the Watertown, N. Y., VHF radio range and the southwest course of Massena, N. Y., VHF radio range station to the intersection of the northeast course of the Massena, N. Y., VHF radio range and the U. S.-Canadian Border.

8. Section 600.647 is amended to read:

§ 600.647 *Blue civil airway No. 47 (Front Royal, Va., to Dunkirk, N. Y.).* From the intersection of the southeast course of the Front Royal, Va., radio range and the southwest course of the Arcola, Va., radio range via the Front Royal, Va., radio range station; the intersection of the northwest course of the Front Royal, Va., radio range and the northwest course of the Washington, D. C., radio range; the intersection of the southeast course of the Pittsburgh, Pa., radio range and the south course of the Altoona, Pa., radio range; Altoona, Pa., radio range station to the intersection of the northeast course of the Altoona, Pa., radio range and the northeast course of the Pittsburgh, Pa., radio range. From the Philipsburg, Pa., radio range station via the Bradford, Pa., non-directional radio beacon to the Dunkirk, N. Y., non-directional radio beacon.

9. Section 600.672 is added to read:

§ 600.672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.).* From the Enid, Okla. (Vance AFB) radio range station to the intersection of the northeast course of the Enid, Okla. (Vance AFB) radio range and the north course of the Oklahoma City, Okla., radio range.

10. Section 600.673 is added to read:

§ 600.673 *Blue civil airway No. 73 (Brookville, Pa., to Buffalo, N. Y.).* From the Brookville, Pa., non-directional radio beacon via the Bradford, Pa., non-directional radio beacon to the Buffalo, N. Y., radio range station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 202, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. October 1, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50-8510; Filed, Sept. 27, 1950; 8:54 a. m.]

[Amdt. 36]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

MISCELLANEOUS AMENDMENTS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 601 is amended as follows:

1. Section 601.211 is amended by changing capition to read: "*Red civil airway No. 11 control areas (Enid, Okla., to Boston, Mass.).*"

2. Section 601.212 is amended by changing caption to read: "*Red civil airway No. 12 control areas (Kansas City, Mo., to Williamsport, Pa.).*"

3. Section 601.215 is amended by changing caption to read: "*Red civil airway No. 15 control areas (Las Vegas, Nev., to Phoenix, Ariz.).*"

4. Section 601.283 is amended by changing caption to read: "*Red civil airway No. 83 control areas (Gila Bend, Ariz., to Rodeo, N. Mex.).*"

5. Section 601.295 is added to read:

§ 601.295 *Red civil airway No. 95 control areas (Elmira, N. Y., to Utica, N. Y.).* All of Red civil airway No. 95.

6. Section 601.647 is amended by changing caption to read: "*Blue civil airway No. 47 control areas (Front Royal, Va., to Dunkirk, N. Y.).*"

7. Section 601.672 is added to read:

§ 601.672 *Blue civil airway No. 72 control areas (Enid, Okla., to Wichita, Kans.).* All of Blue civil airway No. 72.

8. Section 601.673 is added to read:

§ 601.673 *Blue civil airway No. 73 control areas (Brookville, Pa., to Buffalo, N. Y.).* All of Blue civil airway No. 73.

9. Section 601.1045 is amended to read:

§ 601.1045 *Control area extension (Presque Isle, Maine).* From the Presque Isle, Maine, radio range station extending 5 miles either side of the west course of the radio range to a point 15 miles west of the radio range station, and extending 5 miles either side of the northeast course of the radio range to its intersection with the U. S.-Canadian Border.

10. Section 601.1054 *Control Area Extension Philipsburg, Pa.,* is revoked.

11. Section 601.1159 *Control Area Extension Moline, Ill.,* is amended by changing word "northwest" to "west".

12. Section 601.1182 is amended to read:

§ 601.1182 *Control area extension (Enid, Okla.).* From the Enid, Okla. (Vance AFB) radio range station extending 5 miles either side of the southwest course of the radio range to a point 25 miles southwest of the Enid, Okla. (Vance AFB) radio range station.

13. Section 601.1983 is amended by deleting the following airports:

Whitehall, Mont.: Whitehall Municipal Airport.
Cochise, Ariz.: CAA Intermediate Field.
Drummond, Mont.: Drummond Municipal Airport.

14. Section 601.1934 is amended by adding the following airport:

Fairbanks, Alaska: Eielson Air Force Base.

and by deleting the following airport:

El Toro, Calif.: El Toro Airport.

15. Section 601.2116 is amended to read:

§ 601.2116 *Moline, Ill., control zone.* Within a 5 mile radius of the Quad City Airport extending 2 miles either side of the ILS localizer course to a point 16 miles west of the ILS localizer.

16. Section 601.2131 is amended to read:

§ 601.2131 *Augusta, Ga., control zone.* Within a 5 mile radius of Bush Field extending 2 miles either side of the southeast and northwest courses of the Augusta, Ga., radio range to a point 10 miles northwest of the radio range station, including a 5 mile radius of Daniel Field extending 2 miles either side of the southwest course of the Augusta radio range to a point 10 miles southwest of the radio range station.

17. Section 601.2252 *Fairbanks, Alaska, Eielson AFB control zone,* is revoked.

18. Section 601.2252 is added to read:

§ 601.2252 *El Toro, Calif., control zone.* Within a 5 mile radius of the El Toro, Calif., MCAS, including the area within 5 miles either side of the north and south courses of the El Toro, Calif., radio range between Amber civil airway No. 1, Amber civil airway No. 2 and Green civil airway No. 5.

19. Section 601.4211 is amended by changing caption to read: "*Red civil airway No. 11 (Enid, Okla., to Boston, Mass.).*"

20. Section 601.4212 is amended by changing caption to read: "*Red civil airway No. 12 (Kansas City, Mo., to Williamsport, Pa.).*"

21. Section 601.4215 is amended by changing caption to read: "*Red civil airway No. 15 (Las Vegas, Nev., to Phoenix, Ariz.).*"

22. Section 601.4271 is amended to read:

§ 601.4271 *Red civil airway No. 71 (El Paso, Tex., to Wichita Falls, Tex.),* Roswell, N. Mex., radio range station; Lubbock, Tex., radio range station; Guthrie, Tex., VHF radio range station.

23. Section 601.4283 is amended by changing caption to read: "*Red civil airway No. 83 (Gila Bend, Ariz., to Rodeo, N. Mex.).*"

24. Section 601.4295 is added to read:

§ 601.4295 *Red civil airway No. 95 (Elmira, N. Y., to Utica, N. Y.).* The intersection of the south course of the Syracuse, N. Y., radio range and the northeast course of the Elmira, N. Y., radio range.

25. Section 601.4647 is amended by changing caption to read: "*Blue civil airway No. 47 (Front Royal, Va., to Dunkirk, N. Y.).*"

26. Section 601.4669 is amended to read:

§ 601.4669 *Blue civil airway No. 69 (St. Louis, Mo., to Des Moines, Iowa).* Quincy, Ill., non-directional radio beacon; Ottumwa, Iowa, non-directional radio beacon.

27. Section 601.4672 is added to read:

§ 601.4672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.).* No reporting point designation.

28. Section 601.4673 is added to read:

§ 601.4673 *Blue civil airway No. 73 (Brookville, Pa., to Buffalo, N. Y.).* No reporting point designation.

29. Section 601.5001, *Other reporting points,* is amended by changing Bass Intersection to read:

The intersection of the southeast course of the Weeksville, N. C. (Navy) radio range and the Western boundary of the New York Oceanic Control Area.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. October 1, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50-8511; Filed, Sept. 27, 1950; 8:55 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-427]

PART 194—COCOA AND CHOCOLATE INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the trade practice rules of Group I as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of September 28, 1950.

Statement by the Commission. Trade practice rules for the Cocoa and Chocolate Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

Members of the industry are the persons, firms, corporations, and organizations engaged in the manufacture, processing, sale, distribution, or marketing of cocoa and chocolate products which are prepared, packaged, or marketed for use by the consumer without further commercial processing or only with such processing as is usually employed in the home.

The rules are directed to the elimination and prevention of unfair trade practices to the end that the industry, the trade and the public may be protected from the harmful effects of such competitive methods, and that the conduct of business throughout the industry may be effectively maintained on a high plane of free and fair competition.

Proceedings leading to the establishment of rules were instituted upon application made on behalf of industry members. A general industry conference was held in New York City at which proposals for rules were submitted for the consideration of the Commission. Thereafter, proposed rules in appropriate form were released and made available and public notice given of hearing thereon, whereby all interested or affected parties were afforded opportunity to present their views, including such pertinent information, suggestions, or objections respecting the proposed rules as they desired to offer.

Following such hearing, and upon consideration of the entire matter, final action was taken by the Commission whereby it approved the trade practice rules hereinafter appearing. Such rules become operative thirty (30) days from the date of promulgation.

The rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which suppresses competition, restrains trade, fixes or controls price through combination or agreement, or which otherwise injures, destroys, or prevents competition, that the rules are to be applied.

Sec.
194.0 Definition; industry product.

GROUP I

194.00 General statement.
194.1 Deception (general).
194.2 Misuse of the word "free."
194.3 Imitation or simulation of trademarks, trade names, etc.
194.4 False invoicing.
194.5 False and misleading price quotations, etc.
194.6 Tie-in sales; coercing purchase of one product as a prerequisite to the purchase of other products.
194.7 Consignment distribution.
194.8 Commercial bribery.
194.9 Defamation of competitors or disparagement of their products.
194.10 Unlawful coercion or combinations in restraint of trade.
194.11 Prohibited discrimination.
194.12 Exclusive deals.
194.13 Inducing breach of contract.
194.14 Enticing away employees of competitors.
194.15 Marketing of products through lottery or game of chance.
194.16 Selling below cost.
194.17 Aiding or abetting use of unfair trade practices.

AUTHORITY: §§ 194.0 to 194.17, inclusive, issued under Sec. 6, 38 Stat. 721; 15 U. S. C. 46.

§ 194.0 *Definition; industry product.* As used in §§ 194.1 to 194.17, inclusive, the term "industry product" shall mean any and all kinds of commercially manufactured or processed cocoa or chocolate, or cocoa or chocolate products, which are packaged, designed, or marketed for the use of consumers either without further processing or with only such processing as is usually performed in the home. Such products shall be those included in the Definitions and Standards of Identity for Cacao Products as promulgated by the Food and Drug Administration (21 CFR Part 14; 13 F. R. 6377), such as baking chocolate, bitter chocolate, cooking chocolate, breakfast cocoa, high fat cocoa, medium fat cocoa, low fat cocoa, cocoa, sweet chocolate, milk chocolate, sweet milk chocolate, skim milk chocolate, sweet skim milk chocolate, buttermilk chocolate, mixed dairy-product chocolate; also, cocoa or chocolate-flavored syrups and all kinds of solid or molded chocolate products. Not included, however, in this definition are the various kinds of chocolate coatings and other chocolate and cocoa products sold in bulk to other manufacturers for further processing.[1]

GROUP I

§ 194.00 *General statement.* The unfair trade practices embraced in §§ 194.1 to 194.17, inclusive, are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 194.1 *Deception (general).* The practice of selling, advertising, describing, or otherwise representing an industry product in any manner or under any circumstances having the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public with respect to the grade, quantity, price, value, composition, ingredients, nutritional value, character, nature, size, use, preparation, manufacture, or distribution of such product, or in any other material respect, is an unfair trade practice.

NOTE: Among the inhibitions of this section is the false advertisement of any industry product as the term "false advertisement" is defined in section 15 of the Federal Trade Commission Act, as amended. [Rule 1]

§ 194.2 *Misuse of the word "free".* Use of the word "free," or any word or term of similar import, in advertising or otherwise, to designate or describe any product or service which is not in truth and in fact a gift or gratuity, or is not given to the recipient thereof without requiring the purchase of other merchandise or requiring the performance of some service inuring directly or indirectly to the benefit of the industry member using such word, is an unfair trade practice. [Rule 2]

§ 194.3 *Imitation or simulation of trade-marks, trade names, etc.* The imitation or simulation of the trademarks, trade names, or other exclusively owned marks of identification of competitors, with the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 3]

§ 194.4 *False invoicing.* (a) It is an unfair trade practice to withthold from or insert in invoices any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the capacity and tendency or effect of thereby misleading or deceiving purchasers, prospective purchasers, or the consuming public.

(b) It is an unfair trade practice to falsify, remove, or fail to furnish any purchase slip, ticket, card, invoice, or other record, with the capacity and tendency or effect of thereby misleading or deceiving purchasers, prospective purchasers, or the consuming public. [Rule 4]

§ 194.5 *False and misleading price quotations, etc.* The publishing or circulating by any member of the industry of price quotations, price lists, or terms or conditions of sale which are false or have the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 5]

§ 194.6 *Tie-in sales; coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice. [Rule 6]

§ 194.7 *Consignment distribution.* It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment or pretended consignment for the purpose and with the effect of artificially clogging or closing trade outlets and unduly restricting competitors' use of said trade outlets in getting their products to consumers through regular channels of distribution, thereby injuring, destroying, or preventing competition, or tending to create a monopoly or to unreasonably restrain trade. Nothing in this section shall be construed as restricting or preventing consignment shipping or marketing of industry prod-

[1] While §§ 194.1 to 194.17, inclusive, are not applicable to the business of selling or distributing cocoa or chocolate, and cocoa or chocolate products, in bulk to other manufacturers for further processing, such fact is not to be construed as relieving, or purporting to relieve, those engaged in such business from the obligation of complying with the requirements of the statutes on which §§ 194.1 to 194.17, inclusive, are based or any other legal requirements.

ucts in good faith where suppression of competition, restraint of trade, or undue interference with competitors' use of the usual channels of distribution, is not effected. [Rule 7]

§ 194.8 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 8]

§ 194.9 *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the products of competitors in any material respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 9]

§ 194.10 *Unlawful coercion or combinations in restraint of trade.* It is an unfair trade practice for a member of the industry:

(a) To use, directly or indirectly, any form of threat, intimidation, or coercion against any member of the industry or other person to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade; or

(b) To enter into or take part in, directly or indirectly, any agreement, understanding, combination, conspiracy, or concerted action with one or more members of the industry, or with one or more other persons, to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade. [Rule 10]

§ 194.11 *Prohibited discrimination—(a) Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce,[2] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[2] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[2] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however,*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing contained in this section shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce [2] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this section shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce,[2] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce [2] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce [2] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[2] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Exemptions.* The inhibitions of this section shall not apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit. [Rule 11]

§ 194.12 *Exclusive deals.* It is an unfair trade practice for any member of the industry to contract to sell or sell any product, or to fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the purchaser thereof shall not use or deal in the products of a competitor or competitors of such industry member, where the effect of such sale or contract for sale, or of such condition, agreement, or understanding, may be to substantially lessen competition or tend to create a monopoly in any line of commerce. [Rule 12]

§ 194.13 *Inducing breach of contract.* Inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers, or their supplies, by any false or deceptive means whatsoever, or interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring, or prejudicing competitors in their business, is an unfair trade practice. [Rule 13]

§ 194.14 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees of competitors with the intent and effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition: *Provided,* That nothing in this section shall be construed as prohibiting employees or agents from seeking or obtaining more favorable employment. [Rule 14]

§ 194.15 *Marketing of products through lottery or game of chance.* It is an unfair trade practice for any member of the industry to sell or promote the sale of any industry product by means of a game of chance, gift enterprise, or lottery scheme.

The inhibitions of this section shall be understood as also extending to the marketing of an industry product which is specially packaged or arranged so as to facilitate its resale or distribution by a customer of an industry member to the public by means of a game of chance or lottery scheme, and to the marketing or supplying of any lottery device by an industry member to his customer either separately or in conjunction with an industry product. [Rule 15]

§ 194.16 *Selling below cost.* The practice of selling industry products at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect may be, to injure, suppress, or stifle competition or tend to create a monopoly in the production or sale of such products, is an unfair trade practice. As used in this section, the term "cost" means the total cost to the seller, including the costs of acquisition, processing, preparation for marketing, sale, and delivery. [Rule 16]

§ 194.17 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in §§ 194.1 to 194.17, inclusive. [Rule 17]

A Committee on Trade Practices is hereby authorized to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper in the furtherance of fair competitive practices and in promoting the effectiveness of the rules.

Promulgated by the Federal Trade Commission September 28, 1950.

Issued: September 25, 1950.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 50-8483; Filed, Sept. 27, 1950; 8:51 a. m.]

[2] As here used, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

TITLE 18—CONSERVATION OF POWER

Chapter II—Tennessee Valley Authority

PART 301—PROCEDURES

OBTAINING OF APPROVAL FOR CONSTRUCTION IN TENNESSEE RIVER SYSTEM

Section 301.2 is amended as follows: Changes are made in the language of paragraph (e); new material relating to hearings on applications for approval of construction is included under paragraph (f); the material formerly under paragraph (f) has been revised and is redesignated as paragraph (g).

§ 301.2 *Obtaining of approval for construction in the Tennessee River system.* • • •

(e) *Determination of request.* The Board has established a committee for the administration of section 26a comprised of TVA officials. The committee conducts preliminary investigations and conducts hearings when requested by the applicant or when the Board or committee feels that a hearing is necessary in determining the issues presented by the application. Upon completion of the investigation and hearing, if any, the committee makes a report to the Board and recommends approval or disapproval of the project. The Board then makes a final determination based upon the application and supporting papers, the report of investigation, the transcript of the hearing, if any be held, and the recommendation of the committee.

(f) *Hearings.* (1) If the applicant requests a hearing or if the Board or committee deems a hearing necessary, the committee gives notice of the hearing to the applicant and to all known interested parties. The notice indicates the place and time of hearing, customarily thirty days after notice, and so far as feasible indicates the particular issues to which the hearing will pertain.

(2) Hearings may be conducted by one or more of the members of the committee or by some other person or persons designated by the committee for that purpose. Hearings are public and are conducted in an informal manner. All persons or parties having any direct interest in the construction of the project are invited to attend and participate in the hearing. They may be represented by counsel or other persons of their choosing. Technical rules of evidence are not observed although reasonable bounds are maintained as to relevancy, materiality, and competency. Evidence may be presented orally or by written statement and need not be under oath. After the hearing has been completed, additional evidence will not be received unless it presents new and material matter that could not be presented at the hearing.

(3) Where construction of the project also requires the approval of another agency of the Government before whom a hearing is to be held, the committee may arrange with such agency to hold a joint hearing.

(g) *Notification of final determination.* The Board shall, as soon as a final determination has been arrived at, notify in writing all parties of record of such decision. If the application is denied, the Board informs the applicant of its findings on which such denial is based. These decisions will not be published but information concerning the same may be obtained by communication with the office of the General Manager of TVA.

(48 Stat. 58, as amended; 16 U. S. C. 831–831dd. Interprets or applies sec. 26a, 49 Stat. 1079; 16 U. S. C. 831y–1)

Issued this 20th day of September 1950.

TENNESSEE VALLEY AUTHORITY,
[SEAL] GEORGE F. GANT,
General Manager.

TITLE 22—FOREIGN RELATIONS

Chapter II—Economic Cooperation Administration

[ECA Reg. 1, as Amended Nov. 15, 1949, Amended Order 4]

PART 201—PROCEDURES FOR FURNISHING ASSISTANCE TO PARTICIPATING COUNTRIES

EXTENSION OF TERMINAL DELIVERY DATES FOR CERTAIN PROCUREMENT AUTHORIZATIONS BEARING COMMODITY CODE NUMBERS 660 AND 680

Order 4 (F. R. Doc. 49-9611; 14 F. R. 7231) is amended to read as follows:

Pursuant to the powers reserved in § 201.24 of ECA Regulation 1, the Administrator hereby waives the provisions of the regulation in the following respect:

Notwithstanding the provisions of § 201.5 (a) (3) and (b) (3), or of the Procurement Authorization concerned, the terminal dates for deliveries under the following Procurement Authorizations bearing Commodity Code Numbers 660 (Iron and Steel Mill Materials, Steel Mill Products and Ferro Alloys) and 680 (Miscellaneous Iron and Steel Manufactures), or four-digit code numbers listed thereunder, are extended as indicated below:

1. Deliveries under Third Quarter 1949 Delivery Quarter Procurement Authorizations bearing any of the above commodity code numbers may be made through March 31, 1950, providing that the covering contracts shall have been made on or before September 30, 1949.

2. Deliveries under Fourth Quarter 1949 Delivery Quarter Procurement Authorizations bearing any of the above commodity code numbers may be made through June 30, 1950, provided that the covering contracts shall have been made on or before December 31, 1949.

3. If the terminal delivery date specified on a Serial Number Procurement Authorization bearing any of the above commodity code numbers is a date prior to June 30, 1950, deliveries under the Procurement Authorization may be made through June 30, 1950, provided that the covering contracts shall have been made prior to February 28, 1950.

4. If the terminal delivery date specified on a Serial Number Procurement Authorization bearing any of the above commodity code numbers is a date on or after July 31, 1950 and prior to September 30, 1951, deliveries under the Procurement Authorization may be made within four months after the terminal delivery date specified on the Procurement Authorization.

(Sec. 104, 62 Stat. 138; 22 U. S. C., Sup., 1503. Interprets or applies sec. 111, 62 Stat. 143; 22 U. S. C., Sup., 1509)

WILLIAM FOSTER,
Acting Administrator for Economic Cooperation.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 287]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 284]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

ILLINOIS, MASSACHUSETTS, MISSOURI, PENNSYLVANIA, AND CALIFORNIA

Amendment 287 to the Controlled Housing Rent Regulation and Amendment 284 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments.

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. In Schedule C, Item 83, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Cook County, the Cities of Berwyn, Calumet City, Chicago, and Evanston, the Villages of Arlington Heights, Bedford Park, Bellwood, Glencoe, Justice, Morton Grove, Niles, North Riverside, Riverside, and Schiller Park, and all unincorporated localities; in Lake County, the City of Waukegan, the Villages of Antioch and Libertyville, and all unincorporated localities; and in Kane County, all unincorporated localities.

This adds to Schedule C the following localities in the Chicago, Illinois, Defense-Rental Area, all based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Villages of Bellwood and North Riverside, Illinois, based on declarations made on August 24, 1950.

(2) The City of Berwyn, Illinois, based on a declaration made on August 29, 1950.

2. In Schedule C, Item 143, the description of localities affected by a declaration for continuance of rent control after December 31, 1950, is amended to read as follows:

In Suffolk County, the Cities of Boston and Chelsea; in Norfolk County, the Town of Westwood; and in Middlesex County, the City of Lowell and the Town of North Reading.

This adds to Schedule C the Town of North Reading, Massachusetts, a portion of the Eastern Massachusetts Defense-Rental Area, based on a declaration made on August 31, 1950, by the local governing body of said Town in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

3. Schedule C, Item 174, is amended to read as follows:

Name of defense-rental area	State	Localities affected by declarations for continuance of rent control after Dec. 31, 1950
(174) St. Louis, Mo.	Missouri Illinois	In St. Charles County, the city of St. Charles. In Madison County, the city of Madison; and in St. Clair County, the city of East St. Louis and the villages of Dupo and New Athens.

This adds to Schedule C the following localities in the St. Louis, Missouri, Defense-Rental Area, both based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Village of Dupo, Illinois, based on a declaration made on August 7, 1950.

(2) The City of St. Charles, Missouri, based on a declaration made on September 6, 1950.

4. In Schedule C, Item 267, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Allegheny County, the City of McKee's Rocks; in Beaver County, the Boroughs of Aliquippa and Ambridge; and in Washington County, the Township of North Strabane.

This adds to Schedule C the Township of North Strabane, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area, based on a declaration made on August 31, 1950, by the local governing body of said Township in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

5. The following new items are incorporated in Schedule C:

Name of defense-rental area	State	Localities affected by declarations for continuance of rent control after Dec. 31, 1950
(24) Richmond-Vallejo	California	In Contra Costa County, the city of San Pablo.
(82b) Bloomington	Illinois	In McLean County, the city of Bloomington (coextensive with Bloomington City Township) and all unincorporated localities in Bloomington and Normal Townships.
(91a) Woodstock	do	In McHenry County, the city of Harvard and the village of Huntley.

This addition to Schedule C is based upon declarations made in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended, by the local governing bodies of the following localities:

(1) The City of San Pablo, California, based on a declaration made on August 7, 1950.

(2) The City of Bloomington, Illinois, based on a declaration made on August 25, 1950, said City being the major portion of the Bloomington, Illinois, Defense-Rental Area.

(3) The Village of Huntley, Illinois, based on a declaration made on August 28, 1950.

(4) The City of Harvard, Illinois, based on a declaration made on August 29, 1950.

This amendment shall be effective with respect to each locality covered thereby as of the date on which the declaration affecting that locality was made.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Supp. 1894)

Issued this 25th day of September 1950.

ED DUPREE,
Acting Housing Expediter.

[F. R. Doc. 50-8462; Filed, Sept. 27, 1950; 8:47 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

SHOE MANUFACTURING INDUSTRY

Pursuant to section 14 of the Fair Labor Standards Act, as amended, a "Notice of Hearing" was published in the FEDERAL REGISTER on December 31, 1949 (14 F. R. 7942), announcing a public hearing on the following questions:

(1) Is it necessary in order to prevent curtailment of opportunities for employment to provide for the employment of learners in the shoe manufacturing industry after January 25, 1950, at wages below the minimum provided in section 6 of the Fair Labor Standards Act as amended; and if such necessity be found to exist,

(2) What subminimum wage rates should be provided for learners in the shoe manufacturing industry, what number or proportion of learners should be permitted in a plant, in what occupations should learners be permitted, and the length or duration of learning period.

In accordance with the aforesaid notice, hearings were held on January 9 to 13, January 16 to 20, February 27 and 28, March 1 to 3 and April 25 to 28, 1950, before Verl E. Roberts, who was designated by me as Presiding Officer to receive evidence, hear argument and make findings and recommendations on the questions set forth in the notice.

Following the hearing, the Presiding Officer, on the basis of the record and all available information, found that in order to prevent curtailment of opportunities for employment in a substantial number of plants in the shoe manufacturing industry, it is necessary to provide for the employment of learners at subminimum wage rates, and recommended the issuance of special regulations as hereinafter set forth governing the employment of learners in such industry. The findings and recommendations of the Presiding Officer were submitted to me together with the

complete record of the proceedings. Copies of the findings and recommendations may be examined by interested persons at the regional offices as well as at the National Office of the Wage and Hour Division, United States Department of Labor, Washington, D. C. Copies thereof will be furnished to interested persons, upon request, as long as they are available.

I have reviewed and considered the record and on the basis thereof I have concluded that the findings and recommendations of the Presiding Officer are proper and are supported by the evidence, and I hereby adopt them as my own.

Now therefore, pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (Sec. 14, 52 Stat. 1068; 29 U. S. C. 214), the following regulations governing the employment of learners in the shoe manufacturing industry are hereby issued effective October 16, 1950:

Sec.
522.250 Conditions upon which special learners certificates may be granted.
522.251 Learner occupations
522.252 Learning period.
522.253 Subminimum rates.
522.254 Number or proportion of learners.
522.255 Effective period of certificates.
522.256 Removal of plant or transfer of production.
522.257 Employment of learners prohibited when experienced workers are available.
522.258 Definitions of terms.
522.259 Cancellation of certificates.
522.260 Applicability of general learner regulations.

AUTHORITY: §§ 522.250 to 522.260 issued under sec. 14, 52 Stat. 1068; 29 U. S. C. 214.

§ 522.250 *Conditions upon which special learner certificates may be granted.* (a) Upon application to the Administrator of the Wage and Hour Division, special certificates authorizing the employment of learners at subminimum wage rates in the shoe manufacturing industry, as hereinafter defined, may be issued by the Administrator or his authorized representative, to the extent necessary in order to prevent curtailment of opportunities for employment, under the terms hereinafter set forth, when it appears that experienced workers are not available to an employer making application for a special learner certificate and that the issuance of a special certificate will not create unfair competitive labor cost advantages or impair or depress working standards established for experienced workers for work of a like or comparable character in the industry.

(b) All applications must be made upon official forms furnished on request by the Wage and Hour Division and must contain all information required by such forms. Such forms require to be set forth, among other things, information concerning efforts made by the applicant to determine the availability of experienced workers, the number of learners requested, information concerning the number of learners previously hired, the number of experienced workers employed in productive factory occupations, their average straight-time hourly earnings in cents per hour, and information concerning the number of idle and new machines to be used by learners.

§ 522.251 *Learner occupations.* Special certificates may be issued authorizing the employment of learners at subminimum wage rates in the shoe manufacturing industry in any productive factory occupation, but not in (a) maintenance, warehousing, custodial, supervisory, clerical or office occupations or other non-productive factory occupations, such as elevator operator, truck driver and the like; nor in (b) the following occupations:

(1) Edge setting.
Edge trimming.
Goodyear and McKay stitching.
Lasting, including side lasting by hand, but excluding slip lasting.
Niggerhead machine operator.
Sole attaching, cement process.
Top stitching.
Treeing.
Upper leather cutting, hand or machine (except lining or trim).
Vamping.
Wood heel fitting, hand.
(2) Bagger, insoles or outsoles.
Catcher, outsoles.
Channel lip wetter.
Floorboy.
Floorgirl.
Insole presser.
Rack changer.
Rack shover or pusher.
Sock lining getter.

§ 522.252 *Learning period.* (a) The maximum learning period which may be authorized in special certificates issued in the shoe manufacturing industry is 480 hours.

(b) If a worker who is being trained in any occupation or operation has been employed in the industry in productive factory work within the previous five years, the total number of hours of such employment shall be deducted from the maximum learning period.

§ 522.253 *Subminimum rates.* (a) The subminimum rates which may be authorized in special certificates issued in the shoe manufacturing industry shall be not less than 65 cents per hour for the first 240 hours and not less than 70 cents per hour for the second 240 hours.

(b) In establishments where experienced workers are paid on a piece rate basis, learners shall be paid the same piece rates that experienced workers engaged in the same occupation are paid and earnings shall be based on those piece rates if in excess of the subminimum rates provided in paragraph (a) of this section.

§ 522.254 *Number or proportion of learners.* (a) The number of learners which any employer may be authorized to employ by any special certificate issued to meet normal labor turnover needs shall not exceed on any one work day ten percent of the total number of productive factory workers in the plant: *Provided*, That, in plants employing less than 100 workers, a maximum of 10 learners may be authorized.

(b) Special certificates may be issued to new or expanding plants authorizing the employment of learners in authorized occupations to the extent of need

§ 522.255 *Effective period of certificates.* (a) Special certificates issued to meet labor turnover needs may be issued for a period not longer than one year.

(b) Special certificates issued to new or expanding plants may be issued for a period not longer than necessary to complete the training of the total number of learners required by the new or expanding plant.

§ 522.256 *Removal of plant or transfer of production.* An applicant for a special learner certificate for a new or expanding plant, who is moving from a plant in another location or is transferring production from such plant, or who has recently so moved or transferred production, shall attach to his application a signed statement giving the following information for the purpose of enabling the Wage and Hour Division to determine whether there is satisfaction of the conditions prescribed in § 522.250: (a) Name, location and products of the plant from which applicant is moving or is transferring production. (b) The average hourly earnings of all productive factory workers for the payroll period immediately preceding the initial curtailment of production in that plant in connection with the transfer or removal. (c) Reasons for removal or transfer of production.

§ 522.257 *Employment of learners prohibited when experienced workers are available.* No learners shall be employed under a special learner certificate if at the time such employment begins an experienced worker who is capable of equaling the performance of a worker of ordinary or minimum skill is available for employment.

§ 522.258 *Definitions of terms.* (a) "New plant" means a plant which is newly established and is being operated for the first time, or which has not been operated more than eight months and in which a substantial number of workers must be trained for the manufacture of the products of the plant.

(b) "Expanding plant" means a plant which is being expanded by the installation of additional mechanical equipment or other production facilities, by again placing into operation machinery which has been idle for an appreciable period or by adding an additional shift.

(c) A learner is a worker whose total experience in productive factory work within the industry within the previous five years is less than 480 hours.

(d) An experienced worker is a worker whose experience within the previous five years in productive factory work within the industry totals 480 hours or more.

(e) "Experienced worker available for employment" means an experienced worker available to the employer and residing within the area from which the employer customarily draws his labor supply, or who has in fact made himself available to the employer at his plant or place of employment and has signified readiness to accept employment.

(f) For the purpose of §§ 522.250–522.259, the shoe manufacturing industry is defined as follows: (1) The manufacture or partial manufacture of footwear from any material and by any process except knitting, vulcanizing of

the entire article or vulcanizing (as distinct from cementing) of the sole to the upper.

(2) The manufacture or partial manufacture of the following types of footwear, subject to the limitations of subparagraph (1) of this paragraph but without prejudice to the generality of that subparagraph:

Athletic shoes.
Boots.
Boot tops.
Burial shoes.
Custom-made boots or shoes.
Moccasins.
Puttees, except spiral puttees.
Sandals.
Shoes completely rebuilt in a shoe factory.
Slippers.

(3) The manufacture from leather or from any shoe-upper material of all cut stock and findings for footwear, including bows, ornaments, and trimmings.

(4) The manufacture of the following types of cut stock and findings for footwear from any material except from rubber or composition of rubber, molded to shape:

Cutsoles.
Midsoles.
Insoles.
Taps.
Lifts.
Rands.
Toplifts.
Bases.
Shanks.
Boxtoes.
Counters.
Stays.
Stripping.
Sock linings.
Heel pads.

(5) The manufacture of heels from any material except molded rubber, but not including the manufacture of wood-heel blocks.

(6) The manufacture of cut upper parts for footwear, including linings, vamps and quarters.

(7) The manufacture of pasted shoe stock.

(8) The manufacture of boot and shoe patterns.

Provided that: The manufacture of cut stock and findings is included within this definition only when performed principally for their own use by companies engaged in the production of shoes.

§ 522.259 *Cancellation of certificates.* (a) The Administrator or his authorized representative may cancel any certificate for cause. A certificate may be canceled (1) as of the date of issuance, if it is found that the applicant set forth any fact or facts in the application which he knew or had reasonable cause to believe to be false; (2) as of the date of violation, if it is found that any of its terms have been violated; or (3) prospectively, if it is found that the conditions of employment of the learner have changed or that the purposes for which the certificate was originally issued no longer obtain.

(b) Except in cases of willfulness or those in which the public interest requires otherwise, before any special certificate for the employment of a learner will be cancelled, facts or conduct which may warrant such action will be called to the attention of the employer in writing and he shall be afforded an opportunity to demonstrate or achieve compliance with all lawful requirements.

§ 522.260 *Applicability of general learner regulations.* The employment of learners pursuant to the provisions of §§ 522.250 through 522.259 shall be subject to all provisions of the general regulations governing the employment of learners (29 CFR 522.1 through 522.14), except to the extent to which any provision of such general regulations is inconsistent with any provision of §§ 522.250 through 522.259.

Signed at Washington, D. C., this 26th day of September 1950.

WM. R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

[F. R. Doc. 50-8531; Filed, Sept. 27, 1950; 8:56 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Subtitle A—Office of the Secretary of the Treasury

PART 10—PRACTICE OF ATTORNEYS AND AGENTS BEFORE THE TREASURY DEPARTMENT

INFORMATION REQUIRED TO ACCOMPANY POWERS OF ATTORNEY; STATUTORY PROHIBITIONS

1. This document amends §§ 10.2 (y) (4) and 10.3 (h).

2. The nature and extent of the amendment of § 10.2 (y) (4) are a simplification and clarification of the statement of the information required by the regulation which is here amended.

3. Section 10.2 (y) (4) is amended to read:

(4) When a power of attorney is filed with the Treasury Department it shall be the duty of the attorney or agent filing the same to file therewith a statement as follows:

(Date and place) ----------
This is to certify that I (have) (have not) entered into a contingent or partially contingent fee agreement for the representation of ---------- be-
(name of client, principal, or taxpayer)
fore the Treasury Department in the matter of ----------
(income, estate, gift or other taxes, or other ---------- under the terms of a power of matter)
attorney filed with the Treasury Department on ----------, 19----, and (in case a contingent or partially contingent fee agreement has been made) that a report of such fee agreement (has) (has not) been made to the Committee on Practice.

(Signature of attorney or agent)

This requirement shall not be applicable to powers of attorney wherein the authority granted is limited to the filing of tax or information returns.

(Sec. 3, 23 Stat. 258; 5 U. S. C. 261)

4. The nature and extent of the amendment of § 10.3 (h) are a substitution of a reference to sections of revised Title 18 of the United States Code for the reference to the superseded sections of the former Title 18 and a rewording to conform the regulation which is here amended to statutory changes made subsequently to the promulgation of the regulation which is here amended.

5. Section 10.3 (h) is amended to read:

(h) All persons to whom 18 U. S. C. 281 applies, all persons regularly employed by corporations owned wholly by the United States, and all persons regularly employed by the District of Columbia shall be ineligible for enrollment. See also 18 U. S. C. Ch. 15.

(Sec. 3, 23 Stat. 258; 5 U. S. C. 261. Interprets or applies sec. 1, 62 Stat. 697, as amended by sec. 6, 63 Stat. 90; 18 U. S. C. 281. Interprets or applies sec. 1, 62 Stat. 697, as amended; 18 U. S. C., Sup. 281)

6. Compliance with the general notice, public rule making, and effective date requirements of section 4 of the Administrative Procedure Act is dispensed with as unnecessary for this good cause: the reasons indicated in paragraphs 2 and 4 hereof.

7. This amendment shall be effective upon the date of its publication in the FEDERAL REGISTER.

[SEAL] E. H. FOLEY, JR.,
Acting Secretary of the Treasury.

[F. R. Doc. 50-8518; Filed, Sept. 27, 1950; 8:56 a. m.]

PART 13—PROCEDURES OF THE COMMITTEE ON PRACTICE—AVAILABILITY OF RECORDS

INFORMATION, REQUESTS, AND SUBMITTALS

1. The nature and extent of the amendment of Part 13 are the addition of self-explanatory informational data.

2. This part is amended by the addition at the end thereof of a new section designated § 13.3 and reading:

§ 13.3 *Information, requests, and submittals.* The public may secure information from, or make submittals or requests to, the Committee on Practice, Treasury Department, Washington, D. C., by personal appearance, by telephone, or by written communication.

(Sec. 3, 23 Stat. 258; 5 U. S. C. 261)

3. Compliance with the general notice, public rule making, and effective date requirements of section 4 of the Administrative Procedure Act is dispensed with as unnecessary for this good cause: The reason indicated in paragraph 1 hereof.

4. This amendment shall be effective upon the date of its publication in the FEDERAL REGISTER.

[SEAL] E. H. FOLEY, JR.,
Acting Secretary of the Treasury.

[F. R. Doc. 50-8519; Filed, Sept. 27, 1950; 8:56 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

SUSPENSION AND DISCONTINUANCE OF SUBSISTENCE ALLOWANCE AND OTHER TRAINING BENEFITS

Section 21.107 (h) is amended to read as follows:

§ 21.107 *Periodic reports of conduct, progress, and compensation for productive labor.* • • •

(h) *Suspension and discontinuance of subsistence allowance and other training benefits.* Requests to suspend subsistence allowance of all veterans whose VA Form 7-1963 is not received or where essential information is omitted from the report will be forwarded to the finance division subsequent to the 10th of the month and in sufficient time to insure suspension of the subsistence allowance check for the month in which the report is due. The appropriate form letter will be dispatched as soon as practicable with the view of obtaining the required report before the suspension actually becomes effective. The suspension will be lifted where a delinquent report is received in the Veterans' Administration by the end of the month following the month in which it was due. For all cases pending at the end of the month next following the month in which the report was due, subsistence allowance and other training benefits will be discontinued in accordance with the following effective dates:

(1) If the veteran is enrolled in on-the-job training without related training, subsistence allowance and other training benefits will be discontinued effective the first day of the month in which the report was due.

(2) If the veteran is enrolled in on-the-job training and is pursuing related instruction in an educational institution for which tuition payments are involved, subsistence allowance will be discontinued effective the first of the month in which the report was due, and other training benefits will be discontinued at the end of the month following the month in which the report was due or the date of last attendance at the school, whichever is earlier.

(3) If the veteran is enrolled in an educational institution for which tuition payment is involved, subsistence allowance will be discontinued effective the first day of the month in which the report was due, and other training benefits will be discontinued effective as of the last day of the month following the month in which the report was due or the date of last attendance in the institution, whichever is earlier.

(4) If the veteran is enrolled in an educational institution only and tuition payments are not involved, discontinuance of both subsistence and other training benefits will be effective the first day of the month in which the report was due.

(5) A veteran whose training status has been discontinued for failure to submit a VA Form 7-1963 may not thereafter be reentered in training in the same training institution or establishment nor may a supplemental certificate of eligibility and entitlement be approved for training in a different training institution or establishment until the delinquent form has been submitted to the Veterans' Administration. Benefits may be resumed upon receipt from the training institution or establishment of acceptable evidence showing that the veteran has continued to pursue his course of training but in no event may the resumption of training status under the law, for the purpose of paying of subsistence allowance and other benefits, in cases encompassed by this subparagraph be effective prior to the date the delinquent VA Form 7-1963 is received in the Veterans' Administration.

• • • • •

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. and Sup. 11a, 701, 707, ch. 12 note. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. and Sup. 693g, 697–697d, 697f, 697g, ch. 12 note)

This regulation is effective September 28, 1950.

[SEAL] O. W. CLARK,
Deputy Administrator.

[F. R. Doc. 50-8476; Filed, Sept. 27, 1950; 8:50 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

a. In § 127.71 *Sealing* amend the list of countries in paragraph (a) by inserting "France (insured)" between "Finland (insured)" and "French Cameroons".

b. In § 127.102 *Special provisions applicable to international insurance service* amend the list of countries in paragraph (a) by deleting the superior figure "1" following "France (including Algeria and Corsica)" and "Switzerland".

c. In § 127.213 *Barbados* amend subdivision (v) of paragraph (a) (4) to read as follows:

(v) Each insured parcel must be marked to show (both in roman letters and in arabic figures) in United States currency, the amount for which the parcel is insured. (See § 127.102 (b) (5).)

d. In § 127.252 *France (including Monaco)* make the following changes:

1. Amend the information below the tabulation in the table of rates, subdivision (ii) of paragraph (b) (1), by deleting "Sealing: [1] Optional" and substituting in lieu thereof "Sealing: [1] Insured parcels must, and ordinary parcels may, be sealed", and by deleting "Insurance: No" and substituting in lieu thereof "Insurance: Yes".

2. Amend paragraph (b) (2) to read as follows:

(2) *Indemnity.* See subcaption "Insurance" (paragraph (b) (4a)).

3. Insert a new paragraph (b) (4a) to read as follows:

(4a) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the appropriate postage rates in addition to the insurance fees mentioned hereunder:

Limit of indemnity:	Fee, cents
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55
From $100.01 to $200	60
From $200.01 to $300	65
From $300.01 to $330	70

(ii) Insurance return receipt: Requested at time of mailing, 5 cents; after mailing 10 cents. Return receipts must be attached to the dispatch notes of the parcels. (See § 127.102 (d).)

(iii) The insurance of parcels containing coin, gold, or silver (whether manufactured or not), or any other precious article is obligatory. If a parcel containing such articles is mailed uninsured, it shall be placed under insurance by the post office which first observes the fact of its having been mailed uninsured, and treated accordingly.

(iv) Each insured parcel and its dispatch note must have shown thereon (both in arabic figures and in roman letters spelled out in full), in United States currency and in gold francs, the amount for which the parcel is insured. (See § 127.102 (b) (5).) The amount in gold francs must be underscored with a heavy line. No erasure or correction is permitted in the amount of insurance shown on the dispatch note.

(v) For further information concerning insurance service, see §§ 127.102 and 127.108.

e. In § 127.341 *Rumania* amend subdivision (vi) of paragraph (b) (5) to read as follows:

(vi) The following procedure is established for the mailing of medicines: Before mailing, the sender must send four notarized copies of an invoice covering the shipment to the Rumanian Legation, 1601 Twenty-third Street, NW., Washington 8, D. C., accompanied by a fee of $1.50 and a request that they be legalized. Three of the legalized invoices will be returned to the sender, who must enclose one in the parcel and send another to the addressee by letter for use in taking delivery of the parcel. The third copy may be retained by the sender.

f. In § 127.360 *Switzerland (including Liechtenstein)* amend subdivisions (i) and (iv) of paragraph (b) (4) to read as follows:

(i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the appropriate postage rates in addition to the insurance fees mentioned hereunder:

Limit of indemnity:	Fee, cents
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55
From $100.01 to $200	60
From $200.01 to $300	65
From $300.01 to $330	70

(iv) Each insured parcel and its dispatch note must have shown thereon (both in arabic figures and in roman letters spelled out in full), in United States currency and in gold francs, the amount for which the parcel is insured. (See § 127.102 (b) (5).)

g. In § 127.376 *Venezuela* amend subdivision (ii) of paragraph (b) (6) to read as follows:

(ii) The merchandise should be described according to the classifications of the Venezuelan customs tariff, or simply by the usual commercial designation, including in the latter case the material of which the articles are made and the use or purpose of the articles.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; and the terms of postal conventions and agreements entered into pursuant to R. S. 398, 48 Stat. 943; 5 U. S. C. 372)

[SEAL] J. M. DONALDSON,
Postmaster General.

[F. R. Doc. 50-8458; Filed, Sept. 27, 1950; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1767]

PART 185—GENERAL MINING REGULATIONS

MISCELLANEOUS AMENDMENTS

In order to show new requirements with respect to the appointment of mineral surveyors, and to conform the regulations to existing decentralized procedure, Part 185 is amended as follows:

1. Section 185.50 is amended to read:

§ 185.50 *Appointment of mineral surveyors.* (a) Pursuant to section 2334 of the Revised Statutes (30 U. S. C. 39), each regional admnistrator will appoint as surveyors for the survey of mining claims applicants found to be competent, to the extent needed to meet the demand for that class of work. Each appointee shall qualify as prescribed by the regional administrator and shall furnish a performance bond of not less than $5,000 before entering on duty. Each mineral surveyor shall be eligible to survey mining claims in the States within the region in which he is appointed and in adjoining States. Each regional administrator shall maintain a register showing the names and addresses of mineral surveyors appointed for the region and eligible for the survey of mining claims. The regional administrator shall furnish the regional administrator of each adjoining region with a copy of such register, and shall advise them of any changes therein.

(b) A mineral claimant may employ any United States mineral surveyor qualified as indicated in paragraph (a) of this section to make the survey of his claim. All expenses of the survey of mining claims and the publication of the required notices of application for patent are to be borne by the mining claimants.

(R. S. 2478; 43 U. S. C. 1201)

2. Section 185.94 is amended to read:

§ 185.94 *Segregation of mineral from non-mineral land.* Where a survey is necessary to set apart mineral from non-mineral land, the appropriate regional administrator will have special instructions prepared outlining the procedure to be followed in the required survey. The survey shall not be begun until such special instructions have been approved by the Director, Bureau of Land Management, which approval will constitute formal authorization therefor. The survey will be executed at the expense of the United States. Upon acceptance of the survey by the Director, the triplicate copy of the plat thereof will be filed in the proper land office as a basis for the disposal of the non-mineral land shown thereon. The land office will, in all cases, serve notice on the mineral claimants of the issuance of the authority for the survey.[21]

(R. S. 2478; 43 U. S. C. 1201)

3. Section 185.97 is amended to read:

§ 185.97 *Non-mineral entry of residue of subdivisions invaded by mining claims.* (a) The manager will accept and approve any application (if otherwise regular), to make a non-mineral entry of the residue of any original lot or legal subdivision which is invaded by mining claims if the tract has already been lotted to exclude such claims. If not so lotted, and if the original lot or legal subdivision is invaded by patented mining claims, or by mining claims covered by pending applications for patent which the non-mineral applicant does not desire to contest, or by approved mining claims of established mineral character, the manager will accept and approve the application (if otherwise regular), exclusive of the conflict with the mining claims. Before authorizing publication the manager will advise the regional administrator as to the need for a plat to segregate the mineral from the non-mineral land. If no objection appears, the regional administrator will direct the regional chief, Division of Cadastral Engineering, to prepare the necessary supplemental plat of the section or sections involved to designate the non-mineral portion of each original lot or subdivision by appropriate lot number and area, specifying the particular mining claims or portions thereof which should be segregated.

(b) The manager will allow no non-mineral application for any portion of an original lot or 40-acre legal subdivision, where the tract has not been lotted to show the reduced area by reason of approved surveys of mining claims for which applications for patent have not been filed, until the non-mineral applicant submits a satisfactory showing that such surveyed claims are in fact mineral in character. Applications to have lands which are asserted to be mineral, or mining locations, segregated by survey with a view to the non-mineral appropriation of the remainder, will be made to the manager of the land office. Such applications must be supported by a written statement of the party in interest, duly corroborated by two or more disinterested persons, or by such other or further evidence as may be required, that the land sought to be segregated as mineral is in fact mineral in character.

(R. S. 2478; 43 U. S. C. 1201)

OSCAR L. CHAPMAN,
Secretary of the Interior.

SEPTEMBER 22, 1950.

[F. R. Doc 50-8449; Filed, Sept 27, 1950; 8:45 a. m.]

[21] Where, in stock-raising homestead entries, it has been satisfactorily established that there are existent prior unpatented mining claims, the segregation of the latter is not strictly a segregation of mineral from non-mineral land, but rather the procedure adopted to define the boundaries of and provide a legal description for that part of the homestead entry which is not within the segregated mining claims.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

PART 4—EXPERIMENTAL AND AUXILIARY BROADCAST SERVICES

INSTALLATION OF APPARATUS

In the matter of amendment of §§ 3.213, 3.513, 3.613 and 4.13 of the Commission's rules and regulations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of September 1950;

The Commission having under consideration its rules and regulations relating to the filing of applications for construction permits for the installation or removal of apparatus as set forth in §§ 3.213, 3.513, 3.613 and 4.13;

It appearing, that the above sections presently require that applications for construction permits or modification thereof involving removal of existing transmitting apparatus shall be filed at least 60 days prior to the contemplated removal; and

It further appearing, that this requirement is no longer necessary and that it should be removed from the Commission's rules and regulations; and

It further appearing, that on May 31, 1950 the Commission adopted an order amending § 1.313 of its rules and regulations to eliminate the above-mentioned requirement; that § 1.313 is general in application; and that therefore the rules relating to the various radio services should be conformed to § 1.313, as amended; and

It further appearing, that the proposed amendment is procedural in nature and involves the relaxation of existing requirements; and that therefore the notice and procedure provided for in section 4 of the Administrative Procedure Act are unnecessary and this order may be made effective immediately; and

It further appearing, that authority for this amendment is contained in sections 4 (a) and 303 (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective immediately, §§ 3.213, 3.513, 3.613 and 4.13 are each amended to read as follows:

Installation of aparatus. Applications for construction permits or modification thereof involving the installation of new transmitting apparatus should be filed at least 60 days prior to the contemplated installation.

Released: September 21, 1950.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 48 U. S. C. 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

Production and Marketing Administration

[7 CFR, Part 923]

[Docket No. AO-224]

HANDLING OF IRISH POTATOES GROWN IN PENNSYLVANIA

FINDINGS AND DETERMINATIONS ON RESULTS OF REFERENDUM ON PROPOSED MARKETING ORDER.

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Part 900), a public hearing was held at Harrisburg, Pennsylvania, on May 22-24, 1950, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 2418), upon a proposed marketing agreement and a proposed marketing order regulating the handling of potatoes grown in Pennsylvania. The recommended decision (15 F. R. 4343) of the Assistant Administrator, Production and Marketing Administration, and the decision (15 F. R. 4896) of the Secretary of Agriculture, setting forth a proposed marketing agreement and order as the appropriate and detailed means for effectuating the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, were published in the FEDERAL REGISTER on July 8 and July 29, 1950, respectively. The Secretary also issued an order (15 F. R. 4902) directing that a referendum be conducted among producers of potatoes grown in Pennsylvania to determine whether the requisite majority of such producers favor the issuance of the proposed marketing order.

It is hereby found and determined, on the basis of the results of the referendum conducted pursuant to the aforesaid referendum order, that the issuance of the proposed marketing order regulating the handling of Irish potatoes grown in Pennsylvania is not approved or flavored by the requisite percentage of producers or of the total volume of production voting in the aforesaid referendum.

It is hereby further determined that the proposed marketing order set forth in the Secretary's decision of July 26, 1950 (15 F. R. 4896), cannot be made effective because of the failure of producers to approve or favor its issuance by the requisite percentage of producers or of the total volume of production voting in the referendum conducted among such producers.

Done at Washington, D. C., this 25th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

TELEVISION BROADCAST SERVICE

ORDER CONTINUING HEARING DATE

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 mc. for television broadcasting, Docket No. 8976.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of September 1950;

The Commission having under consideration the hearing on the general issues herein scheduled to commence on October 2, 1950, at the United States Department of Commerce Auditorium in Washington, D. C.; and

It appearing that a continuance of said hearing date is desirable in order to afford the Commission and interested parties the opportunity to complete preparations for said hearing;

It is ordered, That the above hearing date is continued to 10:00 a. m. on October 16, 1950, at the same place.

Released: September 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

DELEGATION OF AUTHORITY TO CHIEF OF FOREST SERVICE WITH RESPECT TO CERTAIN AUTHORITIES, POWERS, FUNCTIONS AND DUTIES

1. Pursuant to the authority contained in R. S. 161, 5 U. S. C. 22; sec. 1, 30 Stat. 35, sec. 1, 33 Stat. 628, 16 U. S. C. 551, the authorities, powers, functions and duties vested in the Secretary of Agriculture by sections 2, 9, and 10 of Public Law 478, 81st Congress, are hereby delegated to the Forest Service to be exercised by the Chief thereof and such officers or employees as he may designate.

2. The exercise of powers and authorities delegated herein shall be subject to, and within the limitations and provisions of, the standards set forth below relative to the respective sections of Public Law 478.

(a) Under section 2, it shall be deemed to be in the public interest to make purchases of forest tree cones or seed and/or forage plant seed, without regard to section 3709, Revised Statutes, whenever the Forest Service is unable or finds it impracticable to procure under bid procedure such items of required species, quality and province.

(b) (1) Sales pursuant to the authority and limitations of section 9 may be made whenever the seed or stock may be so disposed of without serious interference with Forest Service planting programs.

(2) Exchanges authorized by section 9 shall be considered to be in the public interest when the Forest Service obtains tree seed or planting stock needed for current reforestation or research programs in exchange for seed or planting stock of no greater value and not immediately needed.

(c) The installation of telephone service under the provisions of section 10 shall be considered to be needed when in the judgment of the regional forester the installation is a necessary part of the fire protection system of the national-forest area involved, and is for the benefit of the Government.

Done at Washington, D. C., this 22d day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[Misc. 10013]

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 3 S., R. 1 E.,
Sec. 16, N½N½, SE¼NW¼.
T. 3 S., R. 11 E.,
Sec. 16, lots 1, 2, 3, SW¼SW¼, E½W½, E½.
Sec. 36, lots 3 and 4, NE¼, N½SE¼.
T. 15 N., R. 14 W.,
Sec. 18, lot 4.

The areas described aggregate 1,168 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 22, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 8 S., R. 27 E.,
Sec. 36, S½SW¼.

The area described aggregates 80 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 22, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

BOISE MERIDIAN

T. 5 S., R. 18 E.,
Sec. 17, E½NW¼.

The area described aggregates 80 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Boise, Idaho, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Boise, Idaho.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

Bureau of Reclamation

PAONIA PROJECT, COLORADO

FIRST FORM RECLAMATION WITHDRAWAL

MAY 4, 1949.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby withdraw the following described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 12 S., R. 89 W.,
Sec. 20, NW¼NE¼, NE¼NW¼.
T. 13 S., R. 90 W.,
Sec. 18, NW¼NE¼.
T. 13 S., R. 91 W.,
Sec. 13, SW¼NE¼, Lot 2.
T. 13 S., R. 93 W.,
Sec. 16, Lot 12,
Sec. 20, Lots 8 and 9,
Sec. 21, Lots 2, 3, 4, and 5,
Sec. 28, Lots 1, 2, 3 and 4.

The above areas aggregate 642.69 acres.

WESLEY R. NELSON,
Assistant Commissioner.

I concur. The records of the Bureau of Land Management and the District Land Office will be noted accordingly.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director,
Bureau of Land Management.

AUGUST 31, 1950.

Notice for Filing Objections to Order Withdrawing Public Lands for the Paonia Project, Colorado

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Colorado, for use in connection with the Paonia Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

WESLEY R. NELSON,
Assistant Commissioner.

[No. 40]

ORLAND IRRIGATION PROJECT, CALIFORNIA

PUBLIC NOTICE OF ANNUAL OPERATION AND MAINTENANCE CHARGES

SEPTEMBER 11, 1950.

Orland Irrigation Project, California; public notice of annual operation and maintenance charges (Act of June 17, 1902, 32 Stat. 388, as amended or supplemented).

1. *Operation and maintenance charges.* The minimum annual operation and maintenance charge for the irrigation season of 1951 and thereafter until further notice for all lands of the Orland Project, California, under public notice shall be $4.77 per irrigable acre, whether water is used or not, which charge will permit the delivery of not to exceed 3 acre-feet of water per irrigable acre per annum. This charge includes $0.67 per acre in payment for rehabilitation and betterment work accomplished on the project. Additional water up to the amount of the surplus natural flow water, or operational spill from Stony Gorge Dam, used prior to the time it becomes necessary to draw upon the storage supply, will be furnished at the rate of $0.10 per acre-foot. Further additional water, if available, will be furnished during the irrigation season at the rate of $1.37 per acre-foot.

2. *Time of payment.* The minimum charge for the 1951 irrigation season, together with charges for additional water used during the 1950 irrigation season, shall be payable on or before December 31 of this year.

3. *Penalties.* If payment of the charges, or any part thereof, is not made on or before the due date, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid, and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue. No water shall be delivered until all charges and penalties have been paid in full.

4. *Place of payment.* All payments should be made to the Bureau of Reclamation, Orland, California.

R. S. CALLAND,
Acting Regional Director.

[F. R. Doc. 50-8451; Filed, Sept. 27, 1950; 8:46 a. m.]

[No. 41]

ORLAND IRRIGATION PROJECT, CALIFORNIA

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

SEPTEMBER 11, 1950.

Orland Irrigation Project, California; public notice of annual water rental charges (Act of June 17, 1902, 32 Stat. 388, as amended or supplemented).

1. Announcement is hereby made that, pending the cancellation of water rights on lands now delinquent in the payment of charges due the United States and the transfer of said water rights to other lands in private ownership that can be served from the constructed canal system, or minor extensions, on the Orland Project, California, water will be furnished during the irrigation season of 1951 and thereafter until further notice, upon approved applications for temporary water service for the irrigation of such other lands, upon a water rental basis, at the following rates and terms.

2. *Charges and terms of payment.* The minimum water rental charge for the lands to be irrigated under the provisions of this public notice shall be $4.77 per irrigable acre, which charge will permit the delivery of not to exceed 3 acre-feet of water per irrigable acre per annum. Additional water, if available, will be furnished at the rate of $1.37 per acre-foot.

The minimum charge will be payable at the time that application for temporary water service is executed and no water will be delivered until the minimum charge has been paid in full. Charge for additional water at the rates above specified must be paid in advance of the delivery of additional water and no advance payments shall be accepted in sums of less than $10.00.

3. *Application for and payment of service.* Applications for water service and the payments required by this notice will be received at the office of the Bureau of Reclamation, Orland, California.

R. S. CALLAND,
Acting Regional Director.

DEPARTMENT OF COMMERCE

Office of the Secretary

APPEALS IN TRADE MARK CASES

TEMPORARY DELEGATION OF AUTHORITY UNDER REORGANIZATION PLAN NO. 5 OF 1950

Acting under the provisions of section 2 of Reorganization Plan No. 5 of 1950, I hereby authorize the several members of the Board of Appeals of the United States Patent Office who have been appointed by the President by and with the advice and consent of the Senate (35 U. S. C. 2, 7), to hear and decide appeals from decisions of the examiner in charge of interferences or of the registration of marks provided by section 20 of the Trade-Mark Act of 1946 (15 U. S. C. 1070), either individually or in panels as may be assigned by the Commissioner of Patents. This authorization shall remain in force until a new Assistant Commissioner of Patents to fill the vacancy now existing in that office has been appointed and enters on duty. This temporary authorization does not supersede or limit the delegation under Reorganization Plan No. 5 of 1950, filed May 24, 1950, 15 F. R. 3195.

(R. S. 161; 5 U. S. C. 22. Reorg. Plan 5 of 1950, 15 F. R. 3174)

Issued: September 25, 1950.

[SEAL] CHARLES SAWYER,
Secretary of Commerce.

Blue Bell, Midsouth Division, Inc., Baldwyn, Miss., effective 8-29-50 to 4-30-51; 10 percent normal labor turnover (pants, overalls, etc.).

Blue Bell, Midsouth Division, Inc., Boonsville, Miss., effective 8-29-50 to 4-30-51; 10 percent normal labor turnover (pants, overalls, etc.).

Sigmund Eisner Co., 2-40 Bridge Avenue, Red Bank, N. J., effective 7-26-50 to 4-30-51; 25 learners (rainwear, sportswear, etc.).

Luzerne Sportswear Inc., 421 North Pennsylvania Avenue, Wilkes-Barre, Pa., effective 9-6-50 to 3-5-51; 25 learners (dresses).

Mount Holly Dress Co., 510 South Eighth Street, Vineland, N. J., effective 9-8-50 to 4-30-51; 10 percent normal labor turnover (dresses).

Nona Lou, Inc., 632 St. Clair Avenue NW., Cleveland, Ohio, effective 9-9-50 to 1-31-51; 3 learners (aprons and dresses).

Royal Manufacturing Co., Inc., Sandersville, Ga., effective 9-9-50 to 4-30-51; 10 percent normal labor turnover (sportshirts).

Royal Manufacturing Co., Inc., Sandersville, Ga., effective 9-9-50 to 4-30-51; five learners for expansion purposes (sportshirts).

W. Shanhouse Sons, Inc., Hope, Ark., effective 9-6-50 to 4-30-51; 21 additional learners for expansion purposes (men's and boy's outerwear).

W. Shanhouse Sons, Inc., Hope, Ark., effective 9-6-50 to 4-30-51; 10 percent normal labor turnover (men's and boy's outerwear).

Woolfolk & Co., Louisa, Va., effective 9-7-50 to 4-30-51; 10 percent normal labor turnover (dungarees).

Sondra Undergarment Co., 601 North Jordan Street, Allentown, Pa., effective 9-8-50 to 4-30-51; 10 percent normal labor turnover (knitted underwear), (replacement certificate).

Hosiery Learner Regulations (29 CFR 522.40 to 522.51; as revised January 25, 1950 (15 F. R. 283)).

Bear Brand Hosiery Co., Henderson, Ky., effective 9-1-50 to 4-30-51; 50 learners (expansion certificate).

Bear Brand Hosiery Co., Paxton, Ill., effective 9-1-50 to 4-30-51; 10 learners (expansion certificate).

Bear Brand Hosiery Co., Kankakee, Ill., effective 9-1-50 to 8-31-51; 5 percent of the productive factory workers not including office or sales personnel.

Van Raalte Co., Inc., Franklin, N. C., effective 9-8-50 to 9-7-51; 5 percent of the total number of productive factory workers, not including office or sales personnel.

Independent Telephone Learner Regulations (29 CFR 522.82 to 522.93; as amended January 25, 1950 (15 F. R. 398)).

Tidewater Telephone Co., Warsaw Exchange, Warsaw, Va., effective 9-6-50 to 3-5-51.

Glove Learner Regulations (29 CFR 522.220 to 522.222; as amended January 25, 1950 (15 F. R. 400)).

Aris Fabric Corp., 26 Woodruff, Saranac Lake, N. Y., effective 9-8-50 to 10-24-50; five learners.

The Boss Manufacturing Co., Bluffton, Ohio, effective 9-11-50 to 10-24-50; 10 learners.

The Boss Manufacturing Co., Grand Island, Nebr., effective 9-11-50 to 10-24-50; 10 learners.

The Boss Manufacturing Co., Leavenworth, Kans., effective 9-11-50 to 10-24-50; 10 learners.

Lambert Manufacturing Co., Kirksville, Mo., effective 9-7-50 to 10-24-50; 30 learners (cotton and jersey work gloves).

Texas Glove Co., Brownwood, Tex., effective 9-6-50 to 10-24-50; five learners (work gloves).

Richmond Glove Corp., Richmond, Ind., effective 8-18-50 to 10-24-50; 10 learners (work gloves) (replacement certificate).

Knitted Wear Learner Regulations (29 CFR 522.68 to 522.79; as amended January 25, 1950 (15 F. R. 398)).

Argo Knitting Mills, Inc., Auburn, Pa., effective 9-5-50 to 4-30-51; 20 learners for expansion purposes.

Argo Knitting Mills, Inc., Auburn, Pa., effective 9-5-50 to 4-30-51; 5 percent of the total number of factory workers, not including office or sales personnel.

Greyhill Manufacturing Co., 340 East Boundary Avenue, York, Pa., effective 9-8-50 to 4-30-51; 15 learners for expansion purposes.

Rohrer Knitting Mills, Inc., Orwigsburg, Pa., effective 9-5-50 to 4-30-51; 5 percent of productive factory personnel, not including sales and clerical personnel.

Sakura Mills, Inc., Kane, Pa., effective 9-6-50 to 4-30-51; 5 percent of productive factory personnel, not including sales and clerical personnel.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Atlanta Curtain Co., Atlanta, Ga., effective 8-30-50 to 3-1-51; two learners; sewing machine operators, 160 hours, 60 cents (curtains and draperies).

Burlington Willow Ware Shops, 2811 Mount Pleasant Street, Burlington, Iowa, effective 9-8-50 to 3-7-51; five learners; basket making, 160 hours, handle making, 160 hours, stemming, 160 hours, 60 cents (baskets and wreaths).

Courtney Manufacturing Co., Knox, Pa., effective 8-23-50 to 3-1-51; 28 learners; machine operators, 240 hours, assemblers, 240 hours, 60 cents (screw machine).

Gulf Coast Optical Manufacturing Co., Inc., Mobile, Ala., effective 9-4-50 to 3-3-51; five learners; eyeglass frame makers, 480 hours, 60 cents per hour for the first 320 hours and 65 cents per hour for the remaining 160 hours (zylonite eyeglass frames).

Master Manufacturing Co., Inc., Atlanta, Ga., effective 9-8-50 to 3-7-51; three learners; sewing machine operator only, 240 hours, 60 cents (automobile seat covers).

Reidsville Distributing Co., Reidsville, N. C., effective 9-11-50 to 3-10-51; four learners; tufting machine operators, 240 hours, 60 cents (chenille and tufted bedspreads).

Slocum Hat Corp., Milwaukee, Wis., effective 9-8-50 to 3-7-51; 10 percent of the productive factory workers, not including office or sales personnel; machine operators and trimmers, 240 hours, 65 cents (straw, felt and fabric hats).

The Howard Zink Corp., Charleston, Miss., effective 9-7-50 to 3-6-51; 10 learners; sewing machine operators, 240 hours, 60 cents (automobile seat covers).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 21st day of September 1950.

VERL E. ROBERTS,
Authorized Representative of the Administrator.

[Docket Nos. 7945, 7946]

JOHNSTON BROADCASTING CO. AND PILOT BROADCASTING CORP. (WTNB)

ORDER CONTINUING HEARING

In re applications of George Johnston and George Johnston, Jr., d/b as Johnston Broadcasting Company, Birmingham, Alabama, Docket No. 7945, File No. BP-5016; Pilot Broadcasting Corporation (WTNB), Birmingham, Alabama, Docket No. 7946, File No. BP-5332; for construction permits.

The Commission has under consideration the hearing in the above-entitled proceeding which is presently scheduled to commence on September 11, 1950, at Washington, D. C.; and

It appearing, that on June 21, 1950, the U. S. Court of Appeals for the District of Columbia Circuit granted a motion of Johnston Broadcasting Company to stay further proceeding in this matter before the Commission;

It is ordered, This 6th day of September 1950, that the hearing in the above-entitled proceeding is continued indefinitely.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

COMMERCIAL PACIFIC CABLE CO. ET AL.

ORDER CONTINUING HEARING

In the matter of complaints of Commercial Pacific Cable Company; and American Cable and Radio Corporation and its subsidiaries, All America Cables and Radio, Inc., The Commercial Cable Company, and Mackay Radio and Telegraph Company, Complainants, against The Western Union Telegraph Company, Respondent; and Complaint of RCA Communications, Inc., Complainant, against The Western Union Telegraph Company, Globe Wireless, Ltd., and Tropical Radio Telegraph Company, Respondents, Docket No. 9292.

The Commission having under consideration a motion filed September 6, 1950, by RCA Communications, Inc., one of the complainants in the above-entitled proceeding, requesting that the hearing be continued from September 19, 1950, to October 31, 1950; and

It appearing, that the reason for the requested continuance is the fact that the General Attorney for RCA Communications, Inc., who has represented said party throughout the proceeding, is now in South America and will be unable to return to this country in time for the hearing on September 19, 1950; and

It appearing, that good cause having been shown for the requested continuance, and that counsel for all parties have consented to the requested continuance;

It is ordered, This the 8th day of September 1950, that the motion for continuance be, and it is hereby granted, and the hearing, is continued, from September 19, 1950, to October 31, 1950, at 10:00 a. m., in the offices of the Commission at Washington, D. C.

[Docket No. 9319]

RADIO STATION WISE, INC.

ORDER ENLARGING ISSUES

In re application of Radio Station WISE, Inc. (WISE), Asheville, North Carolina, Docket No. 9319, File No. BP-7132; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration a petition filed by Radio Station WISE, Inc., requesting reconsideration and grant without hearing of its above-entitled application for construction permit to change frequency to 680 kc., increase power to 1 kw. and use different directional patterns for day and night operations at Station WISE, Asheville, North Carolina;

It appearing, that such application was designated for hearing on April 13, 1950, on issues to determine whether interference would be involved with Station WCYB, Bristol, Virginia, or with other existing stations and whether the proposed operation would be in compliance with the Commission's Standards of Good Engineering Practice; and

It further appearing, that the applicant has not made a satisfactory showing either as to its contention that conductivity over the path between Asheville and Bristol is 1×10^{-14} emu or as to any reason why the Standards of Good Engineering Practice should be departed from in various particulars which the applicant admits would be necessary in order to permit the proposed operation; and

It further appearing, that the order of April 13, 1950, designating the application for hearing did not contain an issue seeking to determine the areas and populations to be served by the operation of Station WISE as proposed and the other services available to such areas and populations, which information is deemed of possible importance in reaching a decision on the above-entitled application;

It is ordered, That the petition of Radio Station WISE, Inc., is denied, and

It is further ordered, That the Commission's order of April 13, 1950, designating the above-entitled application for hearing is amended to include the following issue as Issue No. 3:

To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WISE as proposed and the character of other broadcast service available to such areas and populations.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9362]

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT ET AL.

SUPPLEMENTAL ORDER ENLARGING ISSUES

International Bank for Reconstruction and Development and International Monetary Fund, Complainants, v. All America Cables and Radio, Inc., the Commercial Cable Company, Mackay Radio and Telegraph Company, Inc., RCA Communications, Inc., and The Western Union Telegraph Company, Defendants; Docket No. 9362.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission, having under consideration its Order of June 29, 1949, herein; and having also under consideration a supplemental complaint filed on June 15, 1950, by the complainants herein, requesting reparations for damages allegedly suffered by them, and answers thereto filed by the respective defendants herein on July 17, 18, and 19, 1950;

It appearing, that it is appropriate and desirable that the public hearing ordered by the Commission in its order of June 29, 1949, herein, should include inquiry into the matter of the damages, if any, suffered by the complainants and the reparations which should be made therefor;

It is ordered, That the issues herein are enlarged to include inquiry into the nature and extent of the damages, if any, suffered by the complainants, and the amount of reparations, if any, which should be made by each of the defendants to each of the complainants.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9446]

RADIO READING

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of John J. Keel and Lloyd W. Dennis, Jr., tr/as Radio Reading, Reading, Pennsylvania, Docket No. 9446, File No. BP-7589; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled application for a construction permit to erect a new standard broadcast station to operate on frequency 1510 kilocycles, with 1 kilowatt power, unlimited time with the same directional antenna for day and night operation at Reading, Pennsylvania; a petition filed June 1, 1950, by J. T. Ward d/b as WLAC Broadcasting Service, licensee of Station WLAC, Nashville, Tennessee, requesting that the said application of Radio Reading be designated for hearing and petitioner made a party thereto; and an opposition to said petition filed June 9, 1950, by Radio Reading; and

It appearing, that the applicant is legally, technically, financially and otherwise qualified to construct and operate the proposed station, but that the application may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice;

It is ordered, That the said petition filed June 1, 1950, by WLAC Broadcasting Service is granted;

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 13, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Station WLAC, Nashville, Tennessee or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular references to the extent and quality of the coverage to be provided to the city of Reading, Pennsylvania and to the Reading Metropolitan District.

It is further ordered, That J. T. Ward d/b as WLAC Broadcasting Service, licensee of Station WLAC, Nashville, Tennessee is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9470]

RADIO COMMISSION OF SOUTHERN BAPTIST CONVENTION AND EXECUTIVE BOARD OF BAPTIST AND GENERAL CONVENTION OF TEXAS

ORDER DESIGNATING PETITION FOR ORAL ARGUMENT

In re the joint petition of the Radio Commission of the Southern Baptist Convention, and the Executive Board of the Baptist and General Convention of Texas, Docket No. 9470.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission, having under consideration its Order of June 27, 1950, designating for oral argument the supplemental petition of the above-entitled petitioners, and the briefs filed pursuant to the Commission's order by the American Civil Liberties Union, Inc., and, jointly, by the University Baptist Church, Baltimore, Md., the Christian Missionary Alliance and certain other interested parties designated in the brief;

It appearing, that the above-entitled joint petitioners have filed no brief addressed to the issues set forth in the Commission's order of June 27, 1950, and have stated that no useful purpose would be served thereby since exhaustive briefs in behalf of the petitioners' request have already been submitted prior to the issuance of that order;

It further appearing, that the above mentioned briefs have been directed solely to the issues set forth in the Commission's order of October 23, 1949, designating for oral argument the initial petition of the above-entitled petitioners, filed February 23, 1949, which sought the establishment of a special category of religious broadcast stations; that the filing of the supplemental petition seeking a sub-allocation preference for tax-exempt nonprofit organizations, and its designation by the Commission for oral argument upon the issues set out in the Commission's order of June 27, 1950, have in large measure vitiated the pertinency of the briefs submitted by the joint petitioners; and that the submission of a brief addressed to the issues in the order of June 27, 1950, i. e., pertaining to tax-exempt nonprofit organizations as such and not restricted to nonprofit religious bodies, is essential in order that the Commission may be adequately informed of the petitioners' view with respect to these issues;

It further appearing, that the said joint petitioners have requested additional time totaling one hour for the presentation of its views; and that no request for additional time has been made by the other parties to the proceeding;

It further appearing, that this proceeding presents complex issues for determination by the Commission; and that the public interests would best be served by a grant of the requested additional time for oral argument;

It is ordered, That (1) the said supplemental petition be designated for oral argument on October 30, 1950, before the Commission, en banc, in Washington, D. C., at 10 a. m., on the issues set forth in the Commission's Order of June 27, 1950; (2) that the above-entitled petitioners on or before October 16, 1950, submit a brief addressed to the issues set forth in the order of June 27, 1950; and (3) that the request of the said joint petitioners for one hour of time to present oral argument in the above-entitled proceeding is granted, all other parties being allowed 20 minutes in which to present oral argument.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8487; Filed, Sept. 27, 1950; 8:51 a. m.]

[Docket Nos. 9574, 9778]

COMMONWEALTH BROADCASTING CORP. AND KINSTON BROADCASTING CO. (WFTC)

ORDER CONTINUING HEARING

In re applications of Commonwealth Broadcasting Corporation (WELS), Kinston, North Carolina, Docket No. 9574, File No. BMP-4917; Kinston Broadcasting Company (WFTC), Kinston, North Carolina, Docket No. 9778, File No. BP-7752; for construction permits.

The Commission having under consideration a petition filed September 8, 1950, by Commonwealth Broadcasting Corporation (WELS), requesting a continuance of the hearing in the above-entitled case from September 19, 1950, to November 27, 1950; and

It appearing, that the application of Kinston Broadcasting Company (WFTC) has been recently consolidated in this proceeding, and the applicant requests additional time in which to prepare for competitive hearing upon these applications; and

It further appearing, that the permittee of Station WELS has recently changed its corporate ownership and additional time is desired in which to substitute by appropriate pleadings the successor corporation as the applicant herein; and

It further appearing, that all parties to this proceeding have informally consented to a continuance of the hearing as hereinafter ordered and that the granting thereof will conduce to the proper dispatch of the Commission's business; now therefore

It is ordered, This 15th day of September 1950, that the petition for continuance be, and it is hereby granted; and the hearing presently scheduled to commence on September 19, 1950, is continued to Monday, November 20, 1950, at Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8504; Filed, Sept. 27, 1950; 8:53 a. m.]

[Docket No. 9605]

GULF BEACHES BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In re application of Gulf Beaches Broadcasting Company, Inc., St. Petersburg Beach, Florida, Docket No. 9605, File No. BP-7302; for construction permit.

The Commission having under consideration a petition filed on September 13, 1950, requesting that the hearing now scheduled for September 18, 1950, at Washington, D. C., on the above-entitled application of Gulf Beaches Broadcasting Company, Inc., St. Petersburg Beach, Florida, be continued indefinitely; and

It appearing, that on August 22, 1950, the said applicant filed a petition for reconsideration and grant of its above-entitled application without a hearing, which the Commission will not be able to act upon prior to September 18, 1950; and

It further appearing, that action by the Commission on the said petition for reconsideration and grant may obviate the necessity of a hearing; and

It further appearing, that all of the parties to this proceeding have consented to the continuance as requested;

It is ordered, This 15th day of September 1950, that the above petition for continuance be, and it is hereby, granted, and that the said hearing on the above-entitled application be, and it is hereby, continued until further order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8507; Filed, Sept. 27, 1950; 8:54 a. m.]

[Docket No. 9617, 9618, 9796]

BUTTREY BROADCAST, INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Buttrey Broadcast, Inc., Billings, Montana, Docket No.

9617, File No. BP-6415; Frank E. Hurt & Son, Inc. (KFXD), Nampa, Idaho, Docket No. 9618, File No. BP-6513; Copper Broadcasting Company (KOPR), Butte, Montana, Docket No. 9796, File No. BP-7777; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled applications of (1) Buttrey Broadcast, Inc., requesting a construction permit for a new standard broadcast station to operate on 580 kc., with 5 kw. power, unlimited time, using a directional antenna at night, in Billings, Montana; (2) Frank E. Hurt & Son, Inc., requesting a construction permit to increase power from 1 kw. to 5 kw., unlimited time, using a directional antenna day and night on 580 kc at station KFXD, Nampa, Idaho; and (3) Copper Broadcasting Company, requesting a construction permit to change the facilities of station KOPR, Butte, Montana, from 550 kc., 1 kw., unlimited time with a directional antenna at night, to 580 kc., 1 kw., 5 kw.-LS, unlimited time with a directional antenna at night;

It appearing, that the applicants are legally qualified to operate the proposed station and stations KFXD and KOPR as proposed, but that the applications may involve interference with one another and with one or more existing stations;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 20, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicants, their officers, directors and stockholders to operate the proposed station and stations KFXD and KOPR as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and stations KFXD and KOPR as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station and station KFXD would involve objectionable interference with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KOPR as proposed would involve objectionable interference with station WIBW, Topeka, Kansas, or with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the operation of the proposed station and stations KFXD and KOPR as proposed would involve objectionable interference, each with the others, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the operation of the proposed station would involve objectionable interference with Station CKY, Winnipeg, Manitoba, or with any other existing foreign broadcast station and, if so, the nature and extent of such interference.

8. To determine whether the installation and operation of the proposed station and stations KFXD and KOPR as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

9. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That Topeka Broadcasting Association, Inc., licensee of station WIBW, Topeka, Kansas, is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9634]

MIDWEST BROADCASTING CORP.

ORDER CONTINUING HEARING

In the matter of Midwest Broadcasting Corporation, Montevideo, Minnesota, Docket No. 9634, File No. BP-7458; applicant for construction permit for a new standard broadcasting station.

The Commission having under consideration a petition filed September 5, 1950, by the applicant, Midwest Broadcasting Corporation, requesting a continuance of the hearing which is now scheduled for Wednesday, September 13, 1950; and

It appearing that counsel for the Commission and counsel for the respondent, Times Publishing Company, St. Cloud, Minnesota, have informally consented to waive the time of filing requirements of § 1.745 of the rules and to a grant of the petition for continuance; and

It further appearing that the applicant desires additional time for completion of an engineering search which has been commenced for a different frequency for use at Montevideo, Minnesota, and that the requested continuance will conduce to the proper dispatch of the Commission's business and the ends of justice; now therefore

It is ordered, This 8th day of September 1950, that the petition for continuance be, and it is hereby, granted, and the hearing upon the Midwest Broadcasting Corporation application, presently scheduled to commence on September 13, 1950, is continued until 10 o'clock a. m. on Wednesday, December 13, 1950.

GLOBE WIRELESS LTD.

ORDER CONTINUING HEARING

In the matter of Globe Wireless Ltd. Docket No. 9638, File No. 13681-C4-P-D, 13682-C4-P-D, 13850-C4-MP-E; applications for construction permits to authorize the move of certain transmitters to transmitting stations of Press Wireless, Inc.

The Commission having under consideration a petition filed September 11, 1950, by Globe Wireless, Ltd., requesting that the hearing in the above-entitled proceeding now scheduled for October 2, 1950, be continued for approximately 90 days in order to allow time for further discussions with Press Wireless, Inc., an intervenor in the proceeding, respecting arrangements involved in the pending application; and

It appearing, that no opposition to the petition for continuance has been filed and that good cause has been shown in support thereof;

It is ordered, This 18th day of September 1950, that the hearing in the above-entitled proceeding, now scheduled for October 2, 1950, be, and it is hereby, continued to December 11, 1950, at 10 o'clock a. m., in Washington, D. C.

[Docket No. 9659]

MELBOURNE BROADCASTING CORP. (WMMB)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Melbourne Broadcasting Corporation (WMMB), Melbourne, Florida, Docket No. 9659, File No. BP-7217; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of September 1950;

The Commission having under consideration the above-entitled application of Melbourne Broadcasting Corporation to change the facilities of Station WMMB, Melbourne, Florida, from 1050 kc., 250 w., daytime only, to 1240 kc., 250 w., unlimited time;

It appearing, that the applicant is financially qualified to operate Station WMMB as proposed, but that the application may involve interference with one or more existing stations;

It further appearing, that, various transfers of stock of the applicant corporation have been made which were unreported at the time of the transactions and that the Records of the Commission and the above-entitled application may not accurately reflect the present stockholders of the applicant corporation or the extent of the interest of each stockholder;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 19, 1951, at Washington, D. C., upon the following issues:

1. To determine the legal, technical, and other qualifications of the corporate applicant, its officers, directors and stockholders to construct and operate Station WMMB as proposed.

2. To determine the present owners of the stock of the applicant corporation, and when and from whom said stock was acquired and whether the statements and representations made in various applications, documents and reports filed with the Commission and made to an investigator for the Commission on behalf of the applicant corporation by its officers, directors and agents have fully and accurately reflected the facts concerning the ownership and distribution of the stock of the corporation.

3. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

4. To determine whether the operation of the Station WMMB as proposed would involve objectionable interference with Station WFOY, St. Augustine, Florida, or with any other existing or proposed broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Fountain of Youth Broadcasting Company, licensee of Station WFOY, St. Augustine, Florida, is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8497; Filed, Sept. 27, 1950; 8:52 a. m.]

[Docket No. 9660]

UNITED BROADCASTING CO., INC. (WOOK)

ORDER CONTINUING HEARING

In re application of United Broadcasting Co., Inc. (WOOK) Silver Spring, Maryland, Docket No. 9660, File No. BML-1335; for construction permit.

The Commission having under consideration a petition, filed September 6, 1950, by the United Broadcasting Co., Inc. (WOOK), Silver Spring, Maryland, requesting an indefinite continuance of the hearing herein, presently scheduled for September 18, 1950, in order that further engineering data may be prepared and submitted to the Commission which petitioner feels may resolve the conflict which resulted in said application being set for hearing; and

It appearing that Piedmont Carolina Broadcasting Company, Inc. (WFRC), Reidsville, North Carolina (party respondent herein), on September 8, 1950, filed an opposition to the petition of Station WOOK for an indefinite continuance of said hearing, requesting that a definite, rather than an indefinite, date be set in order that Station WFRC may not be put to unnecessary expenses in preparation for a hearing which may not materialize; and

It further appearing that no other pleadings have been filed, and that the petitioner, the Counsel for WFRC and the Commission Counsel have agreed to a continuance of 90 days in lieu of the indefinite continuance requested;

It is therefore ordered, This 15th day of September 1950, that the petition of United Broadcasting Co., Inc. be and it is hereby granted in part, and the hearing herein is continued to December 18, 1950, at 10:00 a. m., in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8502; Filed, Sept. 27, 1950; 8:53 a. m.]

[Docket No. 9664]

HAROLD L. SUDBURY (KLCN)

ORDER CONTINUING HEARING

In re application of Harold L. Sudbury (KLCN), Blytheville, Arkansas, Docket No. 9664, File No. BP-7515; for construction permit.

The Commission having under consideration a petition filed September 8, 1950 by Harold L. Sudbury (KLCN), Blytheville, Arkansas, for an indefinite continuance of the hearing on the above-entitled application now scheduled for September 22, 1950 in Washington, D. C.; and

It appearing, that the applicant has filed with the Commission a petition requesting the Commission to reconsider its action in designating for hearing the above-entitled application and grant the same without hearing; that it cannot now be determined when action will be taken by the Commission on that petition to reconsider and grant, but if said petition is granted, the necessity for a hearing on said application would be obviated; that the time within which objection might have been filed to the instant petition for indefinite continuance of the hearing on the above-entitled application has expired, and opposition has not been filed by any party to the proceeding or by Commission Counsel; and that a continuance of this proceeding under the circumstances here shown would conduce to the dispatch of the Commission's business and to the ends of justice;

It is ordered, This 15th day of September 1950, that the petition for indefinite continuance is hereby granted; and the hearing on the above-entitled application now scheduled for September 22, 1950, in Washington, D. C., is continued without date until further order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9758]

COASTWISE LINE AND SS WILLIAM BLACK YATES

ORDER CONTINUING HEARING

In the matter of Petition of the Coastwise Line requesting reconsideration by the Commission of its denial of the application of Coastwise Line for relief from forfeitures imposed in connection with the sailing of the SS *William Black Yates* in violation of sections 351 and 353 of the Communications Act of 1934, as amended, Docket No. 9758.

The Commission having under consideration a petition filed September 15, 1950 by Coastwise Line, requesting continuance for a period of fifteen days of the hearing on the above-entitled proceeding presently scheduled for September 26, 1950; and

It appearing, that applicant's Washington counsel who had previously been handling the matter will not be available for the purpose of preparing for the matter and that, since the applicant and those persons having knowledge of the facts reside at great distances from the place of hearing, counsel retained on September 14, 1950, to represent the applicant at the hearing will be unable to prepare adequately for the hearing now set for September 26; and

It further appearing, that Commission Counsel has consented to a waiver of § 1.745 of the Commission's rules and regulations to permit the early consideration and grant of such petition;

It is ordered, This 18th day of September 1950, that the petition be, and it is hereby, granted; and that the hearing on the above-entitled application be, and it is hereby, continued to October 17, 1950 at 10 o'clock a. m., in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[Docket Nos. 9779-9782]

MOBILE RADIO MESSAGE SERVICE ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications for construction permits or licenses, respectively, in the Domestic Public Land Mobile Radio Service at Houston, Texas. Roberta B. Knigge and Joseph H. Wofford, d/b as

Mobile Radio Message Service, Docket No. 9779, Files Nos. 3983/3984–C2–ML–E; W. M. Hollomon, d/b as Hollomon Radio Dispatch Service, Docket No. 9780, Files Nos. 4853/4854–C2–ML–E and 5668–C2–P–E; Robert E. Franklin, Docket No. 9781, File No. 4847–C2–P–E; O. B. English, d/b as English Radio Dispatch Co., Docket No. 9782, File No. 21553–C2–P–E.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission, having under consideration the above-entitled applications of miscellaneous common carriers for authorizations in the Domestic Public Land Mobile Radio Service in the city of Houston, Texas;

It appearing, that the number of applicants for such facilities in this area exceeds the number of frequencies available for this area; and

It further appearing, that, in accordance with the Commission's report and order in Dockets Nos. 8658, et al., dated April 27, 1949, and § 6.409 of the Commission's rules governing public radiocommunication services (other than maritime mobile), each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis;

It is ordered, That, pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at Houston, Texas, on a date to be hereafter specified, upon the following issues:

1. To determine the legal, technical and financial qualifications of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas which may be expected to receive service from the proposed stations and the need for such service in the areas proposed to be served.

3. To determine whether and to what extent adjacent channel operations may be feasible.

4. To determine the extent and degree of mutual interference which would be caused by operation of the proposed stations.

5. To determine the facts with respect to the existing and proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

6. To determine, in the light of the evidence on the foregoing issues, which applicants are best qualified to serve the public interest, convenience or necessity.

7. To determine, on a comparative basis, which, if any, of the applications in this consolidated proceeding should be granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50–8485; Filed, Sept. 27, 1950; 8:51 a. m.]

[Docket No. 9784]

GARFIELD MEDICAL APPARATUS CO.

ORDER CONTINUING HEARING

In the matter of Garfield Medical Apparatus Company, New York, New York, Docket No. 9784; withdrawal of type approval Certificate No. D–503, Medical Diathermy Apparatus, request for issuance of type approval for new medical diathermy apparatus.

The Commission having under consideration a petition filed on September 14, 1950, by the Garfield Medical Apparatus Company, New York, New York, requesting a continuance of the hearing herein, presently scheduled for September 19, 1950, for a period of thirty days, in order that the attorney and the engineer for the petitioner, retained only a few days prior to the filing of the petition, may have an opportunity to study and familiarize themselves with their client's case; and

It appearing that the General Counsel has filed a Statement, expressing no opposition to the requested continuance, but pointing out that the hearing was scheduled for September 19, 1950, by the Commission's Order of September 6, 1950, and the Hearing Examiner was ordered to give this matter priority in response to the urgent request of Garfield Medical Apparatus Company for a prompt determination of this matter; and

It further appearing that the General Counsel's Statement requests that, in the event a continuance is granted, all subpenas previously issued by the Hearing Examiner, returnable on September 19, 1950, be made returnable on the new date specified for the hearing; and

It further appearing that there are no other parties to the proceeding and that the requirements of § 1.745 of the rules have been met;

It is therefore ordered this 15th day of September 1950, that the petition of the Garfield Medical Apparatus Company be and it is hereby granted, the hearing herein is hereby continued to October 23, 1950, at 10:00 a. m., in Washington, D. C., and all subpenas and subpenas duces tecum which have been hitherto issued, returnable on September 19, 1950, shall be returnable on October 23, 1950, at Washington, D. C., at the place previously specified.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9787]

FRANCIS J. MATRANGOLA

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Francis J. Matrangola, Wildwood, New Jersey, Docket No. 9787, File No. BP–7659; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled application for a construction permit to establish a new standard broadcast station to operate on frequency 1230 kilocycles, with 250 watts of power, unlimited time at Wildwood, New Jersey;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate the proposed station, but that the application may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 7, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Station WSNJ, Bridgeton, New Jersey; WITH, Baltimore, Maryland, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That, Eastern States Broadcasting Corporation, licensee of Station WSNJ, Bridgeton, New Jersey, and Maryland Broadcasting Company, licensee of Station WITH, Baltimore, Maryland are made parties to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION

(Docket Nos. 9788, 9789]

PHILLIP R. HURLBUT AND VALLEY BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Phillip R. Hurlbut, Farmington, New Mexico, Docket No. 9788, File No. BP–7764; Luella M. Bowles and Marvin E. Bowles d/b as Valley Broadcasting Company, Farmington, New Mexico, Docket No. 9789, File No. BP–7773; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled applications both requesting construction permits to construct new standard broadcast stations to be operated on frequency 1240 kilocycles with 250 watts of power, unlimited time at Farmington, New Mexico.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 12, 1951 at Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the individual applicant and the applicant partnership and its partners to operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

VOICE OF DIXIE, INCORPORATED (WVOK)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Voice of Dixie, Incorporated (WVOK), Birmingham, Alabama, for modification of construction permit, Docket No. 9791, File No. BMP–4825.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950.

The Commission having under consideration the above-entitled application requesting a modification of construction permit to change from directional to non-directional operation of Station WVOK, Birmingham, Alabama;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WVOK, as proposed, but that the application may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 14, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of Station WVOK, as proposed, would involve objectionable interference with Station WWEZ at New Orleans, Louisiana, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That the Sky Broadcasting Company, licensee of Station WWEZ, New Orleans, Louisiana, is made a party to this proceeding.

BOWLING GREEN BROADCASTING CO. (WLBJ)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Bowling Green Broadcasting Company (WLBJ), Bowling Green, Kentucky, for modification of construction permit, Docket No. 9792, File No. BMP–5198.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled application of the Bowling Green Broadcasting Company for modification of construction permit (File No. BP–7160) to increase daytime power from 1 kw. to 5 kw. and install a new transmitter at Station WLBJ, Bowling Green, Kentucky;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WLBJ as proposed, but that the application may involve interference with one or more existing stations;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 15, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Stations WVJS, Owensboro, Kentucky, WIEL, Elizabethtown, Kentucky, or any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Owensboro On The Air, Inc., licensee of Station WVJS, Owensboro, Kentucky, and Stokley Bowling, C. A. Diecks, H. F. Skidmore, Horace E. Tabb and J. W. Hodges, d/b as Elizabethtown Broadcasting Company, licensee of Station WIEL, Elizabethtown, Kentucky, are made parties to this proceeding.

RADIO SERVICES CO. (WJPR) ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Thomas Henry Golding, Sr., Thomas Henry Golding, Jr., Emmet Holmes McMurry, Jr., and Frank Wilson Baldwin, d/b as Radio Services Co. (WJPR), Greenville, Mississippi, Docket No. 9793, File No. BP-7563; Harold Ritchie McBride, Birmingham, Alabama, Docket No. 9794, File No. BP-7613; Magic City Broadcasting Co., Inc. (WEDR), Fairfield, Alabama, Docket No. 9795, File No. BP-7778; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the above-entitled applications of Radio Services Company to change the facilities of Station WJPR, Greenville, Mississippi, from 1340 kc, 250 w, U, to 1330 kc, 500 w, 1 kw-LS, DA-N, U; Harold Ritchie McBride for a new standard broadcast station to operate on 1320 kc, 1 kw, daytime at Birmingham, Alabama, and Magic City Broadcasting Co., Inc. to change the facilities of Station WEDR, Fairfield, Alabama, from 1220 kc, 1 kw, D, to 1330 kc, 500 w, 1 kw-LS, DA-N-U;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m., on February 16, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the applicant partnership and its partners; the corporate applicant, its officers, directors and stockholders to construct and operate Stations WJPR and WEDR, as proposed; and the legal, technical, financial and other qualifications of the applicant, Harold Ritchie McBride, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Stations WJPR and WEDR, as proposed, and the proposed station would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Stations WJPR and WEDR, as proposed, and the proposed station would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Stations WJPR and WEDR, as proposed, and the proposed station would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

SHORE BROADCASTING CO. (WCEM)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of The Shore Broadcasting Company (WCEM), Cambridge, Maryland, for modification of license; Docket No. 9798, File No. BML-1424.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of September 1950;

The Commission having under consideration the above-entitled application of The Shore Broadcasting Company requesting modification of the license to increase the nighttime power of Station WCEM, Cambridge, Maryland, from 100 watts to 250 watts while operating unlimited hours on frequency 1240 kc with 100 watts power during the daytime; and

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WCEM, as proposed, but that the operation proposed may not comply with the Standards of Good Engineering Practice particularly with reference to the allocation plan for Class IV stations as fixed by said Standards;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 20, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of Station WCEM, as proposed, would involve objectionable interference with any existing broadcast stations or pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the installation and operation of Station WCEM, as proposed, would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the requirement of the standards that on local channels, the separation required for daytime shall also determine the nighttime separation.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25428]

ALCOHOL AND RELATED ARTICLES FROM TEXAS AND LOUISIANA TO MAYSVILLE, KY.

APPLICATION FOR RELIEF

SEPTEMBER 25, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3721.

Commodities involved: Alcohol, proprietary anti-freeze preparations and related articles, carloads.

From: Points in Texas, also Sterlington, La.

To: Maysville, Ky.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3721, Supplement 154.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2422]

SOUTHERN CO. ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 22d day of September A. D. 1950.

In the matter of The Southern Company, Alabama Power Company, and Georgia Power Company; File No. 70-2422.

The Southern Company ("Southern"), a registered holding company and two of its public utility subsidiaries, Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia"), having filed with this Commission joint applications-declarations, and amendments thereto, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act") and Rules U-43 and U-50 promulgated thereunder, relating to the following proposed transactions:

Southern proposes to issue and sell 1,000,000 additional shares of its $5 par value common stock at public sale pursuant to competitive bidding. Southern proposes to use the proceeds of such sale to purchase additional shares of the common stock of Alabama and Georgia in order to assist them in financing their proposed construction programs. It is the present intention of Southern to invest such proceeds, together with treasury funds to the extent required, as follows; $6,000,000 for the purchase of 60,000 additional shares of the no par value common stock of Alabama and $6,000,000 for the purchase of 353,000 additional shares of the no par value common stock of Georgia. The filing states that if the proposed sale of common stock by Southern is not consummated shortly after September 22, 1950, then Southern may find it necessary to exercise the authority granted it by our order herein dated September 12, 1950 (Holding Company Act Release No. 10092) to borrow up to $12,000,000 from banks for the purpose of making the above described investments in the common stocks of Alabama and Georgia. If and to the extent such authority is exercised by Southern and such bank loans are made prior to the consummation of the proposed sale of common stock of Southern, it is proposed that the company will repay the amount so borrowed from the proceeds of the sale of its common stock. Southern states that after consummation of the proposed sale of its common stock it will consider its authority to borrow under our aforementioned order to have expired and it will accordingly make no bank loans thereafter under such authority.

Said applications-declarations and amendments thereto having been duly filed, and notice of such filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The applications-declarations having requested that the Commission's order become effective forthwith upon issuance; and

The Commission finding with respect to said applications-declarations, as amended, that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied, that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications-declarations, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said applications-declarations, as amended, be, and the same hereby are, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24 and subject to the following additional conditions:

(1) That the proposed sale of common stock of Southern shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 shall have been made a matter of record herein and a further order shall have been entered with respect thereto in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

(2) That jurisdiction be reserved with respect to all fees and expenses to be paid in connection with the proposed transactions.

By the Commission.

[File No. 70-2469]

LONG ISLAND LIGHTING CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 22d day of September A. D. 1950.

Long Island Lighting Company, a registered holding company, having filed a declaration, as amended, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act"), and Rule U-50 promulgated thereunder, wherein it proposes to issue and sell $20,000,000 principal amount of first mortgage bonds maturing September 1, 1980; and

A hearing having been held with respect to such proposal at which interested persons were present, and the Commission having considered the record and having entered a memorandum findings and opinion herein and deeming it appropriate in the public interest and in the interest of investors and consumers to permit the declaration, as amended, to become effective forthwith and to grant the request of declarant that the Commission except the issue and sale of said bonds from the competitive bidding requirements of Rule U-50:

It is hereby ordered, Pursuant to the provisions of sections 6 (a) and 7 of the act, that the declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject to the conditions prescribed in Rule U-24 and to the reservation of jurisdiction with respect to the fees to be paid the indenture trustee and its counsel and counsel for the proposed purchasers of the bonds.

It is further ordered, That the proposed issue and sale of the said bonds be, and hereby is, excepted from the competitive bidding requirements of Rule U-50.

By the Commission.

KATI KRAUSE

In re: Debt owing to and securities owned by Katl Krause also known as Mrs. Hugo Krause. F-28-27156-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Katl Krause; also known as Mrs. Hugo Krause, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of Brown Brothers Harriman & Co., 59 Wall Street, New York 5, New York, in the amount of $10,487.52 as of December 7, 1949, presently held in the account of Compania Argentina de Mandatos S. A., Buenos Aires, Argentina, segregated for the account of Hugo Juan Frederico Krause, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

b. One hundred (100) shares of stock of B. F. Goodrich Co., 230 Park Avenue, New York, New York, evidenced by a certificate in the custody of Brown Brothers Harriman & Co., 59 Wall Street, New York 5, New York, and held in the account of Compania Argentina de Mandatos S. A., Buenos Aires, Argentina, segregated for the account of Hugo Juan Frederico Krause, together with all declared and unpaid dividends thereon, and

c. One hundred (100) shares of stock of the American Superpower Corp., 30 Broad Street, New York, New York, evidenced by a certificate presently in the custody of Brown Brothers, Harriman & Co., 59 Wall Street, New York 5, New York, and held in the account of Compania Argentina de Mandatos S. A., Buenos Aires, Argentina, segregated for the account of Hugo Juan Frederico Krause, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Katl Krause, also known as Mrs. Hugo Krause, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

CONRAD HEERDT

In re: Rights of Conrad Heerdt under Insurance Contracts. File Nos. F-28-24356-H-1 and H-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Conrad Heerdt whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under contracts of insurance evidenced by policy Nos. 5536342 and 5874459 issued by The Prudential Insurance Company of America, Newark, New Jersey, to Conrad Heerdt, together with the right to demand, receive and collect said net proceeds, is property within the United States, owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

ALBRECHT, MUELLER-PEARSE & CO. ET AL.

In re: Securities owned by and debt owing to Albrecht, Mueller-Pearse & Co. and others. F-28-16057-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Albrecht, Mueller-Pearse & Co., the last known address of which is 17 Osterdeich, Bremen, Germany, is a corporation, partnership, association, or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Bremen, Germany, and is a national of a designated enemy country (Germany);

2. That Friedrich Carl Albrecht, Heinrich Muller-Pearse, Karl Ludwig Lange, Sr., and Karl Heinz Lange, Jr., each of whose last known address is Bremen, Germany, are residents of Germany and nationals of a designated enemy country (Germany);

3. That the property described as follows:

a. Those certain shares of stock described in Exhibit A, attached hereto and by reference made a part hereof, evidenced by certificates presently in the custody of Harris, Upham & Co., 14 Wall Street, New York, New York, held for the account of Rotterdamsche Bank N. V., together with all declared and unpaid dividends thereon,

b. That certain debt or other obligation of Harris, Upham & Co., 14 Wall Street, New York, New York, in the amount of $21,368.06 as of June 30, 1950, arising out of a credit balance carried on the books of the aforesaid Harris, Upham & Co., for the account of Rotterdamsche Bank N. V., together with any and all accruals to the aforesaid debt

or other obligation and any and all rights to demand, enforce and collect the same,

c. Thirty-three (33) shares of no par value common stock of the Radio Corporation of America, 30 Rockefeller Plaza, New York, New York, evidenced by certificates presently in the custody of The Chase National Bank, N. Y. C., in an account entitled Rotterdamsche Bank N. V., Rotterdam, Netherlands, Blocked Clients Account, Non-resident Account, together with all declared and unpaid dividends thereon,

d. One hundred (100) shares of $25.00 par value common stock of American Can Company, 230 Park Avenue, New York, New York, evidenced by a certificate presently in the custody of The Chase National Bank, N. Y. C., in an account entitled Rotterdamsche Bank N. V., Rotterdam, Netherlands, Blocked Clients Account, Non-resident Account, together with all declared and unpaid dividends thereon, and

e. Two hundred (200) shares of no par value common stock of General Electric Company, 570 Lexington Avenue, New York, New York, evidenced by certificates presently in the custody of The Chase National Bank, N. Y. C., in an account entitled Rotterdamsche Bank N. V., Rotterdam, Netherlands, Blocked Clients Account, Non-resident Account, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Albrecht, Mueller-Pearse & Co., Friedrich Carl Albrecht, Heinrich Muller-Pearse, Karl Ludwig Lange, Sr., and Karl Heinz Lange, Jr., the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

GEORGE SCHMID

In re: estate of George Schmid, deceased. File D 28-12064 E. T. sec. 16246.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Josef Lang, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraph 1 hereof in and to the estate of George Schmid, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Mary Schmid and Leonard H. Torline, co-executors, acting under the judicial supervision of the Court of Probate of Stafford County, State of Kansas;

and it is hereby determined:

4. That to the extent that the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Josef Lang, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

[Vesting Order 14494, Amdt.]

CONVERSION OFFICE FOR GERMAN FOREIGN DEBTS

In re: Debts owing to and scrip owned by Conversion Office for German Foreign Debts, also known as Konversionskasse fuer Deutsche Auslandschulden. F-28-1781-A-1.

Vesting Order 14494, dated March 24, 1950, is hereby amended as follows and not otherwise:

1. By deleting subparagraph 2 of said Vesting Order 14494 and substituting therefor the following:

2. That the property described as follows:

a. That certain debt or other obligation of The New York Trust Company, 100 Broadway, New York 15, New York, in the amount of $5,656.69, as of December 31, 1945, representing funds held by the aforesaid The New York Trust Company as Agent, under offer of Conversion Office for German Foreign Debts to holders of coupons pertaining to various issues of German bonds, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same, and

b. Those certain Reichsmark Certificates of Indebtedness of Conversion Office for German Foreign Debts, in the aggregate amount of 26,110 RM, said certificates numbered and in the amounts as set forth in Exhibit A, attached hereto and by reference made a part hereof, being those Certificates of Indebtedness held for Conversion Office for German Foreign Debts by The New York Trust Company, 100 Broadway, New York 15, New York, and any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Conversion Office for German Foreign Debts, also known as Konversionskasse fuer Deutsche Auslandschulden, the aforesaid national of a designated enemy country (Germany);

II. By deleting Exhibits A and B of said Vesting Order 14494, attached thereto and by reference made a part thereof, and substituting therefor Exhibit A, attached hereto and by reference made a part hereof.

All other provisions of said Vesting Order 14494 and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on August 11, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

FEDERAL REGISTER

VOLUME 15 NUMBER 189

Washington, Friday, September 29, 1950

TITLE 3—THE PRESIDENT

PROCLAMATION 2902

GENERAL PULASKI'S MEMORIAL DAY, 1950

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, in various periods of history, freedom-loving men have willingly left their homelands to fight on foreign soil for the cause of liberty, as even now United Nations troops are battling in the Far East on behalf of that cause; and

WHEREAS an exemplar of this devotion to principle, Count Casimir Pulaski, came to America in 1777 to serve with our Revolutionary Army, and two years later suffered a mortal wound while leading the brave Legion which he had formed and which bore his name; and

WHEREAS we who are determined to hold fast to our heritage of independence may be spiritually strengthened by renewing our appreciation of the high motives and selfless service of this noble Pole:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby set aside Wednesday, October 11, 1950, the one hundred and seventy-first anniversary of his death, as General Pulaski's Memorial Day; I direct that the American flag be flown on all Government buildings on that date; and I urge the people of the United States to observe the day with ceremonies designed to commemorate the sacrifice made by General Pulaski for freedom's sake.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of September in the year of our Lord nineteen hundred and [SEAL] fifty, and of the Independence of the United States of America the one hundred and seventy-fifth.

HARRY S. TRUMAN

By the President:

JAMES E. WEBB,
Acting Secretary of State.

[F. R. Doc. 50-8621; Filed, Sept. 28, 1950; 10:19 a. m.]

PROCLAMATION 2903

REVOCATION OF PROCLAMATION NO. 2775[1] OF MARCH 26, 1948, PRESCRIBING CHANGES IN PANAMA CANAL TOLL RATES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS certain changes in the tolls for the use of the Panama Canal were prescribed by Proclamation No. 2775 of March 26, 1948, under the authority of section 411 of title 2 of the Canal Zone Code, approved June 19, 1934, such proclamation to become effective on October 1, 1948; and

WHEREAS the effective date of the said proclamation was thereafter postponed by Proclamations Nos. 2808, 2831, 2852, and 2875 to April 1, 1949, September 1, 1949, April 1, 1950, and April 1, 1951, respectively, pending study and the consideration by the Congress of my recommendation for the enactment of legislation reorganizing the Panama Canal and the Panama Railroad as the Panama Canal Company and authorizing the establishment of toll rates by the Company subject to the approval of the President; and

WHEREAS the act entitled "An act to authorize and provide for the maintenance and operation of the Panama Canal by the present corporate adjunct of the Panama Canal, as renamed; to reconstitute the agency charged with the civil government of the Canal Zone, and for other purposes," approved by me this date, authorizes the Panama Canal Company (created by such act) to prescribe and from time to time change the tolls that shall be levied for the use of the Panama Canal and provides that the existing rates of tolls shall continue in effect until changed as provided for therein:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America do hereby revoke the aforesaid Proclamation No. 2775 of March 26, 1948, as modified by the said Proclamations Nos. 2808, 2831, 2852, and 2875.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the

EXECUTIVE ORDER 10164

EXTENSION OF ENLISTMENTS IN THE UNITED STATES COAST GUARD

By virtue of the authority vested in me by section 1 of the act of July 27, 1950, Public Law 624, 81st Congress, as amended by section 2 of the act of September 27, 1950, entitled "An Act to include the Coast Guard within the provisions of the Selective Service Act of 1948 and to authorize the President to extend enlistments in the Coast Guard," and as President of the United States and Commander in Chief of the armed forces of the United States, I hereby extend for a period of twelve months all enlistments in the United States Coast Guard, including the Coast Guard Reserve, which shall expire at any time after the date of this order and prior to July 9, 1951: *Provided*, That nothing contained herein shall be construed to prevent voluntary re-enlistment or voluntary extension of existing enlistments under provisions of applicable laws or the regulations of the Coast Guard.

The Secretary of the Treasury is hereby directed to take such steps as he may deem necessary to carry out the provisions of this order.

HARRY S. TRUMAN

RULES AND REGULATIONS

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-160 A 12]

PART 961—MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 961.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Philadelphia, Pennsylvania, on August 29 and 31, 1950, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary to make the present amendment to said order, as amended, effective October 1, 1950, to reflect current marketing conditions. Any further delay in the effective date of this order, amending the said order, as amended, will seriously disrupt the orderly marketing of milk for the Philadelphia, Pennsylvania, marketing area. The changes effected by this order, amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order effective October 1, 1950 (see section 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, amending the order, as amended, which is marketed within the Philadelphia, Pennsylvania, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who during the determined representative period (August 1950) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Philadelphia, Pennsylvania, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 961.4 (a) delete subparagraph (1) and substitute:

(1) *Class I milk* • • • *and provided further*, That the price shall be at least $5.84 per hundredweight for milk received from producers during the months of October, November, and December, 1950, and $5.44 per hundredweight for milk received during the months of January, February, and March, 1951.

2. In § 961.4 (b) (1) change the period to a colon and add the following: "*Provided*, That in case of Class I items containing less than 3.0 percent butterfat or more than 6.0 percent butterfat, the rate of differential prescribed in subparagraph (2) of this paragraph based on cream quotations shall apply."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup 608c)

Issued at Washington, D. C., this 26th day of September 1950, to be effective on and after the 1st day of October 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50-8553; Filed, Sept. 28, 1950; 8:50 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. and Sup., 357), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq. and 1949 Supp.; 15 F. R. 1073, 4547, 4076) are amended as indicated below:

1a. In § 146.34 *Tablets aluminum penicillin*, paragraph (c) (2) is amended by adding the following new subdivision:

(c) *Labeling.* • • •

(2) • • •

(iii) Unless the drug is intended solely for veterinary use and is so labeled, a reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such tablets; or a reference to a brochure or other printed matter containing such directions and precautions, and a statement that such brochure or printed matter will be sent on request.

b. In § 146.34, paragraph (c) (3) is amended to read as follows:

(3) On the circular or other labeling within or attached to the package, if the drug is intended solely for veterinary use, directions and precautions adequate for the use of such tablets, including:

• • • • • •

2a. In § 146.51 *Buffered penicillin powder*, paragraph (a) *Standards of identity, etc.*, the first sentence is changed to read as follows: "Buffered penicillin powder is a mixture of crystalline penicillin or procaine penicillin and suitable buffer substances, with or without two or more suitable sulfonamides, and with or without the addition of one or more suitable and harmless diluents, colorings, and flavorings."

b. In § 146.51, paragraph (b) *Packaging*, the last sentence is changed to read as follows: "Each immediate con-

tainer shall contain not less than 600,000 units and each may be packaged in combination with a container of a suitable and harmless aqueous vehicle, with or without two or more suitable sulfonamides."

c. In § 146.51, subparagraph (1) of paragraph (c) *Labeling* is amended by renumbering subdivisions (iii), (iv), and (v) as (v), (vi), and (vii), respectively, and by inserting two new subdivisions between subdivision (ii) and renumbered subdivision (v):

(iii) If the batch contains sulfonamides, the name and quantity of each such sulfonamide used in making the batch;

(iv) If it is a packaged combination of one immediate container of buffered penicillin powder and one immediate container of a vehicle, a statement giving the method of dissolving the penicillin;

d. In § 146.51, paragraph (c) is further amended by renumbering subparagraph (3) as (4) and by inserting the following new subparagraph between subparagraph (2) and renumbered subparagraph (4):

(3) On the label and labeling, if sulfonamides are present, after the name "Buffered penicillin powder," wherever it appears, the words "with sulfonamides," in juxtaposition with such name.

3. In § 146.208 *Aureomycin otic* * * *, the first and last sentences of paragraph (a) *Standards of identity, etc.*, and subparagraph (1) of paragraph (d) *Request for certification, etc.* are amended by deleting the word "aqueous".

4. In § 146.402 *Bacitracin ointment*, subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the figure "12" to "18".

Those parts of this order which provide for the addition of two or more suitable sulfonamides to buffered penicillin powder, for the deletion of the requirement that the diluent packaged with aureomycin otic be an aqueous vehicle, and for a change in the expiration date for bacitracin ointment from 12 to 18 months shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

That part of this order which provides for deletion of the requirement that a circular containing directions for use be packaged with tablets aluminum penicillin shall become effective 120 days after publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay the marketing of buffered penicillin powder with two or more suitable sulfonamides; to continue the requirements that the diluent packaged with aureomycin otic be an aqueous solution and that a circular containing directions for use be packaged with tablets aluminum penicillin, except if the drug is intended solely for veterinary use; and not to change the expiration date of bacitracin ointment from 12 to 18 months.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: September 25, 1950.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 35—PROVISIONS APPLICABLE TO THE SEVERAL CLASSES OF MAIL MATTER

PART 36—UNMAILABLE MATTER

PART 37—FREE MATTER IN THE MAILS

PART 58—REGISTRATION OF DOMESTIC MAIL MATTER

PART 81—ESTABLISHMENT

MISCELLANEOUS AMENDMENTS

The following changes are issued pursuant to R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369.

a. In § 35.13 *Nonmailable articles and compositions*, (39 CFR 35.13), amend paragraph (b) (3) to read as follows:

(3) *Sale of intoxicating liquors to Indians prohibited*—(i) Whoever sells, gives away, disposes of, exchanges, or barters any malt, spiritous, or vinous liquor, including beer, ale, and wine, or any ardent or other intoxicating liquor of any kind whatsoever, except for scientific, sacramental, medicinal or mechanical purposes, or any essence, extract, bitters, preparation, compound, composition, or any article whatsoever, under any name, label, or brand, which produces intoxication, to any Indian to whom an allotment of land has been made while the title to the same shall be held in trust by the Government, or to any Indian who is a ward of the Government under charge of any Indian superintendent, or to any Indian, including mixed bloods, over whom the Government, through its departments, exercises guardianship, and whoever introduces or attempts to introduce any malt, spiritous, or vinous liquor, including beer, ale, and wine, or any ardent or intoxicating liquor of any kind whatsoever into the Indian country, shall, for the first offense, be fined not more than $500 or imprisoned not more than one year, or both; and for each subsequent offense, be fined not more than $2,000 or imprisoned not more than five years, or both.

(ii) It shall be a sufficient defense to any charge of introducing or attempting to introduce ardent spirits, ale, beer, wine, or intoxicating liquors into the Indian country that the acts charged were done under authority, in writing, from the Department of the Army or any officer duly authorized thereunto by the Department of the Army, but this subsection shall not bar the prosecution of any officer, soldier, sutler or storekeeper, attache, or employee of the Army of the United States who barters, donates, or furnishes in any manner whatsoever liquors, beer, or any intoxicating beverage whatsoever to any Indian.

(iii) The term "Indian country" as used in this section does not include fee-patented lands in non-Indian communities or rights-of-way through Indian reservations, and this section does not apply to such lands or rights-of-way in the absence of a treaty or statute extending the Indian liquor laws thereto.

(62 Stat. 758, as amended; 18 U. S. C. 1154)

b. In § 36.1 *Unmailable matter; definition and classification* (39 CFR 36.1), amend paragraph (d) to read as follows:

(d) Matter so damaged in transit that it cannot be forwarded to its destination, matter of value found loose in the mails without address so that the destination cannot be known, and all matter recovered after depredations in the mails, which shall be forwarded to the Department for disposition. (See §§ 43.48, 45.5, and 108.22.)

c. In § 37.12 *Immigration and Naturalization Service* (39 CFR 37.12), make the following changes:

1. Rescind paragraph (b).

2. Delete "(a)" preceding the first paragraph, and add a cross reference at the end thereof to read as follows:

CROSS REFERENCE: See § 37.9 (g) as to unauthorized use of official envelopes.

d. In § 58.12 *Free registration of official matter* (39 CFR 58.12), make the following changes in paragraph (d):

1. Rescind subparagraph (2).

2. Delete "(1)" preceding the first paragraph, and add a cross reference at the end thereof to read as follows:

CROSS REFERENCE: See § 37.9 (g) as to unauthorized use of official envelope.

e. § 81.4 *Protection of postal savings funds* (39 CFR 81.4), is amended to read as follows:

§ 81.4 *Protection of postal savings funds.* All the safeguards provided by law for the protection of public moneys, and all statutes relating to the embezzlement, conversion, improper handling, retention, use, or disposal of postal and money-order funds, false returns of postal and money-order business, forgery, counterfeiting, alteration, improper use or handling of postal and money-order blanks, forms, vouchers, accounts, and records, and the dies, plates, and engravings therefor, with the punishments provided for such offenses are extended and made applicable to postal savings depository business and funds and related matters.

(62 Stat. 776; 18 U. S. C. 1691)

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] J. M. DONALDSON,
Postmaster General.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter I—General Services Administration

Subchapter B—Personal Property Management

PART 53—DIRECTED PROCUREMENT

MISCELLANEOUS AMENDMENTS

Section 53.5 *Special supplies* (formerly 41 CFR 3.5, 13 F. R. 8762, 15 F. R. 1346) is revised as follows:

1. Paragraph (a) *Construction machinery* is revoked.

2. Paragraph (f) *Motor vehicles* is amended to read as follows:

(f) *Motor vehicles.* The following motor-propelled vehicles for the carriage of passengers and freight: passenger automobiles, station wagons, carryalls, ambulances, buses, motorcycles, motor scooters, trucks of less than 25,000 pounds gross vehicle weight, and trailers of 12 tons or less pay load. This paragraph also applies in Alaska and to wholly owned Government corporations.

3. A new paragraph (j) is added to read as follows:

(j) *Water coolers.* Electric water coolers for land use, both the bottle type and the 5 or 10 gallon capacity pressure type, air-cooled or water-cooled, except for the Department of Defense.

(Sec. 205, 63 Stat. 389; 41 U. S. C., Sup., 235. Interprets or applies sec. 201, 63 Stat. 383; 41 U. S. C., Sup., 231)

Dated: September 22, 1950.

JESS LARSON,
Administrator.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 866, Amdt. 2]

PART 95—CAR SERVICE

RAILROAD OPERATING REGULATIONS FOR FREIGHT CAR MOVEMENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of September A. D. 1950.

Upon further consideration of Service Order No. 866 (15 F. R. 6198, 6256), and good cause appearing therefor: It is ordered, that:

Section 95.866 *Railroad operating regulations for freight car movement*, of Service Order No. 866 be, and it is hereby further amended by adding the following exception to paragraph (a) (3) thereof:

Exception. Cars of grain including soy beans held for State or Federal inspection.

It is further ordered, That this amendment shall become effective at 7:00 a. m., September 27, 1950; and that a copy of this order and direction shall be served upon the State railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets and applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[Rev. S. O. 867, Amdt. 1]

PART 95—CAR SERVICE

RESTRICTIONS ON TRAP AND FERRY CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of September A. D. 1950.

Upon further consideration of Revised Service Order No. 867 (15 F. R. 6199, 6313), and good cause appearing therefor: It is ordered, that:

Section 95.867 *Restrictions on trap and ferry cars*, of Service Order No. 867 be, and it is hereby further amended by adding the following exception to paragraph (a) thereof:

(10) A car loaded to visible capacity.

It is further ordered, That this amendment shall become effective at 12:01 a. m., September 27, 1950, and that a copy of this order and direction shall be served upon the State railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets and applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available except that employers of student-workers employed in school-operated industries were not required to certify to the non-availability of experienced workers. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 22d day of September 1950.

VERL E. ROBERTS,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. E–6318]

MONTANA POWER CO.

NOTICE OF APPLICATION

SEPTEMBER 25, 1950.

Take notice that on September 25, 1950, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by The Montana Power Company, a corporation organized under the laws of the State of New Jersey and doing business in the States of Montana, Idaho and Wyoming, with its principal business office at Butte, Montana, seeking an order authorizing the issuance and sale by competitive bidding of an aggregate of $10,000,000 principal amount of a new series of ____ percent Sinking Fund Debentures due 1975, to be issued under a Debenture Agreement to be dated as of October 1, 1950, between the Applicant and Chemical Bank and Trust Company as Trustee. The proposed Debentures will be issued on or about November 3, 1950, will mature October 1, 1975, and will bear interest at a rate to be determined later; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 13th day of October 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8532; Filed, Sept. 28, 1950; 8:47 a. m.]

[Docket No. G–1394]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

NOTICE OF FINAL DECISION

SEPTEMBER 25, 1950.

Notice is hereby given that the initial decision issuing certificate of public convenience and necessity in the above-designated matter was issued and served upon all parties on August 23, 1950. No exceptions thereto having been filed or review initiated by the Commission, in conformity with the Commission's rules of practice and procedure said initial decision became effective on September 22, 1950, as the final decision and order of the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8526; Filed, Sept. 28, 1950; 8:45 a. m.]

[Docket No. G–1473]

ALABAMA-TENNESSEE NATURAL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 25, 1950.

Take notice that Alabama-Tennessee Natural Gas Company (Applicant), a

Delaware corporation, of Florence, Alabama, filed on September 5, 1950, an application, as amended on September 18, 1950, for an order pursuant to section 7 (a) of the Natural Gas Act, requiring and directing Texas Eastern Transmission Corporation (Texas Eastern) to establish a physical connection with the pipeline of Applicant and deliver to Applicant a supply of natural gas required by Applicant to meet demands of its present and future customers for additional supplies of natural gas.

The application, as amended, shows that under its contract with Tennessee Gas Transmission Company, Applicant is entitled to a maximum daily delivery of 31,565 Mcf of gas; that estimated daily requirements of Applicant in the fall of 1951, its first year of operation, are 41,712 Mcf and in the fifth year 52,768 Mcf; that Texas Eastern proposes in Docket No. G–1012 to increase the capacity of its system and to construct additional pipeline facilities which will cross Applicants' pipeline and extend through the area served by Applicant; and that Tennessee Gas Transmission Company, from which company Applicant now receives its supply of gas, will permit its requirements customers to obtain natural gas from other sources of supply as well as from Tennessee, conditioned upon the grant by the Commission of certificates of public convenience and necessity to Tennessee in Docket No. G–1248 and to Northeastern Gas Transmission Company in Docket No. G–1267.

The application further states that the increased requirements of Applicant are necessitated by increase in requirements of its present industrial customers and the need of new industrial customers for supplies of natural gas. It is also stated that the area served by Applicant is an important war production center and the recent increase in war production activities has resulted in requests that Applicant supply natural gas for such uses.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of October 1950. The application and amendment thereto are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 50–8527; Filed, Sept. 28, 1950; 8:45 a. m.]

[Docket No. G–1478]

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

SEPTEMBER 25, 1950.

Take notice that New York State Natural Gas Corporation (Applicant), a New York corporation, address 30 Rockefeller Plaza, New York, New York, filed on September 14, 1950, an application for determination as to whether a certificate is required under the Natural Gas Act for the proposed construction and operation of facilities therein described, and if required, requests a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of the facilities.

Applicant proposes to transport natural gas from the Leidy Gas Field in Pennsylvania to a point on its existing transmission pipeline system in Potter County, Pennsylvania, and for such purpose to construct and operate a natural gas pipeline approximately 44.5 miles in length, including 34.5 miles of 16-inch pipe, and the remainder of the line to be 18-inch pipe. Applicant expects to take at least 60,000 Mcf of natural gas per day from the Leidy Gas Field.

The estimated cost of the proposed facilities is $1,582,708, which will be obtained by the sale of securities to its parent, Consolidated Natural Gas Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of October 1950. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25432]

ALUMINA FROM BAUXITE, ARK., TO THE EAST

APPLICATION FOR RELIEF

SEPTEMBER 26, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3908.

Commodities involved: Alumina, calcined or hydrated, carloads.

From: Bauxite, Ark.

To: Claymont, Del., Chester and Marcus Hook, Pa.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3908, Supplement 16.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[Vesting Order 15080]

CHRISTIAN GEISSLER

In re: Estate of Christian Geissler, deceased. File No. D–28–12553.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Margareta Kieninger Wolfers, Christoph Geissler, Christian (Christof) Geissler, Marie Straub, Friedrich Georg Kaiser, Karl Kaiser, Eugen Kaiser, Richard Kaiser, Georg Kaiser, Babette Hambrecht, Barbara (Babette) Blickle, and Margaretha Schrag, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or obligation of the Seattle First National Bank, Seattle 14, Washington, arising by reason of Savings Accouint No. 2631 maintained with the aforesaid bank for the Estate of Christian Geissler, deceased, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[Vesting Order 15106]

AGNES M. WITTKE

In re: Stock owned by Agnes M. Wittke. F-28-30245-D-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Agnes M. Wittke, whose last known address is % Abs. Frau Agnes Malenke geb. Wittke, Allershausen Nr. 8, Kr. Freising Bei Munchen, Bayern, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Ten (10) shares of no par value class A common stock of the Arkansas Natural Gas Corporation, Slattery Building, Shreveport, Louisiana, a corporation organized under the laws of the State of Delaware, evidenced by certificate TNYO-58145, registered in the name of Agnes M. Wittke, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8544; Filed, Sept. 28, 1950; 8:49 a. m.]

[Vesting Order 15113]

ALICE M. DEVANE KING

In re: Estate of Alice M. DeVane King, deceased. File D-28-8622; E. T. sec. 10315.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Schmitter, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. All right, title, interest and estate, both legal and equitable, of the person named in subparagraph 1 hereof in and to certain real property situated in Dallas County, State of Alabama, more particularly described in Exhibit A attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. All right, title, interest and estate, both legal and equitable, of the person named in subparagraph 1 hereof in and to certain real property situated in Hale County, State of Alabama, more particularly described in Exhibit B attached hereto and by reference made a part hereof, together with any and all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

c. All right, title and interest of the person named in subparagraph 1 hereof in and to any and all insurance policies which insure the property described in subparagraphs 2-a and 2-b hereof,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

Real property situated in Dallas County, State of Alabama, more particularly described as follows:

Parcel 1. The south half of Block R, according to map of Selma made by Julien Smith, C. E., said property being more particularly described as follows:

Begin at the intersection of the north margin of Alabama Street with the east margin of Washington Street, and from said point of beginning run northwardly along the east margin of Washington Street a distance of 180 feet, more or less, to the south margin of an alley running east and west through said Block R; thence run eastwardly along the south margin of said alley a distance of 242 feet and 3 inches, more or less, to the west margin of Franklin Street; thence run southwardly along the west margin of Franklin Street a distance of 181 feet and 6 inches, more or less, to the north margin of Alabama Avenue; thence run westwardly along the north margin of Alabama Avenue a distance of 242 feet and 3 inches, more or less, to the point of beginning.

Parcel 2. All of that part of Block 46 according to Map of Selma, Alabama, made by Julien Smith, C. E., lying north of an alley running east and west through said block which is particularly described as follows:

Begin at the intersection of the east margin of Tremont Street with the south margin of Jeff Davis Avenue and run thence southerly along the east margin of Tremont Street a distance of 360 feet and 3 inches, more or less, to the north margin of an alley; thence running eastwardly along the north margin of said alley a distance of 298 feet, more or less, to the west margin of Church Street; thence run northwardly along the west margin of Church Street a distance of 214 feet and 6 inches, more or less, to the southerly margin of Jeff Davis Avenue; thence run westwardly along the southerly margin of Jeff Davis Avenue a distance of 330 feet to the point of beginning; but excepting from the above and not included therein the following two lots or parcels of land: (1) That lot of land described in that certain deed made by Alice M. King to Roger ap C. Jones, Trustee, which deed is dated January 9, 1922, and is recorded in the Probate Office of Dallas County, Alabama, in Book 297 at page 497 and (2) that lot described in that certain deed made by Alice M. King to Mrs. Mattie S. Rowan which deed is dated January 9, 1922, and is recorded in the Probate Office of Dallas County, Alabama, in Book 297 at page 494.

Parcel 3. Lot 5 of Block 33 according to a Map of Selma, Alabama, made by Julien Smith, C. E., said lot fronting 75 feet, more or less, on the east margin of Union Street and extending back eastwardly with that uniform width a distance of 205 feet and 5 inches, more or less.

Parcel 4. The northeast quarter and the southwest quarter of Section 1, excepting that part of the northeast quarter heretofore conveyed by deed made by Frederic D. King as attorney in fact for Alice M. DeVane, King, et al. to Clyde Cox, which deed is dated February 24, 1940, and is recorded in the Probate Office of Dallas County, Alabama, in Book 338 at page 427, and by deed made by Alice M. DeVane King to S. W. Lawrence and O. W. Lawrence which deed is dated May 25, 1940, and is recorded in the Probate Office of Dallas County, Alabama, in Book 341 at page 50, and by deed made by Alice M. DeVane King to L. B. Gay which deed is dated November 14, 1940, and is recorded in the Probate Office of Dallas County, Alabama, in Book 341 at page 554; and also excepting that part condemned by Dallas County, Alabama, as a right of way, and that part conveyed to Alabama Power Company for a line right of way.

Parcel 5. All of sections 3 and 4 south and east of the Alabama River; all of Section 9 east of the Alabama River; all of Section 10 and Section 11; northeast quarter and north half of northwest quarter, Section 13, and part of north half of south half of northwest quarter of Section 13; north half of north half and part of south half of north half east of Alabama River of Section 14; all of Section 15 north and west of the Alabama River; all of Section 16 north and east of Alabama River, all of said lands lying and being in Township 16, Range 10, and containing 3,000 acres more or less, and known as the King Bend Place.

Parcel 6. Lots 1 and 2 and the west half of Lot 3 in Block 2 in southside Park, near Selma, Alabama, which said lots are more particularly described by plat recorded in Map Book 1, page 149 in the Probate Office of Dallas County, Alabama.

EXHIBIT B

Real property situated in Hale County, State of Alabama, more particularly described as follows: The east half of Section 8; west half of the northeast quarter and northeast quarter of northeast quarter of Section 17; north half of Section 18; northwest quarter of the northwest quarter and the southwest quarter of the southwest quarter of Section 10; 10 acres in south side of northeast quarter of northeast quarter of Section 15, containing 850 acres, more or less, all lying and being in Township 23, Range 4.

[Vesting Order 15114]

ALICE M. DEVANE KING

In re: Succession of Alice M. DeVane King, deceased. File D-28-12115; E. T. sec. 16320.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Schmitter, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof in and to the Succession of Alice M. DeVane King, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That the property described in subparagraph 2 hereof is in the process of administration by Frederic D. King, Dative Testamentary Executor, acting under the judicial supervision of the Sixth Judicial District Court, Madison Parish, Louisiana;

4. That the property described as follows: All right, title, interest and estate, both legal and equitable, of the person named in subparagraph 1 hereof in and to certain real property in Madison Parish, Louisiana, being that portion of the property inherited by Alice M. DeVane King from Mrs. Evelyn H. Collier by judgment recorded in Conveyance book "DD," page 229, and not sold, to-wit: The Southwest Quarter (SW-¼) of the Northwest Quarter (NW-¼) of Section Twenty-eight (28), and the fractional South Half (S-½) of Section Twenty-eight (28), in Township Eighteen (18) North, Range Ten (10) East,

containing 175 acres, more or less, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

5. That to the extent that the person named in subparagraph 1 hereof, is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15121]

N. CORNELSEN SUCS.

In re: Debt owing to N. Cornelsen Sucs, F-28-27077-C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Cornelsen also known as Marie Cornelsen and Heinz Cornelsen, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That N. Cornelsen Sucs. is a corporation, partnership, association or other business organization, organized under the laws of Honduras, whose principal place of business is located in Tegucigalpa, Honduras, and is or since the effective date of Executive Order 8389, as amended, has been controlled by or a substantial part of the stock, shares, bonds, debentures, notes, drafts, or other securities or obligations of which is or has been owned or controlled, directly or indirectly, by the aforesaid Maria Cornelsen, also known as Marie Cornelsen, and Heinz Cornelsen, and is a national of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation of United States Steel Export Company, 30 Church Street, New York 8, New York, arising out of a credit balance reflected in the blocked accounts receivable of the aforesaid United States Steel Export Company in the name of N. Cornelson Sucs., together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, N. Cornelsen Sucs., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That N. Cornelsen Sucs. is controlled by, or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany);

5. That to the extent that the persons named in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15117]

AUGUST HENRY SCHULTE

In re: Trust under the Will of August Henry Schulte, deceased. File No. D-28-11588; E. T. sec. No. 17048.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Louise Strubbe Schulte, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof, in and to the trust created under the will of August Henry Schulte, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by Henrietta Schulte, as surviving trustee, acting under the judicial supervision of the Essex County Court, Probate Division, Newark, New Jersey;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 19, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

terminations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Lawrence, Massachusetts, on June 26, 27, and 28, 1950, upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for milk in the said marketing area and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

(b) *Additional findings.* (1) It is hereby found that a pro rata assessment of handlers on the basis and at the rate set forth in § 934.71, as amended, and as hereby further amended will provide the funds necessary for the maintenance and functions of the market administrator in the administration of this order and such assessment is approved.

(2) *Effective date.* It is necessary, in the public interest, to make this order effective as hereinafter set forth. Any further delay in the effective date of the order will seriously threaten the orderly marketing and supply of milk in the Lowell-Lawrence, Massachusetts, marketing area. The need for the order is disclosed by the decision (15 F. R. 6257) which was executed September 14, 1950. The provisions of the order are well known to handlers since the public hearing was held on June 26–28, 1950. The recommended decision was published in the FEDERAL REGISTER (15 F. R. 5762) on August 23, 1950. The changes effected by this order amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the aforementioned facts, it is hereby found and determined that good cause exists for making this order effective October 1, 1950. (See section 4 (c), Administrative Procedure Act (5 U. S. C. 1003 (c).)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the volume of milk covered by such order, which is marketed within the Lowell-Lawrence, Massachusetts, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order, amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of this order, and who during the representative period (June 1950) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

DEFINITIONS

§ 934.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Lowell-Lawrence, Massachusetts, marketing area," also referred to as the "marketing area," means the territory included within the boundary lines of the following Massachusetts cities and towns:

Andover.
Billerica.
Chelmsford.
Dracut.
Lawrence.
Lowell.
Methuen.
North Andover.
Tewksbury.
Tyngsboro.
Westford.

(c) "Order," used with the name of a marketing area other than the Lowell-Lawrence, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 934.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 934.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy

farmer who is a producer under the Boston, Worcester, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who in a given month operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products other than cream are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 934.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities, and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "Receiving plant" means any plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(c) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 934.20, 934.21 and 934.22 for being considered a pool plant in that month.

(d) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(e) "City plant" means any plant which is located within 10 miles of the marketing area.

(f) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

§ 934.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing or is separated from it by centrifugal force, in all forms including sweet, sour, frozen, and aerated cream, and milk and cream mixtures.

(c) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(d) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, and buttermilk, either individually or collectively.

(e) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(f) "Outside milk" means:

(1) All milk received from dairy farmers for other markets.

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except receipts from New York order pool plants which are assigned to Class I milk pursuant to § 934.27 and from regulated plants under the Boston, Worcester, or Springfield orders.

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Boston order, without its intermediate movement to another plant.

(g) "Exempt milk" means milk of a dairy farmer's own production which he delivers in bulk to a plant and for which an equivalent quantity of packaged milk is returned to him during the same month.

MARKET ADMINISTRATOR

§ 934.10 *Designation of market administrator.* The agency for the administration of this order shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 934.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 934.12 *Duties of the market administrator.* The market administrator, in addition to the duties described in other sections of this order, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 934.71, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(c) Keep such books and records as will clearly reflect the transactions provided for in this order and surrender the same to his successor, or to such other person as the Secretary may designate;

(d) Unless otherwise directed by the Secretary, publicly disclose, within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 2 days after the date on which he is required to perform such acts, has not made reports or payments pursuant to this order.

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers statistics and information concerning the operation of this order;

(f) Promptly verify the information contained in the reports submitted by the handlers; and

(g) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 934.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 934.16, 934.17 and 934.18, the classes of utilization shall be as follows:

(a) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as or in milk; and other than as or in flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 934.16 *Classification of interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 934.25 and 934.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the Boston, Worchester, or Springfield orders, they shall be classified as Class I milk if retransferred to either of these types of regulated or unregulated plants.

§ 934.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 934.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any other milk or milk products received by a handler which is not pool milk, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 934.20 *Requirements for all receiving plants.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in § 934.21 or § 934.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler, nor as a pool plant pursuant to the provisions of the Boston, New York, Worcester, or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity, as a producer-handler.

§ 934.21 *Additional requirements for city receiving plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers.

§ 934.22 *Additional requirements for country receiving plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously from the effective date of this order through February 1951 and any country plant which thereafter is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 934.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 934.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 934.27.

(c) Receipts of fluid milk products, other than cream and skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to the City Hall in Lawrence.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to the City Hall in Lawrence.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to the City Hall in Lawrence.

(j) Receipts of skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 934.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 934.25 shall be assigned to Class II milk.

§ 934.27 *Receipts from other Federal order plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Worcester or Springfield orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products other than cream at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 934.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the

quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 934.25, 934.26 and 934.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 934.15, 934.16 and 934.17.

§ 934.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 934.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 934.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to each producer with the prices, deductions, and charges involved.

§ 934.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 934.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator finds necessary for the purpose specified in this section.

§ 934.36 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASS PRICES

§ 934.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest reported figures available on the next succeeding work day shall be used:

(a) Divide by .98 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the year 1926 as the base period.

(b) Divide by 3 the sum of the three latest monthly indexes of department store sales in the Boston Federal Reserve District adjusted for seasonal variations, as reported by the Federal Reserve System, with the years 1935–39 as the base period, and divide the result so obtained by 1.26.

(c) Compute an index of grain-labor costs in the Boston milkshed in the following manner:

(1) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed, as reported by the United States Department of Agriculture, divide by 0.5044 and multiply by 0.6.

(2) Compute the weighted average of the monthly composite farm wage rates for the latest available month for Maine, Massachusetts, New Hampshire, and Vermont, as reported by the United States Department of Agriculture, divide by 0.5952, and multiply by 0.4. In computing the weighted average, weight the respective rates as follows: Maine, 10; Massachusetts, 6; New Hampshire, 7; and Vermont, 77.

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to the preceding paragraphs of this section. Express the result as a whole number by dropping fractions of less than one-half or by raising fractions of one-half or more to the next whole number. The result shall be known as the formula index.

(e) Subject to the succeeding paragraphs of this section, the Class I price per hundredweight at city plants shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Formula index	Class I Price per Hundredweight		
	Jan.-Feb.-Mar.-July-Aug.-Sept.	Apr.-May-June	Oct.-Nov.-Dec.
50–56	$2.21	$1.77	$2.65
57–63	2.43	1.99	2.87
64–70	2.65	2.21	3.09
71–77	2.87	2.43	3.31
78–84	3.09	2.65	3.53
85–90	3.31	2.87	3.75
91–97	3.53	3.09	3.97
98–104	3.75	3.31	4.19
105–111	3.97	3.53	4.41
112–118	4.19	3.75	4.63
119–125	4.41	3.97	4.85
126–132	4.63	4.19	5.07
133–139	4.85	4.41	5.29
140–146	5.07	4.63	5.51
147–152	5.29	4.85	5.73
153–159	5.51	5.07	5.95
160–166	5.73	5.29	6.17
167–173	5.95	5.51	6.39
174–180	6.17	5.73	6.61
181–187	6.39	5.95	6.83
188–194	6.61	6.17	7.05

If the formula index is more than 194, the price shall be increased at the same rate as would result from further extension of this table at the rate of extension in the six highest index brackets.

(f) The Class I price shall be 44 cents more than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, less than 33 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents above the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent increase as will result in a Class I price equal to the Class I price for the same month of the preceding year plus 88 cents.

(g) The Class I price shall be 44 cents less than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, more than 41 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents below the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent reduction as will result in a Class I price equal to the Class I price for the same month of the preceding year minus 88 cents.

(h) Notwithstanding the provisions of the preceding paragraphs of this section, the Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(i) The Class I price determined under the preceding paragraphs of this section shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff M No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section.

(a) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month during which such milk is delivered, and multiply the result by 3.7.

(b) Multiply by 7.5 the average price per pound of roller process nonfat dry milk solids for human consumption, in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is received.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	Amount (cents)
January and February	57.5
March and April	69.5
May and June	75.5
July	69.5
August and September	63.5
October, November, and December	57.5

§ 934.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 934.40 and 934.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Lawrence, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Lawrence from the nearest railway shipping point for such plant, whichever is shorter. The applicable differentials shall be those set forth in the following table, as adjusted pursuant to § 934.43:

A Zone (miles)	B Class I price differentials (cents per cwt.)	C Class II price differentials (cents per cwt.)
Less than 40½	−17.0	−2.0
41–50	−41.5	−2.0
51–60	−42.5	−3.0
61–70	−43.0	−3.0
71–80	−44.5	−3.0
81–90	−45.0	−3.0
91–100	−45.5	−3.0
101–110	−45.5	−4.5
111–120	−47.0	−4.5
121–130	−47.0	−4.5
131–140	−48.0	−4.5
141–150	−50.5	−4.5
151–160	−52.0	−6.0
161–170	−52.0	−6.0
171–180	−54.5	−6.0
181–190	−54.5	−6.0
191–200	−56.0	−6.0
201–210	−56.0	−7.0
211–220	−60.0	−7.0
221–230	−60.5	−7.0
231–240	−61.5	−7.0
241–250	−61.5	−7.0
251–260	−62.5	−8.0
261–270	−63.0	−8.0
271–280	−63.5	−8.0
281–290	−64.5	−8.0
291 and over	−65.5	−8.0

§ 934.43 *Automatic changes in country plant differentials.* In case the rail tariff for the transportation of milk in 40-quart cans in carlots of 200 or more cans or for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 6 and supplements thereto or revisions thereof, is increased or decreased, the country plant price differentials set forth in the table in § 934.42 shall be correspondingly increased or decreased in the manner and to the extent provided in this section. Such adjustment shall be effective beginning with the first complete month in which the changes in rail tariffs apply. If such rail tariff on milk is changed, the differentials set forth in Column B of the table shall be adjusted to the extent of any such change. If such rail tariff on cream is changed, the differentials set forth in Column C of the table shall be adjusted to the extent of any such change divided by 9.05. Adjustment shall be made to the nearest one-half cent per hundredweight.

§ 934.44 *Use of equivalent prices in formulas.* If for any reason a price, index, or wage rate specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 934.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices, as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

BLENDED PRICES TO PRODUCERS

§ 934.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 934.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 934.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 934.40, 934.41, and 934.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 934.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 934.25 (f), (i), and (k) by the price applicable pursuant to §§ 934.41 and 934.42.

§ 934.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk, computed pursuant to § 934.50, for each pool handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 934.61 (b) for milk received during each month since the effective date of the most recent amendment to this order;

(b) Add the total amount of payments required from handlers pursuant to § 934.65 and from buyer-handlers and producer-handlers pursuant to § 934.66;

(c) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 934.61, 934.62, 934.65, 934.66, and 934.67;

(d) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 934.64;

(e) Divide by the total quantity of producer milk for which a value is determined pursuant to paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 934.61 and 934.62. This result, which is the minimum price payable to producers for milk containing 3.7 percent butterfat received from them at city plants, shall be known as the basic blended price.

§ 934.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the country plant price differentials pursuant to § 934.64; and

(c) The names of pool handlers, designating those whose milk is not included in the computations.

PAYMENTS

§ 934.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this paragraph shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 934.61 (a).

§ 934.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 934.50, as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 934.63 and 934.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 934.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 934.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 934.62 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to §§ 934.61 (b), 934.65, and 934.66, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 934.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 934.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10.

§ 934.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 934.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 934.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located more than 40 miles from the City Hall in Lawrence, but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(b) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the City Hall in Lawrence, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 934.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42, effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42 effective for the location or freight mileage zone of the handler's plant.

§ 934.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Worcester, or Springfield order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the Class I price pursuant to §§ 934.40 and 934.42 effective for the location or freight mileage zone of the plant from which the Class I milk was received by the butterfat differential calculated pursuant to § 934.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 934.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 934.61, 934.62, 934.65, and 934.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

§ 934.68 *Statements to producers.* In making the payments to producers prescribed by § 934.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 934.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 934.69 and 934.70, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

§ 934.69 *Marketing service deductions; nonmembers of an association of producers.* In making payments to producers pursuant to § 934.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 934.70, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 25th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 934.70 *Marketing service deductions; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 934.69, each handler shall, in lieu of the deductions specified in § 934.69, make such deductions from payments made pursuant to § 934.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deduction to such associations.

§ 934.71 *Expense of administration.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this order, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

§ 934.72 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable.

Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books or records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 934.80 *Effective time.* The provisions of this order, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or temminated pursuant to § 934.81.

§ 934.81 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 934.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 934.83 *Liquidation after suspension or termination.* Under the suspension or termination of any or all provisions of this order, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this order, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 934.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this order.

Issued at Washington, D. C., this 27th day of September 1950, to be effective on and after the 1st day of October 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8611; Filed, Sept. 29, 1950; 8:56 a. m.]

[Lemon Reg. 350]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.457 *Lemon Regulation 350*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937 as amended (7 U. S. C. 691 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said

amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 27, 1950. Such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 1, 1950, and ending at 12:01 a. m., P. s. t., October 8, 1950, is hereby fixed as follows:

(i) District 1: unlimited movement;

(ii) District 2: 200 carloads;

(iii) District 3: unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 349 (15 F. R. 6435), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 28th day of September 1950.

[SEAL] C. F. KUNKEL,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 50-8644; Filed, Sept. 29, 1950; 9:18 a. m.]

[Orange Reg. 342]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.488 *Orange Regulation 342*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended, (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on September 28, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 1, 1950, and ending at 12:01 a. m., P. s. t., October 8, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: unlimited movement; (*b*) Prorate District No. 2: 1,200 carloads; (*c*) Prorate District No. 3: unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: no movement; (*b*) Prorate District No. 2: no movement; (*c*) Prorate District No. 3: no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478, 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 29th day of September 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5346]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

JOSEPH H. MEYER BROS.

Subpart—*Advertising falsely or misleadingly:* § 3.30 *Composition of goods;* § 3.135 *Nature—Product or service;* § 3.235 *Source or origin—Place—Imported product or parts as domestic.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure.* § 3.1860 *Imported product or parts as domestic.* Subpart—*Using misleading name—Goods:* § 3.2315 *Nature.* I. In connection with the offering for sale, sale or distribution in commerce, of imitation pearls, whether offered for sale and sold as necklaces or in other articles of jewelry, representing by the use of the word "pearls" or any other word or words of similar import or meaning, or in any other manner, that said imitation pearls are genuine pearls; and, II, in connection with the offering for sale, sale, or distribution in commerce, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imitation pearls, (1) representing by the use of the words and letters "Made in U. S. A.," or otherwise, that said products are composed entirely of domestic materials; or, (2) offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited, subject to the provision, however, as respects that part of the order pertaining to the use of the word "pearls", etc., that the foregoing shall not be construed to prohibit the use of the word "pearls" to describe the appearance of said imitation pearls if, wherever used, the word "pearls" is immediately preceded, in equally conspicuous type, by the word "imitation" or the word "simulated," or other word of similar import or meaning, so as to clearly indicate that said imitation pearls are not genuine pearls but imitations thereof.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Joseph H. Meyer Bros., Docket 5346, August 25, 1950]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, and a stipulation as to the facts entered into by and between Daniel J. Murphy, Assistant Chief Trial Counsel for the Commission, and the respondent, in which stipulation the respondent waived all intervening procedure and further hearing as to said facts; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Joseph H. Meyer Bros., a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of imitation pearls, whether offered for sale and sold as necklaces or in other articles of jewelry, do forthwith cease and desist from:

(1) Representing by the use of the word "pearls" or any other word or words of similar import or meaning, or in any other manner, that said imitation pearls are genuine pearls: *Provided, however*, That the foregoing shall not be construed to prohibit the use of the word "pearls" to describe the appearance of said imitation pearls if, wherever used, the word "pearls" is im-

mediately preceded, in equally conspicuous type, by the word "imitation" or the word "simulated", or other word of similar import or meaning, so as to clearly indicate that said imitation pearls are not genuine pearls but imitations thereof.

It is further ordered, That the respondent Joseph H. Meyer Bros., a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

(1) Representing by the use of the words and letters "Made in U. S. A.", or otherwise, that said products are composed entirely of domestic materials.

(2) Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith the country of origin of such imported imitation pearls.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

Issued: August 25, 1950.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CORO, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.135 *Nature—Product or service.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* Subpart—*Using misleading name—Goods:* § 3.2315 *Nature.* I. In connection with the offering for sale, sale, or distribution in commerce, of imitation pearls, whether offered for sale and sold as necklaces or in other articles of jewelry, representing by the use of the word "pearls" or any other word or words of similar import or meaning, or in any other manner, that said imitation pearls are genuine pearls, and, II, in connection with the offering for sale, sale, or distribution in commerce, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited, subject to the provision, however, as respects that part of the order pertaining to the use of the word "pearls," etc., that the foregoing shall not be construed to prohibit the use of the word "pearls" to describe the appearance of said imitation pearls if, wherever used, the word "pearls" is immediately preceded, in equally conspicuous type, by the word "imitation" or the word "simulated" or other word of similar import or meaning, so as to clearly indicate that said imitation pearls are not genuine pearls but imitations thereof.

(Sec. 6, 38 Stat. 722.15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C., sec. 45) [Cease and desist order, Coro, Inc. et al., Docket 5395, August 25, 1950]

In the Matter of Coro, Inc., a Corporation; Coro, Inc., of Rhode Island, a Corporation; and Gerald E. Rosenberger, Carl Rosenberger, and Henry Rosenblatt, Individually and as Officers of Said Corporations

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondents, stipulations entered into by and between Daniel J. Murphy, Assistant Chief Trial Counsel for the Commission, and counsel for the respondents, testimony and other evidence introduced before a trial examiner of the Commission in the matter of L. Heller & Son, Inc., et al. Docket No. 5358, recommended decision of the trial examiner and exceptions thereto, and briefs and oral argument of counsel in said Heller case; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the corporate respondents, Coro, Inc., and Coro, Inc., of Rhode Island, and their officers, agents, representatives, and employees, and the individual respondents, Gerald E. Rosenberger, Carl Rosenberger, and Henry Rosenblatt, and their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

By the Commission.

lated," or other word of similar import or meaning, so as to clearly indicate that said imitation pearls are not genuine pearls but imitations thereof.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Louis Detkin et al. trading as Royal Bead Novelty Company, Docket 5374, August 25, 1950]

In the Matter of Louis Detkin and Lillian Detkin, Individually and as Copartners, Trading as Royal Bead Novelty Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the respondents' answer thereto, certain stipulations entered into by and between counsel, the testimony and other evidence introduced before a trial examiner of the Commission in the matter of L. Heller & Son, Inc., et al., Docket No. 5358, the recommended decision of the trial examiner herein and exceptions thereto, and briefs and oral arguments of counsel in the aforesaid Heller case, and the Commission having disposed of the exceptions to the trial examiner's recommended decision and having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondents Louis Detkin and Lillian Detkin, individually and as co-partners trading as Royal Bead Novelty Company, or trading under any other name or trade designation, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of imitation pearls, whether offered for sale or sold as necklaces or in other articles of jewelry, do forthwith cease and desist from:

(1) Representing by the use of the word "pearls" or any other word or words of similar import or meaning, or in any other manner, that said imitation pearls are genuine pearls; *Provided, however,* That the foregoing shall not be construed to prohibit the use of the word "pearls" to describe the appearance of said imitation pearls if, wherever used, the word "pearls" is immediately preceded, in equally conspicuous type, by the word "imitation" or the word "simulated", or other word of similar import or meaning, so as to clearly indicate that said imitation pearls are not genuine pearls but imitations thereof.

It is further ordered, That said respondents and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

(1) Representing by the use of the words "American Made," or otherwise, that said products are composed entirely of domestic materials.

(2) Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

[Docket 5347]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

DAVID GENSER ET AL. TRADING AS GENSER MFG. CO.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale or distribution in commerce, of necklaces of imported imitation pearls or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpreta or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, David Genser et al., trading as Genser Manufacturing Company, Docket 5347, August 25, 1950]

In the Matter of David Genser, Max Genser, Ida Genser, Ada Genser, Wallace Genser, and Shirley R. Cohen, Co-partners Trading as Genser Manufacturing Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the respondents' answer thereto, certain stipulations entered into by and between counsel, the testimony and other evidence introduced before a trial examiner of the Commission in the matter of L. Heller & Son, Inc., et al., Docket No. 5358, the recommended decision of the trial examiner herein and exceptions thereto, and briefs and oral arguments of counsel in the aforesaid Heller case, and the Commission having disposed of the exceptions to the trial examiner's recommended decision and having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, David Genser, Max Genser, Ida Genser, Ada Genser, Wallace Genser and Shirley R. Cohen, individually and as co-partners trading as Genser Manufacturing Company, or trading under any other name or trade designation, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls or other articles of jewelry composed in substantial part of imported imitation pearls do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

L. HELLER & SONS, INC., ET AL.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale, or distribution in commerce, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, L. Heller & Son, Inc. et al., Docket 5358, August 25, 1950]

In the Matter of L. Heller & Son, Inc., a Corporation; and The Heller Deltah Company, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, testimony and other evidence introduced before a trial examiner of the Commission theretofore duly designated by it, recommended decision of the trial examiner and exceptions thereto, and briefs, oral argument, and reargument in support of and in opposition to the complaint; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, L. Heller & Son, Inc., and The Heller Deltah Company, Inc., corporations, their officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

D. LISNER & CO.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale or distribution in commerce, of necklaces of imported imitation pearls or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719 as amended; 15 U. S. C. 45) [Cease and desist order, D. Lisner & Company, Docket 5349, August 25, 1950]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, stipulations between counsel, testimony and other evidence introduced before a trial examiner of the Commission in the matter of L. Heller & Son, Inc., et al., Docket No. 5358, recommended decision of the trial examiner and exceptions thereto, and briefs and oral argument of counsel in said Heller case; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, D. Lisner & Company, a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

Issued: August 25, 1950.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

COLONIAL BEAD CO., INC. ET AL.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale, or distribution in commerce, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Colonial Bead Company, Inc. et al., Docket 5371, August 25, 1950]

In the Matter of Colonial Bead Company, Inc., a Corporation, and Abraham Abron and Abraham Goldenberg, Individually and as Officers of Said Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondents, stipulations between counsel, testimony and other evidence introduced before a trial examiner of the Commission in the matter of L. Heller & Son, Inc., et al., Docket No. 5358, recommended decision of the trial examiner and exceptions thereto, and briefs and oral argument of counsel in said Heller case; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the corporate respondent, Colonial Bead Company, Inc., and its officers, agents, representatives, and employees, and the individual respondents, Abraham Abron and Abraham Goldenberg, and their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

LAWRENCE B. DOTTENHEIM ET AL. TRADING AS VICTOR IMPORTING COMPANY

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* In connection with the offering for sale, sale, or distribution in commerce, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec, 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Lawrence B. Dottenheim et al., trading as Victor Importing Company, Docket 5403, August 25, 1950]

In the Matter of Lawrence B. Dottenheim, Mark Dottenheim, Beatrice Dottenheim, and May Dottenheim, Individually and Trading as Victor Importing Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondents, testimony and other evidence introduced before a trial examiner of the Commission theretofore duly

designated by it, recommended decision of the trial examiner, to which no exceptions were filed, brief in support of the allegations of the complaint (no brief having been filed on behalf of the respondents and oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Lawrence B. Dottenheim, Mark Dottenheim, Beatrice Dottenheim, and May Dottenheim, individually and trading as Victor Importing Company, or trading under any other name, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of necklaces of imported imitation pearls, or other articles of jewelry composed in substantial part of imported imitation pearls, do forthwith cease and desist from:

Offering for sale or selling said products without affirmatively and clearly disclosing thereon, or in immediate connection therewith, the country of origin of such imported imitation pearls.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: August 25, 1950.

By the Commission.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter I—Home Loan Bank Board, Housing and Home Finance Agency

Subchapter D—Federal Savings and Loan Insurance Corporation

[No. 3527]

PART 161—DEFINITIONS

INCREASE IN INSURANCE COVERAGE TO $10,000

Resolved that, in conformity with the provisions of Public Law No. 797 of the 81st Congress, approved September 21, 1950, §§ 161.3, 161.4, 161.5 and 161.6 of the rules and regulations for insurance of accounts (24 CFR 161.3, 161.4, 161.5 and 161.6) are hereby amended, effective September 21, 1950, by inserting "$10,000" in lieu of "$5,000" wherever such figure appears in said sections, so that such sections shall read as follows:

§ 161.3 *Joint account; community property.* An insured account held jointly or as community property is insured in the same manner as an insured account held by a partnership, up to but not exceeding $10,000 jointly to the holders thereof. Each of such holders may in addition hold a separate account in the institution, which is insured up to but not exceeding $10,000.

§ 161.4 *Insured account.* An "insured account" is a withdrawable or repurchasable share, investment certificate, deposit, or savings account held by an insured member in an institution insured by the Corporation, up to but not exceeding $10,000 to any insured member. Accounts which by the terms of the contract of the holder with the institution or by provisions of state law cannot be withdrawn or the value thereof paid to the holder until all of the liabilities, including other classes of share liabilities, of the institution have been fully liquidated and paid upon the winding up of the institution are not insurable, and are hereinafter referred to as "nonwithdrawable accounts".

§ 161.5 *Account of an insured member.* An "account of an insured member" is the total amount credited (or when dividends are not credited, apportionable after having been apportioned to a series) to any member in withdrawable or repurchasable accounts, whether or not such accounts are subject to any pledge, whether or not such accounts are insured in full, and whether or not dividends are subject to recapture. The total insurance which any insured member may have in any one insured institution is $10,000, whether the insured member has one or more insurable accounts. If such insurable accounts are of different character, the Corporation reserves the right to determine upon payment of insurance which of such accounts shall carry the $10,000 aggregate of insurance.

§ 161.6 *All insured accounts.* The term "all insured accounts" means the aggregate of all insured accounts of $10,000 or under, plus the sum of $10,000 for each insured account of more than $10,000.

Resolved further that these amendments being required by reason of amendments to Title IV of the National Housing Act, as amended, effected by Acts of Congress approved June 27, 1950, and September 21, 1950 (Pub. Laws Nos. 576 and 797, respectively, 81st Cong.) increasing the maximum insurance coverage of an insured member to $10,000, the Home Loan Bank Board hereby finds that they may be adopted under the provisions of section 108.11 of the General Regulations of the Home Loan Bank Board (24 CFR 108.11) and that deferment of the effective date would be ineffective.

(Sec. 402, 48 Stat. 1256, as amended, Reorg. Plan No. 3 of 1947, 12 F. R. 4981, 3 CFR 1947 Supp., 61 Stat. 954; 12 U. S. C. 1725, 5 U. S. C. 133y-16. Interpret or apply secs. 401, 403, 405, 48 Stat. 1255, 1257, as amended, 1259, as amended, sec. 9, Pub. Law No. 576, 81st Cong., sec. 2, Pub. Law No. 797, 81st Cong., 12 U. S. C. 1724, 1726, 1728)

By the Home Loan Bank Board.

[SEAL] J. FRANCIS MOORE, *Secretary.*

[F. R. Doc. 50-8585; Filed, Sept. 29, 1950; 8:51 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 17—MEDICAL

OUTPATIENT TREATMENT

In § 17.60 (a), subparagraph (3) is revised and a new subparagraph (8) is added, as follows:

§ 17.60 *Outpatient treatment.* (a) • • •

(3) Persons who have elected, under Public Law 314, 78th Congress, to receive disability compensation from the Veterans Administration for a service-connected disease or injury and who are in need of treatment for said service-connected compensable disease or injury.

• • • • • •

(8) Persons who served in the active military or naval forces during the Spanish-American War, Philippine Insurrection, or Boxer Rebellion (April 21, 1898 to July 4, 1902 or to July 15, 1903 if the service was in Moro province) when discharged from such service under other than dishonorable conditions who are in need of outpatient treatment.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply 45 Stat. 735, as amended, secs. 1, 6, 48 Stat. 9, 301, 53 Stat. 652, 57 Stat. 21, 60 Stat. 526, Public Law 791, 81st Congress; 38 U. S. C. 488 note, 488a, 581, 582, 706, 706a, Ch. 12 note)

This regulation effective September 30, 1950.

[SEAL] O. W. CLARK, *Deputy Administrator.*

[F. R. Doc. 50-8578; Filed, Sept. 29, 1950; 8:49 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

PROVISIONAL REGULATIONS

A new § 21.187 is added as follows:

§ 21.187 *Application of the provisions of the Servicemen's Readjustment Act, Title II, as amended by section 6, Public Law 610, 81st Congress, approved July 13, 1950.* (a) Paragraph 6 of Part VIII, Veterans Regulation No. 1 (a), as amended (38 U. S. C. ch. 12), is amended by section 6, Public Law 610, 81st Congress, by adding subparagraph (b) as follows:

(b) For the purpose of this part, a trade or technical course, offered on a clock-hour basis below the college level, involving shop practice as an integral part thereof, shall be considered a full-time course when a minimum of thirty hours per week of attendance is required with not more than thirty minutes of rest period per day allowed. A course offered on a clock-hour basis below the college level in which theoretical or classroom instruction predominates shall be considered a full-time course when a minimum of twenty-five hours per week net of instruction is required. The provisions of the first sentence of this subparagraph shall not be applicable prior to July 1, 1951, in the

case of any school or institution in which, for a period of one year immediately preceding the date of enactment of the Veterans Education and Training Amendments of 1950, a minimum of twenty-five hours per week of attendance was required for any course in compliance with regulations of the Veterans' Administration.

(b) A trade and technical course offered on a clock-hour basis below the college level, involving shop practice as an integral part thereof, will be considered a full-time course when a minimum of 30 hours per week of attendance in the school is required with not more than 30 minutes rest period per day allowed. Determinations of the extent of the part-time training will be in accordance with the following schedule:

(1) Less than 30 but not less than 22 clock-hours of attendance per week—¾ time.

(2) Less than 22 but not less than 15 clock-hours of attendance per week—½ time.

(3) Less than 15 clock-hours of attendance per week—¼ time, but no subsistence allowance will be payable for fewer than 7 clock-hours of attendance per week.

(c) For the purposes of section 6, Public Law 610 "a trade or technical course offered on a clock-hour basis below the college level, involving shop practice as an integral part thereof," shall be considered to include only those courses of training for occupations which are customarily learned through apprenticeships or other training on-the-job, that is, the skilled, semi-skilled and unskilled occupations as listed under first digits 4 through 9, inclusive, in the second edition of the Dictionary of Occupational Titles, dated March 1949.

(d) The foregoing is effective October 1, 1950 as to all courses in those schools which commenced operation subsequent to July 13, 1949, and July 1, 1951 as to any new or existing course in those schools which have been in operation for a period of one year prior to July 13, 1950.

(e) Effective October 1, 1950, a course offered on a clock-hour basis below the college level in which theoretical or classroom instruction predominates shall be considered a full-time course when a minimum of 25 hours per week net of instruction is required (exclusive of shop practice periods and any rest periods but not excluding regularly scheduled supervised study periods or customary 5 or 10 minute intervals between classes for the purpose of changing student or teacher stations as required by the school). Determinations of the extent of part-time training will be in accordance with the following schedule:

(1) Less than 25 but not less than 18 clock-hours of instruction per week—¾ time.

(2) Less than 18 but not less than 12 clock-hours of instruction per week—½ time.

(3) Less than 12 clock-hours of instruction per week—¼ time, but no subsistence allowance is payable for less than 6 clock-hours of instruction per week. (Instruction 2, Public Law 610, 81st Congress)

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 11a, 694, 707)

[SEAL] O. W. CLARK,
Deputy Administrator.

[F. R. Doc. 50-8475; Filed, Sept. 29, 1950; 9:00 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART C—TRAINING FACILITIES

PROVISIONAL REGULATIONS

1. Section 21.690 is hereby canceled.

§ 21.690 *Application of the provisions of Public Law 266, 81st Congress, prohibiting expenditure of Government funds for courses of education or training until certain requirements are met.* [Canceled.]

2. A new § 21.691 is added as follows:

§ 21.691 *Application of the provisions of the Servicemen's Readjustment Act, Title II, as amended by section 2, Public Law 610, 81st Congress, approved July 13, 1950*—(a) *Customary cost of tuition.* (1) The terms "customary cost of tuition," "customary charges," "customary tuition charges" or "total tuition charges" as used in the first paragraph of section 2, Public Law 610, 81st Congress, include all tuition charges for the course including tuition, fees or any other charges in the nature of tuition designed to compensate the institution for its expenses in furnishing the course of instruction, but do not include charges for items of books, tools, and supplies required to be owned personally by all trainees taking the course, the cost of which is not included in the tuition rate. Thus, the charges for books, tools and supplies are not considered a part of the "customary charges" unless the cost of these items is included in the costs on which the determination of a fair and reasonable tuition rate is based or the contract rate includes books and supplies as an integral part of the cost for instruction, and the contract does not provide for separate billing and payment therefor. Notwithstanding the foregoing where the cost of consumable instructional supplies was included in the tuition rate determined for the most recent contract, and that contract contains a provision requiring a minimum amount of such supplies to be furnished each veteran enrollee, such contract provisions will be enforced even though the tuition rate in such contract is frozen.

(2) Except for contracts and payments for courses of less than 30 weeks, correspondence courses, institutional on-farm training courses and adjusted tuition payments to non-profit institutions pursuant to the last proviso of paragraph 5, Title II, Part VIII, Public Law 346, 78th Congress, as amended, the provisions of section 2, Public Law 610, 81st Congress, freeze as the "customary cost of tuition" the tuition rate established in the most recent contract where one or more contracts under Public Law 16, Public Law 346, or any other agreement in writing, on the basis of which tuition payments have been made from the Treasury of the United States, have been entered into in 2 successive years for the same courses. While Public Law 610 has no direct application to Public Law 16, the frozen rates under Public Law 610 may be paid under Public Law 16 if found fair and reasonable.

(3) Contracts or other agreements in writing will be considered to have been entered into in 2 successive years when one contract (or more than one) has been entered into over a period of any 2 successive years (whether school years, calendar years or fiscal years), i. e., one or more contracts covering a period of more than 12 months. For example, if the first contract covers a period of 3 months and the second contract covers a period of 12 months, the rate established by the second contract, if it is the most recent, will be the customary cost of tuition since the 2 contracts cover a period of more than 12 months. Likewise, one contract for 6 months and a subsequent contract for a 7 months' period would establish the frozen rate as of the effective date of the 7 month period contract since the two combined cover a period of more than 12 months.

(4) In any case where contracts have been entered into prior to July 13, 1950, for 2 successive years, as set forth in subparagraph (3) of this paragraph, the tuition rate payable from July 13, 1950 on is the rate of the latest contract, even though that contract was in 1948 and was not on a negotiated or cost data rate basis, unless the frozen rate was established under Public Law 266, 81st Congress, in which event the frozen rate will be payable from the date of such establishment under Public Law 266, 81st Congress. The effective date of the frozen rate established by contract for new schools or new courses after July 13, 1950, will be the date as of which such rate is frozen under the law and this section.

(5) For any period on or after August 24, 1949 and prior to July 13, 1950 the Veterans' Administration, in the absence of an agreed contract rate, will prescribe and pay a fair and reasonable rate, subject to an appeal to the Veterans' Education Appeals Board, and for any period after July 13, 1950, in the absence of either a frozen rate or an agreed contract rate, the Veterans' Administration will prescribe and pay a fair and reasonable rate.

(6) For any period prior to August 24, 1949 where a customary "cost of tuition" did not exist the regulations require the execution of a contract before any payments are made so that payments covering services rendered prior to August 24, 1949 must be on a negotiated basis and must be covered by a contract.

(7) Where an institution having a customary cost of tuition (whether established by the definition or by the "frozen" rate provision of section 2, Public Law 610, 81st Congress) for an existing course subsequent to July 13, 1950 revises or improves the existing course (or establishes a new related course) of substantially the same length and character, the revised or related course will be subject to the same customary cost of tuition rate. If the revised or improved course is not of approximately the same length as the former course, or if the new related course is not of approximately the same length as the existing course to which the new one is related, a new fair and reasonable rate must be established pursuant to existing regulations.

(8) For any contract period beginning on or subsequent to July 13, 1950, where it is mutually agreed between the Veterans' Administration and the institution that contract negotiations should continue but cannot be concluded within 30 days subsequent to the expiration of the previous contract, the regional office will make interim payments, in amounts determined by the manager to be fair and reasonable to the school and the Government but in no event less than 75 percent of the most recent rate paid to the school, if any. When contract negotiations are finally concluded the contract rate will be effective as of the day following the termination of the previous contract. If a contract rate is not finally agreed upon, the institution will be advised of the fair and reasonable determination of the Veterans' Administration and the fair and reasonable rate determined by the Veterans' Administration will be paid from the date of the previous contract, subject to any appeal rights of the institution and subject to the 75 percent interim payment arrangement during the pendency of any appeal.

(9) Subsequent to July 13, 1950, where an institution appeals a fair and reasonable rate determination to the Veterans' Education Appeals Board, the payments to such institution during the pendency of the appeal will be considered to be interim payments and will be based upon 75 percent of the most recent rate paid to the school prior to the acknowledgment of the appeal by the Veterans' Education Appeals Board or the rate determined to be fair and reasonable by the Veterans' Administration, whichever be the greater. In the absence of a frozen rate, the pendency of an appeal and payment of the 75 percent interim payment or the fair and reasonable rate without a contract does not preclude the negotiation of a contract based upon an agreed rate, such contract to be effective as of the termination date of the prior contract and to supersede the rate previously determined by the Veterans' Administration to be fair and reasonable or the 75 percent rate, whichever prevails. In any case where the contract, if final, would establish a "frozen" rate, the rate finally determined by the Board on appeal or review will be the frozen rate.

(10) If a rate prescribed pursuant to Public Law 266, 81st Congress was in effect on July 13, 1950, it will continue to be paid until a contract rate is established, unless such rate is superseded by a frozen rate as of July 13, 1950. If, as in the case of a new school or course, there is no "last rate paid", an interim agreed rate pending determination of the contract rate may be paid without prejudice to either party. Subject to the provisions of subparagraphs (4) and (5) of this paragraph, a frozen rate is payable from the end of the period covered by the contract establishing such rate, whether under Public Law 266 or Public Law 610, and the renewal of the contract is not required, but in all cases where it is agreeable to the institution the contracts should be renewed so as to set forth clearly other contractual provisions as well as the frozen tuition rate.

(11) This subparagraph concerns special cases involving surplus or deficit. Where contracts have been or in the future are entered into with nonprofit institutions and an adjustment in the tuition rate to take into consideration a surplus or deficit has been or will be made, the customary cost of tuition established by any such contract will be the fair and reasonable rate excluding the adjustments for surplus or deficit. Surplus or deficit adjustments will be made at the termination of any contract which was in effect on July 13, 1950, where such contract was made with the understanding that the surplus or deficit would be so adjusted. Surplus or deficit adjustments will not be made with respect to any contracts entered into with an effective date subsequent to July 13, 1950, where the tuition rate contained in such contract is a "frozen rate".

(12) The provisions of section 2, Public Law 610, 81st Congress, do not apply to correspondence courses, short, intensive courses of less than 30 weeks, institutional on-farm courses, or institutions of higher learning.

(b) *Interim payments during negotiations for a contract or the pendency of an appeal.* Where an institution is entitled to receive interim payments, such interim payments will be made, upon appropriate claim therefor, at the amounts determined to be fair and reasonable tuition for the course, provided that in no case shall the interim payments during the period of contract negotiations or the pendency of an appeal be at a rate less than 75 percent of the most recent rate paid to the school immediately prior to such contract negotiations or the filing of the appeal.

(c) *Appeals.* Section 2, Public Law 610, provides for an appeal to the Veterans' Education Appeals Board and for review of any contract covering a period subsequent to August 24, 1949.

(d) *Special considerations involving payments to institutions and charges against entitlement.* When, pursuant to this section, a retroactive increase in the rates of tuition is authorized and required because of action of the Veterans' Education Appeals Board or the negotiation of a contract superseding an interim rate or a fair and reasonable determination, the amount payable as such to the institution in behalf of an individual veteran will be limited to the rate of $500 for an ordinary school year unless the veteran has elected to have excess charges paid by the Veterans' Administration, in which event the amount payable to the institution may not in any case exceed the amount represented by the dollar value of the veteran's unencumbered remaining entitlement. (Instruction 1, Public Law 610, 81st Congress)

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 11a, 694, 707)

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

FINLAND AND FRENCH SETTLEMENTS IN INDIA

EDITORIAL NOTE: In Federal Register Document 50-8365, appearing on page 6474 of the issue for Tuesday, September 26, 1950, paragraph (b) (4-a) of § 127.251 should be designated paragraph (b) (3a).

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 120—ANNUAL, SPECIAL, OR PERIODICAL REPORTS

ANALYSIS OF CHARGES AND CREDITS FOR PROTECTIVE SERVICE

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 20th day of September A. D. 1950.

The matter of a segregation of revenues and expenses relating to services rendered for the protection of perishable freight being under consideration; and,

It appearing, that every steam railroad subject to the Interstate Commerce Act and having annual operating revenues above $1,000,000 is required to file periodical quarterly reports of charges and credits for such protective services pursuant to an order (§ 120.75) entered November 22, 1948, and in the form prescribed by that order; and good cause appearing:

It is ordered, That § 120.75 (order of November 22, 1948), be, and it is hereby, vacated and set aside; and,

It is further ordered, That quarterly reports to be filed pursuant to that order be, and they are hereby, waived.

(Sec. 12, 24 Stat. 383, as amended, sec. 201, 54 Stat. 933; 49 U. S. C. 12, 904. Interprets or applies sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U. S. C. 20, 913)

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

CIGAR-FILLER AND CIGAR-BINDER TOBACCO, AND CIGAR-FILLER TOBACCO AND MARYLAND TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF TOBACCO FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR THE 1951–52 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for the 1951 crops of Maryland tobacco, cigar-filler and cigar-binder tobacco, and cigar-filler tobacco if marketing quotas are in effect during the 1951–52 marketing year for any or all of such kinds of tobacco.

The applicability of the regulations to be issued for any such kind of tobacco will be contingent upon the proclamation of a national marketing quota for such kind of tobacco pursuant to section 312 of the act (7 U. S. C. 1312), and upon approval of quotas by growers voting in a referendum. Subsection (a) of section 312 of the act requires the Secretary to proclaim a national marketing quota for any kind of tobacco whenever he finds that the total supply of such kind of tobacco as of the beginning of the marketing year then current exceeds the reserve supply level therefor. Section 312 (b) of the act requires the Secretary, within 30 days after the issuance of the proclamation specified in section 312 (a), to conduct a referendum of farmers who were engaged in production of the crop of such kind of tobacco harvested prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the Secretary is required to proclaim (prior to the 1st day of January) the result of the referendum and such quota shall not be effective thereafter.

Subsections (b) and (g) of section 313 of the act (7 U. S. C. 1313) provide that the Secretary shall provide, through the local committees, for the allocation of the State tobacco acreage allotment among the farms on which such kind of tobacco is produced, on the basis of the following: past acreage of tobacco, making due allowance for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco, except that for farms on which no tobacco was produced for market during the five years 1946–50 or a farm operated, controlled, or directed by a person who also operates, controls, or directs another farm on which tobacco is produced, the farm-acreage allotment shall be increased by the smaller of (1) 20 per centum of such allotment or (2) the percentage by which the result obtained by multiplying the normal yield by the acreage allotment (as determined through the local committees in accordance with regulations prescribed by the Secretary) is less than two thousand four hundred pounds.

Subsections (c) and (g) of section 313 of the act provide that the Secretary shall provide, through local committees, for the allotment of not in excess of 5 per centum of the national marketing quota (1) to farms in any State whether it has a State quota or not on which for the first time in five years tobacco is produced to be marketed in the year for which the quota is effective, and (2) for further increase of allotments to small farms pursuant to the proviso in section 313 (b) on the basis of the following: the past tobacco experience of the farm operator; land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco. Provision is made that farm marketing quotas established pursuant to section 313 (c) of the act for farms on which tobacco will be produced for the first time in five years may not exceed 75 per centum of the farm marketing quotas established pursuant to section 313 (b) for farms which are similar with respect to the following: Land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 26th day of September 1950.

[SEAL] RALPH S. TRIGG, *Administrator.*

[F. A. Doc. 50–8577; Filed, Sept. 29, 1950; 8:49 a. m.]

[7 CFR, Part 907]

HANDLING OF MILK IN MILWAUKEE, WIS., MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Milwaukee, Wisconsin, February 6–13, 1950, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 246, Doc. 50–468).

Upon the basis of the evidence introduced at the hearing and the record thereof the Assistant Administrator, Production and Marketing Administration, on June 13, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on June 16, 1950 (15 F. R. 3829). The closing date for filing exceptions was originally set as June 28, 1950. However, the period reserved for this purpose was extended to July 5, 1950 (15 F. R. 4230) and further extended to July 20, 1950 (15 F. R. 4343).

The material issues and the findings and conclusions of the recommended decision (F. R. Doc. 50–5167, 15 F. R. 3829) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein subject to the following revisions:

1. Delete the third paragraph beginning in column 3, 15 F. R. 3830 (F. R. Doc. 50–5167) and substitute therefor the following:

"(b) Four classes of milk should be established."

2. Delete the last paragraph beginning in column 3, 15 F. R. 3830 (F. R. Doc. 50–5167) and substitute therefor the following:

Class III milk would include all milk the butterfat from which is contained in (i) a product not specified in Class I milk, Class II milk, or Class IV milk, including (but not limited to) ice cream, ice cream mix, evaporated milk, condensed milk, nonfat dry milk solids, whole milk powder, eggnog, topping, casein, yogurt, and aerated cream products disposed of with flavor or sweetening added in containers or dispensers under pressure, and (ii) bulk fluid milk, fluid skim milk, or fluid cream disposed of to bakeries, soup companies, candy manufacturers or other food processors in their capacity as such.

Class IV milk would include all milk the butterfat from which is (i) contained in butter, cheese (except cottage cheese) and livestock feed, (ii) contained in monthly inventory variations, and (iii) actual shrinkage, but not to exceed 2½ percent of the total pounds of butterfat in producer milk and actual shrinkage of other source milk: *Provided*, That such shrinkage shall be allowed in this class only if records of total utilization satisfactory to the market administrator are available.

3. Delete in their entirety the second and third paragraphs beginning in column 1, 15 F. R. 3831 (F. R. Doc. 50–5167) and substitute therefor the following:

Class III milk and Class IV milk include those products which do not appear to be under restriction in any part of the marketing area as to the quality of milk used in their manufacture. Such products ordinarily are sold, sometimes outside the market, in competition with products made from manufacturing milk. It was originally proposed that one classification be established for all such products. However, at least one handler relies on the manufacture of cheese as his major outlet for seasonal surpluses of milk and since milk for evaporated milk or ice cream, the principal Class III uses, sometimes varies in value considerably from milk for butter and cheese, it is concluded that a separate class (Class IV) be established to cover the latter products.

Shrinkage, milk for livestock feed, and inventory variations are covered also in Class IV under the revised plan in order to associate the lowest class price with these items. The shrinkage allowance would be limited to 2½ percent of the butterfat in producer milk received and to shrinkage of butterfat in other source milk. Any shrinkage over this amount would be classified as Class I milk. The maximum limit for the amount of shrinkage to be allowed in Class IV milk, as proposed by producers, is in line with allowances for comparable classification in other markets under regulation.

4. Insert a period following the word "Chicago" in line 8 of the third paragraph beginning in column 1, 15 F. R. 3832 (F. R. Doc. 50–5167).

5. Delete the fourth paragraph beginning in column 1, 15 F. R. 3832 (F. R. Doc. 50–5167) and substitute therefor the following:

It is concluded that the prices for Class III milk should be determined by averaging, for each month, the prices to dairy farmers at three local condensaries, except that in the event prices cannot be ascertained at one or more of these plants the prices paid by two other local condensaries should be included in arriving at the average. It was originally proposed that prices at four local condensaries should be averaged for this purpose (with alternates to be used in the absence of more than one of such prices) but official notice is taken that one of the four plants originally named has ceased operations since the date of the hearing, and therefore the remaining three plants are specified in the attached order. This method of pricing Class III milk was proposed by the producers and supported by certain of the handlers. Proponents pointed out that Milwaukee handlers have very limited manufacturing facilities and that milk received in excess of fluid market needs is disposed of mostly to nearby condensaries. Further testimony indicated that prices paid dairy farmers by such plants for milk for manufacturing purposes closely reflect local values of manufacturing milk. The evidence offered by the Milwaukee handlers supports these views.

Butter and cheese should be priced separately as Class IV milk. The value of milk for these purposes sometimes varies appreciably from the value of milk for evaporated milk or ice cream, which are the principal uses in Class III. The Class IV price formula employed is similar to that in use under the Chicago and Suburban Chicago orders. The price formulas for Class III and Class IV milk adopted should facilitate the disposition of seasonal surpluses.

6. Delete the last paragraph beginning in column 1, 15 F. R. 3832 and the first paragraph in column 2, 15 F. R. 3832 (F. R. Doc. 50–5167) and substitute therefor the following:

The hearing notice contained a proposal that the butterfat differential to producers be established at an amount equivalent to one-tenth the average wholesale price per pound of 92-score butter in the Chicago market. At the hearing the producer proponents suggested a differential of 5 cents for each point (one-tenth of 1 percent) of butterfat variance from 3.5 percent. In their exceptions, however, proponents indicated a preference for a butterfat differential of 6 cents per point. Another proposal made at the hearing would establish the butterfat differential at one-tenth the price of 92-score butter plus 20 percent which is the same as the formula used in the Chicago market.

It is concluded that the butterfat differential for producer milk testing other than 3.5 percent should be established as one-tenth the price of 92-score butter at Chicago plus 20 percent. It is recognized that such a differential will be higher than that employed in the past under bargaining arrangements. However, as stated previously, the record indicates that in the main milk in excess of the needs of the market for fluid milk, fluid milk by-products and fluid cream is utilized in cottage cheese or ice cream for sale within the marketing area or is disposed of to manufacturing plants for utilization in evaporated milk or cheese. The proposal of the producer proponents would price butterfat represented by tests higher than 3.5 percent at less than its market value even for manufacture into butter, customarily the lowest-valued outlet for butterfat. Adoption of the proponents proposal would place butterfat over 3.5 percent on a slightly lower value scale than does the formula adopted for determining the Class IV price for 3.5 percent milk. The major outlets for such butterfat indicate the propriety of a somewhat higher return to producers than would be realized from the manufacture of butter.

7. Delete in their entirety the second and third paragraphs beginning in column 3, 15 F. R. 3832 (F. R. Doc. 50–5167) and substitute therefor the following:

It is concluded that, except for certain details, a plan similar to that of the proponents should be adopted. Under such arrangement a producer who ships not less than 75 days during the short production months of September through December will receive a base computed by increasing, in the first year, his daily average deliveries in the September–December period by 40 percent. Reductions in such percentage will be made in subsequent years as specified. Other producers will receive bases computed by applying to their respective deliveries during each of the flush production months the percentage that total base milk is to total deliveries for all producers (shipping to such handler in such month) whose bases were established on September–December deliveries.

It appears that at the outset such plan will have impact only on those producers with unusually wide seasonal variations in production in relation to the market average. The total volume of milk in excess of base deliveries probably will be relatively small until the amount added to September–December deliveries is reduced below 40 percent of such deliveries. An assignment of high bases in relation to the amount of milk used for fluid milk and cream purposes tends, of course, to reduce the base price and the incentive to alter production plans on the farm to adjust production to the more even pattern of fluid milk and cream use. On the other hand, a base plan has not been in operation in the past with respect to all producers supplying the marketing area and, therefore, a gradual approach to the ultimate goal is adopted.

To carry out the provisions of the plan adopted, it is necessary to provide that each handler report his receipts of milk from each producer, and such other information as may be necessary for the market administrator to compute the

base of each producer, beginning with September 1, 1950.

Rulings on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

General findings. (a) The proposed marketing agreement and the proposed order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and in the proposed order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of May 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order regulating the handling of milk in the Milwaukee, Wisconsin, marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," and "Order Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 27th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area

Sec.
907.0 Findings and determinations.

DEFINITIONS

907.1 Act.
907.2 Secretary.
907.3 Person.
907.4 Cooperative Association.
907.5 United States Department of Agriculture.
907.6 Milwaukee, Wisconsin, marketing area.
907.7 Route.
907.8 Fluid milk plant.
907.9 Receiving station.
907.10 Producer.
907.11 Producer milk.
907.12 Handler.
907.13 Producer-handler.
907.14 Other source milk.
907.15 Nonfluid milk plant.
907.16 Base.
907.17 Base milk.
907.18 Excess milk.

MARKET ADMINISTRATOR

907.20 Designation.
907.21 Powers.
907.22 Duties.

REPORTS, RECORDS, AND FACILITIES

907.30 Reports of receipts and utilization.
907.31 Payroll reports.
907.32 Other reports.
907.33 Records and facilities.
907.34 Retention of records.

CLASSIFICATION OF MILK

907.40 Basis of classification.
907.41 Classes of utilization.
907.42 Shrinkage.
907.43 Responsibility of handlers.
907.44 Correction of classification and reclassification of milk.
907.45 Disposition to other milk plants.
907.46 Computation of volume of milk in each class.
907.47 Allocation of milk classified.

MINIMUM PRICES

907.50 Basic formula price to be used in determining Class I and Class II milk prices.
907.51 Class prices.

DETERMINATION OF BASE

907.60 Computation of base for each producer.
907.61 Base rules.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

907.70 Computation of milk value for each handler.
907.71 Computation of uniform price for each handler.
907.72 Computation of uniform prices for base milk and excess milk.

PAYMENTS

907.80 Time and method of payment for producer milk.
907.81 Butterfat differential to producers.
907.82 Expense of administration.
907.83 Marketing services.
907.84 Adjustment of accounts.
907.85 Termination of obligation.

APPLICATION OF PROVISIONS

907.90 Producer-handlers.
907.91 Milk subject to pricing under other federal orders.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

907.100 Effective time.
907.101 Suspension or termination.
907.102 Continuing obligations.
907.103 Liquidation.

MISCELLANEOUS PROVISIONS

907.110 Agents.
907.111 Separability of provisions.

AUTHORITY: §§ 907.0 to 907.111 issued under 48 Stat. 31, as amended, 7 U. S. C. 601 et seq.; 5 U. S. C. 133y–16.

§ 907.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held February 6–13, 1950, at Milwaukee, Wisconsin, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that;

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products.

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 3 cents per hundredweight or such amount not exceeding 3 cents per hundredweight as the Secretary may prescribe, with respect to all (a) producer milk (including such handler's own production) received during the month and (b) other source milk classified as Class I milk or Class II milk during the month.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the following terms and conditions:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

DEFINITIONS

§ 907.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 907.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 907.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 907.4 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, duly organized as such under the laws of any State, which includes members who are producers as defined in § 907.10 and which the Secretary determines, after application by the association:

(a) To be qualified under the standards set forth in the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have its entire organization and all of its activities under the control of its members; and

(c) To be currently engaged in making collective sales or marketing milk or its products for its members.

§ 907.5 *U. S. D. A.* "U. S. D. A. "means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this order.

§ 907.6 *Milwaukee, Wisconsin, marketing area.* "Milwaukee, Wisconsin, marketing area," hereinafter called the "marketing area" means the territory (including all municipal corporations) lying within the county of Milwaukee; the towns of Brookfield, New Berlin, Muskego and Menomonee, and the villages of Menomonee Falls, Lannon, and Butler in the county of Waukesha; the towns of Mequon, Cedarburg and Grafton, the city of Cedarburg, and the villages of Grafton and Thiensville in the County of Ozaukee; and the towns of Germantown and Jackson and the villages of Germantown and Jackson in the county of Washington; all in the State of Wisconsin.

§ 907.7 *Route.* "Route" means any delivery (including a sale from a plant store) of milk, skim milk, buttermilk, flavored milk or flavored milk drink in fluid form to a wholesale or retail stop(s), including a State or municipal institution, other than to any milk processing or distributing plant.

§ 907.8 *Fluid milk plant.* "Fluid milk plant" means any milk plant from which a route is operated in the marketing area.

§ 907.9 *Receiving station.* "Receiving station" means any milk plant operated by a person who also operates a fluid milk plant and utilized principally to receive milk from dairy farms and prepare such milk for transfer to a fluid milk plant.

§ 907.10 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received directly from the farm where produced at either a fluid milk plant or receiving station: *Provided*, That this definition shall not include (a) any such person whose milk is not eligible for disposition as Class I milk by the purchasing handler under the health requirements applicable to the dairy farm supply of milk for any community in the marketing area in which such handler operates a route, or (b) any such person with respect to milk except under the conditions of §§ 907.90 and 907.91. This definition shall include any person who is regularly classified as a producer but whose milk is caused to be diverted to a nonfluid milk plant by a handler, and milk so diverted shall be deemed to have been received by the handler at the fluid milk plant or receiving station from which it was diverted.

§ 907.11 *Producer milk.* "Producer milk" means milk produced by one or more producers.

§ 907.12 *Handler.* "Handler" means any person, including any cooperative association, in his capacity as the operator of a fluid milk plant or receiving station.

§ 907.13 *Producer-handler.* "Producer-handler" means any individual who produces milk and operates a fluid milk plant, but who receives no milk from other producers.

§ 907.14 *Other source milk.* "Other source milk" means all milk and milk products other than producer milk or receipts from other handlers.

§ 907.15 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk processing or distributing plant not a fluid milk plant or receiving station.

§ 907.16 *Base.* "Base" means a quantity of milk, expressed in pounds per day, computed pursuant to § 907.60.

§ 907.17 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of April, May, June, or July which is not in excess of such producer's base multiplied by the number of days of delivery during such month.

§ 907.18 *Excess milk.* "Excess milk" means producer milk received by a handler in any of the months of April, May, June, or July in excess of base milk received from such producer during such month.

MARKET ADMINISTRATOR

§ 907.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the secretary, who shall be entitled to such compensation as may be determined and shall be subject to removal at the discretion of the secretary.

§ 907.21 *Powers.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 907.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date upon which he enters upon such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of the order;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 907.82 the cost of his bond and those of his employees, his own compensation, and all other expenses (except those incurred under § 907.83) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for by this order, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments by each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, and by such investigation as the market administrator deems necessary.

(h) Publicly announce at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 907.30 and 907.31, or (2) payments pursuant to § 907.60.

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk and Class II milk, computed pursuant to § 907.51, for such month;

(2) On or before the 5th day of each month the minimum prices for Class III milk and Class IV milk computed pursuant to § 907.51, and the butterfat differential computed pursuant to § 907.81, for the preceding month; and

(3) On or before the 12th day of each month the uniform prices computed pursuant to §§ 907.71 and 907.72 for the preceding month.

(j) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 907.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, the receipts and utilization at his fluid milk plant(s) and receiving station(s) for such month, as follows:

(a) The quantities and butterfat content of producer milk received (including such handler's own farm production);

(b) The aggregate quantities of base milk and excess milk;

(c) The quantities of milk and milk products, with the butterfat content thereof, received from other handlers;

(d) The quantities of other source milk, with butterfat content thereof, received (except Class III milk and Class IV milk products disposed of in the form in which received without further processing by the handler);

(e) The utilization of all receipts of milk and milk products; and

(f) Such other information with respect to all receipts and utilization as the market administrator may prescribe.

§ 907.31 *Payroll reports.* On or before the 19th day of each month each handler shall submit to the market administrator his producer payroll for the preceding month which shall show (a) the total pounds of milk received from each producer, including for the months of April through July such producer's deliveries of base milk and excess milk, (b) the number of days on which milk was received from each producer, (c) the total pounds of milk received from each cooperative association and the total pounds of butterfat contained in such milk, (d) the amount of payment to each producer or cooperative association, (e) the nature and amount of any deductions or charges involved in such payments, and (f) such other information with respect thereto as the market administrator may request.

§ 907.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) As requested by the market administrator, each handler shall report the information described in paragraphs (a) and (b) of § 907.31 together with such other information as the market administrator may prescribe for prior calendar months included in the period beginning with September 1950 to the effective date of this order.

§ 907.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative, during the usual hours of business, such accounts and records of his operations and such facilities as are necessary for the market administrator to verify, or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk, milk and milk products from other handlers, and other source milk;

(b) The weights and tests for butterfat and other content of all milk and milk products handled;

(c) Payments to producers or to cooperative associations, and

(d) The pounds of milk and milk products, with butterfat content, on hand at the beginning and end of each month.

§ 907.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 907.40 *Basis of classification.* All milk and milk products received within the month by a handler which are required to be reported pursuant to § 907.30 shall be classified by the market administrator pursuant to the provisions of § 907.41 through § 907.47.

§ 907.41 *Classes of utilization.* Subject to the conditions of § 907.44 through § 907.47 the classes of utilization shall be as follows:

(a) Class I milk shall be (1) all milk disposed of in fluid form as milk, skim milk, buttermilk, flavored milk or flavored milk drink, except any such item disposed of in bulk to bakeries, soup companies, candy manufacturing establishments or other food processors in their capacity as such, and (2) all milk not accounted for as Class II milk or Class III milk.

(b) Class II milk shall be all milk the butterfat from which is contained in sweet or sour cream, any cream product in fluid form having more than 6 percent butterfat, and cottage cheese, except butterfat in cream or such cream products disposed of in bulk fluid form to bakeries, soup companies, candy manufacturing establishments or other food processors in their capacity as such.

(c) Class III milk shall be all milk the butterfat from which is contained in (1) a product not specified as Class I milk, Class II milk, or Class IV milk, including (but not limited to) ice cream, ice cream mix, evaporated milk, condensed milk, nonfat dry milk solids, whole milk powder, eggnog, topping, casein, yogurt, and aerated cream products disposed of with flavor or sweetening added in containers or dispensers under pressure, and (2) bulk fluid milk, bulk fluid skim milk or bulk fluid cream disposed of to bakeries, soup companies, candy manufacturers or other food processors in their capacity as such.

(d) Class IV milk shall be all milk the butterfat from which is (1) contained in butter, cheese (except cottage cheese), and livestock feed, (2) contained in monthly inventory variations, and (3) actual shrinkage but not to exceed 2½ percent of the total pounds of butterfat in producer milk and actual shrinkage of butterfat in other source milk: *Provided,* That such shrinkage shall be allowed in this class only if records of total utilization satisfactory to the market administrator are available.

§ 907.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's total receipts as follows:

(a) Compute the total shrinkage of butterfat for such handler;

(b) Prorate the resulting amount among the receipts of butterfat in producer milk, other source milk, and receipts from other handlers in accordance with the total volumes of butterfat received from each such source.

§ 907.43 *Responsibility of handlers.* In establishing classification the responsibility of handlers shall be as follows: Any producer milk shall be classified as Class I milk unless the handler who received such milk directly from producers proves to the satisfaction of the market administrator that such milk should be classified in another class without regard to whether such milk has been used or disposed of (whether in original or other form) by such handler, by any other handler(s), or in any nonfluid milk plant.

§ 907.44 *Correction of classification and reclassification of milk.* (a) The classification of any milk or milk product shall be corrected by the market administrator if upon his audit it is found that such classification was reported incorrectly or incompletely by the handler.

(b) Any milk or milk product reported by a handler as having been used or disposed of in any class which is found by the market administrator to have been reused or redisposed of (whether in original or other form) in a different class by such handler, by any other handler(s) or in any nonfluid milk plant(s) shall be reclassified by the market administrator in accordance with such latter use or disposition.

§ 907.45 *Disposition to other milk plants.* (a) Any milk or skim milk in fluid form disposed of in bulk from a fluid milk plant or receiving station to any such plant of another handler, except a producer-handler, shall be classified as Class I milk, and any cream so disposed of shall be classified as Class II milk, unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred, in which case such milk, skim milk or cream shall be classified according to such mutual agreement: *Provided,* That in no event shall the quantity so reported in any class exceed the total use in such class in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 907.47.

(b) Any milk or skim milk in fluid form disposed of from a fluid milk plant or receiving station to any nonfluid milk plant shall be classified as Class I milk, and any cream so disposed of shall be classified as Class II milk, unless all of the following conditions are met:

(1) The transferee-plant is located within 100 air-line miles from the City Hall in Milwaukee, Wisconsin;

(2) The transferring handler claims another class on the basis of a utilization mutually indicated in writing to the market administrator by both the handler and the operator of the nonfluid milk plant on or before the 7th day after the end of the month within which such transaction occurred;

(3) The operator of the nonfluid milk plant maintains books and records showing the utilization of milk and milk products received at such plant, which are made available if requested by the market administrator for the purpose of verification; and

(4) Not less than an equivalent amount of milk or milk products actually were utilized during the month in such plant in the use indicated in such statement, in which case the quantity so disposed of shall be classified according to such mutual agreement: *Provided,* That if upon the inspection of the records of such plant it is found that an equivalent amount of milk or milk products actually were not used during the month in such indicated use the remaining pounds shall be classified as Class I milk if milk or skim milk or as Class II milk if cream.

(c) Any milk or skim milk in fluid form disposed of in bulk from a fluid milk plant or receiving station to a fluid milk plant of a producer-handler shall be classified as Class I milk and cream so disposed of shall be Class II milk.

§ 907.46 *Computation of volume of milk in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the total pounds of milk received and the pounds of milk in each class, for such handler for such month, as follows:

(a) Determine the total pounds of milk and milk products received from producers (including his own farm production), from other handlers, and as other source milk, and add together the resulting amounts.

(b) Determine the total pounds of butterfat received as follows: multiply by its average butterfat test the weight of milk received from producers (including his own farm production), from other handlers, and as other source milk, and add together the resulting amounts.

(c) Determine the total pounds of Class I milk, as follows:

(1) Convert to pounds on the basis of 2.15 pounds per quart (in the case of flavored milk and flavored milk drinks 2.0 pounds per quart) the volume disposed of as each of the several items of Class I milk;

(2) Multiply each of the resulting amounts by its average butterfat test (in the case of flavored milk and flavored milk drinks the test to be used shall be the average fat (including chocolate or other fat) test of the finished product if the handler's production records do not show the amount of butterfat contained therein), and add together the results so obtained;

(3) If the total pounds of butterfat so computed when added to the sum of the pounds of butterfat computed pursuant to paragraphs (d) (2), (e) (2), and (f) (7) of this section are less than the total pounds of butterfat computed pursuant to paragraph (b) of this section, divide the difference by 0.035; and

(4) Add togethed the results obtained pursuant to subparagraphs (1) and (3) of this paragraph.

(d) Determine the total pounds of Class II milk as follows:

(1) Multiply the actual weight of each of the several items of Class II milk by its average butterfat test;

(2) Add together the resulting amounts, and

(3) Divide the result obtained in subparagraph (2) of this paragraph by 0.035.

(e) Determine the total pounds of Class III milk as follows:

(1) Multiply the actual weight of each of the items of Class III milk by its average butterfat test;

(2) Add together the resulting amounts; and

(3) Divide the result obtained in subparagraph (2) of this paragraph by 0.035.

(f) Determine the total pounds of Class IV milk as follows:

(1) Multiply the actual weight of each of the several items of Class IV milk by its average butterfat test;

(2) Determine the difference in pounds of butterfat contained in inventories at the beginning and end of the month;

(3) Add the pounds of butterfat contained in subparagraphs (1) and (2) of this paragraph;

(4) Add the total pounds of butterfat computed pursuant to paragraphs (c) (2), (d) (2) and (e) (2) of this section to the total pounds of butterfat computed pursuant to subparagraph (3) of this paragraph;

(5) Subtract the total pounds of butterfat computed pursuant to subparagraph (4) of this paragraph from the total pounds of butterfat computed pursuant to paragraph (b) of this section, and the difference is the pounds of butterfat in actual shrinkage: *Provided,* That if such difference is a minus quantity, the amount of butterfat shrinkage shall be zero for purposes of all computations required by this section.

(6) Determine the maximum number of pounds of butterfat shrinkage in Class IV milk by (i) multiplying by 0.025 the total pounds of butterfat in milk received from producers, and (ii) adding the prorata amount of butterfat shrinkage of other source milk computed pursuant to § 907.42: *Provided,* That the pounds determined pursuant to this subparagraph shall be zero if records of utilization satisfactory to the market administrator are not available.

(7) Add the pounds of butterfat obtained in subparagraph (3) of this paragraph to the smaller of the amounts determined pursuant to subparagraph (5) or (6) of this paragraph; and

(8) Divide the pounds of butterfat obtained in subparagraph (7) of this paragraph by 0.035.

(g) Determine the pounds of butterfat overrun as follows: In the event the pounds of butterfat computed pursuant to paragraph (f) (4) of this section are greater than the pounds of butterfat computed pursuant to paragraph (b) of this section, subtract the smaller amount from the larger amount, and divide the result by .035.

§ 907.47 *Allocation of milk classified.* The pounds remaining in each class after making the following computations shall be the amount in such class allocated to producer milk:

(a) Subtract from the pounds of Class IV milk the pounds of shrinkage allowed in such class pursuant to § 907.46 (f) (6) (ii);

(b) Subtract in series beginning with the remaining Class IV milk (other than inventory variation and shrinkage), the pounds of 3.5 percent milk equivalent of other source milk received other than the amount represented by butterfat shrinkage of other source milk; and

(c) Subtract from the pounds of milk remaining in each class (other than shrinkage in Class IV milk) the pounds of milk (in Class II milk, Class III milk and Class IV milk the 3.5 percent milk equivalent of butterfat) received from other handlers and assigned to such class; and

(d) In the event the total pounds of milk remaining in the several classes are greater, or less, than the pounds of milk received from producers (including the handler's own farm production) plus the 3.5 percent milk equivalent of butterfat overrun, reconciliation shall be effected by respectively deducting such differences from, or adding such differences to, the pounds of milk which are priced at the lowest announced class price for the month.

MINIMUM PRICES

§ 907.50 *Basic formula price to be used in determining Class I and Class II milk prices.* The basic formula price to be used in determining the prices per hundredweight of Class I milk and Class II milk for each month shall be the highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section for the preceding month.

(a) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from

farmers during the month at the following plants or places for which prices have been reported to the U. S. D. A. or to the market administrator.

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., West Bend, Wis.
White House Milk Co., Manitowoc, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply the simple average, as computed by the market administrator, of the daily average wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A. during the month, by 6;

(2) Add 2.4 times the simple average, as published by the U. S. D. A. of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month;

(3) Divide by 7;

(4) Add 30 percent thereof; and

(5) Multiply by 3.5.

(c) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A. during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the U. S. D. A.; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 67 cents.

§ 907.51 *Class prices.* Each handler, at the time and in the manner set forth in § 907.80, shall pay per hundredweight of milk received during each month from producers or from a cooperative association at his fluid milk plant(s) or receiving station(s) not less than the prices set forth below in this section:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amount as indicated: May and June, $0.46; August, September, October and November, $0.86; all others, $0.66.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price plus the following amount as indicated: May and June, $0.30; August, September, October and November, $0.50; all others, $0.40.

(c) *Class III milk.* The price for Class III milk shall be the average of the prices per hundredweight reported to have been paid, or to be paid, for the current month to farmers for milk containing 3.5 percent butterfat received during such month at the following listed manufacturing plants or places for which prices are reported to the U. S. D. A. or to the market administrator:

Companies and Location

Kraft Foods, Inc., Hartford, Wis.
Carnation Co., Oconomowoc, Wis.
White House Milk Co., West Bend, Wis.

Provided, That if the price paid, or to be paid, at one or more of such plants is not so reported, the market administrator shall include in the computation of such average the prices per hundredweight reported to have been paid, or to be paid, for the current month for milk containing 3.5 percent butterfat received during such month at the following listed manufacturing plants for which prices are reported to the U. S. D. A. or to the market administrator:

Companies and Location

Armour & Co., Stoughton, Wis.
United Milk Products Co., Johnson Creek, Wis.

Provided, That in no event shall the price for Class III milk be lower than the price for Class IV milk.

(d) *Class IV milk.* The price for Class IV milk shall be the same as that computed pursuant to § 907.50 (c).

DETERMINATION OF BASE

§ 907.60 *Computation of base for each producer.* For each of the months of April through July of each year the market administrator shall compute a base for each producer as follows, subject to the rules set forth in § 907.61:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through December immediately preceding by the number of days, not to be less than seventy-five, of such producer's delivery in such period, and increase the resulting amount by the following applicable percentage: (1) For the first April through July following the effective date of the order, forty percent (40%), (2) for the second April through July following the effective date of the order, thirty percent (30%), and (3) for each April through July thereafter, twenty percent (20%): *Provided*, That each producer who does not deliver milk in accordance with the requirements set forth above in this paragraph shall have a base computed in the following manner: For each of such months of April through July (1) determine with respect to the handler who received such producer's milk on the last day of such month the percentage that total base milk is to total monthly receipts from all producers (of such handler) whose bases were established on the basis of deliveries during the preceding months of September through December, and (2) multiply such producer's daily average deliveries during the appropriate month (April, May, June or July) by such percentage.

§ 907.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship to the base of each landlord and tenant shall be combined.

(b) A landlord who rents on a share basis shall be entitled to the entire base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the base shall be a combined base to the divided proportionately between the joint owners according to ownership of the cattle when such share basis is terminated: *Provided*, That upon termination of such share basis either party may relinquish his individual base and establish a new base in accordance with the method set forth in the proviso of § 907.60.

(c) A base may be transferred to another producer only under the following conditions: (1) In case of the death of a producer, his base may be transferred to a surviving member or members of his immediate family who carry on the dairy operations, or (2) on the retirement of a producer, his base may be transferred to a member or members of his immediate family who carry on the dairy operations.

(d) The bases of two or more producers may be combined in the case where a partnership is formed, and may be divided in the case of the dissolution of a partnership proportionately among the partners according to the ownership of the cattle.

(e) In the case of a tenant or landlord having no base who combines herds with a tenant or landlord having a base, such base may be relinquished and a new base formed with respect to the total deliveries of the combined herds in accordance with the method set forth in the proviso of § 907.60.

(f) As soon as bases are allotted to producers pursuant to § 907.60, the market administrator shall notify each handler of the bases of producers from whom such handler receives milk.

DETERMINATION OF UNIFORM PRICE TO PRODUCERS

§ 907.70 *Computation of milk value for each handler.* On or before the 12th day of each month, the market administrator shall examine for mathematical correctness and obvious errors the report of receipts and utilization submitted by each handler for the preceding month and shall make such corrections as such examination shall indicate to be appropriate, and from such corrected reports he shall compute the value of all producer milk received by such handler (including such handler's own farm production), by multiplying the total hundredweight of such milk in each class by the applicable class price and adding together the resulting amounts.

§ 907.71 *Computation of uniform price for each handler.* The market administrator shall compute for each handler the uniform price per hundredweight of producer milk for each of the months of August through March in the following manner: To the value computed pursuant to § 907.70:

(a) Add or deduct, as the case may be, the amount of money involved in adjustments resulting from verification by the market administrator of the handler's reports for previous months;

(b) Add or deduct, as the case may be, the amount of money involved in adjusting the handler's preceding month's uniform prices to the nearest cent;

(c) Divide by the hundredweight of producer milk received by such handler and adjust to the nearest cent. This result shall be known as the uniform price of such handler for milk of 3.5 percent butterfat content received at his fluid milk plant(s) or receiving station(s).

§ 907.72 *Computation of uniform prices for base milk and excess milk.* The market administrator shall compute for each handler the uniform prices per hundredweight of base milk and excess milk for each of the months of April through July as follows: To the value computed pursuant to § 907.70:

(a) Add or deduct, as the case may be, the amount of money involved in adjustments resulting from verification by the market administrator of the handler's reports for previous months;

(b) Add or deduct, as the case may be, the amount of money involved in adjusting the handler's preceding month's uniform prices to the nearest cent;

(c) Compute the total value of excess milk received by such handler by multiplying the hundredweight of such excess milk by the Class IV price for 3.5 percent milk, and adding any amount resulting from the proviso of paragraph (d) of this section;

(d) Compute the total value of base milk received by such handler by subtracting the amount computed pursuant to paragraph (c) of this section from the amount computed pursuant to paragraph (b) of this section: *Provided*, That if such resulting amount is greater than an amount computed by multiplying the pounds of base milk received by such handler by the Class I price (3.5 percent milk) such value in excess thereof shall be included in the total value of excess milk computed in paragraph (c) of this section;

(e) Divide the result obtained in paragraph (d) of this section by the hundredweight of base milk received by such handler, and adjust to the nearest cent. This result shall be known as the uniform price per hundredweight of such handler for base milk of 3.5 percent butterfat content received at his fluid milk plant(s) or receiving station(s).

(f) Divide the result obtained in paragraph (c) of this section by the hundredweight of excess milk, and adjust to the nearest cent. This result shall be known as the uniform price per hundredweight of such handler for excess milk of 3.5 percent butterfat content received at his fluid milk plant(s) or receiving station(s).

PAYMENTS

§ 907.80 *Time and method of payment for producer milk.* (a) On or before the 15th day after the end of each of the months of August through March, each handler shall make payment to each producer for milk received from such producer during such month at not less than the uniform price per hundredweight computed for such handler (§ 907.71), subject to the butterfat differential provided by § 907.81 and to the deduction specified in § 907.83: *Provided*, That if a cooperative association of which such producer is a member is authorized to receive payment for such producer and requests receipt of such payment, payment shall be made to such cooperative association on or before the 13th day after the end of such month: *And provided also*, That the provisions of this paragraph shall not be construed to restrict any cooperative association qualified under section 8c (5) (f) of the act from making payment for milk to its producers in accordance with such provision of the act;

(b) On or before the 15th day after the end of each of the months of April through July each handler shall make payment to each producer for milk received from such producer during such month as follows, subject to the butterfat differential provided by § 907.81, the deduction specified in § 907.83, and both provisos of paragraph (a) of this section:

(1) At not less than the uniform price per hundredweight for base milk (§ 907.72) with respect to base milk received from such producer; and

(2) At not less than the uniform price per hundredweight for excess milk (§ 907.72) with respect to excess milk received from such producer.

(c) On or before the 15th day after the end of each month each handler shall pay to each cooperative association which is a handler, for receipts of milk or milk products subject to classification pursuant to §§ 907.40 and 907.41, an amount of money representing not less than the total value of such milk or milk products computed by multiplying the pounds in each class by the applicable class price per hundredweight subject to a butterfat differential computed as in § 907.81.

§ 907.81 *Butterfat differential to producers.* In making payments pursuant to § 907.80, there shall be added to or subtracted from the applicable price for each one-tenth of one percent that the average of butterfat content of milk received from any producer is above or below 3.5 percent, as the case may be, an amount computed as follows: To the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A. for the month during which the milk was received, add 20 percent, divide the result by 10, and adjust to the nearest one-tenth cent.

§ 907.82 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 907.22, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 3 cents per hundredweight, or such amount not exceeding 3 cents per hundredweight, as the Secretary from time to time may prescribe, with respect to all (a) producer milk (including such handler's own production) received during such month, and (b) other source milk classified as Class I milk or Class II milk during such month.

§ 907.83 *Marketing Services.* (a) Except as set forth in paragraph (b) of this section, each handler shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight as the Secretary from time to time may prescribe, from the payments made pursuant to paragraphs (a) and (b) of § 907.80 for each month, and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such monies shall be used by the market administrator to check weights, samples and tests of producer milk received by handlers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the market administrator, the services set forth in paragraph (a) of this section, but for whom such cooperative association does not receive payment for milk, each handler shall make in lieu of the deduction specified in paragraph (a) of this section such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of such month pay over such deduction to the cooperative association rendering such services.

§ 907.84 *Adjustment of accounts.* (a) Whenever audit by the market administrator of any handler's reports, records, books, or accounts discloses errors resulting in monies due:

(1) The market administrator from such handler,

(2) Such handler from the market administrator, or

(3) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment

set forth in the provision under which such error occurred following the 5th day after such notice.

(b) Any unpaid obligation of a handler pursuant to §§ 907.80 through 907.84 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 907.85 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Services of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 907.90 *Producer-handlers.* Sections 907.40 to 907.47, 907.50 to 907.51, 907.60 to 907.61, 907.70 to 907.72, and 907.80 to 907.85, inclusive, shall not apply to a producer-handler.

§ 907.91 *Milk subject to pricing under other Federal orders.* (a) If any milk is disposed of on a route in a marketing area operated by or for a person otherwise subject to regulation as a handler as defined in any other Federal milk marketing agreement or order issued pursuant to the act, such milk shall be exempt from the provisions of this order, except for such reports as the market administrator may request, unless

(1) The provisions of the order for the other milk marketing area provide for a determination as to the order under which such milk should be priced, and such determination indicates that it shall be priced under this order; or

(2) The other order is that regulating the handling of milk in the suburban Chicago, Illinois, marketing area and the Secretary determines that a greater volume of milk is disposed of by such handler as Class I milk and Class II milk in the marketing area herein defined than is so disposed of in the marketing area defined in such other order.

(b) If any milk, or product thereof, is received at the fluid milk plant or receiving station of a handler subject to the provisions of this order from a person regulated as a handler under another order, it shall be considered as other source milk under this order.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 907.100 *Effective time.* The provisions of this order or any amendments to this order shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 907.101 *Suspension or termination.* The Secretary may suspend or terminate this order or any of its provisions whenever he finds that this order or any of its provisions obstruct or do not tend to effectuate the declared policy of the act. This order shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 907.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 907.103 *Liquidation.* Upon the suspension or termination of the provisions of this order, except this subpart, the market administrator, or such other liquidating agent, as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 907.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 907.111 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

[7 CFR, Part 907]

HANDLING OF MILK IN THE MILWAUKEE, WISCONSIN, MARKETING AREA

ORDER DIRECTING THAT A REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION THAT THE MONTH OF MAY 1950 IS A REPRESENTATIVE PERIOD; AND DESIGNATION OF AN AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Milwaukee, Wisconsin, marketing area) who, during the month of May 1950, were engaged in the production of milk for sale in the marketing area specified in the aforesaid proposed order to determine whether such producers favor the issuance of the proposed order filed simultaneously herewith.

The month of May 1950 is hereby determined to be the representative period for the conduct of such referendum.

Jesse L. Cook is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for conducting referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER (15 F. R. 5177) on August 10, 1950, such referendum to be completed

on or before the 20th day from the date this order is issued.

Done at Washington, D. C., this 27th day of September 1950.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 50-8614; Filed, Sept. 29, 1950; 8:56 a. m.]

[7 CFR, Part 994]

HANDLING OF PECANS GROWN IN GEORGIA, ALABAMA, FLORIDA, MISSISSIPPI, AND SOUTH CAROLINA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO GRADE AND SIZE REGULATIONS

Notice is hereby given that the Department is considering the issuance of the proposals herein set forth in accordance with the provisions of Marketing Agreement No. 111 and Order No. 94, regulating the handling of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina (7 CFR Part 994), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals should forward the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., in sufficient time to be received not later than the close of business on the third day after publication of this notice in the FEDERAL REGISTER.

The Pecan Administrative Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, at a duly called meeting in Albany, Georgia, on September 21, 1950, unanimously recommended that, under the authority contained in § 994.4 of said agreement and order, the initial grade and size regulation, as specified in § 994.4 (c), having become effective October 20, 1949 (14 F. R. 6167), be superseded by the grade and size regulation herein set forth. The recommendation is that, for purposes of said marketing agreement and order: the requirement of the U. S. Commercial grade that at least 65 percent of the pecans shall have kernels which meet the U. S. No. 1 grade specifications be raised to at least 75 percent; and the requirement in respect to the tolerance for kernels which are rancid, moldy, decayed, injured by worms, or so shriveled that they are virtually of no food value be reduced from 10 percent to 9 percent.

The committee believes that there are sufficient pecans available for in-shell shipment from the five-State area to satisfy consumer demand, taking into consideration the proposed restrictions. The forecast production of pecans in these States is 50,311,000 pounds, which is approximately equal to the 1949 production. The committee anticipates that raising the grade requirements for pecans which may be handled in-shell will improve their acceptability to the buying trade and to consumers and will tend to stimulate demand. Data and information available to the committee indicate that the quality of the 1950 crop is likely to average considerably better than that of the 1949 crop, and the committee believes that under the recommended higher grade requirements at least as large a percentage of the current pecan crop will be available for in-shell handling as was the case with the preceding crop. Pecans which fail to meet the proposed requirements will, of course, be available for shelling or marketing in local outlets.

The proposal is as follows:

(a) The initial grade and size regulation (Pecan Reg. 1; 14 F. R. 6167) shall be superseded at the effective time of the grade and size regulation set forth in this section.

(b) Beginning at 12:01 a. m., e. s. t., October 9, 1950, no person shall handle, except as provided in § 994.4 (e), any unshelled pecans:

(1) Unless they have a count per pound of less than 91 nuts, and the 10 smallest nuts in a representative 100-nut sample weigh at least 1.5 ounces; and

(2) In addition, meet the requirements of the U. S. Commercial grade as changed for the purpose of this regulation to read in the manner set forth in paragraph (b) (3) of this section.

(3) The pecans shall consist of unshelled pecans which are free from serious damage caused by stains or adhering hulls, split or broken shells, loose hulls or other foreign material, or other means. At least 75 percent, by count, of the pecans in any lot shall have kernels which meet the requirements of U. S. No. 1 grade, and the remainder shall have kernels which are fairly well cured, free from rancidity, molds, decay, and worm injury, and from serious damage caused by shriveling, discoloration, or other means. In order to allow for variations incident to proper grading, the following tolerances shall be permitted:

(i) For external defects (defects of the shell) not more than 10 percent, by count, of the pecans in any lot may be below the requirements of this grade; and

(ii) For internal defects (defects of the kernel) not more than 15 percent, by count, of the pecans in any lot may be below the requirements of this grade, but not more than three-fifths of this amount, or 9 percent, shall be allowed for kernels which are rancid, moldy, decayed, injured by worms, or so shriveled that they are virtually of no food value. No part of any tolerance shall be allowed to reduce for the lot, the 75 percent of kernels required to meet U. S. No. 1 grade.

(c) Terms used herein shall have the same meaning as when used in said marketing agreement and order, or, when applicable, as when used in the United States Standards for Unshelled Pecans (14 F. R. 2543, 2608; 7 CFR 51.342).

Issued at Washington, D. C., this 27th day of September, 1950.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 26, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 2 W.,
Secs. 16 and 36.
T. 9 S., R. 3 W.,
Sec. 32.
T. 6 S., R. 4 W.,
Sec. 36, SW¼NE¼.
T. 7 S., R. 4 W.,
Sec. 32.
T. 3 S., R. 4 W.,
Sec. 2, S½, S½N½.
T. 9 S., R. 4 W.,
Sec. 32, S½, E½NE¼.
T. 7 S., R. 5 W.,
Sec. 2, lots 1, 2, 3 and 4, S½N½.
T. 9 S., R. 5 W.,
Sec. 2, lots 1, 2, 3 and 4, S½N½;
Sec. 16.
T. 9 S., R. 7 W.,
Sec. 2, lots 1, 2, 3 and 4, S½N½, S½;
T. 6 S., R. 8 W.,
Sec. 2, lot 3, SE¼NW¼;
Sec. 16.
T. 6 S., R. 10 W.,
Sec. 2.
T. 39 N., R. 16 W.,
Sec. 36, SW¼SW¼.
T. 22, N., R. 17 W.,
Sec. 2, lots 1, 2, 3 and 4, S½N½, SW¼
Sec. 32.
T. 19 N., R. 19 W.,
Sec. 36, S½.
T. 21 N., R. 19 W.,
Secs. 2, 16, 32 and 36.
T. 19 N., R. 20 W.,
Sec. 2, lots 1, 2, 3, 4, 5 and 6, N½S½.
T. 21 N., R. 20 W.,
Sec. 2, lots 5, 6, 7, 8, 9, 10, 11 and 12, S½.
T. 10 S., R. 7 E.,
Sec. 32, N½SW¼, SW¼SW¼, N½.

T. 5 S., R. 24 E.,
Sec. 2, lots 1, 2, 3 and 4, SE¼SE¼;
Sec. 36, SW¼, SW¼NW¼.
T. 9 S., R. 27 E.,
Sec. 3, E½SE¼.

The areas described aggregate 12,711 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

ROSCOE E. BELL,
Associate Director.

[F. R. Doc. 50–8554; Filed, Sept. 29, 1950; 8:45 a. m.]

[Misc. 9921]

NEVADA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 25, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 27 N., R. 18 E.,
Sec. 25, N½NE¼.

The area described aggregates 80 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

WISCONSIN

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 25, 1950.

Notice is given that the plat of extension survey of the following described lands accepted January 26, 1949, which were erroneously omitted from the original survey and not shown on the plat approved January 27, 1865, will be officially filed in this Bureau effective at 10:00 a. m. on the 35th day after the date of this notice:

VILAS COUNTY, FOURTH PRINCIPAL MERIDIAN

T. 40 N., R. 5 E.,
Sec. 31, lot 7.

The area described aggregates 50.96 acres.

Available data indicates that the land described is rolling upland with a very small area of swamp land. It is also indicated by available data that the lands are not shown to be swamp or overflowed within the meaning of the act of March 2, 1849 (9 Stat. 352).

The land described is within the exterior boundaries of the Lac Du Flambeau Indian Reservation and subject to administration by the Office of Indian Affairs under appropriate laws and regulations.

In view thereof, upon the official filing of this plat the lands shown thereon will not become subject to disposition under the general public land laws by reason of the filing thereof.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

Office of the Secretary

[Order No. 2590]

NATIONAL PARK SERVICE

REDELEGATION OF AUTHORITY RESPECTING PURCHASES AND CONTRACTS

SEPTEMBER 25, 1950.

SEC. 1. The authority delegated to the Secretary of the Interior by the Administrator of General Services on August 15, 1950 (15 F. R. 5538), to make purchases and contracts for supplies and services with States, political subdivisions, local governmental units, or agencies of the foregoing, for the performance of road construction or maintenance work of the National Park Service, or for the furnishing of materials, supplies, equipment, or services of any kind in connection therewith, pursuant to the provisions of Title III of the Federal Property and Administrative Services Act of 1949 (41 U. S. C. 1946 ed., Supp. III, secs. 251–260) is redelegated to the Director and the Regional Directors of the National Park Service and to the Superintendents of areas administered by the National Park Service, severally.

SEC. 2. Any official exercising authority under section 1 of this order may make a purchase or a contract on a negotiated basis if, and only if, he determines that the facts are such as to bring the particular purchase or contract within the scope of subdivision (9) of subsection (c) of section 302 of the Federal Property and Administrative Services Act of 1949.

OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

REPUBLICAN VALLEY LIVESTOCK AUCTION

DEPOSTING OF STOCKYARD

It has been ascertained that the Republican Valley Livestock Auction, Franklin, Nebraska, originally posted on January 31, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it no longer meets the area requirements. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 27th day of September, 1950.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

CIVIL AERONAUTICS BOARD

[Docket No. 4505]

EASTERN AIR LINES, INC.; MIAMI-SAN JUAN COACH FARE INVESTIGATION

NOTICE OF HEARING

In the matter of the investigation to determine the lawfulness of air coach fares between Miami, Fla. and San Juan, Puerto Rico provided in the tariffs of Eastern Air Lines, Inc. known as Local Tariff Passenger C. A. B. No. 43.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 404 and 1002 thereof, that hearing in the above-entitled proceeding is assigned to be held on October 4, 1950, at 10:00 a. m. (e. s. t.), in Conference Room C, Departmental Auditorium, between 12th and 14th Streets on Constitution Avenue NW., Washington, D. C. before Hearing Examiner Paul N. Pfeiffer.

Without limiting the scope of the issues presented by the order of investigation, particular attention will be directed to the following matters and questions:

1. Are the fares, rules, and regulations under consideration unjust or unreasonable or unjustly discriminatory?

2. Should Puerto Rico have air coach service at the fare levels prevailing in the United States?

For more detailed information with respect to the issues involved, attention is directed to the Prehearing Conference Report issued in this proceeding on August 25, 1950, and all other material on file in the docket.

Notice is also given that any person, other than parties of record as of September 26, 1950, desiring to be heard in this proceeding must file with the Board on or before October 4, 1950, a statement setting forth the issues of fact or law raised by this proceeding on which he desires to be heard.

Dated at Washington, D. C., September 26, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9757]

KENTUCKY MOUNTAIN BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of D. C. Stephens tr/as Kentucky Mountain Broadcasting Company (WPRT), Prestonburg, Kentucky, Docket No. 9757, File No. BMP-5242; for extension of completion date.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of September 1950;

The Commission having under consideration the above-entitled application of D. C. Stephens tr/as Kentucky Mountain Broadcasting Company, permitee of Station WPRT, Prestonburg, Kentucky,

requesting an extension of its outstanding construction permit File No. BP-6797 as modified which authorized a new standard broadcast station at Prestonburg, Kentucky; and

It appearing, that, on January 14, 1949, the Commission granted D. C. Stephens tr/as Kentucky Mountain Broadcasting Company a construction permit which authorized the construction of a new standard broadcast station to be operated on the frequency 960 kc, with 1 kw power, daytime only at Prestonburg, Kentucky, subject to filing within 60 days of grant an application to specify a transmitter site and antenna system meeting the Commission's Standards of Good Engineering Practice; and

It further appearing, that on April 29, 1949, an application for approval of the transmitter site and antenna system of Station WPRT was granted; and

It further appearing, that D. C. Stephens has not completed the construction of the authorized standard broadcast station within the time specified in the construction permit, as modified, and that the new standard broadcast station at Prestonburg, Kentucky, is not ready for operation; and

It further appearing, that, on August 23, 1950, the Commission denied the above-entitled application and by letter dated August 23, 1950 gave the above applicant 20 days within which to request a hearing on the above-entitled application; and

It further appearing, that, on August 28, 1950, D. C. Stephens tr/as Kentucky Mountain Broadcasting Company filed a request for hearing on the above-entitled application for extension of completion date for the construction of the station at Prestonburg, Kentucky;

It is ordered, That the Commission's action of August 23, 1950, denying the above-entitled application is set aside; and

It is further ordered, That, pursuant to sections 309 and 319 of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing to commence the 14th day of December 1950 in Washington, D. C., upon the following issues:

1. To determine whether the failure of D. C. Stephens, tr/as the Kentucky Mountain Broadcasting Company, to complete construction of the authorized standard broadcast station at Prestonburg, Kentucky, and to have the station ready for operation was due to causes not under his control.

2. To determine whether said D. C. Stephens has been diligent in proceeding with the construction of the authorized standard broadcast station at Prestonburg, Kentucky.

3. To determine, whether, in view of the evidence adduced in connection with the foregoing issues, the date specified for completion of construction of the new station should be extended, and if so, to what date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[Docket No. 9658]

SOUTH ST. PAUL BROADCASTING CO.

ORDER SCHEDULING HEARING

In re application of Victor J. Tedesco, Albert S. Tedesco, Antonio S. Tedesco and Nicholas Tedesco, d/b as South Saint Paul Broadcasting Company, South Saint Paul, Minnesota, Docket No. 9658, File No. BP-7576; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of September 1950;

The Commission having under consideration a petition filed on July 19, 1950, by South Saint Paul Broadcasting Company requesting reconsideration and grant without hearing of its above-entitled application for a permit to construct a new standard broadcast station to operate on frequency 1590 kilocycles with 1 kilowatt power, daytime only, in South Saint Paul, Minnesota; and

It appearing, that the said application was designated for hearing by Commission order of May 12, 1950, to determine whether the application was in contravention of § 3.35 of the Commission's rules and whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards with particular reference to the coverage to the Minneapolis-Saint Paul metropolitan area; and

It further appearing, that by Commission order of June 22, 1950, the order of May 12, 1950, designating the said application for hearing was amended to delete therefrom the issue with reference to § 3.35 of the Commission's rules; and

It further appearing, that the said petition introduces no engineering evidence to resolve the issue concerning inadequate coverage of the Minneapolis-Saint Paul metropolitan district; and that on the basis of the information contained in the above-entitled application and the said petition the Commission is unable to determine whether a grant of the application would be in the public interest;

It is ordered, That the said petition is denied; and

It is further ordered, that the hearing upon the above-entitled application is scheduled to commence at 10:00 a. m., on Tuesday, November 7, 1950, at Washington, D. C.

Released: September 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WILLIAM P. MASSING,
Acting Secretary.

[F. R. Doc. 50-8582; Filed, Sept. 29, 1950; 8:50 a. m.]

[Docket Nos. 9066, 9067]

KENYON BROWN AND GEORGE E. CAMERON, JR.

ORDER CONTINUING ORAL ARGUMENT

In re applications of Kenyon Brown, Tulsa, Oklahoma, Docket No. 9066, File No. BP-6693; George E. Cameron, Jr., Tulsa, Oklahoma, Docket No. 9067, File No. BP-6752; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of September 1950;

The Commission having under consideration (1) the oral argument in the above-entitled proceeding now scheduled for September 22, 1950, commencing at 10:00 a. m., and (2) a motion to reopen the record and to continue the said oral argument, filed September 20, 1950, by Kenyon Brown; and

It appearing, that the Examiner in the Initial Decision preferred the application of George E. Cameron, Jr., to that of petitioner; that petitioner alleges (1) that one of the two bases for such preference was that Cameron was a resident of Tulsa and would devote full time to the proposed station while petitioner, a former resident of Tulsa, would devote only part time to the proposed station, (2) that it has just come to the attention of petitioner that Cameron is no longer a resident of Tulsa and would devote virtually no time to the operation of the station, (3) that since a principal ground for preferring Cameron was his local residence and since Cameron is no longer a resident of Tulsa, the record should be reopened to reflect the changed and true facts; and

It further appearing, that in view of the foregoing, petitioner requests that the Commission reopen the record in this proceeding and continue the said oral argument, now scheduled for September 22, 1950; and

It further appearing, that in view of the fact said petition was filed on September 20, 1950, and oral argument is scheduled for September 22, 1950, it will be impossible for the parties to the proceeding to file any replies to the said motion that they may desire, and for the Commission to review said motion and replies and to act thereon prior to September 22, 1950; and

It further appearing, that in view of the foregoing, oral argument in this proceeding, now scheduled for September 22, 1950, may serve no useful purpose and should therefore be continued;

It is ordered, That the above-described motion, filed September 22, 1950, by Kenyon Brown, is granted to the extent indicated herein; that oral argument now scheduled for September 22, 1950, is continued without date; and that action on that part of the said motion requesting a reopening of the record herein is deferred, pending the receipt of any replies to such motion which may be filed, and further review by the Commission.

Released: September 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WILLIAM P. MASSING,
Acting Secretary.

RADIO SUMTER ET AL.

CALENDAR ADVANCING NEW HEARINGS NOW SCHEDULED FOR NOVEMBER AND DECEMBER 1950 AND JANUARY AND FEBRUARY 1951

SEPTEMBER 20, 1950.

Attached hereto is a calendar which has the effect of advancing all new hearings scheduled by the Commission in the months of November and December 1950 and January and February 1951. The Commission considered it necessary to advance the hearings herein because of the large number of cancellations in hearing cases resulting from (1) continuances, (2) amendments resulting in the removal of applications from hearing, and (3) dismissal of applications. Because of the large number of cancellations experienced in the past the Commission has set more hearings in November than there is personnel available for this work. From past experience, it is anticipated that a sufficient number of these hearings will be cancelled to avoid any difficulty that would ordinarily be occasioned from lack of personnel.

All of these hearings are to be held in Washington, D. C.

Released: September 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

CALENDAR ADVANCING DATES FOR BROADCAST HEARINGS PRESENTLY SCHEDULED

Present hearing date	Docket No.	Name of applicant	New hearing date
Nov. 1	9696	Radio Sumter, Sumter, S. C.

GENERAL SERVICES ADMINISTRATION

COMMISSIONER OF PUBLIC BUILDINGS SERVICE, COMMISSIONER OF FEDERAL SUPPLY SERVICE AND ARCHIVIST OF UNITED STATES

DELEGATION OF AUTHORITY WITH RESPECT TO UNINTERRUPTED PERFORMANCE OF FUNCTIONS

1. *Purpose.* This regulation is prescribed temporarily and until further order to assure uninterrupted performance of the functions vested in me or the General Services Administration by Public Law 754, approved September 5, 1950, and to avoid confusion, delay and unnecessary expense.

2. *Delegation of authority.* Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong.), as amended (Pub. Law 754, 81st Cong.), there are hereby delegated to the Commissioner of Public Buildings Service, the Commissioner of Federal Supply Service, and the Archivist of the United States, respectively, in addition to the authority vested in them by Delegations of Authority Nos. 4, 5, and 7 (14 Fed. Reg. 7569, 7678), such portions of the functions vested in me or the General Services Administration by Public Law 754, 81st Congress, as are substantially similar to functions which were performed by such officials immediately prior to September 5, 1950.

3. *Existing regulations.* All rules, regulations, policies, procedures, and directives prescribed by me, the Commissioner of Public Buildings Service, the Commissioner of Federal Supply Service, the Archivist of the United States, and the National Archives Council, in effect upon the effective date of Public Law 754, 81st Congress, and not inconsistent therewith, shall remain in full force and effect until modified or superseded.

4. *Effective date.* This regulation shall be effective September 5, 1950.

Dated: September 27, 1950.

JESS LARSON,
Administrator.

[Docket No. G-1477]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

NOTICE OF APPLICATION

SEPTEMBER 26, 1950.

Take notice that Texas Illinois Natural Gas Pipeline Company (Applicant) a

Delaware corporation, of 20 North Wacker Drive, Chicago 6, Illinois, filed on September 13, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain transmission pipeline facilities described as follows:

(1) Compressor stations Nos. 4 and 10, together with necessary appurtenances and equipment, along Applicant's pipeline at points approximately 244 miles and 791 miles north of the junction point southwest of Houston in lieu of Compressor stations Nos. 3 and 9 previously authorized in Docket No. G–1246.

(2) Compressor stations Nos. 2 and 8, together with necessary appurtenances and equipment along Applicant's pipeline at points approximately 79 miles and 600 miles, respectively, north of said junction.

(3) Installation in Compressor stations Nos 2, 4, 6, 8 and 10 of five (5) 2000 horsepower engines and other necessary equipment, four (4) of such engines in Compressor stations Nos. 4, 6 and 10 to be in lieu of five (5) engines of 1600 horsepower previously authorized for Compressor stations Nos. 3, 6 and 9 in Docket No. G–1246.

(4) Approximately 46.39 miles of 20-inch pipeline extending from a point 50.27 miles north of the terminus of Applicant's pipeline at the La Gloria field in a general northwesterly direction to a point in the Clayton area.

(5) Approximately 25.66 miles of 20-inch pipe line extending from the western terminus of the pipeline described in paragraph (4) above in a general southerly direction to the Hagist Ranch area.

The application states that the proposed additional facilities and changes in facilities already authorized in Docket No. G–1246 will have the effect of increasing the sales capacity of Applicant's system from the 305,000 Mcf authorized in Docket No. G–1246 to 374,000 Mcf. The application recites that since the issuance of the certificate in Docket No. G–1246 Applicant has made further engineering studies and has determined that it will be more economical to use four 2,000 horsepower engines in the compressor stations already authorized rather than the five 1,600 horsepower engines previously planned and now authorized. Applicant indicates an annual saving in cost of operation will be effected by such revised plans amounting to $41,300 when the capacity is 305,000 Mcf, and $152,000 when the line reaches full capacity.

The application also recites that with respect to change in location of compressor stations, i. e., construction of compressors stations Nos. 4, 6 and 10 rather than stations Nos. 3, 6 and 9, such new locations, with added power, combined with the newly applied for stations Nos. 2 and 8 can be more economically used in providing sales capacity for the increase to 374,000 Mcf.

The estimated total over-all cost of facilities to be constructed under the application in this docket is approximately $11,216,800. The increase in working capital required is $365,000. Applicant proposes to obtain the necessary funds through the issuance of first mortgage bonds for 75 percent of the additional capital required and by the sale of common stock to its stockholders for the remaining 25 percent.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 16th day of October 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8576; Filed, Sept. 29, 1950; 8:48 a. m.]

[Docket No. E–6316]

CALIFORNIA ELECTRIC POWER CO.

CORRECTION OF NOTICE OF APPLICATION

SEPTEMBER 27, 1950.

The "Notice of Application" published in this matter on September 26, 1950 (15 F. R. 6473) is corrected to require that any person desiring to be heard or to make any protest with reference to the application should, on or before the 11th day of October 1950, instead of the 23d day of October 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

2½ PERCENT WAR HOUSING INSURANCE FUND DEBENTURES, SERIES H AND J

NOTICE OF CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 22, 1950.

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2½ percent War Housing Insurance Fund Debentures, Series H and J, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1951, on which date interest on such debentures shall cease:

2½ PERCENT WAR HOUSING INSURANCE FUND DEBENTURES, SERIES H

Denomination:	*Serial numbers (all numbers inclusive)*
$50	3140 to 3237
$100	8546 to 8932
$500	4148 to 4246
$1,000	9537 to 9847
$5,000	201 to 261
	1175 to 1250
$10,000	5531 to 5951

2½ PERCENT WAR HOUSING INSURANCE FUND DEBENTURES, SERIES J

Denomination:	*Serial numbers (all numbers inclusive)*
$50	2 to 11
$100	12 to 37
$500	3 to 8
$1,000	7 to 46
$5,000	1 to 5
$10,000	142 to 152

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1950. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1950, and provision will be made for the payment of final interest due on January 1, 1951, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1950 to December 31, 1950, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1951, or for purchase prior to that date will be given by the Secretary of the Treasury.

WALTER L. GREENE,
Acting Commissioner.

Approved: September 27, 1950.

E. H. FOLEY, Jr.,
Acting Secretary of the Treasury.

[F. R. Doc. 50–8631; Filed, Sept. 29, 1950; 8:57 a. m.]

2¾ PERCENT HOUSING INSURANCE FUND DEBENTURES, SERIES D

NOTICE OF CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 22, 1950.

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Housing Insurance Fund Debentures, Series D, of the denomination and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1951, on which date interest on such debentures shall cease:

2¾ PERCENT HOUSING INSURANCE FUND DEBENTURES, SERIES D

Denomination:	*Serial numbers (all numbers inclusive)*
$10,000	1160 to 1436

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1950. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1950, and provision will be made for the payment of final interest due on January 1, 1951, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1950 to December 31, 1950, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1951, or for purchase prior to that date will be given by the Secretary of the Treasury.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25436]

CATALOGUES FROM MT. MORRIS, ILL., TO THE SOUTHWEST

APPLICATION FOR RELIEF

SEPTEMBER 27, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to the tariffs named below.

Commodities involved: Catalogues, carloads.

From: Mt. Morris, Ill.

To: Points in the southwest.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariffs I. C. C. Nos. 3912, 3899, 3708, 3738, 3883 and 3624, Supplements 9, 18, 272, 110, 20 and 126, respectively, and A., T. & S. F., tariff I. C. C. No. 14346, Supplement 117.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25437]

INDEX CARDS FROM CINCINNATI, OHIO, TO NEW YORK, N. Y.

APPLICATION FOR RELIEF

SEPTEMBER 27, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 9800.

Commodities involved: Index cards and related articles, carloads.

From: Cincinnati, Ohio.

To: New York, N. Y.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25438]

CITRUS FRUIT FROM FLORIDA TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 27, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 642.

Commodities involved: Citrus fruit, carloads.

From: Points in Florida.

To: Points in official territory.

Grounds for relief: Circuitous routes, competition with motor carriers and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 642, Supplement 160.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose

their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25439]

AUTOMOBILES FROM EVANSVILLE, IND., TO ST. LOUIS, MO.

APPLICATION FOR RELIEF

SEPTEMBER 27, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Chicago & Eastern Illinois Railroad Company.

Commodities involved: Passenger automobiles, carloads.

From: Evansville, Ind.

To: St. Louis, Mo.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 25440]

RATES FROM AND TO THE ATLANTIC AND DANVILLE RAILWAY

APPLICATION FOR RELIEF

SEPTEMBER 27, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Atlantic and Danville Railway Company for itself and on behalf of carriers parties to Consolidated Freight Classification No. 19, Agent R. E. Boyle, Jr.'s No. 107.

Commodities involved: All commodities.

Between: Points on The Atlantic and Danville Railway, on the one hand, and points in the United States and Canada, on the other.

Grounds for relief: Competition with rail carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

ROBERT P. NAGLE

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of Robert P. Nagle, 2 Rector Street, New York City.

I. The commission's public official files disclose that Robert P. Nagle, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

[1] Filed as part of the original document.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 16th day of October, 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-8560; Filed, Sept. 29, 1950; 8:46 a. m.]

RALPH JUSTIN MINNICH

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of Ralph Justin Minnich, 235 East Twenty-second Street, New York City.

I. The Commission's public official files disclose that Ralph Justin Minnich, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 16th day of October 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

ROBERT R. MOTTUR

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of Robert R. Mottur, 521 Fifth Avenue, New York City.

I. The Commission's public official files disclose that Robert R. Mottur, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 16th day of October 1950, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

MAGEE CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of J. Edwin Magee, doing business as Magee Company, 50 Broad Street, New York City.

I. The Commission's public official files disclose that J. Edwin Magee, doing business as Magee Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 16th day of October 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

ALFRED H. MARRONE

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of Alfred H. Marrone, doing business as A. H. Marrone, 2267 East 19th Street, Brooklyn, N. Y.

I. The Commission's public official files disclose that Alfred H. Marrone, doing business as A. H. Marrone, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities and Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 16th day of October 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

W. V. MCMILLAN

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of September 1950.

In the matter of W. V. McMillan, Savoy Plaza Hotel, New York City, and 40 Exchange Place, New York City.

I. The Commission's public official files disclose that W. V. McMillan, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 16th day of October 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 9, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 16, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[F. R. Doc. 50-8565; Filed, Sept. 29, 1950; 8:47 a. m.]

[File No. 1-2559]

ADRIATIC ELECTRIC COMPANY

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 26th day of September A. D. 1950.

The New York Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1(b) promulgated thereunder, has made application to strike from registration and listing the 25-year 7 percent External Sinking Fund Gold Bonds due April 1, 1952, of Adriatic Electric Company.

The application alleges:

(1) The Italian Public Utility Credit Institute (hereinafter referred to as the Institute) by prospectus dated December 23, 1947, extended to Adriatic Electric Company bondholders an offer to issue $1,472.50 principal amount 30-year Guaranteed External Sinking Fund Bonds of 1947 due January 1, 1977, of the Institute in exchange for each $1,000 principal amount (with all coupons appurtenant thereto maturing after June 10, 1940, attached) of the External Bonds of Adriatic Electric Company. The prospectus indicates that the exchange offer was not conditioned on the acceptance thereof by holders of any specified percentage of outstanding bonds and that it was not the intention of the Institute to terminate the exchange offer unless all similar exchange offers of the Italian Republic and the Italian Credit Consortium for Public Works should be terminated simultaneously.

(2) The prospectus indicates also that as of December 23, 1947, $2,762,500 of Adriatic Electric Company bonds were outstanding, of which $677,000 had been acquired and were held in part by the issuer and in part by the treasury of the Italian Republic, leaving $2,085,500 outstanding in the hands of the public. Reports of the agent to effect these exchanges received from time to time by the applicant exchange indicate that since the date of the offer $1,900,500 of Adriatic Electric Company bonds have been surrendered in exchange for Institute bonds, leaving outstanding in the hands of the public $185,000 principal amount of such bonds.

(3) The reason for the proposed removal of the 25-year 7 percent External Sinking Fund Gold Bonds due April 1, 1952, of Adriatic Electric Company from registration and listing on the applicant exchange is that the outstanding amount thereof in the hands of the public has been so reduced as to make the distribution of the issue inadequate for continued dealings on the applicant exchange.

(4) The applicant exchange suspended dealings in the above security before the opening of the trading session on September 1, 1950.

Upon receipt of a request, prior to October 19, 1950, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 70-2484]

INTERSTATE POWER CO. AND INTERSTATE POWER CO. OF WIS.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 25th day of September A. D. 1950.

Notice is hereby given that Interstate Power Company ("Interstate"), a registered holding company, and its wholly-

[1] Filed as part of the original document.

owned public utility subsidiary company, Interstate Power Company of Wisconsin ("Interstate of Wisconsin"), have filed a joint declaration with this Commission pursuant to sections 6, 7, 9, 10, and 12 of the Public Utility Holding Company Act of 1935 ("act"), regarding the issuance by Interstate of Wisconsin and the acquisition by Interstate of 3,000 shares of common stock of the former.

Notice is further given that any interested person may, not later than October 9, 1950, request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law, raised by said declaration which he proposes to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after October 9, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated thereunder the act, or the Commission may exempt such transaction as provided in Rules U-20 and U-100 thereof.

All interested persons are referred to said joint declaration, which is on file in the offices of this Commission, for a statement of the transaction therein proposed which is summarized as follows:

Interstate of Wisconsin's present capitalization consists solely of 13,274 shares of common stock with a par value of $100.00 per share, all owned by its parent Interstate and presently pledged by Interstate under the First Mortgage Indenture, dated January 1, 1948, securing its outstanding First Mortgage Bonds. Interstate of Wisconsin proposes to issue, and Interstate proposes to acquire, 3,000 additional shares of the former's common stock in consideration for the cancellation and discharge by Interstate of $300,000 principal amount of the outstanding open account indebtedness owing by Interstate of Wisconsin to Interstate. Such additional shares, when acquired by Interstate, will be similarly pledged under said First Mortgage Indenture.

The filing states that the open account indebtedness owed by Interstate of Wisconsin to Interstate, amounting to a total of $303,701 as of July 31, 1950, represents advances made from time to time by the parent to the subsidiary, largely for construction purposes.

The filing estimates that Interstate of Wisconsin will incur, in connection with the proposed transaction, expenses in the amount of $1,363, of which $1,000 represents fees of counsel for the Declarants.

Declarants state that the proposed issuance of securities by Interstate of Wisconsin is subject to the approval of the Public Service Commission of Wisconsin, and that such approval has been obtained.

Declarants request that our order permitting said declaration to become effective be issued as soon as practicable and that said order become effective forthwith upon issuance.

By the Commission.

[File No. 70-2468]

SOUTHWESTERN GAS AND ELECTRIC CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 26th day of September A. D. 1950.

Southwestern Gas and Electric Company ("Southwestern"), a public utility subsidiary of Central and South West Corporation, a registered holding company, having filed a declaration, and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and having designated sections 6 (a) and 7 of the act and Rule U-62 promulgated thereunder as applicable to the following proposed transactions:

Southwestern proposes to submit to a vote of its stockholders at a special meeting called for such purpose an amendment to its Certificate of Incorporation with respect to the voting rights of the holders of its outstanding preferred stock. The proposed amendment would eliminate the voting rights of the preferred stockholders (who now have one vote for each share held) except the special voting rights provided for in subparagraphs 6, 7, and 9 of paragraph D of Subdivision I of Article Fourth, or as may be required by law. Such special voting rights, which are to be retained intact, include the right to elect a majority of the Board of Directors if and so long as preferred dividends shall be in default in an amount equivalent to four quarter yearly dividends.

The proposed amendment requires the favorable vote of two-thirds of the outstanding shares of preferred stock voting as a class and the favorable vote of a majority of the outstanding shares of stock of all classes.

Southwestern having further proposed to solicit its stockholders in connection with said special meeting, and having requested that the Commission enter an order, on or before September 13, 1950, authorizing the solicitation of proxies, and the Commission having entered an order on September 13, 1950, authorizing said solicitation; and

Said declaration having been filed on August 28, 1950, and the last amendment thereto having been filed on September 12, 1950, and notice of said filing, other than the proposal to solicit stockholders, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said declaration, as amended, filed pursuant to sections 6 (a) and 7 of the act, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration, as amended, filed pursuant to sections 6 (a) and 7 of the act, that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration, as amended, to become effective and to grant the request that said order become effective upon its issuance:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that said declaration, as amended, filed pursuant to sections 6 (a) and 7 of the act, be, and the same hereby is, permitted to become effective and that this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2461]

COLUMBIA GAS SYSTEM, INC., AND MANUFACTURERS LIGHT AND HEAT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 26th day of September, A. D., 1950.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its subsidiary, The Manufacturers Light and Heat Company ("Manufacturers"), having filed a joint application-declaration pursuant to the provisions of sections 6 (b), 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder, with respect to the following proposed transaction:

Manufacturers proposes to issue and sell to Columbia $6,000,000 principal amount of 3¼ percent installment promissory notes. Such notes are to be paid in equal annual installments on February 15th of each of the years 1952 to 1976, inclusive. The applicant states that the proceeds to be obtained through the issue and sale of said notes will be utilized by Manufacturers to finance its 1950 construction program.

The Pennsylvania Public Utility Commission approved the issue and sale of the proposed 3¼ percent notes by order dated August 21, 1950.

Said joint application-declaration having been filed on August 21, 1950, and an amendment thereto having been filed on September 21, 1950, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint application-declaration be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said joint application-declaration be, and hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order 15089]

OTTO SCHULZ

In re: Estate of Otto Schulz also known as Otto Karl Max Schulz, deceased. File No. D-28-12777; E. T. sec. 16948.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Margarete Schulz and Helga Schulz, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs at law, next of kin, legatees and distributees, names unknown, of Augusta Wilhelmine Schulz, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the Estate of Otto Schulz, also known as Otto Karl Max Schulz, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Hyman Wank, Public Administrator of Kings County, as Administrator, acting under the judicial supervision of the Surrogate's Court of Kings County, New York;

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the domiciliary personal representatives, heirs at law, next of kin, legatees and distributees, names unknown, of Augusta Wilhelmine Schulz, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[Vesting Order 15096]

COMPANIA ARGENTINA DE MANDATOS-SOCIEDAD ANONIMA

In re: Securities owned by and debts owing to Compania Argentina de Mandatos-Sociedad Anonima, also known as Argentina de Mandatos, Cia.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Deutsche Uberseeische Bank, A. G., also known as Banco Aleman Transatlantico and as Banco Alemao Transatlantico, the last known address of which is Fredreichstr. 103, Berlin N.W. 7, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, which has or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany, and is a national of a designated enemy country (Germany);

2. That Banco Aleman Transatlantico, the last known address of which is 1365 Casilla de Correo, Buenos Aires, Argentina, is a branch of Deutsche Uberseeische Bank, A. G., also known as Banco Aleman Transatlantico and as Banco Alemao Transatlantico, and is, or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Deutsche Uberseeische Bank, A. G., and is a national of a designated enemy country (Germany);

3. That Compania Argentina de Mandatos-Sociedad Anonima, also known as Argentina de Mandatos, Cia., is a corporation organized under the laws of Argentina, whose principal place of business is located in Buenos Aires, Argentina, and is or, since the effective date of Executive Order 8389, as amended, has been controlled by, or a substantial part of the stock of which is or has been owned or controlled, directly or indirectly, by the aforesaid Banco Aleman Transatlantico, and is a national of a designated enemy country (Germany);

4. That the property described as follows:

a. Those certain shares of stock evidenced by the certificates described in Exhibit A, attached hereto and by reference made a part hereof, together with all declared and unpaid dividends thereon,

b. Those certain debts or other obligations evidenced by six (6) checks drawn by The Chase National Bank of the City of New York, in the amounts, bearing the numbers and dated as follows:

Date	Check No.	Amount
Aug. 15, 1941	9418	$18.79
Nov. 15, 1941	9359	16.31
Dec. 26, 1941	9280	3.26
Feb. 16, 1942	9223	16.31
May 15, 1942	9210	11.42
Aug. 15, 1942	9182	11.42

together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid checks,

c. Those certain debts or other obligations evidenced by outstanding dividend checks, in an aggregate amount of $30.06, and representing dividends declared on the thirteen (13) shares of Class B common stock of The American Tobacco Company, referred to in subparagraph 2 (a) hereof, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid outstanding dividend checks,

d. That certain debt or other obligation of the Guaranty Trust Company of New York as Transfer Agent of The American Tobacco Company, 140 Broadway, New York 15, New York, representing the proceeds from the sale of subscription warrants for thirteen (13) rights, amounting to $12.71, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

e. That certain debt or other obligation owing to Compania Argentina de Mandatos-Sociedad Anonima, also known as Argentina de Mandatos, Cia., by Brown Brothers, Harriman & Co., 59 Wall Street, New York 5, New York, presently held in a Special Account for the aforesaid Compania Argentina de Mandatos-Sociedad Anonima, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and

f. Twenty-three (23) coupons detached from German Government 5½

percent JD Bonds, twenty-one (21) of the face value of $27.50 each and two (2) of $13.75 face value each, said coupons presently in the custody of White, Weld & Co., 40 Wall Street, New York 5, New York, in an account in the name of Cia. Argentina de Mandatos, S. A., together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Compania Argentina de Mandatos, S. A., also known as Argentina de Mandatos, Cia., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

5. That Banco Aleman Transatlantico and Compania Argentina de Mandatos-Sociedad Anonima, also known as Argentina de Mandatos, Cia., are controlled by, or acting for or on behalf of a designated enemy country (Germany) or persons within such country and are nationals of a designated enemy country (Germany);

6. That to the extent that the persons named in subparagraphs 1, 2 and 3 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

CHRISTINE WILHELMINE EVA RUPP AND ELISE KAROLINE RUPP HEBACH

In re: Stock and bonds owned by and debt owing to Christine Wilhelmine Eva Rupp, also known as Dina Rupp and Elise Karoline Rupp Hebach. F–28–22462.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Christine Wilhelmine Eva Rupp, also known as Dina Rupp and Elise Karoline Rupp Hebach, each of whose last known address is Frankfort, Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Fifty (50) shares of $1.00 par value common capital stock of Koppitz-Melchers, Inc., Du Bois Street and Detroit River, Detroit, Michigan, a corporation organized under the laws of the State of Michigan, evidenced by a certificate numbered 5441, registered in the name of Adolph Rupp, and presently in the custody of Jack Stattmann, 2079 National Bank Bldg., Detroit 26, Michigan, together with all declared and unpaid dividends thereon,

b. Those certain United States Savings Bonds described in Exhibit A, attached hereto and by reference made a part hereof, registered in the name of Adolph Rupp and presently in the custody of Jack Stattmann, 2079 National Bank Bldg., Detroit 26, Michigan, together with any and all rights thereunder and thereto, and

c. That certain debt or other obligation of Jack Stattmann, 2079 National Bank Bldg., Detroit 26, Michigan, representing the distributive shares of the aforesaid nationals in the Estate of Adolph Rupp, deceased, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Christine Wilhelmine Eva Rupp, also known as Dina Rupp and Elise Karoline Rupp Hebach, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

AUGUSTA MAAS

In re: Estate of Augusta (Auguste) Maas, deceased. File D–28–9681; E. T. sec. 13490.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Friedrich Maas, also known as Fritz Maas, Milchen Prasse, also known as Emilie Prasse, Lina Fransing, also known as Karoline Fransing, and Luise Maas, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof, and each of them, in and to the Estate of Augusta (Auguste) Maas, deceased is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by James W. Brown, Public Administrator of Bronx County, as Administrator c. t. a. acting under the judicial supervision of the Surrogate's Court of Bronx County, New York;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

MARY L. SMITH

In re: Estate of Mary L. Smith, deceased. File No. D–28–12871; E. T. sec. No. 17036.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Louise Hassenpflug, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof, in and to the estate of Mary L. Smith, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by The First National Iron Bank of Morristown, Lloyd W. Smith and Mrs. Helen K. Lake, as executors, acting under the judicial supervision of the County Court of Morris County, Probate Division, Morristown, New Jersey;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.
